Milk should be skimmed as soon as the least degree of acidity can be detected, as the cream will all have been precipitated when that stage is reached. Cream requires frequent stirring if even ripening is to be secured. It should be smooth and velvety and pleasantly (not decidedly) acid to the taste, and is then ready for the churn. Much of the success of the buttermaker depends on the proper ripening of the cream.

For those who prefer to salt out of the churn, the following is the best method: Remove the butter when in the granular state, weigh it and place it upon the worker, spread evenly and salt to suit the taste. Sift the salt evenly over the butter, pass the worker over it, then run the butter and work again or until the salt is thoroughly worked in. It may then be set away for a few hours, after which it should be given a second working.

The price of the cow does not indicate her value as a producer. Gilt-edged butter is something that depends on how it is made. The cow gives the milk, but upon the management of the milk, cream and butter depends the quality.

The farmer has been scolded, shamed and thoroughly lambasted for not taking better care of his cream, and with what result? Poor cream continues to come, and bad butter continues to go.—American Cultivator.

COUGH IN HOGS.

Here is a question that is probably being worked over in the minds of a great many who raise hogs. And we can say, with general application of the statement, that when hogs cough they have worms. This being the case, it is necessary to look after a remedy for killing the worms, for hogs will not thrive when wormy. One of the best remedies for worms is turpentine. It should be fed in slop to all hogs except sows that are pregnant. A tablespoonful to a bucket of slop is a fair proportion and should be allowed to stand for an hour or two before feeding it.

A thing that contributes much to the health of hogs is to keep plenty of ashes or cinders before them all the time. At this season of the year, the cobs from the corn which is being fed on the ear may be burned and charred. In charring them salt should be thrown on in sufficient amounts and it is also well to throw on some copperas.

At this time there is a great amount of disease abroad in the land, and the man who is most successful in curing it is the fellow who prevents it. Regarding the prevention of disease, there are no hard and fast rules except cleanliness of sleeping and feed-quarters, care about the amounts and time of feeding and keep the hogs free from lice, mange and worms.

ORCHARD CULTIVATION.

Orchards are not secured in a day or a year. A crop of grain or grass may occasionally be taken from the land, but it requires time to establish an orchard; hence it is a serious mistake to neglect trees and allow them to become diseased when the labor of making an orchard, and the loss of time waiting for the trees to reach the bearing stage, is considered. When an orchard has become overrun with weeds, or the trees show signs of decay, the first work should be to cut away all dead or diseased limbs and then plow the ground, applying fertilizers on the land. Work in an orchard is difficult on account of the tree roots, but it should be plowed occasionally if possible, so as to break up the hard surface soil. Rye or crimson clover may then be seeded, if in the fall, and the ground plowed again in the spring, turning the rye under. Cow peas may then be broadcasted on the ground, after danger of frost is over, and, if desired, the cow peas can be fed off by sheep, as the animals will return a large proportion of the crop to the soil as manure. With the application of the manure or fertilizer the orchard may then be seeded to clover, but no orchard should be kept permanently in grass. The proper plan is to plow the clover (or any grass crop) under, and then grow late potatoes, cabbage, or some other crop that is cultivated between the rows and which requires manuring. Peach trees thrive best when given clean cultivation, like corn, a crop of any kind sometimes doing harm. Clean cultivation, with a mulch crop such as rye, sowed in the fall and turned in the spring, is usually beneficial to many orchards.—Philadelphia Record.

HIGHER PRICES FOR PORK.

The Rural World offers a great deal of encouragement in the following little item to those who raise pork:

"Indications at the present time are for good prices for pork hogs at the leading markets in this country. The pork products have been pretty well cleaned up by the home consumption and the export trade. Oftimes these are a burden to the market, as they have to be taken care of and help to smash it, and while the number of hogs that have been shipped to market have been larger than last year, the price is more than $1 higher per hundred weight.

"Unless something occurs that is not yet in sight these prices ought to hold up until the heavy shipping commences in the Fall, when other things may influence the market. As prices are good, hogs that are ready should be shipped."

SPRAYING IS PROFITABLE.

Judging from the experiments thus far made it appears that spraying for blight is an operation which no potato grower can afford to neglect. Thirty-three farmers' business experiments made during the past three years show an average net profit of $23.79 per acre due to spraying.

The largest size of fine paper is known as "antiquarian." The sheets are 53x31 inches.

NEWS AND NOTES FOR WOMEN

A SCHOOL FOR SERVANTS.

Mrs. Johnson, the wife of the present progressive mayor of Cleveland, is engaged in a good work in endeavoring to establish a training school for servants. That there is need of such an institution every housekeeper of experience will acknowledge, for though there is plenty of raw material in the way of living out girls, there is little of a kind that can be utilized at once in domestic establishments.

Most of the girls who are looking for places as servants have been in the country only a little while, but they usually have the audacity, born of supreme ignorance, to demand as high wages as those who are thoroughly competent. They do not seem to realize that wages are always regulated in accordance with the ability of the person engaged to perform adequately the duties entrusted to them any they expect while they are being taught the simplest household duties to receive the same compensation as those who have mastered difficulties through years of patient labor and thought. Unfortunately there are few servants of this skilled class. This makes room for the clumsy peasant girls, who perhaps toiled in the fields at home, and who have no knowledge of the work that is required in any department of a refined American home. They are not of any particular nationality. They are all pretty much alike as far as lack of adaptability to the labor which they undertake is concerned, and in the ordinary house they are a good deal like the proverbial bull in the China shop, for they break all before them.

In the good old times girls in their teens were taken into families and carefully trained as domestics. They thought it no humilation to be called "help," and after years of pleasant duties were married from the homes of their employers and became good wives and mothers who occupied no inferior stations.

Mrs. Johnson's plan is to teach deportment as well as the other branches of domestic effort. Surely this is a move in the right direction, considering the unmannerly women who so frequently go out to service, and who have not the sightest idea of politeness or of the relations which should exist between the mistress and the maid. If Mrs. Johnson's school raises the standard of efficiency in servantdom it will be an inspiration for the establishment of similar schools in other parts of the country.—American Cultivator.

THE BLEMISH OF AMERICAN WOMANHOOD.

The blemish of American womanhood, says W. D. Howells in Harper's Bazar, is their speech. American women too frequently twang, and whine, and whiffle, and whinny, and manage their voices carelessly and lazily. The question, he thinks, is one that might best be considered by a mothers' convention, or made a vital topic in women's clubs.

"Our women have not a natural defect to overcome, they have only a habit to correct," he continues. "The average must first be taught that it is worth while to speak beautifully, that it is even a duty to speak beautifully. Once persuade the average American woman that it is her duty to do this, and the thing is as good as done. . . . Let her be made to realize that she ought to speak clearly, promptly, strenuously, as well as sweetly, from her throat, and she will do it; or if she cannot, she will make her children do it. Supply her vivid fancy with the fact that it is a pain and offence to the listener to hear her speak incorrectly, and she will not speak incorrectly if she knows it. . . . When women have mastered this ideal, they cannot feel hurt or affronted if the school continues their work in the case of their children. It is possible that it may yet come to such a pass with us that the teacher of the public schools, who may now send home a child coming with unwashed hands or face, shall have the right to expel any little one speaking through its nose.

FAVORS MALE CHAPERON.

A journal devoted to social doings declares in favor of male chaperons, there being, in its opinion, insuperable objections to the female duenna. The chaperon must manifestly be either young or old, there being no middle age in the present day. Now, if she is young—that is, under fifty-five or sixty—there is danger that she may monopolize all the attentions and all the dances, for she is much better versed in the arts of fascination than is her charge. The young chaperon, therefore, is indisputably a mistake. But the old one is no better. To be old she must be a septuagenarian or an octogenarian. She is probably inclined to be soporific and querulous. Before the evening is half over she is sure to be seized with an overwhelming desire to get home and go to bed, and she may even feel a certain secret satisfaction in hurrying Angelina away when she is desperately desirous of one more waltz with Edwin. But with the male chaperon all these difficulties vanish. He is ideal. It is not necessary for him to sit huddled against the wall all the evening if he is elderly, nor does he enter into rivalry with his charge if he is young. Moreover, he is better able to ward off the approaches of the detrimental and to encourage the advances of the eligible.

EVENING GOWNS.

All of these extravagant models offer suggestions as to style, and they may be copied, with the substitution of different materials and colorings and trimmings, or by some slight change of design.

Thin fabrics are again to be in style, plain, painted and embroidered, and also brocaded silk and plain, lustrous silks and satins. The latter require more trimming, and, oddly enough, soutache braiding is seen on some extremely smart evening gowns. A band of braiding just around the hem of the skirt and the entire jacket, or band across the top of the waist, is a mass of braiding. Again this is on the elaborate order of model, but with just a little exercise of thought and taste the same effect may be secured by bands of velvet or lace where is the braiding.—From the Special Autumn Fashion Number of Harper's Bazar.

THE NEW SKIRTS.

Skirts are becoming much more severe than those of last year; the fulness does not hang toward the front, but is decidedly more toward the sides and back, while just around the hips there is no fulness at all; and yet under no circumstances must the skirts be strained back too tightly. The pleated skirt still survives, but with the pleats stitched down to below the hips. Often the jacket, too, is laid in pleats from the shoulders in front.—From the Special Autumn Fashion Number of Harper's Bazar.

FASHION NOTES.

Rings are big and bracelets are widening rapidly, but the earring remains small in spite of the jeweller's efforts.

A great many plaited skirts are seen —more than of any other kind.

The Eton jacket is braided elaborately and finished with straps and velvet.

Silk fringe, which is a late favorite of fashion, is a graceful and beautiful decoration for evening wraps and gowns.

Pretty chains are made up of alternate links of the metal and of single round pearls, by little bars of red or blue enamel or of small baroque pearls.

Plaited skirts are gored in a host of ways to provide for sheath-fitting hips and wide hems.

A favorite style for ordinary wear is a plain tortoise shell comb pierced at intervals with paste diamonds simulating nail heads.

When the comb does form a visible part of the coiffure it is both beautiful and striking.

The reintroduction of the Empire models of hairdressing has opened the way for the quaint high comb of the same period.

Embroidered collars and cuffs of heavy white linen give a touch of neatness to the plaid school frock of a little miss of nine.

Plaid belts are to be found in all manner of belt materials, not excluding patent leather.

Heavy lace or braided half length panels, two on each side, set above groups of plaits, add a dressy touch to some of the new skirts. Corresponding lace or braiding appears upon the bodice.

Martial Fancies.

The latest from Mars is that it is inhabited. That is the opinion of Professors Pickering and Lowell, two leading astronomers who have been studying that planet more than other astronomers. Lowell is plainly outspoken in his belief, and while Pickering is a little conservative, he doesn't know a good argument against it.

The point that they rely on is that there is water on the planet, but there is not sufficient of it to furnish irrigation or transportation for the whole sphere, so what accumulates in certain portions is carried by canals to the thirsty regions. The appearance of these canals indicates knowledge and design, and it is probable that the men up there may know more than their terrestrial neighbors. Well, what if there are people up there? Nothing, of course, if one has no imagination, no play of the fancy, no soaring of the thought, nothing but a reaching forth for something to eat or something to laugh at. But if, when we look at that little red orb, gazing at us from the night sky, and say to ourselves there are men up there, much like us terrestrials, maybe better and purer, but yet turned out of Paradise, perhaps, and making that little world smile in flowers and fruits, how we will want to talk to them and ask them how they are getting along and how about politics, religion, society and what they think of the sunspots, the solar system and the milky way, and then, since we can tell them all about their north pole, won't they tell us about ours? There is no limit to the excursions of one's fancy if our brethren are up there, and, like us, engaged in the universal work of building canals.—Portland (Me.) Advertiser.

Any bad speller can pose nowadays as a reformer, suggests the Atlanta Journal.

THOMAS HARRISON
FOR COMMISSIONER SECOND DISTRICT
W. Y. ATCHISON
FOR CONGRESS
W. B. CRAIG
FOR STATE SENATOR.
H. S. DOSTER

H. S. DOSTER, candidate for the State Senate from this District, was in Clanton this week. He is on the ticket headed by B. B. Comer, and advocates most heartily those measures of the State platform, among which are: A better regulation of freight rates, a more liberal appropriation for the common schools until every school of the District shall have an eight or nine months public school term. A larger appropriation for the Confederate soldiers and a more commodious soldiers' home. He congratulates the State Democratic administration by the appropriations already made for those who wore the grey and regrets that there is no other party in this State that ever appropriated one dollar to this cause. He will do all in his power for good roads, but he will not put an additional tax on the people unless they are first consulted, and will favor no stock law against the wishes of the people. He stands ready to co operate with the Representative of this county in everything that pertains to its highest welfare. He feels assured of his election by a good majority.

DEATH OF Mrs. S. E. JOHNSON

At the end of the week, Saturday night, about 10 o'clock, the tired spirit of Mrs. S. E. Johnson wafted its way to realms above. While Mrs. Johnson had been ailing for a long time, the end came unexpectedly, and the grief stricken family were hurriedly called together to hear the sad news. The eldest son, Dr. N. S. Johnson, was at home, and did all that was possible, while Sam was called home from Bedford City, Va., and Arthur from Nashville, Tenn., Ruth, the youngest, and only daughter, being at home with her mother.

Mrs. Johnson was an estimable lady, a kind and devoted mother, a Christian woman, for many years a member of the Baptist church. She survived her husband, the late Dr. J. S. Johnson, Jr., about seven years. Of a quiet and retiring disposition, her years of widowhood had been passed in the interests of her children, who mourn the loss of a good parent.

The funeral sermon was preached by Rev. A. C. Swindall Monday afternoon, the interment taking place at the Clanton cemetery Tuesday morning, a large number of mourning neighbors and friends attending. She was 51 years of age had led a blameless life, and her end is peace.

IN MEMORIAM.

On October 19th our dear Aunt, Mrs. Charlotte Burford, quietly passed away. She was born March 17 1841, and united with the Baptist church at Mt. Hebron at the age of 15. She lived strong in the faith for half a century. Although in feeble health for several years, she was patient and cheerful, and bore her burdens with fortitude, submitting in all things to the will of God. She leaves one son, three sisters, one granddaughter, many near relatives and a host of friends to mourn her departure. We may be blind and cannot see why our beloved Aunt was taken from us just at this time, but we bow in humble submission to the will of Him that doeth all things well. We feel that our loss is her eternal gain; we know that she has gone to a home not made with hands—eternal in the heavens. Oh! how often have we heard her say, I am ready to go, I am only waiting for the Master's call. We are full of sadness and sorrow but Oh! Lord, help us to say, Thy will be done. E.

Mr. Wadsworth Submits His Claims

In submitting my name to the voters of the district for the office of Senator, I think it appropriate that I give my views on some of the matters and subjects likely to arise during the next session of the Legislature, but there are so many matters which will demand attention and action that I can name only a few, but in all matters I shall act for what I conceive the best interest of the people of the county generally, and shall show no favoritism to any class.

On the subject of rate reform which seems to be the one most prominently before the people my position is what it has been for a long time. I am in favor of rate reform as well as the legitimate control and regulation of all public utilities that possess the right to condemn individual or corporate property, but not to the extent that it will deprive the stock holders of a fair income on their investment.

Second: I favor good roads and think that at least a part of the convict earnings should be applied to the improvement of the public roads and that counties permitted to issue long time low rate interest bearing bonds, and that the proceeds of the same be used on the roads, so that the future generation who will be the beneficiaries of the good roads thus made will help pay the principal and interest of the bonds. I would suggest that the bond issue be left to a dicision of the qualified voters of the county. I am also in favor of a per capita road tax to be collected from each person subject to road duty.

My reasons for this are that a competent road overseer can take ten well paid laborers properly equipped with tools and who know they will receive pay for their services and do more work than a hundred road hands who are what you might properly call conscripted into service, who are poorly supplied with tools, and in many instances poorly directed. This would also be a great savings to the industries of the country in many ways. I have always said to the managers of my teams that I would much prefer that the licks be placed on the road in the way of repairs than on dumb brutes which are often overloaded.

Third: I heartily favor liberal appropriations to the old soldiers and their widows.

Fourth: I favor better common schools, for the common schools reaches the masses in the country and especially the poor who are financially unable to send their children off to high grade schools.

Fifth: I favor local option, but let no whiskey be sold except in towns where there is sufficient police protection.

Sixth: I favor such laws as will compel the payment of all witnesses in criminal cases at the term of the court which they attend, and that better provisions for the payment of witnesses in civil cases.

Seventh: I favor a rigid enforcement of all laws, good or bad. If good they should be kept on the statute books and if bad they should be repealed as quickly as possible.

Eighth: I am opposed to class legislation, and believe that the laws should apply to the rich and poor alike.

Ninth: I oppose spending such large sums of money in primary elections, for under the present customs only the rich man can obtain office. Such a custom as now prevails prevents the poor man from having any show as to who shall be his law maker or other officer, and this state of affairs will surely bring ruin to our country. The poor man produces the majority of the wealth of the country and ought therefore to have a fair show in govermental affairs.

An experience of more than forty years in handling of the affairs and industries of this country, including agriculture, manufacturing and merchandising, I think, fits and qualifies me to some extent to know what is for the best interests of the people, and should I be favored by being elected, I will do my uttermost to aid in upbuilding of the country, and last but not least, I want to see the day come when American people will take for their guiding star "fair elections and an honest count."

W. W. WADSWORTH.

October 20, 1906

Henry E. Jones of Tampa, Fla., writes: "I can thank God for my present health, due to Foley's Kidney Cure. I tried doctors and all kinds of kidney cures, but nothing done me much good till I took Foley's Kidney Cure. Four bottles cured me, and I have no more pains in my back and shoulders. I am 62 years old and suffered long, but thanks to Foley's Kidney Cure I am well and can walk and enjoy myself. It is a pleasure to recommend it to those needing a kidney medicine. Upchurch Drug co.

Program Sunday School Convention.

The annual convention of District No. 2 will be held at Corinth church, 5 miles east of Verbena, 2d Sunday in November, 1906.

9:45 a.m. Devotional exercises, E L Jones; singing, led by A. L. Robinson.

10. President's report, D. S. Robinson; Secretary's report, Miss Lila Meriwether.

10:20. The influence of the Sunday school, P. M. Jones.

10:40. What is needed in my Sunday school? W. L. Pyron, J. F. Williams, John Norris, W. H. Strock, Cato Pattillo, W. C. Rich, Jeb Mims, E L Jones, Joseph Mims, D. S. Robinson.

11:30. Address by Judge Joseph Carthel, State Secretary.

1:15. Devotional exercises, Dr. H. W. Caffey

1:30. Music in the Sunday school, T. L. Robinson.

2. Discussion of primary work, Mrs. Agnes Farr, Miss Maggie Long, Miss Alice Strock, Miss Dera Sims, Mrs. D S Robinson, Mrs. M. E. Baldwin.

2:30. The Sunday school as a field of training, A L. Harris.

3. A well organized Sunday school, Judson Strock.

It is earnestly hoped that every school in Beats 5 and 10 will be represented at this convention.

D. S. ROBINSON.

or boy, man or woman, is quickly out of pain if Bucklen's Arnica Salve is applied promptly. G. W. Welch, of Tekonsha, Mich., says: I use it in my family for cuts, sores and all skin injuries, and find it perfect." Quickest Pile cure known. Best healing salve made. 25c at Upchurch Drug co.

A Beat 3 Voter.

Dear Editor—Did you read that article in last Union signed Moses A. Killgore, did you ever see such a pack of nonsense in a news paper? I am not going to undertake the Latham, Fitts and Nix controversy at all but will say that Moses the great, made some of the broadest assertions in that letter I ever heard. He gave people the lie that he knew not, according to his own statement. Mr. Nix may be a good, truthful man, but his mouth isn't any prayer book at all when it comes to politics. People nowadays vote too much for the party regardless of the character of the man whom they vote for. A prominent republican in Chilton county not long since made the following remaks, he said, you democrats may put the best man in the county on your ticket and we can take a yellow H—d on your ticket and beat you, we clearly demonstrated that in the last sheriff's election. As to Mr Fitts I am a friend of his and take him to be a friend of mine, as for his being guilty of the charge against him I can only say I don't know, but if elected I believe he has backbone enough to be the sheriff, I don't think he would resign if there was some to be arrested that he thought didn't wish to be arrested.

Some people wont take the Banner and some are so cranky they wont let it come on until their subscription expires, yet they will borrow it and read it I know they do for when they refer to things in the Banner they will say I see. I want say to such people if you haven't seen last weeks Banner just go to some good man (he has got it) and get it and read Mr. Bone's piece, it is worth the price of the paper.

A BEAT 3 VOTER.

The Better Way

The tissues of the throat are inflamed and irritated; you cough, and there is more irritation—more coughing. You take a cough mixture and it eases the irritation—for a while. You take

SCOTT'S EMULSION

and it *cures the cold.* That's what is necessary. It soothes the throat because it reduces the irritation; cures the cold because it drives out the inflammation; builds up the weakened tissues because it nourishes them back to their natural strength. That's how Scott's Emulsion deals with a sore throat, a cough, a cold, or bronchitis.

Editor Banner—Please give me space for a few words in regard to the death of my dear grandma Childress, who passed away the 15th. She was 82 years of age and leaves her dear children and a host of friends to mourn her loss. Our loss but heaven's gain. Oh, how it fills my heart with sadness to think I have no grandma now. I loved her so dearly; I feel today that she has joined the angel's band. I hope I will meet her in the beautiful land so bright and fair. I will say to those that have a dear grandma, to love and obey her, do all you can to make her happy. It is our duty. Grandma had many friends to lend a helping hand. Her suffering was great with cancer. She asked the Lord to take her, she was willing and wanted to go and join the angel band. She asked me to sing a good song. She loved the Word of God. This leaves a great consolation and relieves an aching heart. She was laid to rest in the Childress cemetery with her loved ones.

OLA GIBBONS.

Many men give lavishly of gold.
To build bridges and castles and towers of old;
If you want everlasting fame, a benefactor be,
Give the poor and needy Rocky Mountain tea.

This is the season of decay and weakened vitality. Nature is being shorn of its beauty and bloom. If you would retain yours, fortify your system with Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. Upchurch Drug co.

Called to Jesus.

Clanton, Oct. 23, 1906

Editor Banner—Please allow an east Chilton subscriber a small space in the dear old paper. In the midst of the rush to gather the storm cotton, the death angel visited the home of brother and sister E. N. Miner and took the spirit of little Andrew, aged six, to the one who gave it; the body was laid to rest in Cane Creek cemetery. Don't mourn for him, for he has gone to heaven. May the Lord bless and comfort their sad hearts; the funeral was preached by the writer,

W. S. Cox.

A Young Mother at 70

"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her, until six months ago, when she began taking Electric Bitters, which have completely cured her and restored the strength and activity she had in the prime of life," writes Mrs W. L. Gilpatrick, of Danforth, Me. Greatest restorative medicine on the globe. Sets Stomach, Liver and Kidneys right, purifies the blood, and cures Malaria, Billiousness and Weaknesses. Wonderful nerve Tonic Price 50c. Guaranteed by Upchurch Drug co.

"A SQUARE DEAL."

How President Roosevelt's Motto is illustrated by Pepsicola.

Florence Drug co., say Pepsikola Tablets is the best possible illustration of what our strenous President means by a square deal. This remarkable remedy is sold to everybody with the express agreement that if it does not do exactly as represented the buyers money will be cheerfully refunded. They are guaranteed to quickly relieve and permanently cure all stomach troubles, tone up the whole system, give new life and vigor, better courage, more vitality, and bring the weak, weary and despondent back to joyous health.

If they do not cure you of heartburn, sour stomach, loss of appetite, dizziness, headache, lassitude, and all other unpleasant conditions arising from Indigestion, all you have to do is to step into Florence Drug store and they will pay your money back.

The price is only 25c if they cure. If they fail the cost is nothing. But they won't fail. Florence Drug Co., will tell you that dozens of people you know have been benefitted and cured of indigestion and dyspepsia by Pepsikola Tablets, and they will give you a "square deal." No cure no pay.

THE REASON WHY

We so Strongly Endorse and Recommend Vinol to the People of Clanton.

A member of the Upchurch drug co., says: "We do not believe there is a man, woman or child in Clanton whom our famous cod liver preparation, Vinol, will not benefit at this season of the year."

"We believe there is no need for so many people to drag around run-down, tired out and debilitated or for old people to remain weak and infirm when we guarantee Vinol will restore health and strength."

Continued the druggist: "For centuries cod liver oil has been recognized as the grandest of all body-building agents for wasted human strength and vitality, but on account of the nauseating and system-clogging oil which enveloped its curative properties few could take it with benefit.

"In Vinol you get in a concentrated form every one of the curative and strength-creating elements of cod liver oil actually taken from fresh cods' liver the useless system-clogging oil eliminated, and tonic iron added,

"Vinol is guaranteed by over five thousand of the leading druggist of the United States to create strength for old people, for the run down, tired and debilitated, weak, sickly women and children, and after a severe sickness.

"We ask every such person in Clanton to try Vinol, It cost nothing if it fails." Upchurch Drug co.

NOTE.—While we are sole agents for Vinol in Clanton, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

REGISTRATION NOTICE.

In accordance with the provisions of Section 6, of an Act "To further regulate elections in the State of Alabama," approved Oct. 6th, 1903, the Board of Registrars of the county of Chilton, Alabama, do hereby give notice that the following appointments are set for the purpose of registering those qualified under the law to register as electors:

Beat No. 4, at Clanton, on Friday and Saturday before the election in November, 1906,

Board of Registrars Chilton County. } R. H. Gaines
B. L. Jones
P. M. Moore

Julius Ceaser

was a man of nerve—but sickness left its mark and he became aged before his time. Sickness is often caused by a torpid liver. Herbine will regulate your liver and give you health Mrs. Carrie Austin, Hollon, Kansas, writes: "I consider Herbine the best medicine ever heard of. I am never without it," Sold by Upchurch Drug co.

TAX NOTICE.

SECOND ROUND.

HERBINE

The Popular Liver Medicine Will Keep You Well

A GUARANTEED CURE for all diseases produced by TORPID LIVER and IMPURE BLOOD. Do not fill your system with Arsenic, Calomel and Quinine. They act as rank poisons which vitiate the blood, debilitate the system, and leave a trail of bad symptoms which require years to obliterate. HERBINE is purely vegetable and contains no mineral or narcotic poisons, is absolutely harmless and is the simple remedy of nature. It carries off all poison in the system and leaves no injurious effects.

CURED BY HERBINE AFTER OTHER REMEDIES FAILED

Mr. L. A. Hicks, Iredell, Texas, says: "I was sick in bed for eight months with liver trouble, the doctor seemed to do me no good. I was told to try Herbine, and it cured me in a short time. I cannot recommend this wonderful medicine too highly."

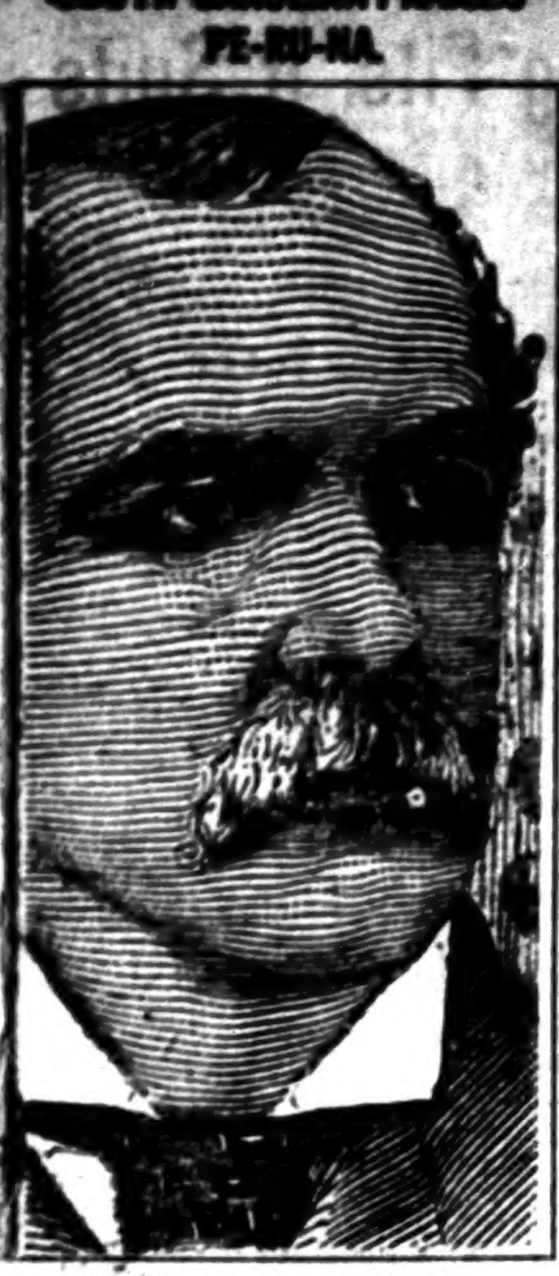
UNITED STATES SENATOR FROM SOUTH CAROLINA PRAISES PE-RU-NA.



Ex-Senator M. C. Butler.

Dyspepsia Is Often Caused By Catarrh of the Stomach—Peruna Relieves Catarrh of the Stomach and Is Therefore a Remedy For Dyspepsia.

Hon. M. C. Butler, Ex-U. S. Senator from South Carolina for two terms, in a letter from Washington, D. C., writes to the Peruna Medicine Co., as follows:

"I can recommend Peruna for dyspepsia and stomach trouble. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine, besides a good tonic."

CATARRH of the stomach is the correct name for most cases of dyspepsia.

In order to cure catarrh of the stomach the catarrh must be eradicated.

Only an internal catarrh remedy, such as Peruna, is available.

Peruna exactly meets the indications.

Evolution.

The first time the business man was confronted with the alternative of doing wrong or losing money, he let the money go, and that was all there was to it. The second time, he snorted some, but still he let the money go. The third time he exclaimed, "Well, well!" held the matter open for a day or two, and let the money go once more. The fourth time he consulted the authorities and discovered that wrong is only a relative term, after all. The fifth time, and ever after, the alternative found him no longer a mere business man, but a financier.—Life.

More than 2,000 persons die of measles in London every year.

The money value of the Vatican is estimated at $150,000,000.

PETROLEUM IN TRINIDAD.

An Article Resembling the Well-Known Russian Product.

The island of Trinidad, off the northern coast of South America, has long been famous for its stores of pitch, or asphalt. This is found in a basin or lake, whose contents are replenished naturally when the material is removed. It has been inferred consequently that there must be a hidden reservoir in the rocks below, and that perhaps oil might also exist there in considerable quantities. An English geologist, E. H. Cunningham Craig, went to Trinidad three years ago to hunt for petroleum, and he has been fairly successful, though the investigation is not yet ended. He talked about his work the other day in London, before the Royal Colonial Institute. Trinidad is under English rule.

The actual evidence of the presence of petroleum is varied. Sticky asphalt—erroneously called pitch—may be seen oozing out from sandstone on the coast or inland, and oil is found slowly exuding from the banks of streams. Gas wells and mud volcanoes discharging gases (methane and others), are met with, indicating that the oil rocks there do not quite reach the surface; the larger mud volcanoes attain diameters of 100 yards. Deposits of asphalt formed from the gradual drying up of the oil by evaporation and oxidation are characteristic of the actual outcrops of the oil rocks. Thus the appearance of "oil shows" vary much. But they are frequent all over the southern half of the island and near the shores.

As regards the quality of the oil, Professor Carmody, the government analyst of Trinidad, has found many varieties, mostly with an asphaltic base, some rich in paraffine. In general the petroleum resembles the Russian petroleum closely, and the geology of Trinidad presents many striking resemblances to the Baku oil fields. A crude oil from the Galeota sand has a specific gravity of from 0.88 to 0.91, and contains from 12 to 20 percent of petroleum spirit, from 30 to 50 percent of illuminating oil and 30 to 45 percent of lubricating oil, and not more than 5 percent of bitumen; the proportion of sulphur is very small. Rio Blanco oil contains more lubricating oil and less illuminating oil. The La Brea oil sand has, so far, been recognized in the La Brea district and in the pitch lake only.

Many theories have been advanced to account for this pitch lake; the pitch itself was formed in the way above indicated, and represents an emulsion of about 45 percent of bitumen, 25 percent of fine clay and 30 percent of water. Its formation can be studied in the district. During the discussion which followed the reading of Mr. Craig's paper, Sir David Wilson remarked that up to 1887 the lake brought the government about $7,500 annually; afterwards, when an American company had satisfied itself that the asphalt made good road material, it yielded more than thirty times as much revenue.

G. H. Allen walked 1,000 miles in 17 days.

OPERATIONS AVOIDED

Two Grateful Letters from Women Who Avoided Serious Operations.—Many Women Suffering from Like Conditions Will Be Interested.

Margrite Ryan
Margret Merkley

When a physician tells a woman, suffering from female trouble, that an operation is necessary it, of course, frightens her.

The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation, she felt that her death knell had sounded.

Our hospitals are full of women who are there for just such operations!

It is quite true that these troubles may reach a stage where an operation is the only resource, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said an operation must be performed. In fact, up to the point where the knife must be used to secure instant relief, this medicine is certain to help.

The strongest and most grateful statements possible to make come from women who, by taking Lydia E. Pinkham's Vegetable Compound, have escaped serious operations.

Margrite Ryan, Treasurer of St. Andrew's Society, Indianapolis, Ind., writes of her cure as follows:

Dear Mrs. Pinkham:—

"I cannot find words to express my thanks for the good Lydia E. Pinkham's Vegetable Compound did me. The doctor said I could not get well unless I had an operation for a female trouble from which I suffered. I knew I could not stand the strain of an operation and made up my mind I would be an invalid for life. Hearing how Lydia E. Pinkham's Vegetable Compound had saved other women from serious operations I decided to try it, and in less than four months I was entirely cured; and words fail to express my thankfulness."

Miss Margret Merkley, of 275 3d Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:—

"Loss of strength, extreme nervousness, severe shooting pains through the pelvic organs, cramps, bearing-down pains, and an irritable disposition compelled me to seek medical advice. The doctor, after making an examination, said that I had a serious female trouble and ulceration, and advised an operation as my only hope. To this I strongly objected—and I decided as a last resort to try Lydia E. Pinkham's Vegetable Compound.

"To my surprise the ulceration healed, all the bad symptoms disappeared, and I am once more strong, vigorous and well; and I cannot express my thanks for what it has done for me."

Serious feminine troubles are steadily on the increase among women—and before submitting to an operation every woman should try Lydia E. Pinkham's Vegetable Compound, and write Mrs. Pinkham at Lynn, Mass. for advice.

For thirty years Lydia E. Pinkham's Vegetable Compound has been curing the worst forms of female complaints, all functional troubles, inflammation, ulceration, falling and displacement, weakness, irregularities, indigestion and nervous prostration. Any woman who could read the many grateful letters on file in Mrs. Pinkham's office would be convinced of the efficiency of her advice and Lydia E. Pinkham's Vegetable Compound.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

CLOVER PERFUME.

There's a thrilling, tugging feeling
On each heartstring that I know,
There's a perfume in my nostrils
From the fields of long ago,
There's a vision in my memory
Making all the world grow dim,
Taking me away back yonder
Where us fellows used to swim.

And the vision's central picture
Is a laughing blue-eyed maid
Standing in the rippling shallows
Where we used to go to wade;
I can see her pink toes gleaming
In the rippling stream where she,
With her skirts held safe from wetting,
Laughs across the years at me.

I can see trees we climbed in,
I can see the streams we fished,
I can see the log we sat on
In those old days, when we wished
That we two were grown up people,
Gone out in the world and far;
Now—the greatest grief I know of
Is in knowing that we are.

I would rather be back yonder,
Back 'neath childhood's skies of blue
Than to count my wealth in millions;
If I could go dancing through
That wee stream we loved to wade in,
Climb the trees we used to climb,
I would never wish to grow up,
I'd be happy all the time.

Comes the thrill along my heartstrings,
When the clover is in bloom,
Then my nostrils catch the far-blown
Tantalizing sweet perfume
From the fields I used to romp in,
And I hear a lilt of glee,
And a maid, barefooted, blue-eyed,
Laughs across the years at me.
—J. M. Lewis, in Houston Post.

Two Meetings

A railway station—filled with a crowd of folk, some laughing, some crying, some pretending—some not.

Victoria—at 11 o'clock, and the boat train for Dover.

"Good-by, Jim, take care of yourself!" The tall girl gathered her worn cloak closer round her—the lady who held the door handle of the next compartment, a first-class, was robed in sables. "I wish I were coming too!"

"So do I, old lady." A handsome man bent forward on the seat of the third-class carriage, and his hand closed over her slim ungloved fingers with a tender pressure.

His blue eyes looked most suspiciously moist—but what of that? It is not every one who can afford to be callous.

"It seems such a long time—three years, Jim!" the girl said again, and there was a break in her voice. "And it's such a chance, a mere——"

"A mere chance—yes," the man echoed; "but we must just trust to chance, Monica; it's the only thing to be done, dear. Keep up a good heart, because I shall be coming back in three years' time. Think of that, little one. Three years, perhaps today, this very day, you may be standing at this very station, waiting for my train to come in; and I shall dash out—I shall be hungering for the sight and feel of you, darling, and you will throw your arms around my neck——"

"Jim!" the tears so bravely withheld up till now overflowed at last, and fell on to the neat but worn cloak.

The lady in the furs turned at the sound of the pain-filled tones, and her own voice grew a little husky as the trains steamed off.

"Good-bye, Monica, my darling!"

A moment later Monica Ward was standing on an empty platform, with an empty, aching heart.

A hand touched her shoulder.

"Can I take you anywhere?" a pleasant, sympathetic voice said. It was the lady in furs. "I always think the first few moments are the worst—afterward——"

"Afterward," repeated Monica in dull tones.

"Oh! afterward one gets accustomed to it," returned the other lightly, "and one wonders why one felt so much. Come, will you let me just drop you anywhere?"

It seemed all one to Monica Ward what she did, and where she went. She nodded, and tried to smile.

"Thank you," she said, "it is very good of you to trouble yourself about a stranger——"

"After all—we are sisters," the other said a little dryly. "Come!"

And for the next half hour Monica bowled along in the lady's carriage, behind a pair of prancing chestnut horses.

She did not remember till she stood once more in the little room, which looked so deserted now that Jim had gone, that she had never found out the name of her friend in need.

And the days slipped into weeks and the weeks into months, and all the while Jim Ward, in a distant country, was trying to court the fortune which had failed to smile on him in England.

. . . .

"It's due now, miss, quite due, and I don't think it's more than a few minutes late."

Monica Ward, tall and slim, with the pretty color coming and going in her soft cheeks, stood once more on the platform awaiting the train.

Suddenly there was a noise—a puffing, panting sound, and the train was in.

Monica's heart beat fast, and she was so excited that she could hardly see anything in front of her. Jim was coming home—home——.

Was this Jim?—this man coming toward her with Jim's face, and yet not his face—with a rolling gait and unsteady eyes?

She shuddered; her color forsook her cheeks, her eyes looked frightened—her feet shook so that she could hardly stand.

After all, as the other woman had said, one gets accustomed to it. Better—far better—if he had stayed away altogether than return to her like this!

Involuntarily she took a step backward; the advancing man noticed it and her.

"My pretty dear!" he cried thickly—and Monica was just recoiling in horror when a man laid his arm on hers.

"Monica!" a well-known voice said.

She turned—Jim, the real Jim, was standing behind her smiling and holding out his hands.

"Monica!" he cried, "surely you haven't forgotten me?"

And then, somehow or another, she found herself in his arms—sobbing and laughing in one breath out of sheer joy and relief.

"That other man!" she cried a little incoherently, "he was so like you—that I thought it was you, Jim——"

"Monica!" returned her husband reproachfully, "and that fellow was drunk! Never mind, darling," slipping her hand through his arm, "come home—somebody has come to claim him—somebody—some poor devil of a somebody."

Monica looked half fearfully across the platform. Not far away stood the man whom she had mistaken for Jim, standing surrounded by porters, and a small crowd of gapers—a footman was urging, imploring. By his side, bravely facing them all, stood some one whom she recollected as in a dream.

"Afterward, one gets accustomed to it."

The words cleared Monica's brain, they echoed in her ears—the bright, panting engine throbbed to the same refrain.

Ah! she remembered. It was her friend of that black day three years ago, whom she had not seen since. What chance—what irony of fate had brought them together again.

"Jim," she said, suddenly. "That man over there—he won't move—they can't do anything with him. Can't you, won't you, go over and see if you can get him away from those gaping crowds? That's his wife—she was kind to me—the day you left. Ah! Jim, if it had been you!"

Jim Ward needed no second bidding. With a few steady strides he reached the little group. The lady in furs was pleading, scolding, threatening, but all to no purpose.

What she could not accomplish, Jim's strong voice and steady, authoritative manner did. In a few minutes he had escorted the traveler to the waiting carriage and left him there.

Monica stood just outside the door, and he linked her arm in his once more as they walked to the cab.

"How could I have thought it was you, Jim?" she said in a softly happy voice. "I'm so glad—and yet—that day, that miserable day—I envied her!"

They were in the cab, and he took her in his arms and kissed her.

"But you don't, now?" he asked passionately.

"No, I don't, now," she answered in tones of deep content; "I almost think—it was worth letting you go—to have you back again, Jim!"

And for the moment he thought so too.—Black and White.

Grumbling Husbands.

As the grumbling husband is practically unknown in the United States the letters which appear daily in the columns of your paper are most interesting and illuminating to an American woman. With us the man who marries takes a wife to be the partner of his joys and sorrows. Furthermore, the American wife is quite as fastidious about her food as is her husband, and would as soon resent "stewed bacon and burnt eggs," the result being that while she may not actually prepare it, she can at least direct her servants in the preparation of the meals.

To the young and "Unhappy Wife," whose letter appeared in Friday's issue and whose eyes "fill with tears," I would say that tears and crinolines went out of style at about the same period in the United States, and that an American woman would feel that she was taking a mean advantage of her husband should she take refuge in tears. Don't feed your husband on delicate entrees; give him roast beef, boiled potatoes and stewed fruit. It is the menu most appreciated by the average Englishman, and it surely requires no very high order of intelligence to cook it. Be your husband's equal, not his dependent, and above all things don't whine.—"American Woman," in London Telegraph.

Aztec Women.

The feminine direct descendants of the famous Aztecs are tiny creatures, exquisitely formed and refined in feature. The carry the head with the upbearing grace of the full-blooded Indian; their skins are not red, but a clear, smooth copper color that shines like gold in the sun; their hair is coarse and black as ebony, and they are decorated with bright feathers and gay ornaments. These women make the most wonderful pottery that comes to us from Mexico, for they have kept the old Aztec forms and decorations in their art, and they also weave wonderful baskets and do exquisite embroidery.—Scott Valley (Cal.) Advance.

the New York World, for the farms of the United States produce to wastefulness. The berries that go ungathered, the vegetables that go to seed, the fruit that lies on the ground ungathered, would more than supply the whole population of Greater New York.

Dr. Wiley, the head scientist of the agricultural department, has discovered that the same muscles are brought into play in washing clothes as in playing golf. However, suggests the Atlanta Constitution, it is hardly likely that our golf ladies will adopt the washboard as a substitute.

The Michigan Grange Information Bureau has been doing great business for the Patrons in that state. Within a year it has sold or exchanged for them more than a million acres of land, 1,000 head of cattle, 2,000 horses, 10,000 sheep, 20,000 hogs, 3,000 bushels clover seed, besides other minor transactions.

A new steamboat on the Hudson River is named "Hendrick Hudson." It is a pity her owners should be so ill-informed as to perpetuate a blunder that had been widely shown up in print laments the Waterbury Republican. Henry Hudson was an Englishman, and it is about as sensible to call him "Hendrick" as to speak of Tomaso A. Edison as Johannes C. Fremont.

The Cleveland Plain Dealer says: "A woman criminal who possesses youth and an attractive personality is absolutely immune from serious punishment. And there is no doubt that this known immunity has encouraged more than one young woman to serious crime, even murder. It is a sufficient answer to the demand of woman suffragists for female juries that women invariably fare better than men at the hands of male jurors."

We are all having too much fun; that is what is the matter with us, declares the St. Louis Globe Democrat. One of the religious papers puts the case bluntly in saying that a quarter of a century ago an average family found its holiday pleasure in picnicking with a basket filled with luncheon, and taking its day's rest on the grass. Now, it seems, it must have the scenic railway, the loop-the-loop, the hurdy-gurdy, the brass band, the popcorn, and the red lemonade.

The way to break up rebating in life insurance, according to the Springfield Republican, is to do as they are doing in Tennessee, where several agents have been arrested on the charge of discriminating between policyholders. It is simply a matter of enforcing the law in States which have such a law, as most of them do; and why the three big New York companies should have thought to deal with the evil effectively by taking $12,000 of the policy-holders' money each year and giving it to Mr. Cleveland as an arbitrator on rebating, or something of that sort, is beyond understanding.

In our own day we have seen the belting of continents, and in the day of our children continents shall be joined, prophesies the Brooklyn Eagle. At present the two halves of America are divided by lack of rail communication, and this signifies that they are divided racially, commercially and politically more widely than they will or can be when that communication is established. At present a traveler may take train at Quebec and go, without interruption, in his own car, if he has one, to Guatemala. The railways of Guatemala, Salvador, Honduras, Nicaragua, Costa Rica and Panama are few and short, but they are links in a chain that every year of progress makes it easier to forge. Wealth in mines and forests promises a speedy invasion of Colombia, and from there to the Argentine, through Ecuador, Peru and Bolivia, is a matter of no vast moment either in distance or expenditure.

The biblical cubit was nearly twenty-two inches.

A FUNNY BRIDGE.

an Ohio City and It Has Three Ends Instead of Two.

in the middle of a city in river empties into another, the city is divided into three It is really three towns sit- "cattacornered" to each other, with rivers between them. One river murmuring Muskingum, hurrying between its big echoing hills, the other is the lazy Licking, quietly between green garden and cornfields and overhanging Both of them have mills to The blue Muskingum spreads the sun and shines like a mirror its mill dam, and then it tumbles with a roar as it turns the and hurries away over the rocks it were angry at being caught at such a task. But the Lick spills itself smoothly into the stream and sings happily at its So you see even the lazy Licking does not get past here without doing some work, for the inhabitants very industrious Then the rivers unite their waters and make a deep enough to float barges full crockery and steamboats laden all the things they make here, to the Ohio and thence to the Mississippi and away to the Gulf of

when it came to building a to join that city together the men of the place saw that it have to be a bridge with three A queer bridge that would be, for who ever heard of a bridge more than two ends to it? There not such a thing in the United But they had to have it, and they made it And it was the only of the kind in the world, except in Switzerland that is somewhat To look at it, one would think each town had started to build bridge out to the others and all bridges had met in the middle of river. Each part of the bridge had hallways two big ones for horses two little ones for people walking It had a shingled roof over all length of it, and windows in the so that it was a sort of house When it rained you could go on the river and be out of the Where the bridges came together was a big room out in the middle of the river, with the twelve hallways opening into it Can you imagine what a roomful of horses and wagons and people that was, with the people of three towns all crossing hall to hall as they came and in different directions? Every- in the three parts of the city had come out here whenever they went any of the others. And so they all in the room out in the middle of river no matter where they were going from or where they were going From Charles D Stewart's "The Y and the Crockery 'O'" in St. Nicholas

The American Output.

American ingenuity, aided by German detail, brought this country quick the front in pencil manufacture. enormous forests of cedar and the every of graphite, with the introduction of marvelous machinery and kinds of labor-saving devices, have the daily output up to 000 pencils a day. There salesmen whose annual book amount to half a million dollars each They give away hundreds thousands of pencils to advertise business. Some use pencils as personal cards, and if met in a casual will surely have every pocket filled full. A man with a supply of pencils, worth perhaps half a each, which he distributes with hand, can obtain more discounts one armed to the teeth with testimonials, characters, etc.—New York Press.

a battle between Dominican government troops and insurgents, Monte Christi, the rebels were routed and fled to the hills.

Quaint and Curious

The Vienna Abendpost claims for Siegfried Markhus, of Vienna, the honor of having invented the motor car.

In 1857 the Duke of Parma had his photograph upon his visiting cards. Hence the term "cartes-de-visite."

Marmalade, then made only of quinces, was known in Henry VIII.'s reign. The word is derived from "mermelo," a quince.

The original greenroom seem to have been painted green in order to relieve the eyes of actors dazzled by the glare of the footlights.

In the States of Arkansas, Indiana, Kansas, Michigan, Missouri, Nebraska, Texas, Oregon and Wisconsin an alien may vote upon complying with the State laws, after having made his preliminary declaration to become a citizen of the United States. Under possible exigencies of American politics, the election of a President and Vice-President and the determination of the policies of the Government might be determined by the votes of aliens. In all the other States no person is allowed to voto who is not a citizen of the United States.

An old Bible, bought by a French army officer in a second-hand bookshop at Mont de Marsan contained long lost treasure. The officer, turning over the book in his quarters, was astonished to find in it coupons and scrip to the value of more than $2000. These bore the name of the holder, at St. Pierre du Mont, and the address of a notary of the same place. On communicating with the notary the officer learned that the holder of the scrip, a small peasant owner, had died some years ago, and that the property represented by the lost papers had not been disturbed. Great was the surprise when the officer handed over the scrip.

"Bribery" is a word with a curious history. In the old Geneva Bible it is said of the scribes and Pharisees that they "make clean the outer side of the cup and of the platter, but within they are full of bribery." The authorized version has "extortion," and there is no doubt that by "bribery" the Geneva Bible meant robbery. "Bribery" probably meant originally a morsel, a broken-off piece, but it occurs first in old French, signifying a piece of bread given to a beggar. Hence the Italian "birba," vagrancy, and the old French "bribeur," a beggar or greedy devourer. "Bribe" developed in two directions—in the senses of robbery and of a present. When Falstaff speaks of "a bribed buck," he means not one that had been corrupted, but one that had been stolen.

Timidity and Talent.

A great deal of talent is lost to the world for the want of a little courage. Every day sends to their graves a number of obscure men who have only remained obscure because their timidity has prevented them from making a first effort and who, if they could have been induced to begin, would in all probability have gone great lengths in the career of fame. The fact is that to do anything in this world worth doing we must not stand shivering on the brink and thinking of the cold and danger, but jump in and scramble through as well as we can. It will not do to be perpetually calculating risks and adjusting nice chances. It did very well before the flood, when a man could consult his friends upon an intended scheme for a hundred and fifty years and then live to see its success for six or seven centuries afterward. But at present a man waits and doubts and hesitates and consults his brother and his uncle and his first cousins and particular friends till one fine day he finds that he is sixty-five years of age; that he has lost so much time in consulting first cousins and particular friends that he has no time left to follow their advice.—Sydney Smith, on "Courage In the Use of Talent."

Misplaced Pride.

"The late General Joseph Wheeler," said a Southerner, "was one of the bravest men who ever lived. He was wounded three times during the Civil War and sixteen horses were shot dead under him.

"Yet it was not his military, but his literary achievements that he took most pride in. He knew this was foolish, but he could not help it. He said once to me, apologetically, that he was not the only man whose pride was misplaced.

"He said that, in a certain engagement in his youth, he once heard a private swearing and cursing most frightfully.

"Lieutenant Wheeler, as he was then, went up to the private and said sternly:

"'Where did you learn to swear like that?'

"The private at this question smiled modestly.

"'Ye can't learn it,' he answered. 'It's a gift.'"

The Logger's Vocabulary.

The language of these woodsmen, often more forcible than elegant, is as picturesque as are their surroundings. Most of us know what a "sapling" is, but what is a "road monkey," or a "bull donkey?" A "road monkey" keeps a logging road in condition, a "bull donkey" is simply a big donkey engine. Yet these are some of this woodsman's common terms. For instance, a "briar" is a crosscut saw, a "bully" is a foreman of a logging camp, a "choker" is a noose of wire rope. "Of course," you say. But what is a "goose pen?" Why, a big hole burned in the standing tree. Easy? Well, then, here's another. What is a "widow-maker?" Answer, a loose, hanging, broken limb, which is supposed always to mean danger to the man who gets under it.

And so it goes. A "dead man," for instance, is a fallen tree, but a "dead head" is a sunken log. A "dozy" log is one that is decayed. A single sled is a "dray," but it likewise may also be a "bob," a "crotch," a "go-dell," a "lizard," a "scoot," or a "sloop," but never a "sled." With fine insight into human nature the woodsman knows the sub-foreman as the "head push." Mr. Pinchot's forest service has compiled a "logger's dictionary," which contains all these and many more words just as picturesque.—Reader.

On the Safe Side.

There was a struggling writer in the front studio, and a struggling artist in the back. The struggling artist was very nice to the struggling writer for a time. He even helped her wash her windows once. Then it came about that one Friday he saw that she had a well filled envelope which contained some fives.

"I wish," said he, "that you would lend me one of those fives. I'm hard up this week. I will pay you back next."

The struggling writer knew all about those "next weeks" of struggling artists.

"I would," said she, "but I am afraid I will lose your friendship if I do. Things like that have happened to me."

He looked at her sternly.

"You'll lose it if you don't," said he, and set his teeth hard.

"Well, anyway," returned she, with a sigh, "I'll save my five."—The Wisp.

New South Wales had 40,000,000 sheep in 1905.

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to *insist* upon such knowledge. So he publishes, broadcast and on each bottle-wrapper, what his medicines are made of and verifies it under oath. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, ofttimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nervine and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say *for yourself* by sending a postal card request for a *free* booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

A medical journal declares that people who drink cows' milk are more and more inclined to consumption than those who use the milk of the reindeer, the buffalo, the ass or the goat.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

WEST & TRUAX, Wholesale Druggists, Toledo, O.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75c. per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

The cities of Glasgow and Nottingham supply gas to the consumers, and it is sold at fifty cents a thousand cubic feet — about one-half what it costs in American cities. Last year Nottingham made a profit of $120,000 on its gas plant.

THE LAXATIVE OF KNOWN QUALITY

There are two classes of remedies; those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers; those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

Genuine—Syrup of Figs

manufactured by the California Fig Syrup Co., and in order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package. Price, 50c. per bottle. One size only.

PUTNAM FADELESS DYES

Color more goods brighter and faster colors than any other dye. One 10c. package colors all fibers. They dye in cold water better than any other dye. You can dye any garment without ripping apart. Write for free booklet—How to Dye, Bleach and Mix Colors. MONROE DRUG CO., Unionville, Missouri.

EUREKA Harness Oil Keeps the Harness Soft and Strong

For preserving the strength and increasing the life of harness Eureka Harness Oil has no equal. Superior to other brands because free from acid and will not become rancid. $6,085 was paid for an orchid.

The Income of the Beef Trust.

The earnings of the big packers are as closely veiled as the revenue of the Standard Oil company.

They have publicly asserted for years that their earnings are only equal to about 2 1-2 percent on their gross business. The gross business of Swift & Co. last year was $250,000,000; of Armour, $225,000,000; of Morris, about $90,000,000.

Within the last ten years Swift has increased capital stock from $1,000,000 to $60,000,000. Of this stock 7 percent is paid and it is quoted now on the Chicago Stock Exchange at 104. It sold at 110 before the president's message and inside support is now given it. There is also $5,000,000 in the bonds, and the refrigerator company with a capitalization of $2,000,000 and $900,000 in bonds.

Armour has but $20,000,00 capital in the packing business, $20,000,000 in the elevator and grain business and about $2,500,000 in the car-line monopoly. Both firms have millions in cold storage plants all over the country, through which they control the fish, egg and fruit trade.—New York World.

Singing at Corinth

According to previous announcements quite a number of Chilton's leading singing teacher and a large crowd of spectators, assembled at Corinth church, 5½ miles east of Verbena, Sunday, Oct. 21st, for the purpose of reorganizing the old Southern Singing Convention of Chilton county. The assembly was called to order by E. L Jones who conducted devotional exercise.

On behalf of the church and community, Rev. E. L Manning delivered an eloquent address of welcome Prof. R. T. Grant, with a few placed remarks, responded

Election of officers was in order. Prof. T L Robinson was elected president, S. J. Jones, vice president, L.E. Robinson, secretary.

On motion, the president appointed a committee to arrange program for the day, consisting of the following: P M. Jones, E A Norris, W. E. Jones.

The following were appointed to frame by-laws by which the convention might hereafter be governed: R T. Grant, chairman, B J Goss, W. H. Robinson.

J. S Jones, 25 minutes; Miss Fannye Belle Robinson, organist. Recess for 15 minutes. A. L. Robinson, 25 minutes; Miss Mamie Robinson, organist. Adjourned 1 hour for dinner.

Returned at 1 p.m. R. T. Grant, 25 minutes; Miss Fannye Belle Robinson, organist. W. H Robinson, 25 minutes; L E. Robinsons, organist. E H. Parrish, 25 minutes Miss Fannye Belle Robinson, organist. T. L. Robinson, 25 minutes; Miss Fannye Belle Robinson, organist.

A committee was appointed to solicit members for the convention and 43 were enrolled. An executive committee was appointed to name the next place of meeting which will be announced later The time for the next meeting will be the 1st Saturday and Sunday in May 1906. The convention adjourned by singing "God be with you 'till we meet again."

T. L. ROBINSON, Pres.
L. E. ROBINSON, Sec.

Editor Banner—Being once a citizen of your county, and knowing the county as I do, I naturally feel interested in its affairs and especially politically. I left your county the 7th day of this coming November, three years ago, just at the time that Democracy was booming, the time that Mr. Middleton and Mr. Smith were so much interested, that they were going over the county organizing Democratic clubs. I was present the first night they attempted to organize at the court house. I remember they called on different ones for talks, and especially do I remember the speech of one Mr. J. O Middleton He said he was a Democrat from the crown of his head to the sole of his foot, because of its principles, and because it was the only party calculated to uplift the rising generation, and because his aged father never knew anything but Democracy and he could safely rely on its principles, because they were founded before the time of our fathers and had stood the storms of over a hundred years, and that he, J. O. Middleton, would live and die a Democrat so help him God Now, Mr. Editor, tell me is this the same little fellow that is running for Representative on the Republican ticket? Is it possible that any man could in the face of these facts, ask for office at the hands of the voters, that not more than two and a half years ago he was fighting. I remember in the closing of his talk that night he called on a gentlemen by the name of Cox for a talk, and he referred to Mr Cox as being a regenerated Democrat, and that he wanted him to tell them about how good he felt since returning to his native party Mr. Cox, though a stranger to me, but I venture to say has a clearer conscience over his return than Mr. Middleton has over the sacrifice of the principles that he claimed in his speech that night had been taught him by his father from childhood up. I believe every young man should have high aspirations, but God forbid that principles, and not office, be at the bottom of them Autauga, my native county, knows nothing but Democracy, and may God forbid that the voters of my county shall ever say by their vote, our nominee is a man that two years ago was fighting us for all he was worth. Let him be a man that has stood the test and not one that is just for office. In casting your vote consider which of the two is calculated to do you the most good, and don't say by your vote I will put the affairs of my county into the hands of a man, that two years ago was my enemy politically. Know your man and how could you learn "politically speaking," a man in two years. I will close, thanking the Editor for this space

AUTAUGA COUNTY DEMOCRAT.

TYNER'S DYSPEPSIA REMEDY.

Many Have Dyspepsia and don't Know It Read Symptoms.

Do you belch up wind? Do you taste your food for an hour or more after eating? Do you see specks or haze before your eyes? Are you pale and haggard? Does your heart flutter? Are you dizzy at times? Do you have pains in side or back? Do you have risings or pimples on the skin? Are you low spirited? Is there a sour taste in your stomach? Is your breath bad? If so you have Dyspepsia, and it is a dangerous condition, don't delay, but take Tyner's Dyspepsia Remedy as directed on label. It is made for just such troubles and symptoms. Tyner's Dyspepsia remedy removes acids from the stomach, strengthens weak stomachs, helps digest your food, stops all achs and pains, stops fluttering of the heart, (sometimes called heart disease.) By making the food digest, new blood is made and all pimples disappear. Tyner's Dyspepsia Remedy, sold by druggists, 50c a bottle. Money refunded if it fails to cure. Sold in Clanton by Florence Drug Store; call or write; remedy sent by express.

All Day Singing.

MAKE MONEY.

Here is an interesting study: Make out a list of all the people you know, and estimate the amount of money each one earns in a year. Total it up. The amount will be surprisingly large. Now, of all those people, only the few who SAVE SOMETHING really MAKE anything at all. Simply earning money isn't making it; what slips through the earner's fingers is finally "made" by somebody else. Don't forget to count yourself in on the list, and if you are not "making" money, begin now to save with us. One dollar will open your bank account.

CORRESPONDENCE.

Your stomach churns and digests the food you eat and if foul, or torpid, or out of order your whole system suffers from blood poison. Hollister's Rocky Mountain Tea. keeps you well. 35 cents, Tea or Tablets. Upchurch Drug co.

Marbury, Oct. 27, 1906

Editor Banner—Please allow me a small space in your paper, although I am a resident of Autauga county, yet being a native of Chilton I naturally feel interested in its affairs. What have the Republican party done for the people of this grand old State? Disfranchised those brave men who had the courage to leave their homes and fight for principles dear to every true Southern man, and the Republican party tried to force equality on the people of Alabama (see Constitution of 1868, Art. 7) Before you cast your vote, consider well the merits of the candidates, the Legislature will be almost solidly Democratic, and the opposition will not be in the caucus and will not have any voice in making the laws.

W. E. PRICE.

Verbena, Oct. 29, 1906

Editor Banner—I will ask you for a space in yonr valuable columns to reply to a letter in the Union under date of October 18, by Lee Vickers in which he says I claim to be one of the greatest Republicans in the world. Well, I have met him once in my life and if he should call me great I would not feel honored in the least, for I am sure there is something loose about the man when I was only showing my saddle on father's horse. He thought I was the whole caboose. I think he should have his squash opened and the sawdust taken out and some brains put in and then possibly he will know how to read. He charges me with not being at any Republican meetings. Well, I met somebody and voted the ticket headed by Judge L H Reynolds. It may be that he was thinking about conventions Well, I must say that I got all of the Republican convention business I wanted some time ago. when a full grown white man rose up and said that two Mr. Niggers and two Mr. White men would be the delegates to the State convention. Well, Mr. Vickers, I said hands off of the meeting business then and there, and have been content to vote the ticket since, asking no questions, and if we have another candidate for Lieutenant Governor like we have this time I can't say what I will do. I hope that you understand that Mr. Gulledge is not running for congress, I don't care who he voted for in 1896 or any other time. I do say he will make a good representative and I am going to vote for him and in so doing I believe I will serve my conntry well. I shall not reply to anything that Mr. Vickers may say about this, for he reminds me of what the 'possum said about the fowlers bell—biggest mouth and longest tongue and least sense of anything I ever saw. With success to the Banner, I am yours for the right,

L. N. HENDERSON.

Possesses superior advantages to pupils of all grades, prepares them to enter the best colleges and universities, trains teachers to stand examination for any grade certificate, and qualifies them the better to fill a place in their profession.

L J THOMPSON,
Principal.

NOTICE OF ELECTION.

State of Alabama, }
Chilton County. }

I, J. M. Morgan, Sheriff of Chilton county, Alabama, hereby give notice that an election will be held in the several Election Precincts of said county, on Tuesday, the 6th day of November, 1906, for the purpose of electing a Governor, a Lieutenant-Governor; an Attorney-General, a State Auditor, a Secretary of State, a State Treasurer, a State Superintendent of Education, a Commissioner of Agriculture and Industries, Two Associate Railroad Commissioners, a Chief Justice of the Supreme Court, Two Associate Justices of the Supreme Court; a United States Senator, term beginning March 4, 1907, a United States Senator, term beginning March 4, 1909; for appointment to fill any vacancy in the office of United States Senator, a Representative in the 60th Congress of the United States from the Fourth Congressional District of Alabama; a State Senator from the 15th Senatorial District, a Representative in the Legislature a Sheriff, a Commissioner for First District of Chilton county, a Commissioner for Second District of Chilton county.

This 3d day of October, 1906.

J. M. MORGAN,
Sheriff of Chilton county, Alabama.

We, J. M. Morgan, Sheriff of Chilton county, L. H. Reynolds, Judge of Probate of Chilton county, and Sam W. Collins, Clerk Circuit Court of Chilton county, hereby certify that we did on the 19th day of October, 1906, appoint the following named persons as inspectors, clerks and returning officers to hold an election in said Chilton county, on the 6th day of November, 1906, to wit:

Beat No.1—Inspectors, Henry Robinson, W. L. Honeycutt, W. P. Gleckler; clerks, H. C. Young, and T. J. Dorminy; Returning Officer, Jonah McKee.

Beat No 2—box 1—Inspectors, Job Reynolds, W. H. Shaw and John Moore; clerks, W. G. Conway and Will Brown; Returning Officer, R E Skipper

Beat No 2—box 2—Inspectors, B. E. Collum, C. L. Glasscock and Allison Sims; clerks, J. E. Gentry and W. R. Jackson; Returning Officer, G. W. Shaw.

Beat No. 3—box 1—Inspectors, R. J. Williams, W. A. Wood and R. E. Roper; clerks, J. W. DeShazo and B. H. Jones; Returning Officer, Lee Hayes.

Beat No. 3—box 2—Inspectors, Y. O. Freeman, Jeff Glasscock and Wm. Nix; clerks, Z. J. Jones and H. A. Williams; Returning Officer, J. M. Nix.

Beat No. 4—Inspectors, A. O. Smith, J. J. Grant and T. A. Curry; clerks, Frank Massey and L. E. Gullahorn; Returning Officer, J. M. Morgan.

Beat 5—Inspectors, E. J. Jones, W. S. Clark and W. H. Strock; clerks, Dave Norris and J. C. Pattillo; Returning Officer, Martin Pinson.

Beat No. 6—Inspectors, M. F. Lett, Charley Foshee and Robert Jones; clerks, W. L. Popwell and J. D. Sims; Returning Officer, Robert Atkinson

Beat No. 7—box 1—Inspectors, W. Y. Nix, D. C. Cooley and T. U. Crumpton; Clerks, Martin Nix and U. W. Plant; Returning Officer Monroe Merchant.

Beat No. 7—box 2—Inspectors, J. N. Gentry, J. N. Moore and J. J. Hicks; clerks, J. H. Green and P. G. Maness; Returning Officer, W M Lawrence.

Beat No. 8—box 1—Inspectors, L L Lester, T G Milling and T D Parnell; clerks, D C Gandy and J F Gregory; Returning Officer, John Ramsey

Beat 8—box 2—Inspectors, George Keen, John Kendrick and E G Caldwell; clerks, D M Apperson and James Walker; Returning Officer, J R Short.

Beat No. 9—Inspectors, A F Childress, A Z Bean and T G Williams; clerks, S F Collins and E F Mead; Returning Officer, Wiley Gore.

Beat No. 10—Inspectors, M Williams, J N Dennis and F M Connell, clerks, L A Calloway and Nattie Jones; Returning Officer, J M Curlee

Beat No. 11—Inspectors, J S Dennis, W T Mahan and G W Willis; clerks, G W Pate and E L Smith; Returning Officer, W S Cox

J M MORGAN, Sheriff
L H REYNOLDS, Judge of Probate
SAM W COLLINS, Clerk Circuit Court

Thorsby, Nov. 3, at 7 p.m.

Everybody invited to be present.

Let every Democrat vote next Tuesday.

Concord.

Dear Editor—Here I come for the first time for a chat. The dear old paper finds its way to our home one day out of every week and we all are anxious for that day to get the paper. Sunday school is progressing nicely under the management of our faithful Bro. J. P. Parrish.

We are glad to learn that Mrs. G. C. Armstrong is improving after a severe illness.

Quite a jolly crowd, E. H. Mims and three daughters, J. S. Parrish and wife, W. J. Armstrong and wife, J. D. Armstrong, Miss Lettie Dupree and Miss Julia Parrish, all took a hay ride Saturday night to Higgins ferry. It was an enjoyable trip, they had music and some were good singers. Who will go with us on the next trip? Well, I will ring off before I hear the Editor sigh and will come again.

NEW COMER.

Flint Hill.

The Sunday school at this place is progressing nicely.

I am sorry to say that Miss Nannie Hayes and Adell Hatcher are on the sick list.

BLUE EYED GIRLS.

Famous Strike Breakers.

The most famous strike breakers in the land are Dr. King's New Life Pills. When liver and bowels go on strike, they quickly settle trouble, and the purifying work goes right on. Best cure for constipation, headache and dizziness. 25c at Upchurch Drug co.

ANNOUNCEMENTS.

FOR SHERIFF.

I hereby announce myself a candidate for Sheriff of Chilton County, subject to the action of the people at the November election, 1906.

ROLLEFFE F. BATES.

LOST—$5.00 REWARD.

HATS

Wear like steel
Hit the mark of
perfection

A prettier or more complete line of Fall Merchandise is not to be found in the country.

For weeks our buyers were in the market centers seeking the best goods that could be found, and the result of their untiring efforts is an almost bewildering array of fresh, crisp, beautiful goods.

Our entire store is now in full gala attire; every nook and corner is looking its best; the very atmosphere permeates with a gladsome welcome to the good people of Chilto and surrounding counties to pay us a visit. We want every man, woman and child to come and see this wonderful display of Fall Goods.

Come, roam down one aisle and up the other and gloat your eyes on the beautiful wares to your heart's content.

Come, with the expectation of seeing something grand and beautiful, and you will not be disappointed.

Come, spend the day with us if you can; if you can't, then come spend an hour. However, we want you to come, criticise and compare and bring your

CLANTON, ALA

And so, say the Tailor and Cutter, the frock coat is dead, the silk hat is defunct, the linen shirt a decaying relic, and the stiff collar a mere remembrance. So we are told once again by some of our friends in the press. Some of these things may be happening, but may we venture a prediction, too? It is that just this same prophecy will be made this time next year, and again the next year after that—and as an annual exercise until most of us have ceased to be interested in any kind of mundane fashions.

Describing the slaughter-houses of Frankfort, Germany, Robert Hunter says: Every portion of the buildings has concrete floors, which are washed down twice a day with hot and cold water. All the butchers' instruments are sterilized each day. The meat, after the animals are killed, is carefully hung up away from all contact. All the employes were wearing clean clothes, with spotless aprons. Frankfort is a city of 300,000 population. What American city has such slaughter-houses? None. Indeed there are probably not half a dozen such slaughter-houses in the whole United States.

In a recent discussion of juvenile crime a story was told of a lad who was asked if he knew the meaning of "regeneration." "Yes," responded the lad, "it means to be born again." "And would you like to be born again?" he was asked. "No, siree," exclaimed the boy. "I'm too much afraid of being born a girl."

The number of arrests in New York City for 1905 was 198,356. This is a population considerably larger than that of Providence, R. I., and nearly as large as Minneapolis. Out of every hundred persons in New York five managed to fall into the hands of the police during the year.

If the evangelists fail to regenerate society Dr. Peter Donnelly thinks the surgeons might try their hand, not on the hearts, but on the heads of those wickedly inclined. Not very long ago Dr. Donnelly, the Toledo physician, operated successfully on the craniums of criminal children. He now says brain surgery is in its infancy, and he would like to see a commission appointed to take up this question and study it for a year or more. If it can be established that incorrigible criminals can be cured by successfully operating on their brains it will undoubtedly be a great blessing to humanity. Preachers, faith healers and spiritualists have had a free hand. Why not give the doctors a chance? The moral conditions of society seem to grow worse rather than better.

War is "the feast of vultures and the waste of life," Byron says, and anything which can mitigate its horrors must be welcomed. It has always been the rule of the "vendetta" of the Italians and the "badia" of the Afghans to give the opponent full notice of the intention to slay him. And now we have a dispatch from Ghent which says that the Institution of International Law has adopted a series of resolutions regard declarations of war which prescribe that hostilities shall not begin without a previous-unequivocal notice. It would be exceedingly inconvenient to find at the rush hours in the morning that the whole of the municipal fleet between Staten Island and New York City had been blown to smithereens by Japanese torpedoes during the night without "unequivocal notice."

* * *

Still Holds Possession.

San Francisco, Cal.—District Attorney Langdon and his assistants remain in possession of the office, which continues the basis of contention between opposing factions of the administration, and it is probable that there will be no repetition of Friday's exciting proceedings until next Monday, when the grand jury is to meet for the purpose of selecting a foreman and entering on its duties.

Abraham Ruef continues to lay claim to the office of district attorney by virtue of the appointment of Acting Mayor Gallagher and in spite of the order of Judge Seawell. Ruef asserts that while he is prohibited from acting in the capcity of district attorney, he is nevertheless in possession of the office. His attitude towards the promised investigation of alleged municipal corruption indicates that he will, if confirmed as district attorney, take the investigation out of the hands of the grand jury and submit the charges to representatives of the bar association or the attorney-general's office.

ALABAMA GLEANINGS.

Items of Interest Gathered as They Transpire Over the Entire State.

Killed by Wife.

Montgomery, Ala.—The killing of Thomas J. Dower by his wife in Mobile has aroused much talk of the recent parole of Dower by the governor, it having been reported that he had not been behaving the best in the world after his release. Dower was convicted in 1902 at Brewton for assault and sent to the penitentiary for twenty years.

Some time in July last the wife of Dower made an appeal for the parole of her husband, begging the governor to let him go. As he had made the assault on her, the argument was very effective. At the same time she presented a strong petition from several hundred people of the county in the same behalf, the trial judge and the solicitor asking clemency.

The governor took the matter up with the officials of the territory where he was known, and was encouraged to let the man out by what was told him. It was argued that he would behave and that he had several children who needed some one to care for them—a service the wife could not render alone. He was, therefore, paroled, the governor stating at the time that it was to be conditioned on his abstaining from drink and that he support his children.

Jemison Before Board.

Tuscaloosa, Ala.—There was an interesting meeting of the board of mayor and aldermen at the city hall. Among other things the board heard Mr. Robert Jemison in a request to appoint a committee to consult with certain parties relative to the establishment of a water company by private individuals. Mr. Jemison stated that his observations were that municipal ownership of such companies did not pay, and that the one for which he spoke had in mind the combination of a general light and electrical power plant in connection with the water. A committee was appointed by the mayor to investigate the matter.

Senator Hurst Low.

Gadsden, Ala.—State Senator James A. Hurst is very low with pneumonia at his home in Walnut Grove, and his friends and relatives are very much alarmed over his condition, which is regarded as extremely critical.

Mr. Hurst is one of the most popular citizens of the county and has represented the Sixth senatorial district two terms in the state senate. He was recently nominated for governor by the republicans, but declined to make the race.

Damage Suit Filed.

Anniston, Ala.—A damage suit for $10,000, claimed for the death of W. C. Cox, who, it is alleged, was killed last year by the explosion of a boiler, has been filed in the city court by C. F. Douglas and Knox, Acker & Blackmon against the Ide cotton mill of Jacksonville. Mr. Cox was in the employ of the respondent company at the time of the explosion and was severely scalded. He lived several weeks after the accident occurred and finally succumbed to his injuries after great mental anguish and physical pains, claims the plaintiff.

Arm Mangled in Planing Mill.

Demopolis, Ala.—At the H. L. Wood Lumber Company in this city James L. Knowles, who was the superintendent of the planing mill, had the misfortune to lose his right arm. He was fixing something about the moulding machine when his arm was caught in the manchine, so badly mangling it that the attending physician had to amputate the limb just below the elbow. Mr. Knowles has been employed by the Wood Lumber Company since the establishment of their mill in this city, and has a host of friends, why sympathize with him in his unfortunate affliction. He has a wife and one child.

Fire Engine Ruined.

Gadsden, Ala.—The fire engine of the Gadsden fire department was almost totally ruined while going to a fire, and six men and three horses came very near being killed.

The engine struck the tracks of the Louisville and Nashvile railroad on Seventh street, and was demolished, blocking traffic over the road for several hours.

One horse was pinned under part of the engine and it took some time to get him out. The driver and five men were thrown off and all had narrow escapes, only two being slightly injured. The house, which belonged to Mary McGuire, a respected negress, was completely destroyed.

Cordele Gives $500.

Cordele, Ga.—President Mitchell, of the Georgia commission to the Jamestown Exposition, adcressed the common council and citizens of Cordel Thursday night in the interest of the Georgia building. The council appropriated $500 and the citizens will give an equal sum for the building.

The meeting was followed by a banquet at the Central Hotel, presided over by Hon. L. R. Fields.

CALLS THE STATE COMMITTEE.

County Committee Refused to Consider Contest of Eyre Damer for the Legislature.

Selma, Ala.—H. S. D. Mallory, chairman of the state democratic executive committee, has called a meeting of the committee in Montgomery Wednesday, October 31, at noon, for the purpose of hearing a petition from Eyre Damer, of Mobile, that he be declared the nominee for the legislature in Mobile county in place of Joseph S. Norville.

The petition comes before the state committee on an appeal from the action of the Mobile county committee, held Friday, October 26, which, by a vote of seven to six, refused to consider the contest of Mr. Damer for the nomination.

The primary election, in which the nomination of Mr. Norville as one of the members of the legislature was made, was held April 10 last, and the committee, acting as a canvassing board, declared that Damer received 1,606 votes and Norville 1,609.

The county committee of Mobile refused to go into the matter on two occasions, hence the appeal to the state committee. The time is exceedingly short for the assembling of the committee, but Chairman Mallory is sending out the call to the members, and trusts that a full attendance will be had. Should the committee decide favorable to Mr. Damer, owing to the time limit on which names may be printed on the tickets having expired, the paster system would have to be used.

SNEAD SEMINARY BURNS.

One Young Lady Is Injured—Loss Is $15,000—Building Was New.

Boaz, Ala.—The Rebecca McCleskey Girls' Home (or the girls' dormitory) to the John H. Snead Seminary was totally destroyed by fire. Part of the contents were saved. Loss, $15,000, partially covered by insurance.

The building was the property of the missionary society of the M. E. church.

There were over 100 girls and teachers. All escaped without injury, except Miss Addie Jones, who was slightly burned.

The fire started in the rear of the house, and owing to the high wind gained much headway before assistance could be rendered. Consequently very little of the furniture in the second and third stories, where the girls roomed, was saved. Some of the girls lost everything they had. This beautiful building had just been remodeled and refurnished, and was the pride of the town.

Honors to Cullman County.

Montgomery, Ala.—Cullman county has covered itself with glory, in an agricultural sense, by its exhibit at the State Fair. The judges of the county exhibits paid a high compliment to the thrift and industry of the German settiers of that county when they awarded to the Cullman display championship honors in the inter-county competition.

North Alabama, indeed, took more than its share of honors in the county contest. Not only did Cullman win the first place and incidentally the grand prize of $1,000 for the best, largest and most artistically arranged county agricultural exhibit, but Madison, one of the northern tier, secured fourth place in the contest, while Colbert took fifth.

Montgomery county secured a fine display of its products, which were arranged as carefully and as artistically as could be desired, but the farmers of this section were compelled to content themselves with the honor of appearing in second place, with the additional fact that one of Montgomery county's prosperous farmers, J. R. McLendon, captured the first prize for the best individual exhibit.

Butler was the only South Alabama county that was awarded a prize in the county competition, securing third place.

Church Calls New Pastor.

Brunswick, Ga.—The yestry and congregation of St. Mark's Episcopal Church held a meeting and decided to extend the call to Rev. R. E. Boykin, of Lexington, Miss., and it is probable he will accept.

Given Bad Medicine.

Florence, Ala.—John Flint, a farmer at Oakland, this county, died Tuesday, according to reports from that place, from the effects of a concoction administered by a woman doctor, "Dr. Cobb."

Flint, who is unmarried, was discovered by his landlady in a stupor, from which he could not be aroused. A physician was summoned and diagnosed the case as opiate poisoning, but antidotes were of no avail, and the man died the same afternoon. An analysis of the drug Flint had taken showed it to consist largely of morphine. No arrest has been made.

Burning Ship Abandoned.

Cape Town.—The British steamer Habersham Grange, from New York, September 22, was abandoned, on fire, October 24. The passengers and crew were all saved and were landed here by the steamer Matatua.

Mexican Laborers Burn to Death.

Armourdale, Kan.—Three Mexican laborers were burned to death in a boarding house fire here.

CHISOLM INDICTED

Federal Inquisitorial Body Completes Work and is Discharged.

TRUE BILLS WERE REPORTED.

Judge Jones Compliments the Men for the Arduous Work Done—Cases Brought to Their Attention.

Birmingham, Ala.—The federal grand jury has finished its work and made a report to Judge Jones. Among other indictments returned were seven against Alexander R. Chisolm, the defaulting paying teller of the First National Bank.

Four indictments are returned against Percy G. Smith, who is alleged to have aided and abetted Chisolm in the peculations. An indictment is returned also against L. L. Sims upon the same charge.

An indictment is brought against Gordon DuBose, ex-president of the First National Bank of Ensley.

At 2 o'clock it was announced that the grand jury was ready to make the report. The court had taken a recess and the judge was out at lunch. However, he returned at twenty minutes after 2 and assumed his seat on the bench. The jury filed into the court room and stood before Judge Jones, who asked them if they were ready to report.

The Report.

Foreman B. H. Cooper announced that they were and read the following report:

The Official Report.

The United States of America, Circuit Court of the United States, September Term, 1906.

To the Hon. Thomas G. Jones, Judge, Presiding:

We, the grand jurors, elected, empaneled and sworn and charged to inquire for the body of the Southern division of the Northern district of Alabama, respectfully beg leave to report that we have diligently inquired into all violations of the laws of the United States brought to our knowledge under the charge of the court and by the United States attorney, and we herewith return into open court the indictments presented by us as the result of our investigation and finding. The character of some of the cases investigated by us has been such as requires a greater occupation of time than usual for the consideration of the number of bills returned.

And now having completed the work assigned to us we respectfully ask to be discharged.

(Signed) B. H. COOPER,
Foreman of the Grand Jury.

Judge Jones replied, saying that he realized fully the exceptionally difficult nature of the cases that had been before them for consideration, and that he wished to commend them for their diligence. He said that he considered that they had set an admirable example for other juries and had acquitted themselves in a manner that reflected credit upon themselves and their country. He closed by saying that they were discharged with the thanks of the court.

Indictments Returned.

The indictments in detail were as follows:

Alexander R. Chisolm and W. L. Sims, for the violation of section 5440.

Alexander R. Chisolm, for the violation of section 5290.

Alexander R. Chisolm and Percy G. Smith, for the violation of section 5440.

Alexander R. Chisolm, for the violation of section 5209.

Alexander R. Chisolm and Percy G. Smith, for the violation of section 5209.

Alexander R. Chisolm and P. G. Smith, for the violation of section 5209.

Alexander R. Chisolm and P. G. Smith, for the violation of section 5209.

Gordon DuBose, for the violation of section 5209.

Lisbon.—The house of peers passed the bill establishing the state tobacco monopoly.

Violate Safety Appliance Law.

Topeka, Kan.—Suits were filed here in the federal court against the Rock Island, Missouri Pacific, Kansas City Southern and Chicago Great Western railroads on a charge of violating the safety appliance regulation of the interstate commerce commission. The suits were brought on instructions from the United States attorney-general on complaints of the commission.

Largest Consignment of Gold.

London.—The largest consignment of gold ever shipped from South Africa arrived in London. Its value was $8,700,000.

Order Is Held Up.

New Orleans, La.—Unlimited free postal delivery is to continue in New Orleans indefinitely, according to advices from Washington. The order issued by the postoffice authorities limiting free delivery after November 1 to streets with sidewalks will be held up pending an investigation into Mayor Behrman's claim that litigation prevented the building of sidewalks.

Farmers Agree on Minimum Prices.

East St. Louis, Ill.—The following minimum price scale was adopted at the session of the American Society of Equity:

Wheat, $1; corn, 45 cents until January 1, 50 cents January 1 to April 1, 55 cents April 1 until the next meeting of the society; oats, 40 cents; cotton, 12 cents, based at New York; hogs, $6.50; cattle, $6; hay, 1.45.

With the exception of cotton, all prices are based on delivery at Chicago.

The following officers were elected:

President, J. H. Everett, Indianapolis.

Vice-president, J. B. Whiting, Interlake, N. Y.

Secretary, J. Wes Tubbs, Indianapolis.

Treasurer, J. N. Steile, Indianapolis.

National organizer, H. B. Sherman, Greensburg, Ind.

Castro Again Attending to Duties.

New York.—Information made public here by Charles B. Figuerdo, the Venezuelan consul-general to New York, is to the effect that President Castro, who has been reported as dangerously ill, is again attending to his duties. The consul-general made the following announcement:

"I have received a cable announcing that General Ciprano Castro has entirely recovered, having arrived at Caracas on the 24th inst. and resumed his presidential duties."

Southern Strike to Cause Another.

Knoxville, Tenn.—A special to the Sentinel from Bristol, Tenn., says machinists in the repair shops used jointly by the Southern and Norfolk and Western roads at Bristol have refused to repair the Southern railway "dead" locomotives in Bristol.

It is stated on apparently good authority that the Southern will take non-union machinists to Bristol to repair their locomotives, and if this is done the union machinists now working for the Norfolk and Western will walk out in sympathy with the Southern strikers.

The Southern has issued an embargo against Virginia and Southwestern and Norfolk and Western and other connecting lines at Bristol and freight traffic has been decreased.

Switchmen's Demands Refused.

Chicago, Ill.—The railroads informed Grand Master Hawley, of the Switchmen's Union, that the demands of the men for an eight-hour day and an increase in wages would be refused. The offer of an increase of two cents an hour, which the railroads have already made to the switchmen, was repeated, but the men were told that this was all that could be obtained. The refusal of the demands of the switchmen was also made to apply to all other organizations of railroad employes, which have of late presented demands for shorter hours or increased wages. Grand Master Hawley has called a meeting of the switchmen, but no strike action will be taken until a referendum vote has been taken.

Decision Against the League.

New York.—By a decision of the appellate division of the supreme court every one of the Independence League organization candidates for the assembly, senate and congress were thrown off the ticket, and under this decision they cannot run under the Independence League emblem of the scales. Independence League attorney announced that an appeal would be taken at once to the court of appeals at Albany.

Kinkaide Sustained.

Toledo, O.—The circuit court has handed down a decision in which it sustained Judge Kinkaide in sentencing the ice men to jail. The men were arrested and tried on a charge that they had formed a trust and violated the Valentine anti-trust law by combining to raise the price of ice in this city.

Cotton Piled in Streets.

Mansfield, Ga.—There is piled on the streets of aMnsfield over 700 bales of cotton and 2,000 in the warehouses and cannot be shipped for the want of cars. The railroad cannot haul the cotton on this line.

To Protect Spaniards.

Cadiz, Spain.—The Spanish cruiser Dona Maria de Molina left here for Arzilia, Morocco, to take on board the Spanish subjects there whose lives are endangered as a result of the occupation of that town by insurgent tribesmen.

Insurgents Routed With Loss.

London.—A dispatch to a news agency from Tangier says that Raisula attacked and captured Arzilia recently held by insurgent tribesmen. The insurgents were routed with the loss of many men killed. Their leader (Berriani) was captured.

Sacramento, Cal.—The Japanese consul has sent a letter to Governor Pardee protesting against the ruling of the San Francisco board of education that Japanese children cannot attend public schools where white children are taught. He also enters a protest against the number of robberies in San Francisco. The first protest is not based on illegality, but on the ground of unjust discrimination against the Japanese.

ENDS IN DEATH

Beautiful Woman Is Mur
and Man Committed
Suicide.

SECRETARY OF NEW YORK T

Registered at Hotel Griffou as
and Wife and Were Found
Dead in Room.

New York.—Louis G Hampton
sistant secretary of the United
Trust Company, of this city,
killed Victoria I. Taczkow, a
woman, in the Hotel Griffou, in
Ninth street, and then committed
cide.

Hampton was infatuated with
woman, and they had been
gether many times during the
month. Whether or not the
was the result of a pact between
man and woman to die together
not been determined, but the
stances seem to show that the

Thursday afternoon last, when
ton called at the Hotel Griffou
engaged a room. He said he
return late that night or the
morning.

Hampton then left and nothing
was seen of him until Friday
when about 9 o'clock he entered
hotel accompanied by a woman
going straight up to the hotel office
registered as "Mr. and Mrs.
Burlington, Vermont."

At five minutes to 11 a maid
to the room to call the couple,
when he repeated raps at the
brought no response she notified
hotel office. The room was
with a pass key, and the mystery
explained.

On the floor, at the far end of
room, between a large mirror and
dresser, lay the man stretched on
his back. In his right hand
clutched a revolver, while his hat
held tightly in the left hand. A
fired into his mouth had entered
brain, killing him instantly.

Directly in front was the bed,
on it was the woman, also dead.
feet were on the floor, while her
was resting on the bed clothes,
her left arm shielding her face.

In her arm were three bullet
none of which appeared much
than mere flesh wounds, but right
der the left arm pit was a
wound. The bullet had been fired
dently after the woman had sunk
onto the bed, when she had been
in the arm, for it entered her body
a downward direction and must
gone through her heart.

Large Increase Shown.

Washington.—The annual report of the commissioner of the general land office, made public, shows that the total receipts for the year ended June 30 were $7,385,524, an increase over the preceding year of $567,713. The total area of the land disposed of was 19,431,187 acres, an increase of 2,374,565 acres. All of the recommendations made by Commissioner Richards in his report of a year ago are renewed except in instances where Congress already has taken the action requested.

Under a bill passed by the late Congress the land office has under consideration the establishment of various parks to protect the prehistoric ruins of Arizona, New Mexico, Colorado and Utah.

Mormons to Be Challenged.

Boise, Idaho.—The Democratic state committee gave out the following statement:

"The Mormons of Idaho will be challenged as to their constitutional right to vote in Idaho. Charles H. Jackson will leave today for the southeastern part of the state to take charge of the work. The state committee took the view that under the sworn testimony of church leaders given in the Smoot case no Mormon can vote under the provisions of the Idaho constitution. The committee's view of the situation has been augmented by the positive statements made in various campaign arguments by Senator Heyburn in which he contended vigorously that the constitution was an effectual bar without the enactment of a statute to any one voting who teaches polygamy, plural or celestial marriages, or who places the ecclesiastical law above the civil law.

"The challenges will law the foundation for a contest in Congress as to the right of Mormons to exercise elective franchise under the provisions of the Idaho state constitution."

Will Conclude Canvass.

Lincoln, Neb.—William J. Bryan will conclude his political canvass in his home state beginning Tuesday. Mr. Bryan will make a whirlwind campaign throughout Nebraska, visiting a large part of it, and making between forty and fifty the speeches, the last one to be at Plattsmouth on the night of November 5.

May Visit Italy.

Rome.—It is believed in diplomatic circles here that Emperor William is planning to visit Italy, and that it will probably occur on the occasion of the unveiling of the bust of Wagner, which he is presenting to the city of Venice.

Troops Are Dispatched.

Omaha, Neb.—The departure from Fort Robinson, Neb., of four troops of the Tenth cavalry makes sixteen troops of cavalry, a total of 765 officers and men, en route to the scene of the depredations of the bands of Ute Indians, now supposed to be in camp on Powder river, in Wyoming.

Entertainment by President.

Washington, D. C.—Secretary and Mrs. Metcalf were the guests at luncheon of President and Mrs. Roosevelt. The opportunity was embraced by the president and Secretary Metcalf to discuss fully the special mission of the latter to San Francisco respecting the anti-Japanese sentiment in that city and the exclusion from the schools of Japanese children. Secretary Metcalf will go to San Francisco as the personal representative of the president, and he has been given wide latitude as to his actions. He expects to be in San Francisco next Thursday.

High Liquor License.

Albany, Ga.—At a joint meeting of representatives of the citizens of Albany, who favor higher liquor license, and a committee representing the whisky men, a compromise has been effected whereby the liquor license will be increased from $200 to $400.

A large number of the citizens of this place held a mass meeting last week and adopted resolutions asking the city council to raise the whisky license to $1,000 and place stricter regulations on saloons. The whisky men conceded to all the requirements asked of them, except an increase in their licenses.

The regulations as agreed upon are: To prohibit pool or billiard tables or other games where whisky is sold; to give ten days' notice in a public gazette their intention to apply for license, and to state whether for blacks or whites; a saloon is not to be operated in connection with any other business; bars to close at 10 o'clock p. m. and to open at 6 a. m.; all whisky sold to be inspected by a city official and to be of high quality; and that the maximum number of saloons is to be twenty.

Judges for Exhibit Selected.

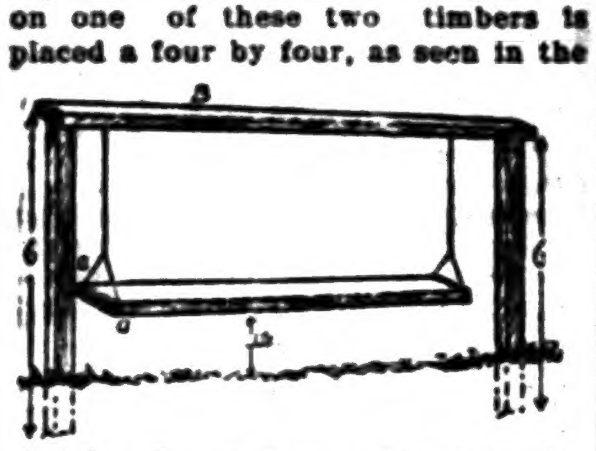
Covington, Ga.—The corn and cotton exhibit of Newton county will be held November 3 at Covington. A hundred boys have entered the contest. Mr. Johnson, professor of agriculture at the State University, will be judge and one of the speakers, aong with Co. L. one of the speakers, along with Col. L. F. Livingston and J. C. McAuliffe.

The Farm

A Unique Lamb Trough.

In the Breeders' Gazette a correspondent gives an illustration, as well as a description, of what we believe to be a very unique trough for the purpose of feeding lambs. It is as follows:

The accompanying sketch shows the most practical lamb trough I have ever seen. The idea of this trough is to teach the lambs to feed at an early age and it prevents them from jumping into the trough. Take two pieces of lumber, say, four by four, each six feet in length, allowing two inches to go in the ground; on one of these two timbers is placed a four by four, as seen in the



sketch. Suspend two wires from the timber B, fasten to trough as shown, a a, and at each end a wire must be fastened. Let the trough hang about one and a half feet from the ground. The lamb is considered the most curious of domestic animals. It walks up to the trough, puts its nose in the trough and by doing so the trough will gently swing from the lamb; the latter becomes curious to know what this means and follows it up, and finally the lamb is freely eating the food placed in the trough for it. This trough has been used with marked success by one of the most extensive feeders in our country. It will be best to use locust wood for outside construction, as it is very durable. The trough can be made any length desired and can be placed in a sheep shed.

Weaning Pigs.

One of the best ways of weaning pigs is to place a small trough just outside the pen when they are about two weeks old, and in it put a small quantity of skim-milk once a day. It is a good idea to set the trough down in the ground a little, so they can easily get their heads into it. They will soon find it, and when the milk is poured in will come to it. As soon as they learn where it is the milk should have a small quantity of corn-meal, bran and middlings mixed with it. About the fourth week the milk, corn-meal, bran and middlings should be mixed to a moderately thick slop. Gradually increase the thickening until it is more like a mush than a slop, and feed twice a day regularly, so they will be on hand at feeding time. Treated in this manner they will almost wean themselves, especially if they have plenty of clover or grass. The trough in which they are fed must always be kept clean and sweet, especially while the pigs are small. Food that has soured is apt to cause trouble with the bowels. Pigs that are weaned in this way are not checked in growth when the mother is removed. If the milk supply is limited, water may be added to it to make the slop and mush. There is nothing to be gained by cooking food for pigs.—Fred Grundy, in Farm and Fireside.

Mules Versus Horses.

Much blame has often been attributed to farmers because they have not, for instance, availed themselves of the most modern machinery, the most extensive drainage, the best systems of road making, the most fashionable breeds of cattle, etc. When I hear these disparaging remarks I generally reply that those who make them should at once assume the responsibility of some vacant land and give their opinions by example rather than by precept.

The "player" at farming would soon find that half the mechanical contrivances are useless nettle creepers, that deep expensive drainage of stiff poor clays does not remain effective long enough to pay and that certain fashionable beefy breeds are useless and profitless in a milking herd.

There is another permanent or oft repeated cry, however, viz.: Why do not farmers breed big mules, which animals are found so advantageous in various parts of the world, their claims resting upon their freedom from sickness or unsoundness, their hardihood, longevity, thriftiness on cheap rough food and their ability to work in any climate?

No one can dispute these and other claims of a like character which they inherit from the donkey tribe; but I beg to submit that from the same source they also inherit the following undesirable list: In comparison with a horse they are weak in muscle and limb, seriously deficient in nervous force, sadly wanting in the organs of respiration if not of circulation, lacking in courage and in the spirit of emulation which carries on the noble horse, and obstinate and sulky, just when an extra effort is required.

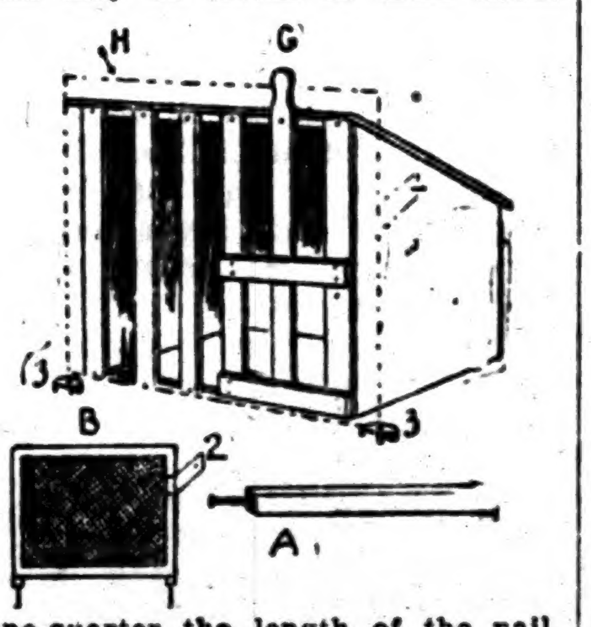
In the service of their masters, the horse, the camel and the reindeer are the only animals which will exert themselves sufficiently to cause death. The ox, the ass and the mule draw a diplomatic line in their own individual protection, but I do not reflect upon them for this in respect of agricultural work, because I have found the over-willing horse sometimes damaged by thoughtless men. On the field of battle, however, a willing horse would serve far better than a sulky mule, and I now come to the point of my contention.

Different breeds and strains of horses have different characteristics, some being showy, but delicate in constitution, whilst others are not so attractive, though nearly as hardy as a mule. Now, I would urge that in all work wherein a mule is considered suitable, employ a horse of mulish character and he will do the work better than any mule can. By experts these hardy horses are often called pigs, because they eat anything, are never sick or sorry, but are ever ready like a mule.

Were these same horses cultivated as they should be, a breed could be established that would work twenty years and be ever immune from all the besetting ailments to which the more showy animal is subject, and on the field of battle would supersede the best of mules.—W. R. Gilbert.

Comfort For Hen and Chicks.

It is a cruel plan which shuts off the air almost entirely from the hen with a brood of chicks by placing a board in front of the coop at night; nor is such a plan necessary if one will take the trouble to build a coop or coops after the following plan: Build the coop after the usual plan, sloping the roof to the rear and covering the front with slats except at one lower corner, where a door should be arranged, so that the hen can be easily let out when desired. To solve the problem of plenty of fresh air and at the same time freedom from prowling small animals, construct a screen; make the frame large enough completely to cover the front of the coop and cover it with wire netting; at either side fasten a strap with a hole in the end, and on the sides of the coop place a screw, over which the straps are placed to hold the screen in place. To make the screen still more secure when placed have the side pieces large enough so that a long wire nail may be driven in them about



one-quarter the length of the nail, at the end; then sink in the ground at either end of the coop two pieces of wood, each having a hole in the end, into which the nail in the end pieces of the screen will fit when the latter is in position. In this way it will be impossible for the screen to get loose. In the illustration, H, at the dotted line, shows where the screen will come when in position; A, the side piece of the screen, with the long wire nail in position; 3, the stakes in the ground to receive the nails; B, the screen complete; G, the swinging lath by which the door for the use of the hen is kept in place, and 2, the manner of attaching the small strap to the side of the screen.—Indianapolis News.

Scarcity of Lambs.

How can there be other than a scarcity of lambs and high prices when the tendency of the producer is to sell each crop of lambs as fast as they become of marketable size and age and the tendency of the consumer to have lamb for his dinner, no matter what the price demanded? asks the Twentieth Century Farmer. The sheep raiser is not proving himself able to supply the requirements of the mutton eater as fast as the demands are coming. This is observed in the decline of sheep population, and the great demand for the female side of the flock which has developed in the market centres, where the contest is fought out between the packer and the buyer of the ewe for mutton and for breeding purposes.

The ewe flock is not a long lived element in the sheep industry; they soon wear out and must go into the mutton market. Their places must be filled from the ranks of the lamb flock, and if these are taken by the extra inducements of high prices there is a serious decline in production staring the business in the face.

That lambs for feeding purposes are going to be high there can be no question. That the general prices for mutton will continue high there can be no doubt. That this scarcity is well grounded there is every reason to believe. That feeders of sheep will be obliged to change to cattle to a greater or less extent, there seem good grounds for prediction.

Sheep breeders never have greater opportunities for profit in mutton and wool than they are now enjoying throughout the range country. The careful selection and retention of the choice ewe lambs of the flock each year is a business requirement, and the careful selection and purchase of the best rams is business intelligence.—American Cultivator.

Berlin now has over 6000 cabs with taximeters—dials indicating the distance traversed, and cost to the passenger.

THE PULPIT.

A SCHOLARLY SUNDAY SERMON BY REV. I. W. HENDERSON.

Subject: The Eighth Commandment.

Brooklyn, N. Y.—Preaching at the Irving Square Presbyterian Church on the theme, "The Eighth Commandment," the Rev. I. W. Henderson, pastor, took as his text Ex. 20: 15: "Thou shalt not steal." He said in the course of his sermon:

This is a call for simple honesty, and the need for clear and fearless thought and utterance is both imperative and apparent as we apply this eighth commandment to the social life and communal conditions of to-day.

The common interpretation of what it means to steal is quite elementary. In the public estimation, stealing, very largely, is a form of open and specific disobedience to law which will likely land the evil doer in behind the bars. It is not my purpose to say or to imply that the average individual conscience does not recognize the obligations and the validity of that moral law which overlaps our penal code. But to a large extent the robber, in the public mind, is the man who forces locks; who spends his evenings at his neighbor's safes with dynamite and jimmy; who misapplies to his own uses our silver, our clothes, or our money. Ask a man, Who is a thief? and the likelihood is that often, though not always, he will run the list of those who bear the insignia and the dishonor of that self-seeking fraternity whose members live by their wits. But are the men and women who declare open war upon society and who adhere to the principle that the world owes them a living the only ones who steal? Is it the man who picks your pocket or the man who steals your savings, by heedless mismanagement of that fortune you gave into his trust, who robs you of most? Who is the most dangerous criminal, the second story burglar or the man who, under the guise of a conservative financier, wrecks your home and takes your all? Who best merits prison clothes, the man who steals to save his family from starvation's grimmest death, or the millionaire of Wall street who inflates values that he knows can never last? Who most deserves the scorn of honest men, the man who cracks a safe or the philanthropic plutocrat who made his wealth at the price of human blood?

The consensus among those whom the lesson hardest hits is that robbery is all right so long as you steal enough. Only the small burglar is to wear stripes. The sin of stealing is in being caught, and its worst disgrace is not to be deft enough to bag everything in sight.

Stealing is wrong and it should be punished no matter by whom or how it may be committed. The Member of Congress who violates the law and robs his country for his private gain deserves the limit of the penalty. The moneyed man who wrecks a corporation to satisfy personal spite or secret grudge, should wear the irons together with that other of his company who represents as a real investment proposition a property that is chiefly air, paper and water. The business man who underpays his labor and hugs the lion's share of the profits to himself, with no concern or care for the toilers who made possible his material success, is a thief. The rich man who raises prices and lowers wages, without right or need, to such an extent that poor men have no decent chance to live, steals more than money.

"Thou shalt not steal," says the commandment, and to my mind's eye there comes the vision of that cotton mill in the sunny southland. I hear the whirr of wheels, the rattle of the loom, the roar of leather belts, the shouting of the mill boss; and there, in among that bustle and clatter and ceaseless racket, I see mere children watching wheels, instead of birds; tending cotton when they should be at their books; growing old and blunted in body, mind and spirit, when they should be learning lessons in God's wonderful out-of-doors. Mere children driven into slavery by the laziness of lying parents or the greed of northern capital. And what you may see in the cotton mills of Dixie, you may see in the glass works of New Jersey, the mines of Pennsylvania, or in the sweat shops of New York. Is such stealing wise?

The amount of wholesale and unrestrained robbery that takes place in our public life is enormous. It would seem that the sense of honesty is on the decline did we not know better. The caliber of the consciences of a host of men who administer the affairs of the plain people is not very large. Dishonesty is, strangely, even yet, with many leaders in our political life, a synonym for assured success. "Thou shalt not steal" is left out of their moral code. To be honest, to be square, is, with them, to be marked for defeat. When we read in our daily papers of the shameless frauds perpetrated upon the Government by corporations, by and with the consent of those who make and those who administer our laws; when we learn from time to time that hosts of men and women are ruined by get-rich-quick syndicates; when we find daily instances of wholesale defalcations by men of trust and repute and former seeming probity; when we see the expressed will of the sovereign citizenshipof self-governing communities made the football of political brigands, and whole States beneath the power of political buccaneers; is it any wonder that we feel at times that the sense of the unrighteousness of stealing has been abandoned by many in control of affairs in public life?

We need an enlightened public conscience. Men must be made to feel and to know that corporate and public thievery, as private, are contrary to the law of God. Statesmen who wink at and foster robbery of the treasuries ought to be returned to private life, if nothing more. Politicians who are out for graft must be relegated to the rear. Clean [illegible] must cut the way to the rege[illegible] of our social life. The crow[illegible] unwholesome and immoral [illegible]rasites who despoil and bes[illegible] communal life should be removed from power and influence.

"Thou shalt not steal" said Moses. So says Christ to us. All that Moses asked of Israel, Christ demands of America. No man can steal and be plumb to the law of love. With the entrance of Jesus the heart will seek to give rather than to get; and with the soul that walks with Moses' God, the right will ever reign supreme.

But despite all the unwholesomeness around us, the signs of the times presage a glorious transformation that is near at hand. Whatever may have been the evil sowing of yesterday, and whatever may be the alarming harvest of to-day, we need not fear for the harvest of tomorrow. The Lord is coming into His own. Society is coming to its senses and better men are moving to the front. The dormant will of a mighty people is awaking and woe betide the wicked charlatan who fails to see the writing on the wall, or seeing, fails to heed it. And the awakening will come most largely, as in the nature of the case it ought, among the common people of the land; those at whom the unphilosophical slander is so often hurled that they are not worthy to be trusted because they are so fickle, so foolish and so weak.

That a social regeneration and moral revival is taking place in society no man may, with reason, doubt. It is in the air. Men are applying moral standards that for years we have never, or seldom, heard employed in the judging of individual and public actions. The newspaper to-day blazes the trail ahead of the pulpit, and many an editorial handles the ethical cudgel more forcefully and effectively than many a sermon. Men, within and without the church, are asking for more decisive, concrete, fearless ethical preaching from the pulpits of our land. Ecclesiastical authorities are hesitant about receiving the money of our tainted millionaires, not because they are convinced that money itself can partake of the moral qualities of the individual who possesses it, no matter how bad a man he may be or however flagitiously his money may have been acquired; but because they do not want to become suspected of being receivers of stolen goods or lay themselves open to the charge, just or unjust, of compounding wickedness. Reform movements are rife, and the bottom plank of the reformation platform is, almost without exception, in substance, the Eighth Word of the Mosaic law.

Now and again we hear it said that those who promise us reform will, in their turn, when they shall have entered into power, exploit the people for their own advantage, as has been done of yore. I do not believe that this is so, as I read and interpret to-day's events; but of this I am sure, that they who betray the confidence of the people under the promise of a clean reform, will go down, at a later day, to a political disaster beside which the downfall of an Arnold will be counted tame.

Hand in hand with the moral reformation, a religious revival which shall purify men's souls will sweep the land. Spiritual blessedness and "joy and peace in a holy spirit" will become the chief desire of men's hearts. Having tried the comfort that the world gives and found it faulty, men will seek the peace of God which passeth all human comprehension, which the world cannot give and which the world cannot take away. Let us place our trust in the God of Israel and of America. Let us face the future with a cheer.

Plowing Around a Rock.

"I had plowed around a rock in one of my fields for about five years," said a farmer, "and I had broken a mowing-machine knife against it, besides losing the use of the ground in which it lay, because I supposed that it was such a large rock that it would take too much time and labor to remove it. But, to-day, when I began to plow for corn, I thought that by and by I might break my cultivator against that rock; so I took a crowbar, intending to poke around it, and find out the size once for all. And it was one of the surprises of my life to find that it was little more than two feet long. It was standing on its edge, and was so light that I could lift it into the wagon without help."

"The first time you really faced your trouble you conquered it," I replied aloud, but continued to enlarge upon the subject all to myself, for I do believe that before we pray, or better, while we pray, we should look our troubles squarely in the face.

We shiver and shake and shrink, and sometimes we do not dare to pray about a trouble because it makes it seem so real, not even knowing what we wish the Lord to do about it, when if we would face the trouble and call it by its name one-half of its terror would be gone.

The trouble that lies down with us at night, and confronts us on first waking in the morning, is not the trouble that we have faced, but the trouble whose proportions we do not know.

Let us not allow our unmapped trouble to make barren the years of our lives, but face it, and with God's help work out our salvation through it!—Advocate.

The Great Weaver.

Life is a great shuttle. But the pattern grows, the web is wrought. It takes both dark threadsand golden to work out God's design. You cannot judge the purpose of the Weaver by the thrust of the shuttle or the weave of one thread, whether it is dark or bright. "All things work together for good to them that love God." We are yet on the loom. The shuttles are not yet empty. Give God time to put this and that, dark threads and bright, together, and complete the purpose of His Providence.

The Law of Growth.

There comes a time when the chestnut burr opens up intuitively and the nut rolls out—there is a time when an apple gets so luscious and ripe it can hang no longer on the tree and falls—there comes a time when the chicken gets too big for its shell and picks its way out and manifests his larger form of life. There comes a time when every justified soul that keeps in harmony with God will walk into the experience of holiness.—T. H. Nelson.

NEXT Tuesday is election day and it is greatly to be hoped that every Democrat in Chilton county will make it especially a point to go out and vote for the Democratic nominees, thereby insuring the well being of the county in the future. Let every Democrat think that his vote is needed, that his county and his party look to and expect him to do his duty. And above all let every Democrat remember that two years ago it was the stay-at-home Democrat that defeated our ticket, a change of less than fifty votes would have made the Democratic ticket victorious. Every voter should vote next Tuesday.

The general election of officers, Federal, State and County, comes off next Tuesday. It is important to every interest of the Democratic party, and through it the State, that we should have a full vote. We are submitting to the people and the next Legislature a platform truly Democratic and embodying the demands of the people, demands which enacted into laws and made operative give the old Soldiers more care and protection, give the children of the State better school facilities, give to the boys and girls of the factories and mines, better protection and compulsory education, gives to each locality the right to decide for itself, conditions governing the sale of spirituos and malt liquors; give to the electorate, freedom from debauchery through funds arising from corporation subscriptions; and in the largest measure prevents the hiring of grafters; Eliminate the lobbyist from the State Capitol, and put the hired lobbyist on public record and requires him to name his master and the amount to be paid

And we call upon every one to help disseminate these measures and make them sure of accomplishment. And we again call upon every citizen to help disseminate these demands of the Democratic party and of the people and help make their enactment into law sure. It is the peoples' fight for true Democracy; let them take care of their own.

A LAST WORD BEFORE ELECTION.

Verbena, Oct. 30, 1906

Editor Banner—I have refrained from time to time from replying to the insults offered me by certain people in Chilton county since my candidacy for the reason only that at the outset I said I would not deal in mud slinging or insults toward any one. I have kept my word as I have ever done in all things. I now wish to enter my absolute denial of all charges made against me, with one or two exceptions. I am at this moment in fifteen miles of my birth place and in eleven miles of my place of raising, and while my moral record is probably not fully up to what it should be or has been, yet I thank my Maker that those who have known me since childhood will and do trust me in any capacity, including their vote. My past life is an open book, I having never practiced nor been inclined to hypocracy nor demagoguery. Certainly the opposition sees something in me that causes them to center their efforts against my election.

To say the least and once for all, I stand today where I have ever stood, for the greatest good to the greatest number. I fully believe the people are going to trust me on Nov. 6 by giving me their votes. If so, I pledge now, as heretofore, that their confidence shall not be misplaced and that they shall be represented in the next Legislature, a thing they have not recently enjoyed, nor will not if my opponent is elected.

I again call attention to my platform, sent to every voter in Chilton county, and which has been assailed, and me with it, by the opposition, which opposition I predict will not be so formidable after Tuesday, Nov. 6. Again asking the people to trust me, that I may prove to them that I am for them and their interest. And with kindness toward (nearly) all, I beg to subscribe my name as "The meanest man in the county,"

F. A. GULLEDGE.

Rushton.

The death angel visited the home of Mr. T. A. Ferguson Sunday at 11:30 a.m. and taken the beloved wife of Mr. T. A. Ferguson which was a very sad event to us all. She joined the church when about twelve years of age and has never had ought against her in life. They had been married nineteen years when she died and left him all alone in this world without any family. She has been almost an invalid for several years. She was a lady who was loved and admired by every one who met her. She told us all that she was on the Lord's side and that He was with her and the last words she ever said to her beloved husband was, the way was clear. The remains were taken to Sylacauga, or near there, to her old home for the funeral services.

Messrs. J. W. Cleckler and H. W. Tidwell escorted Mr. Ferguson to the funeral from this place.

Mr. Ferguson is an employee of the Wadsworth Lumber Co., and is a christian gentleman. We should all live in the way which we can leave the dying testimonial that the deceased sister left.

I hope the Editor will see fit to publish this for I hope it will impress some to do better and look to the future bliss and happieess.

Yours fraternally,
O. Z. ROBINSON.

Pleasant Grove.

Editor Banner—I want to ask for a small space in your paper to say a few words about the Chilton County Association, which met with Pilgrim's Rest church last Wednesday and Thursday. I want to relate some sights I saw and some I saw not. I want to say first that Chilton County Association had one more good session with P. G. Maness as moderator and every thing that was done was done in decency and in order. Another sight I saw was that the good people of Pilgrim's Rest had prepared a lot of nice victuals and put them in sight. Then I saw but just a few preachers there. Oh, why was it that you were not there? You ought to have been multiplying your talents. You know the man that had five gained five and he also got the man's that just had one. This poor one was left blank and you know what went with him. Preachers, I think you ought to attend the association, this means a whole lot for the uplifting of humanity and the spread of the gospel of our blessed Saviour. Because you are shepherds watching over these little flocks here and there, all over this beautiful country of ours. Now, to the churches that compose the Chilton County Association. What did I hear when the roll was called? That some were absent, churches, when the roll is called up yonder don't you want to be there? I think you do. Now, God says whatsoever ye bind on earth shall be bound in heaven, and whatsoever ye lose on earth shall be lost in heaven. Oh, how can you be a light to the world and act so indifferent about our Savior's work here on earth. Let us be up and doing while it is called day for night cometh when no man can work. Now, to the churches that were represented. Your delegates were few in number. Now delegates, were you providentially hindered or did you think that you ought to do your work at home and let God's work go undone. Brethren, I think at times our church members have gotten the cart before the horse. Let's get the horse in his proper place, and that is to do all that God commands first, and ours second, for God says, first seek ye the kingdom of God and His righteousness and such things as ye have need of here shall be added unto you. Now, brethren in conclusion, I want to say to one and all, let us do more in our future days for to glorifying our blessed Savior's name and spread of His gospel than we have in our past days. Yours for a better life,

J. S. WRIGHT.

Program Sunday School Convention

The annual convention of District No. 8 will be held at Corinth church, 5 miles east of Verbena, 2d Sunday in November, 1906.

9:45 a.m. Devotional exercises, E. L. Jones; singing, led by A. L. Robinson.

10. President's report, D. S. Robinson; Secretary's report, Miss Lila Meriwether.

10:20. The influence of the Sunday school, P. M. Jones.

10:40. What is needed in my Sunday school? W. L. Pyron, J. F. Williams, John Norris. W. H. Strock. Cato Pattillo, W. C. Rich, Jeb Mims, E L Jones, Joseph Mims. D. S. Robinson.

11:30. Address by Judge Joseph Carthel, State Secretary.

1:15. Devotional exercises, Dr. H. W. Caffey

1:30. Music in the Sunday school. T. L. Robinson.

2. Discussion of primary work, Mrs. Agnes Farr, Miss Maggie Long, Miss Alice Strock, Miss Dera Sims, Mrs. D. S Robinson, Mrs. M. E. Baldwin.

2:30. The Sunday school as a field of training, A. L. Harris.

3. A well organized Sunday school, Judson Strock.

It is earnestly hoped that every school in Beats 5 and 10 will be represented at this convention.

D. S. ROBINSON.
LILA MERIWETHER.

In every clime its colors are unfurled
Its fame has spread from sea to sea;
Be not surprised if in the other world,
You hear of Rocky Mountain Tea.
Upchurch Drug co.

Maplesville.

We don't suppose you editors can take time from your politics to admire our beautiful autumnal scenery, which would indeed be a great hardship to your scribe. The sun has at last come out to stay awhile, which encourages our cotton pickers to get in their much damaged crop; the short crop is being rapidly picked out.

Bro. Davis has protracted his meeting the past week; had the assistance of our venerable minister, Bro. Shores, and Rev. Byrd, whose wife is a relative of Mrs. R. D. Martin, and is now her guest. Though there were few accessions to the church, we believe much good has been done.

Mrs. Ensign is in improved health

Messrs. Hollister and Platte of New York have been guests of Mr. J. Ensign.

Miss Daisy Berry is with her grandmother, Mrs. DuBose, at Mr. T. U. Crumpton's, while Mrs. Crumpton is under treatment of Dr. Goodwyn DuBose of Selma.

Mr. R. McCary and family have visited his sister, Mrs. N. C. Goodwyn.

We regret our old gentlemanly friends, Mr. Saunders, with his daughter, Mrs. Ricketts, have made a home in Montgomery. Many regret that they leave.

Little Isabel Saportas has gone to Dayton to attend school. She will be with her aunt there, Mrs. M. G. Sullivan SUBSCRIBER.

Rockymount.

There will be a public working on the Rockymount cemetery Saturday Nov. 3d.

The annual revival meeting at this place will be on hand Sunday, the 11th, the pastor, Rev. A. T. Vandiver, will be assisted by Rev. Sam Jones and others of the Alabama Conference. J B. N.

Let every Democrat vote next Tuesday.

FIFTY CENTS

IN some conditions the gain from the use of Scott's Emulsion is very rapid. For this reason we put up a fifty-cent size, which is enough for an ordinary cough or cold or useful as a trial for babies and children. In other conditions the gain is slower—health cannot be built up in a day. In such cases Scott's Emulsion must be taken as nourishment; a food rather than a medicine. It's a food for tired and weak digestions.

Biliousness, constipation retard recovery. Cure these with Ayer's Pills.

Stump's Hill.

Editor Banner—I want to say that I have followed the corruption of both political parties as far as I expect to. I have watched closely for a number of years and both sides are nothing else but a case of pot and kettle, as far as politics are concerned. Of course, there are good men in both parties, but those rotten bosses away with them. Let all good Republicans go to the polls and vote for one only, Rolleffee Bates. Yours for,

A SQUARE DEAL.

Letter to M. F. Cannon & Sons
Clanton, Ala.

Dear Sirs: Here's a tale with three or four tails to it.

Professor Irvine has an Academy, Mercersburg, Penn. He paints the floors in summer vacation. It used to take 90 gallons of paint. There were two paint-stores there, and he used to buy (one year of one, next year of the other) 90 gallons year after year.

Now he paints Devoe; 60 gallons; and the difference is a saving of $150 a year.

H C Fallon was one of those dealers, good man; but he wouldn't take up Devoe; so we turned to the other, J A Boyd. But Fallon has found it necessary to get a good paint to compete with Devoe. He got one of the eight honest paints He has a big hardware store and is doing an excellent hardware business; but Boyd, of course, has the run on paint—he's a little hardware man.

We don't care how little or big a man is, if he wants good paint and is active and sound.

Yours truly
10 F W DEVOE & CO

Chilton County Associaton.

The Chilton County Association met in its annual session with Pilgrims Rest church on Wednesday, Oct. 17, 1906

The devotional service was conducted by Rev. P. G. Maness The soul-stirring hymns and the earnest prayers which ascended from our hearts made it a sweet hour of preparation for the work of the association proper. Rev. P. G. Maness was re elected moderator and brother W. H. Shaw was re elected clerk. Rev. Maness has served in this capacity two years, he presides with ease and dignity.

Reports on the various subjects were all ready to be submitted to the association, they were read thoroughly discussed and adopted, many interesting and profitable speeches were made durign the association.

Our beloved Editor of the Alabama Baptist was among our visitors, earnestly representing the great paper for which he has done so much. We appreciate his sincere work and pray for the advancement of this great cause. Rev J. W. O'hara of Montgomery was also a pleasant visitor, representing the mission work for Bro. Crumpton.

The next session of the Chilton County Association will meet with Shiloh church.

JEROME WILLIAMS.

The best treatment for indigestion and troubles of the stomach is to rest the stomach. It can be rested by starvation or by the use of a digestant which will digest the food eaten, thus taking the work off of the stomach. At the proper temperature, a single teaspoonful of Kodol will wholly digest 3,000 grains of food. It relieves the present annoyance, puts the stomach in shape to satisfactorily perform its functions. Good for indigestion, sour stomach, flatulence, palpitation of the heart and dyspepsia. Kodol is made in strict conformity with the National Pure Food and Drug Law. Sold by Upchurch Drug co.

Let every Democrat vote next Tuesday.

Wilkins Mills

On last Sunday morning, as the sun arose to illuminate this beautiful world of ours, the people were gathering from all directions as if they were going to a barbecue. At 9:30 o'clock a large crowd of friends and relatives gathered at the home of the bride to witness the marriage of Mr. W. W. Wilkins and Miss Lela Mills. The bride was lovely and the groom was excited of course. Rev T. J. Deason officiated. Soon after the marriage the happy young couple left for Vine Hill, where they will make their future home. May they ever be happy together.

THE ONLY ONE.

DeWitt's Kidney and Bladder Pills act on both kidneys and liver, and as a result afford the quickest relief from those troubles resulting from an excess of uric acid. Such trouble as rheumatism, back-ache, sciatica, etc., are quickly relieved by a few doses of this modern remedy for the Kidneys. Sold by Upchurch Drug co.

Death at Ocampo.

Died on the morning of the 20th inst at Ocampo, after a lingering illness, little Marvin, only child of Mr. and Mrs. Turner Craddock, aged fifteen months. His remains were enterred at Providence church. May He who doeth all things well comfort the stricken parents, and may they so live as to meet their little angel babe in the "Sweet bye and bye" and live with him forever. They have the sympathy of the entire community. A FRIEND.

Jemison.

Editor Banner— Please allow me space for a few words in reply to an article in the Union last week. I noticed he charged Mr. Gulledge as having a negro committeeman to get the post office at Verbena. Now, listen, a negro executive committeeman of the Republican party has the power to change a lady Republican for a Democrat. Did you ever think that any party was so sorry as that a negro could have so much influence? Now, I want to say that I believe Mr. Gulledge got the post office by acting the gentleman, just like he is going to represent Chilton county in the legislature. As for Mr. Middleton, I have nothing to say about him as a man, only he is not the man for the place. I have been with Mr. Gulledge for two years and know he is for the people, while Mr. Middleton has never offered to do anything for the people.

W. H. KILLINGSWOTH.

Made Happy For Life.

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus Dance, which yielded to no treatment, but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles effected a complete cure." Quick, sure cure nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by Upchurch Drug co. Price 50c.

SPIGENER & JONES,
HARDWARE STORE
Clanton

Adams.

Our Sunday school is getting along nicely at this place, we have new officer and teachers. The school is larger than it has been in a good while, but we are without a pastor for another year. If we don't get another pastor we expect to do our best with the help of our Lord. I am more determined to press onward and upward with Christ than ever I have been in my christian life. By God's grace and help I shall do whatever He has for me to do no matter how small it may be. May God bless every reader of the Banner.

Yours truly
EVIE WILLIAMS.

Job Printing cheap at THE BANNER Office

AT THE TOP OF THE ROAD.

"Not, lord," she said, "my shoulders still are strong—
I have been used to bear the load so long;

"And see, the hill is passed, and smooth the road."
"Yet," said the stranger, "yield me now thy load."

Gently he took it from her, and she stood
Straight-limbed and lithe, in new-found maidenhood

Amid long, sunlit fields; around them sprang
A tender breeze, and birds and rivers sang.

"My lord," she said, "the land is very fair!"
iling, he answered: "Was it not so there?"

"There?" In her voice a wondering question lay;
"Was I not always here, then, as to-day?"

He turned to her with strange, deep eyes aflame:
"Knewest thou not this kingdom, nor my name?"

"Nay," she replied; "but this I understand—
That thou art Lord of Life in this dear land!"

"Yes, child," he murmured, scarce above his breath;
"Lord of the Land, but men have named me Death."
—Charles Buxton Going, in McClure's.

THE GODS AND THE ALLY

By CECELIA A. LOIZEAUX.

Both of the Old People chose the Ally because they were afraid to trust in the gods. They had not seen the gods—and they had seen the Ally and had found her good to look upon.

Of course they did not call her the Ally—they called her Mrs. Renolds. She was a widow, rich, young and good looking, with such a dainty, demure style of good looks that both of the Old People forgot the society adage concerning widows, and went to her for advice on various subjects. And the Ally enjoyed it. She had been a widow for four years, and it was beginning to be whispered among her most intimate friends that she was not inconsolable.

Among other good qualities the Ally was possessed of a keen sense of humor. Therefore when the Old Lady who lived on the comfortable estate adjoining the Ally's own in the quiet but well-to-do suburb, took a fancy to the young widow and made her by degrees her confidante, the Ally was a little touched and more than a little amused. The crowning proof of the Old Lady's affection came one bright spring afternoon when she was calling upon the Ally. It was a long tale if you go back to the beginning, for it started when the Old Lady was twenty-two instead of sixty-two. She had been in love with and engaged to a certain Allan Hinsdale. But they had quarreled and thereafter hated each other with an implacable hatred.

Eventually each had married another, though neither had forgotten. The Old Lady's daughter Nell was just what her mother had been. "Only she hasn't any pride at all," complained the Old Lady. "If she had the least bit of pride in the world she would not fall in love with the son of a man whom her mother hates."

"I don't understand. Can't you make things a little clearer?"

"Well, you see," said the Old Lady plaintively, "I bought this place when my husband died. He never would get it for me. He positively refused to live more than a half-hour away from his business. Said he could use all the time he would consume going and coming in making money. I guess he did. When he died I took it and bought this place.

"We had the best time you can imagine out here until the Fairweathers sold their place on the other side of you, and then my troubles commenced."

The Ally patted the Old Lady's hand and said "Yes?" encouragingly.

"Of course you know those people. Goodness knows they've braved it out long enough. I was here first and I will not be chased out of my home. It's just like that hateful, stubborn Allan Hinsdale! And his son is just like him—only not so good looking. You wouldn't believe it, but he was handsome in those days," and she sighed.

"His son is good looking now," suggested the Ally.

"Yes, just like ninety-nine out of a hundred young men you meet every day. They all look alike and he looks just like the rest of them. No distinction about him as there is to my Nell."

"Nell is a good looking girl," supplied the Ally, diplomatically.

"Well, you can see the rest. It's going on right under our noses, and I'm perfectly helpless. It's Frank Hinsdale and Nell Coover seven days out of the week.

"It's outrageous, and Nell will not listen to a thing I say. It's a wonder there hasn't been a scandal before this. Young people weren't permitted to act so in my time. And every one knows perfectly well that Allan Hinsdale and I wouldn't speak to each other to save our necks from the gallows."

The Old Lady rocked violently a moment before she continued.

"I can't see why she should be so infatuated with him after all the nice men she has met. He hasn't any manners or he wouldn't smoke while they are out playing that horrible golf together. Even his father wouldn't do that!" Then Ally's eyes narrowed just a little as she said:

"Really, Mrs. Coover, Frank is a nice young man!"

"Well, supposing he is! Is that any reason why Nell must make a fool of herself over him? If those two were to marry it would put their parents in a pretty fix, wouldn't it?"

"Perhaps this friendship doesn't mean that they will marry after all," suggested the Ally, and then she was filled with astonishment at the effect of her words.

"Not marry! After such actions as this? What do they mean then? As soon as ever I reach home I shall find out if that young scamp has proposed, and if he hasn't I'll see to it that he does. And I'll see to it that he gets refused, too, if I have to call in all the neighbors to help!" There was a determined gleam in the Old Lady's eyes, which were still bright and blue behind her nose glasses. "That's what I wanted you to help me about," she suddenly remembered.

"But what could I do in such a matter as this?"

"Everything, my dear, everything!" said the Old Lady brightening. "You can do anything with Nell. She worships the ground you walk on, and she thinks anything you do or say is simply perfect. Now what I thought of was this"—and she lowered her voice and hitched her chair a little nearer to the Ally.

"You know such a lot of nice young people whom Nell has never met, because she has really been away at school for two or three years. And if you could introduce some of the most eligible of the young men they'd be sure to fall in love with her and she would see that there are other people in the world."

The Ally stiffened a little, and the Old Lady, seeing this, interpreted it to please herself. "I know it's a good deal to ask of you, but you're the only one of all the people I know who can help me. I know you like Frank, too, so I won't say all I could about him. I might like him myself if I didn't know his father so well."

"Well," decided the Ally, "I believe I will help you. I like Nell and Frank too well to see either or both of them made unhappy for life, if a little effort on my part will save them." She looked reflectively at the Old Lady, who had begun to beam. "But you must let me do things my own way, even if it seems silly to you."

"Certainly," said the Old Lady.

"I want you to seem to stop opposing Nell. Let her see just as much of Frank as she likes, and even encourage her in it, but not too suddenly. Be nice to him yourself—and you might, for the sake of the cause, just recognize his father when you meet him on the street." The Old Lady gave a squeak of dismay.

"I would far rather let Nell marry Frank and then spend the rest of my life getting even than speak to that man now!" She fairly bristled with dignity as she stood up and drew the voluminous black silk coat, which she wore in all weathers, around her and prepared to go.

The Ally walked with her to the door and out on the porch, and then wished she had not. It is dreadful not to be able to laugh at times when one wants to most. All the Ally could do was to lean against a pillar and pray under her breath for becoming sobriety.

As the Old Lady gingerly descended the steps and sailed majestically down the long, straight walk, the gate opened and there entered a tall, very straight Old Gentleman, who came up the walk with dignified taps of a gold-headed cane, and whose chin was lifted in a most dignified manner. When he met the Old Lady, who had become so straight she nearly bent backward, he stepped off the sidewalk and stood with his back turned, twirling his cane between his hands as he hunted for clouds in an absolutely flawless sky.

The Ally seemed not to notice the very visible wrath of the Old Gentleman as she came down the steps to meet him and led him into her sun-warmed library. But after a little preliminary skirmishing about the weather—depths to which the clever Old Gentleman rarely descended—he suddenly blurted out:

"I think I owe you an apology for the apparent rudeness I just showed one of your guests."

"Why, no," faltered Ally, but he seemed not to have heard.

"It is a little unfortunate that Mrs. Coover and I have seen fit to occupy homes in the same neighborhood. If I had known she lived here I certainly would not have bought this place. But now I'm here and I do not mean to be chased out of a comfortable home."

"But why should you?" puzzled the Ally, though she knew perfectly well.

"Madam, it is very awkward for me to be constantly meeting that—er—Mrs. Coover. The best thing she ever did to me was to jilt me when we were younger, and I've never forgiven her for that. She was an outrageous flirt, Madam, and I was completely taken in by her pretty face. You wouldn't believe it now, but she really was very pretty—much more so than her daughter is. That girl is a forward young miss. She has much of the personality of her father. Very disagreeable person, the father."

"I never knew him," murmured the Ally.

"If I thought the girl would serve Frank as her mother did me, I shouldn't care. It would teach him a lesson. I've warned him and he will not listen. But she won't. If ever a girl meant business I should think it was Nell Coover. Her father took Molly from under my very nose after we had quarreled about our wedding trip and had temporarily broken off. But I want you to help me," he suddenly remembered.

The Ally opened her eyes in hypocritical surprise.

"It just occurred to me this afternoon that I might tell you of my trouble and ask you to help me. I know it's a good deal to ask, but if you knew how much you can do with Frank! He worships the ground you walk on, and anything you say or do he thinks is all right. I thought you would try to interest him in some other girl if I let you know how I felt about it. If he married Nell Coover her mother and myself would be in a pretty fix."

"I might help you," reflected the Ally again. "But you must let me do it in my own way. For instance, should you care if I were the cause of making Frank fall in love with another woman?"

"Gracious, no! Any one but Nell Coover! I am willing and even anxious to see him married. Use your own taste."

"Well, then, you must help. The first thing I want you to do is to stop opposing Frank in the matter of seeing Nell. Encourage him in it if you can, without being too obvious. There is such a thing as too much sugar, you know." The Old Gentleman saw her point and nodded delightedly.

"And it would help a lot if for the sake of the cause you could just bow to Mrs. Coover when you meet on the street."

The Old Gentleman reached for his hat and cane and stood up very straight. "Madam, I would far rather see my poor boy married to that girl and then spend the rest of my life getting even than speak to that woman now. Good day, madam!"

* * * * * * * *

The Ally planned her campaign with much care, telling neither one of the Old People any more than she needed to keep their spirits up. She took every opportunity to talk with Nell and Frank, and finally she made out a list of young people for a two-weeks' house party. She asked both young people for a list of names, and she saw the little flush that reddened Nell's tanned cheeks when Frank insisted that she ask his friend Phil Bradley. Frank insisted that he didn't know a girl he would want around for two weeks other than the ones who were there already, but promised to be nice to those whom the Ally would invite.

There was a fortnight of merrymaking, and when it was all over, all the guests departed but Phil Bradley, who moved his traps over to Frank's and stayed on. From that day on the quartet was as much in evidence as the couple had been. Nell was observed to be very polite to Frank's guest, and the Ally, in the role of comforter to Frank, was eminently successful.

The Old Lady beamed upon Philip and the warmth of her smiles penetrated even to the depths of outer darkness, where Frank was supposedly gnashing his teeth. She did not take the trouble to stiffen so very much now when she met the Old Gentleman, and she even allowed herself the luxury of a supercilious smile, for she had no other idea than that the dearest wish of the Old Gentleman's heart was to marry his son to her daughter.

And as for the Old Gentleman, he was seen to cut an insultingly wide swath around the Old Lady's floating silk draperies, and was heard to hum as he twirled his cane:

"We never speak as we pass by, although a tear bedims her eye.
I know she thinks of her past life—
tum—didi—tum!"

—New York News.

Other People's Faults.

The highest achievement of charity is to love our enemies; but to bear cheerfully with our neighbor's failings is scarcely an inferior grace. It is easy enough to love those who are agreeable and obliging—what fly is not attracted by sugar and honey?—but to love one who is cross, perverse, tiresome, is as unpleasant a process as chewing pills. Nevertheless, this is the real touchstone of brotherly love. The best way of practicing it is to put ourselves in the place of him who tries us, and to see how we would wish him to treat us if we had his defects. We must put ourselves in the place of the buyer when we sell, and seller when we buy, if we want to deal fairly.—Francis de Sales.

Artesian wells are multiplying in Valencia, Spain, where good water is very scarce, and where a bountiful supply is obtainable at a depth of 120 to 130 feet.

For the Younger Children....

A SPOILED STORY.

Young Tommy was a reckless chap
As ever you did spy;
He crept into the pantry once
And ate a pot of lye—
No, no! I mean a lot of pie.

The pie did not agree with Tom,
So very large a piece,
He felt so ill he hastened off
To find a pot of grease—
Dear me! I mean a great of peace.

He wept with pain and doubled up
As tight as any clam.
"Oh dear! I feel as bad as when
I ate that jot of lamb—
No, no! I mean that lot of jam."

This story gets so mixed at times
Under my very eyes.
I'll stop. So far what I have said
Seems like a lack of pies—
Dear me! I mean a pack of lies.
—J. D. Benedict, in St. Nicholas.

AN EASY GAME OF MAGIC.

Take a coin in each hand and then hold both arms out straight to left and right. Now say that you will get both coins into one hand without changing the position of your arms in the least. After everybody is wildly curious to know how you are going to do it, walk to a mantlepiece, lay the coin from one outstretched hand on it, turn around and take it up in the other.

NO SALUTE FOR A DIRTY PRINCE

The present Crown Prince of Germany had as a child a great dislike of being washed. The Emperor tried various means to cure him, and he at last hit on the right one. The young Prince came running to him one day in a great rage, saying the sentry had not saluted him as he passed.

"To be sure," said the Emperor; "I gave orders they were not to salute a dirty prince, but only a clean one." The child's pride was hurt and he took to the bath.—London Telegraph.

AN AMUSING EXPERIMENT.

A simple kaleidoscope may be made by any boy or girl by taking a straight lamp chimney—an argand one is best—and painting the outside of it black. If you make a pinhole in a piece of paper and hold it at one end and look at it through the other it will appear as a number of circles of light. It is the cylindrical surface that reflects and causes this. If now you fasten two pieces of glass at one end of the chimney, placing between them beads and bright colored bits of glass so that they may move as you turn the chimney you will have as good a kaleidoscope as you would care to buy.

MAIL BOXES AS NESTS.

Since free delivery of mail in rural districts has been established I have been pleased to discover two or three pairs of bluebirds nesting undisturbed in mail boxes by the roadside. It is gratifying to know that the birds allowed themselves to be disturbed two or three times a day and yet not abandon their nests. But the thing that gives the bird lover the greatest delight is the fact that no one robbed the nests. I am sure the bluebird will in time learn to appreciate this kindness, and the day is not far distant when it will be a common occurrence to find some kind of bird's nest in every home-made box that holds a letter.

PORCUPINES AND SALT.

Some men who were camping in the Adirondacks several years ago, on breaking camp in the autumn, left an old tub which was saturated with salt brine. On returning to the same camp the next year they found that the tub had been gnawed until little of it was left. They were not long in finding out what animal had done the work, for the camp was overrun with Canadian porcupines. At night they became such a nuisance that the campers were obliged to kill them to protect their property. The handle of a paddle was gnawed half through.

The explanation of their presence in such numbers during that year, when they had not been noticeably abundant in the previous year, is that they had made a rendezvous of the camp, being attracted by the old brine-tub. On this they feasted all winter, and for that reason were greatly pleased with the locality.

An interesting query is this: Is the liking for salt an acquired or a natural taste? Were they ever able to gratify that taste to any extent before man gave them a chance to do so?—From Nature and Science, in St. Nicholas.

SEVENTEEN THINGS.

Seventeen things in which many young people render themselves very impolite:

1. Loud laughter.
2. Reading when others are talking.
3. Cutting fingernails in company.
4. Leaving meeting before it is closed.
5. Whispering in meeting.
6. Gazing at strangers.
7. Leaving a stranger without a seat.
8. A want of reverence for superiors.
9. Reading aloud in company without being asked.
10. Receiving a present without some manifestation of gratitude.
11. Making yourself the topic of conversation.
12. Laughing at the mistakes of others.
13. Joking others in company.
14. Correcting older persons than yourself, especially your parents.
15. To commence talking before others are through.
16. Answering questions when put to others.
17. Commencing to eat as soon as you get to the table.

RELY ON YOURSELF.

Nothing better could happen to the young man, who has the right kind of grit, than to be thrown on the world and his own resources. A well-to-do judge once gave his son $1000, and told him to go to college and graduate. The son returned at the end of the first year, his money all gone, and with several extravagant habits. At the close of the vacation the judge said to his son:

"Well, William, are you going to college this year?"

"I have no money, father."

"But I gave you $1000 to graduate on."

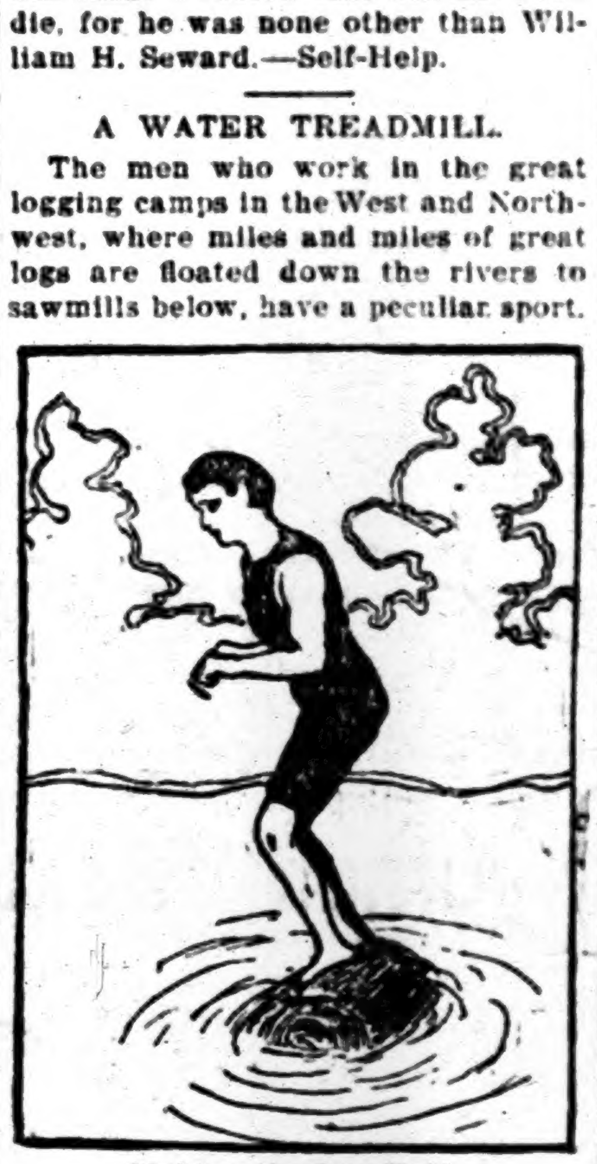
"It is all gone, father."

"Very well, my son, it is all I could give you; you can't stay here; you must now pay your own way in the world."

A new light broke in upon the vision of the young man. He accommodated himself to the situation; again left home, made his way through college, graduated at the head of his class, studied law, became Governor of the State of New York, entered the Cabinet of the President of the United States, and has made a record that will not soon die, for he was none other than William H. Seward.—Self-Help.

A WATER TREADMILL.

The men who work in the great logging camps in the West and Northwest, where miles and miles of great logs are floated down the rivers to sawmills below, have a peculiar sport.



Making the Log Roll.

They grow so at home on slippery, shifting logs rolling and tossing about in the swift current that they can leap from one to another and ride on them like circus performers while directing their course around a bend or bad place in the river. These "loggers" make a specialty of standing on a log and making it roll, first forward, then backward, by leaning one way or the other, and standing on the side of the log nearest the direction they wish it to roll. They can even make the log roll through the water like a wheel or hoop rolling over the ground.

Some time when you are "in swimming" or bathing find a good-sized log, put it in the water and try to stand on it. You will be surprised to find how difficult it is to do this, and the first time you try the log will probably roll over at once and dump you in the water. But you will very soon get the knack of it, and then you will find that by standing with your feet on one of the sloping sides of the log you can make it turn in that direction, and by moving your feet just as fast as the log moves you can not only keep your upright position, but can make the log move through the water. Try it.—New York Mail.

Afraid It Would Slip.

Senator Tillman piloted a constituent around the Capitol Building for awhile, and then, having work to do on the floor, conducted him to the Senate gallery.

After an hour or so the visitor approached a gallery doorkeeper and said: "My name is Swate. I am a friend of Senator Tillman. He brought me here and I want to go out and look around a bit. I thought I would tell you so I can get back in."

"That's all right," said the doorkeeper, "but I may not be here when you return. In order to prevent any mistake, I will give you the password, so you can get your seat again."

Swate's eyes rather popped out at this. "What's the word?" he asked.

"Idiosyncrasy."

"What?"

"Idiosyncrasy."

"I guess I'll stay in," said Swate.—American Spectator.

Fear of Newspaper Exposure.

Cardinal Gibbons said: "The dread of exposure in the public press keeps many a man sticking close to the path of rectitude who otherwise would stray off into the byways of graft."

THE SUNDAY SCHOO

INTERNATIONAL LESSON C MENTS FOR NOVEMBER

Subject: The Lord's Supper, xxvi., 17-30 — Golden Te Cor. xi., 24—Memory Verse 27—Commentary on the Le

I. The preparation for the (vs. 17-19). 17. "First day o feast." The 14th of Nisan wa day of preparation. The celebr continued until the 21st (Exod. 13-20). "Of unleavened bread." called because at this feast onl leavened bread was allowed. "W wilt thou?" Jesus had no hom His own, and the disciples knew some place must be chosen at "That we prepare." That which required consisted of a room nished with table and couches for food, unleavened bread, herbs and a paschal lamb, must be slain in the temple b 3 and 5 o'clock, and cooked i vate house.

18. "Go into the city." I that Peter and John were se were now at Bethany and Je them to Jerusalem. "To man." It is probable that th some person with whom Ch well acquainted, and who wa to the disciples. "Say unt Say unto the master of the "who was probably a disciple, cretly, like many others, for the Jews (John 12:42); a may explain the suppression name." "The Master saith. teacher saith. This may, or m have identified Jesus. The great respect shown for rabb they would be received gladly most any home. "My time hand." The time of His death where called His hour. "A house." This message seems ger to us than it would to the even if he had little knowledg Jesus. During the week of the over, hospitality was recognized universal duty in Jerusalem.

19. "Did as Jesus had appoint They obeyed in every particular found everything to happen as J had foretold. Those who would h Christ's presence with them m strictly observe His instructions.

II. Events during the eating the Passover (vs. 20-25). 20. "T even was come." It was probab while the sun was beginning to d cline in the horizon that Jesus an the disciples descended once mor over the Mount of Olives into th holy city. "Sat down." Or reclined according to the custom of that time

21. "As they did eat." The Passover, not the memorial supper. He tasted first the unleavened bread and the bitter herbs, before the lamb was served. "One of you." How sad! One who is pledged to be faithful and true. Jesus was troubled in spirit (John 13:21). "Shall betray Me." Judas had already agreed to betray Him. This announcement would give him an opportunity to repent, but this he did not do.

22. "Exceeding sorrowful." Because He was to be betrayed, and because one of their number was about to perform the dastardly act. "Lord, is it I?" This in the original has a stronger, negative meaning than in the English. Surely, not I, Lord?

23. "He that dippeth." It was at this point that Peter beckoned to John, who was leaning on Jesus' bosom, to ask Jesus who it should be (John 13: 22-27); and Jesus probably gave them a sign by which they knew. 24. "Goeth." To the cross and to death. "As it is written." In such scriptures as Isaiah 53. "Woe unto that man." A sad statement of a terrible fact. Jesus had previously told of His betrayal and death. "Had not been born." This was the last warning to Judas, who still had an opportunity to repent.

25. "Is it I?" Judas tried to cover his hypocrisy and wickedness by asking this question. "Thou hast said." A Hebrew form of affirmation meaning yes, you are the one.

III. The memorial supper (vs. 26-30). 26. "Were eating." Toward the close of the Passover feast. "Took bread." Took the loaf or thin cake of unleavened bread, which was before Him. "Blessed it." Invoked the blessing of God upon it. "Brake it." The act was designed to shadow forth the wounding, piercing and breaking of Christ's body on the cross. "This is My body." This bread represents My body. 27. "The cup." The word "wine" is not used, but "cup," "the fruit of the vine" (v. 29), so that "unfermented grape juice was all that was used." "Gave thanks." It was like giving thanks over the shedding of His own blood.

28. "Is My blood." Represents My blood. "Of the covenant" (R. V.) It was an old covenant renewed, and thus a new promise to men that God would provide a great salvation. "For many." For all mankind. "Remission of sins." "For the taking away of sins." But although the atonement is made, yet no man's sins are taken away only as he repents and turns to God. 29. "Not drink henceforth." He would not eat and drink with them again before He died; this was their last meal together. "When I drink it new." When I drink new wine—"wine of a different nature from this"—in the kingdom of God. Here is a pledge to them that they would again assemble, in the kingdom of glory, to commemorate the triumph of Christ and His kingdom. 30. "Sung an hymn." Probably Psalm 118, which was always sung at the close of the paschal feast. At this time Jesus spoke the words recorded by John, in chapters 15-17. "Into the Mount of Olives." Where Jesus suffered in the garden of Gethsemane and was betrayed.

About Noted People.

In a report to the Tax Commissioner of Richmond, Va., Thomas F. Ryan gives his annual income as $150,000. The tax on income is $1 a thousand.

Bartley Harper, of Lima, Ohio, saved Vice-President Fairbanks from drowning when he and Mr. Fairbanks were boys together in Union County, Ohio.

Senator Chauncey M. Depew, improved in health, presided at the meeting of the New York Central Board for the first time since last March.

A Good Record.

Of all the external remedies on the market we doubt if there is one that has record of that world-renowned porous plaster—Allcock's. It has now been in use sixty years, and still continues to be popular as ever in doing its great work relieving our pains and aches. It is the remedy we all need when suffering from any form of ache or pain resulting from taking cold or over-strain.

Allcock's Plasters are sold by druggists in every part of the civilized world.

A species of bee called the "clothier" covers its nest of eggs with a cloth made from the woody fiber of plants, and thus preserves its young from sudden changes of temperature.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle

The Chinaman's Ear His Purse.

"Just watch that Chinaman when the conductor comes for his fare," said a keen-eyed man to the fat man who was wedged in beside him on an "L" train. The two watched, saw the Chinaman clap his hand to his ear for a second and then hand the conductor a nickel. "Well, I did not see anything unusual," observed the fat man, "except that he kept the conductor waiting while he scratched his ear." "That was just the point," explained the keen-eyed man. "He had to scratch his ear to get his money. Chinamen keep their carfare in their ears, sometimes a ten-cent piece and sometimes a nickel. I've watched them dig it out time and time again. It's a more convenient place for carrying change than in their trousers pockets, for they'd be ages getting into their voluminous draperies. It's a good sight better habit, too, than holding coins between one's teeth, which you see pretty girls doing every day."—New York Correspondence Pittsburg Dispatch.

Varied Attainments

"One of the most remarkable men that ever lived in Columbia," said Col. J. S. Dorsey, the other day, "was Sam Young who was a lawyer here for twelve or fifteen years before the war. He was not only a good lawyer, but one of the best actors I ever saw on the stage. He was a fine shoemaker, the best cigarmaker I ever saw and could play a violin as well as the old masters. He could make the most effective temperance speech and then a few hours afterward could be drunker than any other man in Columbia. He made an ideal prayer meeting leader and could beat anyone else in a poker game. He was the most accomplished man I ever saw."—Kansas City Star.

The greatest length of time which any bottle has been known to remain afloat is twenty-one years. A bottle containing a message, which was thrown overboard by an American sea captain off Newfoundland in 1878, was picked up off the west coast of Ireland early in 1899.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & Co., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

Postal facilities in China are reported to be improving through the service on fast trains between Pekin and Hankow. These are expected to make the run in thirty-six hours.

Where's the Dollar?

A gunner brought sixty ducks to a game dealer and told him to sell one lot of thirty at three ducks for $1, and the other lot of thirty at two for $1. Instead of this the storekeeper sold the whole sixty at five for $2, which brought in $24. If he had sold them as directed he would have received $10 for one lot of thirty, and $15 for the other lot of thirty, making a total of $25. The question is: What became of the missing dollar?—Philadelphia Record.

There are 11,093,469 bank depositors in England.

HAD TO USE A CANE.

Weakened Kidneys Made an Elwood, Ind., Man's Back Give Out.

R. A. Pugh, transfer business, 2020 North B Street, Elwood, Ind., says: "Kidney trouble laid me up for a long time, and when I was able to be up I had to use a cane. I had terrible backaches and pain in the shoulders. The kidney secretions were dark colored. After doctoring in vain I began using Doan's Kidney Pills. Three boxes cured me entirely, and I am glad to recommend them."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

The Value of a Good Laugh.

Dr. Patrick Scongal, a Scottish bishop in the seventeenth century, was earnestly asked to see an old lady whose cow was sick. The prelate again and again refused, but to satisfy the old body, reluctantly agreed to go. Having seen the old lady, she wanted him to see her cow, and walking around the beast he said gravely, "If she lives she lives, if she dies she dies. I can dae nae mair for her."

In a short time afterwards the bishop was afflicted with a quinsy in the throat. The good, honest woman hearing of it, and feeling he had cured her cow, got permission to see him in his chamber. She walked around the bed repeating the words of the bishop when he walked around the cow. At this ludicrous sight the bishop was seized with a fit of laughing which broke the quinsy and saved him much suffering.

..lief

has been found ... in thousands of cases, in relieving and curing. "I had been troubled with female complaints for 12 months," writes Mrs. Bettie Arp, of Ballplay, Tenn., "and although I was under doctors' care for four months, they did but little good. I took one bottle of Wine of Cardui and one dollar's worth of Thedford's Black-Draught, and now I am better. I believe Cardui saved my life. We are poor people, but I shall always keep it in the house." It relieves woman's worst pains and regulates fitful functions. Try it.

Dr. Earl S. Sloan, Boston, Mass. U.S.A.

In ancient times the Russian plains were practically unknown to the civilized world. It was called Scythia and its peoples were spoken of as wild Scythian or Sarrathian tribes.

Austria is the sixth nation in wealth.

SKIN ERUPTIONS 35 YEARS.

Suffered Severely With Eczema All Over Body—A Thousand Thanks to Cuticura Remedies.

"For over thirty-five years I was a severe sufferer from eczema. The eruption was not confined to any one place. It was all over my body, limbs, and even on my head. I am sixty years old and an old soldier, and have been examined by the Government Board over fifteen times, and they said there was no cure for me. I have taken all kinds of medicine and have spent large sums of money for doctors, without avail. A short time ago I decided to try the Cuticura Remedies, and after using two cakes of Cuticura Soap, two boxes of Cuticura Ointment, and two bottles of Cuticura Resolvent, two treatments in all, I am now well and completely cured. A thousand thanks to Cuticura. I cannot speak too highly of the Cuticura Remedies. John T. Roach, Richmondale, Ross Co., Ohio, July 17, 1905."

Austria is a common name for the eastern part of any kingdom.

Magna Charter (the Great Charter), England's "Declaration of Independence," was wrested from King John by the British barons in 1215; absolutism then ended and Britain hass ince been a limited monarchy, except during the period of Cromwell's commonwealth.

YOU CANNOT
CURE

all inflamed, ulcerated and catarrhal conditions of the mucous membrane such as nasal catarrh, uterine catarrh caused by feminine ills, sore throat, sore mouth or inflamed eyes by simply dosing the stomach.

But you surely can cure these stubborn affections by local treatment with

Paxtine Toilet Antiseptic

which destroys the disease germs, checks discharges, stops pain, and heals the inflammation and soreness.

Paxtine represents the most successful local treatment for feminine ills ever produced. Thousands of women testify to this fact. 50 cents at druggists.

Editor Banner—Please allow me space for a few words in reply to Mr Vickers' letter in last week's Union. Now, Mr. Vickers, I could call you a whole lot of bad names, but I have more respect for myself and the Editor of the Banner to practice such rot, but I will say that I never said anything about you in my first letter. I was only speaking of the parties that I mentioned in my letter, and I told nothing but the truth, but they tell me that a hit dog will yell, but you are more like a poor old hound, you yelled before you were hit. Now, Lee, if you will take a little advice from this fool, as you call me, if you and your editor haven't got any respect for yourself, have some for your own party and other people who read the Union. Now, Lee, I am going to close by asking your friends to be sure and send you this letter. Friends, you send Lee this letter and tell him that after November 6, if he wants to see his Representative for Chilton county, just go to see F A. Gulledge, and if you want this fool arrested just go to Tom Traywick; of course you know Harrison and Atchison will be commissioners by 300 votes. Come out, everybody and vote the Democratic ticket.

A SURE VOTER.

A Year of Blood

The year 1903 will long be remembered in the home of F. N. Tacket, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tacket's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completed restored and as time has proven permanently cured." Guaranteed for Sore Lungs, Coughs and Colds, at Upchurch Drug co. Price 50c and $1,00. Trial bottle free.

Hampton Schoolhouse.

Please give me space in your paper for a few lines. The death angel visited the home of Mrs. Mary Hicks, Saturday, Oct. 20, and carried away her daughter, Miss Hattie Hicks; but grieve not, loved friends, God knows best.

Who is going to be the school teacher? DADS PET BOY.

FOLEY'S KIDNEY CURE

WILL CURE YOU

of any case of Kidney or Bladder disease that is not beyond the reach of medicine. Take it at once. Do not risk having Bright's Disease or Diabetes. There is nothing gained by delay.

50c. and $1.00 Bottles.

look like "Materially re g
business in San Francisco b yo e
we do not pay our fire losses."

The adjusting bureau of the San Francisco board of fire underwriters in its report discloses that on the completion of 10-11 of its work, the savings to the companys average 10 3 per cent of the amount insured; we shall be very well pleased to have our savings equal this. Our policyholders who were not involved in the San Francisco catastrophe were entitled to have their interests safeguarded by the application of proper adjustment methods, and in justice to them, as well as to our shareholders, it was incumbent on us to advantage ourselves of the rights of proof conferred by the policy contract, to the end that we might not pay something for which we were not liable; in the case of certain large interest our refusal to wave these rights of proof made for us some powerful enemies who have not scrupled to use every means to injure the business and standing of this company. The favorite method of attack seems to be to have republished in papers outside of San Francisco, the viciously untrue statements reflecting on our integrity, appearing in the local newspapers. The results of our adjustments should furnish the most emphatic contradiction of the assaults possible and all that any fairminded man of affairs should require. Upon the occasion of a special report made to the honorable insurance commissioner of the State of Illinois on September 8, our assets were:

London & Lancashire	$3,290,963.91
With a Surplus of	706,606.00
Orient	2,466,482.55

With a net surplus guaranteed by the London & Lancashire to be not less than $250,000, it is doubtless known to you that the London & Lancashire owns the entire capital stock of the Orient, and at a recent meeting of the board of directors of Liverpool a resolution was passed appropriating a special fund to guarantee that the net surplus of the Orient should not fall below $250,000

It would give me pleasure to send anyone a copy of this resolution, if they desire; also copy resolution to pay all conflagration losses of the London & Lancashire from the head office, leaving our United States assets intact.

TYNER'S DYSPEPSIA REMEDY.
Guaranteed Cure. Many Have Dyspepsia and Don't Know It.

The purchase price (50c) of Tyner's Dyspepsia Remedy will be returned if it fails to cure or relieve dyspepsia or indigestion in any form. Take as directed on label. Many people have fluttering of the heart, risings or pimples on the skin, dizzy feelings, aches and pains in the side or back, weak kidneys, constipation, belching of wind, blurred eyesight, tainted bad breath, hawking and spitting, headaches, acid stomach, pale skin, and don't know it's dyspepsia. If you have any or all of these symptoms take Tyner's Dyspepsia Remedy, and a cure is certain, sure and lasting. Tyner's Dyspepsia Remedy strengthens weak stomachs, helps digest your food, stops aches and pains, (stops colic immediatly). It tastes good and warms your stomach from the first dose. Cures where all else fail. Try it. Druggists, 50c. a bottle. Sold in Clanton by Florence Drug store; call or write; remedy sent by express.

$125 Reward.

The above reward will be paid on delivery of John Baker, colored, to the Sheriff of Chilton County, Ala., wanted for the shooting of W. A. Pool, April 14, 1906. Height 5 ft 8 in.; weight about 165 lbs; age 45 years; black skin. J. M. MORGAN,
Sheriff Chilton County, Ala.

NOTICE

The Chilton County Singing Convention No. 1 will meet with Liberty church, about 3 miles west of Clanton, the first Sunday in November in a called session. All singers are invited to attend, we request that the members of this body be present if possible

J. L. GORE, President,
JAMES FRANKLIN, Secretary.

GINNING SEASON 1906-7.

Having engaged Joe and Walter Maddox to run and operate our gins for the coming season, we solicit your patronage.

Respectfully,
Chilton Warehouse & Mfg. Co.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.

Bottles only. $1.00 Size holding 2½ times the trial size, which sells for 50 cents.

MAKE MONEY.

Here is an interesting study: Make out a list of all the people you know, and estimate the amount of money each one earns in a year. Total it up. The amount will be surprisingly large. Now, of all those people, only the few who SAVE SOMETHING really MAKE anything at all. Simply earning money isn't making it; what slips through the earner's fingers is finally "made" by somebody else. Don't forget to count yourself in on the list, and if you are not "making" money, begin now to save with us. One dollar will open your bank account.

CORRESPONDENCE.

Your stomach churns and digests the food you eat and if foul, or torpid, or out of order your whole system suffers from blood poison. Hollister's Rocky Mountain Tea, keeps you well. 35 cents, Tea or Tablets. Upchurch Drug co.

Pilgrim's Rest.

The health of the community is very good. A serious accident happened to Mr. Richard Thacker while in Selma last week; he was run over by a locomotive and was torn to pieces in the Western R. R., yards. His remains were buried at Pilgrim's Rest cemetery. The pastor, T. J Deason conducted the funeral services. The people deeply sympathize with the wife and daughter of Mr. Thacker. May the comforting influence of the Heavenly Father fill the place of their devoted husband and father.

We are glad to know that our Sunday school is improving; we hope the parents will become more interested in the work. Also our literary school is progressing nicely under the careful management of Prof. J. O. Williams. In reply to the letter in last weeks Banner about Mr W. W. Wilkins and Miss Lela Mills wedding I would like to inform the only one that she was just a week ahead of the date. They were united in the holy bonds of matrimony Sunday, November, 4 at the home of the bride, Rev. T. J. Deason officiating. After the services was over the wedding dinner was prepared which we are bound to admit was very nice. The evening was very much enjoyed by all that were present. As the crowd was leaving for their respective homes the bride and groom, accompanied by Mr Buster Deramus and Miss Pearl Gray, went for a drive. I think there will be another wedding across the creek before long. I heartily congratulate the young couple and pray God's blessings upon them, may they live a long and peaceful life together. With best wishes to all I remain,

A School Boy.

Dancing Proves Fatal.

Many men and women catch cold at dances which terminate in pneumonia and consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared. Refuse any but the genuine in a yellow package. Upchurch Drug co.

We have secured the agency for Orino Laxative Fruit Syrup, the new laxative that makes the liver lively, purifies the breath, cures headache and regulates the digestive organs. Cures chronic constipation. Ask us about it. Upchurch Drug co.

CLANTON ACADEMY

Possesses superior advantages to pupils of all grades, prepares them to enter the best colleges and universities, trains teachers to stand examination for any grade certificate, and qualifies them the better to fill a place in their profession.

L. J. Thompson,
Principal.

Maplesville.

Editor Banner—In justice to our town of Maplesville, I want to let our readers know as near as possible how we are getting along.

First, our progressive and energetic Dr. C. N. Parnell has a nice outfit of waterworks, a steel tank of 2,000 gallons capacity, 52 feet high, with gasoline engine, pump and piping all around his premises, ready in case of fire to protect his and other's property, thereby looking to the interest of his fellowman, also a fine span of horses to go to the sick on short notice which can be given him by telephone, which is in his office. He has sold his stock of goods to Mr. J W. Mitchell, an honest, Christian gentleman. Bro. Doss Williams is with Bro. Mitchell

Calhoun Foshee has built a large brick storehouse. He is an orphan boy who deserves praise for his kindness to his widowed mother, and to his many friends. He is young yet, but we look to him as our hopes for a controlling factor in a social and business capacity.

We have a fine school opened up with Prof. R. E. R. Hicks, who is known to be one of the best teachers in the world. Any community is proud to have Prof. Hicks employed. Maplesville has had some good teachers, but none to compare with Prof. Hicks.

While we rejoice at some things, our sympathies are greatly touched on account of the sickness of Mrs. T. U. Crumpton, who is now in the sanatarium at Selma, under treatment, and we ask the prayers of all Christian people in her behalf, that she may soon be able to return to her three dear little ones who gather at the station looking for her to return home, and an anxious husband almost heart-broken. We ask God's blessings upon them.

Now, by the time this is printed the election will be over and our ticket won or lost, but be that as it may I am a Democrat to the core and if we don't elect our ticket this time we will some other time, then when we once get hold the opposite party can't shake us loose any more and our administration will be such that we will draw all men except some and I don't want them in our playhouse anyhow; we are nice folks and we only invite nice folks home to our cabin or playhouse; we want no light apothecary weight, we need 16 ounces to the pound. I am proud of all our folks, especially L. N. Henderson, and W. E. Price. Success to all and especially The Banner.

W. Y. Atchison.

A Methodist Minister Recommends Chamberlain's Cough Remedy.

We have used Chamberlain's Cough Remedy in our home for seven years, and it has always proved a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.

Rev. James A. Lewis
Pastor Milaca, Minn., M. E. church.

Chamberlain's Cough Remedy is sold by Upchurch Drug co., Clanton, A. Horn, Thorsby.

GOLDEN WEDDING.

On Tuesday, Nov., 6, 1906, Mr. and Mrs. John W. Culp of route seven, celebrated their Golden Wedding at their home near Clanton. About one hundred relatives being present also several friends of the family including our genial mail carrier, Mr. James A. Thomas, who was with us during the noon hour. A generous dinner was spread under the native oak which was enjoyed by all present. The writer wishes the host hostess many more years of happy married life together.

Neutral to Religions.

Paris.—The minister of public instruction and worship, M. Briand, announced in an authorized interview that the government did not recognize the Catholic church as being in revolt against the law providing for the separation of state and church, or against the state. The Catholic church having simply declined to take advantage of its privileges under the law, as other religions did, on December 11 would forfeit its $80,000,000 of property and thereafter would live under the common law. There would be neither martyrdom nor persecutions of the faithful.

The churches, as state and communal property, would remain open for Catholic worship. The object for which the separation party in France had struggled for thirty years, the minister said, had been achieved.

The concordat was at an end, the state would no longer so contribute to the support of any religion, and priests would no longer enjoy privileges. In both their duties and obligations they would be on an equality with other citizens. In other words, the state was at least neutral towards all religions and would permit the exercise of all of them, with special favors to none.

Machinists Go to Work.

Washington, D. C.—The strike of machinists on the Southern railway, which was inaugurated recently for an increase in wages, has been settled. The strike was declared off and the men returned to work Monday without prejudice on account of the strike. The men who remained with the company are to continue at work. Those who have been employed since the strike were retired from the shops before Monday morning, but without prejudice as to their continued employment by the company in other places or as to their future employment in the shops if needed. The wages offered to the machinists prior to the strike are to apply from November 5 and the company's proposition to arbitrate the differences between the scale and the demand of the union has been accepted. This adjustment took place at a conference in New York between members of the National Civic Federation, the officers of the Southern Railway Company, the president of the International Association of Machinists and the local committee of Southern railway machinists.

To Hold Powwow.

Sheridan, Wyo.—A conference between the Indians and troops resulted in an agreement on the part of the Utes to return with Colonel Rogers to Fort Meade, to be taken care of there by the government, while Chief Red Cap and Black Whiskers go to Washington to talk the matter over with President Roosevelt. The Utes will go overland with a troop of the Sixth Cavalry. The Indians have not been disarmed and will not be as long as they make no threatening actions.

Robert Burns' Letters.

New York.—J. P. Morgan imported what is said to be the most complete set in existence of the original manuscripts and private letters of Robert Burns, the Scotch poet. Mr. Morgan's agents have been securing Great Britain for the last fifteen years in order to secure the documents. An expense of no less than $200,000, it is estimated, has been so incurred.

It is believed to be the intention of Mr. Morgan to bequeath the Burns manuscripes and letters to the Metropolitan Museum of Art.

May Be Prosecuted.

Charlotte, N. C.—On the best of authority it is stated that a number of prominent cotton mill men of this city and section will be prosecuted by the federal government either here or in New York for alleged violation of the alien labor laws in the importation of about forty English people to work in the mills. The matter is serious and the result is anticipated with anxiety.

Mrs. Anthony Dead.

New York.—Mrs. Anthony, mother of "Bill" Anthony, the hero of the Maine, died in St. Mary's Hospital, Hoboken, Thursday night. She was 80 years of age. The suicide of her son recently preyed upon her mind.

Woman Takes Poison.

Chattanooga, Tenn.—Minnie Dougherty, a young woman, died at the hospital after a hard fight to save her. She was arrested at the Central depot, and at the police station it was found she was dying from poison taken with suicidal intent, and she was given medical attention for hours.

Recover City of Niuchang.

Pekin, China.—The Japanese garrison here celebrated the Mikado's birthday. Viscount Hayashi gave a reception in his emperor's honor.

It is believed in diplomatic circles that the city of Niuchange will be restored to China in the near future.

British railway trains are getting the wreck habit.

ALABAMA GLEANINGS.

Items of Interest Gathered as They Transpire Over the Entire State.

Shooting of Holderfield.

Gadsden, Ala.—The shooting of J. B. Holderfield Wednesday night near Sligo by Willias Elkins seems to have been the outcome of a previous trouble between the two men and not as the result of the coroner's investigation of the Davis murder had it.

It is stated that Holderfield is the road supervisor for that beat and he had served Elkins with a notice to work the roads, but that Elkins ignored the summons. Wednesday Holderfield secured a warrant for his arrest and went to Sligo to serve the warrant himself. This enraged Elkins and he laid in wait for Holderfield on the road to Mountainboro, knowing that he would return home that way, and shot him.

The wounded man will recover. Elkins has not been captured, and it is believed he has probably left the country.

Settles With City.

Montgomery, Ala.—City Treasurer R. S. Williams received $12,000 as a settlement with the bondsmen of the city's claim against R. H. Somerville, who was city treasurer at the time of the failure of the banking house of Josiah Morris & Co., in which bank Mr. Somerville had a large sum of money on deposit.

The bond of Mr. Somerville was for $40,000. His sureties were John V. Durr, Sr., A. A. Wiley and F. M. Billing. The settlement was in the nature of a compromise agreed upon by Mayor Teague and the city council. The bondsmen. The bondsmen paid $3,500 and the city received $8,500 from the bankrupt court on account of the assets of the bank.

With the payment of the money into the city treasury the claim against the bondsmen was settled in full.

Program Is Completed.

Anniston, Ala.—The program for the dedication of the Alabama Synodical College for Men was completed when the only doubtful man on the list of speakers signified his acceptance of the invitation to participate in the dedication ceremonies, which will be carried out by some of the leading exponents of education in the south.

The entire synod of the Presbyterian church in Alabama will be in attendance at the dedication, the synodical members coming here in a body from Talladega immediately after their adjournment on Thursday morning, November 15, at 7:30, proceeding from the local station to the college, where they will spend the entire day considering the interests of Christian education.

Dinner will be served the speakers and members of the synod at the college dining hall, and besides the oratorical program several musical selections will be rendered between the speeches, thus giving a variety to the exercises.

Sale of Preserves.

Huntsville, Ala.—Colonel James F. O'Shaughnessy, of New York, president of the Huntsville Monte Sano Improvement Company, is here on an important business mission, and expects to be able to make a trade with the Interstate Sporting Club, which has taken an option on the properties of the improvement company on Monte Sano. The club proposes to establish a club house and maintain a shooting preserve on the mountain.

Suit Filed Against Southern.

Birmingham, Ala.—Suit has been filed in the United States court by I. M. Gray, administrator for Robert Lee Berry, against the Southern Railway Company for $30,000. The bill of complaint alleges that Berry was run over and killed by a train of the defendant. The accident occurred in Fayette. Wanton negligence on the part of the engineer of the train is charged by the plaintiff.

In Collision.

Norfolk, Va.—The battleship Virginia was rammed in Hampton Roads by the Old Dominion liner Monroe. Both vessels afterward come to this port. The Monroe, inward bound from New York, landed her passengers at her pier, while the battleship followed shortly under her own steam and proceeded to the Norfolk navy yard.

Farmer Burned Out.

Jackson, Tenn.—G. I. Rutherford, a farmer of the Eighth civil district, lost his house and nearly all his household goods by fire. He had no insurance, his policy having expired a few days ago. His loss is over $1,000.

Weds British Secretary.

London.—By permission of King Edward the marriage occurred at the chapel royal, St. James palace, of May, daughter of Mrs. William George Cavendish-Bentinick, formerly Miss Livingston, of New York, to John Ford, secretary of the British embassy at Constantinople and formerly attache to the British embassy at Washington, D. C.

CLOSE OF FAIR.

Special Officer Killed as Result of Misunderstanding.

Selma, Ala.—The Central Alabama Fair closed after a signal success during the entire week. The weather was very nearly ideal, not a drop of rain had fallen, and the crowds of visitors to the city were unprecedented.

Friday night about 1 o'clock occurred the one sad feature of the fair. It grew out of one special officer mistaking another, and resulted in the death of the latter, a young man, Edward J. Boykin by name. Earlier in the evening George Acker, one of the doorkeepers on the animal show of the Parker Amusement Company, missed his overcoat. When later it was found hanging on the back of the lions' cage, in which is performed the Wallace act, a pistol that had been in the pocket was missing. It was determined not to touch the coat, but to leave it hanging where it had been found, but to set a watch to catch the pistol thief when he should return to the coat. About 10:30 young Boykin left his post and went off, Officer R. A. Anderson taking up the watch. In about a half hour Boykin returned and, going under the canvas, went upto the coat. As he did so Anderson called out to him, and the unfortunate young man started to get a match when Anderson, thinking he was going for his pistol, fired twice, one of the bullets striking near the heart and causing practically instant

Shoots Her Husband.

Mobile, Ala.—W. Ross Ballentyne was shot in the temple at his home, 251 Marine street, his wife firing the fatal shot. Mrs. Ballentyne stated at police headquarters that her husband had quarreled with her and struck her twice. Driven to desperation she fired. Ballentyne was taken to the city hospital, where it was pronounced ne could not live until morning.

Ballentyne was one of the best known young men of Mobile. He was employed as a fruit messenger by the United Fruit Company. His wife was formerly Miss Bettie Buchanan, of Aberdeen, Miss., and the divorced wife of James Brassfield, of that city.

Mrs. Ballentyne appeared much depressed when brought to police headquarters and placed in a cell.

Shortage Amounts to $61,500.

Washington, D. C.—Acting Secretary of the Treasury Keep stated that a shortage of $61,500 had been found in the St. Louis sub-treasury, but when the shortage occurred or who is responsible for it he declined to state, saying that the matter was under investigation by treasury officials, in conjunction with those of the department of justice.

The announcement was made immediately after the return of C. C. Bantes, deputy assistant treasurer of the United States in Washington, from St. Louis, where he, with other government experts, has been counting the cash to determine whether or not there was a shortage in the cash, as reported by the assistant treasurer of the United States.

Aged Man in Jail.

Montgomery, Ala.—Brock Thomas, a gray-haired white man, wanted in Coosa county, charged with carrying a concealed pistol, was committed to the county jail from police headquarters.

Thomas was arrested by the police, and, on trial in the recorder's court, was convicted of carrying a concealed pistol. His fine of $50 and costs was later remitted, but he was held here under an indictment in Coosa county. It was said he claims to be an officer and had the pistol concealed while in pursuit of the slayer of W. L. McCain.

Deputy Sheriff S. S. Belser wrote Sheriff Tipton, of Coosa county, advising him that Thomas is held in custody here.

Automobile in River.

Wilkesbarre, Pa.—An automobile driven by Frederick Williams, of Scranton, was found in the Susquehanna river. Williams is missing. The point at which the machine went into the river is at the end of a street which curves sharply away from the river. The bank at this point is forty feet high.

Floods in Italy.

Rome.—Heavy storm throughout Italy have caused floods in various parts of the peninsula. There is over a foot of water in St. Mark's Square in Venice, and it is snowing in the Alps. Many roads are obstructed by landslides.

Treasurer Missing.

Chicago, Ill.—J. Christian Eskilson, of Chicago, thrice supreme treasurer of the Danish Brotherhood of America, is missing, and simultaneously it is found that from $40,000 to $50,000 of the order's funs is gone. Eskilson has not been seen since October 20.

Charged With Forgery.

New York.—Louis Greenberg, 12 years old, is under arrest here charged with forgery. He was arraigned in the children's court. Greenberg cashed the check, which was for $19.12, on the family butcher. Isadore Shulock, 10 years of age, a schoolmate, is also under arrest, charged with petit larceny. Shulock, it is alleged, stole a blank check and gave it to Greenberg. The police say Greenberg is the youngest forger ever arrested here.

GREAT REJOICING

Scientists Delighted—Peary Has Made a New Record in the Arctic.

ARE MANY CONGRATULATIONS.

Wife of the Explorer Informed of Husband's Safety—American Society Looks for Valuable Data.

New York.—Although Commander Robert E. Peary, who has been heard from after his long sojourn in the frozen north, failed to reach the North pole, Secretary Housert T. Bridgeman, of the Polar Arctic Club, believes his feat in reaching further north ought to be a subject for national rejoicing. Mr. Bridgeman, who received the message from Commander Peary anouncing the latter's return to civilisation, telephoned the news of Peary's safety to Mrs. Peary, who happened to be in the city.

"Thank God he is safe," was her first comment, and then she plied Mr. Bridgeman with questions regarding the details of the news he had received from her husband.

Furthest North.

Mr. Bridgeman told her that her husband, while he had failed to reach the pole because of drifting ice, had now the distinction of having gone further in the north, reaching 87 degrees 6 minutes, a point 32 minutes nearer to the pole than that reached by the Duke of Abruzzi's expedition in 1900.

"I am very glad my husband is coming home so soon and that he has been so successful," Mrs. Peary then said.

In discussing Peary's dash after he had time to study the commander's message more closely, Mr. Bridgeman said:

"Commander Peary's achievement ought to be a subject for national rejoicing, for I am sure it has been the ambition of every true American to see the stars and stripes first at the Arctic pole. And that it should be an American to reach the furthest north is but little less gratifying.

Eat Dogs.

"Peary started out with the determination to reach the pole at all hazards, and it is certain that only the impossible prevented that.

"It is evident that Peary has had the same experience of getting on drifting ice and being carried away from his goal that other explorers have had. Probably no other man living would have got off so well as Peary has. He found himself on ice that had been broken up by a storm and taking him in a contrary direction. It is likely he and his party went to the limit of human endurance before they gave up, as instance in the eating of dogs. Without doubt the explorer is now on his way home, and when he reaches here we will hear a wonderful story."

"Will Peary ever make the attempt again?"

Scientific Data.

"I don't know; although it was said by the newspapers when he sailed if he failed this time he would never try again; he never told me that, and I was quite close to him. The commander will undoubtedly bring back with him a wealth of scientific and geographical matter. I consider that one of the wonderful features of this expedition is the fact the Roosevelt is coming home with the entire party, despite the hardships they have experienced.

"Peary probably reached withhin 203 miles of the North pole. He surpassed the D'Abruzzi party by about thirty miles."

This was Peary's fifth attempt to reach the pole. The other sledge journeys were made in the years 1892, 1895 1900 and 1902.

Castro Presides.

Washington, D. C.—A cable dispatch received at the Venezuelan legation announces that President Castro, who recently returned to Caracas, had presided over the meeting of the cabinet.

Everything Points to Fish's Defeat.

Chicago, Ill.—A special meeting of the board of directors of the Illinois Central railroad for the purpose of electing officers will be held in New York next Wednesday, according to an announcement given out here.

Stuyvesant Fish is still fighting for control of the road, but the Chicago Tribune says the indications are daily growing stronger that E. H. Harriman is about to win a decisive victory, which will result in Mr. Fish's retirement. J. T. Harahan, now second vice president of the Illinois Central, in charge of operations, will, it is said, be elected president.

Dies From His Injuries.

Augusta, Ga.—W. J. Sowell, a sewing machine agent, who was run over by a trolley car in North Augusta on Thursday night, died of his injuries.

Painter Commits Suicide.

Augusta, Ga.—George Williams, a painter, committed suicide Thursday night by taking morphine. No reason has been assigned for the suicide. He leaves a wife and three children.

Will Stand for Treaty Rights.

San Francisco, Cal.—Significant action was taken by the Japanese when they dismissed a suit begun some time ago to force the authorities to admit Japanese children to all public schools in San Francisco. It is stated by an attorney that from now on the Japanese will make no effort to oppose exclusion through court proceedings, but will stand firmly on their treaty rights and contend that the Washington government must put the children back into the schools from which they have been barred by the board of education. From this position these aliens are seeking the judicial protection they advance to people whose rights are being violated in the country which entered into a formal pact with their sovereign to extend them all the privileges accepted as accompanying "the most favored nation" clause of the international treaty.

Old Soldiers May Vote.

Knoxville, Tenn.—The Tennessee supreme court held that the inmates of the National Soldiers' Home at Johnson City, Tenn., have a right to vote unless their votes are challenged at thet polls. The court declared permanent inmates of the home are not citizens of the state of Tennessee, but those inmates who have homes outside of the government reservation are citizens of the state. Many inmates are from other states. The court ruled that a mandamus proceeding, seeking to inhibit these old soldiers from voting, was not the proper remedy, and consequently the petition was dismissed. This litigation was precipitated by the animated congressional race in the First Tennessee district between Congressman W.P. Brownlow and A. A. Taylor, republicans, and John H. Caldwell, democrat. It is charged that the majority of the soldiers' home voters are supporters of Brownlow. The opposition to Brownlow challenged their right to vote.

Guilty of Robbing Mail.

Birmingham, Ala.—In the United States court Chatman Madison, a Walker county youth, 16 years of age, pleaded guilty to the charge of robbing registered mail, and was sentenced to three years in the school of reform at Washington, D. C.

Madison is a mere boy, and this action of Judge Thomas G. Jones was taken with a view of correcting the youth's morals. The reform school at Washington is considered one of the best of its kind in the country.

When young Madison appeared at court he did not even have a coat. As the rules of the court strictly prohibit shirt sleeves, Judge Jones sent out to a nearby clothing store and purchased a coat for the boy prisoner.

Madison will be taken to Washington in the next few days and will be entered at the school.

Chinese Mutiny on German Ship.

Berlin.—The captain, two mates and engineer of the German steamer Syfang were seriously wounded in a fight with Chinese mutineers among her crew, according to a telegram received here from Stettin. It was only after a severe struggle that the police were able to subdue the mutineers and place them under arrest.

Twenty-four Chinese took part in the mutiny. They attempted to seize the ship and attacked the officers viciously. The police had to fight their way aboard the steamer and then club the mutineers into submission.

To Sue for Libel.

Philadelphia, Pa.—Emphatic denial is made by the prohibition party leaders of the charges contained in the affidavits of Samuel J. Dallas that the Rev. Dr. Silas C. Swallow was paid $10,000 by United States Senator Penrose during the present campaign.

Dr. Swallow issued a statement in Harrisburg denying the charges before leaving for Philadelphia to arrange for the filing of suits for libel against the newspapers which published the Dallas affidavit.

Rival of Dreadnaught.

London.—The Daily Telegraph says it is reported that Japan has decided to begin the construction of a battleship exceeding the displacement of the Dreadnaught by 3,000 tons.

Shot in Face While Hunting.

Meridian, Miss.—D. O. Davies, a Mobile and Ohio locomotive engineer residing here, was shot in the face and badly injured while bird hunting near Laurel. The shot was accidentally fired by Dr. A. T. Perry.

Brookline, Mass.—The beautiful stone church of the First Parish Unitarian Society of this town, together with its new chapel and annex, known as Pierce Hall, was practically destroyed by fire, and Lieutenant Allen, of the fire department, was seriously injured by falling walls. The loss was estimated at $50,000.

Fitzgerald, Ga.—In the case of Reason Handley, charged with poisoning his wife, before Judge Martin, at Irwinville, the jury, after being out five hours, returned a verdict of murder in the first degree, with the recommendation of a life term in the penitentiary, on account of the evidence being mostly circumstantial. Judge Martin pronounced sentence in accordance with the recommendation. The parties are members of prominent families.

e idea of wearing a thing like fishing. You should have worn—" then I got a lecture on the inade- of my costume. I finally ged the hooks out, and we went until we reached a cool shady pool. lie decided to cast his fly. He d out into the stream and the of his reel could be heard where sitting. I had decided to watch him awhile before starting out to fish for myself.

I was the first to get a bite and it was a vicious one, but it was not a trout bite. Insects of every description were crawling over me. The punkies were simply devouring me. They are very tiny black flies, that bite and bite until they draw blood. A lizard ran up the tree back of me and on the water nearby I could see a long black snake swimming lazily. As I rose, in my haste to get away, I forgot my responsibilities and held my rod upward, and it caught in a branch overhead. I pulled at it, first quietly, then viciously. My arms ached and my head ached. Finally the line came down, but the hooks again caught in my skirt. After much twisting and turning I got them out, leaving broken threads and small holes to be darned when I got home.

Meanwhile, Mr. Fisherman, who had walked a hundred paces or so upstream shouted to me to "come on." To start in his direction I had to follow an unbeaten trail through the undergrowth. In doing this I lost all my hairpins. My hair was pulled out on the twigs almost by the handfulls. Inwardly I was raging. But eventually I reached my husband. My hair was almost gone. My temper was entirely gone.

"Did you see that?" he cried as I came in sight.

What he alluded to was a diminutive fish that he had dangled for a second on his hook. At least he said it had been there. I didn't see it.

"Never had such luck," he explained. "I got plenty of strikes, but somehow I can't land them. Must have the wrong sort of flies. This stream is pretty well fished out, anyway. Now, in Pigeon River——"

I pretended not to hear, for the Pigeon River stories had lost their attraction.

"I want to go home," I announced rather viciously.

"Aren't you having a good time?" asked my husband in a most surprised tone. I tried to force a cheerfulness I did not feel.

"Oh, yes, I am having the time of my life," I truthfully replied. "Any fish?"

"Three beauties, all speckled trout," he replied.

"Let me see," I said, as I waded out to where he was.

In his fishing basket Charlie really had three fish, but none of them was over six inches long.

"I caught a lot more," he explained, "but I threw 'em back. You know it is against the law to keep fish under six inches."

"How can you tell when they are six inches?" I asked.

He pulled up his sleeve and displayed with pride a pin scratch on his wrist.

"I measured six inches on my arm this morning with your tape line, so I would be sure to keep no fish under size."

"Those aren't all speckles," I said, as I again peered into the basket.

I saw his face fall, but I was bent on displaying my knowledge.

"One is a German brown, and another is a California rainbow, and that littlest fellow is a brook," I announced proudly.

"We can't go home to the hotel after staying away all this time and let the people find that we caught only three fish, so let's cook 'em, for I am hungry anyway." Charlie said, having a neat way of turning a subject. We piled together a few rocks as a foundation; then we collected some leaves and twigs and made a fire. We endeavored to cook the trout by holding them over the flame with a wooden stick, but the stick seemed determined to get on fire, and, of course, down would go the trout into the flames. Finally the fish much besmirched with smoke and cinders were pronounced done. We proceeded to eat them, and, strange to say, they were really good, and certainly took the edge off our hunger.

"Let's go home," said I, rising, and we trudged along wearily, those miserable hooks catching in my skirts almost at every step.

"Let's go home—back to New York, I mean," I repeated.

Charlie looked at me reproachfully.

"Very well," he said, "if you are determined upon it. But we have two more days of vacation, and I am sure I could get a lot of fish."

I packed my trunk that night ere I slept, and the next morning we drove to town (five miles) in the sort of storm that is unknown anywhere except among the mountains. I was going home—getting farther and farther away from the land of snakes and insects, I was blissfully happy. At last we arrived at Weehawken and there a ferryboat awaited us. To me it seemed like a steam yacht. I exclaimed:

"Isn't that ferryboat the most beautiful sight you ever saw? It looks as if it is straight from fairyland—and what a nice salty smell!"

"This is just the sort of weather trout bite best," said my husband, dreamingly.—F. M. G. in the New York Evening Post.

A Substitute.

Little Helen, aged four, was in a frightful predicament. The nurse, carrying the cherished two-weeks-old baby up and down before the house, had paused to show the new infant to the bishop, who had asked to look at it. And then the tall, grave bishop, of whom Helen stood greatly in awe, had unexpectedly asked the little girl to give him the baby.

How in the world to refuse a request made by such an awe-inspiring person as the bishop the child did not know. But presently she wrinkled her small countenance shrewdly, moved closer to the petitioner, and said, ingratiatingly, "I'll let you have the next"—Harper's Weekly

---

FOR THE FARMER AND STOCKMAN

Vegetables in Cellar.

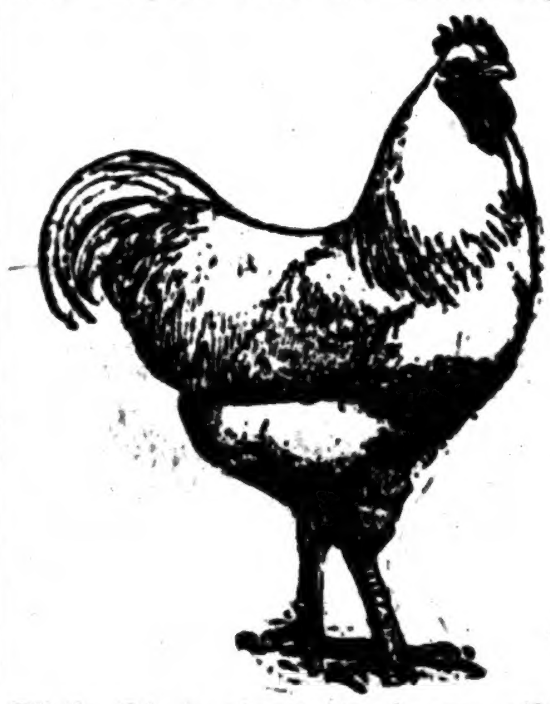
The purer the air can be kept in the cellar, and the cooler, without freezing, the better will the vegetables keep in it. Onions bear a considerable degree of cold without injury, provided they are kept dry and not handled while frozen. Packed in sawdust, chaff or cut straw, they may be kept all winter in an outhouse or barn. Squashes are injured by the lightest frosts and should be kept in a warm, dry store-room, rather than in a cellar.

Animal Wants.

It is possible to give an animal an abundance of food and yet not supply its wants. It is the amount of digestible matter in foods that fixes their value. When hogs have a desire for coal, charcoal, rotten wood, etc., the indications point to a possible lack of something required, which may be the mineral elements, especially lime. The feeding of wood ashes or ground bone would no doubt then satisfy the desires of the animals. The food should also be improved by the use of bran and ground oats.

White Plymouth Rocks.

Many poultrymen who have bred and raised both Barred and White Plymouth Rocks claim that the latter are superior as egg producers. While there is some question about this, it is certain that there is a market demand for a fowl with white feathers which the White Plymouth Rock will fill better than any other breed for the reason that it has the size, coupled with the clean legs.



While this is also true of some other breeds with white feathers, there is a plumpness about the Plymouth Rock peculiar to the breed which is greatly desired by certain markets.

In the experience of the writer, the White Plymouth Rock is no better as an egg producer than the Barred, some poultrymen claim it is not so good, but as a general purpose fowl it certainly ranks high among the large breeds, and will give one entire satisfaction. The illustration shows a typical bird, and from its form it is easy to see why the breed is popular in many markets.—Indianapolis News.

Fire Protection.

The following suggestion from the Farm Journal should be given serious thought by all those who live in agricultural districts:

"Ladders to the number of four or five should have a place on every farm, either fixed on four wheels for transporting from one building to another, or else permanently secured to some handy building where they can be found without asking where they are. An emergency case of fire isn't the time to hunt up, borrow or make ladders. Have them in plain sight, for the darkest night."

We are sorry to say that on a great many—probably the majority—of farms the matter of protecting the buildings from fire does not receive much attention. A large financial loss can sometimes be saved by a little preparation before hand which will enable you to "fight the fire" in a systematic way.—New York Witness.

Keep Your Eyes On the Cow.

The Cheese and Dairy Journal says some good things in behalf of the dairy interests in the following:

It is too often the case with many farmers or dairymen that they keep their cows, regardless of their producing capacity, till they are old before they replace them with others. A cow should be, as it were, on trial. And her owner should be exacting enough and enterprising enough to demand large returns from good feed and treatment. Every generation of cows can for many years yet be made an improvement on their dams. Then the more rapidly one generation of cows is made to replace another, the more rapidly will the herd improve in producing capacity if the proper care is exercised in breeding. It is possible to have all cows in the herd approach and even equal the best cow in the amount and quality of milk given. A little ambition and enterprise on the part of dairymen should soon bring this about.

The dairy herd can be renewed by direct purchase or by the farmer raising his own calves. In either case they should at least be the progeny of a thoroughbred sire.

Our pasture fields and feed supply should be used to their full capacity. When a cow on account of some accident or for some other unforeseen cause does not give sufficient milk to make it profitable to keep her, there should be heifers ready to take her place. It is a good plan to raise a certain number of heifers each year, and if no vacancies should occur in the ranks of the older cows, then create some vacancies by selling the least productive ones. A farmer must see to it that his herd is reduced in numbers. With improvement in methods of growing and handling the farm crops, the farmer is easily enabled also to enlarge his dairy herd. To renew the herd is the only way to keep it possessed of vitality and thrift with capability or capacity for large production.

We should make a sort of civil service examination of our herds. That is the only way to be up with the times; it is the only way to get the profit. If the Babcock tester was more generally used, the scales would quickly follow. It is as important that the herd be kept to its full number, and that of generous producers, as it is that we sow sufficient seed of the best quality on our grain and grass fields.

The Points of a Good Horse.

Here are some good suggestions from a Canadian bulletin, giving the points of a good reliable horse:

"If a horse is short-ribbed he is light in his middle and is nearly always a poor feeder.

"He has not the stomach to contain succulent food to serve him from one meal to another.

"A light-centered horse seldom weighs well, and weight in a draft horse, if it comes from bone, sinew and muscle, goes a long way to determine his commercial value.

"A stallion whose feet are contracted and brittle and whose hocks are puffy and fleshy-looking should be avoided, as such hocks are generally associated with a coarseness throughout his whole conformation and a general lack of quality.

"When a horse is well coupled together on top and has a short back, he must have the length below from the point of the shoulder to the back of the thigh. When so built he will stand the strain of drawing heavy loads much better than if he has a long, loose back.

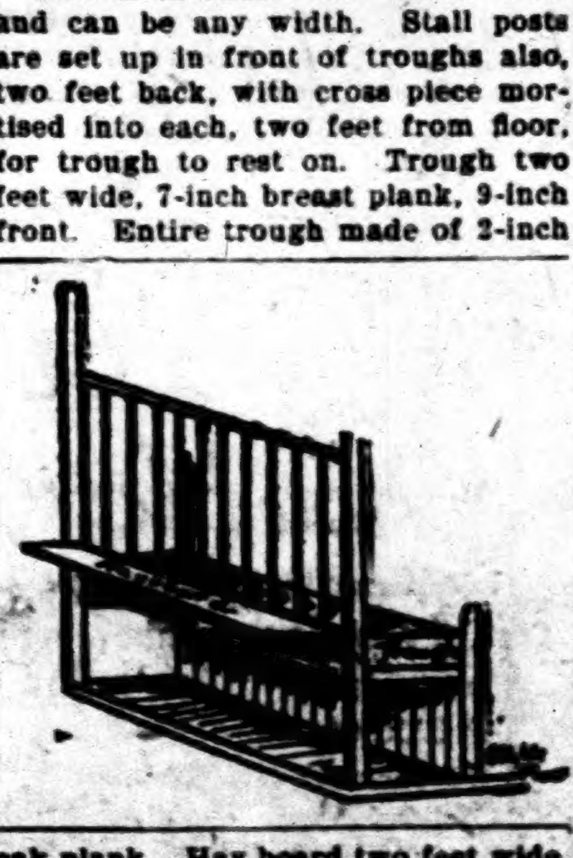
"The front feet and hocks are the parts of either a draft or a driving horse that come directly in contact with the hard work, and unless they are sound and good a horse's usefulness will be very much impaired and his commercial value very much lessened.

"Before using a stallion, get the groom to lead him away from you. Stand square behind him and see that he picks up his feet and places them on the ground properly, traveling in both trot and walk clear and clean, not striking the ground first with the toe and then bringing down the heel.

"The feet should be large and waxy in appearance. The sole of the hoof should be concave, the frog spongy, plump and elastic, because it acts as a buffer to take the concussion from acting too severely on the foot, pastern and fetlock. See that both sire and dam have sound feet, free from flatness, brittleness and are not contracted. There should be no "gumminess" about the hocks of the draft horse, as it indicates coarseness. They should be large, flat and firm, and should be wide, especially from a side view."

Economy Horse Manger.

This is intended for 6-foot stall and can be any width. Stall posts are set up in front of troughs also, two feet back, with cross piece mortised into each, two feet from floor, for trough to rest on. Trough two feet wide, 7-inch breast plank, 9-inch front. Entire trough made of 2-inch oak plank. Hay board two feet wide, one inch thick, hinged to edge of trough. Brace on outer edge of board to bottom of trough. I use an old buggy top joint. Board can be dropped down out of way when not in use. Rack fits space between stall posts, hinged at top so as to swing back when placing grain feed in trough. Rack is made of 2x2-inch hemlock, corners smoothed off. Horses will not chew hemlock. Rack can be made of iron or any kind of wood. No animal can toss hay from this manger or waste any grain.—C. E. Scroggs, in Farm Progress.



Farming As the Ideal Life

By Senator Robert M. Follette.

It is plain that agriculture in this country has a future heretofore unknown in the world. Farming is now the most distinctive American occupation. It is the source of our safest, most conservative citizenship and highest average of intelligence.

Put the farm in direct communication with the world by rural delivery, the telephone, the electric railway, the travelling library, the township school, the improved highway, and you have given it the essential advantages of the city without depriving it of the essential advantages of the country.

There will be left the sweet and vitalizing country air, the isolation of broad acres, the beauty of hill and vallley woodland and meadow and living, running water. The charm of the ripening grain coming to its transmitted to us and we preserved it because of its ancient and hallowed as the honest pride in the grazing flocks and the effectionate interest in their growing young, will always be an inherent and uplifting element of life upon the farm. The rich blessing of unconscious health, the joy of wholesome work, that brings wholesome rest and wholesome apppetite, are the natural rewards of this outdoor occupation. Nearness to nature, nearness to God, a truer philosophy, a keener human sympathy, higher ideals, greater individuality, will ever be stamped upon the life and character of the country home.

The new agriculture, the new education, new inventions, will give added interest, larger profits, greater certainty of success. They will lighten its burdens, widen its sphere, and ultimately make agriculture the most desirable of all avocations.

This Spelling Problem

By Mark Twain.

THERE ar 82,000,000 of us people that have to spell, and orthography ought to be simplified in our behalf, but it is kept in its present condition to satisfy 1,000,000 people who like to have their literature in the old form. That looks to me to be rather selfish, and we keep the forms as they are while we have got 1,000,000 people coming in here from foreign countries every year, and they have got to struggle with this orthography of ours, and it keeps them back and damages their citizenship for years until they learn to spell the language, if they ever do learn. This is merely sentimental argument.

People say it is the spelling of Chaucer and Spenser and Shakespeare and a lot of other people who did not know how to spell anyway, and it has been transmitted to us and we preserved it because of its ancient and hallowed associations.

If that argument is good, then it would be a good argument not to banish the flies and the cockroaches from hospitals because they have been there so long that the patients have got used to them and they feel a tenderness for them on account of the associations. Why, it is like preserving a cancer in a family because it is a family cancer and we are bound to it by the test of affection anl reverence and old mouldy antiquity.

I think that this declaration to improve this orthography of ours is our family cancer, and I wish we could reconcile ourselves to have it cut out and let the family cancer go.

"True Americanism"

By Henry Van Dyke.

FOR what is true Americanism, and where does it reside? Not on the tongue, nor in the clothes, nor among the transient social forms, refined or rude, which mottle the surface of human life. True Americanism is this:

To believe that the inalienable rights of man to life, liberty, and the pursuit of happiness are given by God.

To believe that any form of power that tramples on these rights is unjust.

To believe that taxation without representation is tyranny, that government must rest upon the consent of the governed, and that the people should choose their own rulers.

To believe that freedom must be safeguarded by law and order, and that the end of freedom is fair play for all.

To believe not in a forced equality of conditions and estates, but in a true equalization of burdens, privileges, and opportunities.

To believe that the selfish interests of persons, classes, and sections must be subordinated to the welfare of the commonwealth.

To believe that union is as much a human necessity as liberty is a divine gift.

To believe, not that all people are good, but that the way to make them better is to trust the whole people.

To believe that a free state should offer an asylum to the oppressed, and an example of virtue, sobriety and fair dealing to all nations.

To believe that for the existence and perpetuity of such a state a man should be willing to give his whole service, in property, in labor, and in life.—Harper's Magazine.

The Gospel of Getting On

By Lillian James Crockett.

THOUGH I speak with the tongues of men and angels, and give not flattery, I am become as sounding brass or a tinkling cymbal.

And though I have the gift of prophecy, and perceive all chicaneries and wire-pullings; and though I have all faith, so that I could remove deadheads and give not flattery, I am nothing.

And though I bestow all my work to pamper the idle, and though I give my brain to be turned and give not flattery, it profiteth me nothing.

Flattery schemeth long, and is complaisant; flattery envieth not—because she is sure to keep ahead. Flattery vaunteth not itself—but its superiors in office; is not puffed up—but knows whom to puff.

Does not behave with unseemly self-respect, but stoopeth with becoming humility; seeketh not her own dignity; is not easily provoked at being patronized, thinketh no evil—of the rich and powerful.

Beareth all things, fawneth in all things, cringeth in all things, endureth all things—essential for aggrandizement.

Flattery never faileth; whether there be enthusiasm it shall fail; whether there be advisers they shall cease; whether there be knowledge it shall vanish away—clear out of sight.

Flattery never faileth; whether there be enthusiasm it shall fail; whether there be advisers they shall cease; whether there be knowledge it shall vanish away—clear out of sight.

When I was a child I spake as a child and said I was going to work faithfully and pluck bright honor from the pale-faced moon, and tell the truth and hitch my wagon to the stars and finally drive it through Elysian fields of middle-aged affluence. I understood as a child, I thought as a child that success is the reward of diligence. When I became a woman I put away childish things and learned that if you indulge the luxury of honor you've got to pay for it by living on a back street.

And now abideth vanity, ignorance, and flattery, but the greatest of these is flattery.—Life.

EDITOR BANNER.

A snake skin, over seven feet in length, was foend by Mr. Alfred Popwell a few days ago. The shedding was perfect.

THE result of the election in Chilton county comes somewhat of a surprise, as we had fondly imagined the good people of Chilton were ready to fall in line with the rest of the State and would elect Democratic officers. A vigorous campaign has been waged, both sides have expressed their views, ane yet wiihall the people of Chilton county have decided to stand aloof from the rest of the State (and, practically, the entire South) and have returned Republican officials. Why is this? We invite short answers to this question.

DOES NATURE DO MORE

to Make Grand and Noble Characters than Education?

What does the word education imply? Does it mean a little learning gleaned from a few primary books? It's true definition is to improve our every God given faculty. Education is the sum of the reflective efforts by which we aid nature in the developement of the physical, the intellectual and moral faculties of man. Can an uneducated person be inspired by nature? I say the good of the influences of nature in these cases are in the wee tiny degrees. There are quite a number of people who do not realize the beauty of natural surroundings or appreciate them to any degree.

Education alone can give us an intelligent appearance. You might place a child in the very garden of nature, with everything beautiful to surround it, and without knowledge of these plants they will be passed un noticed.

One important factor in the formation of character is to inherit a sound constitution and a well balanced mind. Yet possessors of the best natural endowments may pursue the path of life that the close will find them a wretch to go from beggary and vice to an unhonored grave.

On the other hand education and moral training can atone for the lack of moral advantages and make of a less favored child a useful citizen. What you make of life it will be to you. Take it up honestly, bear it on cheerfvlly, lay it down triumphantly.

The child must be taught to perceive things and in the proper relation. The neglect of this faculty, and a soul goes through life blinded to the beauties of nature, not yielding to the inspiration of nature.

Never was a grander work delegated to human hands than the development of the powers and faculties of the human soul. Education that lever which raises mankind, that companion no misfortene can depress, no crime can destroy, no enemy can alienate, and no disposition can enslave. At home a friend, abroad an introduction, in solitude a solace, in society an ornament, without it what is man? a splendid slave.

To gain knowiedge, man has endured suffering ann sacrificed property and fife, but no suffering is too severe and no sacrifice too great, to over balance the benefits aud happiness it has conferred upon mankind. Success to the Banner and happiness to its many readers,

M GATIE SIMS

Advantage of Being a Brute.

"Do you think animals feel pain as deeply as we do?"

"I've never studied the subject, but it is safe to say that they don't worry as much as we do over pains that have not yet been felt."—Chicago Record-Herald.

In our relation with one another we are apt to neglect the little things which count so much in making our lives happier.

The way of the world is to praise dead saints and persecute living ones.—Howe.

FROM JUDGE ADAMS.

Clanton, Nov. 6, 1906

Editor Banner—For a stranger to read the Union he would be impressed that I had gotten money from Chilton county that did not lawfully and of right belong to me. Quite a number of people in the county know the man that writes these articles, and not a few know the facts in the case, but I desire that all the people should know something of the matter, hence this article, and first of all, I wish to say that I do not offer a word of protest against the examination. I am more than willing to have every act of my political life examined end held up before the public, and I know, too, that it is probable that I may have made mistakes, and for what I know I may have made grievous mistakes, but I do say that I did the best I could as Judge of Probate of Chilton county, and while I doubt not the fact that warrants were issued which were not in strict accord with the law, and I can see very clearly how it was possible in issuing warrants to pay just and legitimate claims against the county between courts, for there were none paid that were not just so far as I or the Commissioners' Court knew. I can see how some of these claims may have been overlooked in writing up the minutes of the court, but I am confident that not one of the claims failed to be authorized by the court. I know that I did my best to see that they were presented and passed. One thing I am certain of and that is that each one was a just claim and as has been stated in Mr. VanDerveer's report, would have been passed by the court. Read what VanDerveer has to say in regard to the warrants illegally drawn. Here it is copied from his report verbatim

"I deem it but justice, however, to say that in my opinion the county has suffered no financial loss from these warrants, for I doubt not that the several courts of county commissioners would have allowed each of the accounts and claims that were prematurely paid."

There you have the examiner state that in his judgment Chilton county has not lost one cent, and that will satisfy every fair minded and unbiased man in the county, and of course those who are hunting for something to censure me with, I cannot hope to satisfy and neither do I care to satisfy such people. I have the satisfaction of knowing that I have done no wrong intentionally, and if these acts are not in strict accord with the letter of the law, they were done in line with the acts of each Judge of Probate of the county, and while I do not justify the practice, it did seem that under certain urging circumstances it was next to impossible to get along without it. One word as to the money this writer says I got from Chilton county. That was money that I loaned to the county, and that writer knew that it was my own and that these warrants were drawn to pay me that that was my own. I hardly think it worth while to mention this because I do not believe that there is a man in Chilton or anywhere else that knows me that will believe for a moment that I ever wrongfully got money from Chilton county or any individual, and I take this occasion to say that if there is one person living that will convince me that I have wronged him I will do all in my power to right the wrong.

Respectfully,

S. M. ADAMS.

P. S. It has been said that a number of warrants were issued which the minutes of the Cummissioners' Court did not record. I wish to say that there are two records on which said warrants can be found, the warrant book and the Treasurer's cash book, and I will pay two dollars for one for each one of such warrants that can be shown to be an unjust claim against the county.

S. M. A.

Death of Mrs. Carrol.

Mrs. Martha Carrol, who for many years had been a resident of Clanton, and one of its most esteemed citizens, died at her home on Sunday night, November 4, aged 84 years. Truly a good woman has passed away. For years she had been a consistent member of the Methodist church. She leave a nnmber of relatives to mourn her departure. She was buried at the Clanton cemetery Monday, Rev. S. U Turnipseed officiating.

A Reliable Remedy for Croup.

Mrs S. Rosinthal, of Turner, Michigrn, says: "We have used Chamberlain's Cough Medicine for ourselves and children for several years and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by Upchurch Drug co., Clanton, A. Horn, Thorsby.

Also manufacturers of

Ayer's SARSAPARILLA. PILLS. CHERRY PECTORAL.

Billingsley.

The health of our town is not very good as we have had a lot of fever in and around Billingsley this season.

Mrs. W. W. Carter is recovering from a spell of fever. Dr. Marlow's family we are glad to say, are all up after five cases of fever in his family.

The good people of Billingsley regret very much to give up Mr. Ira Camble and family who recently moved to Vida.

New houses and saw mills are being set up in and around Billingsley; laboring people can find work here.

We had a sad death to occur to one of our best citizens, in Selma last Tuesday night, Mr. Richard Thacker went to Selma with cotton for another party. After getting there and putting up his team at the camp house, about seven o'clock he concluded he would take in the sights of Selma, then go and spend the night with some of his kindred. Nothing was heard or saw of him until about two o'clock, when the police came to the camp house saying that an unknown man had been killed. Mr. Fox, who went with Thacker to Selma, went with the police, and on sight saw that it was Richard Thacker. He was badly mutilated, his head was cut off, left arm and one leg cut off, and otherwise bruised up nearly beyond recognition. He leaves a wife and one child and mother to mourn his loss. They were looking for him home on Wednesday and watching the road for him to appear when a telegram was read to them that he was dead. Our sympathy goes out for the dear wife and old mother. This brings to our minds that beautiful scripture where it says "Be ye also ready for you know not the day nor hour when the Son of Man cometh."

Success to the Banner and Democrat party.

J. C. GRIMES

LINGERING COLD

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe chamberlain's Cough Remedy to be the best I have ever used" This remedy is for sale by Upchurch Drug co., Clanton. A. Horn, Thorsby.

Letter to B. McKee.

Clanton, Ala.

Dear Sir: A pound of good meat and no bone is worth more than a half-pound of meat and a half-pound of bone; but there are, as you say, a great many people who won't pay more than a certain price by the pound. Give 'em bone; that's right; give 'em plenty of bone!

There are people who won't pay more than $1 50 a gallon for paint; give 'em bone!

There's no better school than experience; cost is high; but the lesson is never forgotten.

Let a man paint two houses alike, same size; one Devoe, the other that $1.50 paint. He buys 10 gallons of each, and pays $3 a day for labor—$3 a day is $3 a gallon, easier reckoning.

He has to buy two gallons more of the $1 20 paint; and has two gallons left of Devoe: 12 gallons $1 50, $18; 8 gallons $1.75; $14; $4 more for "cheap" paint.

He pays $3 a gallon for painting: 8 gallons $24; 12 gallons $36; $12 more for painting "cheap" paint.

He'll buy the less-gallons paint after that. If people are slow to learn, it's because they keep-on buying bone-meat. Give 'em plenty of bone.

Yours truly

11 F W DEVOE & CO

In every clime its colors are unfurled
Its fame has spread from sea to sea;
Be not surprised if in the other world,

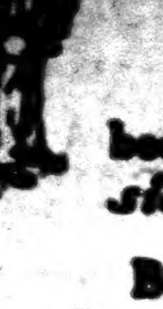
MARRIED

at Jemison, October 24th, Mr. Wm. H. Williams and Miss Cora Bristow were happily married. Rev. J. W. Cary officiating.

The best treatment for indigestion and troubles of the stomach is to rest the stomach. It can be rested by starvation or by the use of a digestant which will digest the food eaten, thus taking the work off of the stomach. At the proper temperature, a single teaspoonful of Kodol will wholly digest 3,000 grains of food. It relieves the present annoyance, puts the stomach in shape to satisfactorily perform its functions. Good for indigestion, sour stomach, flatulence, palpitation of the heart and dyspepsia. Kodol is made in strict conformity with the National Pure Food and Drug Law. Sold by Upchurch Drug co.



Most people know that if they have been sick they need Scott's Emulsion to bring back health and strength.

But the strongest point about Scott's Emulsion is that you don't have to be sick to get results from it.

It keeps up the athlete's strength, puts fat on thin people, makes a fretful baby happy, brings color to a pale girl's cheeks, and prevents coughs, colds and consumption.

Food in concentrated form for sick and well, young and old, rich and poor.

And it contains no drugs and no alcohol.

ALL DRUGGISTS: 50c. AND $1.00.

Furniture, Stoves, Sewing Machines, etc.

Tennessee and Fish Wagons.

Everything to make your home and farm complete. Give us a trial and if we can't sell you we will be badly mistaken.

E. M. PINCKARD & CO.
CLANTON

AN OPEN LETTER

To the People of Clanton.

To Whom it May Concern:

Of late there has been a good deal of discussion in Clanton in regard to advertised medicines and their value—the papers are full of them.

We want to say to every man, woman and child in Clanton that we believe the most valuable preparation of cod liver oil—the best tonic reconstructor, health restorer and strength creator—we have ever sold in our store is Vinol.

Vinol is not a patent medicine, it contains no injurious drugs, but it actually does contain all of the medicinal, curative elements taken from fresh cods' livers, without a drop of the useless oil to upset the stomach and retard its work, and tonic iron added.

Vinol is recognized throughout the world as the greatest strength creator for old people, weak, sickly women and children, nursing mothers, and after a severe sickness

Vinol cures hacking coughs, chronic colds, bronchitis, and all throat and lung troubles. We ask the people of Clanton to try Vinol on our offer to return money if it fails. Upchurch Drug co.

NOTE—While we are sole agents for Vinol in Clanton, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

We handle Lowney's fine chocolates, best made. Florence Drug Store.

Center Point.

Here I come again knocking at your door for a short chat. Well, cotton picking is all the go yet; the Williams ginnery at Billingsley is doing a good business.

Prof. Davis took up his school Monday last; I think he is a good teacher and will do all that he can to learn the children if they will take an interest in their studies

The musical entertainment at Mr. J. T. Williams' Saturday night was greatly enjoyed by all present. The music was fine.

There will be preaching at New Cedron the second Sunday in November and Saturday night before.

Mr. Riley Burnett of Vida visited Messrs. W. D. and H. M. Burnett recently.

Messrs. J. T. Williams and J. F. Devaughn paid Rev. John Huett a flying visit Sunday last.

I will close for this time.

MAMA'S PET.

Made Happy For Life.

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus Dance, which yielded to no treatment, but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles effected a complete cure." Quick, sure cure nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by Upchurch Drug co. Price 50c.

IN UNION THERE IS STRENGTH

In my Flour there is Good Biscuit.

Try it.

Mulberry.

Editor Banner—If you will give me space I will say a few words. Mr. and Mrs W. L. Sims left Wednesday for Kellerman, where they will make their future home

Mrs. Amanda Bates of Prattville has moved to her father's, Mr W. Y. Atchison's

Mr. John Lee, who has been quite sick, we are glad to say, is recovering.

Mr. Wm. Wralics went to Stanton Friday to a soldiers' dinner.

Mr. C. R. Mullins of Clanton visited his brother, Mr. H. N. Mullins, Thursday.

We are sorry to hear of Mrs. W. M. Wralins' sudden sickness.

MAMA'S BOY

Mr. Bertram E. Collum has been appointed postmaster of Jemison, vice W. A. Reynolds resigned.

A Good Liniment.

When you need a good reliable liniment try Chamberlain's Pain Balm. It has no superior for sprains and swellings. A piece of flannel slightly dampened with Pain Balm is superior to a plaster for lame back or pains in the side or chest. It also relieves rheumatic pains and makes sleep and rest possible. For sale by Upchurch Drug co., Clanton A. Horn, Thorsby.

TAX NOTICE.

SECOND ROUND.

The Tax Assessor and Tax Collector will attend at the following times and places for the purpose of collecting the State and County Taxes of Chilton County for the year 1906 and assessing the taxes for the year 1907:

New Fog Signal.

A novel and improved fog signal has just been installed at the Needles Lighthouse, Isle of Wight. It consists of a set of reed trumpets, worked by compressed air, and can be started instantly when fog descends, giving a blast five seconds long every fifteen seconds, which can be heard ten miles—treble the distance of the old fog-bell signal.

Coffee was discovered in 1285.

KHIVA THE FORGOTTEN.

A Great City Wasting Away Among the Sands Which Surround It.

Bokhara is fallen. Samarkand is the seat of a Russian provincial Governor, and Merv is a manufacturing town with a castiron drinking fountain. Khiva, too, was swallowed in its turn, but disgorged again; though the kingdom fell, it was handed back to its owners, and no Russian may now enter except by invitation.

The Khivan nobles still ride a-hawking, and caravans in the Kara Kum sands still fear the armed horsemen who dash down from the north.

Though compassed about on every side by Russian territory, and in sight of the breaches made by the Russian guns in 1873, the Khivan still screws his revenue from a trembling people, joyously cuts throats in the open market, and dispenses the high, the middle and the low justice from a raised dais in his courtyard.

Burnaby rode to the city from the north, and underwent dreadful privations to spend three days there. Arminius Vambery, nearly the most courageous traveler of modern times, reached there disguised as a holy man. The American McGahn entered with Gen. Kauffmann in 1873, Dr. Landsell and Capt. Abbott made the journey, and, lastly, Mr. Robert L. Jefferson, as recorded in his book called "A Second Ride to Khiva," made a long bicycle ride across the Russian steppes, and a camel ride down to Khiva from Orenburg, in the north. But other than these, I know only of Russian officers who have been within the gates.

Since the Russians themselves have agreed to keep out, they have done all in their power to prevent others from going into the city or even crossing the boundaries of the little kingdom. What they fear from visitors it is not easy to imagine. Four antiquated, muzzle-loading, smooth-bore cannon, and a corrupt and unintelligent court circle revolving about a stupid ruler would not repay a second thought even from the spies of the Viceroy of India. But the fact is that foreigners are not allowed access to the state, and the eighteenth regiment of chasseurs is quartered at Petro Alexandrovsk in such a way as to control the canal from the Oxus.

In the old days, caravans from Merv and Bokhara were frequent. Carpets and stuffs were sent both west and east from the city in exchange for drugs and tea. Today some cotton is sent up the river to the railroad, and occasionally a small party of merchants comes from the south; but more and more Khiva is becoming forgotten and isolated. Modern improvements, instead of carrying her into the current with the world, have left her in slack water; the deserts are a more effective barrier today than they were two centuries ago, and a great city is left to feed upon itself, till it shall waste away and become part of the sands that compass it.—From Langdon Warner's "Getting Into Khiva" in the Century.

Wotan was the chief god of the ancient Germans, and from him is derived our name of Wotansday or Wednesday.

Experiments made in Germany show that butter keeps best if mixed with 3 to 5 per cent of salt.

A Woman's Back

Has many aches and pains caused by weaknesses and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening nervine known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle-wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy OF KNOWN COMPOSITION, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of *his* and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take as candy.

THE PULPIT.

A BRILLIANT SUNDAY SERMON BY REV. I. W. HENDERSON.

Subject: The Holy Spirit.

Brooklyn, N. Y.—Preaching at the Irving Square Presbyterian Church on the theme, "The Holy Spirit," the Rev. I. W. Henderson, pastor, took as his text Jno. 14:16-17. He said in the course of his sermon:

As we read this and the two succeeding chapters of this good news of the Beloved Disciple, we appreciate, more and more, the vital, forceful influence of the Holy Spirit upon the lives of those who love and serve God. It was at the close of the Last Supper that Christ uttered these words. A few hours and the cross claimed Him. Philip had asked, "Lord, shew us the Father." Our text is a portion of Christ's answer.

We are told by the commentators that the Holy Spirit, the Comforter is also an advocate, a helper. Literally translated the Greek means: "One who is called to another's side to aid him." To our side, an ever present aid through all eternity, the Holy Spirit has been called by Christ. Comforter, advocate, teacher, helper, guide and eternal friend, such is the Holy Spirit of the new dispensation as granted to us by our Heavenly Father.

The position of the Holy Spirit with reference to us is clearly shown by the prepositions used in the verses. "And I will pray the Father, and He shall give you another Comforter, that He may abide with you forever, even the spirit of truth; whom the world cannot receive because it seeth Him not, neither knoweth Him, but ye know Him, for He abideth by you and shall be in you." With you, by you, in you. With you, "in the fellowship of His everlasting presence." By you, "in His personal presence." In you, "as an abiding personal energy." With you, by you, in you, in all the eternal omnipotence, love and wisdom of the very God Himself. The Holy Spirit is the presence of Almighty God and of His Son Jesus Christ, with you, by you, in you. The pronouns, as the prepositions, are of prime importance. He is God, with, by and in man.

The Holy Spirit who is in our hearts to-day has been the dynamic in the lives of consecrated men and women since time was. In his journey up from bondage, it was the spirit of God that sustained Moses. He is the spirit of which Isaiah wrote: "And thine ears shall hear a word behind thee saying, This is the way, walk ye in it." And again we read in Ezekiel: "And I will put my spirit within you, and cause you to walk in My statutes, and ye shall keep My judgments and do them." The spirit of Samuel and of Jeremiah is the Spirit of Saul of Tarsus. The same but, oh, how much more full. He brings to us not merely the wealth of association that crowds about the national life of the chosen people of God. To us, He comes as a consummation and memorial of the power, majesty and all-embracing love of God and of His Son our Saviour, Jesus, the Christ.

The Holy Spirit influences and directs every good and great movement that emanates from the hearts and souls of Christian men. God working in His Holy Spirit fills the heart of Henry Ward Beecher with an overwhelming love for the Southern slave, and the inspired words of that virile Christian speed the breaking of a million shackles. The auction of the slave girl in the pulpit of Plymouth Church was God in His Spirit moving Henry Ward Beecher to decisive action. The Holy Spirit enters the heart of Florence Nightingale and soldiers on every ruddy field know the touch of a loving hand and the consolation of a sympathizing heart. The Comforter strikes hidden, inexhaustible springs in the souls of D. L. Moody, of General Crittenden, of Jerry McAulay, and myriads of outcast men and fallen women feel the power of the sheltering, upbearing arm of Almighty God. Tennyson hears the voice of God within and to us are given the immortal lines of "In Memoriam" and of "Crossing the Bar."

The history of the presence of the Christ in the lives of nations lies in the work consummated by His Holy Spirit. All the great reforms, all the great movements that have bettered humanity have had their inception in the minds of Spirit-filled men. Who can say but that the hand and the Spirit of God have been with this land, as it was with Israel, in her phenomenal success. To be sure we have made our mistakes. We are a far cry from the Christ ideal. But did we, nationally, revere Him more, did we but let His Holy Spirit dwell deeper and more lastingly in our national heart, He would bless us far beyond our fondest expectations. God is the God of nations. Christ came to take away the sins of the world, of nations, as of individuals. The Holy Spirit can fill a nation's heart if its people will but do God's will.

The most vital necessity in the life of the Christian and of the church is the Holy Spirit as He descends, constantly freshened and refreshing, from the throne of God. Having accepted Christ and His plan for our redemption, He is the first thing that we must gain. The apostles, men of God and with Christ as they were, could do naught in the work of the evangelization of the world and of lifting mankind to the level of the Christ life until they had received the gift of the Holy Ghost. For in the first chapter of the record of the Acts of the Apostles we read that "the Apostles being assembled together" after the resurrection, our Lord "commanded them that they should not depart from Jerusalem, but wait for the promise of the Father, which, saith He, ye have heard of Me. For John truly baptized with water, but ye shall be baptized of the Holy Ghost not many days hence."

On the day of Pentecost they were all with one accord in one place, and the Holy Spirit descended upon them. You know the story. You know also the glorious assertion: "And the same day there were added unto them about 3000 souls, and the Lord added to them daily those that were being saved." The Holy Spirit was necessary to the Apostles. To us He is indispensable.

We complain of the lack of sincerity, of vitality, in the Church. This age is heralded as an age of doubt and of disbelief. The Church stands almost still. Her flags flap limply in a breeze of progress that holds straight out the ensigns of the minions of Satan. Sin confronts us on every hand and we make but insufficient headway against it. We regret that the Church does not enjoy a revival of the blessings of God upon her. We mourn that for one soul born into the Kingdom of God a more than equal number are seized in the snares of Satan. We pray for the upliftment of the world and we see the world slip from us.

Something is wrong. God was with the early Church. God is with the missionary in the farthest East. Thousands are being brought to Christ in India. Within our midst the multitudes of the unchurched and the unsaved appall us. Glance over the records of the apostolic church. Read the story of her growth. Is there not something wrong with us? What is the matter? Let us see. It is not that we have not the money to prosecute our work. We have more than at any time since our beginning. It is not that we have not numbers or able leaders or that Christ has proven false. The fault lies with us. The Church of Jesus Christ is not alive to the possibilities of the indwelling of the Holy Spirit. The Church needs Christ in her heart.

The fault lies not with God. It lies with us. We, it is, who have been content with but a portion of His grace when He would have given to us all. We, it is, who have been content to drift and almost to drown, rather than to lay hold upon the eternal saving power of the Holy Spirit.

Let the Church awake from her lethargy; let her unite under the banner of the cross and follow true; let her live the life that she never wearies to preach; let her show to the world that the Christ life is practical life written large; let her appropriate to herself the Holy Spirit with His uplift toward Christ and the Father; and then will come a return of the miracles of the early Church, of which it is written, "and the same day there were added unto them about three thousand souls."

The essential requirement of the Christian life is not to be able to decide definitely the date of the Flood, or to be able to assert the exact authorship of the books of the Pentateuch, or to be able, more or less intelligently, to quibble over the pin points of ecclesiastical dogmatism. Be not deceived, to know the Bible word for word is not to be a Christian. Spirituality is the great sine qua non of the Christ life. That we may be able to purify ourselves and to lift others up to the Christ we need the Holy Spirit "good measure, pressed down, shaken together, running over in our hearts." Ere we can experience the depth, the power and the world-wide inclusiveness of God's love, we must be reborn of God's indwelling Spirit.

Open the doors of your heart and let the blessed sunshine of God's illuminating Spirit glow in upon you. With you, by you, in you, let the Comforter abide. In sorrow He will sustain you. In care He will comfort you. He will strengthen you in life. He will rob death of its sting.

"Let not your heart be troubled, ye believe in God, believe also in Me. In My Father's house are many mansions. I will not leave you orphans. But I will pray the Father and He shall give you another Comforter, that He may abide with you forever."

A Lesson From the Butterfly.

A naturalist one day was studying a cocoon, in which a butterfly was struggling to be free. He heard it beating against the sides of its little prison, and his heart went out in pity for the helpless creature.

Taking a tiny lancet he cut away the fragile walls and released the little captive. But to his amazement it was not the beautiful creature that he had expected to see. It lay struggling upon the table, unable to walk, unable to fly, a helpless, unlovely object. In place of the gorgeously colored wings that he had expected to see, were weak, shriveled members.

What was the matter with this creature that should have been so fair? The prison gates had been opened too soon, the obstacle had been removed before the struggler had developed sufficiently through struggling to be ready for its glorious flight into the sunshiny skies and among the perfumed flowers. O God, when the walls seem to close about us, when we struggle and agonize to be free, when Thou dost not cut away the barriers, is it not because, in Thine infinite wisdom, Thou dost see that we are weak and dost want us to become strong? Then at last, when the struggle is finished, like the butterfly, we may come forth, not perhaps, in glorious robes of splendid colors as it is, but in the everlasting robes of righteousness.—Christian Observer.

A Man Worth Knowing.

I should like to know a man who just minded his duty and troubled himself about nothing; who did his own work and did not interfere with God's. How nobly he would work—working not for reward, but because it was the will of God! How happily he would receive his food and clothing, receiving them as the gifts of God! What peace would be his! What a sober gayety! How hearty and infectious his laughter. What a friend he would be! How sweet his sympathy! And his mind would be so clear he would understand everything. His eye being single, his whole body would be full of light. No fear of his ever doing a mean thing. He would lie in a ditch rather. It is the fear of want that makes men do mean things.—George Macdonald.

What We Should Never Forget.

Let us never forget that what we are is more important than what we do; and that all fruit borne when not abiding in Christ must be fruit of the flesh, and not of the Spirit.—J. Hudson Taylor.

Walking in faith is walking in the light of His face.

LAND OF GREAT DISTANCES.

THE VASTNESS OF SOUTH AFRICA APPALS THE TRAVELER.

Civilization Looks Out of Place as the Train Crosses the Veldt—Beautiful Mornings and Sunsets and Days of Quiet, but Noisy Nights—A Changeless Land.

It is fashionable to allude to a railway journey in South Africa in tones of thinly veiled scorn and contempt, to condemn it as tiresome, complain of it as uninteresting, says a writer in the Pall Mall Gazette. There is space—almost undreamed of space. And that is all. Through the East the traveller lives in the past. He feels, if he has any imagination at all, that for the moment he has become part of an ancient civilization which still survives the train and the telegraph; he moves through cities with a story in every stone; each mile brings new pictures of the might and wealth which fill the most enchanting pages in the book of history.

In America you cross a land of the future. The cities are marvels of in- Africa you seem to live always in the country there is an echo of the hum of restless enterprise, the murmur of a people confident they are hurrying on to realize a great destiny.

But across the great plateau of So. Africa you seem to live always in the present. It becomes a dominating idea. You cannot picture a past save like the present, or imagine a future differing from today. The veldt is, and it looks as if it will always be as it is. The slender thread of steel which crosses its illimitable space, the little towns set down at such great distances from one another, play no part in the scene. They are there, it is true; but they look fortuitous, out of place. Trains clang across the Karoo, and pant up the hillsides from Natal; but the veldt ignores them. It does not adapt itself to them. The slow moving ox wagon alone fits in the picture; the mail train, with its searchlight piercing the darkness and peace of the night, is, and always will be, a thing apart. It always seems to me that there is something curious, almost uncanny, about the great spaces of southern Africa—something you do not find in other great lands. The haste of modern life clashes with the spirit of the veldt. There is a silent protest against the intruder. The country calls disease and drought to its aid to prevent its freedom being shackled by the bonds of civilization and the handcuffs of progress.

The space destroys speed. As you hurry northward or eastward from London in a mile a minute express the close set villages fly past, increasing the impression of haste; but let the same engine pull the train northward from the Cape into the heart of Africa and its speed will seem to slacken. Steam cannot eat up the distances of such a continent, and there are no contrasts, no near landmarks, by which to measure the onward rush.

Yet such a journey, monotonous as it is, brings scenes which give it a fascination of its own. No one can paint in words or on canvas the beauty of a South African morning just after sunrise. Your carriage stands still at some wayside station, with its solitary one story house and inevitable dwarfed tree. Away, as far as the eye can see, stretches the thin grassland. The landscape holds nothing to attract save its space; but the sunshine is something England never knows, the air is like a draught of champagne, the marvellous clearness and freshness—which no other land can equal—give new life. No breeze yet swirls the dust across the plain. All the world is still, as though lost in silent worship of the loveliness of the moment.

A few sleepy Kaffirs, wrapped close in blankets which display a rainbow of color, gaze with languid eyes at the panting monster. The white man and his ways are familiar today in the heart of the Dark Continent. Yet there are men living who remember the time when the coast tribes believed that white men were a production of the sea, which they traversed in large shells, their food being the tusks of elephants, which they would take from the beach if laid there for them, placing beads in their stead, which they obtained from the bottom of the sea. History has been made quickly in South Africa.

A shrill whistle, and on again into space. All day you clatter forward—a little uncertainly at times. There are mysterious wayside halts in the wilderness, when you seem to have run out from the world and been side tracked far from the haunts of men; there are waitings at tiny sidings from which not a habitation is visible, and where the only possible traffic appears to be a wild buck or an occasional stray bullock. The land is empty. The swarms of natives you expected to see are absent; the country looks deserted. Space—only space. Now and then there glides into the picture a town with a name known to history, the site of a siege, the field of a battle. The impression it leaves is simply one of insignificance. No ordinary town could look imposing upon such a plain.

All day the train toils inward, growing weary at times as though disheartened at the miles which still stretch ahead. A few herds of goats or cattle; a shy figure in the distance, which makes you think of the harried Bushmen or the wild Vaal pens; now and then a hive-like kraal away under the shade of some trees. But no incident, no break—never was there such monotony. Yet you cannot conjure up a different picture. Even in imagination you cannot transform the veldt. It was thus when the first white man pushed forward from the shelter of the coast settlements into the unknown. It is thus today. It will be thus in a decade—perhaps in a century.

Sunset is as wonderful as the dawn. The still, cloudless sky darkens rapidly as the sun sinks below the rim of the plain. A solitary kopje becomes purple, then black, a fitting haunt for some robber chief, the terror of whose name has desolated the countryside. The last glorious glow, which the painter could reproduce, dies away, and a chill breeze sighs through the dry grass. The train puffs wearily on in the blackness of the night; ever forward, with the searchlight before the funnel, like a huge eye sweeping the land to find a human being.

In the middle of the night there happens a curious thing. The country becomes people. There is a grinding stop. A few lights flicker, hoarse voices shout unintelligible orders, there arises a banging and a clattering sufficient to wake the Seven Sleepers. What happens—how it happens—why it happens—no man knows. It is an eccentricity of a South African railway. The livelong day slips by with a silence which almost forces one to shout to break the stillness, but at night these mysterious noises arise. Men emerge from nowhere, and talk loudly of nothing beside the waiting train; figures with hammers beat upon the wheels or hold consultations in stentorian tones over grease boxes; a popular song is roared under the windows of sleepers; even a whole troop train of terribly wideawake soldiers has been met on a particularly dark night. But these things never happen in daytime. There are people in this wide land after all; but they only spring up at night.

So on through another day—always the same space. At last, as night falls once more, you enter a region of snow white hills, which look ghostly in the moonlight, of queer towers of iron bars and enormous wheels, as of the torture chamber of a giant's inquisition. Stations slip past more quickly, houses grow more numerous. Finally appears a great city, where electric trams glide through the streets and a blaze of electric light shows a background of tall buildings. It is the Reef and the Golden City, the magnet which has drawn the railway all these hundreds of miles from the sea. But it is soon forgotten. The veldt laps the walls of Johannesburg and will remain, after it has gone, to cover the scars made by man.

Further on—you lose count of time in a South African train—is a gorge, down which you descend to the low country, the fever stricken land toward Delagoa Bay. You have heard of bold hills, of grand scenery; but the winding descent is disappointing. The hills look low, the valley is not deep. The country which stretches away around you is too immense. No picture could look imposing set in such an enormous frame.

This is the last, as it is the first, impression of a South African railway journey. Space, size, vastness. There are snow-capped mountains, swift running rivers, forest, bush, hill, valley, upland, desert. There is much that is striking, many things that are novel; but the greatest, the most lasting thing, the impression that remains when the others have become a blur, is the distance. This is a land of great distances. It fascinates you. Finally, it depresses you. What can man do with such a land; a land which has never changed—which means never to change? We build and scratch in little corners, but we have done nothing which really counts. The space is too great. The veldt is as it was—and always will be.

Dickens in Rome.

When Charles Dickens arrived in Rome on Jan. 30, 1845, he was profoundly disappointed. "It was no more my Rome, degraded and fallen asleep in the sun among a heap of ruins, than Lincoln's Inn Fields is." A short time before, while he was straining his eyes across the Campagna a distant view of the town had recalled London. This feeling soon passed away. He thought spring the most delightful season for Italy. He was again in Rome in 1853; saw J. G. Lockhart, "fearfully weak and broken;" smoked with David Roberts, who was painting that famous picture of Rome now in the Scottish National gallery. The Pantheon he thought nobler than of yore, the other antiquities smaller.

It was in San Lorenzo square, Florence that Robert Browning picked up the part manuscript and part printed Roman murder trial of 1698 from which he spun his wonderful "Ring and the Book." The church of San Lorenzo, in Lucina, off the Corso in Rome, was the scene of Pompilia's marriage. It was there also that the murdered bodies were laid for the inspection of "half Rome." There was a weird funeral, attended by Capuchins, when we were in this church. While in Rome the Brownings stayed at 28 Via del Tritone.—Chambers' Journal.

After the Third Degree.

"Say," began the chief of detectives, "you remember that defiant murder suspect who was brought in last night?"

"Yes," replied the prosecuting attorney, "what about him!"

"Oh, he autoed."

"Autoed?"

"Yes; he broke down."—Cleveland Leader.

Bryan and the Goat.

Last year William Jennings Bryan ited Cornell university. While be entertained at dinner by a prom legal fraternity he told the following story on himself:

Once out in Nebraska I went to protest against my real estate assessment, and one of the things which I particularly complained was assessing a goat at twenty-five dollars. claimed that a goat was not "real" property in the legal sense of the rd and should not be assessed. One the assessors, a very pleasant faced man, very obligingly said that I uld go upstairs with him, and together we would look over the rules regulations and see what could done.

We looked over the rules and final the old man asked: "Does your t run loose on the roads?"

"Well, sometimes," said I, wonder what the penalty was for that dful offense.

"Does he butt?" again queried the man.

"Yes," I answered, "he butts."

"Well," said the old man, looking me, "this rule says, that all that cer property running and abutting on highway. I don't see that I can anything for you. Good day, sir." —Lippincott's Magazine.

yspepsia of Women

sed by Female Disorders and Cured by Lydia E. Pinkham's Vegetable Compound

A great many women suffer with a m of indigestion or dyspepsia which s not seem to yield to ordinary treatment. While the symptoms seem to be ilar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. M. Wright

Mrs. Pinkham claims that there is a d of dyspepsia that is caused by a rangement of the female organism, d which, while it causes a disturbance similar to ordinary indigestion, not be relieved without a medicine ich not only acts as a stomach tonic, t has a peculiar tonic affect on the female organism.

As proof of this theory we call attention to the case of Mrs. Maggie Wright, Brooklyn, N. Y., who was completely cured by Lydia E. Pinkham's Vegetable Compound after everything else had failed. She writes:

"For two years I suffered with dyspepsia so degenerated the entire system that I unable to attend to my daily duties. I weak and nervous, and nothing that I ate good and it caused a disturbance in my I tried different dyspepsia cures, nothing seemed to help me. I was advised to give Lydia E. Pinkham's Vegetable a trial, and was happily surprised that it acted like a fine tonic, and in a days I began to enjoy and properly digest food. My recovery was rapid, and in weeks I was a well woman. I have recommended it to many suffering women."

No other medicine in the world has ived such widespread and unqualified endorsement or has such a record cures of female troubles, as has Lydia Pinkham's Vegetable Compound.

TYNER'S DYSPEPSIA REMEDY.

Many Have Dyspepsia and Don't Know It.

Do you belch up wind? Taste your food after eating? See specks before your eyes? Are you pale and haggard? Does your heart flutter? Are you dizzy? Do you have pains in side or back? Risings or pimples on the skin? Are you low-spirited? Is there a sour taste? Breath bad? Headache? Weak kidneys? Bilious? Constipated? Are you nervous? If so, you have Dyspepsia, and it is a dangerous condition. To cure, take Tyner's Dyspepsia Remedy. It is made for just such troubles and symptoms. Tyner's Dyspepsia Remedy removes acids from the stomach, strengthens weak stomachs and cures the worst Dyspepsia or Indigestion. Druggists or by express 50 cents a bottle. Money refunded if it fails to cure. Medical advice and circular free by writing to Tyner Remedy Co., Augusta, Ga.

Easy Fishing.

Some of the staff of the D. O. A. L. office at Delagoa Bay, accompanied by the officers of the Kronprinz, had one of the most remarkable fishing catches on record up the Umbeluzi. They went up in a launch, and were lying at anchor in the dark in the evening, with a lantern burning. Presumably attracted by the light, a number of fish leaped into the boat, and these were followed in quick succession by others. Some of the party had their hats knocked off, and for a moment were naturally quite alarmed. The fish, evidently members of a large shoal, continued leaping into the boat thick and fast, and when a count was possible it was found that nearly 400 of them were in the boat. They ran to about a foot in length, and made good eating.—From South Africa.

His Idea of Her Cooking.

Bacon—What part did your wife take in the amateur theatricals?

Egbert—She was the cook.

Bacon—Indeed! I didn't know it was a tragedy.—Yonkers Statesman.

The forthcoming city directory of Pasadena, Cal., will show a population of 25,080. This is an increase of 3,580 persons since the same time last year, and an increase of 15,962 since the United States census of 1900.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle

The number of cigarettes manufactured in the United States during the last fiscal year was 10,811,000,000.

RUNNING SORES ON LIMBS.

Little Girl's Obstinate Case of Eczema—Mother Says: "Cuticura Remedies a Household Standby."

"Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that we discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble. We find that the Cuticura Remedies are a valuable household standby, living as we do twelve miles from a doctor, and where it costs from twenty to twenty-five dollars to come up on the mountain. Mrs. Lizzie Vincent Thomas, Fairmount, Walden's Ridge, Tenn., Oct. 13, 1905."

All In The Family.

Suitor—I cannot boast of wealth but I have brains. The members of my literary club will tell you that you'd have the smartest debater in town for a son-in-law.

Father—And I can assure you, my dear fellow, that you'd have the greatest lecturer in the town for a mother-in-law.—Tit-Bits.

The Vanished Wild Pigeons.

Less than fifty years ago the wild pigeons passed in springtime over the western reserve of Ohio in ranks many deep and varying from a few rods to a mile or more in length. The forests were fairly alive with them in May and June. The din of their cries and calls and the thundering roar when they were startled from the ground in the morning when feeding in the beech and oak woods once heard could never be forgotten.

These wonderful manifestations of bird life dwindled rapidly from 1859 until the last remnants disappeared from Ohio in 1871. The fate of these beautiful and interesting birds, though they were ruthlessly and wantonly slaughtered, was determined overwhelmingly by the clearing of forests and destruction of the pigeons' feeding and breeding places. This being true, and as the forests are now gone and, under the present American forestry policy, never to return, we cannot reasonably hope in the future to see very many returning wanderers.

However, every state and the general government should do everything possible to encourage their return and to cherish their presence. Two years ago, in the woods near Halifax, N. S., I heard the familiar cry of long ago, investigated, and found to my astonishment a little flock of ten of the old genuine wild pigeons. It has been a mystery to me ever since whence they came.—New York Sun.

Invitation from Mexico.

Mexico needs men of wealth, the great capitalists, but it does not want to see them come here to absorb everything in sight, to twist the tentacles of the Octopus around all productive activities. There is no more of the usual amount of the "envy of wealth" here than is to be found in other lands. Human nature, this side the Rio Grande, is the common sort. But there is in this country a strong feeling against grasping monopolies. This is a healthy indication. Capitalists who invest here, and do not endeavor to close all the gates of opportunity, will always be welcome. Fair play for all men of brains and money is Mexico's motto. But they must play fair.—Mexican Herald.

Increased Value of Farms.

The average real estate value of medium farms in the United States in 1905, according to a recent government report, was $29.11 an acre, against $21.80 an acre in 1900. Allowing for the political motive of the administration to make a fine showing before the elections, it appears to be true that there has been a real increase in farm values. This has, however, been caused by the industry of farmers and other producers, not by the high tariff or other party policy.

WOMEN'S WOES

Thousands of women suffer daily backache, headache, dizzy spells, languor, nervousness and a dozen other symptoms of kidney trouble, but lay it to other causes. Make no mistake. Keep the kidneys well, and these aches and troubles will disappear.

Mrs. Anthony Cadrette, 77 Mechanic St., Leominster, Mass., says: "My sight failed, I had sharp pain in my back and bearing-down pains through the hips. I was nervous, fretful and miserable. The urine was greatly disordered and I began to have the swellings of dropsy. I was running down fast when I started using Doan's Kidney Pills. A wonderful change came and after using them faithfully for a short time I was well."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

New Sight for Shooting at Night.

The development of accuracy in shooting at night has received a double impetus of late in the British service. A new sight has been adopted and is being manufactured and issued with all possible despatch. This sight, a telescopic pattern, is defined by electric light for night work. It has been extensively tried under all conditions and has proved a signal success. Quite recently, also, a greatly improved 36 inch searchlight has supplanted the regulation 24 inch light, which is capable of defining an enemy at over double the distance of its predecessor. Owing to the excellent training offered by the gunnery branch our naval gunners can now with the aid of their latest sight and searchlight depend on disabling an enemy at from 3000 to 4000 yards on a favorable night.—South China Post.

anama's Rubber.

The india rubber exports from Panama to foreign countries during 1905 were estimated at 176,000 pounds, valued at $88,000 gold. The total shipped from the Colon district to the United States during 1905 was estimated at 40,000 pounds, valued at $20,000.

THE WINNING STROKE

If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectually, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well worth considering in making purchases.

It is because of the fact that **SYRUP OF FIGS** is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists, and that full name of the company—California Fig Syrup Co., is plainly printed on the front of every package. Regular price, 50c per bottle.

CALIFORNIA FIG SYRUP Co.

A Patrol Motor Fireboat.

The Rio Tinto company has large warehouses and docks at Huelva, Spain, from which its shipments of copper are made. For the protection of the company's property a small steam fireboat has been maintained for some years past, but the directors, not being satisfied with the power of this vessel, asked Colonel Fox, chief officer of the London Salvage Corps, to inspect and advise as to more powerful apparatus. As a result a novel petrol motor fireboat has been built. A run on a measured mile off Greenwich was made, both against and with the tide, the speed attained averaging nine miles an hour; one and a half inch, one and three-quarter inch and two inch solid jets were thrown from the monitor on deck, the largest stream reaching a height of about 200 feet.

The great advantages of this vessel are that it can be started instantly on an alarm of fire, there is no expense in maintaining steam ready for a call, it can be easily worked by two or three men only, and is of light draught, enabling it to get close to its work at low tide.—Engineering.

Sneezing is the best brain clearer known. Many persons conclude an attack of faintness or fainting with a violent sneeze. Our ancestors took snuff from a belief in the efficacy of sneezing. But tobacco so taken is in part absorbed into the blood and hurts the system.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

The city of St. Petersburg is proceeding vigorously with the development of its urban transportation system. An order has been given for 180 British-made electric trolley cars.

Have You an Extra Room to Heat?

There need not be a cold room in the house if you own a PERFECTION Oil Heater. This is an oil heater that gives satisfaction wherever used. Produces intense heat without smoke or smell because it is equipped with smokeless device—no trouble, no danger. Easily carried around from room to room. You cannot turn the wick too high or too low. As easy and simple to care for as a lamp. The

PERFECTION Oil Heater

(Equipped with Smokeless Device.)

is an ornament to the home. It is made in two finishes—nickel and japan. Brass oil fount beautifully embossed. Holds 4 quarts of oil and burns 9 hours. Every heater warranted. Do not be satisfied with anything but a PERFECTION Oil Heater. If you cannot get Heater or information from your dealer write to nearest agency for descriptive circular.

The Rayo Lamp makes the home bright. Is the safest and best lamp for all-round household use. Gives a clear, steady light. Fitted with latest improved burner. Made of brass throughout and nickel plated. Every lamp warranted. Suitable for library, dining room or parlor. If not at your dealer's write to nearest agency. STANDARD OIL COMPANY, Incorporated.

TYNER'S DYSPEPSIA REMEDY.
A Guaranteed Cure. Many Have Dyspepsia and Don't Know It.

The purchase price (50c) of Tyner's Dyspepsia Remedy will be returned if it fails to cure or relieve dyspepsia or indigestion in any form. Take as directed on label. Many people have fluttering of the heart, risings or pimples on the skin, dizzy feelings, aches and pains in the side or back, weak kidneys, constipation, belching of wind, blurred eyesight, tainted bad breath, hawking and spitting, headaches, acid stomach, pale skin, and don't know it's dyspepsia. If you have any or all of these symptoms take Tyner's Dyspepsia Remedy, and a cure is certain, sure and lasting. Tyner's Dyspepsia Remedy strengthens weak stomachs, helps digest your food, stops aches and pains, (stops colic immediatly) It tastes good and warms your stomach from the first dose. Cures where all else fails. Try it. Druggists, 50c. a bottle. Sold in Clanton by Florence Drug store; call or write; remedy sent by express.

Maplesville, Oct. 21, 1906

Editor Banner—Come, let us reason together, as the stock law seems to be agitating the minds of our people. I would like to say a few words in your national educator, in regard to the subject. First, I don't believe God intended to punish the dumb brutes in that way as to keeping them in an enclosure, when He says that cattle of a thousand hills are His. Now, this is a serious thought as I look at it. It will require better fences to keep stock in than it will to keep them out. Suppose my neighbor is ready to turn out his stock in the fall before I am, I have had some misfortune and I am not through gathering, unthoughtedly or intentionally turns stock in on me and cleans up my crop, is that right? Yet it will be done, I am afraid. Well, spring is coming along, I want to plant my crop, and go ahead and plant and hogs come along and root it up, sorry indeed to say. Every fellow for himself and the devil get the hindmost. If we would cut down the acreage and plant less, cultivate better, we would have plenty to live on and not work near so hard, if it suits the people, and they say it's better for the country. Now, I will hands off. I am not fond of making fence, but I want to see the country prosper. I have yet got to see it prosper under stock law. T. L. ELAM

A Year of Blood

The year 1903 will long be remembered in the home of F. N. Tacket, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tacket's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completed restored and as time has proven permanently cured." Guaranteed for Sore Lungs, Coughs and Colds, at Upchurch Drug co. Price 50c and $1,00. Trial bottle free.

Sheriff's Sale

By virtue of an execution issued out of the Circuit Court of Chilton county, and State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against F. E. Gronquist out of the goods, chattels, lands and tenements of the said F. E. Gronquist, I have levied on the following property, to-wit.

E ½ of Se 1-4 Section 34, Township 22, Range 14; Nw 1-4 of Nw 1-4 Section 35, Township 2?, Range 14; part of W ½ of Ne 1 4, Section 20, Township 23, Range 15; part of Se 1-4 of Nw 1-4 Section 20, Township 23, Range 15.

Therefore, according to said command, I shall expose for sale, at public auction, all the right, title and interest of the above named F E. Gronquist, in and to the above described property, on MONDAY, the 10th day DECEMBER, 1906, during the legal hours of sale, at the Court House door, Clanton, in Chilton county, Ala.

Dated at Clanton, Ala., this 1st day of November, 1906.

J. M. MORGAN Sheriff Chilton county.

MANY THINGS
THINGS ABOUT LOUISVILLE

The Banner comes weekly as a welcomed visitor. It is like a letter from home. It would be still more interesting if more of our young people, like Prof Bone and Miss Evie Williams, would write things of real interest. They give us something to think about and inspire us and help us in our life work or in our preparation for our life work.

Of course there are many things of interest in Louisville about which to write, but I have been so busy getting straightened out in the Seminary that I have not had time to get out and visit these places. Although I am right here in the heart of this great, busy, bustling city, I am so shut up in my work that I do not realize that I am surrounded by more than 325,000 living souls. Louisville is the twelfth or thirteenth city in size in the United States. It is a city of schools and churches. There are thirty or forty Baptist churches, besides the numerous churches of all the other denominations. The city maintains five high schools and some thirty or forty graded schools. There is a juvinile court, in which several hundred young boys and girls are tried for various offences every Friday from 10 a m to 5 p m. In connection with this court there is a reform school that is doing much to help in the training of this class of youngsters. There is on foot a movement to establish a Parental school, patterned after those in Philadelphia, Chicago and other large cities. The object of this school is largely to take the place of parents in the training of unfortunate children, some of whom would be much better off without parents. This will be a good thing. "The half had not been told." This is what I said concerning the Southern Baptist Theological Seminary. All the years that I have gone stumbling along without preparation for the work that God had given me to do I did not realize how much I was missing by not attending this "School of Prophets." I believe it is generally conceded that ours is the best and only thoroughly orthodox Baptist Seminary in the world. There is a movement on foot to raise a million dollars endowment. This can be done. Our people are well able to do it, it should be done at once. The influence of this Institution is being felt throughout the world. We have brethren here from every setcion of the Union and from other countries. The attendance is larger than usual but not what it should be. Instead of nine men from Alabama there should be not less than fifty. The demands among our churches now is for trained men. Why not? The world requires trained men for everything else. Why should not the greatest cause in the world be headed by competent men thoroughly prepared for leadership? It rejoices me greatly to hear that interest in Sunday and day schools in Chilton grows apace. Hope all the bright eyed boys and girls down there will have the privilege of attending school this winter and be blessed with christian teachers, men and women who love them and will do much to help them on to manhood and womanhood.

ROBERT JONES,
Louisville, Ky.

Billiousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally.—MRS. ROSA POTTS, Birmingham, Ala. These tablets are for sale by Upchurch Drug co., Clanton, A. Horn, Thorsby.

$125 Reward.

The above reward will be paid on delivery of John Baker, colored, to the Sheriff of Chilton County, Ala., wanted for the shooting of W. A. Pool, April 14, 1906. Height 5 ft 8 in.; weight about 165 lbs.; age 45 years; black skin. J. M. MORGAN,
Sheriff Chilton County, Ala.

Dairy and Food Commission's Report.

The Minnesota Dairy and Food Commission's analysis shows that Kennedy's Laxative Honey and Tar and Bee's Laxative Honey and Tar contained opiates and croton oil. Opiates are poison and croton oil is a violent poisonous purgative. Refuse to accept any but Foley's Honey and Tar in a yellow package. Foley's Honey and Tar contains no opiates or dangerous drugs and is the best cough and cold cure. Upchurch Drug co.

MAKE MONEY.

Here is an interesting study: Make out a list of all the people you know, and estimate the amount of money each one earns in a year. Total it up. The amount will be surprisingly large. Now, of all those people, only the few who SAVE SOMETHING really MAKE anything at all. Simply earning money isn't making it; what slips through the earner's fingers is finally "made" by somebody else. Don't forget to count yourself in on the list, and if you are not "making" money, begin now to save with us. One dollar will open your bank account.

CORRESPONDENCE.

Your stomach churns and digests the food you eat and if foul, or torpid, or out of order your whole system suffers from blood poison. Hollister's Rocky Mountain Tea. keeps you well. 35 cents, Tea or Tablets. Upchurch Drug co.

Beat 6.

Editor Banner—I notice in last week's Banner where you invite short answers for the Republican increase in votes in the election on Nov 6. It was caused by misrepresentation by the leading Republicans of the county to the voter who allows some one to do his thinking for him and his voting too. I could give you some reasons for saying this, but it might be too lengthy Success to the Banner and the Democratic party.

A. N. POWELL.

Jemison, Nov. 12, 1906

Editor Banner—I would like for you to give this short piece a little space in your paper for the satisfaction of my Democratic friends as were as myself, at the same time thinking and might say, knowing that it would be an injustice to them and myself if I didn't say something in regard to some high-flown political games that are and were floating about in regard to my political standing and character.

In the first place, will ask a question, and that is, when anyone has anything published in a paper as to the character of anyone, political or otherwise, is it not necessary that he should be able to establish what he writes to be a fact beyond any reasonable doubt? I am satisfied he should according to my own judgment or else abide the consequences. Some time last week someone called my attention to two or three articles in the Union, besides having been talked on the streets here by some parties, that I would vote the Republican ticket in the election and use my influence for the same if the authorities at Washington (of course through someone) would give me the post office at this place, and that all the Democrats here would follow suit for my benefit, I dont know what you would call that but rot, the Democrats here are not built that way, and I certainly would hesitate to ask any of them such an uncalled for favor, if you might say it, it certainly would be unreasonable to say the least. Now, I will say that I not only ever made use of such language in any way, shape or form, nor did I ever intimate such stuff to anyone or authorize anyone to do so for me, you can call it what you please. The truth of the business is, my political principles and ideas are not up for a consideration. I have been voting Democratic since I was twenty-one and if I am here sooner or later, when uncle Gabe blows his horn, I'll be standing at the same old rack, fodder or no fodder. Principle is a very high sounding word in my vocabulary in anything, politics included.

I dislike news paper controversy and am not writing this to that end, only write this to correct a report and in closing, will say to those 2 x 4 newspaper correspondents that whenever they write anything as to the character of a person, political or otherwise, they should certainly be able to bring it about as facts.

Respectfully,
THOMAS HARRISON.

CLANTON ACADEMY

Possesses superior advantages to pupils of all grades, prepares them to enter the best colleges and universities, trains teachers to stand examination for any grade certificate, and qualifies them the better to fill a place in their profession.

L. J. THOMPSON,
Principal.

Mulberry.

Editor Banner—I have been thinking about our defeat and one reason is our boys have not all paid their poll tax. You know the assessor is a Republican, and never insisted on a Democrat to pay his poll tax, but when he met one of his sort he simply told him to pay up his, and they done it almost to a man; shame on our part, and the reason I got beat was because I was 202 short of votes; but I feel better defeated in the Democratic line than to have been elected a mixed up Rep-Pop, for I received 723 Democratic votes which I am proud of, and we will profit by our defeat and be ready to get there next time with all four feet, like the little dog scratched.

T. U. Crumpton lost his store and contents by fire Friday night.

I will close by saying let us rejoice over our State victory, which is the important part of our ticket, Success to the Banner and its Editor, correspondents and readers.

THE BANNER.
Published Weekly
CLANTON, ALA.

Admiral Dewey, in an address to an association of war veterans at Utica, said: "This is a beautiful world, and none of us is anxious to leave it." It certainly is a beautiful world in spite of the croakers, the pessimists and the anarchists, is the comment of the Rochester Post-Express.

Capital shudders, and property prices shrivel, more at the apprehension of reform than at its accomplishment, philosophizes Collier's Weekly. Intelligently worked out reforms, when achieved, usually win the ardent championship of those whom when first suggested they filled with terror.

A new thing always arouses opposition. The locomotive, the steamboat, the bicycle, the trolley, all had to fight against prejudice; but they conquered and are here to stay. So is the automobile. The sooner the opponents of it make up their minds that this is so, the sooner a working plan will be reached.

Observes the New York Tribune: A London scientist says life in a big city makes young children quick, but not intelligent. Indeed, he thinks it often destroys their chances of being clever, for it hastens the development of the brain unnaturally. It makes them superficial, alert, but not observant; excitable, but without one spark of enthusiasm. They are apt to grow blase, fickle, discontented; they see more things than the country bred child, but not such interesting things; they do not properly see anything, for they have neither the the time nor the capacity to get at the root of all the bewildering objects that crowd themselves into their little lives.

What an excellent service a well organized and wisely managed labor union may perform has been illustrated by the action of the Brotherhood of Railroad Trainmen. Some switchmen in the employ of a railroad company in New England struck in violation of a contract they had made with the company. When the attention of the Brotherhood was called to the circumstances, the second vice-president notified the strikers who were also members of the Brotherhood, that they must go back to work until they had fulfilled the terms of their contract; that unless they did so, the Brotherhood would feel obliged, for the sake of its own honor, to fill their places with trustworthy men.

The little republic of Switzerland exports twice as much stuff to the United States as the United States does to Switzerland. The Department of Commerce and Labor reports that the trade between the two republics during the latest period for which data was available was in excess of $30,000,000. This amount is made up of about 20.4 millions of dollars' worth of goods imported into the United States from Switzerland, and 10.3 millions of dollars worth imported into Switzerland from this country. The six main items of American exports to Switzerland are raw cotton, petroleum, unmanufactured tobacco, leather, lard and meat. The combined value of these articles for the calendar year 1904 constituting three-fourths of the total Swiss imports from this country, viz.: 7.6 million dollars out of a total of 10.3 millions.

Panama hats will become the universal headgear of automobilists if a certain physician with an investigating turn of mind has his way. By the use of a self-recording thermometer this scientific physician has discovered that a close fitting cap, such as is generally worn by automobilists, is the warmest kind of headgear available. Even a high silk hat was found to be ten degrees cooler than the peaked cloth cap, which left a mark of ninety-eight degrees Fahrenheit while the outside atmosphere was only seventy-eight. The Panama hat was found to be the coolest head covering there is. The physician is of the opinion that he has discovered the cause of speed mania in the shape of overheated brains brought on by improper headwear. He has, therefore, become an earnest advocate of Panama hats for automobilists who wish to keep within the limits of speed prescribed by law.

HUGHES ELECTED GOVERNOR

Carried New York State Against W. R. Hearst by Large Plurality.

RESULTS OF BALLOTING IN OTHER STATES

Majority Swept by Party Now in Office—86 Majority inth e House—Wadsworth, Defender of the Beef Trust, One of the Few to Fall—Pennsylvania, Massachusetts, Republican—Rhode Island, Democratic—In Addition to New York State, There Were Elections Occurring in Forty-one States and Three Territories.

New York City.—Charles Evans Hughes, Republican, was elected Governor of the State of New York by a plurality of 63,383 votes over William Randolph Hearst, Democratic and Independence League candidate.

Mr. Hearst ran behind his ticket in New York, Kings, Erie and Dutchess Counties and in scattering districts throughout the State. In Kings Chanler ran 20,000 ahead of Hearst. In New York County it was estimated that Hearst was from 10,000 to 12,000 votes behind the rest of the ticket.

When notified of his success Mr. Hughes said: "My feelings are not those of elation, but those of responsibility."

W. R. Hearst gave this statement regarding the election:

'In view of the result I have only to repeat what I have said in my speeches. I am enlisted in this fight against government by trusts and corrupt corporations and will fight it to the end.

"But I will serve in the lead or in the ranks, just exactly as the people desire, and as earnestly and loyally in one place as in the other.

"The people have decided to retain the Republican party in power. I will make the fight in the ranks, therefore, and as a private citizen do my best to promote the interests of my fellow citizens."

William R. Hearst carried all five boroughs of Greater New York, and went to the Bronx with a plurality of 72,027, divided as follows: Manhattan and the Bronx, 58,133; Kings, 6315; Queens, 6728; Richmond, 851.

Hughes came to the Bronx with 126,546.

The feature of the voting was the big poll for Mr. Hearst in the large cities and in the manufacturing towns.

Such cities as Buffalo, Rochester, Elmira, Oswego, Rome and Poughkeepsie gave materially reduced Republican majorities. In the western part of the State this Republican defection extended into the rural districts also, such counties as Cattaraugus, Chautauqua, the rural districts of Erie and other counties nearly cutting the normal Republican majority in half.

Hughes carried all the up-State counties with the exception of Chemung, which gave Hearst 300 plurality; Hamilton, which gave him 116; Niagara, which gave him 300 plurality, and Schoharie, where the Democratic candidate got a plurality of 250.

In the State of New York above Westchester the vote was almost 100,000 less than two years ago for Governor. Hughes received 70,000 less than Higgins in 1904, and Hearst received about 30,000 less than Herrick. Complete returns will probably show that more than 110,000 voters above the Bronx did not take any part in the campaign, which is an unusual thing, when the intensity of the political fight is considered.

The Legislature is Republican. In the Senate there will be thirty-two Republicans, eleven Democrats, seven Independence League, and one district is in doubt. The Assembly will have at least 100 Republican members, and the Democrats and Independence League combined about fifty.

In New York City the Judiciary Nominators' ticket received scanty support. The Tammany Judges are all elected. The Assembly and Senate division in New York City will be about the same as it is now. Grady defeated Rock easily.

In the State the Republicans have carried their usual number of Assemblymen and Senators, and the Legislature will be largely Republican. The latest figures make this the probable division: Assembly, Republicans, ninety-five; Democrats, fifty-five; Senate, Republicans, thirty-two; Democrats, nineteen.

The hardest Congressional fight in the State was in the Thirty-fourth District, where James W. Wadsworth was defeated by Peter A. Porter, who ran on a Democratic and Independent ticket. Wadsworth was chairman of the House Committee on Agriculture and opposed President Roosevelt's Meat Inspection bill last winter. He had a sharp controversy with the President.

Representative George Southwick, of Albany, and Representative James S. Sherman, of Utica, had very hard fights.

NEW JERSEY.

Trenton, N. J.—New Jersey elected a Republican Assembly and three out of six Republican Senators, but by reduced majorities. The Legislature remains Republican on joint ballot. Hudson and Essex counties went Democratic. Newark elected a Democratic Mayor. Eleven Democratic Assemblymen were elected in Essex County. As this is United States Senator John F. Dryden's home county, the result may prevent his reelection, although a Republican is sure to be chosen as his successor. In the Congressional election the Republicans carried six districts and the Democrats four. This is a gain of three for the Democrats over the last Congressional delegation, which was made up of nine Republicans and one Democrat. In the Eighth District Le Gage Pratt (Dem.) defeated Henry J. Gottlob (Rep.), and in the Ninth District Eugene W. Leake (Dem.) won over Charles E. Pickett (Rep.). In the Tenth District James A. Hamill (Dem.) defeated Howard B. Cruse (Rep.). This district was represented in the last Congress by a Democrat. In the Sixth District William Hughes (Dem.) defeated George H. Burke (Rep.) Jacob Hauseling, Democratic candidate for Mayor of Newark, was elected over Walter S. Howarth, Republican, and George W. Tompkins, Independent Citizen. The Democrats also made gains in the Board of Aldermen and school board.

PENNSYLVANIA.

Philadelphia.—By a landslide in every part of Pennsylvania Edwin S. Stuart, Republican candidate for Governor, was elected by a majority of near 80,000 over Lewis S. Emery, Jr., fusion candidate. In Philadelphia the City party went down to defeat. Samuel P. Rotan, the organization candidate for District Attorney, winning by a majority of 40,000. In the thirty-two Congressional districts the Republicans have won twenty-six and the Democrats six. The Prohibitionists polled a little more than 50,000 votes. Homer L. Casele, the Prohibitionist nominee for Governor, announced that he would give up politics for good. There was no disorder in Philadelphia. The police obeyed the Shern law and did not go within fifty feet of the polling booths.

CONNECTICUT.

New Haven.—All five Republican Representatives will be returned from Connecticut, and Rollin S. Woodruff, Republican, of New Haven, is elected Governor by a majority not much less than in the Roosevelt tidal wave of 1904. The Republican State ticket majority will probably range from 15,000 to 20,000. Both Senate and House of Representatives in the General Assembly will be overwhelmingly Republican. Archibald McNeil has, however, defeated Allan W. Paige for Senate in Bridgeport. Representative-at-Large George A. Lilley, ran ahead of the State ticket. In Ansonia, the Democratic labor candidate, Stephen Charters, is elected Mayor, and in Derby the Democratic nominee, A. F. Howe, is elected Mayor. At 11 o'clock 145 towns out of 168 give R. S. Woodruff, Republican, for Governor, 40,059; Charles F. Thayer, Democrat, 27,799. The Connecticut Congressional delegation, all Republicans, is, at large, George L. Lilley; First District, E. Stevens Henry; Second District, Nehemiah D. Sperry; Third District, E. J. Hill, and Fourth District, Edwin M. Higgins.

MASSACHUSETTS.

Boston, Mass.—Curtis Guild, Jr., the Republican Governor, was reelected by about 34,000 over Moran, the Democratic candidate, in Boston, and although he made heavy gains in outside mill towns, he was unable to overcome the normal Republican plurality. Gerry Brown, the Independence League candidate for Lieutenant-Governor, who was also nominated by the Democrats, has run ahead of the ticket. The next Legislature will be Republican by the usual large majority in both houses, and this will insure the election of United States Senator W. Murray Crane, of Dalton.

RHODE ISLAND.

Providence, R. I.—The election of James H. Higgins, Democrat, Governor by a plurality of at least 6000 is conceded. The Democrats hope to land their whole State ticket. In thirty-five districts Higgins gained 1000 over the Democratic candidate of last year, and the cities are acknowledged to be Democratic. Returns indicate that the Republicans will control the Assembly, outside towns which were considered doubtful having been carried by them. Democratic Mayors are elected in Providence and Woonsocket, a Republican in Central Falls and Republican gains are reported in Pawtucket, though the city is Democratic. It looks as if D. L. D. Granger, Democrat, will retain his seat in Congress, as will Adin B. Capron, Republican.

NEW HAMPSHIRE.

Concord, N. H.—The Republicans elected Charles M. Floyd Governor over Nathan C. Jameson (Dem.). Congressmen Cyrus A. Sulloway and Frank D. Currier, Republicans, were again successful. The Legislature will be Republican on joint ballot by over 100 majority, thus insuring the election of a Republican Senator.

DELAWARE.

Wilmington, Del.—The Republicans have carried Delaware and elected Burton for Congress, over Marvel, Democrat. They will also control the Legislature that will elect a successor to U. S. Senator Alee, Republican.

OHIO.

Cleveland. — The indications are that the Republican State ticket has been elected by a plurality of at least 30,000. In the Congress fight it is estimated that twenty Republicans have been elected and one Democrat. In Cuyahoga County the indications are that the Republican State ticket has been carried by a safe plurality and that Paul Howland has been elected Congressman from the Twentieth District. Congressman Burton's re-election is certain, as he had no opponent. Attorney-General Wade Ellis, at Columbus, issued a statement in which he said the returns indicated that the Republicans had carried the State by 40,000. Returns received at 9 o'clock from twenty-three precincts in the First Congressional District now represented by Nicholas Longworth shows Longworth (Rep.) 3396, Bentham (Dem.) 2489, thus indicating Longworth's re-election by a majority much reduced from what he had two years ago.

ILLINOIS.

Chicago.—Illinois is Republican by about 125,000. Cook County, in which is Chicago, gave a Republican majority of about 40,000. Speaker Cannon was re-elected to Congress in the Danville, Ill., district by a plurality of 6000. The Legislature is Republican, insuring the return of Senator Cullom. The Hearst leaders concede the defeat of their local league, but express great satisfaction over having accomplished the downfall of the Democratic ticket, particularly Gibbons for Sheriff.

MISSOURI.

St. Louis, Mo.—Indications seem to point to the return of Missouri to the Democratic fold. Democratic leaders claim the election of the entire State ticket by 35,000, with a large majority in the next Legislature, both in the Senate and in the House. The Democrats regain all of the seven Congressmen they lost in the slump of two years ago, and probably one more, though it will require later returns to confirm this. It looks now as if the Democrats will have probably thirteen of the sixteen Congressmen in the next House of Representatives, a gain of eight. The State Legislature will be in accord with Governor Folk.

Congress Still Republican.

Washington, D. C.—The Sixtieth Congress will be Republican. The majority in the House will be about 86, a falling off of 28. In the Fifty-ninth it was 114. The House will stand as follows:

Republicans	236
Democrats	150
Republican majority	86

The Republicans expected more of a cut in their majority. The Democrats gained one in Maryland, two in Illinois and one in New Jersey.

John Dalsell is re-elected in the Pittsburg district after a hard fight. He has normally a large majority, but his opponent was popular with organized labor and made a strong run.

Representative Wadsworth, Chairman of the Agricultural Committee, who opposed the Meat Inspection bill advocated by President Roosevelt, was defeated by Peter A. Porter in the Thirty-fourth New York District. He was nominated by the Democrats and Independents.

"Marse Sydney" Mudd, one of the characters of the House, won out in Maryland despite a vigorous fight against him by Samuel Gompers and the Federation of Labor.

Mr. Gompers' campaign did not reduce Speaker Cannon's normal majority in the Danville district of Illinois.

John J. Gardner, of New Jersey, who was also opposed by Mr. Gompers, was elected by 8000 majority.

Representative Longworth, the President's son-in-law, was another man marked by Gompers. The protests of Cincinnati workingmen forced him to relinquish his designs against Longworth, who is re-elected. The President's daughter attended her husband's meetings, and was a figure in his campaign.

Robert Baker is defeated in Brooklyn on the anti-pass issue. Morris Hilquitt, the Socialist, did not succeed in breaking into Goldfogle's district in New York City.

One of the surprises of the election is the defeat of Joseph W. Babcock, of Wisconsin, formerly Chairman of the Republican Congressional Committee. Attempts have been made many times to defeat Babcock, but they have always failed. The La Follette men are opposed to him, and cut him badly two years ago.

OKLAHOMA.

Guthrie, Okla. — The constitution of the new State of Oklahoma will be written by Democrats. Vernon Whiting, secretary of the Oklahoma Republican Central Committee, concedes the Democrats the three delegates, while Chairman Jess Dunn, of the Democratic Committee, says there will be at least seventy-eight Democratic delegates on the floor of the convention. Republican managers admit that Oklahoma proved a great disappointment. The "unknown" quantity of the Indian Territory was a concession to the Democrats, but nine Oklahoma districts, counted on by the Republican leaders, were carried by the opposition. The Osage Nation elected two Democrats. The Indians as a general rule voted the Democratic ticket.

SOUTH CAROLINA.

Charleston, S. C. — The election held in South Carolina was without incident and a very small vote was polled. For Governor, M. F. Ansel, Democrat, and the entire State ticket was elected, the only opposition being J. L. Chandler, who received half a hundred Socialist votes. Seven Democratic Republicans were elected, five without opposition, the Republican nominee in the Fourth and Seventh districts getting only a handful of votes.

LOUISIANA.

New Orleans.—The solid Democratic Congressional delegation, selected at the primaries, is returned with one exception—George K. Favrot succeeding Sam P. Robertson in the Sixth District. Twelve constitutional amendments were voted on, the most important being the authorization of an $8,000,000 bond issue by New Orleans to complete the sewerage, water and drainage systems. This was carried by a large majority.

VIRGINIA.

Richmond, Va. — The election in Virginia passed off quietly, with little interest exhibited in the State, which is safely Democratic. The Republicans will probably win out in the Ninth Congress District, which is nominally Republican, by a diminished plurality.

WEST VIRGINIA.

Wheeling, W. Va.—Partial returns from scattered counties in West Virginia show the probable success of all five of the Republican Congressional nominees by the following pluralities: Hubbard (Rep.), First District, 3000 or more; Sturgis (Rep.), Second District, by 1500 or under; Gaine (Rep.) by 3500 to 4000; Woodyard (Rep.) by 2000 or under; Hughes (Rep.), in the Fifth, by 3000 or more. The Legislature will be Republican, with the present joint ballot majority of 57, insuring the re-election of Senator Elkins.

MICHIGAN.

Detroit, Mich.—Based on scattering returns received at 8 o'clock the Republican State Central Committee estimates Governor Warner's majority at about 100,000. He has carried by a majority of 647 the cities of Lansing, Hillsdale and Adrian, which he lost in 1904 by 172 votes. The vote is only about two-thirds that of 1904.

MINNESOTA.

St. Paul, Minn.—Returns received by the Democratic State headquarters indicated a landslide for Johnson, Democratic candidate for Governor. The first two precincts out in the State heard from show decided Democratic gains. Dodge Centre, Minn., gives Johnson 110 and Cole (Rep.) 102. This same precinct two years ago gave Johnson 58 and Dunn (Rep.) 147. Twenty-eight scattered precincts in the State, including some in Minneapolis and St. Paul, give Johnson (Dem.) for Governor, 2222; Cole (Rep.) 1209; gain for Johnson over two years ago of 684. J. W. Lawson, manager of the press bureau of the Republican State Central Committee, at 8 o'clock, wired the Cole people in the State that the election was a landslide for Johnson.

COLORADO.

Denver, Col.—Buchtel, the Republican candidate, carried the State by from 15,000 to 30,000. His majority in Denver County was 10,000, and though Democratic gains in other parts of the State were expected to offset this somewhat, the Adams supporters were disappointed.

WYOMING.

Cheyenne, Wyo.—The entire Republican ticket, headed by Governor Brooks, was elected by majorities of not less than 2000. The Republicans also elect the member of Congress and the Legislature, which will elect a United States Senator.

SOUTH DAKOTA.

Sioux Falls, S. D.—Reports from the State are meagre, owing to the scratching of county tickets. Incomplete returns indicate the election of the Republican Congressmen and the Republican State ticket by not less than 35,000.

TEXAS.

Austin, Texas. — Notwithstanding excellent weather, the total vote cast in the election was small, comparatively speaking, not exceeding 400,000 votes, all told, 135,000 of which represent the combined vote of the Republican, the Reorganized Republican, Socialist, the Socialist-Labor and the Prohibition parties. The next Legislature will be Democratic overwhelmingly, there being only a slight chance of the Republicans to get one member in the Lower House out of a possible 128.

CALIFORNIA.

San Francisco.—Reports from leading counties of California show that Gillett (Rep.) is elected Governor by at least 25,000 plurality. These figures may be increased when full returns come in from Southern California, where the Republican vote was extremely heavy. In San Francisco the vote was close, Langdon (Independent League) polling nearly as large a vote as Bell or Gillett.

WISCONSIN.

Milwaukee, Wis.—Indications based on bulletins from various parts of the State are that Governor Davidson, Republican, has won over Aylward, Democratic, by 60,000 plurality, and that the rest of the Republican ticket has pulled through with similar margins. On account of the busy season on the farms the vote over the State was light. The Republicans have elected probably nine and possibly ten, of the eleven Congressmen. If the latter they will have gained one Representative over the present delegation. The hardest fight locally was in Representative J. W. Babcock's district, the Third.

KENTUCKY.

Louisville. — By a plurality estimated at from 7000 to 10,000 Senator McCreary was indorsed for reelection in the Democratic State primary over Governor J. C. W. Beckham. In the race for Governor, Beckham's ally, S. W. Hager and B. Hays, both claimed victory. Neither made a large estimate of plurality, the result being uncertain. Of four close Congressional fights the Democrats have carried one, electing Swagar Sherley in the Louisville district. Dr. A. D. James, United States Marshal, Republican nominee in the Third District, won. This is a Republican gain. In the Ninth District J. B. Bennett, Republican, present Congressman, seems winner.

KANSAS.

Kansas City.—Returns from Kansas show heavy losses for Hoch (Rep.), candidate for Governor, who ran behind his ticket. Hoch's vote in Topeka is 2600 less than in 1904. Indications are that he will win by less than 20,000 plurality.

TENNESSEE.

Nashville, Tenn.—Reports show that Patterson (Dem.), for Governor, is receiving the usual off year majorities in Middle Tennessee, which indicates his election by 15,000 to 20,000. Avent, for Railroad Commissioner, is running along with him.

NORTH DAKOTA.

Fargo, N. D.—Preliminary returns show that Fisk has been elected Judge of the State Supreme Court over Knauf, the Republican nominee. For Governor Searles (Rep.) and the rest of the Republican ticket is elected. Later returns may show that Searles had a close call. Burke (Dem.), for Governor, carried Fargo by a big majority.

IOWA.

Des Moines, Iowa.—As nearly as can be told from early returns from Iowa Governor Cummins will be elected the third successive time by a safe but comparatively small majority. Some estimates are made of 40,000 plurality, but the opponents of Cummins say he will be lucky to get half that. Cummins sustained severe losses in the southern part of the State. The entire State ticket will be elected with Cummins and the Legislature will be Republican by more-than a working majority, insuring the return to the United States Senate of J. P. Dolliver.

IDAHO.

Boise, Idaho.—Scattering returns indicate that a landslide has overtaken the head of the Republican ticket in the north and central portions of the State. Ada County has gone against Governor Gooding by a few hundred votes. It seems quite certain that Gooding will be defeated unless he makes up his losses in the Mormon counties. The remainder of the Republican ticket is elected.

NEBRASKA.

Lincoln, Neb.—Indications are that George L. Sheldon, Republican nominee for Governor, has been elected by a plurality slightly in excess of the 9000 returned for Governor Mickey two years ago. The rest of the Republican State ticket is probably elected. The returns indicate Republican gains in the country districts and Democratic gains in the towns.

NEVADA.

Reno, Nev.—Vote counting, which is proceeding slowly, indicates a Democratic-Silver party victory. Sparks, for Governor, is running ahead of Mitchell in all quarters. Returns show Sparks, Barnett for Congress and Sweeney for Justice of the Supreme Court in the lead.

NORTH CAROLINA.

Raleigh, N. C.—Returns indicate a Democratic majority in North Carolina of over 40,000. In the Eighth District Hackett (Dem.) defeats Blackburn (Rep.) by about 500. In the Tenth Crawford (Dem.) won by over 1200, making all districts Democratic.

FLORIDA.

Jacksonville, Fla.—All the Democratic Congressmen of Florida are re-elected, and the State ticket is carried by a decided majority. The vote was light. Returns indicate the defeat of the Drainage Constitutional amendment by a vote on the proposition of three to two.

ALABAMA.

Montgomery, Ala.—Returns indicate an overwhelming victory for the entire Democratic State ticket and nominees for Congress. The vote was light.

UTAH.

Salt Lake, Utah. — The Republicans in Utah elected their State ticket by the usual plurality, returning Joseph Howell to Congress and electing Joseph E. Frick Justice of the Supreme Court.

INDIANA.

Indianapolis, Ind.—The Republican State organization claims the election of its State ticket by a majority of from 48,000 to 54,000. Ante-election estimates of the Republican plurality ran 10,000 below these figures. The election of the entire Republican State ticket, headed by Sims for Secretary of State, is conceded. Marion County went Republican by 5000, the Democrats electing one county candidate and possibly two. The Legislature will be Republican.

Killed by Lightning Arrester.

Paul Brown was killed at Millville, N. J., while demonstrating a lightning arrester on the new electric line of the West Jersey and Seashore Railroad. Fifteen hundred volts passed through his body.

Dreadnought Ready For Action.

Dreadnought, Britain's most formidable fighting ship, was designated as flagship of the new Home Fleet, which is to be kept ready for immediate action.

FAMINE IN CHINA.

Ten Million Persons Near Starvation and Serious Disorder Feared.

Shanghai, China.—Missionaries report a severe famine in North Kiangsu. About ten million persons are on the brink of starvation. The local magistrates are preventing the people from leaving the region, but are taking no steps to provide them with food. Hitherto there have only been slight disorders, but it is feared they will become more serious.

Shipload of Immigrants Arrived.

The steamship Wittekind arrived from Bremen at Charleston, S. C., with 500 immigrants brought over by E. J. Watson, South Carolina's Commissioner of Immigration.

Negro Soldier Killed.

In a saloon outside the Fort Bliss reservation near El Paso, Texas, negro soldiers of the Twenty-fifth Infantry fought until one soldier was killed and another badly hurt.

ILROAD GETS LAND

preme Court of Kansas Re- ered Valuable Farming Lands to Railroad.

DECISION IS RENDERED.

Many Years the Road's Right of Way Has Been Encroached Upon and the Road Wins.

Topeka, Kan.—Thousands of acres the most valuable farm land in Kan together with a large amount of located in towns and cities of the is given to the Missouri, Kansas Texas railway by a decision hand down by the Kansas supreme court the case of that railway company against one Watson.

In July, 1866 congress granted to the Pacific Railroad Company thern branch, now the Missouri, nsas and Texas Railway Company, ght of way 200 feet wide from said way to the south line of the state distance of about 150 miles. After patents were issued to private persons for land through which the road runs without excepting the of way. The persons holding se patents have treated the right way as being only 100 feet wide some cases valuable improvements been made by them on the outer y feet on each side of the railroad ks, and they have occupied the d without disturbance for many years. The railroad company brought to oust these occupants, and the rt now decides in its favor.

Among the larger places touched by Missouri, Kansas and Texas railway are White Clay, Council Grove, poria, Burlington, Chanute, Par Oswego and Chetopa.

The opinion was written by Justice rch, who said the case would finally decided in the United States su eme court, as an act of congress is olved. From former decisions of higher court Justice Burch holds at the grant to the ground took ef immediately on the passage of act, and that all persons who ght lands adjoining the railroad perty took their titles subject to company's right. This is based the fact that the officials of the d department could not issue pat to persons which would allow the rchasers a title to the land which ready had been given to the rail d.

The wide right of way is granted to railroad with the express provision at all troops and munitions of war uld be carried free, however, and vate individuals could not encroach n the right of way since the country has been settled, so that the comy can be deprived of the lands.

The case decided should not be con d with the suit of the Missouri, nsas and Texas railroad against the ernment for the land grant in In territory, in which Kansas is act g as trustee for the railroad com y. The latter case is now in the ited States supreme court.

Florida Man Shoots Wife.

Gainesville, Fla.—Berry Brigham, a young farmer living in the out s of the town, shot and instantly led his wife, alleging that he had d her in a cane patch with an er man. Brigham said he has been pecting his wife of infidelity and been watching the house, with above fatal result. A large and ited crowd gathered about the e, but Brigham managed to es pe.

Virginia Bank Robbed.

Bristol, Va.—The bank at Rural Re t, Va., was looted by expert safe ackers and $1,300 in cash stolen. The safe was blown open and the rob y committed without any one being turbed, and the robbers made good ir escape.

Prominent Men to Make Addresses.

Kansas City.—At a meeting of the cers of the Trans-Mississippi Con here the official program for the enteenth annual session, which ns in this city on November 20, was pleted. Among the prominent akers who will deliver formal ad ses are, W. J. Bryan, Secretary , Secretary Shaw, John G. Car , Senator W. J. Stone, of Missouri, d E. H. Harriman, of New York.

Texas Man Shoots Wife.

Houston, Tex.—Morris Gambert shot d killed his wife at their home in uburb. He then came in and sur ered to the sheriff. He refused make a statement.

New Pythian Home.

Chicago, Ill.—The Illinois grand ge, Knights of Pythias, which is ding its thirty-seventh annual con ion here, instructed its board of to proceed immediately with erection of a $150,000 Pythian at Decatur, Ill., for old people orphans. Decatur donated $25, and sixty acres of land for the

Southern Cotton Association.

Atlanta, Ga.—After receiving reports from the different states the executive committee of the Southern Cotton Association reviewed the crop situation thoroughly to the present date and gave out the following statement Saturday afternoon:

"The executive committee of the Southern Cotton Association gave out its estimate of this year's yield at 11,146,000 bales. After carefully canvassing each state the committee arrived at the estimate from the reports as to the conditions, amount ginned and the amount yet to be ginned.

"East of the Mississippi the season has been late. In Georgia, Alabama, North Carolina, South Carolina and Arkansas the cold weather last May seriously checked the growth of the plant and in some places, particularly in North Georgia and the Piedmont region of North Carolina, considerable replanting was necessary.

"Subsequent to this there continued wet weather in Georgia, the Carolinas and Alabama, making the cultivation of the crop difficult and finally resulting in large areas being abandoned and a generally grassy condition in that which was already cultivated.

"On September 17 there was a severe tropical storm that covered North Carolina, Southern Carolina and North Georgia. It did great damage to the open cotton and checked growth and development of the plant and fruit. On the 27th of September there was another storm, which covered Mississippi, Arkansas and Louisiana, which perhaps was most disastrous in its effect on the cotton belt. It not only destroyed open cotton, but seriously injured the growing plant in the rich bottoms of Mississippi and tributaries. October 10 and 11 unprecedented early frosts covered practically the entire belt east of the Mississippi, totally and permanently destroying what little vitality was left by the storms. This frost not only arrested all further development of the crop, but destroyed all partially matured fruit, thereby not only cutting off all that was possible in the way of maturity from the date of the frost to the normal frost period, but destroyed all matured fruit.

"Therefore, to sum up the situation, the crop was admittedly two to three weeks late, the frost from three to four weeks early, with storms to emphasize the already adverse conditions. Now, it is a fact known to all experienced cotton men that whatever checks or tends to destroy the vitality of the plant in the same degree tends to cause opening of all fruit. Therefore the trade is being deceived by the amount of cotton being picked and ginned so early, whereas this very fact is evidence of forced opening of cotton caused by the death of the plant.

"Wherever there is sufficient labor there will be no cotton to open to pick br gin the last of November.

"The estimates of improved conditions as given out by some so-called statisticians are ridiculously absurd, because every sensible man who is interested knows that since October there has been no condition of the growing plant as compared with the average or normal. Therefore it is absurd to report improved conditions on dead cotton.

"We, the executive committee, beg to call attention of producer to the fact that the great bear element, the greatest enemy of higher prices, the most absolutely unanswerable argument for lower prices, is the senseless rush of spot cotton on the market by those who make it.

"Just so long as you supply the trade at its prices it is lunacy to expect the trade to give you your price.

"Stop abuing the buyer for offering low prices, but have a word with the farmer who accepts these prices.

(Signed) "E. D. SMITH,
"M. L. JOHNSON,
"Committee."

Rural Carriers Appointed.

Washington, D. C.—Thomas B. Brown, appointed regular and Early McPherson substitute rural carrier route 2, Greenville.

Rural route No. 1 ordered established December 17 at Townley, Walker county, serving 296 people and 74 families.

Attorney Shot by the Husband.

Chickasha, I. T.—At Tuttle, ten miles east of here, John Smalley, a farmer, shot Robert Burns, an attorney of Chickasha, three times and then killed Mrs. Smalley and himself. Burns was shot in the cheek, shoulder and hand, but none of the wounds are serious. Burns had been employed by Mrs. Smalley to secure a divorce from her husband.

Hearst Goes West to Rest.

New York.—The Independence League announced that W. R. Hearst will leave this city on Monday for California for recuperation from the strain incident to his gubernatorial campaign.

Bandits Held Up Immigrants.

Peru, Ind.—While Wabash railroad express train No. 3 was standing in the station a day coach on the rear of the train, in which were thirty Italian immigrants, was entered by two men, who held a loaded revolver at the head of one of the foreigners standing near the door and relieved him of his watch and $30 in money. The robbers escaped.

HARDING TESTIFIES.

First National Bank President on the Stand.

Birmingham, Ala.—The taking of testimony in the case against Alexander B. Chisolm, former paying teller in the First National Bank, who is charged with embezzlement of funds of a national bank to the amount of almost $100,000, began Saturday in the federal court, Judge T. G. Jones presiding.

United States District Attorney Roulhac did the questioning of witnesses on behalf of the government, while Capt. Frank S. White, of the defendant's counsel, cross-examined witnesses. Only one witness was on the stand Saturday, W. P. G. Harding, president of the First National Bank.

He told of the duties of the paying teller, and described his office in the bank. He told also of the reserve left in charge of the paying teller, and of the discovery made as to the shortage in Chisolm's accounts. He told the jury of the statements made by the defendant in regard to the shortage following a return from a vacation trip to the east.

The cross-examination was quite interesting. There was nothing sensational in the testimony, the only incident outside of a smooth court of examination being when one of the attorneys told Mr. Harding that he need not answer a question that was propounded if there was any doubt as "to incrimination." Mr. Harding replied instantly that he would answer any and all questions that were put to him in reference to the case.

Two stenographers took the testimony. Members of the family of the defendant were in court constantly listening to the testimony that was brought out. The defendant looks badly from the confinement. He does not appear nervous, but listens attentively to every question and answer. He looks intently at the people in the court who are before him.

The testimony of President Harding, of the First National Bank, was finished after 1 o'clock and recess was taken until 2:30 o'clock. When the court reassembled at 2:30 o'clock announcement was made of a further recess until Monday morning at 10 o'clock. A large number of witnesses are to be examined, and it is believed that the case will take up the better part of the coming two weeks, if not that long.

Democrats Win in Shelby.

Columbiana, Ala.—Shelby county at the close of one of the hottest contested elections in the history of the county once more swings back into the democratic column. So close was the contest that it required the official count to fully determine the matter. Pearson, democratic candidate for the legislature, defeated W. F. Aldrich, republican and populist candidate by two majority. Fulton, democrat, defeated Norris, republican and populist candidate for sheriff, by seven majority.

Bank at Rogersville.

Florence, Ala.—A certificate of incorporation has been issued from the office of the probate judge for a new bank at Rogersville, to be known as the Rogersville Bank.

The institution is capitalized at $15,000, and the entire amount has already been subscribed, all but $2,000 being taken by Rogersville people.

That Mysterious Corpse.

Birmingham, Ala.—The corpse found last week in the county sanitary sewer is thought now to be that of William Myrick, of Indiana, who came to the district as a telephone operator. Myrick disappeared mysteriously with a ticket and $25 in money on his person. Telephone wires were found in the sewer at the same place with the corpse.

Rescued at Sea.

Halifax, N. S.—Rescued at sea after they had abandoned their vessel, Captain Williams and crew, of the British bark Marion C., arrived here on the Norwegian steamer Farmand, bound from New York for Niramichi. The bark was full of water when abandoned.

Chicago, Ill.—The docks of the Lehigh Valley Coal Company, situated at One Hundredth street and Commercial avenue, were destroyed by fire, causing a damage, as estimated by the officers of the company, of $757,000.

The fire originated from some unknown cause in the engine room, which was situated in the basement of a coal house, in which 50,000 tons of hard coal were stored. The flames spread so rapidly that the employes were forced to run for their lives without being able to send word of the fire to the down-town offices of the company. The coal is still burning, and it is expected that it will be several days before the fire is entirely extinguished.

Bay Minette, Ala.—A canvass of the votes of the election showed a lack of interest all over the county, there being only one-third of the usual vote polled. The vote, however, added one more county to those having voted the one mill tax for school purposes.

The vote was 197 for, with only 63 against. Stockton was the only precinct in the county to poll a majority against the tax, its vote being 21 against, with only 12 for.

ALABAMA GLEANINGS.

Items of Interest Gathered as They Transpire Over the Entire State.

Jelks Takes a Hand.

Montgomery, Ala.—Acting on information received from an inspection of the records of the state with regard to mutual life insurance companies, Governor Jelks publicly threw his influence against the present administration of the New York Life Insurance Company and the Mutual Life Insurance Company of New York in the elections to directorship which those corporations will hold in New York December 18.

In a statement the chief executive advised policyholders in these two companies to vote at the elections for the anti-administration tickets, which have been put in the field by the international policyholders' committee, for election to the board of directors.

This action on the part of the governor was taken after an examination made of the state records, in which was computed the amounts of money paid out by Alabama during eight years to the five life insurance companies doing the leading business in the state, and also the amount of money returned to the citizens of the state during the same time. This computation showed, the statement said, that in that time the five companies collected $14,000,000, paying back only $5,000,000, a condition which had resulted in a drain upon the state of more than $1,000,000 a year for those companies alone.

Report of State Auditor.

Montgomery, Ala.—The sum total of revenues from all sources for the state of Alabama during the year ending September 30, 1906, was $3,776,546.94. The expedntiures during the same period were $3,379,591.95, leaving a net balance in the state treasury over and above the running expenses of the state government of $396,954.99.

These figures are contained in the annual report of State Auditor J. M. Carmichael, which was made to Governor Jelks.

Last year, the report states, was the best in the history of the state, save one. The present fiscal year, according to the state auditor, will show a greater profit in the financial administration of the state, owing to increased assessments of property and to a reduction of the interest on the state debt.

New Mexico's Vote.

Albuquerque, N. M.—Unofficial returns froma ll of the twenty-five counties of New Mexico gave Rndrews (republican) 900 majority, the republicans claiming Rio Arraja county by 500 majority.

New Steel Plant at Bessemer.

Birmingham, Ala.—The prospectus of the Bessemer Steel Casting Company, which is to erect a big plant at Bessemer, has been received here, and is being circulated over the county for local subscription. The company will be capitalized at $150,000, and will, it is understood, erect one of the largest steel casting plants in the south.

Colonel McDavid's Funeral.

Birmingham, Ala.—The funeral of Col. J. J. McDavid, editor of the Southern Farmer, and one of the pioneer citizens of the district, was conducted from the residence of his son, R. P. McDavid. His other son, E. R. McDavid, secretary of state for Alabama, was among the relatives who attended the funeral.

Cockleburr Nearly Killed Him.

Birmingham, Ala.—Samuel Jones, 16 years old, of Guntersville, Ala., barely escaped death as a result of swallowing a cockleburr, which lodged in his throat. The lad was in the last act of strangulation when a physician succeeded in extracting the offending burr.

Alleged Bank Robbers Captured.

Centralia, Ill.—The alleged Odin bank robbers, who blew up the bank at Odin, eight miles north of here, on Friday morning, October 26, and who were arrested at Terre Haute, Ind., last week by William Dwyer, chief of detectives of that city, were placed behind the bars of the Marion county jail at Salem. The alleged robbers were arrested under the names of Albert J. Sullivan, Harry Coleman, alias George Miller, and William A. Tracy, alias George Thompson, alias George Arnold. Twenty-five thousand dollars, the entire contents of the Odin bank, were taken. The prisoners had money deposited in two banks at Louisville, Ky., when arrested.

W. M. Meeks' Funeral.

Gadsden, Ala.—The funeral of Col. W. M. Meeks was held Friday morning at 10 o'clock at the First Methodist church and the services were conducted by Rev. L. S. Dobbs, of Birmingham, and Rev. J. W. Newman, pastor of the First Methodist church.

The stores of the city closed at the hour of the services, and as a special mark of respect Judge Haralson adjourned the Etowah county court.

Alleged Oil Combine.

St. Louis, Mo.—The federal grand jury, which meets next Wednesday, will investigate the St. Louis end of the alleged oil combine, with a view to the institution of criminal proceedings against persons involved. Information was given out that members of the interstate commerce commission and representatives of the office of Commissioner of Corporations Garfield have been served with subpoenas duces tecum from the district court officials in St. Louis compelling their presence when the grand jury convenes.

The grand jury will proceed under the statute which sets forth that persons who accept and those who grant a special railroad rate not granted equally to all shippers are criminally guilty and subject to fine and imprisonment.

Shoots City Marshal.

Chattanooga, Tenn.—A special to the Times from Spring City says:

City Marshal M. H. Galloway was probably fatally shot by Sam Kelly, of Glen Alice, one bullet entering the officer's stomach and another striking him in the arm.

Immediately after the shooting the officer's assailant stole a handcar and made his escape, while a crowd was directing attention to the wounded man.

A posse is now in pursuit of the fugitive, and although there is little likelihood of violence, feeling here is intense. The wounded officer is about 40 years of age and has a large family. He is very popular here.

Remove Fulton's Body.

New York.—Four descendants of Robert Fulton, inventor of the steamboat, gave their consent to Cornelius Vanderbilt, president of the Robert Fulton Memorial Association, to remove the body of Fulton from a vault in the Trinity church yard in this city to a $600,000 mausoleum which the memorial association intends to erect in this city. The funds for the monument have not been collected, but it is hoped to lay the corner-stone of it next year, the one hundredth anniversary of the sailing of the Claremont on the Hudson.

Huntsville's New Railroad.

Huntsville, Ala.—F. T. Petty, treasurer of the Huntsville and Birmingham Electric railroad, has returned from Cullman, where the directors of the enterprise held a meeting. Mr. Petty is confident that the road will be built and operated between this city and Birmingham. Options on the right of way are being taken along the projected route, and the people are enthusiastic over the prospects. No difficulty is being experienced in optioning rights of way. The company expects soon to have its surveying corps in the field.

Satisfactory Accounts.

Rome.—Archbishop J. J. Harty, of Manila, who has just returned here from the Philippine Island, in conversing with high dignitaries of the church gave the most satisfactory accounts of the situation in the Philippine Islands, where the Aglipay schism is said to be dying out, being more of a political than of a religious nature. The archbishop said that the division of the money derived from the purchase of the Friar lands by the United States, as established by the Vatican, pleased the Filipinos, and the Vatican is now investigating the needs of each Philippine diocese in order to fix their respective yearly portion.

Archbishop Harty is awaiting the arrival of his secretary, Father J. J. Chusa, rector of the Cathedral of Manila, who landed at Barcelona indisposed and who is expected here in ten days. After Father Chusa's arrival in Rome Archbishop Harty will be received by the Pope.

Trades Dispute Bill.

London.—The house of commons passed the third reading of the trade disputes bill without a division. The tone of A. J. Balfour's speech, announcing that the opposition would not oppose the third reading, indicated that he did not expect the house of lords would materially amend the measure.

Switchmen's Trouble Adjusted.

Chicago, Ill.—The trouble between the union switchmen and the twenty-three railroads entering Chicago was finally adjusted and all danger of a strike of the 20,000 men has been averted.

Engage in a Conflict.

Cape Town, Cape Colony.—A conflict has occurred between a number of Boers recently employed in German Southwest Africa and a detachment of the Cape police. The Boers entered the northwestern part of Cape Colony and endeavored to raise a rebellion. The police were instructed to suppress the movement.

Bay Minette, Ala.—A canvass of the votes of the election showed a lack of interest all over the county, there being only one-third of the usual vote polled. The vote, however, added one more county to those having voted the one mill tax for school purposes.

The vote was 197 for, with only 63 against. Stockton was the only precinct in the county to poll a majority against the tax, its vote being 21 against, with only 12 for.

THEY ALL "PINED."

Why a Neglected Beauty Suddenly Became Belle of the Party.

A Boston man was much amused by a kissing game he once witnessed in a settlement in the mountains. A number of big-limbed, powerful young men and fresh-complexioned, buxom girls had met at "a party," and one of the youths had been selected as master of ceremonies. He took his station in the centre of the room, while the others paired off and paraded around him.

Suddenly one young girl threw up her hands, exclaiming, "I'm pinin'."

"Miss Maria Mullins says she is a-pinin'," came in stentorian tones from the chairman. "What is Miss Maria Mullins a-pinin' fur?"

"I'm pinin' for a sweet kiss."

"Miss Maria Mullins says she's a-pinin' fur a sweet kiss. Who is Miss Maria Mullins a-pinin' fur a sweet kiss from?"

After certain convulsive giggles from Miss Mullins, she finally ventures to say:

"I'm pinin' fur a sweet kiss from Mr. Tom Bolton."

Mr. Tom Bolton arises to the occasion, and Miss Maria Mullin's "pinin'" is promptly appeased.

And so the entertainment proceeded in each individual case, except that of a remarkably handsome young woman, who had been married but a month. Her husband was present, a huge, beetle-browed young mountaineer with a fist like a ham. The boys had fought shy of the bride for fear of incurring the anger of her husky spouse. The situation seemed to irritate the giant, for, striding into the middle of the room, he announced:

"My wife is as pretty and nice as any gurl hyar. You-uns has knowed her all her life. This game has been a-goin' on nigh onto an hour an' nobody has pined fur her. Pretty soon there'll be trouble!"

Immediately the newly married one became the belle of the "party," and everybody "pined" for her.—Philadelphia Ledger.

WISE WORDS.

Find your right place in the world and get into it right away.

Half-hearted people are slow workers. Believe in your task.

Work and think. Don't steal your own talents by laziness and vice.

True goodness is like the glow-worm in this that it shines most when no eyes except those of heaven are upon it.—Hare.

Truth is the salvation of the world. It is the friend of all, even of whom it strikes. Wounds made by truth heal and cleanse; caresses of falsehood poison and kill.—Charles Wagner.

To do your work because you must, to do your work as a slavery, and then, having got it done as speedily and easily as possible, to look somewhere else for enjoyment, that makes a very dreary life.—Phillips Brooks.

Trample under your feet the immoral side of the maxim that nothing succeeds like success. Let your success be goodness, and the goodness will be your success. Leave luck to fools, and act as though it had no existence.—Dr. Ambrose Shepherd.

I find that there is no worthy pursuit but the idea of doing some good to the world. Some do it with their society, some with their wit, some with their benevolence, some with a sort of power of conferring pleasure and good humor on all they meet.—John Keats.

By giving to the repetition of an act of duty a fixed regularity, I can multiply my moral power in that direction as much as a man multiplies his material power when he gets hold of a lever. By faithful habit I can make that which was at first laborious come to be after a while less difficult, then easy, and perhaps at last spontaneous and delightful.—G. S. Merriam.

Chinese Gambler's Penance.

A Chinese cook named Chin Kam had been engaged by a wealthy Chinese in Ho In street in Canton. All the money he earned had been lost in gambling. On one occasion his master paid him some money for the provisions he supplied. The cook lost all the money at one stake. Finding that his debts were accumulating day by day, on the twenty-fourth day he went into the kitchen and chopped off the forefinger of his left hand as a self punishment and warning in order to relinquish this evil habit of gambling in the future. He became unconscious through the pain, but was brought round again in a few minutes.—Singapore Times.

The Richest Mexican.

General Louis Terrazas, whose wealth is conservatively estimated at $200,000,000, celebrated the seventy-fifth anniversary of his birth at his home in Chihuahua, Mexico, a few days ago, says the Tucson (Ariz.) Star. Terrazas is said to be the largest individual land owner in the world, his estates in Western Mexico covering more than 15,000,000 acres. He owns several hundred thousand head of cattle, horses, sheep and goats. Some of the richest mines in Mexico belong to him. He and his son-in-law, Enrique Creel, control the banking business of a portion of Mexico.

A huge sunfish, the largest ever seen, was recently captured near Santa Catalina Island, off the coast of California. It weighed about 1900 pounds.

The Banner.

Owned and Published every Thursday at Clanton, Chilton County, Ala.

Entered at the postoffice at Clanton, Ala., as second-class mail matter.

"Here shall the press the people's rights maintain,
Unawed by influence and unbribed by gain,
Here patriot truth her glorious precepts draw,
Pledged to religion, liberty and law."

Subscription, yearly : : : $1.00
Invariably in advance.

Address all communications to THE BANNER, Clanton, Ala.

Commissioners' Court.

The court met in regular November session, Monday, Nov. 5, and adjourned until Monday, Nov. 12. A number of accounts were passed, and stock law elections ordered to be held in beats 3 and 4 on January 15, 1907. The court is now sitting as the jury commission.

Mr. GULLEDGE RETURNS THANKS

To the People of Chilton County:

Now, that the election is over, I want to thank my friends and supporters of each political faith who worked and voted for me, for their loyalty, ever pledging to so act in future as not to bring reproach on myself nor those who gave me their support. I believe that even the fair minded man who supported Mr. Middleton is bound to admit that I have fought a good fight and have kept the faith. While the leaders of the opposition have resorted to methods unbecoming a generous and fair citizenship, my spirit of retort and resentment induces me to say some hard things in reply to what has been said by the leaders of the opposing party, but my generous, and I hope it is my manly nature, causes me to refrain from this course, at least for the present.

To my enemies, I want to say, "Forgive them, Father, for they know not what they do." To the ladies all over the county who have showered their kind wishes upon me and my efforts to bring the people of our county from under the domination of boss rule, I want to thank you from the bottom of my heart, and I ask you to try during the next four years to instill into the minds of your fathers, husbands, brothers and sons, a spirit of loyalty first, to themselves; second, to their mothers, wives, sisters and daughters, to obey the mandates of their Maker, and then the requirements of the laws of their State under which they live. Don't let them refuse or forget to pay each year the full demands of the law, including their poll taxes to date. And now to answer a question asked last week by the Editor of the Banner, I want to say the real cause of our defeat on last Tuesday was failure of Democrats to pay their poll tax and register and thereby became disfranchised, a sad condition to exist amongst a free and enlightened people. To say that the Democratic party is seriously effected by the result of our county would be error, for the old mill will go on grinding just the same. I can say further that I have as good representative as any man in Chilton county.

What a pity it is, however, that our laws governing elections were not the same as the recent pure food law, that is that each man that is elected must be branded as he really is, If so, I feel sure way down deep in the heart of my opponent you could read the little word "Democrat." I feel sure his aged and much respected sire has turned in his bed during the sultry hours of the past summer nights and frequently exclaimed "Would to God I had died for thee, oh Osmond, my son! my son!" And finally in January, 1907, when that august body of Alabama Democrats gather in the House of Representatives at Montgomery, among whom will appear the two unfaithful from Winston and Chilton, they will hear that awful sentence, "Depart from us, ye workers of iniquity, for we never knew you." Then there will be wailing and gnashing of teeth.

F. A. GULLEDGE.

P. S. I want to assure the Banner and the Democracy and general public of Chilton county that because of your indifference and lack of duty to your country, to yourself and your party, I, as a Democrat, was defeated, but my aim is high, my purpose is lofty and I feel I am a better Democrat than ever before. So come on boys, and let us live up for the future and all will result well. Pure old-fashioned Democracy is right and that is now and will ever be my motto, which says the rule of the people, by the people and for the people. E. A. G.

THE LATE ELECTION.

Editor Banner—Responding to the invitation in your issue of the past week, the following observations are submitted:

1. The division and bitterness of feeling engendered in our county, by the Farmers' Alliance movement, coupled with the heated Kolb campaigns for the governorship, from interested personal motives, apparently, have been industrially kept alive by the political leaders of the opposition party to the Democrats.

It is said of Hamilcar, father of the celebrated ancient Carthagenian general, Hannibal, that when his son was young, as an expression of his hatred to his Roman adversaries, he took his boy to the altar of his heathen dieties, and caused him to take an oath of eternal enmity to his foes.

It would seem that in this day of Christian light and entelligence, the enemies of the Democratic party in this county are inspired by a like feeling actuating these heathen celebrities.

2. The opposition leaders by persistent misrepresentation and abuse of the Democratic party managed to keep their adherents solidified, and thus control them and reap personal benefit therefrom.

3. Indifference and lukewarmness were strong factors in contributing to the disaster which befell our party, as many qualified voters through these causes remained away from the polls

4. A considerable number who were entitled to registration failed to avail themselves of it, and thus largely aided the opposition.

5. Lack of organization on the part of the Democrats, and of a systematic, vigorous and aggressive campaign, also helped to bring misfortune.

The county is normally Democratic, and only requires intelligent work on the part of those managing our political affairs to reinstate us, in the position and influence to which we are entitled in the councils of the State. Under present conditions we are outside of the controlling element, and have no recognition in legislation or public affairs, except by suffrance, and occupy an attitude that is humiliating to every citizen who has a proper sense of county pride.

H. W. CAFFEY

Verbena, Nov. 12, 1906.

Why Rain Clouds Are Black.

The color of a cloud depends on the manner in which the sunlight falls upon it and the position of the observer. It will be noticed that high clouds are always white or light in color, and this is because the light by which they are seen is reflected from the under surface by the numberless drops of moisture which go to form the cloud. Heavy rain clouds, on the other hand, are found much nearer the earth, and so the light falls on them more directly from above, giving a silver lining to the cloud, though the undersurface appears black owing to the complete reflection and absorption of the light by the upper layers. Seen from above by an observer in a balloon, the blackest rain clouds appear of the most dazzlingly brilliant white.

Tennis and Lawn Tennis.

There are thousands who imagine that tennis and lawn tennis are identical. In America tennis, the mother game, is always known as court tennis, whereas lawn tennis is generally known as "tennis." The games are in many respects very different. The court, which in lawn tennis is open, in tennis is closed at the back and sides by the walls, and almost invariably above by a roof. There is a considerable amount of play off the back and side walls. The balls are harder than lawn tennis balls, being, in fact, of the consistency of cricket balls. Hence the rackets are heavier and the gut is thicker.—Fry's Magazine.

Songs and Sentiment.

It is a singular fact that in proportion to the wealth of melody of a nation so does its emotional side develop. Remarkable instances of this are to be found in the United Kingdom. In Scotland, Ireland and Wales, countries rich in national songs, the emotional nature is strong. In England, where the melodies, if sweet, at any rate are not so touching and appealing, sentiment is slight.—Liverpool Courier.

The History of Man.

The ecclesiastical authorities divide the history of man into six ages: First, from Adam to Noah; second, from Noah to Abraham; third, from Abraham to David; fourth, from David to the Babylonish captivity; fifth, from the captivity of Judah to the birth of Christ; sixth, from the birth of Christ to the end of the world.

Typhoid.

By boiling all the water and sterilizing all the milk and thoroughly cooking all the vegetables and killing all the flies the average person may become fairly immune from typhoid fever.

Envy In the Garden.

"I have done nothing but blush all day," complained the rose, "and still that idiot of a poet goes on talking of the modest violet, as if there were not others."

CIRCUIT COURT.

Fall term of Circuit Court convenes at Clanton, Monday, Nov. 26.

DeWitt's Kidney and Bladder Pills act on both kidneys and liver, and as a result afford the quickest relief from those troubles resulting from an excess of uric acid. Such trouble as rheumatism, back ache, sciatica, etc., are quickly relieved by a few doses of this modern remedy for the Kidneys. Sold by Upchurch Drug co.

Sunday School Convention at Corinth.

The annual Sunday School Convention of district No 5, was very successfully held at Corinth, November 11, The Corinth Sunday school is one of the oldest in the county being established over 30 years ago, the large crowd present gave conclusive evidence that the neighborhood and adjacent communities are very much interested in Sunday school affairs, The singing, which was very much enjoyed, was led by Mr A L Robinson with Miss Fannie Belle Robinson organist. In his report, the president, D S Robinson showed deep interest in the work and a clear understanding of what is essential to success, Mr Robinson's genial manner, his prompt management of the program, his easy comment and apt remarks make him a most effiencient presiding officer. The secretary reported 10 Sunday schools at work and 4 "resting." Representatives were present from Canaan, Salem, Friendship, Evergreen, Shady Grove, Corinth, Verbena Baptist and Methodist and Verbena Methodist Protestant. We were very glad indeed that the Methodist Protestant school was represented and regret deeply that through an oversight in making the list of schools this was not called on for a report. Talks were made by Messrs P M Jones, E L Manning, W U Strock, Cato Patillo, J A Jones, Joseph Mims, J L Long, Newton Calloway, Connell, T L Robinson and A Horn, of Thorsby, acting president of the County Association. In the afternoon a primary class was taught by Miss Gibson. The president and secretary were re-elected and Mr John Williams of Evergreen, was elected vice president. Mr. Cato Pattillo offered a resolution heartily enodrsed by the convention thanking the members of Corinth for their cordial hospitality and generous entertainment of the visitors, especially we remember the ladies who served an abundant dinner on the ground.

LILA MERRIWETHER.

Have You a Friend?

Then tell him about Ayer's Cherry Pectoral. Tell him how it cured your hard cough. Tell him why you always keep it in the house. Tell him to ask his doctor about it. Doctors use a great deal of it for throat and lung troubles.

The best kind of a testimonial—"Sold for over sixty years."

Made by J. C. Ayer Co., Lowell, Mass.
Also manufacturers of
Ayer's
SARSAPARILLA.
PILLS.
HAIR VIGOR.

We have no secrets! We publish the formulas of all our medicines.

One of Ayer's Pills at bedtime will hasten recovery. Gently laxative.

PROGRAM

Teachers' Institute, to be held at Rockymount School House, Dec 14-15, 1906.

9 a.m. Devotional exercises. Prof. R. A. Rasco.

10:15. Welcome address, T. B. Williams. Response, J. H. Anderson.

10:45. How should English grammar be taught to give best results? B. J. Sessions, Miss Lottie Johnson.

11:30. How to become a good reader. J. M. Parrish, Miss Turner Belle Mullins

12 Noon recess.

1 p.m. Value of mental arithmetic. G. L. Speer, Miss Ola Lee Jones.

1:45. Criticism of Alabama's adopted text books, P. G. Maness, Miss Stevonia E. Nash.

2:30 Some methods for improving the conditions of country schools, L. J. Thompson, W. A. Haggard

SATURDAY. 9 a.m. Devotional exercise

9:15. Value of thoroughness in school work, Miree Fuller, Miss Bessie Ellis.

9:45. Necessity of compulsory school attendance, William J. Lamkle.

10:30. What should be the aim of a teacher? R. A. Rasco, Marion J. Mims.

11:15. The evolution and comparative values of our social, moral and educational institutions, H. P. Self.

Committee—J. W. Moore, L. J. Thompson.

Rockymount is located five miles east of Jemison. There will be conveyance for all teachers going on train to Jemison. Those desiring conveyances will write Prof. F. B. Williams, Jemison, Ala. The law requires that all teachers must attend the county Institutes.

J. W. MOORE.

LINGERING COLD

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe chamberlain's Cough Remedy to be the best I have ever used" This remedy is for sale by Upchurch Drug co, Clanton. A. Horn, Thorsby.

At the Wrong Counter.

The lady who went to the book department of a big modern store and inquired for "Crabbe's Tales" was told that fish and provisions were on the ground floor.—Boston Herald.

A Deadly Weapon.

The gentle wave of a lace edged handkerchief has carried more poor fellows to their doom than the mighty breakers of the sea.—Exchange.

Reprove thy friend privately, commend him publicly.—Solon.

CHARM OF A CLEAR COMPLEXION.

Every one who wants a good, healthy color, a ruddy glow, and a complexion free from pimples and moth spots should try Laxakola tablets, mild, safe, sure, prepared from vegetables laxatives with a selective action upon the skin, 25 cents, Florence Drug co,

Letter to Mr M. S Johnson

Clanton, Ala.

Dear Sir: Some people get disappointed in painting; it doesn't come-out as they thought it would.

C B Edwards, of Edwards & Broughton, printer, Raleigh, N C, painted his house Devoe three years ago; he had used 30 gallons paste paint before and bought 30 gallons Devoe, Had 16 left.

Paste paint is extra-thick—with—white—wash.

Mayor W W Carrol, Monticello, Florida, says; My painter said it would take 35 gallons to paint my house; it took 20 gallons Devoe, His house is the best paint job in town; and he says Devoe is the whitest white of all white paints,

Jones & Rodgers bought 5 gallons Devoe to prime Mr Pratt's house at Merksl, Texas, It painted two coats,

The reason for nobody guessing little-enough Devoe is: they learned in a bad school: other paint,

Yours truly

12 F W DEVOE & CO

In every clime its colors are unfurled
Its fame has spread from sea to sea;
Be not surprised if in the other world,
You hear of Rocky Mountain Tea.
Upchurch Drug co.

It Might Have Been Worse.

Lydia—I'm just as mad as I can be with Charlie. He kissed me right before all the girls. Georgette—Well, isn't that better than if he kissed all the girls before you?

Experience is the great test of truth, and is perpetually contradicting the theories of men.—Dr. Johnson.

The best treatment for indigestion and troubles of the stomach is to rest the stomach. It can be rested by starvation or by the use of a digestant which will digest the food eaten, thus taking the work off of the stomach. At the proper temperature, a single teaspoonful of Kodol will wholly digest 3,000 grains of food. It relieves the present annoyance, puts the stomach in shape to satisfactorily perform its functions. Good for indigestion, sour stomach, flatulence, palpitation of the heart and dyspepsia. Kodol is made in strict conformity with the National Pure Food and Drug Law. Sold by Upchurch Drug co.

Rapid changes of temperature are h
on the toughest constitution.

The conductor passing from the heated inside of a trolley car to the icy temperature of the platform—the canvasser spending an hour or so in a heated building and then walking against a biting wind—know the difficulty of avoiding cold.

Scott's Emulsion strengthens the body so that it can better withstand the danger of cold from changes of temperature.

It will help you to avoid taking cold.

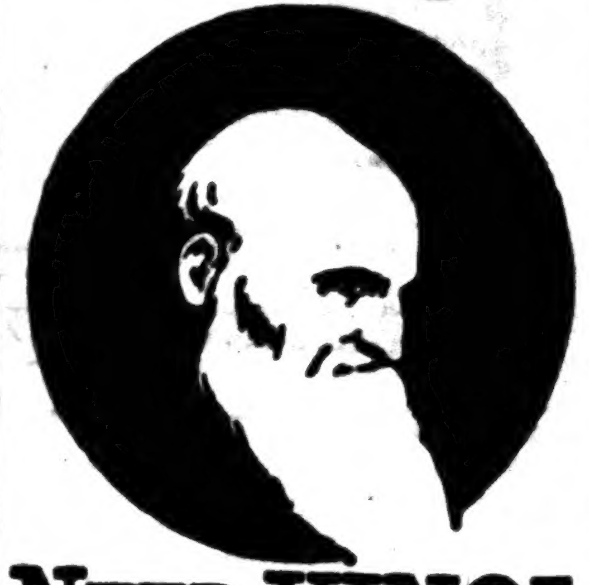
Old People



NEED VINOL

it strengthens and vitalizes

With old age comes feebleness and loss of power; the blood is thin and digestion weak.

Vinol repairs worn tissues and checks the natural decline. It tones up the digestive organs, aids assimilation, makes rich, red blood, and strengthens every organ in the body. In this natural manner Vinol replaces weakness with strength.

Vinol contains all the medicinal elements of cod liver oil in a concentrated form, taken from fresh cods' livers, the useless oil eliminated and tonic iron added.

Try it on our guarantee.

Upchurch Drug Co.

HOW TO BEAUTIFY YOUR SKIN.

The principal ingredients in Laxakola tablets are cascarin and dandelion, vegetable laxatives known to have a beneficial action upon the skin and complexion. Mild, safe, sure. 40 chocolate coated tablets, 25 cents, Florence Drug co.

A Reliable Remedy for Croup.

Mrs S. Rosinthal, of Turner, Michigan, says: "We have used Chamberlain's Cough Medicine for ourselves and children for several years and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by Upchurch Drug co., Clanton, A. Horn, Thorsby.

Doubtful.

Lady (in dry goods store)—And is this color also genuine? Salesman—As genuine as the roses on your cheeks, miss. Lady—H'm! Show me another one.—Kleines Witzblatt.

Just Badness.

Father—That kid ought to have a spanking! He's altogether too precocious; knows more than I do! Mother—But, dear, I wouldn't call that precocious.—Detroit Free Press.

Only the illiterate and the social elect can afford to treat the language recklessly.—Brainerd.

Made Happy For Life.

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus Dance, which yielded to no treatment, but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles effected a complete cure." Quick, sure cure nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by Upchurch Drug co. Price 50c.

The Word "Nice."

"Nice" is one of the exceptional words which have risen on the scale and improved with age. It is from the Latin "nescius" and originally signified ignorant. To Chaucer it regularly meant foolish—"wise and nothing nice." In Spenser's time it still meant effeminate. From general foolishness there was probably first a specialization to foolish fussiness about trifles. Then the idea of ignorance dropped out, and the word meant particular about details, accurate. It was creditable to be a "nice" observer or to show "nice" judgment. And so in the end the positively agreeable meaning of today was evolved.

A Savage Poison.

The juice of the green pineapple is accredited in Java, the Philippines and throughout the far east generally with being a blood poison of a most deadly nature. It is said to be the substance with which the Malays poison their kreeses and daggers and to be also the "finger nail" poison formerly in use among the aborigine Javanese women almost universally. These women cultivate a nail on each hand to a long, sharp point, and the least scratch from one of these was certain death.

A Good Liniment.

When you need a good reliable liniment try Chamberlain's Pain Balm. It has no superior for sprains and swellings. A piece of flannel slightly dampened with Pain Balm is superior to a plaster for lame back or pains in the side or chest. It also relieves rheumatic pains and makes sleep and rest possible. For sale by Upchurch Drug co., Clanton A. Horn, Thorsby.

TAX NOTICE.

SECOND ROUND.

The Tax Assessor and Tax Collector will attend at the following times and places for the purpose of collecting the State and County Taxes of Chilton County for the year 1906 and assessing the taxes for the year 1907:

Again or Yet?

Jones had come home about two in the morning. As soon as he opened the door his wife began upbraiding him for his conduct. Jones went to bed and when he was almost asleep could hear her scolding him unmercifully. He dropped off to sleep and awoke after a couple of hours, only to hear his wife remark: "I hope all the women don't have to put up with such conduct as this." "Annie," said Jones, "are you talking again or yet?"—Argonaut.

AWFUL SUFFERING

From Dreadful Pains From Wound on Foot—System All Run Down—Miraculous Cure by Cuticura.

"Words cannot speak highly enough for the Cuticura Remedies. I am now seventy-two years of age. My system had been all run down. My blood was so bad that blood poisoning had set in. I had several doctors attending me, so finally I went to the hospital, where I was laid up for two months. My foot and ankle were almost beyond recognition. Dark blood flowed out of wounds in many places and I was so disheartened that I thought surely my last chance was slowly leaving me. As the foot did not improve you can readily imagine how I felt. I was simply disgusted and tired of life. I stood this pain, which was dreadful, for six months, and during this time I was not able to wear a shoe and not able to work. Some one spoke to me about Cuticura. The consequences were I bought a set of the Cuticura Remedies of one of my friends, who was a druggist, and the praise that I gave after the second application is beyond description; it seemed a miracle, for the Cuticura Remedies took effect immediately. I washed the foot with the Cuticura Soap before applying the Ointment, and I took the Resolvent at the same time. After two weeks' treatment my foot was healed completely. People who had seen my foot during my illness and who have seen it since the cure can hardly believe their own eyes. Robert Schoenhauer, Newburgh, N. Y., Aug. 21, 1905."

Of the whole area of the globe only 5 1-2 per cent is capable of tillage.

Marion Harland.

The celebrated authoress, so highly esteemed by the women of America, says on pages 103 and 445 of her popular work, "Eve's Daughters, or, Common Sense for Maid, Wife and Mother:"

"For the aching back—should it be slow in recovering its normal strength—an Allcock's Plaster is an excellent comforter, combining the sensation of the sustained pressure of a strong warm hand with certain tonic qualities developed in the wearing. It should be kept over the seat of uneasiness for several days—in obstinate cases, for perhaps a fortnight."

"For pain in the back wear an Allcock's Plaster constantly, renewing as it wears off. This is an invaluable support when the weight on the small of the back becomes heavy and the aching incessant."

Zoos Are Expensive.

"I am sorry to say that most of the American cities are losing interest in the maintenance of their zoos," said Clyde Ainsworth of Lincoln Park, Chicago.

"Although the principal cities still keep their zoos in good condition, they find that it is a costly matter and the question of either abolishing them or leaving them to the care of private individuals has been discussed.

"Very few people realize the large amount of money required to run an animal garden, and even if the beasts are donated the expense runs into the thousands. Lions and tigers are very particular in their diet, and an elephant will eat only the finest straw. The monkeys require constant medical attention and many of them die each summer despite the care exercised.

"It cost the city of Chicago a trifle more than $12,000 to run the Lincoln Park zoo and pay the salaries of the keepers last season, and it is estimated that animals valued at $15,000 died during the year."—Milwaukee Sentinel.

If the oceans suddenlybecame dry it would take the rivers of the world about 35,000 years to refill the dry beds.

A cubic foot of mercury weighs 13,560 ounces, a cubic foot of lithium only 590 ounces. Lithium is the lightest solid known.

IT'S THE FOOD.

The True Way to Correct Nervous Troubles.

Nervous troubles are more often caused by improper food and indigestion than most people imagine. Even doctors sometimes overlook this fact. A man says:

"Until two years ago waffles and butter with meat and gravy were the main features of my breakfast. Finally dyspepsia came on and I found myself in a bad condition, worse in the morning than any other time. I would have a full, sick feeling in my stomach, with pains in my heart, sides and head.

"At times I would have no appetite for days, then I would feel ravenous, never satisfied when I did eat and so nervous I felt like shrieking at the top of my voice. I lost flesh badly and hardly knew which way to turn until one day I bought a box of Grape-Nuts food to see if I could eat that. I tried it without telling the doctor, and liked it fine; made me feel as if I had something to eat that was satisfying and still I didn't have that heaviness that I had felt after eating any other food.

"I hadn't drank any coffee then in five weeks. I kept on with the Grape-Nuts and in a month and a half I had gained 15 pounds, could eat almost anything I wanted, didn't feel badly after eating, and my nervousness was all gone. It's a pleasure to be well again."

Name given by Postum Co., Battle Creek, Mich. Read the book, "The Road to Wellville," in pkgs. "There's a reason.

THE BOY.

I wouldn't be a single thing on earth
Except a boy;
And yet it's just an accident of birth
That I'm a boy.
And, goodness gracious! When I stop and think
That I once trembled on the very brink
Of making my appearance here a girl
fairly makes my ears and eyebrows curl—
But I'm a boy.

Just think of all the jolly fun there is
When you're a boy!
I tell you, you're just full of business
When you're a boy!
There's fires to build in all the vacant lots,
Go swimmin', tie the fellers' clothes in knots,
Tie tin cans on the tails of dogs—why gee!
The days ain't half as long as they should be
When you're a boy.

There's lots of foolish things that make you tired
When you're a boy!
There's heaps of grouchy men that can't be hired
To like a boy;
There's wood to chop at home and coal to bring
And "Here do this—do that—the other thing!"
And, worse than all, there's girls—O, holy smoke!
Are they a crime, or are they just a joke
Upon a boy?

And then, there's always somebody to jaw,
When you're a boy!
Somebody always laying down the law
To every boy!
"Pick up your coat; see where you've put your hat,
Don't stone the dog. Don't tease the poor old cat,
Don't race around the house"—why suff'rin Moses!
The only time you have to practice things like those is
When you're a boy.

And yet I don't believe I'd change a thing
For any boy;
You've got to laugh, to cry, to work, to sing,
To be a boy;
With all his thoughtless noise and careless play,
With all his heartfelt trials day by day,
With all his boyish hopes and all his fears,
I'd like to live on earth a thousand years
And be a boy.
—Chicago Record-Herald.

* * *

A MODEST YOUTH.

* * *

Young Cressenden arose after a sleepless night in a decidedly nervous condition. He shaved himself with particular care and chose from his wardrobe a dark tweed business suit that he thought would have a sober and substantial effect, and although rather addicted to color in his neckwear he contented himself on this occasion with a cravat of lustreless black silk, deciding that even satin would look rather too gaudy. Then he went down to breakfast and fortified himself with three large cups of black coffee. He tried to eat, but he could hardly force a mouthful.

An hour later Cressenden entered the office of the John Stollbenker Construction Company.

The office boy took his card into a private room and in a few moments he was facing Her Father.

"Glad to see you, Cressenden," said that august personage, cordially. "Sit down. How's everything?"

"Pretty well, thank you, sir?" said Cressenden. "How's everything with you? Is the family well?"

"Why, none of them has been stricken down in the night. You were in the house last evening, weren't you?"

Cressenden grew red. "Why—er—yes. Yes, certainly," he said. "I—er—I thought—"

"You didn't notice any distressing symptoms, I hope?"

"No, sir. Oh, no. I hope you and the fam—you are looking well.

"I make a point of it," said the old gentleman, swinging his chair around to face his visitor more directly.

"Mighty fine day," said Cressenden, nervously.

"It would be if it wasn't raining so confoundedly hard."

Cressenden was too pre-occupied to notice this remark. "I—er—suppose you are rather surprised to see me here this morning, he said. But, you see, you went to bed last night and—er—" He paused.

"Yes, that's another of my habits," said Mr. Stollbenker, cheerfully.

Cressenden laughed in a rather constrained manner at the joke.

"I hope that you weren't hurt because I went off to bed," said the old gentleman. "The fact is I was rather tired and I thought perhaps Katie could entertain you. I'm afraid she didn't succeed very well, though."

"It's about Katie—Miss Stollbenker," said Cressenden, with desperation.

"What is?" asked her father, with sudden sharpness.

"That I want to see you. I know that she's worlds too good for me—"

"Who is?"

"Katie."

"Do you mean to tell me that you have been making love to my daughter, young man?" asked Mr. Stollbenker, with severity.

"I know it seems like presumption," said Cressenden, humbly. "I know that I don't amount to anything particularly and that she is one of the loveliest, sweetest, noblest girls—"

"You admit that she is a rather superior sort of young woman?"

"I never met a girl that would come within a thousand miles of her," assented Cressenden, with fervor.

"And you don't amount to anything in particular, I think you said. But you came in here to ask my consent to an engagement?"

"I hoped that you might consent."

"You hoped that I might consent to give the loveliest, sweetest, noblest creature in the world—or one of 'em—to a man who by his own admission doesn't amount to anything in particular. I am to trust her future to a man who is unworthy of her—is that it?"

"I think I could make her happy. I know I would try," said the young man.

"You ask me to give my daughter to a young man distinctly unworthy of her. My answer is finally, unalterably, no."

Cressenden turned pale and took up his hat. "I was going to tell you something about my financial condition," he began, "but—"

"I don't want you to," said the old gentleman. "I took the trouble to find that out for myself some time ago. I also made some inquiries as to your character and habits and I supplemented these by my own careful observation. I may say that the result was highly satisfactory and if you had not assured me that I have been mistaken I might have consented."

Cressenden laid down his hat again and the old gentleman laughed.

"Another thing; Katie isn't any divinity," he said. "She's just a plain girl. I'm her father and I ought to know—and I'm mighty fond of her at that. In fact, I don't want to let her go. Still, if she likes you as well as she told me she did this morning I'm not going to block the way to any great extent."

"Then you do consent?" cried Cressenden, joyfully.

"Why, of course," said her father.—Chicago News.

BENGAL TIGER KILLS PYTHON.

Battle in the Storm on Deck of Steamship.

Any one who has never seen the biggest python ever brought to this country can find that snake on board the steamship Indrasamha, which arrived here recently from Yokohama, Singapore and other ports east of Suez.

Capt. Wilkes, master, says the snake is 27 feet long and 3 feet in circumference. No one took the trouble to measure him, but he looks every inch of the size the captain gave.

There were four other big pythons when the Indrasamha sailed from Singapore on July 19, besides a royal Bengal tiger that was the champion man-eater in those parts before he was captured and sold. He looks still as if his appetite might be good if he only had a chance to spread himself.

If it hadn't been for the tiger the five pythons would have arrived here intact. The tiger killed one of them last Sunday after a terrific battle.

Each of the pythons was in a separate box on the main deck amidships, and the tiger was in his cage not far away. Last Sunday the Indrasamha ran into a hurricane. It wasn't an every day affair by any means, but one of those that sailors tell about for years afterward, the kind where the seas tower mountain high on the weather bow and turn the decks into a regular Niagara when they break and spill their tons of green water on the quivering fabric as she labors barely able to keep her head to the sea; the kind that sweep aft carrying everything movable before them and end up by going overboard astern in a swirl that resembles the week's wash in a boiling caldron of soapsuds.

Anyway, it was blowing some, and the seas did come aboard. There was one particularly tall gray headed fellow that got over the side and kicked up old Nick. This sea hit the box of one of the pythons and the box turned over. The weight of the python did the rest, and before any one knew just what had happened there was some twenty feet of snake at liberty.

Now, the python didn't seem to know just what to do under the circumstances. There were other waves coming along, and while perhaps he did not have hydrophobia, he was averse to a wetting. The nearest place of safety seemed to be the tiger's cage, and the python made for that. Of course, there were members of the crew who could have told him, but the crew was busy doing other things just at that time. There are always things a well ordered crew may find to do when there is twenty feet more or less of snake crawling about the decks and the seas are rolling aboard mountain high.

But the royal Bengal didn't like the interloper, and as the python's head came through the bars he swatted it. The python came to in a minute or so and started for the tiger. The tiger kept his port and starboard forward paws as busy as Joe Gans, and it wasn't long before the python was out. Then the tiger pulled him into the cage and made his Sunday dinner on about six and a half feet of the snake. —New York Sun.

Standing Honors.

There may be more than one just cause for pride in the soul of the small boy at the close of his first day at school.

"How did you get on with spelling?" Bob's mother asked him. "You look so pleased, I'm sure you did well."

"No'm, I couldn't spell much of anything," admitted Bob. "And I couldn't remember the 'rithmetic very well, nor the joggerp'y."

The mother's face wore a look of disappointment, but Bob had reserved the choice morsel which was due to raise a sensible parent to heights of appreciative joy.

"But that's no matter, mother," he said, bestowing a bear's hug upon her; "the boys all like me, and I've got the biggest feet in the class!"—Youth's Companion.

Not Housekeeping.

"So you're married, eh? I hope you've got a good housewife."

"Well," replied the young benedict, "she's only been a fashionable hotel wife so far, and I guess she hopes to continue so."—Philadelphia Press.

TURNING CORN INTO PORK.

Bumper Crop More Likely to Affect Price of Hogs Than of the Cereal.

Grain men in the West who watched the price of corn sag down from fifty cents toward the low forties on the growing estimates of the crop are reported to have turned bullish again despite the fact that the private estimates that have come in since the Government figure of 2,780,000,000 bushels was made known are putting the total at 3,000,000,000 bushels and over. These speculators take their confidence from the experience of last year, which showed how the country in prosperous times can absorb a record crop.

Last year's corn output of approximately 2,708,000,000 bushels was taken up at prices that ruled more generally in the fifties than the forties, though, of course, a large percentage of the corn harvested was held by the farmers and dealers over the year in the vain hope that two big crops would not come in succession.

The ability of the country to take care of so much of this grain has small relation to the consumption of cornpones and hominy, and very little depends upon the export demand. It is the great American hog that takes care of the bulk of it, and the ability of the people to take up the pork supply is the chief factor in making the price of the cereal. It can be estimated to a bushel just how much corn it takes to make a hog fit for market, and a very direct reaction of the price of one on the other is the result.

The general prosperity of the country is the measure of the pork consumption, and the packers look forward this year to making a new record in this as in all kinds of meat sales, packing house scandals notwithstanding. One of the greatest factors in the prospective consumption of pork and of corn, too, is the unprecedented prosperity in the South, where there will be no lack of "hog and hominy" this winter. A large part of these staples will have to come from the outside markets, for the small farmer of the Southern States is reported to have neglected to grow enough for home consumption in his attention to cotton.

Even the export trade in pork products in expected to grow, now that the excitement following the Reynolds report has somewhat subsided. How great this foreign demand for hog products is, compared with the raw grain, is seen in last year's export returns, which show that, while the corn exported amounted to 88,807,223 bushels, pork products, including ham, bacon, pork and lard, footed up to 1,209,777,731 pounds.—New York Times.

Three Admirals and a Fool.

Here is one of the tales told by officers of Dewey's fleet of Manila, of the late Admiral Chichester, who was then a captain: On one occasion Admiral Diedrichs, the German, sent out the Irene on an unrevealed errand, and without the customary notification to the commander of the blockading fleet. Admiral Dewey had suffered, he thought, sufficiently from that sort of thing, and so he sent a vessel across the Irene's bows and notified her captain that she would not be permitted to depart without a statement as to her destination. It was not Admiral Diedrich's mission to quarrel with both the American and the English fleets, so, on critical occasions, he sought to find out Captain Chichester's purpose in case of a collision. Going on board Chichester's ship, he angrily exclaimed, "Did you see what Dewey did to my ship?"

"Yes," replied Chichester.

"What would you have done if it had been an English ship?"

"Well," said Chichester, conveniently assuming that the Irene's captain had sailed without orders from Diedrichs, "I'd have put my captain in arrest, and then I'd have gone on board the Olympia and apologized to Admiral Dewey for having such a fool in command of one of my ships." —Harper's Weekly.

Chinese Paper Fans.

The almost universal use of fans in many parts of China gives rise to an important industry. In Nanking some 60,000 or 70,000 people are employed in the work of making paper fans. Hardly any machinery except that of the simplest kind is used at present, but enterprising foreigners are investigating the possibility of supplanting hand-work by machinery. Doubtless machines could be devised which would reduce the demand for fan-makers to less hundreds than there are now thousands employed in Nanking, but what would happen to the displaced thousands? That is the burning question in China.—San Francisco Chronicle.

A Beetle's Strength.

A correspondent in the current number of Nature gives a very remarkable illustration of the strength of a beetle. A specimen of "Aphodius Fossor," which is about half an inch in length, having flown in at his window, he put the lid of a tin box over it, but the beetle walked about bearing the lid on its back. He then put the tin box on the top of the lid, and was absolutely amazed to find that the insect tilted up a corner of the combined box and lid, and nearly escaped. The weight of the beetle when dead was half a grain, alive it may have been a little more; but the box and lid weighed 1756 grains. The feat is compared to a man lifting a tolerable large house without any assistance, and the strength it implies is gigantic.—London Globe.

FROM GIRLHOOD TO WOMANH

Mothers Should Watch the Development of Their Da
Interesting Experiences of Misses Borman and

MATILDA BORMAN
MYRTLE MILLS

Every mother possesses information which is of vital interest to her young daughter.

Too often this is never imparted or is withheld until serious harm has resulted to the growing girl through her ignorance of nature's mysterious and wonderful laws and penalties.

Girls' over-sensitiveness and modesty often puzzle their mothers and baffle physicians, as they so often withhold their confidence from their mothers and conceal the symptoms which ought to be told to their physician at this critical period.

When a girl's thoughts become sluggish, with headache, dizziness or a disposition to sleep, pains in back or lower limbs, eyes dim, desire for solitude; when she is a mystery to herself and friends, her mother should come to her aid, and remember that Lydia E. Pinkham's Vegetable Compound will at this time prepare the system for the coming change, and start this trying period in a young girl's life without pain or irregularities.

Hundreds of letters from young girls and from mothers, expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them, have been received by the Lydia E. Pinkham Medicine Co., at Lynn, Mass.

Miss Mills has written the two following letters to Mrs. Pinkham, which will be read with interest:

Dear Mrs. Pinkham:— (First Letter.)

"I am but fifteen years of age, am depressed, have dizzy spells, chills, headache and backache, and as I have heard that you helpful advice to girls in my writing you."—Myrtle Mills,

Dear Mrs. Pinkham:— (Second

"It is with the feeling of that I write to you to tell you valuable medicine has done for me. wrote you in regard to my consulted several doctors, but they understand my case and I did any benefit from their treatment. your advice, and took Lydia E. Vegetable Compound and am and well, and all the distressing which I had at that time have Myrtle Mills, Oquawka, Ill.

Miss Matilda Borman writes Pinkham as follows:

Dear Mrs. Pinkham:—

"Before taking Lydia E. Pinkham's table Compound my periods lar and painful, and I always dreadful headaches.

"But since taking the Compound aches have entirely left me, my regular, and I am getting strong am telling all my girl friends what Pinkham's Vegetable Compound me."—Matilda Borman, Farmington

If you know of any young is sick and needs motherly her to address Mrs. Pinkham Mass., and tell her every detail symptoms, and to keep nothing She will receive advice absolutely from a source that has no rival experience of woman's ills, and followed, put her on the right strong, healthy and happy

Lydia E. Pinkham's Vegetable pound holds the record for the number of cures of female ills medicine that the world has known. Why don't you try it?

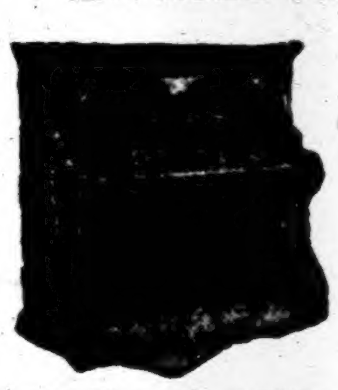
Do You Want to Own a Piano?

ANY HOME CAN HAVE ONE AT $10 PER MONTH



This Piano, or any of the other fifteen well-known makes we handle, such as CHICKERING, KRANICH & BACH, IVERS & POND, KRELL-FRENCH, McPHAIL, and EVERETT, will be placed in your home, no matter where you live, on a FREE TRIAL. If found to be perfectly satisfactory, then you make your first payment. Do you know of anything fairer? Ask for Catalogue No. 4.

A NEW PIANO, PERFECT AND FULLY GUARANTEED, FOR
$200

Many a Piano Agent has talked a good family into purchasing a $300 Piano, out of which he pocketed his commission. If you wish to save this commission, we can give you a very fine Piano at a very low price.

For eighteen years we have been engaged in supplying the public with first-class Pianos. Our instruments have always been selected with great care, and at no time have we ever offered a Piano that we could not fully recommend. We now have an instrument that we will put into any home for $200, warranted for five years. This Piano has a very handsome case, and can be had in all the popular woods to match your furniture; large size, with a rich, musical, singing tone. The expense of making a really good Piano has been so great that we have never before been able to offer anything like so good a value for $200, and no other house is doing it.

He who will protect labor against itself will be forced to combat with evil men among those whom he wishes to uplift. But while a man may with less timidity advance new thought in the scientific world, in no place will he find, many times, a more uncompromising resistance than in the church. Be it for good or ill the simple fact is this, that nowhere has new light a harder fight than among many who are the followers of Him who was the essence of all truth and who prayed the gift of the Spirit for them that they might have a sure guide into the fullness of eternal wisdom. The fight of the church of God against truth is the amazing spectacle of the ages.

The odds against truth to-day are tremendous, but even as Ahab never returned to the city of his rule, so surely shall eternal and refining truth conquer in the age long struggle with the adversary.

Two things are necessary that truth may win and be accredited. First, we must be sure that our insight is correct, our truth born of God. And then we must be loyal to the voice of Jehovah as He speaks to us.

There is nothing more detrimental to the dignity and standing of the truth than irrational and ill-balanced thought. Every bit of truth is the word of God, but some statements which are caricatures of truth are not God-given, no matter how loudly and how long they may claim the distinction of divine inspiration. All truth may well be labeled, "thus saith the Lord," but all statements that bear the motto, "thus saith the Lord," are not truth. There are false prophets to-day no less than in the reign of Ahab. He who will declare a message to men must first be sure of his ground.

Not less important is it that a man be loyal to the truth revealed to him through the workings of God's Holy Spirit. Truth may negative most of his own ideas and cherished preconceptions. It may even subordinate his noblest ideals. But by it he must stand. Micaiah went to prison for the truth and Jesus of Nazareth to the cross. Stephen was stoned by his enemies, as was Zechariah, the son of Jehoiada, the priest, because he was faithful to the truth. John the Baptist lost his head for declaring that Herod had lost his. Luther withstood a church and the Smithfield martyrs suffered agony that truth might be supreme. The long list of heretics and excommunicated, the host of those who have lost life and friends, the army of those crusaders who, under God, have battled hard with sin—all testify to the need, the glory of loyalty to divine truth. It is no easy thing to lead in the march of progress or to fight the forces of evil. Conservatism would clutch progress by the throat and throttle it to the rattle. Sin hates the light and would overcome it.

But whether or no the opposition be fierce we need and must have men who will be firm for the truth and not flinch in the hot fight. "There is," we are told, "no more hazardous enterprise than that of bearing the torch of truth into those dark and infested recesses in which no light has ever shone." But to that man who, filled with power by the Spirit of the Lord, will speak what the Lord saith unto him there will be not only the hard warfare on the first line of the skirmish here, but the the crown of victory in the life eternal.

More and more the need is for men of the mold of Micaiah; men to whom the truth is more precious than much fine gold; men whose integrity is indivisible; men whose opinions are the judgments of minds that have been moved upon by the blessed Spirit of the living God, who cannot be bought, and who, filled with a high and a holy devotion to their divine commission as the revealers, interpreters and torch-bearers of God's illuminating truth will balk at no sacrifice; and be overawed by no opposition; and be diverted by no power from the declaration and the promulgation of that truth.

Oh, that there might arise throughout this land men of the vision and the fidelity of the prophets of ancient Israel. Would that there might arise among the ministers of the Lord today a prophet of Jahwe, Jehovah the Lord of hosts and of truth; a prophet with a message and with the power to express it tersely, intelligently, forcefully, fearlessly. May God give us a Micaiah who shall tell America the truth concerning the conditions of to-day. The people, in the church and out of it, are weary and undesirous of platitudes and of unaimed verbiage. Mankind awaits a prophet of God. And when he comes in the plenitude of wisdom and of power; furnished with a divine commission; endued with a mission and a message for a world in sin, may the church have the insight and the grace to see the marks of God's calling in him and in his message and not persecute him as did the fathers the prophets of God aforetime.

"As the Lord liveth, what the Lord saith unto me, that will I speak." May this be the motto of every man who loves the truth. May it be also our inspiration to fidelity and to a glorius ministry unto men in the name and to the honor of the living God. And may we live so near to God that we may be able to hear His message and to speak with immediate authority to men.

The Power Will Be Given.

When Cyrus captured Sardis, the only son of Croesus, who was dumb, saw a soldier ready to give the king, whom he did not know, a stroke upon the head with his scimitar. The son made such a violent effort to save his father by a word that he broke the string of his tongue, and cried out, "Soldier, spare the life of Croesus!" And so, if we love Christ and His cause earnestly, our tongues will be loosened.

Prospective Tenant—Is this a healthy neighborhood, landlord?

Landlord—Healthy! I should say so! In the last 10 years there have been only two deaths—the doctor and the druggist.—Fliegende Blaetter.

All the gold in circulation could be put in a room forty-five feet long, twenty-five feet wide and twenty-five feet high.

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherrybark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., of Cincinnati; Prof. John M. Scudder, M. D., of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable.

A booklet of extracts from eminent, medical authorities, endorsing its ingredients mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

A Happy Boy.

John S. Wise tells the following negro story in "Recollections of Thirteen Presidents:"

"I was fourteen years old when the great civil war broke out. Regarding my age when it ended, I was much in the condition of a little darky on a Virginia plantation. He opened the farm gate for a visitor to his master and scrambled up behind on the vehicle to ride to the great house. The visitor, impressed by his bright face and general precocity, looked back at him and said: 'You are a bright little chap, my boy. How old are you?'

"Grinning from ear to ear, the boy replied: 'I dunno, sir, 'xactly how old I is. Mammy says I can't be but fo'teen, but by the fun I is had I spec I must be 'bout twenty-five.'"

The only fish that never sleep are said to be the salmon, pike and gold fish.

The Arkansas "Razorback."

A man who had watched the affair aid claimed to know about hogs, razorbacks in particular, gave the following dissertation: "Arkansas has a greater variety of hogs and less pork and lard than any state in the union. An average hog in Arkansas weighs about fourteen pounds when dressed with its head on and about six pounds and a half with its head off. It can outrun a greyhound, jump a rail fence, climb like a parrot and live on grass, roots and rabbit tracks. It hasn't much tail nor bristle, but plenty of gall. It will lick a wolf or a bear in a fair fight. It is socalled razorback because it is shaped like a sunfish. In hunting razorbacks they are always shot at sideways, for there is not a ghost of a show to hit them otherwise, any more than to shoot at a split shingle. It can drink milk out of a quart jar on account of its long, thin head. This tpye of razorback is known as the stone hog, because its head is so heavy and its nose so long that it balances up behind. The owner of this type of hogs usually ties a stone to its tail to keep it from overbalancing and breaking its neck while running. If the stone is too heavy it will pull the skin over its eyes and it will go blind."—Mineral Wells Index.

"I Will!"

Patience—Her motto in life has been "I will!"

Patrice—And has she lived up to it?

Patience—She certainly has. She never said "no" to a marriage proposal in her life!—Yonkers Statesman.

Buzzards and vultures can scent their food at a distance of forty miles.

The roads of Great Britain cover a space of 362,000 acres.

A PUBLIC DUTY.

Montpelier, O., Man Feels Compelled to Tell His Experience.

Joseph Wilgus, Montpelier, O., says: "I feel it my duty to tell others about Doan's Kidney Pills. Exposure and driving brought kidney trouble on me, and I suffered much from irregular passages of the kidney secretions. Sometimes there was retention and at other times passages were too frequent, especially at night. There was pain and discoloration. Doan's Kidney Pills brought me relief from the first, and soon infused new life. I give them my endorsement."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

The Chariot of the Lords of the World.

Traveling in a motor car, apart from the rapid impressions which it conveys of "this amazing England," to quote Mr. Kipling, is one of the purest and most undiluted of human pleasures. The giant engine power, enclosed within so ridiculously small a space, hums with infectious melody; the air seems to wash the face that is driven through it as if it were some col and exhilarting liquid, the brain, compelled to register observations quickly, works with abnormal brightness and rapidity. Of the car, far more than of old Flaccus's racing chariot, is it true that terrarum dominos evehit ad Deos.

and frankly, in strictest confidence, telling all your troubles, and stating your age. We will send you FREE ADVICE, in plain sealed envelope, and a valuable 64-page book on "Home Treatment for Women."
Address: Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.
G 80

The Dark Side
of a woman's life is seldom seen by anyone but herself. What agonies, what misery, what fits of melancholy and the blues, the poor, miserable sufferers from female disease have to endure, one month after another! What wonder so many thousands of women cannot truthfully say that they are happy! Are you? Happiness cannot be called complete without health, and health is best obtained by
WINE OF CARDUI Woman's Relief
which has made many thousands happy in restored health and strength. "The doctors said I had nervous prostration, but gave me no relief," writes Lizzie Matthews, of Mt. Vernon, Ga. "I was sick for nine years. I could hardly eat and could not sleep. My back and hips ached, I was very irregular and would have to stay in bed two or three days. I have used 3 bottles of Cardui, and now I can say that my health is better than for the past nine years." Cardui relieves pain, regulates fitful functions, strengthens your weakest organs, makes you well and HAPPY. Try it.
At Every Drug Store in $1.00 Bottles

Wiped Out a Snake Colony.

Lew Seaman, who has charge of W. A. McCool's large grape fruit grove over on Steer beach, was in town Wednesday morning and related a very remarkable snake story, the truthfulness of which he vouches for.

He says Luther Warren, who also works for Mr. McCool, came suddenly upon a huge rattlesnake, which he proceeded to despatch by crushing its head. After killing the snake he called Mr. Seaman out to look at it. Noting that it looked unusually large around the body they decided to open it up and find what was responsible for its enormous size. Accordingly a slit was made with a knife in the thin portion of the snake's stomach, when to their surprise small rattlesnakes, about thirteen inches in length, began to run out, and in a few moments the ground was literally alive with them, wriggling and squirming about.

Seaman and Warren then indulged in a lively snake killing contest and when all were despatched and a census of the dead taken they found that 24 rattlesnakes had been killed—the one, which measured seven and a half feet in length, and twenty-three young ones.—Kissimmee, Fla., Valley Gazette.

The world moves. At Bulawayo, several hundred miles north of the Transvaal on the Cape to Cairo railroad, in the country where Livingston worked, they had a well attended agricultural fair.

$100 Reward. $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address

TYNER'S DYSPEPSIA REMEDY.

A Guaranteed Cure. Many Have Dyspepsia and Don't Know It.

The purchase price (50c) of Tyner's Dyspepsia Remedy will be returned if it fails to cure or relieve dyspepsia or indigestion in any form. Take as directed on label. Many people have fluttering of the heart, risings or pimples on the skin, dizzy feelings, aches and pains in the side or back, weak kidneys, constipation, belching of wind, blurred eyesight, tainted bad breath, hawking and spitting, headaches, acid stomach, pale skin, and don't know it's dyspepsia. If you have any or all of these symptoms take Tyner's Dyspepsia Remedy, and a cure is certain, sure and lasting. Tyner's Dyspepsia Remedy strengthens weak stomachs, helps digest your food, stops aches and pains, (stops colic immediatly) It tastes good and warms your stomach from the first dose. Cures where all else fail. Try it. Druggists, 50c a bottle. Sold in Clanton by Florence Drug store; call or write; remedy sent by express.

Breaking It Gently.

"Laura," said Mr. Ferguson, as he buttered a biscuit and passed his coffee cup for a second filling, "I don't miss anything, but after I had come in last night, about 11:30, I found the house had been broken into. Somebody had smashed a pane of glass in a basement window, crawled inside and made his way up the stairs to the first floor. There hasn't been anything disturbed in the pantry, the china closet or the sideboard, has there?"

"No," answered Mrs. Ferguson. "But, mercy, who could it have been and what do you suppose he wanted?"

"I suspect," he rejoined, clearing his throat, "that I—er—did it myself and that I wanted to get inside without disturbing anybody. You had all gone to bed, and I had left my latchkey in my other trousers. It will cost about 25 cents to repair the basement window. The weather man, I see, predicts possible showers for today."—Chicago Tribune.

Shooting From an Elephant.

The elephant's howdah is that bed of Procrustes, in which one can neither sit nor stand with any approach to reasonable ease, and in which a recumbent attitude is impossible, says Blackwood's Magazine. Its advantages are, first, that standing in it a man can shoot on every side of him; second, that it is convenient for the carriage of the occupant's paraphernalia—his guns on racks on either side, his ammunition in a trough in front, his other requisites in leather pockets here and there on the sides of the machine and his bed blanket on the seat—and, third, that in a hinder compartment an attendant can stand to hold that monstrous umbrella over his head, or when quick loading is required take from his hand the gun just fired and recharge it. These are the advantages. Otherwise the howdah is an abomination.

A Year of Blood

The year 1903 will long be remembered in the home of F. N. Tacket, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tacket's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completed restored and as time has proven permanently cured." Guaranteed for Sore Lungs, Coughs and Colds, at Upchurch Drug Co. Price 50c and $1,00 Trial bottle free.

Sheriff's Sale

By virtue of an execution issued out of the Circuit Court of Chilton county, and State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against F. E. Gronquist out of the goods, chattels, lands and tenements of the said F. E. Gronquist, I have levied on the following property, to-wit.

E ¼ of Se 1-4 Section 34, Township 23, Range 14; Nw 1-4 of Nw 1-4 Section 35, Township 23, Range 14; part of W ½ of Ne 1-4, Section 20, Township 23, Range 15; part of Se 1-4 of Nw 1-4 Section 20, Township 23, Range 15.

Therefore, according to said command, I shall expose for sale, at public auction, all the right, title and interest of the above named F. E. Gronquist in and to the above described property, on MONDAY, the 10th day DECEMBER, 1906, during the legal hours of sale, at the Court House door, Clanton, in Chilton county, Ala.

Dated at Clanton, Ala., this 1st day of November, 1906.

J. M. MORGAN, Sheriff Chilton county.

Notice to Creditors.

OF FIRST MEETING.

In the District Court of the United States, for the Middle District of Alabama, in Bankruptcy. No. 1905.

In the matter of J. T. Roper, Bankrupt. Post office Clanton, County Chilton, Alabama.

The aforesaid party having been adjudged a Bankrupt under the Act of Congress entitled "An Act to Establish a Uniform System of Bankruptcy throughout the United States," approved July 1st, 1898, a meeting of the creditors of the said Bankrupt is called at the office of the undersigned Referee, in the United States Court House, Montgomery, Alabama on the 14th day of November, next, at 10 o'clock a.m., to make proof of debts and for the election of a Trustee, and such other matters as are necessary and required by the Act of Congress aforesaid.

ASA E. STRATTON, Referee.

Montgomery, Ala., Nov 1, 1906.

This is Worth Remembering.

As no one is immune, every person should remember that Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Upchurch Drug co.

Pneumonia Follows a Cold

but never follows the use of Foley's Honey and Tar, It stops the cough, heals and strengthens the lungs and prevents pneumonia. Upchurch Drug co.

FOLEY'S KIDNEY CURE

WILL CURE YOU

of any case of Kidney or Bladder disease that is not beyond the reach of medicine. Take it at once. Do not risk having Bright's Disease or Diabetes. There is nothing gained by delay.

50c. and $1.00 Bottles.

For sale by Upchurch Drug Co.

TAKE NOTHING FOR GRANTED.

Make Florence Drug Co. Prove What Pepsikola Tablets do for Indigestion.

It stands to reason that Florence Drug co, would not come right out in these columns year after year and ask you to try Pepsikola tablets for indigestion if they were not pretty sure you would not receive decided benefit,

You can see that for yourself,

The remedy fails to cure every case of course they always pay your quarter back, should the tablets fail to do good.

Life is too short for misrepresentations of this kind, and for the small profit Florence Drug co, make on a 25 cent package it would be mighty poor judgment to induce you to make a trip to this store and then sell you something that would disappoint you,

If troubled with sour stomach, heart burn, wind belching, coated tongue loss of appetite, weakened energy, nervousness, fullness after eating or other stomach trouble, just try Pepsikola tablets on our say so, Our word for it, they will build up your energy, steady your nerves, improve your appetite, enrich your blood and put new life in your stomach as sure as this world,

The Siren of La Prensa.

La Prensa is the greatest and most influential paper in South America. Its offices are in Buenos Ayres, Argentina, situated in a magnificent building in the Avenida. This building is said to be one of the most imposing in the world. It has a tower crowned by a great golden statue of a young woman representing the Spirit of the Press. The proudest possession of La Prensa is a 5,000 horsepower steam operated siren. Whenever there is an appalling disaster—the death of a crowned head or other event of worldwide interest—whoop goes La Prensa's siren and is heard for a while throughout the city. The local government exacts a fine for this performance, $100 per minute, with a minimum of $200, and if the fine is not paid on the nail the charge is double, so when one man is sent to operate the screecher another is sent running with a two hundred dollar bill to the courts. The next operation is to drape the above referred to young woman's torch with red velvet in case of a catastrophe; with crape in the event of a death. All this causes the most extraordinary sensation.

A Real Celebrity.

The local pride of the natives of Cape Elizabeth, Me., is so intense that it takes the attitude of pity for all who have the misfortune to dwell elsewhere. This, says a writer in the Lewiston Journal, is known to regular summer visitors, and by most of them is respected. One rainy day a newcomer, who had joined the gathering in the store, composed of fishermen and summer visitors, ventured to enumerate some of the distinguished men who had come from Maine.

"There's Longfellow," he said, "and Hannibal Hamlin, and James G. Blaine. William Pitt Fessenden. Thomas B. Reed and"—

Here an old fisherman looked up from his work of splicing grass blades, and broke in. "Smart? Those fellows smart?" he questioned. "You just come down an' see Josh Pillsbury skin fish!"

Her Valuable Tip.

"Here's a letter from a woman," said the answers to correspondents editor, "who wants to know how to make a lemon tart."

"That's just like a woman," rejoined the snake editor. "Tell her if the lemon isn't tart to begin with she'd better consign it to the dump and let it go at that."—Chicago News.

Billiousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me I lost my usual force and vitality Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally.—MRS. ROSA POTTS, Birmingham, Ala. These tablets are for sale by Upchurch Drug co., Clanton, A. Horn, Thorsby.

$125 Reward.

The above reward will be paid on delivery of John Baker, colored, to the Sheriff of Chilton County, Ala., wanted for the shooting of W. A. Pool, April 14, 1906. Height 5 ft 8 in.; weight about 165 lbs.; age 45 years; black skin. J. M. MORGAN, Sheriff Chilton County, Ala.

Dairy and Food Commission's Report.

The Minnesota Dairy and Food Commission's analysis shows that Kennedy's Laxative Honey and Tar and Bee's Laxative Honey and Tar contained opiates and croton oil. Opiates are poison and croton oil is a violent poisonous purgative. Refuse to accept any but Foley's Honey and Tar in a yellow package. Foley's Honey and Tar contains no opiates or dangerous drugs and is the best cough and cold cure. Upchurch Drug co.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says:—"I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.

Bottles only. $1.00 Size holding 2½ times the trial size, which sells for 50 cents.

Three Kinds of Lightning.

Etruscans of old believed that were three kinds of lightning—capable of doing any injury, another mischievous in its character quently only to be issued with ent of a quorum of twelve a third carrying mischief in and for which a regular de required from the highest di in the Etruscan skies. Curi enough, modern scientific men with the view that there are kinds of lightning, but their vari differ from the Etruscans. The known as forked lightning and zigzag lines, the second as sheet because it is seen in a body, third as globe lightning, as it runs in the shape of a ball. latter variety is rather slow in

Republicans and Democrats.

old Republican party, founded Thomas Jefferson, had its most life during the twenty-four while Jefferson, Madison and were in the White House. During years it completely annihil opponent, the old Federalist which was the predecessor of present Republican party. John Adams, the sixth president of United States, who had a leaning Federalism, was elected by the of representatives (none of the having a majority of the vote) as a national Republican when Jackson came in four later it was as a Democratic It was during his time latter half of the name was and the party of Jefferson name of the Democratic party. not until 1854 that the present party assumed the name party of Jefferson and Jackson dropped a quarter of a century.—St. Louis Republican.

MAKE MONEY.

Here is an interesting study: Make out a list of all the people you know, and estimate the amount of money each one earns in a year. Total it up. The amount will be surprisingly large. Now, of all these people, only the few who SAVE SOMETHING really MAKE anything at all. Simply earning money isn't making it; what slips through the earner's fingers is finally "made" by somebody else. Don't forget to count yourself in on the list, and if you are not "making" money, begin now to save with us. One dollar will open your bank account.

CORRESPONDENCE.

Your stomach churns and digests the food you eat and if foul, or torpid, or out of order your whole system suffers from blood poison. Hollister's Rocky Mountain Tea keeps you well. 35 cents, Tea or Tablets. Upchurch Drug co.

Maplesville, Nov. 17, 1906

While it is warm and rainy this morning I thought it a good time to pay up my back dues. So I enclose it for the two years of good reading which I have enjoyed very much; please continue sending the Banner, for that is about the first question I am asked every Thursday night, "Papa, where is the Banner?" Hurrah for the Banner and the Democratic party

Yours truly, I M TIDWELL

Riderville.

The health of this community is very good. Mr. N. H. Rider's little daughter is very low with typhoid fever; she is in the infirmary at Selma, but the prayers of the people are that she will soon recover and return home.

Mr. Charley Sample, after seventeen years of suffering, passed over the river of pain and suffering Sunday night, Nov. 11. He is walking the streets of heaven now where there is no sorrow nor pain; may God bless the bereaved ones; may they live so as to meet him in heaven. W. W. Reynolds & Bros. are progressing nicely with their saw mill.

We have a fine school now, and is progressing nicely under the management of Prof. Haggard; he is the man that we have needed a long time.

We have a nice Sunday school now, but the last two Sundays the young folks have been dropping out; we want everybody to come out on the Lord's side and praise His name. God bless all of the readers.

S S STUDENT.

Clanton, Nov. 16, 1906

Dear Editor—Please allow me a space in the Banner to say a few words I sure do like to read the Banner, and I enjoyed reading Mr Jones' piece, which contained many things; I think if we all would read and consider that piece it would be a lesson to us. I read Miss Sims' piece and enjoyed it very much; I hope she will write again soon There is no piece like the one Mr Bone wrote, if everybody would write such pieces the Banner would be worth $5 more to everyone that reads it.

THE ONLY ONE.

A City on the Cliffs.

Precisely why the town of Bonifacio, in Corsica, is built to the sheer edge of the cliff which forms the sea frontage of that part of the island is a question always asked by the traveler who views Bonifacio for the first time, and he reiterates his question when he observes, upon visiting the environs of the place, that there is plenty of room for the town to have spread out in an inland direction. The early Corsicans apparently thought that farm land was worth more than city real estate and so crowded their dwellings to the dizzy edge of their 200 foot precipice. One's first impression is that these houses, with their walls on a vertical plane with the cliff, were purposely so situated that the body of a victim of a dark vendetta murder might be conveniently dropped out of the window into the sea beneath, with no one the wiser. Certainly there is a suggestion of romance and mystery in the aspect of the town. It forms, at any rate, one of the oddest sky lines in the world.

CLANTON ACADEMY

Possesses superior advantages to pupils of all grades, prepares them to enter the best colleges and universities, trains teachers to stand examination for any grade certificate, and qualifies them the better to fill a place in their profession.

L. J. THOMPSON,
Principal.

TO WHOM IT MAY CONCERN:

Notice is hereby given that at the next ensuing session of the Legislature of Alabama a bill will be introduced to provide for an additional Judicial Circuit for the State of Alabama, to be composed of the counties of Autauga, Elmore, Chilton and Montgomery, and for the withdrawal of said counties from their present circuits; to provide for the temporary appointment of a judge and solicitor for said circuit; and for their salaries; to regulate the duties and residence of the solicitor; to provide times of holding court in said circuit; to confer chancery jurisdiction on said Circuit Court as to matters arising in Autauga, Elmore and Chilton counties, and to provide for Registers in Chancery therein; to provide for the removal of the pending causes, and remaining of pending appeals to the new court; to regulate the convening of grand and petit juries in said circuit; to authorize the judge of said circuit to adopt reasonable rules of practice to facilitate the business of the court.

CHAS. H. TEASLEY.

Dancing Proves Fatal.

Many men and women catch cold at dances which terminate in pneumonia and consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared. Refuse any but the genuine in a yellow package. Upchurch Drug co.

We have secured the agency for Orino Laxative Fruit Syrup, the new laxative that makes the liver lively, purifies the breath, cures headache and regulates the digestive organs. Cures chronic constipation. Ask us about it. Upchurch Drug co.

Greasy Ridge.

I am sure there is going to be a wedding soon, for the fragrance of orange blossoms is in the air and we can hear the faint sound of wedding bells down the road. I will tell you who 'tis if you will not tell, or who I guess 'twill be. It's Mr. B. W. T. or T. W. B and Miss B. A. or An. B. So you see I have guessed all around and am sure I have guessed who 'twill be. If you will look over the license column next week, you will see that it will contain two B's. Success to the Banner.

I GUESSED IT.

FOR SALE

150 acres of good farm land, well improved; two good settlements, with 120 acres in cultivation, only three miles from Clanton. Will sell part or all. Will give terms. Call on me. T. C. MARCUS, Clanton.

Pletcher.

THE BANNER.

Published Weekly

CLANTON, ALA.

Birmingham, Ala.—The inquiry which is being conducted in the federal court into the present mental condition of Alexander R. Chisolm former paying teller in the First National Bank, of Birmingham, whose trial, under a series of indictments charging him with embezling the funds of the bank while employed there, was suspended during the inquiry, as resumed Saturday morning.

A recess had been taken Friday afternoon. Judge Jones entered the court and took his seat on the bench a few moments after the hour appointed. The doctors who had been summoned by the government were not inattendance and caused a little delay.

The proceedings in court Saturday began with the examination by the government of Dr. Cunningham Wilson as a medical expert on Chisolm's physical and mental condition. The defendant folowed with the testimony of Mrs. Chisolm, defendant's mother, and also the testimony of John Chisolm, brother of the defendant. Dr. Dabney was introduced to prove that he had treated the defendant during an attack of typhoid fever.

The government folowed by offering the testimony of the deputy marshals who had Chisolm in charge after his arrest, and also W. P. G. Harding, president, and John H. Barr, vice-president of the First National Bank, and Arthur R. Forsyth, assistant cashier of the First National Bank.

Big Cement Plant.

Selma, Ala.—Friday afternoon and Saturday the Winona Portland Cement Company, composed to a large extent of Selma capital, completed its arrangement for the erection of an up-to-date plant at Epes, in Sumter county. The capital stock of the company is $1,000,000, all of which has been subscribed. The plant will consist of five kilns, and will have a capacity of from 1,500 to 2,000 barrels per day.

It will be completed and in operation by February, 1908. The papers of incorporation were filed in Sumter county on November 14. The entire list of officers has not been completed, the president and secretary being yet to be elected.

A. G. Parrish, president of the City National Bank, whose interest is responsible for the formation of the company, has been acting as provisional president. At the meeting held in this city the following officers were named: J. P. Weatherbee, Waynesboro, Miss., vice-president; Houston Armstrong, Selma, treasurer; George W. Cater, Jr., Meridian, assistant treasurer; W. N. Vaughn, G. W. Cater, Jr., J. F. Hooper and N. Waller, directors.

The property owner near Epes is said by competent authority to be among the finest in the country.

Freight Trains Collide.

Montgomery, Ala.—As a result of a head-on collision of two Louisville and Nashville freight trains near Flomaton Spencer Barnes, the negro fireman of the train going to Florida was painfully injured.

J. E. Dickerson, of this city, was engineer of this train, but escaped injury.

The two trains were not running fast, or else there might have been some fatalities.

Barnes was brought to Montgomery and Dr. J. L. Gaston, the railroad physician, examined him at the union station. He was sent immediately to St. Margaret's Hospital, where it is reported he is resting easy. The extent of his injuries are not known, as he appears to be suffering from internal pains.

Switch Plant to Move.

North Birmingham, Ala.—It is quite probable that within the next few months the Kilby Frog and Switch Company will move its plant in Anniston to this city, thus doubling the capacity of the branch already located here, and calling for a large increase in the number of workmen.

May Cancel Contract.

Centreville, Ala.—At the session of the court of county commissioners the contract with O. T. Grimes, as hirer of county convicts for Bibb county, was cancelled. It is probable that the county convicts after January 1, 1907, will be awarded to the Hunnicutt-Neal Lumber Company, of Vick, as the members of the court of county commissioners are opposed to the county convicts being carried out of Bibb county.

Child Burned to Death.

Bessemer, Ala.—A deplorable accident occurred at Woodstock, in which the 2-year-old child of Lucile Jackson a negro woman, was burned to death. The child was playing around the fire, and in the absence of its mother got too close to the grate and her dress ignited. Her screams attracted the mother, who rushed her child's assistance, but the injuries it had received caused its death.

New British Ambassador.

Mr. Lowther, the British Minister to the Island of Crete, will succeed Sir Mortimer Durand as British Ambassador at Washington, D. C.

Shortage of $61,500.

St. Louis, Mo.—The federal grand jury returned an indictment against Receiving Teller D. P. Dyer, Jr., son of United States Attorney D. P. Dyer, in connection with the shortage of $61,500 in the local sub-treasury.

The charge against Dyer is embezzlement. He was arrested by the United States marshal and released on bond in the sum of $10,000.

The federal grand jury was convened on Wednesday and at once began inquiry into the shortage of $61,500. When the injuiry was adjourned thirty-three witnesses had been examined. Soon after the grand jury was convened Saturday morning a report of its finding was made to the court.

Dyer was not taken into custody immediately, as it was stated that a capias would be issued and he would then be taken into custody by the United States marshal.

Friendly in Tone.

Washington, D. C.—Ambassador Wright has supplied the state department with editorial extracts from one of the more important Japanese newspapers, which he says reflects the views of the government in relation to the friction in San Francisco growing out of the refusal of the school board to admit Japanese pupils in the public schools. The articles are remarkably moderate and friendly in tone making it appear that the trouble is extremely local, and that it cannot in any sense be permitted to hinder the growth of closer relations between America and Japan. They also indicate a desire on the part of the Japanese to enter into a reciprocal treaty with America to strengthen the commerce between the two countries.

Fire Started by Robbers.

Walker, Mo.—Robbers here started a fire that destroyed six of the best business buildings in Walker to cover up the robbery of between $2,000 and $3,600 belonging to the Bank of Walker.

On Monday last robbers wrecked the safe of the bank with dynamite, getting away with close to $2,000, and the bank officials were forced to place in the safe of a neighboring store what money was left by the robbers.

The robbers, believed to be the same gang that committed the first robbery cleaned out the safe, set fire to the building and escaped.

To Calm Stockholders.

New York.—Directors of the Standard Oil Company met and decided to issue to stockholders, along with the dividend notice, a brief statement setting forth that the management believes it has acted honestly and legally, and reassuring stockholders that in the opinion of the board there is no cause for alarm.

It was stated that the whole matter has now been taken before legal tribunal and the Standard Oil Company has made no reply to the charges, nor is it intended to do anything that could be misconstrued as discourteous to the administration. The company's full answer, it was said, would be made at the proper time and place.

Lives Saved by Rescuers.

Terre Haute, Ind.—Effective work on the part of the rescuing party saved the lives of at least seven or eight workmen entombed by a cave-in in a deep well at the plant of the Indiana Distilling Company on the Wabash river front.

When the cave-in occurred seven of the men were at work at the bottom of the well. They were covered by the drop of earth.

One of the men will probably die Five others are badly crushed and cut.

Berlin.—Ambassador Tower presented S. N. D. North, James L. Gerry and Nahum I. Stone, the Washington officials who were designated by Secretary Root to confer with German officials regarding fariff complaints to Count Posadowsky-Wehner, secretary of state for the interior, who cordially received them.

Womack Gives Bond for Appearance.

Jackson, Miss.—Green Womack, the Simpson county planter who was indicted by the federal grand jury for peonage, was before Commissioner Mosely and gave a thousand dollar bond to secure presence at the next term of court. He strongly denies guilt.

Sam Jones' Son to Enter Ministry.

Atlanta, Ga.—It is definitely announced that Robert W. Jones, second son of the late Rev. Sam P. Jones, will enter the ministry and will apply to the North Georgia Methodist conference at its coming session for admission. He was a convert of his father's last meeting at the tabernacle in Cartersville, and since that time it has become known that it was his intention to follow in his father's footsteps.

Augusta, Ga.—For the past two months there has been a deal on by the Armour people to establish a plant here, and the final plans have been closed up. The plant will mean an outlay of some $100,000 at once, and it is estimated that the weekly pay roll will amount to at least $5,000.

The factory will be in charge of J. Lee Ethridge, and the annual output of the factory will be something like $500,000 worth of fertilizer.

ALABAMA'S PRICE

Rossiter of Census Bureau Says This State is Worth Exactly $965,014,361.

REALY AND IMPROVEMENTS HALF

Live Stock Is Valued at $50,746,958. Railroads and Equipment Worth $150,211,000.

Washington, D. C.—"What is the state of Alabama worth?" Chief Clerk Rossiter, of the census bureau, was asked. The inquiry was prompted by the recent issue of a bulletin placing the total wealth of the United States at nearly one hundred and seven billion dollars.

"Alabama is worth just $965,014,261, he replied. "In other words nearly one billion dollars would be required to buy the state from Gasque on the gulf to Doran's cove, way up near the northeast corner."

The chief clerk was asked for particulars and gave the following figures: Real property and improvements, $446,747,512; live stock, $50,746,958; farm implements and machinery, $10,215,443; manufacturing machinery, tools and implements, $42,287,488; gold and silver coin and bullion, $35,095,727; railroad and their equipment, $150,211,000; street railways, telegraph and telephone systems, Pullman and private cars, shipping, canals, water works and electric light and power, $32,599,511; all other $196,974,622.

It should, of course, be understood that the above are estimates. The census bureau officials have used every effort to make them as accurate as possible. The chief clerk, in explaining these figures, as well as those of the United States in its entirey, laid especial stress upon the fact that inflation figures were not used. Necessarily, the figures by states cannot be expected to be anything like as accurate as those of the total country. There are too many ramification enterprises of one state which extend into another. All in all, however, the estimates given are thought to represent very accurately the value of everything in the state of Alabama from the clothes we wear, embraced in "all others," to the value of the biggest corporation in the state.

Want No More Sponsors.

Gulfport, Miss.—Resolutions to dispense with the sponsors and maids of honor at reunions of United Confederate Veterans were adopted by the United Daughters of Confederacy in convention here.

The resolutions were introduced by Mrs. Carrington Mason, president of the Sarah Law chapter, of Memphis. Tenn. She offered them, she said, in behalf of more consideration for the veterans. The reunions, she said, apparently are no longer for the entertainment of the veterans, but rather for entertainment of the sponsors and maids of honor. The large sums raised by the hostess cities, she said, are expended to give the sponsors and maids the best hotels, while the veterans are lodged in vacant hotels and bedded on cots.

The Georgia division reported that subscriptions are pouring in for a monument to Keeper Wirz, of the Andersonville prison, who was convicted and hanged without trial by federal authorities, and who was afterward vindicated.

One thousand dollars annually was pledged the Arlington monument movement.

Rain Hail and Wind.

Memphis, Tenn.—A heavy rain, hail and wind storm swept the greater portion of West Tennessee, North Mississippi and East Arkansas Saturday, causing a number of washouts on railroads entering the city. The Southern railroad near Rossville is washed out at several places. With the possible exception of the Louisville and Nashville trains are delayed on all roads. Considerable minor damage was done to telephone and telegraph wires and shade trees. Telegraphic communication to the west is practicable only as far west as Earle, Ark.

Insurance Company Knocked Out.

Louisville, Ky.—The Insurance Field received advices that the German Insurance Company, of Freeport, Ill., has reinsured its business with the Royal Insurance Company, of Liverpool, England. The German sustained losses in the San Francisco conflagration approximating $7,000,000, and since that time has been in negotiation with organized policyholders for a settlement at 60 cents on the dollar.

Abe Attell Wins.

San Diego, Cal.—Abe Attell was given the decision over Billy Decoursey at the end of the fifteenth round It was Attell's fight from start to finish. Decoursey was outclassed, but he made a plucky showing. His blows, however, when they landed, were too light to do damage. He took plenty of punishment and his face was raw and bleeding severely several rounds before the fight came to an end.

More Elasticity.

Washington, D. C.—Secretary Shaw of the treasury department, autorized the following statement on the subject of the proposed currency legislation:

"In his previous reports Secretary Shaw has recommended currency legislation, but has never recommended any particular plans to the exclusion of others. He has remained in the cabinet largely in the hope of securing some legislation on the subject, but he has not and will not recommend details of legislation. This is the province of congress. The secretary will be pleased beyond measure if congress will adopt every detail of the plan recommended by the recent committee of bankers and business men. He thinks congress will have no difficulty in working out a plan satisfactory to all, though in detail meeting the wishes in every particular of no one man. If it shall undertake to add an elastic feature to our present currency system the secretary has no doubt of favorable results in short order. That such legislation is imperative he thinks recent treasury experience makes apparent. In his report he will strongly urge that something be done, and may suggest several methods for the consideration of congress."

Dead in Prison Cell.

Seattle, Wash.—Mrs. Maud Creffield, held in the King county jail as an accomplice in the murder of George Mitchell in the union station July 12, died sudenly in her cell.

Esther Mitchell, who shot her brother, was in the same bed with Mrs. Creffield when the latter was stricken. Deputy Coroner S. F. Wiltz believes the woman died from heart failure. Maud Burt Creffield was the wife of "Joshua" Creffield, who was shot by George Mitchell, who believed that Creffield had maltreated his sister, Esther. Esther later shot her brother, George. She and Mrs. Creffield were arrested for the crime, both women confessing that they had done it to avenge the death of "Joshua."

Annual Report Made.

Washington, D. C.—Brigadier-General W. P. Hall in his annual report for the department of the gulf, with headquarters at Atlanta, Ga., devotes much space to the subject of coast artillery. He says the redistribution of the coast artillery is of pressing importance, and earnestly recommends with a view to the greater economy in administration better discipline and signally increased efficiency that would surely result from the concentration of these troops in many posts.

General Hal recommends that the coast artillery troops be sent to the camps of instruction, where as infantry they would serve with infantry cavalry and field artillery, thereby gaining a knowledge of field exercise and of camping and caring for themselves.

Black Hand Bomb.

New York.—Hundreds of panes of glass were shattered, several doors were blown from their hinges and hundreds of persons clad only in night clothing rushed into the street in a panic when a bomb was exploded in the hallway of a tenement house at No. 33 Stanton street. That the perpetrator of the outrage was an agent of the Black Hand Society is the theory of the police. They also believe that Pietra Realmutto, an Italian, who had a delicatessen store on the ground floor of the Stanton street house, was the intended victim of theo utlaws.

Realmutto has told the police that he has received numerous letters from the Black Hand demanding money.

Will Sell Cotton.

Jackson, Miss.—Warden Henry has been instructed to assemble all cotton from the convict farms at Clarksdale at once, and it will be sold on the open market. Fifteen hundred bales are ready, and as much of the long staple is expected to bring over a hundred thousand dollars.

A movement in favor of Walter Clark, head of the Mississippi division of the Southern Cotton Association for national president to succeed Harvie Jordan, has been inaugurated here In an interview Governor Vardaman gives the suggestion unqualified endorsement and says, "He is pre-eminently fitted and qualified for this position." Mr. Clark is not a candidate, however, having other business interests.

Sixty Thousand Acres Sold.

Jackson, Miss.—It is stated officially that the Goodyears, builders and owners of the New Orleans and Great Northern railroad, have purchased what is known as the Herrick timber lands, some 60,000 acres, north of Jackson. This means the extension of the Goodyear road up to the valley of the Pearl, from here to Carthage and across the state to Columbus. The price paid is given at over half a million dollars.

Cotton Cargo on Fire.

New Orleans, La.—The steamer Custodian, with 20,500 bales of cotton, arrived at the mouth of the Mississippi river with her cargo on fire in hold No. 3. The captain wired to New Orleans that the fire had been burning two days, but that he has it under control now with steam. The Custodian left here November 14 for Liverpool.

LEAVES ISTHMUS

Roosevelt's Panama Visit Is Concluded—Goes to Porto Rico.

TOWN OF COLON INSPECTED.

Then the President and Party Embark on Battleship Louisiana and the Squadron Sails Northward.

Colon.—Owing to the recent heavy rains a landslide has occurred between here and Panama, compelling President Roosevelt's train to make a detour. The landslide occurred at Faraiso, a station on the railroad southeast of Empire, and not far from the Culebra cut.

All street traffic was suspended here at 10 a. m., and remained so up to 4 p. m. in view of the president's inspection of the town of Colon, the American hospital and other places.

After a reception at Cristobal the president embarked on the flagship Louisiana and left for the north Saturday evening. He expects to arrive at Ponce, Porto Rico, on Wednesday. After landing there he will cross the island in an automobile, and will embark at San Juan Thursday for Hampton Roads.

The Louisiana, Washington and Tennessee coaled Friday in the Chiriqui lagoon.

President Roosevelt reached Cristobal Saturday afternoon.

The presidential party took breakfast at Mount Hope, where there is a large reservoir supplying water to Cristobal. When he reached the railroad station at Colon President Roosevelt went up stairs into the Panama railroad offices, whence he reviewed the Cristobal fire brigade.

After the exhibition President Roosevelt mounted a horse and, accompanied by Chief Engineer Stevens and other canal officials and secret service men, galoped over the entire town. The president was cheered everywhere.

Most of the president's time at Cristobal was devoted to an inspection of the quarters of the laborers. He talked to some of them and made note of their complaints, which were chiefly on the scarcity of West Indian food. The president promised that improvements such as the erection of baths and kitchens and the paving of streets would be made. When at the commissary President Roosevelt said he saw no reason why the canal commission should not be able to sell West Indian provisions at the same prices as were being charged by outsiders.

Saturday evening a reception and ball was given on pier No. 11 at Cristobal in honor of the president.

Destructive Storm.

Birmingham, Ala.—Reports received by the Southern train dispatcher at 3 o'clock Sunday morning tell of a severe storm raging in East Mississippi. At 2:30 o'clock, the last report from Columbus, stated that a terrific wind hadd estroyed half of the town of Winona and had advanced eastward to West Point, doing damage there, and was at that time being felt in Columbus. Then all communication was lost with Columbus, the dispatcher stating that his wire had gone down up to Oakman, Ala. forty miles east of Columbus.

As far as can be learned the storm originated around Mabin. It was reported also that it seemed to be headed for Meridian.

Another Rurik Launched.

Barrow-on-Furness, Eng.—The Russian cruiser Rurik, named after the cruiser sunk by the Japanese in the straits of Korea in August, 1904, was launched here. She is of 15,200 tons, heavily armored and is expected to steam twenty-one knots.

Platt Hold On.

Buffalo, N. Y.—The Evening News publishes the following from United States Senator Thomas C. Platt:

Edward H. Butler, Evening News, Buffalo:

Question of resignation I will discuss hereafter. Am not considering it seriously now. T. C. PLATT.

Secretary Taft Returns.

Washington, D. C.—Secretary Taft who has been on a trip of inspection of some of the western army posts, has returned to Washington.

Fire at Johns.

Bessemer, Ala.—The store of Culpepper & Burgess at North Johns was destroyed by fire. The building was well stocked with a full line of general merchandise, all of which was lost. A partial insurance was carried.

Will Not Resign.

Chattanooga, Tenn.—The American representative on Senator Frazier and asked him as to the basis of the eport that he would resign. Here is his reply:

"It is absurd. I am astonished the American would ask such a question. Of course I will not resign. Why should I? I would not dignify the query with an answer."

After Two Years.

Buffalo, N. Y.—Francis W. [illegible] one of the principal figures in the Storey Cotton Company failure in Philadelphia in 1905, was arrested [illegible] the lobby of the Genesee Hotel. Marrin disappeared from Philadelphia [illegible] March 17, 1905, when the postoffice department raided the Storey Cotton Company and since then he has [illegible] in Europe. He came back to America but a few weeks ago, and the vigilant postoffice authorities have kept [illegible] nearly two years ended with his arrest.

Marrin arrived in Buffalo three [illegible] ago. He registered at the Genesee [illegible] der the name of James Johnstone. [illegible] J. Dicker, postoffice inspector at Washington, had been tracing Marrin's movements since his return to Washington, and Inspector Cortelyou, who has charge of the Philadelphia district, came to Buffalo to get his man.

"It's all off," was Marrin's [illegible] ment when the officers located him and placed him under arrest. Later he consented to waive extradition. [illegible] not want an attorney and said he wanted to get back to Philadelphia as soon as the inspector would take him there.

Sure to Ty Again.

New York.—After bidding farewell to many of his friends at the Waldorf-Astoria, Sir Thomas Lipton boarded the steamer Carmania and sailed for England. Before Sir Thomas went aboard the steamer he said that he had practically made up his mind to issue another challenge for the America's cup.

"I came here this time," Sir Thomas said, "with one purpose in view—that was to pave the way, if possible, for another challenge to the New York Club for the cup, and I shall go home with the feeling that my visit has not been a failure. There is the greatest probability that I shall challenge for the cup next year, the race to take place in 1908.

"The challenge will be under the new measurement of the New York Yacht Club.

"Fife will design the challenger. Still, I may decide to build two [illegible] and if I do Milne will plan the second."

Further Inquiry.

Washington, D. C.—Additional testimony is about to be taken by the interstate commerce commission into the alleged relations existing between railroads and the grain elevator companies and those alleged to exist between the railroads and coal and oil companies. The inquiry into the former is to be conducted under the terms of the LaFollette congressional resolution, and that into the latter under the Tillman-Gillespie resolution.

Interstate Commerce Commissioners Lane and Prouty are to go to Milwaukee, Minneapolis and Duluth to conduct the inquiry into the grain elevator business and Commissioner Clark to Denver and other western points to pursue the inquiry under the Tillman-Gillespie resolution.

Sixteen New Laws.

Chicago, Ill.—Members of the insurance commission, who have been in session for the last week drafting projected laws for the control of life insurance throughout the country, completed their work and adjourned.

Sixteen new laws have been drawn up, and it is believed by the commissioners that they will, if adopted by the various states, correct the greater part of the abuses in the management of life insurance companies. These laws will be introduced during next winter into the legislatures of thirty-seven different states.

L. E. Drake, the insurance commissioner of the District of Columbia, will submit the proposed measures to President Roosevelt in order that they may be mentioned in the forthcoming message of the president to congress.

Life Lost in Hotel Fire.

Dallas, Tex.—The Mabank Hotel at Mabank, Tex., was destroyed by fire and Abraham Mithall, of Dallas, a traveling man, was burned to death.

Think Three Have Perished.

Goldfield, Nev.—Three persons may have perished in a fire which destroyed the Hotel Goldfield—Judge J. [illegible] Ellis, of Denver, mining operator and broker; Mrs. Boellier, residence unknown; A. H. Heber, of Heber & Co., investment brokers.

Indianapolis, Ind.—David E. [illegible] rick, formerly auditor of state, was brought here from the state prison at Michigan City and released on bail. The supreme court granted him a new trial.

Wilmington, N. C.—An Atlantic Coast Line passenger and mail train leaving Wilmington for Charleston was wrecked at Lelan by a broken rail. Seventeen passengers were injured, none seriously.

Jackson County Gin Burns.

Scottsboro, Ala.—The large gin of Will Matthews, of Hollywood, six miles above this place, was burned together with 169 bales of cotton. Sixty bales of this cotton was the property of Mr. Matthews. The rest of it belonged to nearby farmers. The origin of the fire was an engine of a freight train on the Southern railway. No insurance.

After Two Years.

Buffalo, N. Y.—Francis E. Marri of the principal figures in the Cotton Company failure in Phila phia in 1905, was arrested here lobby of the Genesee Hotel. Ma disappeared from Philadelphia rch 17, 1905, when the posto partment raided the Storey Cott mpany and since then he has b Europe. He came back to Amer a few weeks ago, and the vigila office authorities have kept rly two years ended with his t.

Marrin arrived in Buffalo three d He registered at the Genesee the name of James Johnstone. W kel, postoffice inspector at Wash ton, had been tracing Marrin's vements since his return to Wash ton and Inspector Cortelyou, wh charge of the Philadelphia district to Buffalo to get his man. all off," was Marrin's only com when the officers located him placed him under arrest. Later consented to waive extradition, want an attorney and said h ted to get back to Philadelphia a n as the inspector would take him re.

Sure to Ty Again.

York.—After bidding farewell of his friends at the Waldorf Thomas Lipton boarded Carmania and sailed for Sir Thomas went the steamer he said that he made up his mind to another challenge for the Ame Cup.

I came here this time," Sir Thomas with one purpose in view—that to pave the way, if possible, for ther challenge to the New York for the cup, and I shall go home h the feeling that my visit has not a failure. There is the greatest bability that I shall challenge for cup next year, the race to take in 1908.

The challenge will be under the measurement of the New York Club.

Fife will design the challenger, I may decide to build two boats, if Fife-Milne will plan the second."

Further Inquiry.

Washington, D. C.—Additional testi ny is about to be taken by the inter te commerce commission into the eged relations existing between roads and the grain elevator com nies and those alleged to exist be en the railroads and coal and oil npanies. The inquiry into the mer is to be conducted under the ms of the LaFollette congressional olution, and that into the latter un the Tillman-Gillespie resolution. Interstate Commerce Commissioners ne and Prouty are to go to Milwau Minneapolis and Duluth to con the inquiry into the grain ele business and Commissioner k to Denver and other western nts to pursue the inquiry under the Tillman-Gillespie resolution.

Sixteen New Laws.

Chicago, Ill.—Members of the insur ce commission, who have been in sion for the last week drafting pro ted laws for the control of life in rance throughout the country, com ted their work and adjourned.

Sixteen new laws have been drawn and it is believed by the commis ners that they will, if adopted by various states, correct the greater t of the abuses in the management life insurance companies. These s will be introduced during next ter into the legislatures of thirty ven different states.

E. Drake, the insurance commis ner of the District of Columbia, ll submit the proposed measures to esident Roosevelt in order that they y be mentioned in the forthcoming ssage of the president to congress.

Life Lost in Hotel Fire.

Dallas, Tex.—The Mabank Hotel at bank, Tex., was destroyed by fire d Abraham Mithall, of Dallas, a aveling man, was burned to death.

Think Three Have Perished.

ldfield, Nev.—Three persons may e perished in a fire which destroyed the Hotel Goldfield—Judge J. M. is, of Denver, mining operator and oker; Mrs. Boellier, residence un town; A. H. Heber, of Heber & Co., vestment brokers.

Indianapolis, Ind.—David E. Sher k, formerly auditor of state, was ught here from the state prison at ichigan City and released on bond e supreme court granted him a new al.

Wilmington, N. C.—An Atlantic ast Line passenger and mail train ving Wilmington for Charleston as wrecked at Lelan by a broken rail eventeen passengers were injured ne seriously.

Jackson County Gin Burns.

Scottsboro, Ala.—The large gin Will Matthews, of Hollywood, six miles bove this place, was burned, together ith 169 bales of cotton. Sixty-six ales of this cotton was the property f Mr. Matthews. The rest of it be nged to nearby farmers. The cause f the fire was an engine of a freight rain on the Southern railway. No urance.

WOMAN'S REALM

Sunny Philosophy.

Patti recently gave this bit of sunny philosophy to an interviewer: "If there is the tiniest speck of blue in the sky, and there nearly always is, look for it, and that makes the whole heaven blue for me. I spend hours daily in the open air, walking or driving in an open carriage, and I accustom myself to bear extreme of summer and winter."

Happiness in Marriage.

It all comes around to one of two things. With all married couples who differ in habit, in taste, in opinion, in mode of life, if there is to be happiness somebody has to learn to give up, or give up minding that there is a difference. Either way is as good as the other. It is surprising how many things are not of any importance if one can only think they are not!—Mary Stewart Cutting, in Harper's Bazar.

Economy in Dress.

Now and then the most saving and self-sacrificing woman rebels against her own excess of virtue and has a really handsome gown. The great danger she then confronts is an extravagance worse than spending too much money—that is, the getting of a gown so sumptuous that she is afraid to put it on. Something handsome that is at the same time serviceable and economical is a velvet gown. This form is especially well suited to the American type, long of limb and free of movement. Prune is the color selected; ashes-of-roses is also good. Provide for two waists, thus making the one costume a complete equipment for all dress occasions. A clever device is to have the top section of the skirt forming the belt made separate. This can then be removed with the bodice adapted to outdoor wear, and for evening wear, with the evening bodice, one dons a velvet girdle, thus quite changing the appearance of the skirt.—Harper's Bazar.

Fashion's Dictums.

Elbow sleeves still reign, yet there are more of the long-sleeve models to be noticed than last spring. For the house, sleeves will certainly be short, and lace undersleeves will be worn in many instances. For street suits the longer sleeves, with detachable cuffs, so that they may be worn with the long gloves, will for the present be most popular. The newer sleeves are becoming; of medium size, they are so put into the armhole as to make the breadth of the shoulders seem greater, while the longer shoulder seam is still considered smart. Tucked and trimmed, the new sleeve is quite an intricate piece of work, but it must be admitted that it is a becoming style.

Fortunately, the fashion of wearing colored gloves is coming into favor, and the tan and gray ones are in great demand, so that it is to be hoped that the day of wearing long white gloves on all occasions will soon pass. The Biarritz and mousquetaire styles in tan and black are considered far smarter than the white to wear with street gowns.—From the Special Autumn Fashion Number of Harper's Bazar.

The Art of Happiness.

Mme. Sarah Grand has been explaining the art of happiness, says a cable dispatch to the New York World. London has taken her conclusions as pretty sensible philosophy. Incidentally it has enjoyed greatly her compliment to "smart" society. Here are some of the things Mme. Sarah said:

"Men understand the art of happiness better than women. A woman is penny wise and pound foolish. She denies herself, and makes herself miserable in her saving, while a man will have good sense and spend money on himself and make himself happy.

"At the moment happiness is to be found in the simpler and less expensive modes of life. The quiet entertainments of the poor are happier than the magnificent affairs of the rich, whose indifference and insolence to their guests is equalled only by the chronic state of irritation of their guests toward them.

"In 'smart' society—as it is called, to distinguish it from good society—there is no such thing as 'noblesse oblige.'

"When we say that life is not worth living we are taking the surest way to make it so."

The Woman Who Wears Well.

Writing in the Housekeeper about the kind of woman that wears best with a man, somebody says:

I claim that it is the little, clinging woman, with tears to be kissed away now and then, and soft arms to steal around your neck, whose brain isn't a structure that topples over yours, and who is content to reach up to your heart, literally and figuratively, and no further, who needs a fellow's love and strength and protection, who has a way of looking up to you that makes him feel big. He wants to be a better, cleaner, nobler individual for her sake—and somehow he wants to keep her free from even the knowledge of evil; she is a sort of holy of holies to him—and she gets the most of all the good in a man every time. A man doesn't tire, in my opinion, of a woman who always keeps him up to the best that's in him.

A woman who realizes that variety is the spice of life and that there is no one fonder of the spice than the great big boy whose heart she holds in her keeping—for it doesn't make much difference whether a man's head be bald or gray or what his years may number, if he is worth while at all, his heart is still the heart of a boy—and she recognizes the fact that it is as much her duty to keep that heart clean and wholesome, true to herself and to him, as it is for her to keep her house in order, and herself good to look at. In my opinion the successful wife is the one who, without noise of words, keeps her husband from missing "The Boys," and from wandering off into pastures new, where frisky flocks may ever be found, never too weary or tired or otherwise engaged to be entertaining or diverting. She is the woman you may count on not to shun the dark shade of the "For better, for worse" clause—she is the woman you want, and can count on as being near you when you are in pain—she is the woman who consoles and the woman who exalts.

RED DEVIL PROBLEM SOLVED.

Professor Finds Way to Prevent Autos From Bothering Horses.

This studious and learned little village, which exists because it is the seat of the University of North Carolina, does not like the idea of having its decorum disturbed by heathenish and very modern automobiles and is doing what it can to keep them out. The spectacled professors who walk the long, shady avenues in the afternoon have in the past been thrown into fits of indignation when an insane chauffeur speeded his car by and left behind a trail of dust and a prolonged whiff of gasolene.

And then the settled steeds that drew the comfortable phaetons of the professors' wives pricked up their ears and took fright at the very first glimpse of a white or a green or a red devil.

This last fact caused one member of the faculty, who is a village Alderman, to introduce and have passed an ordinance that makes it a misdemeanor for an auto to exceed a speed of four miles an hour in the corporate limits. The maximum speed for vehicles is six miles an hour.

"Why did you make it four miles for automobiles?" the professor Alderman was asked.

"For this reason," he replied. "If a vehicle sees one of them coming it has the chance to turn, whip up and keep easily out of its way without violating the law, and if it hears one of them coming, why, of course, it can also whip up and keep out of its way by driving straight ahead."

The ordinance is proving a success. —Chapel Hill correspondence of the New York Sun.

The World's Wheat Crop.

The world's cereal harvest of 1906 cannot fail to prove one of the greatest ever produced. The wheat crop is above the average in the north of France, but it has suffered from drought in the south and west. France will need to import very little if any wheat. Spain has reaped a good harvest generally, while Germany has good crops of barley and oats as well as of wheat and rye. Austria-Hungary will produce a much much larger wheat crop this year than last. In Russia the winter wheat crop has been officially reported to be a good one, while the more important spring wheat crop is poor in all but a few provinces. Roumania is now expected to produce a record wheat crop, and Servia and Bulgaria have good crops. The Canadian wheat harvest will not prove very abundant. India's wheat crop harvested last spring was the greatest one ever known.—London Economist.

Regularity of Commercial Panics.

It is true that these great commercial panics recur at fairly regular intervals, as a rule once in every twenty years? Are periods of commercial distress, and, therefore, the intervening periods of prosperity, thus separated? The fact seems incontestable. Our own country's record fixes the years 1837, 1857, 1873 and 1893 as the dates of our greater panics. England's record is 1825, 1844, 1866 and 1890. In each case the twenty-year interval is preserved with reasonable accuracy. It will be observed that the "panic years" in England were not the same as in the United States. Our commercial distress of 1893 and 1873 reacted, no doubt, on London, as the acute foreign troubles of 1890 and 1866 recoiled on financial New York. But the result was never a panic of the first order in the market indirectly affected.—Atlantic.

Imbibed Boarders.

Teacher—"Have you looked up the meaning of the word imbibes, Fanny?"

Fanny—"Yes, ma'am."

"Well, what does it mean?"

Fanny—"To take in."

"Yes; now give me a sentence using the word."

Fanny—"My aunt imbibes boarders!"—Roseleaf.

FOR THE FARMER AND STOCKMAN

The Difference in Cows.

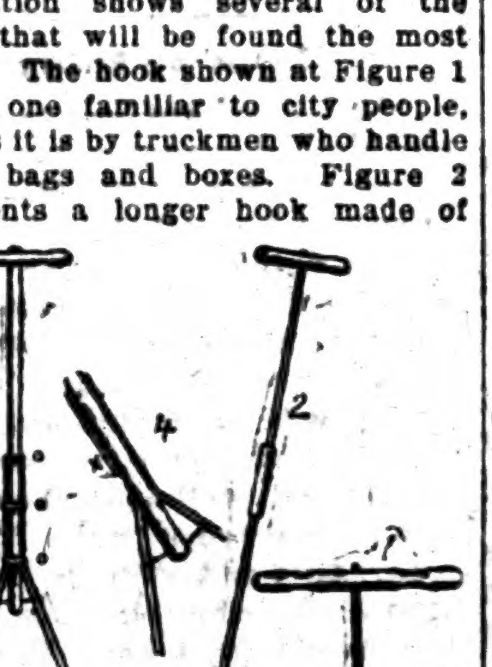
At the New Jersey station every cow in the herd was tested carefully, with records for a complete year. The result shows the great difference in cows fed on equal amounts of food. The best cow gave 8303 pounds of milk and the poorest cow only 4413 pounds. The best cow produced fat equal to 405 pounds of butter, and the poorest cow 202 pounds. Here is a statement which represents the value of milk that will interest all:

	At 1 cent per lb.	At 3 cents per qt.	Cost of feed.
Best cow	$83.03	$114.26	$42.34
Poorest cow..	44.13	60.74	42.34
Average cow.	63.14	86.89	42.34

What a margin between the best and the poorest! One paid a little profit, even with milk at two cents a quart; the other hardly paid for her food, to say nothing of other expenses. Here is a clear case of robber cow, and there are thousands like her.

Some Convenient Hooks.

Where there is more or less hauling of bags of grain or other bulky articles on the farm a number of hooks attached to handles will be found exceedingly useful. Several hooks may be formed by the local blacksmith at small cost and any one of them will earn all it costs in the labor saved in a single lesson. The illustration shows several of the hooks that will be found the most useful. The hook shown at Figure 1 is the one familiar to city people, used as it is by truckmen who handle heavy bags and boxes. Figure 2 represents a longer hook made of iron with a sharp hook end and a short handle of wood; a piece of hardwood is fastened around the middle of the bar of iron which permits one to get a firm grip with the other hand. Figure 3 represents the double hook fastened to a handle of o, o, o. Figure 4 shows the details of construction of the hook 3, the manner of flattening the ends of the iron rods and fastening them to stout handle by rivets, if so desired. A indicates a stout wire run through small auger hole near end of handle and securely wrapped around rods to give strength and firmness to the fastening.—Indianapolis News.

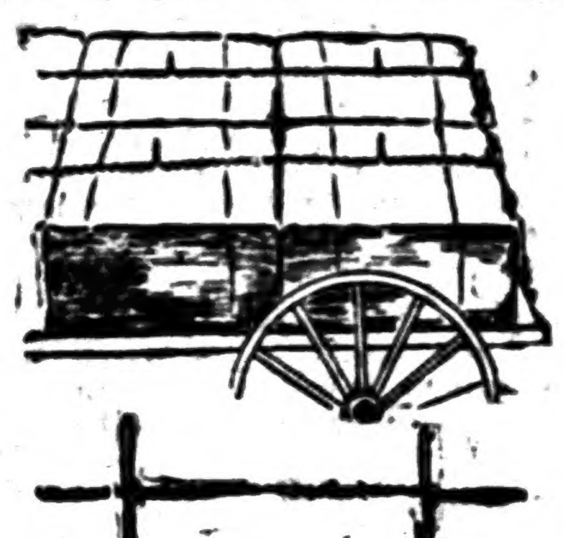


Root Borers.

Squash bugs that pass the winter as adults remain in the field until nearly the end of July. The eggs upon the leaves are more abundant then than at any other time, early in August the disappearance of the adults becoming noticeable, freshly laid eggs not being so numerous. During August, however, the adults of the new generation become abundant, but do not lay eggs, hence there is but one brood of squash bugs each year. When autumn frosts appear, some of the bugs are still immature, and congregate upon the unripe fruit, where they suck the juices, many thus being able to become adults during the mild autumn days. In winter they are concealed beneath fallen leaves, stones, logs, boards, etc., remaining dormant until the warm days of spring, and fly to any squash plants that may be up, finding their food, as it seems evident, by the sense of smell. A number of bugs will congregate on a leaf and cause it to dry up, and this dead portion may vary from a primrose gray to a dark brownish-black. The bugs are generally present for work as soon as the young plants appear. Later on in the stage of growth of the squash plant the root borer and fungus appear. A sudden wilting and drooping of the plant characterizes the attack of the root borer, which is believed to be the larva of the striped beetle. The plant may be thrifty in the morning and dead at night. When attacked by fungus the leaves begin to dry up at the margins, the plant turns a dark green, dried-up blotches appear on the leaves and the plant dies without wilting. Many remedies have been resorted to. The squash bug, like nearly all insects, is attacked by parasitic flies. The squash bug secretes an odor which repels toads to a certain extent, hence the toad will consume them only when very hungry. The bug is also subject to some fungus disease, which has not been identified, but it has not been very seriously damaged through such source.

Carting of Baled Hay.

So much baled hay is now carried, even in farming districts, that some device for fastening it to the wagon so it will not shift will be welcomed. Farmers who are obliged to cart baled hay over rough roads often feel as if their load had been greased, it slips around so. Have several pieces of hard wood or iron, sharpened at both ends, and after putting on one layer of the baled hay take a stout rope and tie one of the sharpened stakes into it so that it may be pressed down into the hay, leaving the other sharpened point sticking up, on which the next layer of hay will rest. A few ropes and a few sharpened stakes (have the stakes about eighteen inches long) will secure a heavy load of baled hay so that it can not possibly slip, no matter how much it is jolted. The illustration gives the plan so plainly that any one can catch the idea.—Indianapolis News.



THE MELAMMED SCHOOL.

After the Half Past Three, Jewish Children Must to It Go.

"Please, ma'am, teacher, I cannot stay after the half past 3. I must to the Melammed school go."

"The Melammed school? Where is it?"

"On Judd street, teacher."

"What kind of a school? Like this school."

"Oh, no, teacher, ma'am, a Melammed school."

"What is a Melammed?"

"Melammed, he is a teacher, not like you, though. He is a man teacher. He teaches in his own house, except in the big school. We all go there after school here every day."

"What do you learn there?"

"Hebrew and Yiddish and the Talmud—you know the Talmud?—and the prophets and English some."

"Who go to the schools?"

Fifty-two hands were instantly raised. Fifty-two voices chorused. Order restored, Bennie continued:

"All the children. When they are not already six, they go all day. When they come to the public school, they go after school. When they are fourteen they work, but maybe they go by night."

More than one hundred and fifty of these schools are in the district that spreads from the river west to Halsted street and from Taylor street south to the railroads tracks, the territory embraced in the Ghetto of Chicago. The daily attendance ranges from ten in the smallest schools to 500 in the largest.

The children, straight from the public schoolroom, cannot but contrast the comparative comfort and beauty of the place they have left with the discomfort and ugliness of the religious school. The latter is the closest association with religion, and a writer in The World To-day declares that religion, already responsible for the two conditions most bitter to them, poverty and lack of power, suffers by the contrast.

One of the Family.

"Are you the editor that takes in society news?" inquired the caller, an undersized man, with a tired and timid appealing look on his face.

"Yes, sir," replied the young man at the desk. "I can take in any kind of news. What have you?"

"Why, it's this way," said the caller, lowering his voice. "My wife gave a small party last night, and I am willing to pay to have this report of the affair put in the paper."

"We don't charge anything for publishing society news," observed the young man at the desk, taking the proffered manuscript and looking it over.

"That's all right," was the reply. "You don't understand. I wrote this up myself, and I put in a line or two that says, 'Mr. Halfstick assisted his distinguished wife in receiving the guests.' That's the way I want it to go in, and I don't care if it costs a dollar a word. I want my friends to know, by George! that I still belong to the family."—Harper's Weekly.

Shot an Angel.

Now and again we hear of strange and rare birds being shot in England, but how many sportsmen except Mr. Wells' clergyman can claim to have shot an angel? One such a man exists, though it is doubtful whether he is proud of his skill. It was night time and he was passing Crayford parish churchyard with his gun over his shoulder when he saw what he took for a ghost. He leveled his piece and fired, but his aim was wild. He had failed to wing his quarry. Investigation showed that the ghost was a sculptured angel on a tomb, and he had shot off one of its toes!—London Chronicle.

SOUTHERN ◆ FARM ◆ NOTES.

TOPICS OF INTEREST TO THE PLANTER, STOCKMAN AND TRUCK GROWER.

Applying Lime on Red Clay Land.

R. W. M., Knoxville, Tenn., writes: "Will it pay to burn lime to bring up the soil in this section of the State? I have two kinds of soil—a red clay, and a darker s , with slate subsoil. I have limestone at hand and could burn it at a reasonable cost, but would like your opinion before building the kiln."

Answer—It is rather a difficult problem to determine the degree of activity in a soil correctly, but experience seems to indicate that there is much more land of and acid reaction than seems probable on the first consideration of the subject. In fact, the continued cultivation of the land seems to favor the development of an acid condition of the soil. The presence of red sorrel is also an evidence of acidity. You can test the acidity of the soil with a fair degree of success by the use of a piece of blue litmus paper. Take a handful of the soil two or three inches from the surface, pulverize finely, moisten well with water and insert the litmus paper in it and leave for a few moments. If it turns red it is an evidence that the soil is acid, and under these conditions it should pay you to use lime. Lime may be applied at the rate of 500 to 3000 pounds. A good application is 2000 pounds per acre. The cheapest lima to apply to the land is probably that which is freshly burned and allowed to slake. It may be distributed over the ground with a manure spreader or a lime spreader machine. Lime should be applied to the surface of the ground and worked in with a harrow. It is probable that both kinds of your soil will be benefited by an application of lime. Lime, of course, is not a fertilizer in the sense of supplying a large amount of plant food to the soil. It is more of a corrective of soil conditions. It overcomes the acid condition already mentioned, sets free stores of potash and phosphates that may not be in an available form, changes the mechanical condition of the soil, makes clay soils more porous through the plocculation of the particles of which they are composed, and enables the growth and development of certain forms of bactorial life essential to crop production. Lime thus has many important and useful effects on the soil, and if used in moderate amounts and not oftener than every third or fifth year, it should not injure the soil. If used continuously it will cause soil exhaustion or the burning up of the humus or organic matter in the soil.—Knoxville Tribune.

Making Home Lot Attractive.

When we bought our old place in 1891 there was not a shingle on the house, which was very old-fashioned. Everything about the place looked hopelessly "gone to seed." We could see great possibilities in both house and surroundings, and went to work to transpose both house and land into an ideal, ruralistic, simple, unpretentious home, with delightful surroundings. The house, built in 1848, stands about seventy feet from the street. The lot is 255 feet front by 1320 feet deep. There is a privet hedge in front the full length of the frontage, planted six years ago. We cut it twice a year and well down to the ground.

There were thirty very old apple trees on the place. These we turned into objects of beauty by pruning and shaping, resulting in a profusion of blossoms and a bountiful yield of fair fruit. We have added over 100 fruit trees to the place, including cherries, plums, pears, peaches, apples, crabapples, quinces, etc., most of which are bearing. Have quite a collection of semi-tropical trees and shrubs, also a flowering hedge, 200 feet long, of shrubs six to twelve feet high. We have a "friendship bed" 125 feet long by five feet wide, containing no end of choice, hardy plants given to us by numerous friends. A summerhouse is always a thing of beauty. On it are two very large Crimson Rambler rose bushes, four varieties of honeysuckles and one large Yellow Rambler. One cannot imagine a more charming picture throughout the summer and way into the autumn. We have a strawberry patch fifty by seventy-five feet, an asparagus bed thirty by seventy-five feet, also a hedge of blackberries and raspberries, roses galore of every known variety, and heavily bearing grape vines of Niagara, Moore's Early, Diamond, Clinton and Isabella, besides one huge wild vine which we do not prune. We have a large kitchen garden and grow everything except cabbage, turnips and potatoes, and what we cannot use we give to our neighbors, friends and the poor.

To produce all these things means plenty of well-rotted manure, lots of spraying, hoeing and eternal vigilance. All love to dig in the dirt, and what we as a family of three cannot acomplish is turned over to the man of all work. We call our place "Nature's own gymnasium." We are very healthy, happy, sleep like children and digest every morsel we put into our stomachs. In fact, it is heaven on earth.—Progressive Farmer.

Importance of Cooling Milk.

Probably the most important precaution that can be taken with milk is to cool it as quickly as possible after it is drawn, says Farming. At a temperature of sixty degrees F. and lower the germs grow but slowly. Ordinarily spring or well water has a temperature of betwen fifty and sixty degrees F. If the farmer has an open water supply, he also has a refrigerator that is cooler than the ordinary ice box. If the cans are lowered into the spring or well as soon as possible after milking, the milk will be cooled before the germs can have time to begin their growth. The proof of the effectiveness of the plan is seen on country milk routes where on the morning rounds, evening's milk that has been cooled in this manner and warm morning's milk are carried in separate cans. Customers demand the warm morning's milk as a guarantee of purity, and yet the cold evening's milk invariably keeps the better.

If the germs in milk that is produced under ordinary conditions are killed within two or three hours after milking, the milk will keep well and may be used for nearly all purposes. In order to kill the microbes it is not necessary to boil the milk. A temperature of 180 degrees F. sterilizes it from all but a few rare germs and at the same time leaves it as palatable as fresh milk. In some creameries ordinary farmer's milk is run through a thin pipe, one end of which is hot and the other end cold. Within half a minute the milk is heated and then cooled. Such milk is safe and wholesome. Doubtless this method of treatment will be increasingly used. The principle is the same that is applied in canning fruit. If the milk were sealed against new germs it would keep as well as condensed milk.

Leghorns vs. Mongrels.

1. Fifty White Leghorns were compared with fifty mongrels for one year as to cost of food and egg production, ordinary care and attention being given them such as they would receive on the average farm.

2. In addition to skim milk used to moisten the mash the Leghorns consumed sixty-one pounds of food costing eighty-five and three-tenths cents, and the mongrels consumed sixty-eight and eight-tenths pounds of the same material costing ninety-two and one-tenth cents.

3. During the year the Leghorns laid 116.5 eggs worth $2.25 per hen, and the mongrels ninety-six and one-tenth eggs worth $1.78 per hen.

4. The Leghorns gave a profit over the cost of food of $1.39 and the mongrels a profit of eighty-six cents.

5. The mongrels gained in weight one pound per head more than the Leghorns. If this increase in weight is taken into consideration then the Leghorns gave a profit of forty cents per hen more than the mongrels.

6. The highest prices for fresh eggs usually prevail during the months of November, December, January and February. During these four months the mongrels laid only 364 eggs and the Leghorns 1028, or practically three times as many.—W. Virginia Experiment Station.

Frosted Peavines.

The writer has had numerous communications asking for information regarding the feeding value of cowpea vines injured by frost. Little definite can be stated on this subject. If the peas are nearly ripe, or nearly ripe enough to cut for hay, the frost will probably do them but little, if any, harm. There is probably some breaking down and loss of the food elements, but the farther advanced towards maturity the less will this be the case. Peavines that are real green when frozen will be almost worthless as feed. It is almost, if not impossible, to cure them, and decomposing green vines are probably dangerous if fed in that condition.

The whole question seems to hinge on the one of the degree of maturity. If this is sufficiently advanced so that the peas may be cut and cured into hay there will probably be little loss in feeding value except as there will be a greater tendency to a loss of the leaves.—Tait Butler, in the Progressive Farmer.

Planning Entertainment.

Brunswick, Ga.—The Brunswick Riflemen and the Atlantic band are planning a celebration on Thanksgiving for the entertainment of the people of Brunswick.

Holtava, Russia.—General Polkownikoff, commander of the garrison here, was shot dead and a soldier who was passing at the time was killed by unknown parties.

Will Take on Crossties.

Brunswick, Ga.—The schooner Brooklyn, which put into this port several weeks ago for repairs, will now take on a large cargo of crossties and continue on her way to Havana.

Cracker Shooting Stopped.

Covington, Ga.—The mayor and council of Covington passed an ordinance prohibiting the shooting of any size cannon crackers in the city.

Why Larks Are Easily Caught.

No bird is so easily netted as the lark; he generally starts from the ground just before the lower edge of the net touches him and invariably mounts perpendicularly. This characteristic propensity to ascend at once may be observed by any person who "treads up" a lark in a field and satisfactorily illustrated by releasing, at the same moment, a newly captured lark and a sparrow from a cage or hat within the precincts of a room. While the sparrow will fly off horizontally. dash himself against the window and lie almost stunned from the shock, the lark will almost always mount upward to the ceiling and flutter there for a time in vain efforts to reach the sky before he attempts any other mode of exit; but this habit is fatal to him in the netting season. He would generally be able to escape, as indeed the bunting or clod bird, the sparrow and the linnet constantly do, by flying straight forward; but ascending, as he does, directly from the ground the moment his wings have touched the upper part of the net it is suffered to drop suddenly, and his capture is rendered inevitable.—London Standard.

To Conciliate the Gods.

Just at night, if you happen to be within the gates of Canton, you will witness one of the little performances that are supposed to deceive the prowling spirits of the night bent upon evil intent, the while conciliating them should they penetrate the deception. Each little and big shop possesses a miniature fireplace built into the side of the entrance. Prayers printed on rice paper form the fuel with which to offer up incense to the "bogy man," who is supposed to make the nocturnal visits. Beholding the smoke, he is supposed to assume that no one lives within, and therefore passes by; but should he catch on and stop to investigate he finds that the prayer papers on the altar bear inscriptions attributing to him such virtues and magnanimity that his wrath is appeased and he turns from his evil intent.—Edwin Wildman in Chautauquan.

Dose—One Dimeful.

"How big a dose do I need?" asked the customer of the old fashioned druggist

"Oh, I guess a heaping dimeful will be about right," was the reply.

"A dimeful?" echoed the customer. "You mean a dime's worth, don't you?"

"No, I don't," said the druggist. "A dime's worth would be two ounces, and you'd never survive such a quantity as that. I mean for you to take a dime and pile on it as much of this powder as will stick. Then you have the proper dose. Measuring medicine on a dime is a method as old as United States currency and almost as reliable. There are certain powders that can be measured more accurately that way than any other, and among us old timers who have been used to meeting emergencies 'a dimeful' is a common direction."

Different Meanings.

Some words in our language have several meanings, each different from the others, so that it is not always possible to know at first just what thought the speaker wishes to express. There is the word "humanitarian," for instance. If you will turn to your Webster you will find that it means, first, one who denies the divinity of Christ and believes him to have been merely human; second, one who limits the sphere of duties to human relations and affections to the exclusion of the religious or spiritual; third, one who is actively concerned in promoting the welfare of his kind, a philanthropist. The third sense is the one in which the word is now most frequently used, and Webster marks this definition as "recent."

The Size of Canada.

Canada is larger than the United States by a quarter of a million square miles. Canada contains one-third of the area of the British empire. Canada extends over 20 degrees of latitude—from Rome to north pole. Canada is as large as thirty United Kingdoms, eighteen Germanys, thirty-three Italys. Canada is larger than Australasia and twice the size of British India. Canada has a boundary line of 3,000 miles between it and the United States. Canada's seacoast equals half the earth's circumference. Canada is 3,500 miles wide and 1,400 from north to south.

Impure Candy.

Beware of impure candy. Sugar in candy quickly ferments after eating, and if too much is eaten serious troubles often result. Pure sugar dissolves quickly in water and leaves a clear liquid, affording an easy way of testing its purity. Drop a small piece of candy in a glass, and over it pour boiling water. Let it stand twenty-four hours. If there is any foreign substance in the candy a sediment will be found in the bottom of the glass.—New York Post.

P. O. Box Rents

Postmaster Dudley has received the following notice from the department relating to the collections of box rents, which calls for the payment of box rents ten days before the first of the quarter, instead of the old plan of paying by the tenth day of the new quarter.

Order No. 1291. Paragraph 2, section 348, Postal Laws and Regulations, is amended to read as follows: "Box rents must be collected at the beginning of each quarter for the entire quarter, but no longer, ten days before the last day of each quarter. Postmasters are required to place a bill (on form 1538 or 1538½) bearing the date of the last day of the quarter in each rented box. If a boxholder fails to renew his right to his box on or before the last day of a quarter the box shall then be closed and offered for rent and the mail will be placed in the general delivery."

F. H. Hitchcock,
Acting Postmaster General.

Fairview.

Editor Banner—Well Mr Editor lets see what it is from Fairview. Miss Ada Askins is teaching school at this place and is progressing very well We are sorry to say that Rev S U Turnipseed preached his last sermon at Mt Nebo church Sunday, last for this year The Sunday school is progressing very nicely

Mr Albert Culp started to painting the church Tuesday We are sorry to say that Mrs E E Headley has moved back to Jacksonville again, where she will remain for awhile The singing at Mr Milton Roper's was enjoyed by everyone present The debating society is still walking to Fairview schoolhouse every Saturday night Mrs Essie Moore visited Mr and Mrs Jeff Durbin Sunday last Misses Ada Askins and Gatie Sims visited Mrs E A Durbin Sunday Messrs Willie and Albert Culp visited Mr Jim Culp Sunday Well, I will close as this is my first time With best wishes to the Banner and its many readers I remain, R E F

Mulberry.

Farmers are about done picking cotton in this section and corn pulling and syrup making are the items of interest at present Health of this community is good, as it generally is, in the "garden spot" of Chilton county Mr B H Jones house is begining to look right "housey" and will soon be ready to occupy Turkeys had better take to the woods as Thanksgiving is drawing near and drumsticks will be in great demand on that occasion.

Mr and Mrs John Culp celebrated their "Golden wedding" on November 6, about 100 relatives and friends being present including our genial mail carrier, Mr James A Thomas, who by the way is among the best carriers in the State, as we all think so Mr Will Hayes built him a new barn last week It is rumored that Mr Gentry is to erect a saw mill near Mr Hayes in the near future A new teacher has charge of the Culp schoolhouse in the person of Miss Clara Atchison who bids fair to make an excellent teacher Just a few of our folks went to the show at Clanton last week and report the usual line of performance, but say but little about it. so I guess we that stayed at home did not miss much Success to the Banner and its many readers I remain,

Hill Bill

Cards are out announcing the marriage of Miss Marion Matthews to Dr. Gilbert B. Wimberly on November 29, 1906.

Good for everything a salve is used for and especially recommended for piles. That is what we say of DeWitt's Witch Hazel Salve. On the market for years and a standby in thousands of families. Get DeWitt's. Sold by Upchurch Drug co.

DeWitt's Kidney and Bladder Pills act on both kidneys and liver, and as a result afford the quickest relief from those troubles resulting from an excess of uric acid. Such trouble as rheumatism, backache, sciatica, etc., are quickly relieved by a few doses of this modern remedy for the Kidneys. Sold by Upchurch Drug co.

OBITUARY.

It is with sad regret that we chronicle the death of our beloved aunt, Miss Susie Milford, which occurred Friday, Nov. 2, 1906, at the home of her brother-in-law, Mr. H. J. Hayes. Her death came unexpectedly. She had always lived a Christian life and was a member of the M. P. church; but alas, Aunt Susie has gone where there are no tears or sorrow, but joy forever; she has often said she was ready when her Saviour called her. We mourn her loss as the beloved departed. For a time her body sleeps in Jesus, but in the sweet bye and bye we will meet her in that beautiful home above to part no more. She leaves a father, three brothers and four sisters, a host of relatives and friends to mourn her departure. Her remains were interred in Pleasant Grove cemetery, Bro. F. A. Gibson conducting the funeral services. The Lord gave, the Lord hath taketh away, blessed be the name of the Lord.

Walter W. Jones.

CHARM OF A CLEAR COMPLEXION.

Every one who wants a good healthy color, a ruddy glow, and a complexion free from pimples and moth spots should try Laxakola tablets, mild, safe, sure, prepared from vegetables laxatives with a selective action upon the skin, 25 cents, Florence Drug co,

A. M. and P. M.

Here is an excellent catch: Ingenuously ask any friend or acquaintance the meaning of a. m. and p. m. You will receive some such answer as, "Why, morning and afternoon," or "Before dinner and after dinner," or "Up to 12 o'clock high noon and after 12 high noon," or "From midnight to noon and from noon to midnight," or "Ante meridian and post meridian; before and after noon." It is a conservative wager that every one to whom the question is put will stake his happiness on the word meridian, while the correct word is meridiem. Ante meridiem and post meridiem are abbreviated to a. m. and p. m.

My Hair is Extra Long

Feed your hair; nourish it; give it something to live on. Then it will stop falling, and will grow long and heavy. Ayer's Hair Vigor is the only genuine hair-food you can buy. It gives new life to the hair-bulbs. You save what hair you have, and get more, too. And it keeps the scalp clean and healthy.

PROGRAM

Teachers' Institute, to be held at Rockymount School House, Dec. 14-15, 1906.

9 a.m Devotional exercises, Prof. R. A. Rasco.

10:15. Welcome address, F. B. Williams. Response, J. H. Anderson.

10:45. How should English grammar be taught to give best results? B. J. Sessions, Miss Lottie Johnson.

11:20. How to become a good reader, J. M. Parrish, Miss Turner Belle Mullins

12 Noon recess.

1 p m. Value of mental arithmetic, G. I. Speer, Miss Ola Lee Jones.

1:45. Criticism of Alabama's adopted text books, P. G. Maness, Miss Stevonia E. Nash.

2:30 Some methods for improving the conditions of country schools, L. J. Thompson, W. A. Haggard

SATURDAY. 9 a.m Devotional exercise

9:15. Value of thoroughness in school work, Miree Fuller, Miss Bessie Ellis.

9:45. Necessity of compulsory school attendance, William J. Lamkie.

10:30. What should be the aim of a teacher? R. A. Rasco, Marion J. Mims.

11:15. The evolution and comparative values of our social, moral and educational institutions, H. P. Self.

Committee—J. W. Moore, L. J. Thompson.

Rockymount is located five miles east of Jemison. There will be conveyance for all teachers going on train to Jemison. Those desiring conveyances will write Prof. F. B. Williams, Jemison, Ala. The law requires that all teachers must attend the county Institutes.

J. W. Moore.

LINGERING COLD

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe chamberlain's Cough Remedy to be the best I have ever used" This remedy is for sale by Upchurch Drug co, Clanton. A. Horn, Thorsby.

Ladies' Aid Society

The Ladies' Aid Society of Clanton Methodist church met at the home of Mrs S Q Wade, Monday afternoon November 12, 1906 New officers were elected The faithful work of the retiring ones was commended Plans were laid for some work in the near future A committee was appointed to arrange for a Thanksgiving service to be held in the Methodist church at 7 p m on November 29th Everyone is earnestly and cordially invited to attend No admittance fee, no collection will be taken The members of the Society who are behind with their dues will please see Mrs Crit Jones, treasurer, who will receive and receipt Mrs Wade invites us to meet with her again on Monday afternoon, November 26, at three o'clock At this meeting some very important missionary work will be discussed Every lady member of Clanton Methodist church is expected to be present and all others who are in sympathy and wish to work with us Done by order of the Ladies' Aid Society of Clanton Methodist church.

Mrs. S. U. Turnipseed, Sec.

Administrator's Sale.

Under and by virtue of a certain decree rendered by L. H. Reynolds, Judge of Probate in and for said Chilton county, Alabama, on the 29th day of October, 1906, I, R. P. Mills, as administrator of the Estate of W. H. Mills, deceased, will proceed to sell, at public auction, to the highest bidder, for cash, in front of the Court House door, in Clanton, Chilton county, Alabama, between the hours of 11 a.m. and 4 p m. on MONDAY, the 19th day of NOVEMBER, 1906, the following described real estate, to wit:

Northwest ¼, southwest ¼ of Northeast ¼, Southwest ¼ of Southeast ¼, and west ½ of northwest ¼ of Southeast ¼, less six and two-thirds acres, on the east side of said west ½ of Northwest ¼ of Southeast ¼, said six and two-third acres running across said west ½ of Northwest ¼ of Southeast ¼, on the east side thereof, all in Section fifteen, and Northwest ¼ of Northeast 1-4 of Section twenty-two, all in Township twenty, Range thirteen, lying and being situated in Chilton county, Alabama.

Said sale will be made for the purpose of division, among the heirs and devisees of the said W. H. Mills, deceased, viz: T. Mills, Martha Ella Gray, Clara D. Caldwell, Walter B. Mills and Jessie Hinton, according to the terms and conditions of said decree.

Dated at Clanton, this the 27th day of October, 1906.

R. P. MILLS,
Administrator as aforesaid.

By J. C. Dennis, Attorney.

This sale continued to Monday, Nov. 26, 1906.
R. P. MILLS, Administrator.
T. A. CURRY, Attorney for Administrator

The best treatment for indigestion and troubles of the stomach is to rest the stomach. It can be rested by starvation or by the use of a digestant which will digest the food eaten, thus taking the work off of the stomach. At the proper temperature, a single teaspoonful of Kodol will wholly digest 3,000 grains of food. It relieves the present annoyance, puts the stomach in shape to satisfactorily perform its functions. Good for indigestion, sour stomach, flatulence, palpitation of the heart and dyspepsia. Kodol is made in strict conformity with the National Pure Food and Drug Law. Sold by Upchurch Drug co.

Girlhood and *Scott's Emulsion* are linked together.

The girl who takes *Scott's Emulsion* has plenty of rich, red blood; she is plump, active and energetic.

The reason is that at a period when a girl's digestion is weak, *Scott's Emulsion* provides her with powerful nourishment in easily digested form.

It is a food that builds and keeps up a girl's strength.

ALL DRUGGISTS; 50c. AND $1.00.

VINOL SETTLES
The Cod Liver Oil Question

No one will dispute the curative and strength creating value of cod liver oil. For centuries it has been recognized as the grandest of all healing and body-building agents for wasted human strength and vitality.

Yet, owing to the heavy, greasy oil which envelopes the medicinal elements, and which has no value either as a food or medicine, many patients weakened by disease cannot digest it in its raw form or an emulsion, and others will not take it on account of its disagreeable odor and taste—consequently its value is lost.

Now, the process discovered by two eminent French chemists—Morgues and Gautier—should interest every person in Clanton, for all of the tonic, body-building and curative elements of cod liver oil are now separated from the greasy, useless oil, and given to the people in delicious Vinol. For this reason it is fast superseding old-fashioned cod liver oil and emulsions.

As a body-builder and strength creator for old people, weak women, delicate children, and after sickness and all pulmonary diseases, it is recommended by over 5,000 of the leading druggists of the United States as the best.

Your money back if it does not do all we claim. Upchurch Drug co.

NOTE—While we are sole agents for Vinol in Clanton, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

A Reliable Remedy for Croup.

Mrs S. Rosinthal, of Turner, Michigan, says: "We have used Chamberlain's Cough Medicine for ourselves and children for several years and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by Upchurch Drug co., Clanton, A. Horn, Thorsby.

A Common Mistake.

Many a man has become possessed of the idea that he is a humorist merely because other people think he is funny. —Chicago Record-Herald.

I know no manner of speaking so offensive as that of giving praise and closing it with an exception.—Steele.

Art and Business.

Summer Boarder—It is so picturesque to watch the cows come home.

Farmer—There's more money in it when they stay on the railroad track.

Made Happy For Life.

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St, Vitus Dance, which yielded to no treatment, but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles effected a complete cure." Quick, sure cure nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by Upchurch Drug co. Price 50c.

SPIGENER & JONES,
HARDWARE STORE
Clanton

After.

He (five years after)—All this gush about love is extremely foolish. Wherever did this stupid book come from? I must say the person who selected it showed a very insipid taste. She (quietly)—It's the book you gave me during our honeymoon, John. We read it eleven times the first week we had it.

Mutual Disgust.

"Look here," complained the victim, "you said the house was only five minutes' walk from the station. To say the least, I'm disappointed in you."

"No more than I'm disappointed in you," retorted the agent. "I thought you were a good fast walker."—Philadelphia Press.

A Good Liniment.

When you need a good reliable liniment try Chamberlain's Pain Balm. It has no superior for sprains and swellings. A piece of flannel slightly dampened with Pain Balm is superior to a plaster for lame back or pains in the side or chest. It also relieves rheumatic pains and makes sleep and rest possible. For sale by Upchurch Drug co., Clanton A. Horn, Thorsby.

HERBINE

The Popular Liver Medicine Will Keep You Well

A GUARANTEED CURE for all diseases produced by TORPID LIVER and IMPURE BLOOD. Do not fill your system with Arsenic, Calomel and Quinine. They act as rank poisons which vitiate the blood, debilitate the system, and leave a trail of bad symptoms which require years to obliterate. HERBINE is purely vegetable and contains no mineral or narcotic poisons, is absolutely harmless and is the simple remedy of nature. It carries off all poison in the system and leaves no injurious effects.

CURED BY HERBINE AFTER OTHER REMEDIES FAILED

Mr. L. A. Hicks, Iredell, Texas, says: "I was sick in bed for eight months with liver trouble, the doctor seemed to do me no good. I was told to try Herbine, and it cured me in a short time. I cannot recommend this wonderful medicine too highly."

No More Cold Rooms

If you only knew how much comfort can be derived from a PERFECTION Oil Heater—how simple and economical its operation, you would not be without it another day.

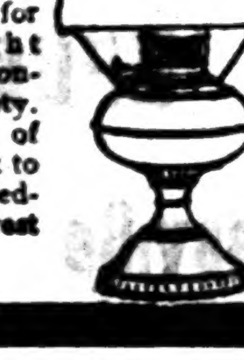
You can quickly make warm and cozy any cold room or hallway—no matter in what part of the house. You can heat water, and do many other things with the

PERFECTION Oil Heater

(Equipped with Smokeless Device)

Turn the wick as high or low as you can—there's no danger. Carry heater from room to room. All parts easily cleaned. Gives intense heat without smoke or smell because equipped with smokeless device.

Made in two finishes—nickel and japan. Brass oil fount beautifully embossed. Holds 4 quarts of oil and burns 9 hours. Every heater warranted. If you cannot get heater or information from your dealer, write to nearest agency for descriptive circular.



THE Rayo Lamp cannot be equalled for its bright and steady light, simple construction and absolute safety. Equipped with latest improved burner. Made of brass throughout and nickel plated. An ornament to any room whether library, dining-room, parlor or bedroom. Every lamp warranted. Write to nearest agency if not at your dealer's.

STANDARD OIL COMPANY, Incorporated.

A Fish Yarn.

We had sat around the fire for some time and the boys were speaking of fish—of very large fish—when George finally said: "Well now, boys, I don't want you to think I'm lying, and I never did believe in telling big yarns, but your speaking of the big pike reminds me of a catfish they caught up near Des Moines last year. You see the river had got very low and this big yellow-head climbed out at a low place in the bank and was chasing a two-year-old around the field when they saw him, and as the farmers were afraid of losing their stock they clubbed together and killed him." After an awe-struck silence of some time L. ventured to remark in a low tone: "How big was he, George?" "Well, by the great whale, I'd like to know if you suppose any small fish could tackle a two-year-old steer?"—Forest and Stream.

The average elevation of the earth's surface above sea level is 966 feet. Of all the continents Africa has the greatest average elevation.

About one in five of the men of the merchant service is unable to swim.

CRISIS OF GIRLHOOD

A TIME OF PAIN AND PERIL

Miss Emma Cole Says that Lydia E. Pinkham's Vegetable Compound has Saved Her Life and Made Her Well.

How many lives of beautiful young girls have been sacrificed just as they were ripening into womanhood! How many irregularities or displacements have been developed at this important period, resulting in years of suffering!

Miss Emma Cole

A mother should come to her child's aid at this critical time and remember that Lydia E. Pinkham's Vegetable Compound will prepare the system for the coming change and start this trying period in a young girl's life without pain or irregularities.

Miss Emma Cole of Tullahoma, Tenn., writes:

Dear Mrs. Pinkham:

"I want to tell you that I am enjoying better health than I have for years, and I owe it all to Lydia E. Pinkham's Vegetable Compound.

"When fourteen years of age I suffered almost constant pain, and for two or three years I had soreness and pain in my side, headaches and was dizzy and nervous, and doctors all failed to help me.

"Lydia E. Pinkham's Vegetable Compound was recommended, and after taking it my health began to improve rapidly, and I think it saved my life. I sincerely hope my experience will be a help to other girls who are passing from girlhood to womanhood, for I know your Compound will do as much for them."

If you know of any young girl who is sick and needs motherly advice ask her to write Mrs. Pinkham, Lynn, Mass., and she will receive free advice which will put her on the right road to a strong, healthy and happy womanhood. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge.

The first submarine telephone cable was laid in 1888 between Monte Video and La Plata.

A Well-Known Remedy.

One of the oldest, safest and most favorably known remedies in the world today is Brandreth's Pills—a blood purifier and laxative. Being purely vegetable they can be used by old or young with perfect safety and while other remedies require increased doses and finally cease acting altogether, with Brandreth's Pills the same dose always has the same effect, no matter how long they are taken. One or two pills taken each night for a while is the best thing known for any one troubled with constipation, indigestion, dyspepsia or any trouble arising from an impure state of the blood.

Brandreth's Pills have been in use for over a century and are sold in every drug and medicine store, plain or sugar-coated.

A fox, pursued by a pack of hounds in Somersetshire, stopped long enough in his flight to select a fat duck from a farmyard he was passing and carried it off.

ECZEMA AFFLICTS FAMILY.

Father and Five Children Suffered For Two Years With Terrible Eczema—Wonderful Cure by Cuticura.

"My husband and five children were all afflicted with eczema. They had it two years. We used all the home remedies we could hear of, without any relief, and then went to a physician and got medicine two different times, and it got worse. It affected us all over except head and hands. We saw Cuticura Remedies advertised and concluded to try them. So I sent for $1.00 worth, consisting of one cake of Cuticura Soap, one box of Ointment and one vial of Pills, and we commenced to use them. I do not know how to express my joy in finding a cure, for two of my children were so bad that they have the brown scars on their bodies where they were sore. Mrs. Maggie B. Hill, Stevens, Mason Co., W. Va., June 12, 1905."

Good Listeners.

In conversing with one's friends nothing is so chilling as an apparent lack of attention and sympathy. It might be added that nothing is more vulgar were not the listener's indifference common to the majority of our most cultured people. If when one is addressed she will remember to incline the body slightly forward an attitude of rapt attention will soon be unconsciously assumed and, whether really worthy of it or not, new recruits gained for the always popular, as rare, class known as "good listeners."

FASHIONS IN COLOR OF HORSES.

Chestnut the Most Approved in England Just Now.

With regard to horses used for pleasure and sport in this country there has generally been a fashion. Probably at the present moment breeders of hackneys are the most particular with regard to color, for at the last hackney show it was generally noticed how greatly chestnut horses were in the ascendant. It is possibly the case, too, that a majority of the best stepping horses one sees in the park are in these days chestnuts; many handsome bays and browns there are, too, but the chestnuts are now almost strongest numerically of those horses which appear to be of purely hackney blood.

Of course, when one sees a smart pair go quickly past which one is unable to identify, it is impossible to say offhand whether they are true—i. e., stud book—hackneys or not; but the breed has made such enormous strides in recent years that it is now possible to guess with a fair amount of certainty which of the horses one sees in the park or in the West End streets are stud book hackneys. Not only have the numbers increased, but so also has the desire to be possessed of these horses, and thus the harness horse of obvious hackney cut is far more in evidence than he was a few years ago. As the light built victoria has succeeded the heavy barouche, so has the lighter made stepping horse succeeded the bigger and stronger harness horse of the Cleveland bay or Yorkshire coach horse type; whereas a generation ago bay was almost certainly the dominating color in the park, it now hardly more than shares the honors with chestnut and brown.

Bay and brown are, it need hardly be stated, the commonest colors among all half bred horses, and thus the ordinary pair of general utility carriage horses, possibly good enough and honest nags but with no great pretensions to breeding or action, are as a rule either bay or brown; but if one ignores the ordinary harness horse and only takes cognizance of the showy trapper, chestnut will be found to have made a great advance. This, coupled with the fact that so many of the Islington winners are chestnut, certainly suggests that breeders of stud book hackneys have deliberately tried to produce horses of this color.

The evidence as to fashion in the color of teams is not very pronounced, though it is almost certain that every four in hand driver has some particular fancy in this direction. In the hunting field fashion in color is not much observed, but it is pretty certain that there are nothing like so many good gray horses as there used to be a few years ago. It is seldom that a skewbald or piebald horse is seen in the hunting field, while a roan is rare, and when he is to be found is more often a blue roan than a strawberry roan. As for the decline of the gray, this is simply due to the fact that there are very few gray sires in the country.—From the Field.

PEARLS OF THOUGHT.

In the long run men hit only what they aim at.—Thoreau.

He who allows oppression shares the crime.—Erastus Darwin.

No pleasure is comparable to the standing upon the vantage ground of truth.

Many men owe the grandeur of their lives to their tremendous difficulties.—C. H. Spurgeon.

In every piece of honest work, however irksome, laborious and commonplace, we are fellow workers with God. —F. B. Meyer.

Great thoughts go best with common duties. Whatever therefore may be your office regard it as a fragment in an immeasurable ministry of love—Brook Foss Westcott.

Remember, it is looking downward that makes one dizzy. Look up, and your brain clears, your heart grows calm and strength comes to you for every task and every emergency.

Hardness is a want of minute attention to the feelings of others. It does not proceed from malignity or carelessness of inflicting pain, but from a want of delicate perception of those little things by which pleasure is conferred or pain excited.—Sydney Smith.

The sublime of Nature does not equal the sublime of Thought. A good man is a truer image of spiritual things than the loveliest landscape; and the faithfulness of conscience, the inviolable law in the soul, is more worthy to picture the moral constancy of God than the orderly revolutions of the heavens.

He will certainly fail who hopes to know men deeply and only to get happiness, never to get anxiety, distress, disappointment, out of knowing them; and he has mistaken the first idea of human companionship who seeks companionships, friendships and contracts with mankind directly and simply for the pleasure they will give him.—Phillips Brooks.

To win and hold a friend we are compelled to keep ourselves at his ideal point, and in turn our love makes on him the same appeal. Each insists on his right in the other to an ideal. All around the circle of our best beloved it is this idealizing that gives to love its beauty and its pain and its mighty leverage on character. —W. C. Gannett.

WHAT JOY THEY BRING TO EVERY HOME

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature, and if at any time a remedial agent is required to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

PUTNAM FADELESS DYE

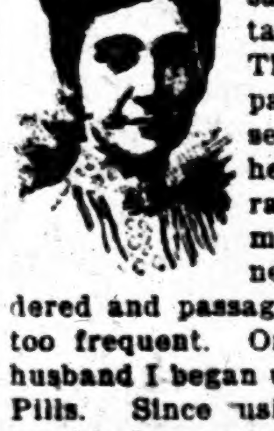
Color more goods brighter and faster colors than any other dye. One 10c. package colors all fibers. They dye in cold water better than any other dy
dye any garment without ripping apart. Write for free booklet—How to Dye, Bleach and Mix Colors. MONROE DRUG CO., Unionville,

A remarkable reinforced concrete conduit, or rather a pair of them, has recently been placed in service in an irrigating system in the province of Huesca, Spain, according to the American Contractor. These conduits have an interior diameter of twelve and one-half feet and are 3,330 feet long. The supply that can be furnished by the two great tubes is estimated at 10,000 gallons per second. This is poured into a canal that will supply water for irrigating 261,820 acres of land. These conduits were built across two valleys as inverted syphons in lieu of an elevated aqueduct.

A MISSOURI WOMAN

Tells a Story of Awful Suffering and Wonderful Relief.

Mrs. J. D. Johnson, of 603 West Hickman St., Columbia, Mo., says: "Following an operation two years ago, dropsy set in, and my left side was so swollen the doctor said he would have to tap out the water. There was constant pain and a gurgling sensation around my heart, and I could not raise my arm above my head. The kidney action was disordered and passages of the secretions too frequent. On the advice of my husband I began using Doan's Kidney Pills. Since using two boxes my trouble has not reappeared. This is wonderful, after suffering two years."



Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

How to Measure Medicine.

A tablespoonful of liquid is equal to a fluid drachm. A teaspoonful of powdered roots or bark is equal to two scruples. A teaspoonful of powdered herbs is equal to one scruple. A teaspoonful of salts, saltpetre, sulphur, or like articles is equal to half a drachm. A teaspoonful of metallic remedies, sugar or lead, sulphate of zinc, chloride of zinc, etc., is equal to 12 drachms. A tablespoonful of liquid is equal to half a fluid ounce. A tablespoonful of powdered roots or herbs is two drachms. A teacupful is four liquid ounces, or a quarter of a pint. Three scruples make a drachm; eight drachms make an ounce; twelve ounces make a pound. Druggists' weights for medicines (apothecary's weights).

By reversing the engines a steamer can be pulled up and brought to a stop in six to eight times her own length.

INVESTIGATION.

a simple citizen
the news each day,
d much that living men
could so betray.

the world is steeped in sin,
not well," quoth he,
should begin
like charity?"

very simple man
to himself.
'twas a worn-out plan,
a dusty shelf

if he had ever bent
strong control,
'twas so expedient—
to his soul.

before all-searching eyes
show his kindliest act
preservatives and dyes
half his motives packed?

he stood so secure
could tempt it—still,
with specious, subtle lure,
never yet his will?

did the simple citizen
in his private court,
lie beyond our ken—
no report.

, he wears them now. And instead of having his helmet on he has deposited it at the foot of the gallows, and is bareheaded.

"Let us go and see at once, master chaplain."

The Lord de la Piroche hastened to the square, which was full of curious spectators. The neck of the criminal had been replaced in the slip noose, the body was at the end of the rope, and the armor on the body. The people declared it a miracle. The body was taken down and stripped, then hanged again, and the crows went to work on it so busily than in eight days it looked like a rag, and at the end of a fortnight looked like nothing at all. How happened it the culprit was saved? It was said that two peasants, returning at nightfall, and passing near the gibbet, heard something like moans and a prayer. They used the ladder the hangman had left, planted it, climbed up and questioned the sufferer.

"Are you alive?"

"Yes."

"Do you repent of your crime?"

"Yes."

Then the father and son took him down. The rope instead of pressing the culprit's neck had passed round the base of the helmet, so that he was suspended, but not strangled, and had recovered his breath when our two friends came up. They took him down and carried him home, where he was confided to the care of the peasant's wife and young daughter.

But he who has once stolen will steal again. There were only two things to steal at the peasant's. These were his horse and his daughter; the latter a fair-haired girl of sixteen. The robber determined to steal both, for he coveted the horse and had fallen in love with the girl. He succeeded in saddling the horse, but the girl awoke, gave the alarm, and told her father that the villain had attempted to abduct her.

Tthe father and brother, finding no genuine repentence could be expected from such a man, tied him across the horse, took him to the square of La Piroche, and hung him in the old place, putting his helmet on the ground to make sure he did not escape again. Then they went quietly home, satisfied that they had done their duty. As for the Lord de la Piroche, now he had a sure protection in the recovered armor. He went gaily to the war, and was the very first man killed.

PLEA FOR BRIDE'S FIRST KISS.

One Man Who Has Been Six Times a "Best Man" Defends Custom.

The Vicar of Tintwistle, England, having declared that the "foolish and irreverent" custom of kissing the bride after the ceremony should be stopped, is thus answered by one signing himself "Six Times Best Man."

"As I have on six occasions filled the invidious position of best man, I trust you will grant me space to deliver an emphatic protest against the abolition of this good old English custom, which is, apparently, wished by some clergymen and many curates.

"Is there to be no reward for the unfortunate 'best' man' who has borne for hours on his shoulders all the worries and responsibilities of the important ceremony; the rallying of the trembling bridegroom, the supervision of all the social arrangements, and the departure of the happy pair from the church, to say nothing of the lavish scattering of largesse to every hanger-on within and without, for which, by the way, he is very seldom reimbursed? I repeat, is there no reward for all these manifold difficulties successfully accomplished?

"To the bride and bridegroom it is the solemnly joyous moment of their lives. All the playfulness of eager friends and even the ecclesiastical chivalry of the minister should not be allowed to rob the parties of a kiss, the remembrance of which will remain with the happy pair all their lives."—Daily Mail.

The Last Lieutenant-General.

When, in June, 1909, Lieutenant-General Arthur MacArthur, having reached the age limit for active service, retires from the office which he assumed yesterday in succession to Lieutenant-General Henry C. Corbin, retired for age, the grade of lieutenant-general will cease to exist until revived by act of Congress. The rank was established as a reward for exceptional meritorious service in the army and several of the nation's most distinguished soldiers have held it. While, perhaps, the new lieutenant-general cannot be classed with some of his predecessors in the exalted position, he has, nevertheless, earned honorable place in the list of successful military commanders by the character of his services, which began almost at the outset of the Civil War and have continued ever since. General MacArthur was useful on the plains, in Cuba and in the Philippines and he reached his present exalted rank by regular stages.—Providence Tribune.

Brains of Great Men.

Brains of great men vary very much. It is found that men of encyclopedic mind have large and heavy brains—Gladstone had to wear a very big hat with an enormous bed of gray matter and numerous convolutions; on the other hand, men whose genius is concentrated upon one line of thought are of small brain and, consequently, have small heads. Newton, Byron and Cromwell were in this class.—Kansas City Journal.

THE PULPIT

A SUNDAY SERMON BY THE REV. IRA W. HENDERSON, THE FAMOUS DIVINE.

Subject: "Profit and Loss."

Brooklyn, N. Y.—Preaching at the Irving Square Presbyterian Church on the theme, "Profit and Loss," the Rev. I. W. Henderson, pastor, took as his text Mark 8:36. "For what doth it profit a man to gain the whole world and forfeit his life." He said:

Jesus draws the picture with strength and in a startling manner. What doth it profit a man if, in the end, he shall have gained control over the sum total of the material things in the universe and have forfeited his soul life with God? "The question is between that life which consists mainly in having and that which consists in being." The question is whether or no our efforts shall tend to self-aggrandizement or to soul culture. Shall we devote our larger and finer energies to the attainment of possessions which are of use in this world alone or to the enlargement of our spiritual powers? The difference is between getting and growing. The man whose career is given over to getting things is measured as a success according to the material wealth he has acquired. But the man who is a "growing man" is marked by his richness in grace, goodness and godliness.

There is in our time a most commendable spirit abroad in the hearts of our people leading them to seek the amelioration and upliftment of the conditions of life about us. There is an earnest desire among men of purpose everywhere to make the most out of life. We have small patience with the shirk and are getting to have less with the business slave. We read of the possibilities of cheap power in its relation to economic affairs and millions of money transform Niagara into electricity and rapid transit. Our hearts are appalled at the ignorance of thousands of men here in America and we build schools. We are told that in order to a successful social system the worker must have fair hours and a good wage. The luxuries of yesterday are the necessities, and inexpensive, too, of to-day. Our millionaires have gold galore for charities and clubs, and men in all grades of society put more money into amusements than ever before. All this is well in its way and place. Social conditions should be bettered and the standard of life raised. No man should waste any of his talents, nor should he give undue attention to any one to the detriment of the rest. The latent wealth of the world should be made productive. No man should be sent out into the battle of life mentally unprepared. Each member of this State deserves and should be enabled to acquire sufficient physical endurance to fit him for the fight. The man who sells his labor must receive a fair wage and decent opportunity for enjoyment and for the culture of other than his "business nature." We cannot have too many charitable institutions to meet real need, nor can we do other than rejoice over the wealth that lies at our hands. All of these things are good, all are necessary, each when used properly will be found to be a means to the betterment of this world and life.

But in our endeavor to utilize the possibilities of the present and material life there lies the danger to forget the immortal and spiritual existence of the soul. Education at the State's expense is a cure for many social ills and a salve for many an economic sore. Money may and does bring happiness to the hearts of all who, righteously, may possess it. No man can deny the value of physical culture in the cure of many bodily ailments and in strengthening the constitution. Fair pay for a fair day's work is only just. None of us begrudges the man of millions except we are aware he has robbed us. But brain muscle and morality are not necessarily synonymous. Some of the most dissolute men the world has ever harbored have been the mightiest in intellect. The antics and excesses of not a few college men but prove that book knowledge and purity of life are not one. Money is not an unrighteous thing of itself, but, oh, what slaves it does make of men; how soon the greed for it will stifle all that is noble in its lovers. The size and development of your upper right arm is in no way an indication of the strength of soul you possess nor is it a substitute for it. Bulk of purse, brawn of muscle, depth of learning and a fine mentality are both commendable and desirable if so be they are righteously acquired, but the acquisition of all these things is as nothing if so be a man has forfeited his soul life for them.

To-day we train our youth for business or profession—that is to say, for careers of economic usefulness. Our main aim in education is to fit men to achieve material success. We demand that our schools shall turn out men who are able to take care of themselves. We pay but scant attention to individuality and to the leanings and peculiarities of personality. Any one here can state, as well as I, how much moral training the schools give our youth. In our fear that the Bible in the school may savor of denominationalism we leave, often, a free field for the devil. From earliest youth till the child is a man dependent upon his own resources the continual cry is for him to achieve success. Fortunate, indeed, is the man who, by wise direction and personal preference, is enabled to choose the way that leads to real and lasting success. But the pity is that too many of us spell success in the terms of material achievement. Too few are they who know that success is a matter not so much of getting as of being; that it is more a matter of soul culture than of material gain. Success is measured not by the amount you have, but by what you amount to.

Far be it from me to belittle a proper material success. The world owes a debt it never can repay to the men of money, the masterful mechanics, the learned lawyers, the erudite doctors, the brainy business men, the tireless teachers and toilers and leaders who have made possible and apparent the civilization we now enjoy. I am the last man to deny the value and advantage, aye, the necessity, of all manner of human development. But what shall it profit us, individually or socially, if, surpassing Greece for wisdom, the Romans for wealth, the arts of France, the metaphysical acumen of Germany, the landed possessions of Russia, the commercial power of our English cousins, we shall attain material success at the expense of our soul's life? "For what doth it profit a man to gain the whole sum total of material things and have forfeited his soul life within God?"

The highest measure of success is the permanency of achieved results. The test of service is in the worthiness of the labors to which our efforts have been applied. If sound money is more important than sound morals then the teacher of political economy is of more value to the world than the teacher of ethics, that is to say, of the science of right living. If fleets are of more consequence than spiritually minded and Christ-moved men, then Morgan with his merchant marine is mightier than Moody with his Bible. If cash counterbalances character then let us relegate the Christ life to its proper, that is to say, the second, place in our scheme of living. If policy is better than principle and gain at any cost superior to righteousness, then let us hoist the Jolly Roger to the forepeak of the ship of State and declare ourselves the moral pirates that we are. But I am persuaded that we do not value the material more than manhood. I am sure that fundamentally we do believe that principle, purity and godliness are more of account than all else in life. We are all conscious of the beauty, the nobility, the transcendent importance of the culture of the soul. There is not a man, or but few, men anywhere but who will admit at once and without discussion that to trade the soul's life for material success is to strike a poor bargain. I have yet to meet the thinking man, whose opinions are worth a snap of my finger, who sustains any other proposition save that a godly life is the only sure foundation of society and the only guarantee of the permanency and efficiency of success.

Believing these latter truths to be divine why, then, do we hesitate to connote logic with action? Why do we refrain to parallel our academic conclusions with definite effort. Why do we refuse consistency a hearing and continue to serve the god of material success?

My friends, the whole question of service and success is a matter of getting or being, of self-aggrandizement or of self-realization and soul culture. Getting is as natural as breathing. But we breathe not for the sake of breathing, but in order to live. Getting, the acquirement of temporal wealth, may be a means to the culture of our souls. When so used riches are a blessing. That man is wisest who makes all things in this life tend toward his soul's development. Let us teach our youth that growth in godliness is the prime function, the principal task of human endeavor. Let us tell our young men and our maidens that it is best to serve God and to grow constantly into the graces and beauties of Christlikeness. Let us send home to the young and impressionable hearts of our boys and our girls the changeless and eternal truth that it can never profit a man to gain the whole world and lose his own life within God. Then shall we have inculcated the true philosophy of life and hastened the coming of the kingdom of the God of Christ our Lord.

Worry and Fear Removed.

It is not religion, but the lack of it that makes people unhappy. Yet how strangely and how widely the opposite view prevails. There are many who think of religion not only as a galling drudgery, but as the surest source of moroseness, melancholy and unhappiness of life. Their idea is that religion is a system of suffering to which many people are willing to submit here in order that they may not suffer hereafter—that religion's only happiness is in the future, its rewards after death. Instead, the real fact is that religion is a thing of present joy and ever continuing blessedness. It is the gladdest, happiest thing in all this world. "Her ways are ways of pleasantness and all her paths are peace."

It is religion that gives us the bright things in life and sin the dark things, and not vice versa. Religion goes down to the deepest springs of our mental and spiritual well-being. It brings untold measures of peace and joy. It takes the sting out of the past and it takes the worry out of the present. It takes the fear out of the future.—The Rev. G. B. F. Hallock, D. D.

How to Learn Love.

It is true that love cannot be forced, that it cannot be made to order, that we cannot love because we ought or even because we want. But we can bring ourselves into the presence of the lovable. We can enter into friendship through the door of discipleship. We can learn love through service.—Hugh Black.

What Could Hinder?

If man's device can produce pure white paper from filthy rags, what should hinder God to raise from the dead this vile body and fashion it like the glorious body of Christ?—Gotthold.

A man's knowledge of doctrine counts for nothing if he neglects duty.

THE SUNDAY SCHOOL.

INTERNATIONAL LESSON COMMENTS FOR NOVEMBER 25.

Subject: The World's Temperance Sunday, Isa. v., 11-23—Golden Text: 1 Cor. ix., 27—Memory Verse, 11.

I. The drunkard's feast (vs. 11, 12). 11. "Woe." Grief, sorrow, misery, a heavy calamity, a curse. "Early in the morning." When it was regarded especially shameful to drink (Acts 2: 15). Banquets for revelry began earlier than usual (Eccl. 10: 16, 17). "May follow strong drink." That they begin and continue to use it from early morn till night. Palm or date wine was, and is still, in use in the Eastern countries. Judea was famous for the abundance and excellence of its palm trees; and consequently had plenty of this wine. Drinking strong drink is the chief business of the day. "Till wine inflame them." Until there is excited, excessive action in the blood vessels, causing them to act in excitement, in anger, or any evil way which their natures might be made to feel, under the unnatural pressure upon the forces and functions of the body. In this condition no man is able to use good judgment, or to execute his work correctly.

12. "The harp." A stringed instrument of triangular figure. Music was common at ancient feasts (Amos 6: 5, 6). "The viol." An instrument with twelve strings. "The tabret." A small drum or tambourine, played on as an accompaniment to singing. "Pipe." The principal musical wind instrument of the Hebrews. Such as indulge in revels must have every sense gratified, for only by being stimulated by such excitement could they at all be satisfied. "They regard not." The most positive proof that such conduct is sinful.

II. God's judgments on the drunkard (vs. 13-17). 13. "Therefore." Because they ignore God's warnings and continue in their drunkenness. "My people." Judah, or Israel, or both. "Are gone." The prophet sees the future as though it were present. "Because they have no knowledge." Because of their foolish recklessness in following strong drink they make drunkards of themselves. They are contrary to wisdom. They become captives because their brains are so ruined by excessive drinking that they are not capable of acting the part of prudent, careful men. "Honorable men are famished." Strong drink ruins those in honorable positions just as quickly as men of low estate. "Dried up with thirst." Both the great men and the common people suffer alike when in captivity to the cruel power of strong drink.

14. "Hell." Sheol, the place of the dead. Sheol is personified and compared to a ravenous beast, eager to swallow its prey. "Hath enlarged herself." There has been so great a slaughter that the world of the dead is too narrow to accommodate all who enter there, and has to build on an addition—has to increase its capacity. "Opened her mouth." The tense in the Hebrew changes here. It should be "and is opening her mouth." The slaughters have not ceased.

15. "The mean man," etc. Its victims include all classes. Even "the mean man" is "brought down" to a lower level, and to the same level "the mighty" and "the lofty" are degraded. The drunkard soon loses all self-respect, then his respect for all that is good, even respect for God and fear of his judgments. This is to become a scoffer. 16. "Shall be exalted in judgment." When man's glory is all passed away God is unchanged. Though men scorn His offered mercy and refuse His wise counsels He is not cast down. He is exalted. "Sanctified in righteousness." Regarded as holy by reason of His righteous dealings. 17. "Then shall the lambs," etc. When these are gone into captivity and swallowed up in death others shall fill their places.

III. The woes of the drunkard (vs. 18-23). 18. "Iniquity." Guilt incurring punishment. "Cords of vanity." Wickedness. Rabbins say, an evil inclination is at first like a fine hairstring, but the finishing like a cart rope. These sinners harness themselves like horses to a cart, and, straining every nerve in sin, they drag their punishments with them. 19. "Let him make speed," etc. They challenge the Almighty to do His worst, and set His justice at defiance. They do not believe that the judgments threatened will come. 20. "Call evil good," etc. Men resort to lying subterfuges to justify themselves in sanctioning the liquor traffic. 21. "Wise in their own eyes." Those who prefer their own reasonings to divine revelations, who despise or reject the gospel, or who claim to have a knowledge of it, but do not practice it.

22. "Mighty to drink." Those who boast that they can drink more than others and yet be able to stand. They shall not escape the curse of drunkenness. "To mingle strong drink." To add spices to strong drink, and then count themselves strong because they can endure the effects. Their glory is their shame. 23. "Justify the wicked for reward." Who, as judges, pervert justice and for a bribe acquit the guilty. Who for the sake of votes, or political influence, or favor with the people, vote with the saloonkeeper and help make bad laws. God will punish such. "Take away the righteousness." Though a man be proved innocent, yet because he does not give a fee he is condemned by these unjust men. Misery will overtake him.

Suicide Over Bite on Arm.

In the presence of a gathering of friends at the home of Ernest Farrell at Marion, Ohio, Miss Hilda Porter, aged nineteen, announced she was going to commit suicide. She then locked herself in a room and cried, "I am going to do it now!" Opening the door, the girl swallowed a dram and a half of carbolic acid, in view of men and women on the porch and fell to the floor dead. Walter Krouse, her lover, says he bit her in the arm and it made her angry.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nervine nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

Dr. Pierce may be consulted by letter free of charge. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Philanthropy of Rich Men.

Taking their cue from the death of Russell Sage, the late multi-millionaire of New York, who left nothing to charity by his will, the Boston Post has made a brief summary of what some rich men have left to charitable purposes. While we cannot vouch for its accuracy, the accompanying statement is interesting:

Leland Stanford gave in life $2[illegible]000,000; by will, $30,000,000.

Samuel J. Tilden gave in life nothing; by will, $10,000,000.

William H. Vanderbilt gave in life to many charities; by will, $1,000,000.

Jay Gould gave in life nothing; by will, nothing.

Commodore Vanderbilt gave in life $2,500,000; by will, nothing.

P. D. Armour gave in life $18,000,000; by will, endowment for Armour Institute.

John Jacob Astor gave in life $[illegible]300,000; by will, $730,000.

Cecil Rhodes gave in life $35,000,000; by will, $110,000,000.

Charles T. Yerkes gave in life nothing; by will, $11,000,000.

Collis P. Huntington gave in life small sums; by will, pictures and house.

Marshall Field gave in life $10,000,000; by will, $26,000,000.

Russell Sage gave in life, $55,000; by will, nothing.

Peter Cooper gave in life Cooper Institute; by will, $3,000,000.

Jacob S. Rogers gave in life nothing; by will, $8,000,000.

The Rule of Three.

Three things to wish for—health, friends, and a cheerful spirit.

Three things to delight in—frankness, freedom and beauty.

Three things to admire—power, gracefulness and dignity.

Three things to love—purity, truthfulness and honor.

Three things to be—brave, gentle and kind.

There are still several wooden railways in existence in Canada and the United States. One of them is in the province of Quebec and is thirty miles long. The rails are of maple, and trains are run over them with remarkable smoothness at the rate of twenty-five miles an hour. This road is used for the transportation of timber.

The sun yields about 300,000 times as much light as does the moon at its full.

COFFEE IMPORTERS

Publish a Book About Coffee.

There has been much discussion as to coffee and Postum lately, so much in fact, that some of the coffee importers and roasters have taken to type to promote the sale of their wares and check if possible the rapid growth of the use of Postum Food Coffee.

In the coffee importers' book a chapter is headed "Coffee as a Medicine," and advocates its use as such.

Here is an admission of the truth, most important to all interested.

Every physician knows, and every thoughtful person should know, that habitual use of any "medicine" of the drug-stimulant type of coffee or whisky quickly causes irritation of the tissues and organs stimulated and finally sets up disease in the great majority of cases if persisted in. It may show in any one of the many organs of the body and in the great majority of cases can be directly traced to coffee in a most unmistakable way by leaving off the active irritant—coffee—and using Postum Food Coffee for a matter of 10 days. If the result is relief from nervous trouble, dyspepsia, bowel complaint, heart failure, weak eyes, or any other malady set up by a poisoned nervous system, you have your answer with the accuracy of a demonstration in mathematics.

"There's a reason" for Postum.

HOLLISTER'S

Rocky Mountain Tea Nuggets

A Busy Medicine for Busy People.

Brings Golden Health and Renewed Vigor.

A specific for Constipation, Indigestion, Liver and Kidney troubles, Pimples, Eczema, Impure Blood, Bad Breath, Sluggish Bowels, Headache and Backache. Its Rocky Mountain Tea in tablet form, 35 cents a box. Genuine made by HOLLISTER DRUG COMPANY, Madison, Wis.

GOLDEN NUGGETS FOR SALLOW PEOPLE

ANNOUNCEMENT.

We call your attention to the fact that Dermakola ointment is a positive cure for Eczema, ulcers, wounds, piles, and every kind of skin and scalp trouble. It costs 25 cents if it cures. If it don't, we return your money. Florence Drug co.

TAKE NOTHING FOR GRANTED.

Make Florence Drug Co. Prove What Pepsikola Tablets do for Indigestion.

It stands to reason that Florence Drug co. would not come right out in these columns year after year and ask you to try Pepsikola tablets for indigestion if they were not pretty sure you would not receive decided benefit.

You can see that for yourself.

The remedy fails to cure every case, of course they always pay your quarter back should the tablets fail to do good.

Life is too short for misrepresentations of this kind, and for the small profit Florence Drug co. make on a 25 cent package it would be mighty poor judgment to induce you to make a trip to this store and then sell you something that would disappoint you.

If troubled with sour stomach, heart burn, wind belching, coated tongue, loss of appetite, weakened energy, nervousness, fullness after eating or other stomach trouble, just try Pepsikola tablets on our say so. Our word for it, they will build up your energy, steady your nerves, improve your appetite, enrich your blood and put new life in your stomach as sure as this world.

ADVERTISED LETTERS.

List of Letters remaining uncalled for in Clanton, Ala., postoffice, for week ending Nov. 19, 1906. Persons calling for same will please say "advertised" and give date. One cent must be paid on each letter.

GENTLEMEN'S LIST.

Alfred Muckle, Jos. A. Alexander, Saff Gle, Louis B. Siebold, W. J. Wats, Lonnie Smith.

LADIES' LIST.

Nannie Marcus, Miss Emma Powell.

These letters will be sent to the dead Letter office, Dec. 1, 1906, if not delivered before.

F. O. DUDLEY, Postmaster.

A Year of Blood

The year 1903 will long be remembered in the home of F. N. Tacket, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tacket's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completed restored and as time has proven permanently cured." Guaranteed for Sore Lungs, Coughs and Colds, at Upchurch Drug co. Price 50c and $1,00. Trial bottle free.

Sheriff's Sale

By virtue of an execution issued out of the Circuit Court of Chilton county, and State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against F. E. Gronquist out of the goods, chattels, lands and tenements of the said F. E. Gronquist, I have levied on the following property, to-wit.

NE ¼ of Se 1-4 Section 34, Township 22, Range 14; Nw 1-4 of Nw 1-4 Section 35, Township 22, Range 14; part of W ½ of Se 1-4, Section 20, Township 22, Range 15; part of Se 1-4 of Nw 1-4 Section 20, Township 22, Range 15.

Therefore, according to said command, I shall expose for sale, at public auction, all the right, title and interest of the above named F. E. Gronquist in and to the above described property, on

MONDAY, the 10th day DECEMBER, 1906,

during the legal hours of sale, at the Court House door, Clanton, in Chilton county, Ala.

Dated at Clanton, Ala., this 1st day of November, 1906.

J. M. MORGAN, Sheriff Chilton county.

There's No Use

talking you can't beat Herbine for the liver. The greatest regulater ever offered to suffering humanity. If you suffer from liver complaint, if you are bilious and fretful its your liver, and Herbine will put it in its proper condition. A positive cure for Constipation, Billiousness, Dyspepsia and all ills due to a torpid liver. Try a bottle and you will never use anything else. Sold by Upchurch Drug co.

TYNER'S DYSPEPSIA REMEDY.

A Guaranteed Cure. Many Have Dyspepsia and Don't Know It.

The purchase price (50c) of Tyner's Dyspepsia Remedy will be returned if it fails to cure or relieve dyspepsia or indigestion in any form. Take as directed on label. Many people have fluttering of the heart, risings or pimples on the skin, dizzy feelings, aches and pains in the side or back, weak kidneys, constipation, belching of wind, blurred eyesight, tainted bad breath, hawking and spitting, headaches, acid stomach, pale skin, and don't know it's dyspepsia. If you have any or all of these symptoms take Tyner's Dyspepsia Remedy, and a cure is certain, sure and lasting. Tyner's Dyspepsia Remedy strengthens weak stomachs, helps digest your food, stops aches and pains, (stops colic immediatly). It tastes good and warms your stomach from the first dose. Cures where all else fails. Try it. Druggists, 50c. a bottle. Sold in Clanton by Florence Drug store; call or write; remedy sent by express.

Billiousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally.—MRS. ROSA POTTS, Birmingham, Ala. These tablets are for sale by Upchurch Drug co., Clanton, A Horn, Thorsby.

$125 Reward.

The above reward will be paid on delivery of John Baker, colored, to the Sheriff of Chilton County, Ala., wanted for the shooting of W. A. Pool, April 14, 1906. Height 5 ft 8 in.; weight about 165 lbs.; age 45 years; black skin. J. M. MORGAN, Sheriff Chilton County, Ala.

This is Worth Remembering.

As no one is immune, every person should remember that Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Upchurch Drug co.

Dairy and Food Commission's Report.

The Minnesota Dairy and Food Commission's analysis shows that Kennedy's Laxative Honey and Tar and Bee's Laxative Honey and Tar contained opiates and croton oil. Opiates are poison and croton oil is a violent poisonous purgative. Refuse to accept any but Foley's Honey and Tar in a yellow package. Foley's Honey and Tar contains no opiates or dangerous drugs and is the best cough and cold cure. Upchurch Drug co.

MAN ON THE CORNER

Some Sights He Saw, and Some He Saw Not.

Thanksgiving Day. "O, give thanks to the Lord, for He hath done marvellous things." This has been a year of prosperity and we have every reason to be thankful. Let us not forget to whom praise is due. One day surely can well be spent in thanks, although the other 364 will be passed in the same. We have much to be thankful for all the time, but on this day let us all "Lift up the heart, lift up the voice, rejoice, I say rejoice!"

ingham printers do make blunders sometimes—but this giving Day, let it go at

Maplesville, Nov. 25, 1906. Banner—Much is being said about stock law in Beat 3 and I want to say a few words. First, as a rule we don't need it; some seem to think that we would have to do any fencing. But if we have stock law we will have to make fence and neighbors will fall out with each other and hard feelings will exist, lots of little innocent children will not get any milk or mutton or beef; leather will be high, and they will be barefoot in cold winter, and confusion will be all over our now and prosperous county and would be taxed to fence our taxed to keep it in good instead of keeping up our and roads. My! my! we enough special tax Do let well enough alone while longer. Of course the will come when we will need law, but not yet. There are reasons why stock law would well, but there are more against it than in favor of think we had better tear some bridges, if we call them and go in easy than to get them and fall in with all the others on us. When I think we are treated in regard to bridges, I feel like the was about to be drowned to pray, he said Lord, thankful for what we are receive, for God's sake, Thanks to our county treas his revelation. There is a number of people who are under an erroneous impression. They think that they never control enough money to start a bank account. In this they are mistaken. We solicit small accounts as well as large. And we handle the business of both with our best care. We believe that you ought to have a bank account, and we ffer you our services.

CORRESPONDENCE.

Your stomach churns and digests the food you eat and if foul, or torpid, or out of order' your whole system suffers from blood poison. Hollister's Rocky Mountain Tea. keeps you well. 35 cents, Tea or Tablets. Upchurch Drug co.

Lomax, Nov. 26, 1906

Editor Banner—Please allow me a small space to reply to the subscriber from Maplesville on stock law. He says that any man knows that it will take better fence to keep stock in than it will to keep them out. Well, if it does, would it not be much cheaper to keep our own stock in than it would to keep everybody's out. My experience is that it doesn't cost me much to fence against my own stock, but it costs a lot to fence against everybody's. He spoke of some one having a little brain that opposed stock law. Now, I do not like the kind of brain that forces me after I have fenced me a place to keep my tocsk, then go and fence every acre that I cultivate to keep the other fellow's stock from eating up my crop. This is what I call expensive brain. I have lived in stock law for many years and have found that stock law does not hurt any one, but is a protection to all and is less expensive to the landlord and renter also. We should study this question from an economical standpoint and use our brains accordingly.

Yours for stock law,
ANOTHER SUBSCRIBER.

Lomax, Nov. 24. 1906

Editor Banner—Will you give me a small space to say a few words in reference to stock law? Someone from Maplesville is saying amen to Mr. T. L. Elam in reference to stock law. I do not know what Mr. Elam had to say about stock law, though the subscriber from Maplesville gives it hail columbia, I only think that he nor Mr. Elam either have the right view of stock law or are only opposed to it through malace. He says that a man in his part has been sick and could not gather his crop and wants to know what would become of him. Why, brother, his crop would be protected by said law, but as it is now he has no law to protect him for want of a lawful fence, and as to taking a better fence to keep stock in than out, I fail to see how that could be, and as to the poor, I am very poor and think stock law a great friend to the poor; have lived in stock law and think it a blessing to all.

Success to the Banner.

SUBSCRIBER.

Card of Thanks

We not only thank the people of this community, but thank this whole settlement for their assistance and kindness shown us during our sickness and death of my wife. When you need us let us know, we are at your service.

As ever yours,

A Reliable Remedy for Croup.

Mrs S. Rosinthal, of Turner, Michigan, says: "We have used Chamberlain's Cough Medicine for ourselves and children for several years and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by Upchurch Drug co., Clanton, A. Horn, Thorsby.

CLANTON ACADEMY

Possesses superior advantages to pupils of all grades, prepares them to enter the best colleges and universities, trains teachers to stand examination for any grade certificate, and qualifies them the better to fill a place in their profession.

L. J. THOMPSON,
Principal.

TO WHOM IT MAY CONCERN:

Notice is hereby given that at the next ensuing session of the Legislature of Alabama a bill will be introduced to provide for an additional Judicial Circuit for the State of Alabama, to be composed of the counties of Autauga, Elmore, Chilton and Montgomery, and for the withdrawal of said counties from their present circuits; to provide for the temporary appointment of a judge and solicitor for said circuit; and for their salaries; to regulate the duties and residence of the solicitor; to provide times of holding court in said circuit; to confer chancery jurisdiction on said Circuit Court as to matters arising in Autauga, Elmore and Chilton counties, and to provide for Registers in Chancery therein; to provide for the removal of the pending causes, and remaining of pending appeals to the new court; to regulate the convening of grand and petit juries in said circuit; to authorize the judge of said circuit to adopt reasonable rules of practice to facilitate the business of the court.

CHAS. B. TEASLEY.

Dancing Proves Fatal.

Many men and women catch cold at dances which terminate in pneumonia and consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared. Refuse any but the genuine in a yellow package. Upchurch Drug co.

We have secured the agency for Orino Laxative Fruit Syrup, the new laxative that makes the liver lively, purifies the breath, cures headache and regulates the digestive organs. Cures chronic constipation. Ask us about it. Upchurch Drug co.

Shoults.

Editor Banner—Election is over and here comes stock law. I just want to say that I dont think that we need any stock law west of the Southern railroad, we have thousands of acres of hills and hollows that is fit for nothing only for our stock to graze on, we hear some say, oh if we had stock law I could get a Jersey cow or hog and we would have better stock. Now, I want to say to such men that there is no law to prevent people from getting better stock, you can get your fine stock without having stock law. I know of men that advocate stock law and own land too that could not pasture ten head of goat if they had to graze on their own land, if we are going to have a stock law, give us a law that will make the landlord furnish a pasture for his renter and then I dont want stock law, give me a road law and a law that will keep the people from planting so much cotton and keep the dagoes and tramps out and you can have the rest. Oh. I forgot to tell Mr. Traywick when he runs for office again and takes heartburn, chew a rich pine splinter and swallow contents—don't take whiskey.

BIG IKE.

FOR SALE

MAKE MONEY.

Here is an interesting study: Make out a list of all the people you know, and estimate the amount of money each one earns in a year. Total it up. The amount will be surprisingly large. Now, of all those people, only the few who SAVE SOMETHING really MAKE anything at all. Simply earning money isn't making it; what slips through the earner's fingers is finally "made" by somebody else. Don't forget to count yourself in on the list, and if you are not "making" money, begin now to save with us. One dollar will open your bank account.

STOCK LAW ELECTION NOTICE.

Published Weekly

CLANTON, ALA.

Sir James Crichton Brown, of London, declares that two hundred thousand deaths a year occur from preventable diseases.

There is more real interest manifested throughout the United States in State and county fairs than was ever before. With the country in a prosperous condition and good crops on every band, it is opportune that the fairs should flourish.

The picture of Gladys Vanderbilt milking a cow is creating considerable amusement. The artist has put her on the wrong side of the animal, explains the American Cultivator. Never mind, she belongs to the creme de la creme of society and can stand it.

America is still, by virtue of its great Puritan tradition and in the older sense of the word, an intensely moral land, writes H. G. Wells, in Harper's Weekly. Most lusts here are strongly curbed by public opinion, by training and tradition. But the lust of acquisition has not been curbed, but glorified.

Forty enlisted men from Eastern army posts—men chosen for their intelligence—were recently ordered to Washington by the United States army authorities, to be instructed in photography and finger-print identification. Desertions have been so frequent that extra precautions will be taken in the future. Hereafter there will be at each army post a man equipped with all the necessary knowledge and appliances for taking photographs and for making and preserving finger-prints as a means of identification. The new plan, it is believed, will prove a valuable help toward the identification of the dead in time of war, or of accident which causes such mutilation as to render the usual methods of no use.

Sleep, and how much of it the average person needs, was one of the subjects considered by the British Association at its annual meeting. The scientific men were agreed that no universal rule can be laid down; but they were also agreed that Wellington's saying, "Six hours for a man, seven for a woman and eight for a fool," would place the author of it, if he had done nothing else, in the eight-hour class. An abundance of sleep for young people during the period of growth was urged with unanimous insistence, and the advice was reinforced by a letter from the head of a boys' school, where the breakfast hour had been changed from seven to eight o'clock, with an immediate improvement in the character of the work done.

We cannot keep the Government too close to the people, maintains the Denver Republican. They are the source not alone of authority and power, but also of wisdom and virtue. Public men can make no greater mistake than to imagine that because a man has been in office a long time he is wiser and better than the people whom he represents. The great problems of our National life and civilization have not been settled in Congress, but by the people in their homes and their places of business and at the polls. Every Congress which has solved great problems developed at a critical period in our history has been elected in response to an appeal to public sentiment. The closer the Government stands to the people and the more it reflects enlightened public opinion, the truer it will be to American ideals and the less danger will it encounter in its progress through the years. The suggested extension of the term of Representatives in Congress would be a departure from this principle which the country can hardly afford to make.

An unofficial but apparently trustworthy forecast of the present British Government's scheme for the administration of Ireland has been published. Under this scheme the legislative union between Ireland and Great Britain, the Irish representation at Westminster and the powers of the imperial Parliament would not be changed; but an elective Irish council would be established at Dublin for the consideration of local questions, with power to frame bills which would be submitted to the imperial Parliament.

PEGGY'S THANKSGIVING

BY MRS. A M. COPELAND.

It was a dilapidated hovel, situated on a rear street on the edge of a bare common, where unsightly heaps of rubbish were deposited. A little, low, tumbled-down affair, with mossy eaves, under which the swallows build their nests, and over the roof of which a tall spruce, with brown and dry branches, towered.

The chill November wind whistled about it, sighing down the chimney, and ingress in many a crack around window and door. There dwelt Mrs. Grant and her little granddaughter, Peggy. Mrs. G. was a little, withered old lady, with a placid face and kindly smile. She was very poor, partly supported by the town, and eking out her slender income by means of knitting, braiding mats, and sewing carpet rags, for the busy housewives of the village.

Peggy was a bright, little girl of eight summers, much attached to her grandmother, and a favorite at the village school, notwithstanding her patched dress, dilapidated shoes and faded hood. Everyone had a kind word for her, and many a rosy-cheeked apple or crisp cookie was slipped into her basket, to eke out her dinner of cold johnny-cake, by her more favored companions.

School was out, and a merry group were putting on their wraps in the hallway, and discussing the coming festival, so dear to every New England child.

"I think Thanksgiving is just one of the best times of the year, don't you, Peggy?" asked a little, roly-poly girl about her own age, as she tied her red hood about her rosy face.

"I don't know; we never had Thanksgiving at our house," replied the little girl, who had been listening with wide-open eyes to the tales of roast turkey, chicken pies and frosted cake.

"Never had Thanksgiving, Peggy—why don't you?"

"Granny's too poor, she can't afford it."

"Sure enough. I didn't think about that," and Hattie Miller turned homeward with a thoughtful face and preoccupied air.

All the evening she seemed to be engaged in studying some problem, and said good-night very gravely. But the next morning she came bounding into the dining room with a radiant face.

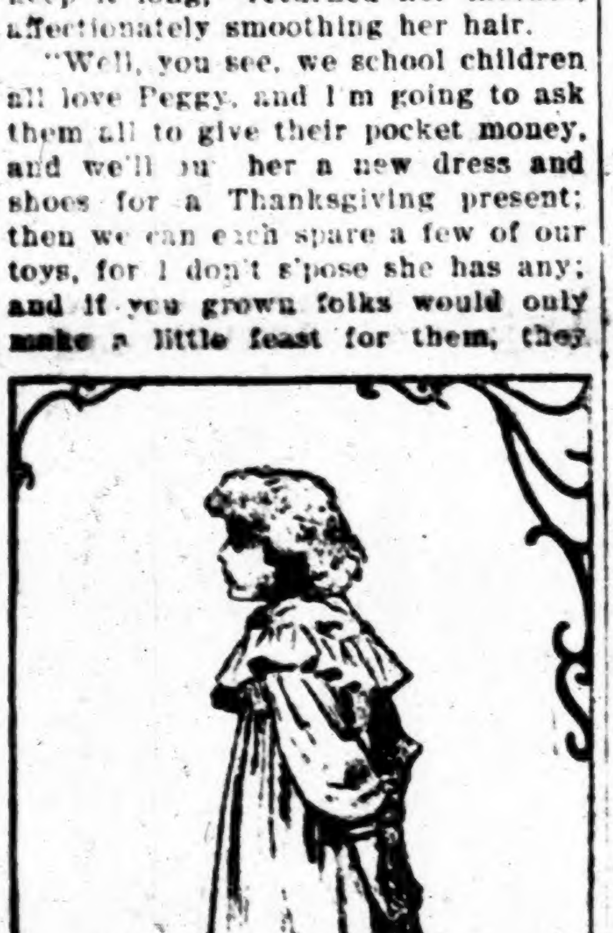
"Oh, mamma!" she exclaimed, "do you know Peggy Grant says they never have Thanksgiving at her house, her grandma is so poor. Isn't it too bad?"

"I never thought of it before, dear. I'm sorry."

"But mamma, I've got a plan in my head."

"I'm afraid this curly pate cannot keep it long," returned her mother, affectionately smoothing her hair.

"Well, you see, we school children all love Peggy, and I'm going to ask them all to give their pocket money, and we'll buy her a new dress and shoes for a Thanksgiving present; then we can each spare a few of our toys, for I don't s'pose she has any; and if you grown folks would only make a little feast for them, they can have a nice Thanksgiving."



"We never had Thanksgiving at our house."

Mrs. Miller smiled as she kissed the little, earnest face upturned to her.

"I'll do my part, and thank my little girl for giving me a hint. I think if you get your schoolmates interested in your plan, their papas and mammas will be glad to help, and we will make Peggy and her grandmother happy for one day at least."

"Oh, thank you, mamma," and Hattie sat down to her breakfast with a very happy face.

She hastened early to school, calling on the way upon several of her schoolmates, and enlisted them in her plan. She met with good success in all her appeals, even the older scholars promised to help the matter along, and a sum of money was raised far exceeding Hattie's most sanguine expectations.

This was judiciously expended at the village store by Mrs. Miller, who enlisted the sympathies of the merchant in the scheme, and materials for several serviceable garments were purchased, the garments cut out, and some young ladies offered to make them up.

Poor Peggy looked sorrowful at the happy faces of her schoolmates during the week, thinking it was the anticipated enjoyment of the coming Thanksgiving that made them so gleeful, and she wondered why they became so silent when she approached a group of them chatting away in the corner.

Thanksgiving morning dawned clear and cold. Mrs. Grant and Peggy ate their frugal breakfast, and with a sigh the elder lady put away the remnants, thinking of the many happy circles that would assemble around festive boards, and she could not afford an extra article of food that day. When the church bell sounded she laid aside her knitting, donned her old, rusty, bombazine dress and crape bonnet, that had served her many a year, and taking Peggy's hand set out for church; first covering the fire to save the little fuel in the stove until their return. The air was keen, and penetrated their thin garments, but the church would be warm—they could take seats near the stove—and as Parson Harvey's sermons were lengthy, they would have two good hours of warmth.

As the little black bonnet passed on its way, it was watched by a score of bright eyes; and as it disappeared through the church door, there was a general donning of hoods and cloaks, and a bevy of young girls came out of the different houses, bearing baskets, pails and bundles, and took their way to the dilapidated hovel.

A load of wood, that had been waiting on the outskirts of the village, was driven to the door and unloaded, and half a dozen young men with saws and axes began to demolish it, while a corps of little boys packed it neatly under a tumble-down shed in the rear.

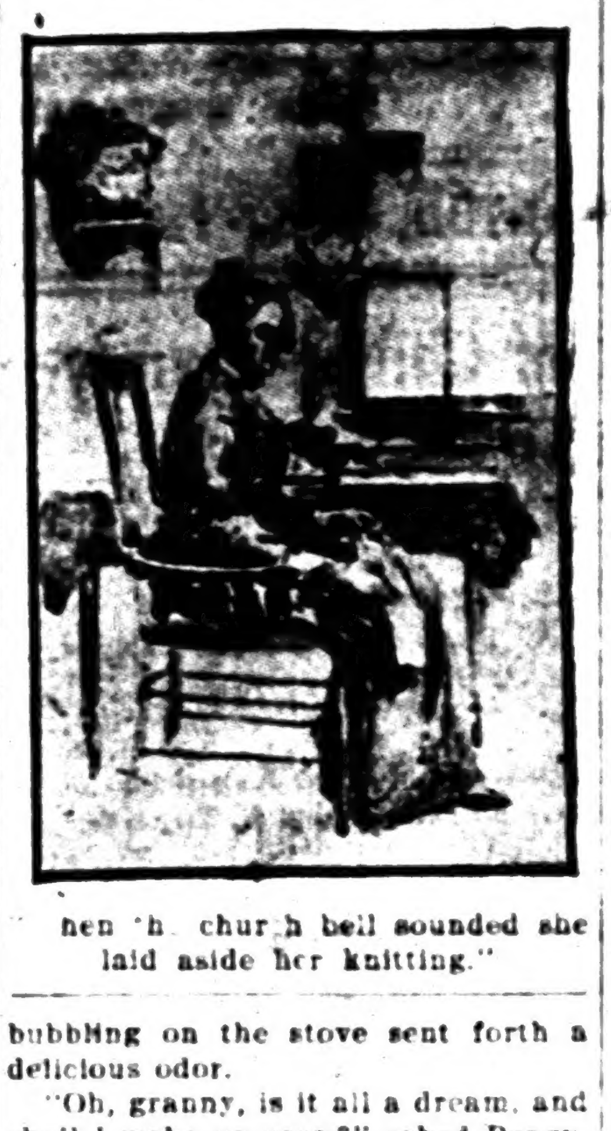
Meanwhile, within doors, the girls were busy transforming the cheerless apartment into one of comfort. The bare floor was partly covered with some strips of half-worn carpet—two or three cheap prints in rustic frames, with some wreaths of evergreen, gave the dingy walls a home-like look. Opposite the door the door the word "Thanksgiving," in evergreen, was placed. A bright fire was burning in the little stove, and the teakettle singing away as if it entered into the spirit of the occasion. The old table was drawn into the middle of the room, covered with a snowy cloth, and the widow's scanty array of crockery arranged to the best advantage upon it, while baskets, pails and bundles gave up their store of goodies to fill it.

As the time for the close of service drew near, they finished their work and left for their respective homes, watching with dancing eyes, Mrs. Grant and Peggy as they trudged demurely homeward.

As they reached their little domicile and opened the door of the kitchen, both uttered an exclamation of astonishment. The old lady sank into a chair and rubbed her eyes, thinking they were playing her some trick, while Peggy cried:

"Oh, granny, the fairy folks have been here!"

The table was set for two. A roast turkey occupied the place of honor, flanked by a chicken pie and a dish of scalloped oysters, while vegetables, bread and butter, pies and cakes of various kinds, and dishes of fruit filled the board, and a pot of coffee bubbling on the stove sent forth a delicious odor.



"When the church bell sounded she laid aside her knitting."

"Oh, granny, is it all a dream, and shall I wake up soon?" asked Peggy, her eyes swimming with tears.

"I don't know, dearie, what it all means; but here's a note," and taking a folded paper from the table, she read:

"A Thanksgiving dinner for Mrs. Grant and Peggy, from their numerour friends."

"Thank the Lord for such friends who remember the widow and orphan," said Mrs. Grant, wiping her eyes.

"Oh, granny, see here!" shouted Peggy, pointing to the bureau, on which was arranged an asortment of toys and picture-books, a crimson merino dress, sack and hood, with a neat pair of gaiters. A card, with this inscription, lay by their side:

"Peggy Grant, from her schoolmates."

We must not dwell upon the pleasures of that day; it was the richest in Peggy's experience, and in after years, when she moved in the best circles in society, she looked back with a warm feeling at her heart to that Thanksgiving Day.—New York Weekly.

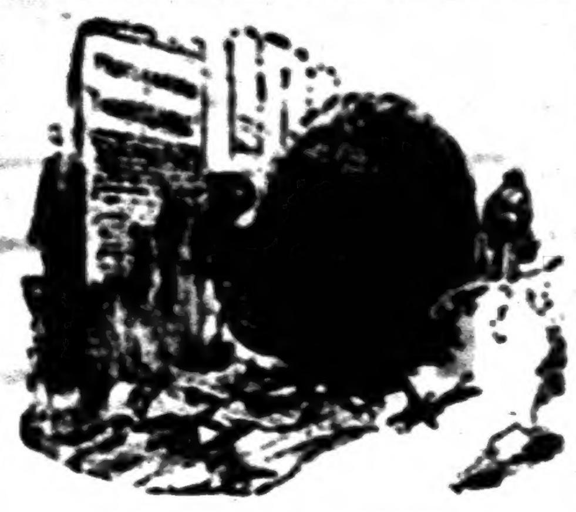
THANKSGIVING DAY

Cranberry Hints.

In cooking cranberries avoid cooking them in tin, which gives them a purple hue. Use granite or porcelain, and to each quart of cranberries measure out a pint of sugar and a cup and a half of water. Put the berries into a pan first, on the top of them the sugar, and over all the cold water. Cover closely and cook for ten minutes without stirring. Watch that they do not boil over, shaking and turning the pan from time to time. Then take off the lid, skim with a silver spoon, push back and let simmer a few moments longer, then turn into a dish to cool. The skins, cooked in this way, will be soft and tender, the berries nearly whole and the juice clear and almost a jelly.

A Noble Bird Slighted.

An Englishman in Paris asked Franklin why his countrymen selected a stupid, uneatable eagle as their emblem, when they had supplied them with such a noble bird as the turkey.



The Turkey's Revenge.

TOMMY'S THANKSGIVING.

I'm thankful for a lot of things:
  I'm thankful I'm alive,
I'm thankful that I'm six years old
  Instead of only five.
I'm thankful for my tops and toys
  And for my Kitty Gray;
I'm thankful for the big outdoors
  Where I can run and play
I'm thankful for the things that grow,
  The apples, aren't they good?
That corn where we played hid and seek,
  As in a little wood.

I'm thankful for the pumpkins round,
  Just like a golden ball,
And jack-o'-lanterns, big and queer,
  They don't scare me at all.
I'm thankful for Thanksgiving Day,
  For pies all in a row?
I'm thankful grandma made them sweet—
  She knows I like them so
I'm thankful for the turkey, too,
  How brown it is and nice!
And I'd be very thankful, please,
  For just one more slice
—Elizabeth H. Thomas, in Youth's Companion.

A Turkey Anecdote.

The famous French authority, Brillat Savarin, who visited this country more than one hundred years ago, left an account of his experience in hunting wild turkeys. On his return from this expedition some famous man was telling him stories of Washington. The Frenchman's attention wandered, but he, by a marked effort, recovered himself and said: "I beg a thousand pardons, but I was thinking how to dress my wild turkey." Another story of Savarin was told by Talleyrand. Passing through Sens on the way to Lyons, he sent for the cook, according to his custom, and asked what he could have for dinner. The report was discouraging, for although four turkeys were roasting in the kitchen, they were all for one guest. "I should like to meet the man who orders four turkeys for his own eating," said Savarin, and he went to pay his respects to the stranger, who turned out to be his own son.

"What, you rogue, four turkeys, all for yourself?"

"Yes, sir; you know whenever I dine with you, you eat up the whole of les-sots-les-laissent," the titbit known as the oyster. "I was resolved to enjoy myself for once in my life, and here I am, ready to begin, although I did not expect the honor of your company."

Secret of a Successful Dinner.

A housekeeper should never get so thoroughly tired out beforehand that she will have to sit like a death's head at the feast. There will be no pleasure in that for her or her family and guests. She should begin her preparations in time, counting the cost in money and strength, so that neither balance will be overdrawn.

The secret of successfully serving a Thanksgiving dinner is to have the greater part of it in readiness before the day itself dawns. The turkey and vegetables need to be cooked on Thanksgiving Day, and the pumpkin pie should be baked fresh that morning, but only the finishing touches need be given to the other dishes. Have the necessary sweeping and garnishing done earlier in the week—the silver polished, and the old family china or precious bits of pewter that make their annual obeisance on this day released from their wrappings.

Selecting the Bird.

In selecting turkey bear in mind that a fine, plump hen turkey is to be preferred to a male bird. Select one that is smooth and fair, with short, plump breast and a scarcity of pin feathers. Beware of long hairs or scaly legs, which betoken turkey senility. If only Hobson's choice is left, and it is a veteran or nothing, do not despair, as an hour's preliminary steaming will plump him up and make him tender.

An Epicure at Wholesale.

There is an old story of an epicure, who said: "We have just been dining on a superb turkey, tender and delicate; we left nothing but the bones." Being asked how many were included in the "we," he replied. "Two; the turkey and myself."

Millions of Turkeys.

It is estimated that six million turkeys are required to furnish the Thanksgiving dinner tables each year. That means over fifty million pounds of meat, worth $7,500,000. Of this sum the smallest State, Rhode Island, receives the largest share.

IRA W. HENDERSON,
THE FAMOUS DIVINE.

Personal Experience.

N. Y.—Preaching at the Square Presbyterian Church "Personal Experience," I. W. Henderson, pastor, his text Jno. 4:42: "Now we not because of thy saying; heard Him ourselves, and that this is indeed the Christ, of the world." He said: final proof of the value of the to the individual lies in per experience. The one test which, all others, warrants a man to or to deny Him, is that of wledge directly acquired. No fit to flaunt Christianity as who has not first observed incidental to the living of life. He is the best advo the beauties of the Christian who has been loyal to his commands.

consensus of Christians is the a common experience. We, of the kingdom of God, and together certain for faith because we have, each self, as individuals, found for us those working prin that we maintain. The church represents, in its funda dogmas, the opinions of myr who have, through the pro individual experience, reached ground of belief. The catholic is divided upon sec tenets according to the vari secondary Christian religious among men who assert al to the central truths. In the all of us who believe in Christ, are Christians be we each recognize as a per experience the truths which ity asserts to be fundamen I am a Presbyterian and you Methodist, not because our are different at the vitals, but our secondary experiences like. The Christian Church aggregation of men who see with the same eye and who find and in His power in their bonds which link them fast. any sect or denomination of is but the congregation of the followers of Christ a secondary tenet that is alive their own peculiar doctrine, the of an individual experience. bottom of it all the moving is personal experience. No a good Christian who has not tact with Christ. No man preciate the genius of Presby save he who has had the common to all who hold ed. It is a wise thing for who honestly differs from his men; it is a sensible thing for an who earnestly and reason agrees with his fellow fol of Christ; to examine his con—that is to say, his creed, his his tenets, as you will—and whether or no they mirror his personal experiences. ely because a man finds him variance with the world of him is no sign that he has preted his experiences or is The prophets were perse t because they were wrong, use they framed from the hand conclusions that the did not care to admit as ten Galileo got into trouble be Ptolemaists thought him crazy. rld was called flat until a soul declared it round. would never have nailed the ive theses to the door of the at Wittenberg had he not to the truth as he saw it. se men were, as are many day, dead wrong in their be measured by the standards of

results attained in all depart of knowledge are the outcome personal experience of indi A scientific law may be the tion by a single man of truth out of the records of his per experience, unaided and un by the experience of any man—not infrequently at first But this much is sure: that that has the assent of any is based entirely upon the ces of individual men who ceived and been influenced lar phenomena in their sep ives.

the knowledge that we have the laws that we accept at hand are, at bottom, founded research and personal inves and experience of some sin or some set of men. To say accept many truths at second no way injures our argument. we receive upon the asser other men is so taken be we have faith in the validity conclusions as being the di sult of their personal experi Repetition is never so in convincing as is the dictum first source. And the only t re-statement has is gained personal knowledge out of springs. By virtue of the ity of the demands on our have to rest much of re truth upon the decisions of ; but, in the providence of may prove accepted truth if in the investigation and the on of our own personal ex

, however, is entitled to af to deny the value of a de truth unless he has either met all the requirements of each or accepted the opinion of original investigator who has all incidental demands. How would be for a man, untutored ersed in the sciences, to set opinion, without deep and investigation, against the of a Darwin, a Tyndall Wallace. And on the other w unmanly it would be for ed student, who has, after and painstaking effort, conclusions at variance with theory of all his masters be to flinch to state and to stand by the truth revealed to him by God.

If, in the realm of science, experience shall be held to be the test of value of opinion, how much more necessary will it not be in the sphere of the religious life. It is easy for the scoffer to mock at the joys and the comforts of the Christian life. There is no difficulty for the man who really wants to find men who, after half-hearted service and misinterpreted, misunderstood experiences, pronounce the life within Jesus a fraud. But is the cry of the maligner of Christianity legitimate and well based? Has any man a right to disparage a system of living of which he has no experimental knowledge or of which his sole information is unscientific or fraudulent? Which shall be mightier, the testimony of the soul which having fulfilled the conditions is satisfied and sure, or the tale of woe of the charlatan who never met the measure?

But if it is needful to be rich with experience to deny the grace of the God blessed life, it is still more necessary to be saturated with a deep, Christly, spiritual, personal experience in order to convince others of its value and to enjoy what Beecher called "its privileges and prerogatives." The holy men of Israel knew the beauty of Jehovah and the glory of a life near to Him because they enjoyed and practiced experimental communion with Him. Jesus proclaimed the majesty of the Father and the loveliness of a God-inspired career because He dwelt within the presence of His King. Paul paints the manifold blessings of the Christian life because he was a thoroughgoing Christ-man. The Samaritan woman received Jesus as the prophet for whom her heart longed because she had seen Him face to face. And her brethren from the city believed on Christ since she repeated to them her own short, graphic story concerning the truth she had both heard and seen. There we have it, faith founded on fact and on fact repeated—that is to say, upon personal experience.

All preaching and all testimony which strikes home to the heart is the story of the personal experiences. The first principle of a reaching talk is, to sum it up in a sentence, tell only the facts of life. And if in the telling of the Gospel story and in the application of the truth to the demands and the problems of to-day this element of dead certainty is of such immense importance, who shall deny its insistent necessity in order to the enjoyment and appropriation of the Gospel blessings by the individual.

The Christ life must be a live, first-hand, personal experience or it is useless. You may take your food prepared or predigested as you will. You may take your knowledge of the scientific disciplines by rote. But no man can know Christ or enjoy a rich and enriching spiritual communion within Him who does not live his life within Jesus for himself. "Now we believe, not because of thy saying; for we have heard Him ourselves and know that this is indeed the Christ, the Saviour of the world," said the men of Sychar. And this is, as in the nature of the case it must be, the testimony of every man who will enter or who has entered into the enjoyment of the "privileges and the prerogatives" of the Christian life. No other method of entrance is so satisfactory. No other testimony from the citizens of the eternal kingdom is so influential and convincing. No other knowledge is so certificating to the intellect. No other evidence is so soul inspiring. Without a vision of the Christ no man may witness worthily for Him. Blessed with a personal experience we may lead the multitudes to God.

A Christian who is devoid of a personal experience with the presence and the personality of Jesus Christ is a paradox. Strictly speaking there is no such thing as a Christian life apart from the immediate influence of the Lord Jesus. We might as well call a man a sinner and without the pale of the kingdom of God, as we have it in the economy of Jesus, as to call him a "nominal Christian." We speak of nations as nominally Christian because we do not wish to be unkind in our terminology. In reality a nation that is nominally Christian is usually a nation that bears no more resemblance to Christ, His plans, His teachings, His character, than is expressed by the fact that for convenience's sake and for purposes of international differentiation, we so denominate it.

The man who hopes to win men with a message that is other than born of a personal and direct inspiration from God Almighty is an anachronism. It may have been possible at some time in the dark ages of history to win men to Christ by hearsay testimony, but it cannot be done to-day. The world wants the message of the eye witness, the report of the man who has heard the truth with his own ears. Humanity desires the testimony of the scientific investigator, the man who has tested the truth and has found it real.

"Now we believe—because—we—know." This is the gist of the text and the outstanding truth of that joyous Samaritan day. This is the test of faith. A vote of confidence to the Christians who can say it. Joy unspeakable to the sinning man who finds therein salvation for his soul.

Everyday Religion.

"I have so fixed the habit in my own mind," said Stonewall Jackson, "that I never raise a glass of water to my lips without asking God's blessing. I never seal a letter without putting a word of prayer under the seal. I never take a letter from the post without a brief sending of my thoughts Heavenward. I never change my classes in the section room without a minute's petition for the cadets who go out and those who come in."

THE SUNDAY SCHOOL.

INTERNATIONAL LESSON COMMENTS FOR DECEMBER 2.

Subject: Jesus Before Pilate, Luke xxiii., 13-25—Golden Text, Luke xxiii., 4—Memory Verses, 20, 21—Commentary.

I. Pilate endeavors to release Jesus (vs. 13-17). 13. "Pilate." Pontius Pilate belonged to an ancient and knightly Roman family. "Called together." Pilate summons the rulers and the people. 14. "As one that perverteth." As one that has taught doctrines injurious to your religion. "Having examined." At the first trial he had heard all that could be brought against Him. "No fault." They had failed to prove a single charge.

15. "Nor yet Herod." Christ had traveled extensively in Galilee and yet Herod brings no charge. "He sent Him back unto us" (R. V.) This involved a distinct acquittal. "Is done unto Him." "Nothing worthy of death hath been done by Him."—R. V.

16. "Chastise Him." John says that Pilate took Jesus and scourged Him; but this was not done until a little later. "And release Him." Pilate hoped that when they saw Jesus scourged they would be satisfied, but not so; they were clamoring for His blood, and nothing short of death on a cross would satisfy them.

17. "Must release one." This verse is omitted in the Revised Version. But see the parallel accounts.

II. The clamors of the Jews (vs. 18-23). 18. "They cried out." The chief priests moved the people (Mark 15:11). "Barabbas." An insurrectionist, a robber and a murderer.

19. "Sedition." Insurrection. Matthew says he was a celebrated prisoner. In some manuscripts he is called Jesus Barabbas.

20. "Willing to release Jesus." It was probable at this time that the messenger came from Pilate's wife (Matt. 27:19) urging the release of Jesus. Pilate repeated the proposal of verse 16.

21. "Crucify Him." Let Him die the most ignominious death possible. Had the Jews executed Him according to their law against false prophets and blasphemers they would have stoned Him, as they repeatedly attempted to do, and as they did with Stephen. His prophecy of crucifixion was practically a prophecy that He should be put to death, as He actually was, on a charge of high treason against the Roman government. It can hardly be supposed that these people who were crying, "Crucify Him," were the same people who had brought Jesus into the city the Sunday before with shouts of hosanna. This was a Jewish mob urged on by the authorities; that was no doubt largely a Galilean crowd.

22. "What evil hath He done." How many and what various persons bear testimony to the innocence of the Holy One — Pilate, Herod, Pilate's wife, the thief on the cross, and the centurion at the crucifixion. "And let Him go." Pilate is laboring hard to release Him; he could have ended this whole matter with one word. It was at this juncture that Pilate asked, What shall I do then with Jesus, which is called Christ? This is a question every person must answer. 1. Every person must accept or reject Him. 2. Rejecting Christ is the great sin of the world. 3. If we reject Him here we shall be rejected by Him hereafter.

23. "Instant." Insistent, urgent. "Prevailed." The reason why he finally yielded seems to have been the one given in John 19.12, "If thou let this man go, thou art not Caesar's friend." But Pilate gained nothing even with Caesar, for he was soon recalled, degraded and banished to Gaul, where he committed suicide.

III. Pilate pronounces the death sentence (vs. 24, 25). 24. "Pilate gave sentence." Before Pilate pronounced the sentence he took water and washed his hands publicly, thus expressing in acts what he uttered in words, "I am innocent of the blood of this just person; see ye to it". (Matt. 27:24). The people accept the responsibility and cry, "His blood be on us, and on our children." That blood was upon them, not as vengeance, but as a natural consequence of their conduct. Within forty years the city was destroyed amid scenes of cruelty which defy description. No history can furnish us with a parallel to the calamities and miseries of the Jews at that time. There was rapine, murder, famine, pestilence and all the horrors of war. The account given by Josephus is heart-rending. Pilate again ascends the judgment seat, which was set up in a raised place in the open square, and delivers his final decree. 25. "He delivered Jesus to their will." Jesus is now mocked the third time, about 8 o'clock, Friday morning, in the court of Pilate's palace. See Matt. 27:26-30; Mark 15:15-19; John 19:1-3. When Jesus is brought out before them, Pilate makes one last effort to release Him (John 19:4-15). Now it is that he permits Jesus to be scourged, hoping that will satisfy them; but the cry is still, "Crucify Him," and He is taken back into the court and His own clothes are put upon Him. It was at this time that Pilate said, "Behold, the man!" And well may we stop and behold Him. He was "a man of sorrows, and acquainted with grief" (Isa. 53:3). In Him we see a perfect exhibition of meekness and love and a perfect example for us to follow. He was the God-man and as such made the great atonement for the redemption of mankind.

There's a deal of difference between using the Bible as a text-book of life and as a book of texts.

A Call to Farmers.

Montgomery, Ala.—A convention of the Montgomery county division of the Southern Cotton Association was called to meet at the court house December 11 for the purpose of electing county officers and to name delegates to the state convention, which meets in Montgomery in January.

Delegates to the county convention will be elected at beat meetings to be held the first Saturday in December.

ALABAMA GLEANINGS.

Items of Interest Gathered as They Transpire Over the Entire State.

Towboat Burned.

Florence, Ala.—The towboat City of London, owned by I. Garrison and under command of Capt. Felix G. Lambert, Jr., burned to the water's edge, where it was tied up at Sweetwater Landing, a short distance above Florence. The boat arrived from Lamb's Ferry, towing a barge of cotton, and at 5 o'clock fire broke out in the roof near the pilot house. The only persons on board were Capt. Lambert and a watchman, and they are completely at a loss to explain the origin of the fire. When the boat had burned to the water the engine rolled to one side of the boat and capsizing it, sunk to the bottom. The hull turned turtle, floated down stream and has not yet been recovered.

Owing to the high stage of the water the City of London was doing a big business, and its loss will be severely felt by local shippers, as well as the owners. The boat was valued at $1,[illegible], and carried $1,000 insurance, placed by J. D. Weeden, Jr., with the Providence Washington Insurance Company, of Providence, R. I.

Mistrial in Chisolm Case.

Birmingham, Ala.—Because of the continued illness of Juror Bicknell, Judge Jones, of the United States court, ordered a mistrial in the case of Alex R. Chisolm, former paying teller of the First National Bank, who defaulted for $[illegible],000. The case was continued generally, and will not be called again until the spring term of court next year. The trial has been in progress fourteen days, and the jury, after hearing all the evidence for the prosecution, was called upon to decide whether or not the defendant was mentally unsound and incapable of making a proper defense. This consumed almost a week, and resulted in the jury finding that Chisolm is sane. The illness of the jury followed. The cases of W. L. Sims and P. G. Smith, the two brokers charged with complicity in the Chisolm embezzlement, have also gone over until the next term of court.

Supreme Court Rulings.

Montgomery, Ala.—The supreme court has ruled on the following applications for rehearing: W. Gibbs Henry vs. Thomas W. Wert, appeal from Morgan probate court, application overruled; Parmelia Stult Graham vs. city of Tuscumbia et al., appeal from Colbert circuit court, application overruled, while Emma Norwood vs L. & N. R. R. Co., appealed from Limestone chancery court, opinion modified and application overruled; Ed Garth, pro ami., vs. North Alabama Traction Company, appeal from Morgan circuit court, application granted judgment of affirmance set aside and reversed and remanded.

Bloody Deeds.

Montgomery, Ala.—Excessive bloodshed on Sand Mountain is causing a reign of terror among the residents of the section about Fyffe. J. W. Wright shot Tom Bailey, and was later fatally filled with buckshot from ambush as he sat by his evening fireside.

Jack Davis, who shot Sam Underwood to death, has been captured in Texas.

There seems to be a series of feuds that promise more trouble. Rewards will be offered for the assailants of Wright.

Badly Hurt by Horse's Kick.

Florence, Ala.—B. B. Garner, one of the leading grocerymen of the city, was driving home from his store, and in going down a steep hill the holdback strap broke and the horse commenced kicking. Mr. Garner was thrown from the wagon and rendered unconscious, receiving a bad gash in his left leg above the knee and several serious bruises.

Birmingham, Ala.—The 7-year-old son of J. L. Morris, a prominent citizen of Jasper, was run over and almost instantly killed under a wagon upon which he, with several other boys, had been jumping for a ride.

Contested Election in Walker.

Birmingham, Ala.—Following the sensationally close and at time almost violent political battle in Walker county, in which the regular democratic nominee, J. O. Long, was elected by a small majority over J. F. Swindle, republican candidate for sheriff, the republicans have filed notice of a contest with the Walker county probate judge, alleging fraud and illegal votes.

Was an Alabamian.

Gadsden, Ala.—Miss Annie Ide, the young lady who recently married Bourke Cockran, the noted New York politician, is well known here, where she had often visited. She was the daughter of H. C. Ide, of Jacksonville, Ala., a well-known merchant and manufacturer. He was appointed by President McKinley as one of the commissioners to the Philippine Islands. His daughter is a striking type of southern beauty.

A WOMAN'S REVENGE.

Planning to Get Best of a Telegraph Company.

There was a radiant smile on Mrs. Weber's face which nothing but a bargain or a new tooth in the baby's mouth ever called forth, relates the Youth's Companion.

"I've got the best of the telegraph company for once in my life," she said, removing hat-pins with each hand. "I didn't mind the hot walk to the office and back or anything, when I'd thought how I could pay them for making me write that last telegram to mother, just because there were eleven words and I only had a quarter with me, and it was mother's birthday, and of course I wouldn't let her pay, and so I had to leave out a 'very' that just made it seem like her own daughter."

"It was a shame," said Mr. Webber, solemnly. "How did you get even?"

"I sent a message to cousin Mary Wilcox, and eight of the ten words in it were three syllables long. I wish you'd seen the operator's expression, Henry, but of course he couldn't say a word,"—Mrs. Webber elevated her round chin and gazed triumphantly at her husband—"and I'm thinking up one to send to your sister Frances with three four-syllabled words in it!"

WISE WORDS.

Charity and piety are not always on speaking terms.

Laziness is one of the most unsatisfactory things on earth.

It's better to have money to burn than to have time to waste.

Most men know a good deal less than they think other men think they know.

Nothing but six feet of earth will keep a good man down—or a bad man either.

You will never discover a man's true nature until you permit him to owe you money.

This is the law of benefits between men: the one ought to forget at once what he has given, the other ought never to forget what he has received.—Seneca.

Take care that your profesion does not outrun your possession. Artificiality and hypocrisy tear character to shreds eventually.—Maltbie D. Babcock, D. D.

We can help make people bright by our keenness, but we can never accomplish anything toward making people good except by our tenderness.—C. H. Parkhurst, D. D.

When we allow our best life to unfold and express itself in word or deed, or to go out from us as pure influence, we grow like God, whose utterance creation is. And always we find it more blessed to give than to receive. We are ourselves served best by serving others.—C. G. Ames.

He will certainly fail who hopes to know men deeply and only to get happiness, never to get anxiety, distress, disappointment, out of knowing them; and he has mistaken the first idea of human companionship who seeks companionships, friendships and contacts with mankind directly and simply for the pleasure they will give him.—Phillips Brooks.

The Record For Dog Bites.

"Show me a letter carrier," said a postal official, "and I'll show you somewhere or other on the man the scar of a dog's teeth. Letter carriers hate dogs and with good reason, for they are continually getting nipped. It is at houses with front gardens that they are troubled most. Dogs run loose in these gardens and it is their delight to bite letter carriers. I myself have two scars on my hands and two on my legs. Take a census of every trade, and I'll guarantee that the letter carriers will lead in percentage of dog scars."—Philadelphia Record.

Rounding Him Up.

Wooden—"Mildred, I offer you my heart, my——"

No reply.

Wooden—"Mildred, I offer you my heart, my hand, my love, my devotion, my whole life."

No reply.

Wooden—"I lay my proudest ambitions, my brightest hopes at your feet. Will you not speak, Mildred?"

Mildred—"Who owns the grocery shop at the corner—you or your brother?"

Wooden—"I do."

Mildred—"Well, why didn't you say that at first?"—London Tit-Bits.

Worship a Deux.

When Dean Swift was called to the living of Loracor, he inaugurated the custom of reading prayers on Wednesday and Friday. At the first Wednesday service he waited in vain for any one to appear except his Clerk Roger. At length he began, "Dearly beloved Roger, the Scriptures moveth you and me in sundry places," and so proceeded to the end of the service.—Harper's Weekly.

New York Collector After Cacti.

Dr. D. T. MacDougall, director of the Department of Botanical Research of the Carnegie Institute, of Washington, in collaboration with Dr. J. N. Rose, curator of plants, in the United States National Museum, at Washington, is in Mexico for the purpose of securing for the New York Botanical Garden a collection of the cacti of Mexico.

A Hazleton (Pa.) school teacher rests her pupils by allowing a ten-minute sleep.

In Persia bells ring for prayers five times a day, and merchants, clerks and customers rush off to the mosques, leaving all business at a standstill.

Germany now has fifty-four mountaineering clubs, with a total membership of over 142,000.

Paisley was the first place to make pocket handkerchiefs. That was in 1743.

A Horse's Tail.

As an essential part of appointment the trimming of the horses, their grooming, clipping, etc., is a most important feature. Since horses must by the edict of Dame Fashion be docked, it is strange that so little attempt is made to suit the length of the dock remaining unmutilated to the size of its hapless wearer. All horses from the twelve-hand pony to the seventeen-hand landau horse are chopped across the same joint of the tail, and the result is even more grotesque than the hideous and wantonly brutal fashion need make it. Large horses require something more than the pitiful stub usually left to make them appear decently balanced; and surely a well-trained "switch" is more graceful and ornamental than the sharp outlines of the square-cut tail. Nearly all the animals are also "pricked" nowadays, as if to hoist in perpetuity their meager distress-signal at half-mast before a callous world; but what any one can see of genuine grace or beauty in this style is verily a mystery. Manes, foretops, ears, heels, etc., are but carelessly kept in exact order, and a horse thus disheveled is as illy "turned-out" as his owner would be in his evening clothes with a week's beard on his unshaven jaws.—F. M. Ware in "How to Appoint Your Vehicles," in The Outing Magazine.

PEARLS OF THOUGHT.

Any one can plow and sow and reap, but not everybody can do so at a profit.

Skinning the farm sometimes pays for a few years, but it is poor farming for all that.

Fear is sharp-sighted and can see things underground more than in the skies.—Cervantes.

Thought is always troublesome to him who lives without his own approbation.—Johnson.

We are ruined by borrowing—by borrowing trouble even more than by borrowing money.—J. L. Spaulding.

The laws of conscience, which we pretend to be derived from nature, proceed from custom.—Montaigne.

Freedom does not consist in doing what I like, it consists in liking to do what I ought.—Dr. Alexander Maclaren.

The more labor and time and capital you put into farming, the more profit up to a certain limit. Success is to find that limit.

Undertake only what you can reasonably expect to be able to do and your success is sure. To many men begin to lift before they look at the load.

All work and no thought makes a dull farmer. All thought and no work will never pay the mortgage. How much time to spend in planning out must be decided by each for himself. —American Cultivator.

Life is made up, not of great sacrifices or duties, but of little things in which smiles and kindnesses and small obligations, given habitually, are what win and preserve the heart and secure comfort.—Sir Humphrey Davy.

A DOCTOR'S TRIALS.

He Sometimes Gets Sick Like Other People.

Even doing good to people is hard work if you have too much of it to do.

No one knows this better than the hard-working, conscientious family doctor. He has troubles of his own—often gets caught in the rain or snow, or loses so much sleep he sometimes gets out of sorts. An overworked Ohio doctor tells his experience:

"About three years ago as the result of doing two men's work, attending a large practice and looking after the details of another business, my health broke down completely, and I was little better than a physical wreck.

"I suffered from indigestion and constipation, loss of weight and appetite, bloating and pain after meals, loss of memory and lack of nerve force for continued mental application.

"I became irritable, easily angered and despondent without cause. The heart's action became irregular and weak, with frequent attacks of palpitation during the first hour or two after retiring.

"Some Grape-Nuts and cut bananas came for my lunch one day and pleased me particularly with the result. I got more satisfaction from it than from anything I had eaten for months, and on further investigation and use, adopted Grape-Nuts for my morning and evening meals, served usually with cream and a sprinkle of salt or sugar.

"My improvement was rapid and permanent in weight as well as in physical and mental endurance. In a word, I am filled with the joy of living again, and continue the daily use of Grape-Nuts for breakfast and often for the evening meal.

"The little pamphlet, 'The Road to Wellville,' found in pkgs., is invariably saved and handed to some needy patient along with the indicated remedy." Name given by Postum Co., Battle Creek, Mich. "There's a reason."

The Banner.

Printed and Published every Thursday at Clanton, Chilton County, Ala.

Entered at the postoffice at Clanton, Ala., as second-class mail matter.

"Here shall the press the people's rights maintain,
Unawed by influence and unbribed by gain,
Here patriot truth her glorious precepts draw,
Pledged to religion, liberty and law."

Subscription, yearly : : : $1.00
Invariably in advance.

Address all communications to THE BANNER, Clanton. Ala.

Thanksgiving day!

THE Southern Cotton Association has done a vast deal of good in improving the condition of the farmers, and the election of officers for the ensuing year should arouse enthusiasm. The following letter explains itself:

Letter from Pres Seymour to Mr. Gulledge.

Dear Sir—The constitution of the Southern Cotton Association provides that on December 1st beat meetings shall be held for the election of a president, vice-president, secretary and treasurer of the various beats, also two representatives from the beat to meet with representatives from the other beats of the county at the county site on the following Tuesday, at which meeting a president, vice president, secretary and treasurer of the County Association shall be elected for the ensuing year, and ways-and-means adopted by which organization may be perfected in the county. At the county meeting there should also be chosen a representative to the State meeting to be held at Montgomery, January 2d, at which time the officers of the State Division and three executive committeemen will be chosen.

I sincerely hope that you will use your best efforts through the press and otherwise, in securing the action on the part of your people, and that the Association may be strengthened all along the line.

Very truly yours,
W. H. SEYMOUR,
Pres. Ala. Div.

AGRICULTURAL MOVEMENT.

Dr. S A Knapp, of the United States Department of Agriculture, and who has charge of demonstrative work in the South, has arranged to establish ten or a dozen of these farms in several counties in Alabama. This work is by no means experimental, but aims at an improvement in the present method of farming. It does not assume the work of experiment stations but attempts to make application of some of the principles which have been by these stations throughout the country. A prominent feature of this work is the ease of improved seed for planting and the teaching of the principles of plant breeding, so that the farmer may hereafter be able to grow improved seed for his own planting, or to obtain them in his community instead of sending a distance for them and often paying enormously high prices for them as some of our most progressive farmers have done in the past. In each community there should be at least one breeder of cotton. corn, oats, etc., they will be readily dispursed of to his neighbors at good prices, and possess the advantage of being already adapted to local conditions of soil and climate, and being grown where the purchaser can see just what he is buying. With this advanced system of farming in operation. there will be a large demand among the planters for improved seed. Those who are far sighted enough to first take up this work will reap the largest benefit from the sale of seed, but the movement is intended to eventually reach all classes and conditions of farmers who will avail themselves of the instruction and methods offered them free, but of great expense to the government. In each community where this work is done there will be one farmer selected as leader in the movement, but as many as will may avail themselves of the instructions and methods put into operation by the government's agent, in fact, the department urges every farmer who can avail himself of this opportunity to improve his methods of farming. These special demonstration farms located centrally in the community. will serve as important object lessons to all who will investigate them.

Under the recommendation of Prof. J. F. Duggar, Mr. C. L Waldrop, who has had special training along this line of work, has received an appointment to take charge of the work in this and adjoining counties.

C. L. WALDROP.

CIRCUIT COURT

The fall term of circuit court convened on Monday with Judge A. H Alston presiding. The grand jury was sworn in with A. S. Jones as foreman, and Doc Jones bailiff.

Judge Alston made a clear and lucid explanation of the law to the grand jury, who at once proceeded to make their investigations.

In the evening, on motion of Col. W A. Collier, court adjourned out of respect to the memory of the late J. C. Dennis The Clanton bar will prepare a set of resolutions which will be presented at the end of this week.

But two cases have gone to the jury so far, one, that of Thomas E. Dennis et als vs. Houston Price and G. W. Maddox, ejectment suit; verdict for plaintiff. The other, W. R. Lowery vs. Z. S. Avery, ejectment suit, had not been settled by Wednesday evening.

A number of cases have been continued, and the following have been disposed of:

Jesse French Piano and Organ Co., vs. D. W. Wilkins. judgment by default.

International Harvester Co., vs. R. E. Roper, judgment by default.

P. D. Wilson vs. J. C. Maddox, et al. judgment by default.

I. N Gentry vs. Earmers Ware house and Fertilizer Co., judgment by default.

John E. Hedberg vs. F. E. Gronquist, judgment by default.

Among the visiting attorneys we noticed Col. W. R. Oliver of Calera, and Eugene Ballard of Prattville.

PETIT JURY—SECOND WEEK.

W. A. Weaver. S. M. Yates, Sr., J. T. Williams. William Peatle, George Moore, J. H. Cox, E. J. Vinson, Frank Mulkey, Dock Hunt, W. E. C. Smith, J. R. Johnson, Joseph Cox, Burt Hawkins, W. T. Vinzant, Watts Moore, A. N. Miner, S. H. Driver, Reuben Wyatt, Andrew Deason, J. T. Harris, J. F. Rawlinson, D W Cobb, J. H. Willoughby, A. T. Hathcock, William Rasberry, J. A. Lowery, S. D. McCary, L. W. Robinson, W. L. Bates, C. C. Crumpton. J. D. Hudgison, W. P. Childress.

IN MEMORIAM

Again love hearts were saddened on the 19th at Mrs. Jane Merchant's when God called Mr. Fate Ingram to his heavenly home; just before he died he said my time is short, there is no use to get scared, and then prayed to die; he was ready to go, told his friends to sing "Come back, my boy." He has gone to join his father and mother who have gone before. He leaves a wife and nine children and a host of friends to mourn his death, but our loss is heaven's gain. O, if we can all leave such a grand testimonial as he did when we come to press a dying pillow, surely we will meet him in heaven where sickness, pain nor death never comes. He was beloved by all who knew him. Rev. P. G. Maness marched his school to the church and delivered a nice sermon. Then the remains were laid to rest to await the coming of Christ when we believe it will be said to him "Well done, thou good and faithful servant, come up higher and receive a crown prepared for you."

MARTHA LAWRENCE.

In every clime its colors are unfurled
Its fame has spread from sea to sea;
Be not surpristd if in the other world,
You hear of Rocky Mountain Tea.
Upchurch Drug co.

C N EILAND, County Lect'r

Good for everything a salve is used for and especially recommended for piles. That is what we say of DeWitt's Witch Hazel Salve. On the market for years and a standby in thousands of families Get DeWitt's. Sold by Upchurch Drug co.

Most Famous Saying.

"What is the most famous saying ever made by man?" an editor asked.

Some thought that Caesar, some thought that Socrates, some that Lincoln, some that Nelson, had said the most memorable things but finally the palm was awarded to Euclid, the mathematician.

Euclid went to Alexandria to teach Ptolemy Soter, the king of Egypt, mathematics. Ptolemy plodded at his problems a week or two, and then asked Euclid impatiently if there was not some special, shorter way by which he could be taught.

"Sire," Euclid answered, "there is no royal road to learning."

ASLEEP IN JESUS

"And they shall walk with me
In white, for they are worthy."

Mrs. Effie Calloway, wife of our esteemed friend, William Calloway, Jr., departed this life to be with Christ, on November 20, 1906. On October 15, 1905, she was adorned a beautiful bride for her husband, when hands were united and two hearts made one to be separated only by death. Their happy marriage was celebrated at the residence of the bride's mother, Mrs. Amanda Traywick. On Wednesday, Nov. 21, at the Methodist church, the funeral rites were conducted by Rev. Mr. Williams in the presence of a large congregation of kindred and friends. Now, as we take a retrospection of her bright life in this world we cannot but see that from first to last she was always prominent in the higher walks of life; when a child in school she was as gentle as a lamb; always diligent and ambitious, at home ready unto every good work she did not believe in neglecting any good thing and the "Lord alone did lead her." When a mere child she and her twin sister gave their hearts to God and joined the Methodist church at Shady Grove, and as they stood confessing their Saviour an aged minister shook hands with them, and turning around, said "My God, it is the prettiest sight I ever saw in my life." So it is this morning in the Paradise of God. If we could only look and see this loved one and her little infant son wearing their beautiful white robes and glittering crowns and playing upon their harps of gold amidst the songs, shouts and hallalujahs of heaven, all would say stay there, Effie, 'till we come, we would not have you back in this sin-cursed earth. Oh no, but we will watch and wait 'till our loving Father says come. Oh the flesh is nothing, no more than a perishable flower; God and His life is all. God help us to live His own life that we may too live with Christ through the blissful cycles of eternity. "Oh day of rest and triumph and every good, delay not thy dawning." Let the promise be fulfilled which bears in its train these matchless glories and Jesus the fairest among ten thousand evermore be with us.

A FRIEND.

CHARM OF A CLEAR COMPLEXION.

Every one who wants a good, healthy color, a ruddy glow, and a complexion free from pimples and moth spots should try Laxakola tablets, mild, safe. sure, prepared from vegetables laxatives with a selective action upon the skin, 25 cents, Florence Drug co,

PROGRAM

Teachers' Institute, to be held at Rockymount School House, Dec. 14-15, 1906.

Ayer's
SARSAPARILLA.
PILLS.
HAIR VIGOR.

We have no secrets! We publish the formulas of all our medicines.

Ayer's Pills keep the bowels regular.
All vegetable and gently laxative.

IN MEMORIAM.

On Saturday eve, November 14, Mrs. Carrie Jones, wife of G W Jones, passed peacefully from this life into the life of endless joy and peace though two weeks of weary suffering. She has passed through many pains and sorrows; she never murmured but with meek submission to the heavenly Father's will, accepted the cross with angelic patience and unwavering faith carried her burden to Jesus. the source of all strength. The great supreme Ruler of the universe saw fit to remove from among us one of our worthy and esteemed laborers and the long and intimate relation held with her in the faithful discharge of her duties in the community, makes it eminently befitting to show our appreciation of her. She left behind her a grand testimony saying, she was ready to go which we truly believe she was. God in His majestic wisdom saw that her work was finished, He called her home to rest her tired body and weary heart, sank into a deep peaceful sleep with a look of sweet peace on her face as if it were the shadow of angels wings. Her husband who come home tired and weary from the troubles of this world. found his home a haven of rest where the white winged dove of peace ever hovers, and shining eyes welcomed him, but soon the grim reaper laid his hand upon her and after weeks of patient suffering the roses in her cheeks faded into the white lillies of death, the little hands so quick to do loves bidding were clasped over the silent breast and tired eyes were closed to open again with enraptured gaze upon the beauties of the heavenly land. A soul has accomplished the great mission of this life when it has gained life eternal, why should we grieve that she has gone to receive the heritage given her by her heavenly Father? With the bloom of youth fresh upon her, God in His infinite love wants all of His children to come home.

She leaves a husband and three children, the youngest being only 17 days old, to mourn the loss of a good mother kind and obedient wife, none knew her only to love her. Dear weeping relatives and friends, we have nothing of this worlds consolation to offer, we do not feel that we could speak any words that would ease your aching hearts or fill the vacancy of this dear one, we can only deeply, sincerely and most affectionately sympathize with those in their bereavment, but in the beautiful spirit of the christians theology we dare say that He who tempers the wind to the shorn lamb. looks down with infinite compassion on the fatherless in the hour of their desolation and that the same benevolent Savior, who wept tears of sympathy at the grave in Bethany, will fold His arms of love and protection around those who put their trust in Him. so let us each in our respective lives so improve this solemn warning of our God that when He shall call for us we may leave this sweet testimony behind, we are ready to go.

She has gone far away to that land where no night can fall, she has entered the realms of day where there is no pain or death to appall.

LUCY JONES,

LINGERING COLD

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe chamberlain's Cough Remedy to be the best I have ever used" This remedy is for sale by Upchurch Drug co, Clanton. A. Horn, Thorsby.

TO WHOM IT MAY CONCERN:

Notice is hereby given, that at the next ensuing session of the Legislature of Alabama, a bill will be introduced to provide for the establishment of a Board of Revenue for Chilton county Alabama, and to prescribe the powers and duties of said Board of Revenue.

W. W. RUTLAND.

The best treatment for indigestion and troubles of the stomach is to rest the stomach. It can be rested by starvation or by the use of a digestant which will digest the food eaten, thus taking the work off of the stomach. At the proper temperature. a single teaspoonful of Kodol will wholly digest 3,000 grains of food. It relieves the present annoyance, puts the stomach in shape to satisfactorily perform its functions. Good for indigestion, sour stomach, flatulence, palpitation of the heart and dyspepsia. Kodol is made in strict conformity with the National Pure Food and Drug Law. Sold by Upchurch Drug co.

Cured of Bright's Disease

Mr. Robert O. Burke, Elnora, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get u from twelve to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease. Upchurch Drug co

Unity Baptist Association.

The Minutes for 1906 will be ready for delivery on Monday next, at the Banner office.

Mr. A. H. Hunt of Jemison, gave us a pleasant call Monday.

Made Happy For Life

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names He says: "My little daughter had St, Vitus Dance, which yielded to no treatment, but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles effected a complete cure." Quick, sure cure nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by Upchurch Drug co. Price 50c.

P. O. Box Rents.

Postmaster Dudley has received the following notice from the department relating to the collections of box rents, which calls for the payment of box rents ten days before the first of the quarter, instead of the old plan of paying by the tenth day of the new quarter.

Order No. 1291 Paragraph 2, section 348, Postal Laws and Regulations, is amended to read as follows: "Box rents must be collected at the beginning of each quarter for the entire quarter, but no longer, ten days before the last day of each quarter. Postmasters are required to place a bill (on form 1538 or 1538½) bearing the date of the last day of the quarter in each rented box If a boxholder fails to renew his right to his box on or before the last day of a quarter the box shall then be closed and offered for rent and the mail will be placed in the general delivery."

F. H. HITCHCOCK,

HELP IS OFFERED TO WORTHY YOUNG PEOPLE

We earnestly request all young persons, no matter how limited their means or education, who desire a thorough business training and good position, to write at once for OUR GREAT HALF-RATE OFFER. Success, independence and probable Fortune guaranteed. DON'T DELAY—WRITE TO-DAY.
Ga.-Ala. Bus. College, Macon, Ga.

NOVEMBER AILMENTS

THEIR PREVENTION AND CURE.

November is the month of falling temperatures. Over all the temperate regions the hot weather has passed and the first rigors of winter have appeared. As the great bulk of civilized nations is located in the Temperate Zones, the effect of changing seasons is a question of the highest importance. When the weather begins to change from warm to cold, when cool nights succeed hot nights, when clear, cold days follow hot, sultry days, the human body must adjust itself to this changed condition or perish.

The Human System Must Adjust Itself to Changing Temperatures.

The perspiration incident to warm weather has been checked. This detains within the system poisonous materials which have heretofore found escape through the perspiration.

Most of the poisonous materials retained in the system by the checked perspiration find their way out of the body, if at all, through the kidneys. This throws upon the kidneys extra labor. They become charged and overloaded with the poisonous excretory materials. This has a tendency to inflame the kidneys, producing functional diseases of the kidneys and sometimes Bright's Disease.

Peruna acts upon the skin by stimulating the emunctory glands and ducts, thus preventing the detention of poisonous materials which should pass out. Peruna invigorates the kidneys and encourages them to fulfill their function in spite of the chills and discouragements of cold weather.

Pe-ru-na is a World-Renowned Remedy For Climatic Disease.

Peruna is a combination of well-tried harmless remedies that have stood the test of time. Many of these remedies have been used by doctors and by the people in Europe and America for a hundred years.

Peruna has been used by Dr. Hartman in his private practice for many years with notable results. Its efficacy has been proven by decades of use by thousands of people and has been substantiated over and over by many thousands of homes.

An Awful Husband.

When a young couple were being married at the registrar's office on Whit Monday, the bride, instead of repeating the usual formula, said, "I take this man to be my awful husband," and the registrar, pointing out her mistake, made her repeat the correct words. Another bride refused to leave her house because the carriage that came to take her to the church was drawn by only one horse. The coachman was sent back to get the pair which had been ordered, but this caused such delay that when the church was finally reached it was three minutes after the statutory time, and the ceremony had to be postponed till the next day.—London Mail.

"THE MARRYING SQUIRE."

Justice Geo. E. Law, of Brazil, Ind., Has Married 1400 Couples.

Justice Geo. E. Law, of Brazil, Ind., has fairly earned the title "The Marrying Squire," by which he is known far and wide, having already married some 1400 couples. Ten years ago he was Deputy County Treasurer. "At that time," said Justice Law, "I was suffering from an annoying kidney trouble. My back ached, my rest was broken at night, and the passages of the kidney secretions were too frequent and contained sediment. Three boxes of Doan's Kidney Pills cured me in 1897, and for the past nine years I have been free from kidney complaint and backache."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Appeal to Raisuli.

The local authorities at Arzilla, Morocco, being powerless, have invited the bandit Raisuli to restore order.

The Original Porous Plaster.

It's Allcock's, first introduced to the people sixty years ago, and to-day undoubtedly has the largest sale of any external remedy—millions being sold annually throughout the whole civilized world. There have been imitations, to be sure, but never has there been one to even compare with Allcock's—the world's standard external remedy.

For a weak back, cold on the chest or any local pain, the result of taking cold or over-strain, there's nothing we know of to compare with this famous plaster.

Carry Your Sunshine With You.

"The cheerful man," says Dr. Hillis, "carries with him perpetually, in his presence and personality, an influence that acts upon others as summer warmth on the fields and forests. It wakes up and calls out the best that is in them. It makes them stronger, braver and happier.

"Such a man always makes a little spot of this world a lighter, brighter, warmer place for other people to live in. To meet him in the morning is to get inspiration which makes all the day's tasks and struggles easier. His hearty hand shake puts a thrill of new vigor into your veins. After talking with him a few minutes, you feel an exhilaration of spirits, a quickening of energy, a renewal of zest, an interest in living, and are ready for any duty or service.

"Great hearts there are among men. They carry a volume of manhood; their presence is sunshine; their coming changes our climate; they oil the bearings of life; their shadows always fall behind them; they make right living easy. Blessed are the happiness makers; they represent the best forces in civilization."

DISMISSING TROOPS

South Will Support Roosevelt—Bailey Thinks Action Is Right.

NECESSARY FOR DISCIPLINE.

The Texas Senator Believe Roosevelt Would Have Discharged White Troops Under Same Conditions.

Washington, D. C.—"I have not examined the question of the President's power to discharge the troops according to his order," said Senator Bailey, of Texas, who has returned to Washington. "But," continued he, "with a secretary of war who is a great lawyer, a secretary of state who is also a great lawyer and an attorney-general who is sufficiently great as an interpreter of the law to be appointed to the supreme bench, I assume that President Roosevelt was fully and correctly advised as to what he might lawfully do. Assuming that he possessed the power, I think all fair-minded men who desire to see the army an orderly and law-abiding organization will cordially endorse the positive manner in which the president has exercised his power. I have no doubt that the president would have applied the same heroic treatment if the offenders had been white troops, and certainly nobody would insist that negro troops shall be exempt from the same requirements or orderly behavior which rests upon and would have been enforced against white troops.

"It is particularly gratifying to the people of the south that the president has resisted the political influences which sought to have him rescind the order after he had issued it. To have rescinded or even to have modified the order after it was once made would have demoralized the army and produced incalculable harm in all of the southern states.

"I have not talked with any of the senators or representatives from the south, but it is my opinion that they will all cordially support the action of the president."

117 Years Cotton Record.

Columbus, Ga.—O. S. Jordan, superintendent of the Eagle and Phoenix mills at Columbus, has condensed from the records some interesting statistics on cotton for the past 117 years. The figures are accurate and form an interesting study.

Statistics of cotton crops for 117 years, from seasons 1788-89 to 1905-06: Total bales produced, 320,392,000; total pounds, 160,190,000,000; total value, $19,000,618,700; average price per pound, 11.89 cents.

Highest prices received was during season 1864-65, which was 101.50 cents per pound.

Next highest price received (other than during the civil war) was during the seasons 1799-1800 and 1801-02, which was 44 cents per pound.

The lowest price received was during the season 1844-45, which was 5.63 cents per pound.

Next lowest price received was during the season 1898-99, which was 5.94 cents per pound.

The largest price paid for any crop was in 1865-66(2,000,000 bales, brought $833,800,000, at a price of 83.38 cents a pound.

Last season's crop was 13,436,000 bales. Average price, 11.75 cents per pound, making value $789,365,000.

Boy Wonder Kills Himself.

Kansas City.—Richard Emmett Murphy, aged 18, who when 10 years of age edited a newspaper at Jefferson City, Mo., and who had a national reputation for precocious intelligence, committed suicide in a rooming house here by breathing the fumes of gas. Murphy won fame in New York several years ago by gaining an interview with the late Russell Sage and successfully negotiating a loan of $30,000 without security from that financier.

Gompers Re-Elected.

Minneapolis, Minn.—Samuel Gompers was elected president of the American Federation of Labor for the twenty-fifth time. There was no opposition.

Railroads Consolidate.

Norfolk, Va.—By an agreement signed in this city and approved at meetings held in two other cities the Norfolk and Southern, Virginia and Carolina Coast, Atlantic and North Carolina and the Raleigh and Pamlico railways were consolidated under the name of the Norfolk and Southern Railway Company, which is capitalized at $25,000,000.

Plan to Depose King Peter.

Vienna.—A sensation was caused here by publication in the government organ, the Evening Gazette of Prague, of a dispatch from Semlin, opposite Belgrade, representing the discovery of a strong movement among politicians and military men to depose the reigning Servian (Karageorgevitch) dynasty, the head of which is King Peter, in favor of some prince of a European court.

ATLANTA JOURNAL SUED.

Suit Based on Charge of Buying Negro Votes During Recent Campaign.

Atlanta, Ga.—Col. John H. Estill, of Savannah, has filed a suit for $50,000 damages against the Atlanta Journal for alleged libel during the recent gubernatorial campaign in Georgia.

The suit was filed with the clerk of the superior court of Fulton county by Attorneys Twiggs and Oliver, of Savannah.

The alleged libel, it is charged, grew out of a card which the Journal published on August 3, 1906, the card bearing the signature of "G. A. Koller, of Meinhard, Chatham county, Georgia."

Vote Purchasing Charged.

Among other things said by Koller against Colonel Estill was the charge that he had purchased negro votes in Savannah, along with ward politicians, for the purpose of defeating farmers for a fence or no fence law.

Colonel Estill claims that the publication of the card greatly injured him both as a citizen and a business man, and that the card was libelous. He asked that the Atlanta Journal Company be made to pay him $50,000 for said alleged libel.

There was a great deal of card writing, along with other writing during the heated campaign in Georgia, and a lot of things were said that were not complimentary. Most of this, however, could not be regarded as libelous in the eyes of the law. Colonel Estill believes that the card about him in the Journal was of a different type from the other campaign stuff, and he takes the position that to publicly charge that a citizen has bought votes is ruinous to his character in the community in which he lives.

When the suit comes up for a hearing it will doubtless attract a great deal of attention and the outcome will be watched with no little interest.

Goodyears Buy More Lands.

Jackson, Miss.—It is stated on good authority that the New Orleans and Great Northern, or the Goodyear syndicate, has purchased all the lands owned by northern capitalists in Leake, Neshoba and Winston counties, some 75,000 acres, paying therefor in the neighborhood of [illegible],000. Following close on the heels of the purchase of the Herrick lands in the immediate vicinity of Jackson, this means something. The Goodyears are now busily engaged in building in the southern part of the state, and contracts have been let to Smith & Co., the Memphis contractors, to do the grading between this city and Smith's Ferry. That the road will be built on north from Jackson in the very near future there does not seem to be any room for doubt, and Jackson is rejoicing.

French Cabinet Pleased.

Paris.—At the cabinet meeting general satisfaction was expressed at the fact that the taking of inventories of church property under the law providing for the separation of church and state had been accomplished up to the present without any grave disorders.

Premier Clemenceau reported that he expected that inventories of the church which had not been entered would be taken within a few days. War Minister Picquart informed the cabinet that only two cases of officers declining to execute orders in connection with taking church inventories had been reported to his department. The minister added that one of the officers had resigned and that the other would be tried by court-martial.

Dolliver Denies It.

Council Bluffs, Ia.—Senator J. B. Dolliver, who is here on his way from the Trans-Mississippi Commercial Congress in Kansas City, denounces as false the language attributed to him in an article which Iowa papers are crediting to a Springfield, Mass., paper. Senator Dolliver is quoted as saying that Secretary Elihu Root "sits in the inner councils of the trusts," is "Thomas Ryan's handy man" and that he has been "chief counsel in every nefarious scheme foisted upon American people."

Senator Dolliver said: "I have never given utterances anywhere or at any time to the terms attributed to me. I have most friendly relations with Secretary Root, running over many years, and have never made any expression derogatory to him either in his personal or public life. To attribute such remarks to me is an absurdity that is very much more calculated to injure me than Secretary Root."

Armed Bands in Cuba.

Havana.—The reappearance of armed bands was reported at Cienfuegos and Guines. The mayor of Cienfuegos reports that a considerable number of mounted men entered the outskirts of the city, but a few retreated to the eastward. At Guines a band of twenty is reported to be camped within two miles of town. The rural guard has been ordered to attack and disperse it.

Heavy Snow for First Times in Years

San Bernardino, Cal.—Heavy snowfalls are reported in some regions of the desert north of here. Several mining camps are snowed in.

The mountains in this vicinity are covered with a white mantle. This is the first heavy snowfall in this vicinity for fifty years. No crop damage reports have yet been received, though it is thought some of the orange groves have been considerably damaged.

From the State Capital

Information and Gossip Furnished by Special Correspondent at Montgomery.

Montgomery, Ala.—One has only to study the report of the state treasurer, which has just been issued, to realize what a healthy state Alabama now is. The figures do not indicate so much from a standpoint of largeness, but are strong and convincing in their comparison with the past. It is shown by this report that for the year ending September 30, 1906, the state had collected from all sources $5,191,677.05, of which amount $1,415,130.11 came over as a balance from the year before. The expense account of the state for the twelve months indicate $3,365,350.96, which left at the beginning of the present fiscal year a balance in the strong box of the commonwealth of $1,826,26.09.

The larger items of receipts were state taxes, $786, 891; special soldier tax, $272,832, and special school tax, $983,078. The poll taxes for 1905 amounted to $117,688. Licenses produced $364,150. The insurance department $108,055, and the convict department $759,494. From the agricultural office the state received $86,910; from the United States treasurer for the A. & M. Colleges, $25,000; railroad licenses, $12,086, and sale of lands of the Alabama Girls 'Industrial School, $4,370.

Probable Laws.

Members of the legislature and others interested are dicussing probable laws which may be enacted by the coming session of the law-makers. It is understood that a determined effort will be made to pass at this session what the constitution members contemplated—a uniform municipal corporation bill. A number of interested parties have been discussing the subject, and it is generally thought that the present conditions are not satisfactory to some of the larger cities at least. An indication of this is found in the hold-up of the effort on the part of the city of Montgomery to float a new issue of bonds to refund its present indebtedness. Something of the same kind of trouble was brought out a short time ago when the city of Birmingham found itself unable to increase the salary of its mayor and pay it. Mobile has been up against trouble on account of water front conditions and some other municipal problems, which have suffered on account of their connection, direct or indirect with state laws.

It is also pretty well established that a law will be enacted by which the surplus in the treasury can be utilized in the commerce of the state. Under the present statutes all money which the state is not using must be kept at the capitol. This operates not only to bring about a very dangerous condition so far as the safety of the cash is concerned, but to take out of circulation a vast amount of the money of the state. For instance, on the first day of last October Treasurer Smith's strong box contained almost $2,000,000, which was denied the business interests of the commonwealth, and which in all justice and common sense, according to the best minds who have thought it over, should be used in the commerce of the section. So far as the public knows, no definite plan has yet been mapped out, but it is thought that the bill will carry with it the idea of lending surplus funds at short time, secured by state or United States bonds.

Judiciary Revision.

It is also thought that there will be a general revision by the next session of the law-makers of the judiciary of the state. It is familiar history that the attempts along this line made during the last session resulted in magnificent failures, and that the invalidity of the acts adopted resulted almost in judicial chaos. Several circuits established by this large law had provisions which went down, causing untold confusion, and in some cases miscarriage of justice, and the much needed consolidated court of Jefferson county tumbled into the abyss along with the rest of the discounted family. State Senator-elect Teasley has already announced that he will introduce a bill to re-establish the fifteenth circuit which was declared illegal along with the rest of them. This was known as the pony circuit, and was composed of the counties of Montgomery, Elmore, Autauga and Chilton. Judge Scott Sayre was on the bench, and was deprived of his place by the failure of the law to stand a test of the courts. All those acts which had to do with the judiciary tumbled down because of their failure to comply with section 106 of the constitution, which prescribes that all local laws shall be advertised to the extent of all of their essential features in all the counties affected by them. And it is quite likely that future attempts along this line will avoid such weakness as will get them into trouble with the supreme court.

Insurance Prospects.

Life and fire insurance is likely to receive somewhat of attention from the next assembly of solons who sport themselves in the Cradle of the Confederacy. It has developed in the past few months that certain classes of life insurance is very obnoxious to a large per cent. of the citizenship, those classes including some of the special contract features which are now being written. It is also thought that there will be an attempt made to secure from the life companies more revenue than is now received by the state. Governor Jelks has more than once called attention to the large amount of money sent out of the state for life insurance, and it may be that men who think as he does, that there is too much going out and too little coming in, will fall on to some kind of a plan to change the situation.

So far as fire insurance goes the books of the insurance commissioner indicate that the state as a whole contributes very little to this class of enterprise. It costs the companies about as much to do business in Alabama as they have ever been able to get out of it. However, there has been some talk of adopting a plan by which there would be systematic inspection of all classes of risks, the idea being that such oversight would tend to reduce the number of fires and at the same time make it possible for the companies to write business at lower premiums.

Another prospect of more or less interest is the proposition of some of the large counties to utilize the county convicts on the county roads instead of renting them to corporations or other employing agencies. There has been a decided revival in all sections of the state of the good road sentiment and this has resulted in a discussion of various and sundry plans for building up and preserving the highways. It is incidentally suggested by a number of his friends that the campaign made for good roads by Capt. J. H. Bankhead in his race for senatorial endorsement has begun already to bear fruit. In some of the lower counties it is expected that all the surplus revenue will be devoted to this source of enterprise, and it is not at all unlikely that some kind of a law will be pass by which county convicts can be utilized to great advantage in this way.

Platform Demands

Of course it is understood in any discussion of the possible acts of the next legislature that those things outlined in the platform adopted by the recent state democratic convention and accepted as law of the party, will be attended to first. There does not seem to be any reason in the world to doubt that whatever dominant influence in the party organized at this time desires will be forth-coming. The senate is solidly democratic, the entire thirty-five members subscribing to the faith; the house has only two outsiders in the membership of one hundred and six, and the combined body will be able to do pretty much what it wants to so, so far as the party goes.

It is already evident that a railroad commission law will be presented early in the session, and so far as can now be seen will have no real difficulty in reaching its passage. It is also generally believed that the law will contain a provision against the railroad companies issuing passes to anybody outside of employes or extending favors to any one class which are not vouchsafed to the public as a whole. Other features of the bill will likely be those things which have been projected and urged by Governor-elect B. B. Comer for the past dozen years, familiar to all those who have read the papers in even a casual way.

Fell Under the Cars.

Americus, Ga.—Watson Martin, colored, was ground to death beneath a Central railway freight train in the yards here. Martin was probably attempting to jump aboard the train when he fell and was killed.

New York.—Sixty thousand common laborers, working for the United States Steel Corporation and its subsidiary companies will receive an increase in wages of 10 cents a day beginning May 1, 1907. The increased pay to employes will amount to $10,000,000.

Standard Oil Quits Missouri.

Jefferson City, Mo.—It has been learned at the office of Attorney-General Hadley that the Republic Oil Company has practically abandoned the field in this state. The company's rural stations, with two exceptions, have been abandoned. In the general offices of the company in St. Louis only two clerks remain, where a short time ago a large force was employed.

Head of Church Fined.

Salt Lake City, Utah.—Arraigned on a charge based on the recent birth to his fifth wife of his forty-third child, Joseph F. Smith, president of the Mormon church, appeared in the United States district court, pleaded guilty and was fined $300.

Judge Ritchie omitted the jail sentence of from one day to six months which he could have imposed under the law.

STREET CAR RIOT

...es Are Hurt in Canada Town—Scene of Wild Lawlessness.

...MEN ARE THE SUFFERERS.

...mpathizers of Striking Street Car Men Are Charged by Police.

Riot Act Is Read.

Hamilton, Ont.—Scores of people were injured in collisions between rioters and the police and soldiers here. Several street cars were demolished by the striking street car men and their sympathizers. The injured include women and children and the streets are strewn with debris from the broken cars.

Dozens of rioters, sympathizers with the striking street car men, felt the weight of policemen's night sticks and the keen edge of the soldiers' swords in conflicts on James and King streets. At a late hour street cars were running at intervals under heavy guards, but they did not carry passengers and continued to be targets for fusillades of stones and bricks from side streets and alleys. Drastic as were the measures taken by the authorities, it was plain that the mob spirit had not been broken.

Crowds Gather at Dusk.

The crowds began to gather at dusk. The authorities at once saw that trouble was brewing and made their preparations accordingly. Attacks on the street cars began as early as 7 o'clock. The police wielded their clubs freely, but the situation grew too serious for them to handle. Sheriff Middleton was notified, and he immediately read the riot act, which makes every able-bodied citizen amenable to police duty. He also notified Captain Ogilvie that the aid of troops had become necessary to maintain order.

At 8 o'clock a concerted effort was made by the police and soldiers to clear the streets. James street, in the vicinity of the city hall, was packed with a dense crowd of yelling hoodlums and hundreds of people, attracted to the scene more by curiosity than to take part in the disorders. The police charged this crowd first. The officers were met with jeers and insults.

Police Wade Through Crowd.

Smashing right and left with their heavy night sticks, the police waded into the crowd. Men and women suffered alike, and soon the pavement was marked by many unconscious forms. The mob, realizing that the police meant business this time, began to retaliate with stones and other missiles.

At this point the clatter of horses' hoofs on the pavement announced the approach of cavalry, and the crowd, attacked from both sides, broke and fled down side streets and through alleyways into back alleys. The streets in the vicinity of the city hall were cleared, but it was only temporary relief for the authorities.

The crowd soon began to converge on King street. A street car with detectives on board came along and became a target for a fusillade of bricks and stones. The strikebreakers and detectives deserted the car as the mob grew in volume and their lives were endangered by the avalanche of rocks.

Given Severe Beating.

They were followed by a section of the crowd and given a severe beating. The street car was derailed and literally torn to pieces before the militia could reach the spot. The mob melted away as the soldiers charged down the street with fixed bayonets. This was the last concentrated demonstration made by the rioters during the evening, although disorders on a smaller scale were frequent up to midnight.

At 1:30 the authorities appeared to have the situation well in hand, although it is realized that the trouble is by no means over. It is probable the local officials will ask for more soldiers. The streets are strewn with debris, and many plate glass windows in stores were broken by flying missiles. Twenty of the rioters were arrested and landed at the police station. The policemen arrested scores, but the crowd took the prisoners away from them before they could get to a patrol wagon.

Nearly 100 people were treated at the hospitals. Their injuries, however, are not serious. They had been hit by clubs. The soldiers as a rule used the flat of their swords and the butt ends of their rifles. Most of those treated at the hospitals were able to go home after having their wounds dressed.

Frank Fitzgerald, whose skull was fractured in the night's disorders, is at the point of death.

Standard Oil Quits Missouri.

Jefferson City, Mo.—It has been learned at the office of Attorney-General Hadley that the Republic Oil Company has practically abandoned the field in this state. The company's rural stations, with two exceptions, have been abandoned. In the general offices of the company in St. Louis only two clerks remain, where a short time ago a large force was employed.

Several street cars were demolished the striking street car men and ir sympathizers. The injured in de women and children, and the ets are strewn with debris from e broken cars.

Dozens of rioters, sympathizers with e striking street car men, felt the ight of policemen's night sticks and e keen edge of the soldiers' swords conflicts on James and King streets.

a late hour street cars were run ng at intervals under heavy guards, they did not carry passengers and ntinued to be tagets for fusillades stones and bricks from side streets d alleys. Drastic as were the meas es taken by the authorities, it was ain that the mob spirit had not been oken.

Crowds Gather at Dusk.

The crowds began to gather at dusk. The authorities at once saw that uble was brewing and made their parations accordingly. Attacks on street cars began as early as 7 lock. The police wielded their clubs ly, but the situation grew too seri for them to handle. Sheriff Middleton was notified, and he immediately read the riot act, which makes ery able bodied citizen amenable to ice duty. He also notified Captain ylie that the aid of troops had become necessary to maintain order.

At 8 o'clock a concerted effort was made by the police and soldiers to ar the streets. James street, in vicinity of the city hall, was packed with a dense crowd of yelling hood s and hundreds of people, attracted the scene more by curiosity than to e part in the disorders. The police rged this crowd first. The officers e met with jeers and insults.

Police Wade Through Crowd.

Smashing right and left with their vy night sticks, the police waded the crowd. Men and women suf d alike, and soon the pavement marked by many unconscious s. The mob, realizing that the e meant business this time, began retaliate with stones and other mis

At this point the clatter of horses' fs on the pavement announced the proach of cavalry, and the crowd, cked from both sides, broke and d down side streets and through ways into back alleys. The streets the vicinity of the city hall were ared, but it was only temporary re f for the authorities.

The crowd soon began to converge King street. A street car with de tives on board came along and be a target for a fusillade of bricks stones. The strikebreakers and ectives deserted the car as the mob in volume and their lives were ngered by the avalanche of rocks.

Given Severe Beating.

They were followed by a section of crowd and given a severe beating. e street car was derailed and lit ly torn to pieces before the militia d reach the spot. The mob melted y as the soldiers charged down the et with fixed bayonets. This was last concentrated demonstration e by the rioters during the even although disorders on a smaller e were frequent up to midnight.

At 1:30 the authorities appeared to e the situation well in hand, al gh it is realized that the trouble y no means over. It is probable local officials will ask for more sol s. The streets are strewn with is and many plate glass windows ores were broken by flying mis s. Twenty of the rioters were ar ed and landed at the police station. policemen arrested scores, but the took the prisoners away from before they could get to a patrol

Nearly 100 people were treated at hospitals. Their injuries, how , are not serious. They had been by clubs. The soldiers as a rule the flat of their swords and the ends of their rifles. Most of those d at the hospitals were able to after having their wounds d.

nk Fitzgerald, whose skull was ured in the night's disorders, is point of death.

Standard Oil Quits Missouri.

erson City, Mo.—It has been ed at the office of Attorney-General Hadley that the Republic Oil Company has practically abandoned the in this state. The company's ru tions, with two exceptions, have abandoned. In the general of of the company in St. Louis only clerks remain, where a short time a large force was employed.

HARROWING EXPERIENCE.

Train Five Days Late and Babies Fed on Whisky.

Fort Worth, Tex.—Harrowing experiences were reported by the passengers when the Fort Worth and Denver railroad passenger train arrived here from Denver over five days late. The train left Denver five days ago and was delayed by repeated snow storms in sparcely settled sections of the Texas Pan Handle.

Eight babies on the train were nearly starved, the supply of milk having been exhausted, and were fed on whisky and water. The other passengers suffered greatly for want of food, it being impossible to obtain supplies.

Traffic is now open and the weather has moderated.

Patrick Wins Fight for Life.

New York.—Lawyer Albert T. Patrick, under sentence of death for the murder of William Marsh Rice, has won his fight for life. His end will not be in the electric chair.

Before Governor Higgins gives up his office as chief executive of the state he will sign a commutation of the death sentence. Life imprisonment will be Patrick's fate.

Whether the commutation of death sentence will be brought about without a further hearing on the part of the witnesses for Patrick, or whether a commission will be appointed by the governor to look into the mass of medical and other expert testimony submitted to him recently, has not been fully determined upon. Governor Higgins, however, will not permit the sentence of law in Patrick's case to be carried out.

Patrick's fight for life is the most remarkable of its kind ever made in this country. No other person has ever been confined as long in a death house awaiting execution as has Patrick.

For more than four years and seven months he has been living within the shadow of the electric chair.

During that time he has been present when seventeen other unfortunates were taken from their cells and marched along the narrow passage which separates the condemned cell block from the execution chamber.

May Publish Mrs. Davis' Letter.

Jackson, Miss.—A great stir has been occasioned in Mississippi by a letter that was read at Gulfport during the meeting of the Daughters of the Confederacy. This letter was written to Mrs. Judge Kimbrough, of Greenwood, some time before Mrs. Jefferson Davis died, and is alleged to be a defense of why she permitted the body of her husband to be buried in Richmond and why she lived in New York instead of Mississippi, her native state. In this letter she is alleged to have passed some severe criticism on former Governor Lowry, of this city and other prominent Mississippians for what she termed their hostility to her. General Lowry is the commander of the Mississippi division of the United Confederate Veterans, and is prominent in politics and social life. Mrs. Davis had been very much put out with Mississippi ever since the legislature shortly after the death of her husband refused to grant her a pension, as was proposed by her friends. The bill was introduced in the legislature, but was bitterly fought and never came up on the floor. Somehow or other the letter that was read at Gulfport was never printed, and the newspapers have been making guesses at what it contained, and those who have seen the letter say that these guesses are correct. Mrs. Kimbrough has been bombarded with letters and telegrams from papers in and out of the state asking that the letter be given out for publication, and it is probable that she may give it out within the next few weeks.

Tillman Defies Blacks.

Chicago, Ill.—Senator Tillman, of South Carolina, passed through Chicago on his way to South Haven, Mich. When informed that the negroes of Chicago had protested against the delivery of a lecture by him in Chicago he said:

"I am surprised that there should be any talk in this city of a negro uprising to prevent a lecture which is for the benefit of a hospital which has never yet closed its doors to one of the negro race. It is absurd for the negroes to think that they can prevent a senator of the United States from talking. They might as well try to stop President Roosevelt. I shall not change my lecture in the slightest degree. The subject is 'The Annexation of Cuba,' and this question is so interwoven with the negro problem of this country, that it will be impossible for me to avoid discussing the latter."

Dead at 101.

Chicago, Ill.—John Hamstreet, who was 101 years of age last January, died at the Chicago home for incurables. He was born at Rome, N. Y., in 1805.

Head of Church Fined.

Salt Lake City, Utah.—Arraigned on a charge based on the recent birth to his fifth wife of his forty-third child, Joseph F. Smith, president of the Mormon church, appeared in the United States district court, pleaded guilty and was fined $300.

Judge Ritchie omitted the jail sentence of from one day to six months, which he could have imposed under the law.

A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in "small of back," gnawing or distressed feeling in stomach, perhaps nausea, [illegible] "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or cure you more permanently than Doctor Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

The "Discovery" is non-secret, non-alcoholic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle-wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.

Don't accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

Mrs. Craigie's Epigrams.

A martyrdom nowadays would be called an advertisement.

When the heart has a certain measure of distress it is agitated and in revolt, but when it is full of woe and can contain no more it is still, and its stillness passes for resignation to destiny.

No man ever did a work in spite of persecution that he might not have done ten thousand times better if he had been encouraged.

People who wish to regard Divine Providence as an English gentleman of large fortune, perfect morals, an anxiety to frustrate the foreigner and a wish to feed rather than to meet the poor, were disturbed by Firmalden's fear of God, which to some seemed superstition and to others ill-advised.

Time answers questions by deadening all our faculties and sensations. I have been watching elderly men and women; they try to believe that they have gained wisdom. They have only lost the power of wondering.

A man will spend a lifetime quarreling with his own heart, whereas a woman can never believe that her heart may be in the wrong.

Many people have excellent morals but the most odious ways.

Perhaps he was romantic—the first condition of all unhappy persons.—From "The Dream and the Business.

The first Japanese newspaper was published in 1863, only forty-three years ago, and it contains some news translated from some of the Dutch papers. To-day Japan has 1500 daily newspapers and periodicals.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Take Hall's Family Pills for constipation.

When a traveler in China desires a passport the palm of his hand is covered with fine oil paint and an impression is taken on thin paper. This paper, officially signed, constitutes his passport.

Wild Shots.

Apropos of the recent Andre-Negrier duel, the Paris Figaro sought the views of a man who has the reputation of an expert on the field of honor. He at once began to rail at duels with pistols. He could not bear even to speak of them. The fact was that he had once himself, at an encounter of that kind, received a ball in the shoulder.

"Then you disapprove of them simply because you were defeated?"

"Why I was not defeated."

"What!"

"No; I was a second! You may well believe that I promised myself never to mix again in affairs of that sort. However, one day I had to accompany a friend on the field. He had asked it of me as a personal favor; I could not refuse, but I insisted upon one condition."

"What was that?"

"That I should climb a tree during the firing."

"A good scheme."

"You think so? Well, I was wounded again; my friend fired in the air!"—New York.

TELEPHONES IN JAPAN.

Operated by the Government Like the Postal Service.

In Japan, as in several European countries, the telephones are managed by the Postoffice Department of the national government. That wonderfully progressive nation has a service much more limited, however, than Americans enjoy. Where private corporations supply the apparatus and run the exchanges, a subscriber can usually have a telephone put in within a few weeks after ordering it. In Japan, or at least in Tokio, there is often a great delay. According to "The Boston Financial News" the service is fairly good, but the government is sadly behind its response to popular demands. To get a telephone in Tokio a man either has to buy out a subscriber or wait his turn to secure an instrument, and there are no fewer than 8,000 people on the waiting list ahead of him. In computing the value of the estate of a man who died in that city not long ago the privilege of taking his telephone was rated at $400.

A telephone for a private house costs just as much as one for a business office. In the city of Tokio, which has a population of 1,500,000 people, there are 22,000 telephone subscribers and thousands more would willingly give $100 to secure accommodation.

The cost of a telephone in Tokio is $40 per annum, and that is gold, not silver, and the amount is payable strictly in advance. While the receipts of the government from its telephone monopoly are large, the cost of operation is comparatively light. For instance, it pays its linemen, the best of them, at the rate of 50 cents a day, and the nine-hour day has not yet been introduced in Japan. Switchboard operators are hired by the month and they are paid $5 per month.

The net earnings from the telephone system of Tokio are very large and there is therefore every incentive to supply as many customers as possible. In Tokio alone it is estimated that some four years will elapse before the government will be able to supply an instrument to the last man who puts his name in the waiting list.

Fuel Alcohol in Europe.

An American committee which is looking up the fuel alcohol situation in Germany reports that the present price there is twenty cents a gallon. The alcohol seems to be used very largely in Germany for cooking, lighting and power. Some of the larger potato farms in that country have distilleries which turn the crop into alcohol and use the waste for feeding stock. Much of the alcohol is used in the mixture with gasoline, the mixture being more convenient than alcohol in some ways, but much safer than gasoline and with less odor.

Praise of the Common Fly.

Speak gently of the insanitary fly. The extermination of the fly is not desirable. Like many another minute organism despised of men, it performs a vital function in nature, breeding in dead or decaying things which it prepares for future generations of vegetable and animal life. The purity and sweetness of the atmosphere in which it floats are largely due to its work. As a scavenger, consequently, the fly has a big claim on our gratitude. But, for the same reason, it should be exiled from the abodes of men, and foodstuffs intended for human consumption require to be protected from it.—London Sanitary Record.

The Teme is said to hold more different varieties of fish than any other inland British river.

The British government owns more than 25,000 camels.

BABY'S AWFUL HUMOR.

Thin Skin Formed Over Body and Under It Was Watery Blood—Cured in One Week by Cuticura Remedies.

"When my little girl baby was one week old she had a skin disease. A thin skin formed over her body and under it was watery blood, and when she was washed it would burst and break. She was in that condition for weeks, and I tried everything I could think of, but nothing did her any good. When she was three months old I took her to San Antonio to see a doctor, but the doctor we wanted to see was not at home, so my sister gave me a cake of Cuticura Soap and half a box of Cuticura Ointment, and told me to use them, which I did in time. I used them three times, and the humor began to fade, and in one week she was sound and well, and it has never returned since. I think every mother should keep the Cuticura Remedies in the house. Mrs. H. Aaron, Benton, Texas, July 3, 1906."

His Trouble.

"Your friend Lamb doesn't look well at all. What's the matter with him? Dyspepsia?"

"Well, you might call it 'financial dyspepsia.' I believe he went in for pork on Wall street and took too much."—Philadelphia Press.

Miss Nellie Holmes
Mrs. Tillie Hart

FEARFUL PAINS

SUGGESTIONS HOW WOMEN MAY FIND RELIEF.

While no woman is entirely free from periodical suffering, it does not seem to be the plan of nature that women should suffer so severely. This is a severe strain on a woman's vitality. When pain exists something is wrong which should be set right or it will lead to a serious derangement of the whole female organism.

Thousands of women have testified in grateful letters to Mrs. Pinkham that Lydia E. Pinkham's Vegetable Compound overcomes woman's special pains and irregularities.

It provides a safe and sure way of escape from distressing and dangerous weaknesses and diseases.

The two following letters tell so convincingly what Lydia E. Pinkham's Vegetable Compound will do for women, they cannot fail to bring hope to thousands of sufferers.

Miss Nellie Holmes, of 540 N. Division Street, Buffalo, N. Y., writes:

Dear Mrs. Pinkham:—

"Your medicine is indeed an ideal medicine for women. I suffered misery for years with painful periods, headaches, and bearing-down pains. I consulted two different physicians but failed to get any relief. A friend from the east advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and no longer suffer as I did before. My periods are natural; every ache and pain is gone, and my general health is much improved. I advise all women who suffer to take Lydia E. Pinkham's Vegetable Compound."

Mrs. Tillie Hart, of Larimore, N. D., writes:

Dear Mrs. Pinkham:—

"I might have been spared many months of suffering and pain had I only known of the efficacy of Lydia E. Pinkham's Vegetable Compound sooner; for I have tried so many remedies without help.

"I dreaded the approach of every month, as it meant so much pain and suffering for me, but after I had used the Compound two months I became regular and natural and am now perfectly well and free from pain. I am very grateful for what Lydia E. Pinkham's Vegetable Compound has done for me."

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women.

The success of Lydia E. Pinkham's Vegetable Compound rests upon the well-earned gratitude of American women.

When women are troubled with painful or irregularities, displacements or ulceration of the organs, that bearing-down feeling, inflammation, backache, bloating (or flatulency), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address Lynn, Mass.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

BACKACHE

"I wrote you for advice," writes Lelia Hagood, of Sylvia, Tenn., "about my terrible backache and monthly pains in my abdomen and shoulders. I had suffered this way nine years and five doctors had failed to relieve me. On your advice I aook Wine of Cardui, which at once relieved my pains and now I am entirely cured. I am sure that Cardui saved my life."

It is a safe and reliable remedy for all female diseases, such as periodical pains, irregularity, dragging down sensations, headache, dizziness, backache, etc.

ANNOUNCEMENT.

We call your attention to the fact that Dermakola ointment is a positive cure for Eczema, ulcers, wounds piles, and every kind of skin and scalp trouble. It costs 25 cents if it cures. If it don't, we return your money. Florence Drug co.

TAKE NOTHING FOR GRANTED.
Make Florence Drug Co Prove What Pepsikola Tablets do for Indigestion.

It stands to reason that Florence Drug co, would not come right out in these columns year after year and ask you to try Pepsikola tablets for indigestion if they were not pretty sure you would not receive decided benefit,

You can see that for yourself,

The remedy fails to cure every case, of course they always pay your quarter back, should the tablets fail to do good.

Life is too short for misrepresentations of this kind, and for the small profit Florence Drug co., make on a 25 cent package it would be mighty poor judgment to induce you to make a trip to this store and then sell you something that would disappoint you,

If troubled with sour stomach, heart burn, wind belching, coated tongue, loss of appetite, weakened energy, nervousness, fullness after eating or other stomach trouble, just try Pepsikola tablets on our say so, Our word for it, they will build up your energy, steady your nerves, improve your appetite, enrich your blood and put new life in your stomach as sure as this world,

Billiousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally — MRS. ROSA POTTS, Birmingham Ala These tablets are for sale by Upchurch Drug co., Clanton, A Horn, Thorsby

$125 Reward.

The above reward will be paid on delivery of John Baker, colored, to the sheriff of Chilton County, Ala., wanted for the shooting of W A. Paul, April 14, 1906. Height 5 ft 8 in.; weight about 165 lbs.; age 45 years; black skin. J. M. MORGAN, Sheriff Chilton County, Ala

This is Worth Remembering.

MAN ON THE CORNER
Some of the Sights He Saw, and Some He Saw Not.

Well, court is over, and late this (Wednesday) afternoon Clanton assumes its wanted appearance. The visitors, jurors and witnesses returned to their respective homes with a clear conscience, having faithfully discharged their duty to the commonwealth. Court is always a busy time, and to those of us who have no business in it, a pleasant time.

And the next thing is Christmas, and judging from the merry display of Xmas goods in the several stores it promises to be a happy time in town. Just take a look in at the Upchurch Drug Store or the Florence Drug Store, and see the pretty presents, or J. E. Evans will show you his line of pretty things But there is no end to them. And should attempt to enumerate the pretty things you could buy for Xmas presents, you might take a notion and purchase them right away.

WIMBERLY-MATTHEWS

An event of much interest to Clanton society took place on Thursday afternoon Nov. 29, when occurred the marriage of Miss Marion Matthews to Hon. G B. Wimberly.

The elegant home of Dr. and Mrs. E A. Matthews was lavishly decorated with palms ferns and cut flowers. In a little window recess beautifully decorated in southern smilax, under a wedding bell of white chrysanthemums stood the bridal couple, where they were pronounced man and wife by Rev. A. Rush of Prattville, in the beautiful ceremony of the Methodist church. Just as the strains of Mendelssohn's wedding march sounded from the piano stationed in the music room, the bridal party descended the stairs. First came Miss Emmett Matthews, sister of the bride, then came Miss Mullins, the maid of honor. The bride entered with her father and met the groom attended by his best man, Dr. J. E. Davis of Columbus, Miss. The bride was attired in an exquisite gown of Liberty satin over white taffeta trimmed in real lace and carried an arm cluster of white carnations. The maids of honor wore costumes of blue and carried white carnations.

The bride is the beautiful and accomplished daughter of Dr. and Mrs. E A Matthews, while the fortunate groom is the honored State Senator from the 14th Senatorial district of Alabama.

After the ceremony an informal reception was held, delicious refreshments were served consisting of salads, ices, chocolates and cake, frappe being served as the guests entered the front hall.

The many and beautiful presents attested the esteem and affection in which the bride is held. The happy couple left on the north bound train for an extended wedding trip, the bride wearing a handsome traveling gown of brown.

BIDS ASKED FOR PURCHASE OF BONDS.

Notice is hereby given that sealed bids will be received by the Mayor and Council of the Town of Clanton until Friday, December 21st, 1906, at 12 o'clock m., for the purchase of $5000.00 Coupon Bonds in denominations of $500 each, to be issued by the Town of Clanton, Alabama, on January, 1st, 1907, due ten years, to bear interest at the rate of five per cent per annum, payable annually, said Bonds and interest thereon to be paid at the Clanton Bank, in Clanton, Alabama, said Bonds to be ready for delivery, and payment therefor made, January 1st, 1907. Said Bonds and interest thereon are exempted from state, county and municipal taxation. The Mayor and Council of the Town of Clanton reserves the right to reject any and all bids that may be made for the purchase of said Bonds, and no bid for such purchase will be entertained at a less price than the face value of said Bonds.

Bids may be made for one or any number of said Bonds.

Bids must be addressed to the Mayor of Clanton, Clanton, Alabama, and the envelopes containing such bids must be endorsed thereon "Bids for the purchase of Bonds."

Done this 5th day of December, 1906.

MAKE MONEY.

Here is an interesting study: Make out a list of all the people you know, and estimate the amount of money each one earns in a year. Total it up. The amount will be surprisingly large. Now, of all those people, only the few who SAVE SOMETHING really MAKE anything at all. Simply earning money isn't making it; what slips through the earner's fingers is finally "made" by somebody else. Don't forget to count yourself in on the list, and if you are not "making" money, begin now to save with us. One dollar will open your bank account.

CORRESPONDENCE.

Floods the body with warm glowing vitality, makes the nerves strong, quickens circulation, restores natural vigor, makes you feel like one born again. Hollister's Rocky Mountain Tea. 35 cents. Upchurch Drug co.

Troy, Dec 2, 1906

Editor Banner—Will you give me a short space in your paper? Dear young people of our county—Chilton: I want to say that our county was a well represented county at the Troy Normal college. and if we have got the will it is with us what we make in life; where there is a will there is a way, I have often heard, and young men. I have experienced it to some extent, and if we have the will I am sure we can make our way into success by work. How do we get our education? We get it by learning to do things, and young men, there are many boys that say if I only had the opportunity I would do something for the help of those who need help, and if we wait for some one to give us this opportunity I am afraid that our success will be a failure in life. Why do I say this? Because it is true. Two or three years ago I wanted to go to school and how did I manage to go? I had the will to go and my father saw that I wanted to go to school and he was able to help me. There are many boys who have the opportunity; if they would get to work and have the will they would meet the opportunity on their way. By this courtesy I have managed to be in school at the Troy Normal school for a part of three years and I can say that I wouldn't take anything for what I have learned. Not boasting on myself being a sharp student or quick to learn, for I am not, though what I learn it makes it more precious to me than it would if I was smarter, and young people, we who have fathers and mothers to help us, do not appreciate it as we should, and we should take advantage to make use of every day of our life to the best of our thought. Look at the best men of our State and you will see that they have worked their way up to the post where they now stand. We find so many boys who pass by a good opportunity and grab at one not so good. We should not try to shun work, for work is that which has made our leading men of the State. Some day our fathers will fail and we want to know how to do all their work, and we must learn to do this by doing things that come before us. Success to the dear old Banner and its many readers.

J. B. DONOVAN,

A Western Wonder.

There's a Hill at Bowie, Tex., that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of consumption. I was reduced to 90 pounds, when I began taking Dr. King's New Discovery for consumption, coughs and colds. Now, after taking 12 bottles, I have more than doubled in weight and am completely cured." Only sure cough and cold cure. Guaranteed by Upchurch Drug co. 50c and $1.00. Trial bottle free.

If some men were to lose their reputation, they would be lucky.

CLANTON ACADEMY

Possesses superior advantages to pupils of all grades, prepares them to enter the best colleges and universities, trains teachers to stand examination for any grade certificate, and qualifies them the better to fill a place in their profession.

L. J. THOMPSON,
Principal.

TO WHOM IT MAY CONCERN:

Notice is hereby given that at the next ensuing session of the Legislature of Alabama a bill will be introduced to provide for an additional Judicial Circuit for the State of Alabama, to be composed of the counties of Autauga, Elmore, Chilton and Montgomery, and for the withdrawal of said counties from their present circuits; to provide for the temporary appointment of a judge and solicitor for said circuit; and for their salaries; to regulate the duties and residence of the solicitor; to provide times of holding court in said circuit; to confer chancery jurisdiction on said Circuit Court as to matters arising in Autauga, Elmore and Chilton counties, and to provide for Registers in Chancery therein; to provide for the removal of the pending causes, and remaining of pending appeals to the new court; to regulate the convening of grand and petit juries in said circuit; to authorize the judge of said circuit to adopt reasonable rules of practice to facilitate the business of the court.

CHAS. B. TEASLEY.

Concord.

Hello, dear Editor! the new comer is here again and Xmas is near, let us all keep this day unto the Lord.

Misses Julia Parrish, Lettie Dupree and Martha Jane Mims visited relatives at Marbury Sunday.

Mrs. H. H. Spratling is visiting her sister, Miss Lettie Dupree.

Hello, boys! how did you spend Thanksgiving? We all took another hay ride, started at two o'clock Wednesday night and went to the river; made our return Thursday night and we had quite a nice time. We had Mr. Ed Minor to join us. Who will be the next one to go with us? Don't sigh, dear Editor, I will ring off and come again after Xmas when I will have something to write. Best wishes to one and all.

THE SAME NEW COMER.

Open the bowels and get the cold out of your system. Kennedy's Laxative Cough Syrup opens the bowels and at the same time allays the inflamation of the mucuos membranes. Contains Honey and Tar. Drives out the cold and stops the cough. Absolutely free from opiates. Conforms to the National Pure Food and Drug law. Pleasant to take. Sold by Upchurch Drug co.

Shiloh.

Please allow me space in your paper to say a few words in regard to our school. We are sorry to say that our school has broken up; the scholars were so bad until the teacher could not control them, and the patrons of the school broke it up. We are sorry that we can't have a school here this winter.

Mrs. Ida Gray and her charming little daughter of Pickens county visited relatives here last week and returned home Monday.

The wedding bells will soon be ringing up the road.

The speaking was all O. K. at the school house Saturday night by Mr. F. M. Lett, who spoke on stock law. Success to the Banner and its many readers.

NOBODY'S DARLING.

Long Tennessee Fight.

For twenty years W. L. Rawls, of Bells, Tenn., fought nasal catarrh. He writes; "The swelling and soreness inside my nose was fearful, 'till I began applying Bucklen's Arnica Salve to the sore surface: this caused the soreness and swelling to disappear, never to return." Best salve in existence. 25c at Upchurch Drug co.

STOCK LAW ELECTION NOTICE.

Notice is hereby given that, in pursuance of an order made by the Commissioner's court of Chilton county, Alabama, on the 12th day of November, 1906, ordering an election to be held, in Precinct Four, in said county, for the purpose of determining whether or not all live stock shall be prohibited from running at large in said Precinct Four in said county, an election for said purpose will be held on the 15th day of January, 1907 at Clanton, Precinct Four in Chilton county, Alabama.

Witness my hand this 12th day of November. 1906.

JOHN GORE.

Executive ability is the faculty of getting some one to do your work.

A Home Made Happy by Chamberlain's Cough Remedy.

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bronchitis. We had two doctors but no relief was obtained. Everybody thought she would die. I went to eight different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I try Chamberlain's Cough Remedy. I did so and our baby is alive and well today—GEO. W. SPENCE, Holly Springs, N. C. For sale by Upchurch Drug co., Clanton. A Horn, Thorsby.

STOCK LAW ELECTION NOTICE

Notice is hereby given that, in pursuance of an order made by the Commissioners' Court of Chilton county, Alabama, on the 5th day November, 1906, ordering an election to be held, in Precinct Three, in said county, for the purpose of determining whether or not all live stock shall be prohibited from running at large in said Precinct Three in said county, an election for said purpose will be held on the 15th day of January, 1907, at Benson and Macedonia in said Precinct Three in Chilton county, Alabama.

Witness my hand this 5th day of November, 1906.

G. E. WRIGHT.

Millions of bottles of Foley's Honey and Tar have been sold without any person ever having experienced any other than beneficial results from its use for coughs, colds, and lung troubles. This is because the genuine Foley's Honey and Tar in the yellow package contains no opiates or other harmful drugs. Guard your health by refusing any but the genuine. Upchurch Drug co.

CLANTON, ALA.

Convicted of Misappropriating Funds.

Birmingham, Ala.—Gordon DuBose, former president of the First National Bank of Ensley, was convicted in the federal court of misapplying the funds of the bank and was sentenced to five years in the penitentiary.

The case has occupied the attention of the court for more than a week and was strenuously fought by the government and the defendant. The indictment returned by the grand jury charged the defendant with embezzling, abstracting and misapplying the funds of the bank to the extent of $48,000 and was based upon a series of notes which DuBose had discounted without putting up any collateral security.

New Paper at Birmingham.

Birmingham, Ala.—H. S. Ryall, John S. Sparrow and John R. Hornady, all well-known newspaper men, will on January 1 start a new morning paper in Birmingham to be known as the American. Mr. Ryall has gone North to buy machinery and secure press service. The project is said to have good backing, but who the capital is to come from is not stated.

Surveying New Road.

Sylacauga, Ala.—A corps of surveyors of the Atlanta, Birmingham and Atlantic Railroad Company are now located about six or seven miles south of town, near Stewartsville, in Coosa county, making a preliminary survey of a road to run from Clay county intersection of the main line in the direction of Selma.

Given Fifty Years.

Montgomery, Ala.—The jury in the case of Eugene Dowling, the white carpenter charged with criminally assaulting his beautiful 16-year-old daughter, Daisy, returned a verdict of guilty and fixed his punishment at fifty years in the penitentiary.

Will Be Siam's Adviser.

Cambridge, Mass.—Prof. Henry Edward Strobel Bemis, professor of international law at the Harvard Law School, has tendered his resignation from that chair and will assume a position permanently with the government of Siam as general adviser. Professor Strobel was formerly connected with the United States legation at Madrid.

Killed by Cattleman.

Ardmore, I. T.—Sol Oates, a jointist at Dougherty, I. T., was shot three times and instantly killed by Bose Johnson, a wealthy cattleman of the Chickasaw nation. It is said that Oates while intoxicated went to the home of Johnso nand started the trouble.

Washington.—Paymaster O'Leary, the pay officer of the armored cruiser Tennessee, which acted as a convoy for the Louisiana on its trip to Panama with President Roosevelt, came to Washington from Newport News and entered an empahtic denial of the stories that the stokers of the Tennessee mutinied, making it necessary to put sixty of the men in the brig.

Kick on Bill of Fare.

Macon, Ga.—The prisoners in the Bibb county jail are kicking about the meals which are served to them. They say that the only square thing they see about the meals served to them is the hunk of corn bread, which comes regularly. They receive two meals a day, and they are very good as far as they go, but they don't go, they say, far enough.

Tennessee's Official Vote.

Nashville, Tenn.—The official vote for governor at the recent election in this state fellows: Patterson, democrat, 111,869; Evans, republican, 92,812; Ray, socialist, 869.

Killed by Dynamite.

Knoxville, Tenn.—A disastrous explosion occurred at Moccasin Gap, Va., twenty miles west of this place. A force of four men and a foreman, names of all unknown, were instantly killed by a dynamite blast.

San Domingo Quiet.

San Domingo.—The United States gunboat Marietta, with United States Minister Dawson on board, has arrived from Porto Rico. The country is quiet.

Siege Ended.

San Salvador.—The state of siege in the Republic of Salvador, which was proclaimed at the time of the discovery of the plot against the government, September 11, ended Saturday.

Uniform Box Rent.

Washington, D. C.—An order has been issued by First Aassistant Postmaster-General Hitchcock, effective January 1, looking toward the adoption of uniform rates of rent for boxes in postoffices.

There will be an oil pipe line across the isthmus.

A radiomicrometer has been made which will measure the heat of a candle at 1,320 feet.

ALABAMA GLEANINGS.

Items of Interest Gathered as They Transpire Over the Entire State.

Rear End Collision.

Montgomery, Ala.—As a result of a rear-end collision between two sections of No. 13, Louisville and Nashville freights, at Castleberry, Melville McDonald, a well-known and popular young flagman, is dead, and an unknown negro, known as a "hobo" fireman, is also seriously injured.

Engineer F. J. Fraser had his ankle painfully sprained, and Fireman Tate was also injured.

Little Boy Fatally Burned.

Selma, Ala.—While playing on the lawn of his parents' residence, corner of Union and Parkman streets, William, the 5-year-old son of Mr. and Mrs. W. A. Armistead, was seriously, and it is thought fatally, burned. The little fellow, with a number of other children of the neighborhood, had set fire to to the dead and dry grass on the lawn, after the habit indulged in by many children at this time of the year. In some manner his clothing became ignited.

Suspect Foul Play.

Athens, Ala.—The remnants of the body of a white man were found scattered along the track of the Louisville and Nashville railroad a few miles north of Athens Wednesday morning, and upon gathering up the fragments and the clothing it was found to be the body of Lake Eddins, a young white farmer, who lived near Elkmont. He had been to Decatur and Athens, and it is suspected he was beating his way home.

Bar Association Adjourns.

Gadsden, Ala.—The Etowah County Bar Association adjourned Friday and met Monday morning at 9 o'clock. This was necessary on account of the city court being in session and a number of the lawyers being busily engaged.

The proposed new court legislation is attracting a great deal of attention and many plans are being discussed. The one most in favor seems to be the creation of a new judicial circuit, to be composed of Blount, St. Clair and Etowah counties.

Couple Runs Away.

Huntsvile, Ala.—Alex McAllister and Miss Elizabeth Lane eloped to Fayetteville, and after meeting with many difficulties succeeded in getting married. Miss Lane's father, Editor Charles P. Lane, of the Huntsville Tribune, telephoned the Fayetteville authorities not to issue a license to his daughter, and this appeared to frustrate the plans of the young couple.

A telephone message was received saying that the young people were married. The groom is 19 and the bride 16 years of age, and opposition to their marriage was because of their youth.

Gadsden Wants Charter Changed.

Gadsden, Ala.—Mayor Charles P. Smith has appointed a committee from the city council to co-operate with a similar committee from the Commercial Club in preparing a bill to be presented to the next legislature changing the charter of the city of Gadsden. These two committees will co-operate with the committee who are preparing the general municipal bill, and if the general bill will cover the points to be gained by a special act, no bill will be introduced from this city.

Progress of Road.

Huntsville, Ala.—L. B. Sherrill, general superintendent of the proposed Huntsville and Birmingham railway, addressed a gathering of business men here on the progress being made by his company. Mr. Sherrill said that the people along the proposed line are enthusiastic over the prospects of getting a railroad and are giving rights of way freely and doing everything in their power to encourage the enterprise. Huntsville was asked to subscribe the sum of $50,000 to the stock of the enterprise.

Found Dead.

Birmingham, Ala.—Edward F. Riddick, senior partner in the firm of Riddick & Cerf, merchant tailors, 304 North Nineteenth street, shot himself through the heart in his room in flats on Nineteenth street, between Eleventh and Twelfth avenues.

The exact hour of the suicide is unknown. The dead body was found by other occupants of the flat who returned home at midnight. At that time the body was cold, and it is thought the man had been dead for some time.

Given Twenty-three Years.

Gadsden, Ala.—The trial of Yohlande Degg, which has been in progress in the city court since Monday morning, came to an end when the jury returned a verdict of murder in the second degreegree and fixed the punishment at twenty-three years in the penitentiary.

Twenty True Bills Per Day.

Jesup, Ga.—The grand jury finished their work. They made an average of more than twenty true bills per day.

Diaz Talks to Japanese Ministers.

Mexico City.—Baron Minoru Aarakowa, minister of Japan, was seen by President Diaz in the yellow room of the national palace. In the addresses exchanged between the minister and chief executive the pledge of continued friendship between the two nations was made and special stress made on the question of unrestricted immigration of labor into this republic. On this point the president was congratulated by the new minister, and the chief executive replied by saying: "It is certain our strength, among other important objects, is dedicated to the protection of labor and the maintenance of the country free and open for foreign industry and capital."

New Trial of Druggists' Case.

Philadelphia, Pa.—On the ground that incompetent evidence had been allowed to go before the jury Judge Archbald, in the United States court of appeals, ordered a new trial in the case of C. G. A. Loder, a cut-rate druggist of this city, who secured a verdict of $20,738 against the National Druggists' Association, Philadelphia Wholesale Druggists' Association and the Philadelphia Retail Druggists' Association on the allegation that a conspiracy existed among the defendants to ruin his business, in that they refused to sell him goods because he cut prices. The suit was instituted under the Sherman anti-trust act.

Guilty of Rebating.

Kansas City.—Henry S. Hartley, senior member of the grain brokerage firm of H. S. Hartley & Kansas City, pleaded guilty in the United States district court here to receiving rebates from the St. Louis and San Francisco Railway Company. Judge Garland assessed the minimum penalty, a fine of $1,000, and granted Hartley until Wednesday next to pay it.

Hartley was indicted on November 13 last. It was shown that he shipped 500 sacks of cotton seed meal from points in the Indian Territory, the ostensible destination being Carrollton, Mo. By diverting the shipment at Kansas City he secured a rate of 5 cents a hundred pounds less than should have been paid.

Government May Purchase Central.

Mexico City.—Eben Richards, the newly elected president of the Mexican Central railroad; Walter Rosen, representing the New York banking firm of Ladenburg Thalmann, and Pablo Martines Del Rio, representing the Mexican government, were in conference Saturday evening. At the conclusion of the session the participants would not consent to be interviewed, but the general impression has developed in this capital that arrangements are about to be concluded whereby the Mexican government will purchase the Central.

Germany Objects to South America.

Berlin.—An answer to a report published abroad that Germany objected to the South American republics taking part in the international peace conference at The Hague, it is officially stated, that when President Roosevelt proposed to postpone the conference till 1907, because of the Pan-American congress at Rio Janeiro, Germany was the first country to agree to this in consideration of South American states.

Suffrage Bill Passed.

Vienna.—The lower house of parliament has passed the third reading of the Austrian universal suffrage bill after noisy protests by radical Germans, the socialists and anti-semites meanwhile cheering loudly. The radical Czechs left the chamber before the division and there were no serious incidents.

Is Japan Preparing for War?

Washington, D. C.—Henry B. Miller, United States consul general at Yokohama, will be given an opportunity by the state department to affirm or deny a published interview, in which he is quoted as saying that the Japanese are organizing their army and navy to fight the United States. A clipping of the alleged interview has been forwarded to Mr. Miller.

Bose Goes to Mobile.

New Orleans, La.—The appointment of John Bose as assistant division superintendent of the Sheffield division of the Louisville and Nashville railroad, with headquarters in Mobile, is announced.

Strike is Off.

Tucson, Ariz.—The strike on the Sonora railroad branch of the Southern Pacific has been declared off and trains are now moving.

Miners Strike.

Detroit, Mich.—A Free Press special from Calumet, Mich., says 400 miners and trammers struck at the Osceola mine for a 10 per cent increase in wages.

Valuable Jewels Stolen.

New Orleans, La.—It has developed that the fashionable boarding house of Mrs. Frank Emmett, 2722 St. Charles avenue, was entered by burglars Wednesday evening and a small safe containing diamonds and jewels worth from $5,000 to $6,000 carried off. The safe and contents was the property of Dr. and Mrs. O. Jachim, and among the gems stolen was a highly prized antique ring worth $1,000. There is no clue to the robbers.

Birmingham Sand Famine.

Birmingham, Ala.—There is a sand famine in Birmingham.

According to rome of the contractors and builders in the city, the supply of sand in Birmingham for building purposes now is the smallest it has been in several years.

One contractor stated that he was unable to get more than one-third of the amount of sand that he needed, and that he understood that others were in a similar position.

The shortage of sand seems to be the direct result of the shortage of cars—the old story now—and the people who handle the sand supply state that they have plenty en route to Birmingham and a bounteous supply to draw from if they could only get the railroads to haul it and get the equipment in which to place it.

They claim that they have several shipments of sand that areo verdue in Birmingham and that if they arrive the conditions would be materially improved. If they do not arrive several plants in the city which use sand will have to close down temporarily.

They also claim that the railroads are unable to furnish them with cars in which to ship the sand to Birmingham, and that unless the car situation improves there wil be a scarcity of sand for some time to come.

To Reduce Bonded Indebtedness.

Sheffield, Ala.—The bonded indebtedness of Sheffield was the principal matter considered by the city council at its semi-monthly meeting. While no definite action was taken on the subject, it appeared to be the sense of the meeting that the city should accept the proposition made by the bondholders, which in effect is to issue new bonds in place of those now outstanding; the debt to be scaled from $152,000 to $133,000, bearing interest at the rate of 4 1-2 per cent, instead of 6 per cent ,as at present. The provision is made, however, that if default be made at any time in the payment of interest when due the bonds shall bear interest at 6 per cent from the date of their issuance.

The council tendered a vote of thanks to the Tuscumbia fire company for the valuable services rendered at the fire last weeek. The board discusseed and disposed of matters of local interest.

Colonel Wilhoyte, the owner of the stores destroyed by fire in the Montgomery block, is having the debris removed preparatory to erecting larger and more imposing buildings.

To Sell a Vagrant.

Elizabethtown, Ky.—The odd spectacle of a white man being offered for sale will be witnessed here when Dock Auberry will be knocked down to the highest bidder by the sheriff of Hardin county. The proceedings will be under the vagrancy statute, which is called into use every once in a while to frighten shiftless individuals.

Auberry's purchaser will be entitled to his services for nine months, but in view of the fact that the jury in its verdict found him "too lazy to work, as well as sound physically, it is not likely there will be any lively bidding.

Stolen Lead Found.

Birmingham, Ala.—Three hundred pounds of brand new lead piping, thought to have been stolen from some residence, was located in a vacant lot at 919 South Eighteenth street by the young son of R. P. McDavid.

The matter was reported to police headquarters by Officer Dickson, and the owner of the property is now being sought. It is beleived that some thief robbed a residenee of its plumbing and stored it in the vacant lot, intending to return later and carry it away.

Mobile to Panama.

Mobile, Ala.—The Munson line steamship Royal Exchange sailed from the lower bay for the Panama canal with the first full cargo from this port for that work. It consisted of 102 dump cars and 100,000 feet of lumber.

Counterfeit Money.

New Orleans, La.—Phillips S. Oster, who pleaded guilty to having counterfeit money in his possession, was sentenced by United States Judge Parlange to six years in the federal prison at Atlanta and to pay a fine of $500.

Chief of Police Arrested.

San Francisco, Cal.—On a charge of perjury found against him by the grand jury Chief of Police Jeremiah Dinan was placed under arrest. He was immediately released on $2,500 cash bail furnished by an indemnity company.

Vandiver is Delegate.

Montgomery, Ala.—W. F. Vandiver has agreed to be one of the delegates to the national convention for the extension of foreign commerce, to be held in Washington January 14 next. It is very desirable that other persons interested in this convention should accompany Mr. Vandiver.

Columbus Wants College.

Columbus, Ga.—Columbus is making an earnest effort to capture the agricultural college for the Fourth congressional district, and it is quite probable that when Governor Terrell and the trustees meet here next Saturday Muscogee county will have a definite proposition to offer the board.

The common commissioners of the city agree to appropriate $10,000 for the college, provided the same can be done legally.

THE SUNDAY SCHOOL.

INTERNATIONAL LESSON COMMENTS FOR DECEMBER 9.

Subject: Jesus on the Cross, Luke xxiii., 33-46—Golden Text, Luke xxiii., 34—Memory Verses, 42, 43—Commentary.

I. Jesus crucified (v. 33). 33. "When they were come." A great company of people and of women followed Jesus to the cross, who also bewailed and lamented Him. The three Marys were there: Mary, the mother of Jesus; Mary, the wife of Cleopas; and Mary Magdalene, with several other friends (v. 49). "Calvary." Calvary is the Latin, and Golgotha the Hebrew word with the same meaning. It is just outside the city of Jerusalem. "They crucified Him." His hands and feet were nailed to the cross (Luke 24:39, 40), and then it was lifted and sunk into the ground with a sudden shock producing great pain. "The malefactors." Two thieves were crucified with Jesus, one on the right hand, and the other on the left.

II. The mocking crowd (vs. 34-37). 34. "Father, forgive them." There were seven sayings of Christ while on the cross. This, the first one, is a prayer for His murderers. "Parted His raiment." The four soldiers divided among themselves His outer robe, head-dress, girdle and sandals, but for His "coat," that is, His tunic or under garment, which was without seam and which would have been ruined if divided, they cast lots (John 19:23, 24). "Cast lots." See Psa. 22:18. What a picture! 35. "The people stood beholding." Vast crowds were in Jerusalem to attend the feast of the Passover. "The rulers." The dignitaries and members of the Sanhedrin. "Derided Him." The crowd mocked Him from 9 till 12 o'clock. The women were last at the cross and first at the grave. "Let Him save Himself." They thought that if Jesus were the Messiah, surely He could deliver Himself from the Roman cross.

36. "Vinegar." The soldiers pretend to treat Jesus as a king, to whom the festive cup is presented.

III. The superscription (v. 38). "Superscription." The white tablet nailed upon the cross, above the head of the victim, to declare the crime for which He was crucified. "Was written." Pilate wrote this superscription evidently in derision (John 19:19). "King of the Jews." The words are somewhat different in the different gospels, probably because some of the writers copied from one language and some from another.

IV. The robber's conversion (vs. 39-43). 39. "Railed on Him." The two thieves crucified with Him may have belonged to the band with Barabbas. "Save Thyself," etc. Prove your claim to the Messiahship by delivering yourself and us from death. 40. "Dost not thou fear God." Whatever the reckless crowd may do, thou art near death; does this have no effect upon you? 41. "We—justly." He is a true penitent, confessing his sins. "Nothing amiss." He may have heard and seen much of Jesus at the trial.

42. "Lord." The very use of the word implies faith. "Thy kingdom." He thus recognized Christ as a real King.

43. "To-day." This was the second saying of Christ on the cross. "Paradise." This is a word of Persian origin, denoting a beautiful park.

V. The supernatural darkness (vs. 44, 45). 44. "Sixth hour." Noon. "Darkness." The darkness continued three hours, from noon till 3 o'clock. "Over the whole land." (R. V.) Of Palestine. This darkness was typical of the moral darkness that filled the land. This was a miraculous occurrence, showing the amazement of God at the wickedness of the crucifixion of Him who is the light of the world and the sun of righteousness. "The ninth hour." The hour of the offering of the evening sacrifice. During the darkness occurred Christ's fourth utterance on the cross: "My God, My God, why hast Thou forsaken Me?" (Matt. 27:46). The fifth saying was, "I thirst" (John 19:28).

45. "The veil." The great veil of the temple that hung between the Holy Place and the Holy of Holies, 40 cubits (60 feet) long, and 20 (30 feet) wide, of the thickness of the palm of the hand, and wrought in 72 squares, which were joined together. These veils were very heavy. "Was rent." Its rending typified "that the veil that shut out the vision of holiness from the hearts of the people had been taken away" (2 Cor. 3:14-16). "Its rending was emblematical and pointed out that the separation between Jews and Gentiles was now abolished, and that the privilege of the high priest was now communicated to all mankind."

VI. Our Lord's death (v. 46). 46. "With a loud voice." As it were the triumphant note of a conqueror. What He said first at this time is recorded in John 19:30, and was His sixth saying on the cross. "It is finished." "Father," etc. This was His seventh saying. "The word 'Father' shows that His soul has recovered full serenity." Not long before this when struggling in the darkness He called to His "God;" now the darkness is gone and He sees God as a loving "Father." "I commend My spirit." I deposit My soul in Thy hands. Here is another proof of the immortality of the soul, and of its separate existence after death. "Gave up the ghost." "He dismissed the spirit." He Himself willingly gave up that life which it was impossible for man to take away. As Jesus gave up His spirit there was an earthquake of such power as to rend the rocks and open the tombs (Matt. 27:51-53).

Alcohol in Hospitals.

In a speech recently at the Bishopsgate Institute, Sir Victor Horsley gave some remarkable figures to show how the use of alcohol in hospitals was declining. In 1862 nearly $40,000 was spent on alcohol in the London hospitals and $15,000 on milk; in 1902 the situation was almost exactly reversed, about $15,000 being spent on alcohol and over $40,000 on milk.—National Advocate.

It is estimated that alcoholic liquors kill every year 60,000 in America.

The Bond of Perfection.

Love is the greatest thing can give us, for Himself is it is the greatest thing we to God, for it will also give and carry with it all that is The apostle calls it the bond of fection; it is the old, and it is new; it is the great Comm and it is all the Commandme it is the fulfilling of the law.— Taylor.

The State debt of Maryla been reduced to $822,201.41.

English people use on an one pair of glove apiece yearly annual sale of gloves in this is over 38,000,000 pairs.

Linoleum is made of powdered oil and rosin spread upon canv der steam at high pressure.

NEW YEAR'S CALLS

A New Drink to Replace the Time "Apple-Jack."

Twenty-five years ago the of making New Year's calls was lightful one for all concerned, some of the boys got more or "apple-jack" than they could cessfully carry.

Then the ladies tried to be ble and the gentlemen tried to chivalrous as ever and stand the same time.

If anyone thinks there has considerable improvement the last quarter of a century use of alcoholic beverages, stop to consider, among other the fact that the old custom Year's calls and the genteel is nearly obsolete.

The custom of calling on friends, however, at the beginning the new year, is a good habit another good habit to start time is the use of well-made instead of coffee or spirits.

A Staten Island doctor has a ble daughter who has set fore her guests as a good drink at Yule Tide, and a to begin the New Year. writes:

"My daughter and I have Postum for some time past feel sure it contains whole material.

"I shall not only recom my patients, but my daught most pleased to give a dem of Postum to our Christmas Year's callers." Read "The Wellville," in pkgs. "There's son."

The Bo of Perfection.

Love is the greatest thing th can give us, for Himself is lo it is the greatest thing we o to God, for it will also give and carry with it all that The apostle calls it the bond fection; it is the old, and i new; it is the great Comm and it is all the Commandm is the fulfilling of the law.— Taylor.

TER JEFFERSON

r County Has Plan to ex a Large Slice of Jefferson.

RELY ON JEALOUSY.

Members of the Legislature Think Jefferson's Delegation Is Too Large.

gomery, Ala.—According to received here Walker county is a considerable slice of Jefferson, plan to annex it is now on foot e residents of Walker county. plan will be made public in the of a bill which will be presented next session of the legislature. territory to be annexed, as by information based upon the is that portion of Jefferson coun unded by the branch of the railroad which passes through n, the Black Warrior river and present Walker county line. Rep tative E. R. Lacy, of Walker, has pushing this movement and has considerable time in Montgom The promoters of this annexa movement expect that they will e the support of a large number people who at present reside in particular portion of the county. Lacy, it is understood, will de to a very large extent upon the y and feeling of legislators from portions of the state to secure passage of the bill. This annexa of so large a portion of Jefferson Walker would have the effect of ening to a great extent the influ of the county in the political af of the State, as Jefferson now seven votes in the Legislature counties believe that this gives son too much power in political s of thes tate.

Walker county is also depending the sentiment which has been d in Jefferson by the fear of an pt of Bessemer and other towns t part of Jefferson to organize a ate county from Jefferson terri The taxable value of the land h Walker proposes to annex is as d at approximately $1,000,000.

Debate on Congo.

ssels.—Optimism regarding the e of the Congo Independent state d the speech in the chamber of ies of M. Deposte, ex-minister of e, who declared, among other , that the state always had en red to remedy abuses as they pointed out. The speaker said he hoped the state soon will abol bonded labor. Renken, Catholic, gh favoring annexation, said that ped Belgium is not about to ac e a territory worn out by rapa exploration. He stigmatized as lumny the statement that King d has exploited the independent for his own profit.

Railroads' Appeal Granted.

w Orleanss, La.—Judge Parlange ied the appeal of several southern oads in the case of the interstate merce commission, which had se d an order restraining them from ging 10 cents per hundred pounds yellow pine shipped into Ohio from south. The roads affected include Mobile and Ohio, Alabama Great thern, New Orleans and Northeast Louisville and Nashville, Alabama Vicksburg and the Gulf and Ship d.

Strike on the Sonora Railroad.

ucson, Ariz.—The Sonora railroad, ch is the southern extension of Southern Pacific system from Nog Ariz., to Guaymas, Mex., is tied by strike on the release of J. M. , now held at Mermosillo, on a ge of manslaughter.

Clements to Be Reappointed.

Washington, D. C.—Judson Clem , of the interstate commerce com ion, the only southern member of body, will, it is understood, be re inted upon the expiration of his next month. Judge Clements is tive of Georgia.

Ten Injured in Wreck.

d, Okla.—Northbound passenger No. 12 on the Rock Island rail was wrecked near Waukomis, miles south of this city, and ten engers were injured, none fatally. ding rails caused the accident.

General Baughman Drops Dead.

ashington, D. C.—Gen. Louis Vic Baughman, of Baltimore, died sud y in that city of heart trouble. He the democratic national commit n from Maryland.

Money in Sub-Treasuries.

w York.—The sub-treasury has nsferred $1,550,000 to San Fran A transfer of $100,000 was to New Orleans.

Debate Over Salaries.

aris.—There was a lively debate in chamber of deputies over raising salaries of deputies and senators $1,800 to $3,000 a year. The pro vote was confirmed by 250 ayes noes.

WAR IS INEVITABLE.

Japan Will Push Forward and Force United States Into Conflict Is Magistrate's Belief.

Chicago, Ill.—The the future of the Filipino depends on the granting of free trade in his commercial relations with the United States was the statement made by Judge Paul W. Linebarger, who has just returned from the Philippine Islands, where he served five years as trial judge, to which position he was appointed by President McKinley.

Judge Linebarger firmly believes the Filipinos have been underrated and that the resources of the country have been underestimated. He declared emphatically that there is an erroneous idea prevalent in the United States that the Philippines are a drain on the taxpayers of the public instead of a self-sustaining nation.

Viewing the operations of the Japanese in the Far East since the close of the war, he gave his opinion that a war between this nation and the yellow people is inevitable because of their desire to control the commerce of the countries beyond the Pacific. Already he says the legend, "Great Britain, but greater Japan," finds utterance on the lips of every son of the Flowery Kingdom.

Judge Linebarger announced himself in favor of the establishment of a foreign bureau to be operated in connection with the consular service.

Loses Heavily in Receipts.

New Orleans, La.—A big falling off in the cotton business of New Orleans during the year ending August 31 last is indicated in the annual report of the cotton exchange.

"This has been the worst year for spot cotton business in New Orleans," says the report, "since the inauguration of the exchange thirty-five years ago."

The cause of this record-breaking falling off is explained as largely due to abnormal conditions and to disasters in the sections immediatley tributary to New Orleans.

Gross receipts of 1905-6 cotton at the port of New Orleans were equivalent to 14.75 per cent of the commercial crop of the United States, as compared with 20.07 per cent the year before. Speaking of receipts of independent presses, which were 36 per cent under last season, the report says in addition to the disasters already mentioned, it is believed New Orleans suffered from diversion to other centers.

"We continue," says the committee of supervision, "to be practically shut out of Texas through the ruling of its railroad commission and for other causes, and out of a crop of that state and Indian Territory of 3,025,899 bales we received only 170,425 bales."

A recommendation to establish a direct wire system between the New Orleans and New York cotton exchanges, the two bodies to own the wires jointly, was made by the committee on information and statistics, which has been investigating through service.

Russian Famine Worse.

St. Petersburg.—As a result of the investigation which the press campaign and public indignation have compelled the ministry to make into the Lidval contract for the purchase of grain intended for famine relief, in which Assistant Minister of the Interior Gurgo is alleged to be involved, the suffering of the stricken population of the Volga provinces has been greatly augmented. On account of the disappearance of Lidval, the chief grain buyer, in the face of threatened proceedings, the purchase and shipment of the sorely needed grain have been suspended and considerable time must elapse before new contracts can be drawn up.

German Instruction.

Rome.—Cardinal Kopp, bishop of Breslau, has had a number of interviews with Cardinal Merry Del Va., the papal secretary of state, concerning the religious instruction in German of Polish children in German Poland. It seems that the bishop has succeeded in inducing the vatican not to pursue an anti-German course and that he has proved to it that religious teaching in the German language is compulsory only for such Polish children as know that tongue.

Many Steerage Passengers.

New York.—Three steamers which arrived from the Mediterranean brought 4,670 steerage passengers. The Slavonia brought 2,088, the Konigen Luis 1,294 and the Moltke 1,288.

Peasants Killed in Riot.

St. Petersburg.—An Agrarian riot broke out in Petroff, Kasan district. The rioters looted the communal granary. The police guard fired a volley, killing and wounding many peasants.

Woman Revolutionist.

El Paso, Tex.—Mrs. Maria Ponce de Gonzales, a prominent woman of Juarez, has been arrested in Juarez charged with harboring revolutionists.

Voluntarily Pays Back Taxes.

New York.—Former Mayor Seth Low has sent a check for $37,397 to Comptroller Metz in payment for taxes and interest which he caused to be deducted from the tax on his personal estate in 1901.

TORCH AND DYNAMITE

Mob Uses These to Destroy Warehouse at Princeton Kentucky.

MASKED MEN 200 STRONG.

Buildings Were the Property of Imperial Tobacco Company and Gallagher & Co.

Hopkinsville, Ky.—A mob of masked men, estimated at nearly 200, rode into Princeton, the county seat of Caldwell county, and after terrorizing the citizens by the firing of pistols and disarming the police, blew up two large rehandling tobacco warehouses and committed other outrages and destruction of property.

The horsemen were all heavily masked, and wore upon their breasts large pieces of cloth cut in the shape of a tobacco leaf. As they entered Princeton they commenced firing pistols and ordered citizens who appeared on the streets to remain in their residences. The night police were disarmed and placed under guard, as were also the night watchmen at the tobacco warehouses singled out for destruction. The girls on duty at the telephone office were also compelled to leave their posts of duty and go home. The mob then took possession of the water works and placed a guard to see that the pumps were not allowed to be worked.

The mob next rode to the rehandling warehouse of James G. Orr & Co., buyers for the Imperial Tobacco Company, known as the British trust. Finding Mr. Orr there, he was ordered to go home, and was sent away under guard, when the factory was set on fire and dynamited. The building, valued at $15,000, blew up with a terrible noise, together with all its contents, including 100,000 pounds of tobacco that had been delivered to the company in the past three weeks, and which was worth at least $7,000.

The mob then rode to the stemmery of J. A. Stegar, which they set on fire and then blew up with dynamite. Stegar is agent for Gallagher & Co., big independent buyers, the president being Tom Gallagher, of Belfast, Ireland, known in Europe as the "tobacco king." There were 160,000 pounds of tobacco in this factory, which with its equipment was valued at $20,000, while the tobacco loose will be fully $10,000 more. Both of these factories were partly covered by insurance.

Before leaving the place the mob fired a large number of shots and riddled the postoffice and adjoining houses with bullets.

Every move made by the mob showed that their plans had been carefully made, and no one was allowed to interfere with them. The firemen were not permitted to try to put out the fires, and every person who offered any means of interfering with their fiendish work was put under guard and sent to their homes.

It is reported from Eddyville that a posse of armed men was being formed for the purpose of marching on Princeton and if possible arresting the leaders of the mob. At Kuttawa the report was started that an attempt would be made to destroy the factory of Arthur Jarvis, which had for weeks been guarded by one man, which guard has been increased to fifty men. Ever since the rehandling houses at Fredonia and Eddyville were dynamited a month ago feeling in all that section bers of the Protective Association and has been running high between members of the Protective Association and of the independent organization, known as the 'Hill Billies." It is said there are serious fears that international complications may arise from the mob work, from the fact that Mr. Gallagher, owner of the tobacco in the Stegar factory, is a British subject.

No Confidence in Ministry.

Madrid.—The liberal press is almost unanimous in expressing lack of confidence in the new Moret y Prendergast ministry. The prevailing impression is that the Moret ministry will not survive long.

Revive Vice-Admiral.

Washington, D. C.—The grade of vice-admiral will be revived in the navy if the navy department adopts the recommendation made by Rear Admiral Converse, chief of the bureau of navigation, in his annual report.

Commercial Treaty.

Madrid.—The negotiations for a commercial treaty between France and Spain to take place of the treaty which expired December 2, have been postponed indefinitely.

Valuable Jewels Stolen.

New Orleans, La.—It has developed that the fashionable boarding house of Mrs. Frank Emmett, 2722 St. Charles avenue, was entered by burglars Wednesday evening and a small safe containing diamonds and jewels worth from $5,000 to $6,000 carried off. The safe and contents was the property of Dr. and Mrs. O. Jachim, and acong the gems stolen was a highly prized antique ring worth $1,000. There is no clue to the robbers.

Train Wrecked and Engineer Killed.

Pittsburg, Pa.—Fast Baltimore and Ohio train No. 10, bound from Cleveland, O., to New York, ran into an open switch at Coffey coal mines, about fifteen miles east of Pittsburg, killing the engineer, Harry Sheppard, and seriously injuring Charles Denny, the fireman, and F. S. Farmer, the baggage man. Several of the passengers were slightly bruised by being thrown from their seats, but were not seriously hurt.

The officials say some one who wanted to wreck the train threw the switch. That many lives were not lost in the wreck is remarkable.

The train was running at a rapid speed when the open switch was reached. The engine and express car were thrown from the tracks on their sides. Fortunately the Pullman and the baggage coaches retained their upright positions. The cars, however, were fearfully jarred and all the passengers were thrown to the floor.

Hurled From Car by Robbers.

Redwood, Tex.—The express car attached to train No. 4 of the Cotton Belt Route was robbed and Express Messenger W. A. Grissip was hurled from the moving train after having been beaten and badly wounded by the robbers. The robbery, it is believed, occurred about a mile from this place, but was not discovered until the train had reached Eylau, the next stop.

The wounded messenger was found lying beside the track badly hurt and bearing indications of having had a desperate fight. He was unable to speak when found, and was brought here for medical attention. The robbers escaped.

Vatican's Interest in Cabinet.

Rome.—Although the vatican believes that Senor Moret y Prendergast, who has been charged with the formation of a new cabinet at Madrid, will be obliged to insert in his platform a clause for the revision of the concordat with the holy see, it being necessary to form a block for the Spanish liberals and some republicans, it is of the opinion that most of the members of the cabinet to be formed will be more moderate than their predecessors. The previous Moret y Prendergast cabinet was more moderate than the ministry which resigned. The matter of the revision of the concordat doubtless will be discussed by the contracting parties; indeed, negotiations to this end were already under way when Moret y Prendergast was last in power.

Conference Postponed.

Havana.—The conference between Governor Magoon and Cuban senators and representatives chosen to office at the last election, called originally for Saturday, has been postponed until Sunday. The purpose of this conference continues to be a matter of speculation. Governor Magoon still declines to discuss it save to say that he desires to consult with the chairman in person. The liberals are still confident that the governor intends to require the resignation of the members of congress preparatory to fixing a date for new elections.

Liverpool Cotton Statistics.

Liverpool.—Following are the weekly cotton statistics: Total sales all kinds, 36,000 bales; total sales American, 78,000; English spinners' takings, 73,000; total exports, 10,000; imports all kinds, 162,000; imports American, 137,000; stock all kinds, 507,000; stock American, 426,000; quantity afloat all kinds, 471,000; quantity afloat American, 396,000; total sales on speculation, 600; tatol sales to exporters, 1,400.

Tranquility in Cuba.

Havana.—Reports received by Governor Magoon from thirty towns show that tranquility reigns everywhere. A slight increase of yellow fever has been recorded. There are four new cases, one at Havana and one at Sagua LaGrande, one at Cruces and one at Union DeLos Reyes. The total number of cases on the island is now thirteen.

Resignation Accepted.

Havana.—Governor Magoon has accepted the resignation of Governor Aleman, of Santa Clara province. The governor says it is impossible for him to remain in office.

Well-Known Choctaw Killed.

Ardmore, I. T.—J. M. Hickman, a well-known man of the Choctaw tribe of Indians, was shot and killed at Silphir by William L. Hill, an officer.

Author's Home Burned.

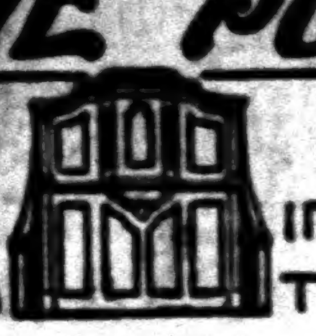
Nashville, Tenn.—The former residence of Miss Mary Murfree, known to the literary world as Charles Egbert Craddock, near Murfreesboro, Tenn., was destroyed by fire. Some of the author's most famous works were produced there.

Columbus Wants College.

Columbus, Ga.—Columbus is making an earnest effort to capture the agricultural college for the Fourth congressional district, and it is quite probable that when Governor Terrell and the trustees meet here next Saturday Muscogee county will have a definite proposition to offer the board.

The common commissioners of the city agree to appropriate $10,000 for the college, provided the same can be done legally.

THE PULPIT



A SUNDAY SERMON BY THE REV. IRA W. HENDERSON, THE FAMOUS DIVINE.

Subject: The Message of Christ to Capital.

Brooklyn, N. Y.—Speaking at the Irving Square Presbyterian Church on the theme, "The Message of Christ to Capital," the Rev. I. W. Henderson, pastor, took as his text Matthew 7:12, "Therefore, all things whatsoever ye would that men should do to you, do ye even so to them." He said:

Labor and capital. The great correlated facts of the economic life of to-day, as throughout all ages they have been, are labor and capital. But though they are correlated, capital is of secondary importance. In a simple society labor is central. In a complex society labor and capital may with reason be allowed to possess an almost equal position of importance in the economic system. But no matter how influential and how powerful capital may become it can never usurp the central, primal, fundamental, ultimate position of labor in the economic affairs of man.

The economic tendency of to-day upon the side of capital is toward centralization, toward combination, toward concentration. With this tendency toward centralization we have the spectacle of immense corporations gifted with a chartered power at the hands of a sovereign people. And these corporations are engaged, many of them, in the exercise of this power in endeavors to control the output of the necessities of life; direct and govern the markets of the world, and dictate prices for the necessaries of life without due regard to fairness or to the universal laws, very largely, of supply and demand. There are good and there are evil results to be expected and to be found in the economic trend of our day.

The dangers of this economic tendency so far as capital is concerned are many fold; and the first danger is, that in the centralization of wealth and the increase of capital beyond the bounds of safety, we shall have two different and distinct classes in the social life of our land. The danger is, that, with a society in which there shall be, in effect, but two classes of men, we shall have a return, in an economic way, to the unhealthy conditions of the feudal regime. The danger is that, upon the one hand, we shall have the employer, on the other hand, the employe; on the one hand, the men of money and, on the other, the salaried. The danger is that, on the one hand, we shall have a class of independent wealthy men and, on the other, a mass of dependent retainers; on the one hand, the wealth holders and, on the other, the wage workers.

The second danger is from corporate concentration. By virtue of Governmental enactments a corporation, though composed of personalities, is itself an impersonality before the law. The sense of individual responsibility is lessened and men are released, by the law itself, from that lively sense of personal duty which is incumbent and felt upon the part of the individual man with a personal relation to the law and to trade. Men become the engineers of a huge mechanism. Humanity is lost in the machinery of commercial life.

Another danger of the economic tendency on the part of capital to-day is that, by virtue of its immense powers, it shall grow up as a State within a State. With the numberless and increasing ramifications and alliances of our larger corporations there has grown up an alarming situation. Take, for instance, the most noted corporation in the land. However valuable the public services of this corporation may have been; however important its contributions to society, as a leader in the march of trade, may be admitted to be; however much we may praise it for the many excellencies which it possesses, we cannot escape the fact that it stands to-day, as do many other corporations, as a danger to the public welfare and as a possible enemy to the common weal. The ramifications, the business alliances, the political coalitions of this one corporation are so diverse, so Nation wide, so stupendous as to be almost past belief. All this is wise from the standpoint of a pure commercial life. There is nothing inherently wrong in such a condition of affairs if the correlative power which it brings be exercised with an eye single toward the light of righteousness. But if ever this enormous influence and capacity for good or for ill should become vested in the hands of unscrupulous men the danger to our civil liberty would be very real. If, in the course of time, the power of such corporations should become the property of unjust and ungodly men, whose creed should be selfishness and whose commercial aim should be directed toward the satisfaction of unbridled self-interest, immediate and intense iniquity would, of sequence, result. The danger to these American people lies not in the strength of military force; not in an unselfish imperialism which strives for the amelioration of the peoples of the islands of the sea; but in the unholy use of dishonest power by immoral and conscienceless men of wealth. Then will be realized the prophecy of the State within the State. Then will come the test of capital, made arrogant with wealth, in the lists against the Governmental authority.

It does not necessarily follow, whatever may be our fears, that combination per se is evil. Combination is a natural and a logical result of the conditions under which we live. Anything, whatever its name, which lightens labor, enlarges efficiency, and increases the impetus of commercial life, is of value to humanity at large. Impersonality before the law is not in itself an unmitigated evil if so be the men who manage corporations do not forget humanity and God. Combinations and corporations are beneficial so long as they are good.

It also does not follow, necessarily, that the possession of great wealth is a crime. Wealth is a sin only when it is unrighteously acquired or inhumanly expended and used. The man who becomes rich in righteousness is an honor to the Commonwealth. The man who spends his substance in a decent way with due regard for the public good is a credit to the State. But bad men whose wealth is the result of malicious depredations upon the public, and whose moneys are expended in unclean ways, are public criminals and disgraces to humanity. It also does not follow necessarily that a system of corporate combination destroys individuality. It may destroy to some extent the money making capacity of the individual; but to destroy a man's ability to exercise his financial instinct is not to destroy the man. Individuality is not a matter so much of money as of mind, heart, and soul. And any system which permits men to enjoy a larger opportunity for the exercise of their intellectual, moral and spiritual capacities, and which enables humanity to realize in a larger fashion the fulness of human personality upon every side, must be valuable to mankind. Righteous combination will afford opportunity for all the faculties. The individualism of to-day is an insult, in the last analysis, to personalities who are made in the image of Almighty God. About all that it emphasizes is our capacity and desire to make money. And however valuable money may be and however much we may all need it, this is the eternal truth of God, that that system which emphasizes this side of man's nature almost to the stultifying of his mental, ethical and spiritual characteristics is a thing of sin.

The message of Christ to capital. And what is this gospel? If I understand the truth of God unto men of wealth as it has been revealed unto us in Jesus Christ our Lord, it is this, that money is a trust; that wealth is a talent; that the possession of extraordinary ability for financial success and commercial leadership is a gift of God compelling inescapable duties upon those so blessed and enforcing tremendous obligations. A man's money is to be used not unto the satisfaction of his selfish desires, but for the good of all. Men are not to be treated as slaves. They are not to be considered as machines. Bearing in mind the admonition of our Lord, "Whatsoever ye would that men should do unto you, do ye even so to them," our men of financial and commercial prominence should remember that even the humblest man is a personality and not a mechanism; that even a laborer is a child of the living God. If there are any men who should have patience, forbearance, charity, loving kindness, tenderness, compassion with and for the men who toil, they are the men who in the providence of God are supremely endowed with the fulness and the fatness of the good things of life. It is the business, as, under God, it should be the happiness, of our men of means and of commercial prominence to study the comfort, to enhance the joy, to foster the education, to assist the moral and spiritual upliftment of the man who is working for a wage. Their delight it should be, as it is their duty, to lighten labor and to increase wages to the utmost limit that the economic conditions which are existent will allow. They should see that the toiler has free hours, sufficient and often enough not only for rest, but also for honest recreation. Men do not ask for alms, they simply desire a chance and an opportunity to do something more than exist—to live. In the darkest days of African bondage there were no worse, though there were different, conditions, than those which characterize the inhuman white slavery that is a feature of the economic system of to-day. Multitudes of men eke out but a bare and, at best, a miserable existence, as the fruit of honest, laborious and oftentime dangerous, toil; while those who pay their wages live in splendor, affluence, and, many times, in supercilious and arrogant indifference to the needs of men. The message of Christ to the man of wealth is a call for selfishness, self-sacrifice and honest philanthropy.

The great need of capital to-day is an instillation in its heart of the principles and the personality, of the character and the convictions of Jesus Christ. We cannot hope for a sound exercise of commercial authority; we cannot, wisely and sensibly, expect a true development of our commercial life without the presence of His truth as the guiding and controlling factor in the hearts and the minds and the souls of our men of wealth. Filled with the spirit of Christ they will love men; and loving men, we shall have no fear.

A Mistake Frequently Made.

Professor P. Brouardel in an address on the measures adopted by different nations for the prevention of consumption, calls attention to a mistake made in the different countries by ministers who have the charge of the financial department of the State. He says they like to calculate the sum the State gets from the duty on alcohol, but they should deduct from it the cost to the community of the family of the ruined drunkard, his degenerate, infirm, scrofulous and epileptic children, who must have shelter. This invasion of alcoholism ought to be regarded by everyone as a public danger, and this principle, the truth of which is incontestable, should be inculcated into the masses, that the future of the world will be in the hands of the temperate.

Response to Prayer.

There is no true prayer without some response. Invisible wires from heaven to earth are ever vibrating with divine blessings, and when prayer touches them the electric stream of love enters the soul.—Newman Hall.

The Banner.

Printed and Published every Thursday at Clanton, Chilton County, Ala.

THE President's message is a lengthy document, with some good ideas and suggestions.

STOCK law is agitating the minds of some of Chilton citizens.

JUDGE ALSTON has made many friends in Chilton by his urbane manner and just decisions.

Tax Assessor Pounds will be in Clanton the last ten days of the year for the purpose of assessing taxes

Not a Clothes Peg.

Peggie Newton had been a faithful household drudge for years, and had not grumbled much when her wages were occasionally passed over. But as time went on, and her salary fell more and more into arrear, she ventured to ask for something "on account."

"Why, haven't I paid you your wages lately, Peg? How careless of me," her mistress said. "I'm sorry I have no money in the house just now, but here's a smart cloak that I've ceased to wear, and which is only a wee bit out of fashion. You'll take it in lieu of wages, won't you?"

"No, ma'am, I'm sure I shan't," said Peg, wrathfully eying the faded old cloak. "A peg I may be by name, but I won't be the sort of peg that people hang castoff clothes on—not if I know it."—London Answers.

Bear Hunting.

Bear hunting, with the assistance of guides supplied with a well trained pack of hounds, may be satisfactory if merely the killing of them is desired, but it certainly is no sport and deserves not even to be ranked with trapping bears, as in the latter case the hunter must possess at least some knowledge of the quarry's habitat and habits. Unlike a fox, a bear, when once found by the hounds, stands no chance whatever of escaping, and there would be just as much sport in shooting the animals in a park or pen as to kill a run to bay bear. And, while this truth applies to mountain lions also, there is not even the excuse of the animal's destructiveness, which is applicable as far as the latter is concerned.—Field and Stream.

The Poodle.

Why is a poodle, so called? Some one says: "Probably the natural answer would recall the old lady who said that no credit could be given to Adam for naming the pig, since anybody would have known what to call it. 'Poodle' seems so obvious a name for this dog. And, in fact, this is not far from the truth about the origin of the word. It is quite recent in English, not being found before 1804, apparently. It is the German 'pudel,' which comes from the Low German, 'pudeln,' to waddle, and the dog must have been so called, as Skeat says, either because he waddles after his master or because he looks fat and clumsy on account of his thick hair."

Coldness of Ice.

It seems strange to think that some ice is colder than other ice. The term "ice cold" always seems to signify a definite temperature. All water under similar conditions freezes at a certain definite temperature. But when the thermometer falls below that it continues to affect the ice, making it harder and colder. The test has been made by placing a piece of ice from the north and a piece of ice formed in the vicinity of New York near a stove together. The former took much longer to melt than the latter.—New York Tribune.

Viewing the Remains.

It had been a strenuous afternoon for the devoted teacher who took six of her pupils through the Museum of Natural History, but her charges had enjoyed every minute of the time.

"Where have you been, boys?" asked the father of two of the party that night, and the answer came with joyous promptness:

"We've been to a dead circus."

Rubinstein on Piano Playing.

When a pupil happened to ask Rubinstein how certain passages should be construed, he invariably showed them. But if a pupil asked, "Shall I play this in this manner or that?"—both equally correct—Rubinstein invariably replied: "Play as you feel. Is the day rainy? Play it this way. Is the day sunny? Play it the other way."

Cutting.

A certain photographer is exhibiting in his window the photograph of a young man with the following inscription attached to it: "This is the man who put his hair in curls to have his photograph taken and then can't pay for them."

CIRCUIT COURT.

At the time of going to press last week the case of W. R. Lowery vs. Z. S. Avery was before the court; the jury, after being out all night, returned a verdict for defendant.

Albert Headley vs. C. C. Culp; judgment and verdict for defendant.

John E. Hedberg vs F. E. Gronquist; judgment for defendant.

REPORT OF GRAND JURY

To the Honorable A. H. Alston, Supernumerary Judge of the State of Alabama:

We, the Grand Jury empanelled for the Fall Term of 1906, do hereby respectfully present the following report:

We have examined the County Poor Farm and find that there are at present eleven inmates at the farm We find that the place is in good condition and well cared for, and that all proper and necessary accommodations are furnished the inmates.

We have also examined the jail and find that it is kept in perfect condition, and that the prisoners are well fed and cared for.

Our examinations of the books and bonds of the county officers, so far as the limited time at our disposal would permit, show that the books are neatly and correctly kept, and that the bonds appear to be good and sufficient.

We recommend that the road apportioners and the overseers be made to comply with the requirements of the law, to the best of their ability, and that the roads be better worked and kept in better condition.

We have investigated 55 cases of alleged violations of the law and have examined 150 witnesses, and have found 19 true bills.

We wish to thank your Honor for the able charge given us before beginning our investigations. We also wish to thank the Solicitor, the Bailiff and the Sheriff for their kind assistance and willingness to aid us in our work.

Having finished our work, we now request that we be discharged.

A. S. JONES, Foreman.

The Grand Jury adjourned Friday evening until Monday morning, and finally adjourned Tuesday evening.

The following cases have been disposed of:

John Will Davis, selling liquor, continued to await expiration of sentence now pending.

Ed McCullough, murder, first degree, continued by the state.

Lee Hubbard, carrying concealed weapon, in penitentiary.

Henry Esco, selling liquor, nolle prossed.

Frank Snyder, selling liquor, nolle prossed.

Dave Morris, selling liquor, continued by state.

Less Cox, disturbing religious worship, continued by state.

Joe Walker, carrying concealed weapon, continued; defendant in penitentiary.

Will Parrish, selling liquor without license, defendant in insane asylum.

Thomas M. Barnett, assault and battery, in supreme court.

Charley Woodfin, practicing medicine without license, fine $25.

Dutch Headley, abusivd language, fine $5.

Hugh Lockhart, selling liquor without license, continued by state.

Sam Hancock, disturbihg worship, continued by state.

Dan Kendrick, carrying concealed weapon, not guilty.

William C Robinson, false pretenses, passed until 5th instant, at request of Mr. Collier.

Lawrence L. Stutsman, selling liquor without license, continued by state.

Fonza Cujp, selling libuor without license, continued by state.

Bob Clark, selling liquor without license, continued by state.

Joe Foshee, taking orders for liquor in prohibition district, continued by state.

Marvin Wilson and Marxin Aldridge, burglary and grand larceny, confessed judgment.

Sallie Bates, selling liquor without license, jury out all night, fine $50.

Geosge Caver, selling liquor without license, continued by state.

Mose Wilson, selling liquor without license, continued by state.

Paul Shelton, selling liquor without license, guilty, fine $50

J. W. Stevens, larceny, discharged.

Burrell Brasher, selling liquor without license, bond fixed $100.

Lum Rasberry, assault with weapon, continued by state.

Lige Harris, assault with weapon fine $5.

Hurley Martin, abusive language and disturbing religious worship, fine $20.

Arthur Neeley, disturbing school assembly, fine $10.

Kim Burnett, selling liquor without license, not guilty.

C. J. Smith, false pretenses, forfeiture against defendant and his bail

Charley Galledge and John Brown, dynamiting fish, continued.

George W. Meme, selling liquor without license, nolle prossed.

Will Rasberry, selling liquor without license, continued by state.

Will Goodgame, assault to murder, fine $25.

Mark Hosey, assault with weapon, not guilty.

Sam Williams, murder, first degree, guilty imprisonment in penitentiary for life.

Charley Johnson, false pretenses, fine $10.

Allen Mitchell, assault to murder, two years in penitentiary.

The jurors were all discharged at 2 o'clock Wednesday afternoon and court adjourned later.

For chapped and cracked hands nothing is quite as good as an application of DeWitt's Witch Hazel Salve. Put it on before going to bed use an old pair of gloves and see what a difference the morning will bring. Sold by Upchurch Drug co.

Billingsley.

The Carter Lumber Co's saw mill was burned Monday night, a total loss of $20,000, no insurance. Had two months run of lumber on hand, could not get cars to ship lumber off is why the loss was so great. Best wishes for the Banner.

J. C. GRIMES.

For any ordinary diseases of the skin Chemberlain's Salve is excellent. It not only allays the itching and smarting but effects a cure. For sale by Upchurch Drug co, Clanton A. Horn, Thorsby,

PROGRAM

Teachers' Institute, to be held at Rockymount School House, Dec. 14-15, 1906.

.0 a.m. Devotional exercises. Prof. R. A. Rasco.

10:15. Welcome address, T. B. Williams. Response, J. H. Anderson.

10:45. How should English grammar be taught to give best results? B. J. Sessions, Miss Lottie Johnson.

11:30. How to become a good reader, J. M. Parrish, Miss Turner Belle Mullins

12 Noon recess.

1 p.m. Value of mental arithmetic. G. L. Speer, Miss Ola Lee Jones.

1:45. Criticism of Alabama's adopted text books, P. G. Maness, Miss Stevonia E. Nash.

2:30 Some methods for improving the conditions of country schools, L. J. Thompson, W. A. Haggard

SATURDAY. 9 a.m. Devotional exercise

9:15. Value of thoroughness in school work, Miree Fuller, Miss Bessie Ellis.

9:45. Necessity of compulsory school attendance, William J. Lamkie.

10:30. What should be the aim of a teacher? R. A. Rasco. Marion J. Mims.

11:15. The evolution and comparative values of our social, moral and educational institutions. H. P. Self.

Committee—J. W. Moore, L. J. Thompson.

Rockymount is located five miles east of Jemison. There will be conveyance for all teachers going on train to Jemison. Those desiring conveyances will write Prof. F. B. Williams, Jemison, Ala. The law requires that all teachers must attend the county Institutes.

J. W. MOORE.

The Meanest Man.

The meanest man has been located in Philadelphia. He dropped a large roll of bills on the street, and a boy who found it returned the money to him. Counting the bundle carefully, the owner put it in his pocket. "My son," he said benignly to the boy, "I am rejoiced to see that you are guided by lofty principles, and as an earnest of my approbation shall refrain from charging you interest for the time you have had my money."

Are Pie Eaters Hypocrites?

Why do people who eat pie in secret and in the open, people who when they order pie cast about them furtive glances and people who do not care who sees them engaged on pie one and all talk and behave as if the consumption of pie constituted an unpardonable sin whenever the subject is broached? Why in polite circles composed of those whose ancestors were brought up on pie, even pie for breakfast, is pie hailed with mirthful tittering?—Providence Journal.

It Quiets the Cough

This is one reason why Ayer's Cherry Pectoral is so valuable in consumption. It stops the wear and tear of useless coughing. But it does more—it controls the inflammation, quiets the fever, soothes, heals. Ask your doctor about this.

The best kind of a testimonial—"Sold for over sixty years."

FROM OUR PHILIPPINE ISLANDS

Manila, P. I., Oct. 25, 1906

Editor Banner—Will you please allow me a small space in your valuable paper to say a few words, as it will be my first time to say anything. I am a long ways from home, but I haven't forget old Chilton. I was raised in Chilton county, but I have wandered across the Pacific into the Philippine Islands, and I am among the Filipino people. I am enjoying my stay in the Philippines and I am enjoying good health also; hope this will find the people of Chilton the same. I am very sorry to hear of so much sickness in Chilton. We have a lot of sickness here, such as cholera and dengue fever, and many deaths too. I have been reading the Banner for some time and I find very much interesting news. I can sit and read the dear old Banner and find many names that I am well acquainted with It makes me feel good to see the good price of cotton, and hope to see better price in the future. Well I will close with many wishes to the Editor and his many readers.

MOSES L. MIMS

A vegetable corrective for the babies and children with the name of each ingredient in plain English on evey bottle, that is Cascasweet, the ideal medicine for the little ones. Contains no opiates. Conforms fully with National Pure Food law. Write E C DeWitt & Co., Chicago, Ill., for the "Baby Book." Sold by Upchurch Drug co

STOCK LAW ELECTION NOTICE.

Notice is hereby given that, in pursuance of an order made by the Commissioners' Court of Chilton county, Alabama, on the 13th day of November, 1906, ordering an election to be held in Precinct Six, in said county for the purpose of determining whether or not all live stock shall be prohibited from running at large in said Precinct Six, in said county an election for said purpose will be held on the 15th day of January, 1907, at Kincheon in said Precinct Six in Chilton county, Alabama.

Witness my hand this 13th day of November, 1906.

WALTER POPWELL.

When to go Home.

From the Bluffton, Ind., Banner: "When tired out, go home. When you want consolation, go home. When you want fun, go home. When you want to show others that you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at your best go home and do the act there. When you feel like being extra liberal go home and practice on your wife and children. When you want to shine with extra brilliency go home and light up the whole household." To which we would add, when you have a bad cold go home and take Chamberlain's Cough Remedy and a quick cure is certain. For sale by Upchurch Drug co., Clanton A. Horn, Thorsby.

Stammer to Yourself.

To the many correspondents who have written inquiries and suggestions as to a cure for stammering we may state that this is not a medical bureau. This writer gave his own method of curing his own particular nervous disorder, which is probably shared by many of his fellow men. Let it be repeated in answer to many who seem to have seen the problem and missed the solution. Consume your own smoke. If you must stammer, try to stammer to yourself. When you have tut-tutted and gur-gurred sufficiently to yourself, you will be ready with the word. It is quite astonishing how soon the inaudible stammer becomes unnecessary and the word is whipped out! But there are some men who hug a stammer—stammering always in the right place—lifting curiosity to tiptoe in the listener. Charles Lamb stammered, but always in the right place, as when he went to buy cheese (the story may be quite untrue). The shopman offered to send it home. Lamb inspected it. Then he asked for a bit of string. "I think," he said, "I could l-l-l-ead it home."—London Spectator.

Town Without Horses or Wheels.

The town of Funchal, in the Madeira islands, is a town with no horses and no wheeled vehicles. In traveling about one either drives in a sledge or is carried in a hammock. The streets and adjacent roads are paved with small and curiously smooth cobblestones, and from the first it was found that runners were better than wheels both for speed and comfort. For instance, when you come to a hill the oxen draw your sled to the top and are then unhitched. Your driver then proceeds to toboggan your conveyance gently down the other side, while the team trots on behind. Horses are not available in Funchal, as the nature of the cobblestone roads would soon ruin their feet. This is why the ox, with his flexible hoof, is the draft animal of Funchal. For expeditions into the country the hammock is used. This is slung on a pole, carried on the shoulders of two men, and is perhaps the most comfortable conveyance in the world—no jar and no need to guide it.

Nursing baby?

It's a heavy strain on mother.

Her system is called upon to supply nourishment for two.

Some form of nourishment that will be easily taken up by mother's system is needed.

Scott's Emulsion contains the greatest possible amount of nourishment in easily digested form.

Mother and baby are wonderfully helped by its use.

ABOUT COUGHS
Some Reliable Local Advice.

"In conducting a large drug business we naturally meet a great many people at this season of the year who suffer from coughs, colds and bronchial troubles.

"As these troubles are easily controlled if the right means is token to cure them, we want to say to the people of Clanton that we guarantee our cod liver preparation, Vinol, will cure hanging-on colds, stubborn coughs, bronchial and lung troubles quicker than any preparation we have ever sold.

"This is because Vinol contains no oil or grease to clog the system and up set the stomach, yet it does contain every one of the fifty odd medicinal curative elements actually taken from from cods' livers, with tonic iron added. Vinol is not a patent medicine; and you know what you are taking, so without reservation we recommend Vinol to cures coughs, colds, bronchial troubles, increase the appetite, build up the run-down, tired and debilitated, and create strength and renewed vitality for the aged.

"If Vinol fails to do what we say we will refund every dollar paid for it." Upchurch Drug co.

NOTE—While we are sole agents for Vinol in Clanton, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

Fine line of Perfumeries just arrived. Florence Drug Store.

We would like to ask that all who possibly can, come early and make their Xmas purchases before stock is picked over and before the rush. Remember you get a chance on the big doll with every 50 cent purchase (except on school books). Upchurch Drug co.

Back-ache, cold hands and feet, rheumatism and kindred ailments caused by improper action of the kidneys yield readily to a short treatment of DeWitt's Kidney and Bladder Pills. They quickly drive the poisons from the system and thus afford relief. A week's treatment for 25c. Recommended and sold dy Upchurch Drug co.

P O Box Rents.

Postmaster Dudley has received the following notice from the department relating to the collection of box rents, which calls for the payment of box rents ten days before the first of the quarter, instead of the old plan of paying by the tenth day of the new quarter.

Order No. 1291 Paragraph 2, section 348, Postal Laws and Regulations, is amended to read as follows: "Box rents must be collected at the beginning of each quarter for the entire quarter, but no longer, ten days before the last day of each quarter. Postmasters are required to place a bill (on form 1538 or 1538½) bearing the date of the last day of the quarter in each rented box If a boxholder fails to renew his right to his box on or before the last day of a quarter the box shall then be closed and offered for rent and the mail will be placed in the general delivery"

F. H. HITCHCOCK,
Acting Postmaster General

How Diphtheria is Contracted.

One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had left the little one particularly susceptible to the wandering diphtheria germ. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diptheria or any other germ disease being contracted. For sale by Upchurch Drug co, Clanton, A. Horn, Thorsby.

Bethsalem.

THE PRESIDENT'S MESSAGE

An Able Document Setting Forth Some Needed Legislation

IS STRONG ON MORALITY

Mr. Roosevelt writes a Particularly Strong Message In Which He Deals With Live Issues, Such as Injunctions, Lynchings and Their Causes, and Other Matters of Vital Interest to the Whole Country.

The following is the substance of the annual message of President Roosevelt to Congress, as read in both Houses:

Introductory.

To the Senate and House of Representatives:

As a nation we still continue to enjoy a literally unprecedented prosperity; and it is probable that only reckless speculation and disregard of legitimate business methods on the part of the business world can materially mar this prosperity.

No Congress in our time has done more good work of importance than the present Congress. There were several matters left unfinished at your last session, however, which I most earnestly hope you will complete before your adjournment.

Corporation Campaign Contributions.

I again recommend a law prohibiting all corporations from contributing to the campaign expenses of any party. Such a bill has already past one House of Congress. Let individuals contribute as they desire; but let us prohibit in effective fashion all corporations from making contributions for any political purpose, directly or indirectly.

Government's Right to Appeal in Criminal Cases.

Another bill which has past one House of the Congress which it is urgently necessary should be enacted into law is that conferring upon the Government the right of appeal in criminal cases on questions of law. This right exists in many of the States; it exists in the District of Columbia by act of the Congress. It is of course not proposed that in any case a verdict for the defendant on the merits should be set aside. Recently in one district where the Government had indicted certain persons for conspiracy in connection with rebates, the court sustained the defendant's demurrer; while in another an indictment for conspiracy to obtain rebates has been sustained by the court, convictions obtained under it, and two defendants sentenced to imprisonment. The two cases referred to may not be in real conflict with each other, but it is unfortunate that there should even be an appearent conflict. At present there is no way by which the Government can cause such a conflict, when it occurs, to be solved by an appeal to a higher court; and the wheels of justice are blocked without any real decision of the question. I can not too strongly urge the passage of the bill in question. A failure to pass it will result in seriously hampering the Government in its effort to obtain justice, especially against wealthy individuals or corporations who do wrong; and may also prevent the Government from obtaining justice for wageworkers who are not themselves able effectively to contest a case where the judgment of an inferior court has been against them. I have specifically in view a recent decision by a district judge leaving railway employees without remedy for violation of certain so-called labor statute. It seems an absurdity to permit a district juedg against what may be the judgment of the immense majority of his colleagues on the bench, to declare a policy of resorting to the criminal law solemnly enacted by the Congress to be "unconstitutional," and then to deny the Government the right to have the Supreme Court definitely decide the question.

It is well to recollect that the real efficiency of the law often depends not upon the passage of acts as to which there is great public excitement, but upon the passage of acts of this nature as to which there is not much public excitement, because there is little public understanding of their importance, while the interested parties are keenly alive to the desirability of defeating them. The importance of enacting into law the particular bill in question is further increased by the fact that the Government has now definitely begun a law in those trust and interstate commerce cases where such a course offers a reasonable chance of success.

Setting Aside of Judgments and Granting of New Trials.

In connection with this matter, I would like to call attention to the very unsatisfactory state of our criminal law, resulting in large part from the habit of setting aside the judgments of inferior courts on technicalities absolutely unconnected with the merits of the case, and where there is no attempt to show that there has been any failure of substantial justice. It would be well to enact a law providing something to the effect that:

No judgment shall be set aside or new trial granted in any case, civil or criminal, on the ground of misdirection of the jury or the improper admission or rejection of evidence, or for error as to any matter of pleading or procedure unless, in the opinion of the court to which the application is made, after an examination of the entire cause, it shall affirmatively appear that the error complained of has resulted in a miscarriage of justice.

Injunctions.

In my last message I suggested the enactment of a law in connection with the issuance of injunctions, attention having been sharply drawn to the matter by the demand that the right of applying injunctions in labor cases should be wholly abolished. It is at least doubtful whether a law abolishing altogether the use of injunctions in such cases would stand the test of the courts; in which case of course the legislation would be ineffective. Moreover, I believe it would be wrong altogether to prohibit the use of injunctions. It is criminal to permit sympathy for criminals to weaken our hands in upholding the law; and if men seek to destroy life or property by mob violence there should be no impairment of the power of the courts to deal with them in the most summary and effective way possible. But so far as possible the abuse of the power should be provided against by some such law as I advocated last year.

In this matter of injunctions there is lodged in the hands of the judiciary a necessary power which is nevertheless subject to the possibility of grave abuse. It is a power that should be exercised with extreme care and should be subject to the jealous scrutiny of all men, and condemnation should be meted out as much to the judge who fails to use it boldly when necessary as to the judge who uses it wantonly or oppressively. Of course a judge strong enough to be fit for his office will enjoin any resort to violence or intimidation, especially by conspiracy, no matter what his opinion may be of the rights of the original quarrel. There must be no hesitation in dealing with disorder. But there must likewise be no such abuse of the injunctive power as is implied in forbidding laboring men to strive for their own betterment in peaceful and lawful ways; nor must the injunction be used merely to aid some big corporation in carrying out schemes for its own aggrandizement.

Lynching.

In connection with the delays of the law, I call your attention and the attention of the nation to the prevalence of crime among us, and above all to the epidemic of lynching and mob violence that springs up, now in one part of our country, now in another. Each section, North, South, East, or West, has its own faults; no section can with wisdom spend its time jeering at the faults of another section; it should be busy trying to amend its own shortcomings. To deal with the crime of corruption it is necessary to have an awakened public conscience, and to suppliment this by whatever legislation will add speed and certainty in the execution of the law. When we deal with lynching, even more is necessary. A great many white men are lynched, but the crime is pecularly frequent in respect to black men. The greatest existing cause of lynching is the perpetration, especially by black men, of the hideous crime of rape—the most abominable in all the category of crimes, ever worse than murder. Mobs frequently avenge the commission of this crime by themselves torturing to death the man committing it; thus avenging in bestile fashion a bestile deed, and reducing themselves to a level with the criminal.

Lawlessness grows by what it feeds upon; and when mobs begin to lynch for rape they speedily extend the sphere of their operations and lynch for many other kinds of crimes, so that two-thirds of the lynchings are not for rape at all; while a considerable proportion of the individuals lynched are innocent of all crime. Governor Candler, of Georgia, stated on one occasion some years ago: "I can say of a varity that I have, within the last month, saved the lives of half a dozen innocent negroes who were pursued by the mob, and brought them to trial in a court of a law in which they were acquitted." As Bishop Galloway, of Mississippi, has finely said: "When the rule of a mob obtains, that which distinguishes a high civilization is surrendered. The mob which lynches a negro charged with rape will in a little while lynch a white man suspected of crime. Every Christian patriot in America needs to lift up his voice in loud and eternal protest against the mob spirit that is threatening the integrity of this Republic." Governor Jelks, of Alabama, has recently spoken as follows: "The lynching of any person for whatever crime is inexcusable anywhere—it is a defiance of orderly government; but the killing of innocent people under any provocation is infinitely more horrible; and yet innocent people are likely to die when a mob's terrible lust is once aroused. The lesson in this: No good citizen can afford to countenance a defiance of the statutes, no matter what the provocation. The innocent frequently suffer, and, it is my observation, more usually suffer than the guilty. The white people of the South indict the whole colored race on the ground that even the better elements lend no assistance whatever in ferreting out criminals of their own color. The respectable colored people must learn not to harbor their criminals, but to assist the officers in bringing them to justice. This is the larger crime, and it provokes such atrocious offenses as the one at Atlanta. The two races can never get on until there is an understanding on the part of both to make common cause with the law-abiding against criminals of any color."

Moreover where any crime committed by a member of one race against a member of another race is avenged in such fashion that it seems as if not the individual criminal, but the whole race, is attacked, the result is to exasperate to the highest degree race feeling. There is but one rule in dealing with black men as with white men; it is the same rule that must be applied in dealing with rich men and poor men; that is, to treat each man, whatever his color, his creed, or his social position, with even-handed justice on his real worth as a man. White people owe it quite as much to themselves as to the colored race to treat well the colored man who shows by his life that he deserves such treatment; for it is surely the highest wisdom to encourage in the colored race all those individuals who are honest, industrious, law-abiding, and who therefore make good and safe neighbors and citizens. Reward or punish the individual on his merits as an individual. Evil will surely come in the end to both races if we substitute for this just rule the habit of treating all the members of the race, good and bad, alike. There is no question of "social equality" or "negro domination" involved; only the question of relentlessly punishing bad men, and of securing to the good man the right of his life, his liberty, and the pursuit of his happiness as his own qualities of heart, head, and hand enable him to achieve it.

Every colored man should realize that the worst enemy of his race is the negro criminal, and above all the negro criminal who commits the dreadful crime of rape; and it should be felt as in the highest degree an offense against the whole country, and against the colored race in particular, for a colored man to fail to help the officers of the law in hunting down with all possible earnestness and zeal every such infamous offender. Moreover, in my judgement, the crime of rape should always be punished with death, as is the case with murder; asault with intent to commit rape should be made a capital crime, at least in the discretion of the court; and provision should be made by which the punishment may follow immediately upon the heels of the offense; while the trial should be so conducted that the victim need not be wantonly shamed while giving testimony, and that the least possible publicity shall be given to the details.

The members of the white race on the other hand should understand that every lynching represents by just so much a loosening of the bonds of civilization; that the spirit of lynching inevitably throws into prominence in the community all the foul and evil creatures who dwell therein. No man can take part in the torture of a human being without having his own moral nature permanently lowered. Every lynching means just so much moral deterioration in all the children who have any knowledge of it, and therefore just so much additional trouble for the next generation of Americans.

Let justice be both sure and swift; but let it be justice under the law, and not the wild and crooked savagery of a mob.

Capital and Labor.

In dealing with both labor and capital, with the questions affecting both corporations and trades unions, there is one matter more important to remember than aught else, and that is the infinite harm done by preachers of mere discontent. These are men who seek to excite a violent class hatred against all men of wealth. They seek to turn wise and proper movements for the better control of corporations and for doing away with the abuses cannected with wealth, into a campaign of hysterical excitement and falsehood in which the aim is to inflame to madness the brutal passions of mankind. The sinister demagogs and foolish visionaries who are always eager to undertake such a camapign of destruction sometimes seek to associate themselves with those working for a genuine reform in governmental and social methods, and sometimes masquerade as the reformers. In reality they are the worst enemies of the cause they profess to advocate, just as the purveyors of sensantional slander in newspaper or magazine are the worst enemies of all men who are engaged in an honest effort to better what is bad in our social and governmental conditions. To preach hatred of the rich man as such, to carry on a campaign of slander and invective against him, to seek to mislead and inflame to madness honest men whose lives are hard and who have not the kind of mental training which will permit them to appreciate the danger in the doctrines preached—all this is to commit a crime against the body politic and to be false to every worthy principle and tradition of American national life. Moreover, while such preaching and such agitation may give a livelihood and a certain notoriety to some of those who take part in it, and may result in the temporary political success of othres, in the long run every such movement will either fail or else will provoke a violent reaction, which will itself result not merely in undoing the mischief wrought by the demagog and the agitator, but also in undoing the good that the honest reformer, the true upholder of popular rights, has painfully and laboriously achieved. Corruption is never so rife as in communities where the demogog and the agitator bear full sway, because in such communities all moral bands become loosened, and hysteria and sensationalism replace the spirit of sound judgment and fair dealing as between man and man. In sheer revolt against the squalid anarchy thus produced men are sure in the end to run toward any leader who can restore order, and then their relief at being free from the intolerable burdens of class hatred, violence, and demogogy is such that they can not for some time be aroused to indignation against masdeeds by men of wealth; so that they permit a new growth of the very abuses which were in part responsible for the original outbreak. The one hope for success for our people lies in a resolute and fearless, but sane and cool-headed, advance along the path marked out last year by this Congress. There must be a stern refusal to be misled into following either that base creature who appears and panders to the lowest instincts and passions in order to arouse one set of Americans against their fellows, or that other creature, equally base but no baser, who in a spirit of greed, or to accumulate or add to an already huge fortune, seeks to exploit his fellow-Americans with callous disregard to their welfare of soul and body. The man who debauches others in order to obtain a high office stands on an evil equality of corruption with the man who debauches other for financial profit; and when hatred is sown the crop which springs up can only be evil.

The plain people who think—the mechanics, farmers, merchants, workers with head or hand, the men to whom America traditions are dear, who love their country and try to act decently by their neighbors, owe it to themselves to remember that the most damaging blow that can be given popular government is to elect an unworthy and sinster agitator on a platform of violence and hypocrisy. Whenever such an issue is raised in this country nothing can be gained by flinching from it, for in such case democracy is iteself on trial. The triumph of the mob is just as evil a thing as the triumph of the plutocracy, and to have escaped one danger avails nothing whatever if we succumb to the other.

Railroad Employees' Hours and Eight Hour Law.

I call your attention to the need of passing a bill limiting the number of hours of employment of railroad employees. The measure is a very moderate one and I can conceive of no serious objection to it. Indeed, so far as it is in our power, it should be our aim steadily to reduce the number of hours of labor, with as a goal the general introduction of an eight-hour day. There are industries in which it is not possible that the hours of labor should be reduced; just as there are communities not far enough advanced for such a movement to be for their good, or, if in the Tropics, so situated that there is no analogy between their needs and ours in this matter. On the Isthmus of Panama, for instance, the conditions are in every way so different from what they are here that an eight-hour day would be absurd; just as it is absurd, so far as the Isthmus is concerned, where white labor can not be employed, to bother as to whether the necessary work is done by alien black men or by alien yellow men. But the wageworkers of the United States are of so high a grade that alike from the merely industrial standpoint and from the civic standpoint it should be our object to do what we can in the direction of securing the general observance of an eight-hour day.

Employers' Liability.

Among the excellent laws which the Congress past at the last session was an employers' liability law. It was marked step in advance to get the recognition of employers' liability on the statute books; but the law did not go far enough. In spite of all precautions exercised by employers there are unavoidable accidents and even deaths envolved in nearly every line of business connected with the mechanic arts. This is inevitable sacrifice of life may be reduced to a minimum, but it can not be completely eliminated.

Investigation of Disputes Between Capital and Labor.

The commission appointed by the President October 16, 1902, at the request of both the anthricite coal operators and miners, to inquire into, consider, and pass upon the questions in controversy in connection with the strike in the anthricite regions of Pennsylvania and the causes out of which the controversy arose, in their report, findings, and award express the belief "that the State and Federal governments should provide the machinery for what may be called the cumpulsory investigation of controversies btween employers and employees when they arise."

Withdrawal of Coal Lands.

It is not wise that the Nation should alienate its remaining coal lands. I have temporarily withdrawn from settlement all the lands which the Geological Survey has indicated as containing, or in all probability containing, coal. The question, however, can be properly settled only by legislation, which in my judgment should provide for the withdrawal of these lands from sale or from entry save in certain especial circumstances. The ownership would then remain in the United States, which should not, however, attempt to work them, but permit them to be worked by private individuals under a royalty system, the Government keeping such control as to permit it to see that no excessive price was charged consumers.

Corporations.

The present Congress has taken long strides in the direction of securing proper supervision and control by the National Government over corporations engaged in interstate business—and the enormous majority of corporations of any size are engaged in interstate business. The passage of the railway rate bill, and only to a less degree the passage of the pure food bill, and the provision for increasing and rendering more effective national control over the beef-packing industry, mark an important advance in the proper direction. In the short session it will perhaps be difficult to do much further along this line; and it may be best to wait until the laws have been in operation for a number of months before endeavoring to increase their scope, because only operation will show with exactness their merits and their shortcomings and thus give opportunity to define what further remidial legislation is needed. Yet in my judgment it will in the end be advisable in connection with the packing house inspection law to provide for putting a date on the label and for charging the cost of inspection to the packers. All these laws have already justified their enactment.

Agriculture.

The only other persons whose welfare is as vital to the welfare of the whole country as is the welfare of the wageworkers are the tillers of the soil, the farmers. It is a mere truism to say that no growth of cities, no growth of wealth, no industrial development can atone for any falling off in the character and standing of the farming population. During the last few decades this fact has been recognized with ever-increasing clearness. There is no longer any failure to realize that farming, at least in certain branches, must become a technical and scientific profession. This means that there must be open to farmers the chance for technical and scientific training, not theoretical merely but of the most severely practical type. The farmer represents a peculiarly high type of American citizenship, and he must have the same chance to rise and develop as other American citizens have. Moreover, it is exactly as true of the farmer, as it is of the business man and the wageworker, that the ultimate success of the Nation of which he forms a part must be founded not alone on material prosperity but upon high moral, mental, and physical development. This education of the farmer—self-education by preference, but also education from the outside, as with all other men—is pecularly necessary here in the United States, where the frontier conditions even in the newest States have now vanished, where there must be a substitution of a more intensive system of cultivation for the old wasteful farm management, and where there must be a better business organization among the farmers themselves.

Marriage and Divorce.

I am well aware of how difficult it is to pass a constitutional amendment. Nevertheless in my judgment the whole question of marriage and divorce should be relegated to the authority of the National Congress. At present the wide difference in the laws of the different States on this subject result in scandals and abuses; and surely there is nothing so vitally essential to the welfare of the nation, nothing around which the nation should so bend itself to throw every safeguard, as the home life of the average citizen. The change would be good from every standpoint. In particular it would be good because it would confer on the Congress the power at once to deal radically and efficiently with polygamy; and this should be done whether or not marriage and divorce are dealt with. It is neither safe nor proper to leave the question of polygamy to be dealt with by the several States. Power to deal with it should be conferred on the National Government.

When home ties are loosened; when men and women cease to regard a worthy family life, with all its duties fully performed, and all its responsibilities lived up to, as the life best worth living; then evil days for the commonwealth are at hand. There are regions in our land, and classes of our population, where the birth rate has sunk below the death rate.

RIBLE ITCHING SCALP.

Broke Out Also on Hands and Limbs—An Old Soldier Declares "Cuticura is a Blessing."

all times and to all people I am to testify to the merits of Cuti It saved me from worse than the of hades, about the year 1900, with on my scalp and temples, and af it commenced to break out on Then it broke out on my limbs. went to a surgeon, whose treat did me no good, but rather aggra the disease. I then told him I go and see a physician in Erie. The was that I could go anywhere, but of eczema like mine could not be that I was too old (80). I went to doctor in the city of Erie and with him for six months, with results. I had read of the Cuticura and so I sent for the Cuticura Ointment and Resolvent, and con taking the Resolvent until I had six bottles, stopping it to take the I was now getting better. I took baths a day, and at night I let the of the Soap dry on. I used the with great effect after washing water, to stop the itching at I am now cured. The Cuticura is a blessing, and should be by every one who has itching of the I can't say any more, and thank that He has given the world such a Wm. H. Gray, 3303 Mt. Vernon Philadelphia, Pa., August 2, 1905."

Shameful Practice.

has been a practice of certain in New York City, whenever class of patients are beyond to send them in an ambu to the city public hospital, the being to keep the death rate of hospitals down to the minimum. courts and city officials are astir the practice, as many of these inmates die on the way.

so-called "Sluggard Kings" in France from 650 to 750 A. D. resigned all power into the hands mayors of the palace.

TEN YEARS OF PAIN.

to Do Even Housework Because of Kidney Troubles.

Margaret Emmerich, of Clin Napoleon, O., says: "For years I was a great sufferer from kidney troubles. My back pained me terribly. Every turn or move caused sharp, shooting pains. My eyesight was poor, dark spots appeared before me, and I had dizzy spells. For ten years not do housework, and for years did not get out of the The kidney secretions were and doctors were not help Doan's Kidney Pills brought relief, and finally cured me. saved my life."

POOR MIDDLE CLASS.

Reformers Fail to Consider Sad Plight.

While Mrs. Norton and her sister philanthropists are devoting their lives to the comfort of the poor, and Mrs. Blaine is erecting model habitations for the helpless rich, who is giving a thought to the sufferings and annoyances of the middle classes? Why should so much time and energy be expended on extremes while the mean is struggling against the most discouraging conditions? The rich have their troubles—as who has not—and the poor are entitled to a measure of human sympathy, but what are their petty griefs and discomforts as compared with the overwhelming burdens of downtrodden middle class. The rich buy their assistance and relief; the poor are accustomed by habit and circumstances to assist and relieve themselves; the plain middle class folk cry out in their dire extremity: "Save us, or we perish!"

The model tenement or apartment for the middle class should be a compromise between the Ghetto plan and the Lake Shore drive idea. It should be entirely devoid of the frills that so plainly annoy Mr. Bartzen. Or, if there are any frills at all, they should be in the rear of the apartment, where the frilly lady commonly resides. The usual apartment occupied by the middle class person who has an income not to exceed $20,000 a year—a mere bauble in this area of prosperity—is ridiculous in its failure of provision for Scandinavia. The lady with the linen telescope arrives, takes one look at the limitation of a closet where she is supposed to slumber at intervals, or the basement room provided for all domestics, says something (probably offensive) in a strange and unfamiliar tongue, and departs for Mrs. Blaine's rest cure, where the families have relays of help and day and night shifts. How can the middle class avail against such opposition as that?

As a representative of this suffering stratum of society, madam asserts that Bartzen is wholly in the wrong and that she speaks up for all the frills so dear to Mrs. Norton's heart, including the gymnasium, hospital and amusement hall. The gymnasium and amusement hall are for the benefit of the lady help, the hospital for the enforced accommodation of the mistress of the apartment. She believes also in a rear sitting room, large enough to hold a piano of ordinary dimensions, and in a conservatory filled with horticultural allurements, from the waving palms to orchids, whither in resting periods the lady help may resort and dream of the old home and the luxuries thereof. Other features have suggested themselves to madam which are likely to be approved by all intelligent housekeepers. A guest room for the lady help is indispensible, a room in which she may lodge a friend who is temporarily unemployed and who is resting before taking up again the burden of life at the Raymond. Just off this guest room should be a separate bathroom, with a shower and other appurtenances, in order that the lady help may not be embarrassed by surrendering her own bathing conveniences to her visiting friend. Special attention should be paid to closets, large and airy enough to accommodate the picture hat and the contents of the linen telescope. The lady help is particular in the matter of suitable closet room.

The ideal kitchen is the necessary concomitant of the ideal apartment. It should be arranged so as to contain the icebox and one or more rocking chairs. A kitchen without an icebox and rocking chair is an absurdity in these days of luxurious domestic service. Special attention should be paid to the gas stove, and only that design should be put in which enables the lady help to perform the culinary functions without stooping over to inspect the broiler. A lady help in these days should never be asked to stoop or otherwise lower and demean herself.—Chicago Tribune.

CIRCUS TOUR IN AUTOMOBILES.

To Abandon Railroad Method of Transportation After This Season.

Barnum & Bailey's "Greatest Show on Earth" has sounded the doom of the picturesque six, eight and ten horse circus driver and of the gorgeously caparisoned and plumed steed of the parade. The organization will tour the country in mammoth automobiles, beginning next year, it was announced by "Tody" Hamilton.

With the news of this radical departure from all custom and tradition came information of the dissolution of the Circus Trust and the resumption of the old time hostility. This will mean a renewal, after this year, of the bitter warfare which characterized circus conduct until the late James A. Bailey formed a friendly business union.

For many years the expense of railroad transportation has been a source of growing alarm to the circus proprietor. Railroads do not want the job of hauling the big three section organization. The work delays passenger traffic, and the danger of accident, involving tremendous damages, is great. Several railroads have gone to the extremity of positively refusing to accept the business and others have made rates so high that circuses cannot travel on their lines with profit.

Mr. Bailey appreciated the urgency of overcoming this condition long before his death last spring and had settled upon the automobile as the solution. Before the electric and and gasolene mode of transportation had reached its present high state of efficiency he once nearly decided to return to the "wagon show" days, when horses furnished the motive power, but the modern necessity of long "jumps" forced him to abandon the plan. His show took to the road from Madison Square Garden last April with several experimental automobiles. These have demonstrated their ability so conclusively that next year will see the canvas enterprise moved from town to town by chauffeur and battery.

The Barnum & Bailey circus numbers one hundred and twenty-five wagons—pole, canvas, baggage, property, cage, tableau and chariot vehicles—and the average daily run is sixty miles. Sometimes the distance reaches a hundred or more miles, but only on a Sunday. The average daily railroad bill approaches one thousand dollars.—New York Herald.

A cubic foot of well settled ensilage weighs about forty pounds.

Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes *than any other drug with which I am acquainted*. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhœa (suppressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive organs and anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, *there is no medicine in use about which there is such general unanimity of opinion*. It is *universally* regarded as *the* tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

The custom that prevails in Greece of carrying a body to the grave in a coffin which allows the face to be visible is said to have originated when the Turks dominated the land.

STATE OF OHIO, CITY OF TOLEDO, } ss.
LUCAS COUNTY.

Hall's Family Pills are the best.

The greatest Alpine avalanche was that which in 1827 swept away the town of Biel and killed nearly ninety persons.

THE LAXATIVE OF KNOWN QUALITY

There are two classes of remedies; those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers; those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

Genuine—Syrup of Figs

manufactured by the California Fig Syrup Co., and in order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package. Price, 50c. per bottle. One size only.

USE TAYLOR'S Cherokee Remedy of Sweet Gum and Mullein nature's Great Remedy for Coughs, Colds, LaGrippe all Throat and Lung Troubles. Thoroughly tested for 50 years. All Druggists. 25c, 50c and $1.00.

PUTNAM FADELESS DYES

Women's Pains

"I was a total wreck," writes Mrs. Beulah Rowley, of Champoeg, Oregon, "from pains I had suffered, for 4 years, every month. Sometimes I would be unconscious for 12 hours at a stretch. I did not know that anything could stop the pain entirely, but Wine of Cardui did. I advise all women suffering with painful periods to use Cardui and be relieved."

It does this by regulating the functions and toning up all the Internal female organs to health. It is a pure, specific, reliable, female remedy, with a record of 70 years of success. It has benefited a million others. Why not you? Try it.

PREPARED ...

For sale by Upchurch Drug Co.

Acute Laryngitis.

George Washington died of a disease that was then called a quinsy, but which is now known as acute laryngitis. His physicians treated him according to their best light and knowledge, but such treatment now would be little short of criminal. An eminent authority says that if medical men had known as much then as they do now the distinguished patient would probably have been cured in a week. As it was, he slowly strangled to death by the closing of his throat. At the present time physicians treat a case of this kind by tracheotomy—that is, by making an opening into the windpipe, through which the patient may breathe. They also diagnose a case by using the laryngoscope, which enables them to look into the throat and see exactly what the trouble is.

Hairs of Caterpillars.

Several kinds of hairy caterpillars are known to have a poisonous effect on the human skin, notably the caterpillar of the processionary moth, so called because the caterpillars march in procession after their food. The scientist Reaumur found that this caterpillar's hairs caused him considerable suffering in the hands for some days and that when he rubbed his eyes his eyelids, too, were inflamed. Even approaching too near the nests of these caterpillars has caused painful swellings on the necks of certain persons from the caterpillar hairs floated by the winds.

DANGER IN ASKING ADVICE.

When you have a cough or cold do not ask some one what is good for it, as there is danger in taking some unknown preparation. Foley's Honey and Tar cures coughs, colds, and prevents pneumonia. The genuine is in a yellow package. Refuse substitutes. Upchurch Drug co.

GIVEN UP TO DIE.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Upchurch Drug co.

Sheriff's Sale.

CLANTO

PUBLIC SPEAKER INTERRUPTED.

Public speakers are frequently interrupted by people coughing. This would not happen if Foley's Honey and Tar were taken, as it cures coughs and prevents pneumonia and consumption. The genuine contains no opiates and in a yellow package. Upchurch Drug co.

Orino Laxative Fruit Syrup, the new Laxative, stimulates, but does not irritate. It is the best Laxative. Guaranteed or your money back. Upchurch Drug co.

$125 Reward.

The above reward will be paid on delivery of John Baker, colored, to the sheriff of Chilton County, Ala., wanted for the shooting of W. A. Pool, April 14, 1906. Height 5 ft 8 in.; weight about 165 lbs; age 45 years; black skin. J. M. MORGAN, Sheriff Chilton County, Ala.

Foley's Honey and Tar cures the most obstinate coughs and expels the cold from the system, as it is mildly laxative. It is guaranteed. Do not risk taking any but the genuine in the yellow package. Upchurch Drug co.

For a clear complexion take

ORINO
Laxative Fruit Syrup
Pleasant to take

Orino cleanses the system, and makes sallow blotched complexions smooth and clear. Cures chronic constipation by gently stimulating the stomach, liver and bowels. Refuse substitutes. Price 50c.

MAKE MONEY.

Here is an interesting study: Make out a list of all the people you know, and estimate the amount of money each one earns in a year. Total it up. The amount will be surprisingly large. Now, of all those people, only the few who SAVE SOMETHING really MAKE anything at all. Simply earning money isn't making it; what slips through the earner's fingers is finally "made" by somebody else. Don't forget to count yourself in on the list, and if you are not "making" money, begin now to save with us. One dollar will open your bank account.

CORRESPONDENCE.

Floods the body with warm glowing vitality, makes the nerves strong, quickens circulation, restores natural vigor, makes you feel like one born again. Hollister's Rocky Mountain Tea. 35 cents. Upchurch Drug co.

Pleasant Grove.

Hello! here I come again for a short chat with the dear old Banner and it's many readers.

Glad to say that Mr. J. N. Williams and little daughter are improving, after a severe spell of typhoid fever.

Mr. G. W. Cooper visited Mr. Pate Headley's Saturday.

Mr and Mrs C. P. Jones visited the latters brother at Pletcher Saturday.

The wedding bells have began to ring in this section Mr. Elbert Culp was happily married to Miss Allie Edwards on last Thursday night, may their lives be one of pleasure and happiness without alloy.

Mr. Grady Williams and sister, Miss Annie visited their sister near Clanton Sunday.

It seems as if something is going wrong down the road, what is the matter, boys? Well, I will ring off and come again.

NOBODY'S DARLING.

TO WHOM IT MAY CONCERN:

Notice is hereby given, that at the next ensuing session of the Legislature of Alabama, a bill will be introduced to provide for the establishment of a Board of Revenue for Chilton county, Alabama, and to prescribe the powers and duties of said Board of Revenue.

W. W. RUTLAND.

A Western Wonder.

There's a Hill at Bowie Tex., that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of consumption. I was reduced to 90 pounds, when I began taking Dr. King's New Discovery for consumption, coughs and colds. Now, after taking 12 bottles, I have more than doubled in weight and am completely cured" Only sure cough and cold cure. Guaranteed by Upchurch Drug co 50c and $1.00. Trial bottle free.

NOTICE.

The public will take notice that a Bill will be introduced in the Legislature of the State of Alabama, during its next session, to establish a Dispensary in the Town of Clanton, Chilton County, Alabama, for the sale of spirituous and vinous liquors, malt liquors, wines, ciders, and other intoxicating liquors.

This the 12th day of December, A. D., 1906.

CLANTON ACADEMY

Possesses superior advantages to pupils of all grades, prepares them to enter the best colleges and universities, trains teachers to stand examination for any grade certificate, and qualifies them the better to fill a place in their profession.

L. J. THOMPSON,
Principal.

TO WHOM IT MAY CONCERN:

Notice is hereby given that at the next ensuing session of the Legislature of Alabama a bill will be introduced to provide for an additional Judicial Circuit for the State of Alabama, to be composed of the counties of Autauga, Elmore, Chilton and Montgomery, and for the withdrawal of said counties from their present circuits; to provide for the temporary appointment of a judge and solicitor for said circuit; and for their salaries; to regulate the duties and residence of the solicitor; to provide times of holding court in said circuit; to confer chancery jurisdiction on said Circuit Court as to matters arising in Autauga, Elmore and Chilton counties, and to provide for Registers in Chancery therein; to provide for the removal of the pending causes, and remaining of pending appeals to the new court; to regulate the convening of grand and petit juries in said circuit; to authorise the judge of said circuit to adopt reasonable rules of practice to facilitate the business of the court.

CHAS. B. TEASLEY.

NOTICE.

There will be preaching at the new tabernacle three miles east of Clanton, near the Dock Mims place, Sunday morning December 16th, at 10: 30, Sunday night at 7, a church will be organized at the morning service, all are invited to attend.

IT'S CHARMING

Taken to Insane Asylum.

Birmingham, Ala.—Alex R. Chisolm, who was on trial recently in the federal court on a charge of embezzling $100,000 from the First National Bank of Birmingham while paying teller, was removed on Monday to the insane asylum at Tuscaloosa.

The trial of Chisolm before the federal court attracted considerable attention, especially when the defendant's attorneys, during the course of the trial, suggested to the court that the defendant's mental condition has become impaired and that he was not fit to advise his counsel or make a reasonable defense.

The court ordered an investigation into the matter and much expert testimony was taken, Dr. H. C. Clarke, of Washington, stating that he did not consider Chosolm's condition so bad as to interfere with his conducting his defense, while Dr. J. T. Searcy, superintendent of the insane asylum, testified that, in his opinion, Chisolm was not in a mental condition to go on with his trial. This jury returned a verdict on the question and found that the defendant was sufficiently sane to proceed with the trial.

At this stage in the trial one of the jurors took sick, and after a few days' delay to allow his recovery, the court ordered a mistrial and remanded the prisoner.

A few days after Chisolm made bond in the sum of $15,000 and was released from jail. Since his return home his mental and physical condition have been a cause of serious alarm to his family, and his removal to Tuscaloosa will secure for him the treatment necessary.

When the case is reset he will be brought back to Birmingham and tried again, if his condition permits.

Alabama Conference.

Eufaula, Ala.—The South Alabama Conference of the M. E. Church, South, which has been in session since Tuesday, has been largely attended, and it has been very harmonious throughout. The work also shows that its various churches in this conference have been very active in both home and foreign mission work. At the third day's session, Friday, much very important work was transacted and was largely attended and full of interest to all.

Many able and fervent sermons have been delivered by visiting divines from various sections of the state.

Rev. Caleb T. Martin and Rev. C. C. Wilkerson were elected to deacon's orders.

Considerable of the report of the joint commission appointed by the two conferences in Alabama to consider the question of consolidation of the four Methodist colleges in the state at present was made the order of the day.

Dr. A. L. Andrews, of Selma, spoke against adopting the report. Dr. J. S. Frazer, of Mobile, a member of the commission, declined to sign the report, and stated that he felt that it would be injurious to attempt moving the colleges at this time. Others who spoke ably against adopting the report were Rev. S. M. Hosmer, E. L. Crawford and C. P. Atkinson. Those who ably and eloquently held the advantages of consolidation were J. B. Cummings, O. C. McGehee, A. J. Lamar, J. M. Mason and W. F. Vandiver, a layman of Montgomery. Mr. Vandiver held that the question of location was greater than that of sentiment. When the final vote was taken it was seen that the report was adopted as a unit by a vote of 13 1to 26.

Poultry Show a Success.

Birmingham, Ala.—The Alabama Poultry and Pet Stock Association opened its tenth annual show at No. 15 North Twentieth street in Birmingham and those in charge say it has been the most promising opening of any show in the history of the association.

There are more and fineer specimens of fowls and fancy pet stock than ever before displayed, and those in charge are very well pleased with the showing that is being made.

The judges who passed on the relative merits of the displays were expert poultry men. The judges are Eugene Sites, of Elysia, O., and Charles McClure, of New London, O.

Some of the fanciers who have creditable displays in the show are as follows: J. H. Crowell, of Parrott, Ga.; B. A. Hastings, of Gallatin, Tenn.; Mr. Hendricks, of Louisville, Ky.; Fred Lehner, of Leeds, Ala.; Mrs. J. C. McNair, of Ozark, Ala., and O. D. Anderson, of Aberdeen, Miss.

Troubles Not Settled.

London.—The correspondence between the state department at Washington and the foreign office here and that between Newfoundland and the colonial office, detailing the circumstances leading to the establishment of the fisheries modus vivendi, has been published here. While the tone is conciliatory, it shows that a wide chasm remains to be bridged.

Mr. W. T. Stead describes the greater part of a London music hall programme as "drivel for the dregs."

ALABAMA GLEANINGS.

Items of Interest Gathered as They Transpire Over the Entire State.

Will Soon Sell Bonds.

Gadsden, Ala.—"It is possible that I can anounce the sale of the street improvement bonds within the next few days, and I expect to have Broad street paved before the term of the present administration expires," said Mayor Charles P. Smith when asked if there was any truth in the rumor to this effect. Continuing, he said that there had been an offer made for the bonds and that there was but one small obstacle to overcome before the deal could be closed.

The matter was submitted to the city council at the postponed meeting held Monday night. Plans have already been prepared by the city engineers for paving Broad street and widening the sidewalks, and when the work is finished it will be one of the handsomest busines thoroughfares in the state.

Their Fatal Journey.

Birmingham, Ala.—After having been without sight of their son for eighteen years, the parents of Jacob Traub, a prominent Birmingham merchant were killed in a railroad wreck in Ohio while speeding to visit him, according to information just received by Mr. Traub. The couple had sailed from Germany about a month ago, and had come through the trip, their first of any great extent, without peril of any sort until the wreck in which they were killed outright. Mr. Traub has been conducting a dry goods and department store here for some months. He removed to Birmingham from North Carolina.

Well-Known Priest Dead.

Birmingham, Ala.—Funeral services over the remains of Father Galland were conducted Monday at the Church of Our Lady of Sorrows, of which he was pastor. Father Galland's death followed by but a few months that of his lamented predecessor, Father Meurer. Father Galland was one of the most scholarly priests in the Alabama diocese.

Negro Boy Robbed Safe.

Decatur, Ala.—A negro boy named Tom Williams, better known as "Pepper Dick," stepped into the retail department of W. W. Garnett's grocery on Bank street, and seeing the door of the safe open decided to investigate. He got away with over $200 in cash, but was later arrested and locked up. When searched at the station house some of the money and a dangerous looking gun were found on his person

Accidentally Killed by Her Brother.

Birmingham, Ala.—Lizzie, the little daughter of Mrs. Smith, a widow, was instantly killed by her brother, James, aged 16, with whom she was walking home. The young fellow had a shotgun, which he accidentally discharged the load taking effect in the girl's face The family is an eminently respectable one of Walker county.

Must Stay in Jail.

Decatur, Ala.—Circuit Judge D. W. Speake decided that he did not have jurisdiction in the habeas corpus case of Cliff Way, the young man who is confined in the county jail here on the charge of having murdered Policeman J. Lem Jones at a resort on the river front on the night of November 24. The case was therefore dismissed.

Girard Election.

Girard, Ala.—The aldermanic election in Girard Thursday passed off quietly, only a small vote being cast.

The only contest was in the Second ward, where J. L. Richards defeated John F. Rodgers. In the other wards R. H. Moreland and T. H. Dennis were elected.

New City Hall for Decatur.

Decatur, Ala.—The city council has instructed Mayor Henry A. Skeggs to buy a lot on which to erect a city hall. The deal will likely be closed within a few days, and the building wil probably be erected next spring.

Florence Schools in Good Shape.

Florence, Ala.—The last monthly report of City Superintendent W. W. Hall, of the Florence schools, shows an excellent state of discipline and a most encouraging condition prevailing generally. The number of pupils enrolled is 744, the percentage of attendance 88 and the percentage of tardiness 1.4. The average monthly cost per pupil is 90 cents, and considering schools the report of Superintendent Hall is a good one.

Wife Murderer Escapes.

Montgomery, Ala.—Walter Nordan, twice convicted of poisoning his young wife, has escaped jail at Abbeville. His crime is said to have been one of the most atrocious in the history of the state.

Five-Story Building.

Selma, Ala.—Charles G. Tissier will build a five-story structure on his 20x90 foot lot on Broad street.

Says Affairs Are Not So Bad.

Montgomery, Ala.—Deputy Insurance Commissioner A. C. Seaton, recently appointed receiver for the Atlanta-Birmingham Fire Insurance Company, is of the opinion that the affairs of the company are not in such a bad shape as was at first thought, and he looks for a fairly satisfactory settlement. He was not allowed to take over the books by the Georgia courts, though he insists that they should be given him, as he was the first receiver named. He will consult the attorney-general and likely make demand in a legal way for charge of the company affairs. It is his intention to make every effort to protect Alabama's interests, and he will fight to do so if necessary.

Etowah Growers Elect Delegates.

Gadsden, Ala.—The Etowah County Cotton Growers' Association met at the court house Saturday and elected officers for the ensuing year and also delegates to the state convention at Montgomery and the southern convention, to be held at Birmingham. There was a good crowd present and great enthusiasm was displayed throughout the proceedings. Folowing are the officers and delegates: T. C. Galloway, president; J. H. Richardson, vice-president; John D. Adams, treasurer. Delegates to Birmingham are: L. L. Herzberg, J. H. Richardson, Dug Rhea, M. M. Russell and W. R. Usry. Delegates to the state meeting at Montgomery; T. C. Banks, T. C. Galloway and Henry Stephens.

Fire at Pine Apple.

Pine Apple, Ala.—Considerable excitement was caused here when a barn belonging to Mr. Mance Norred caught fire.

The barn, which is located right in the business portion of the town, was completely destroyed, together with most of the contents, and it was only after hard fighting that almost the entire town was saved.

Mr. Norred's loss is unknown, and the damage done to the goods of some of the merchants by water and on account of moving is considerable. Mr. Norred was away from here and has net yet learned of his loss.

The origin of the fire is unknown, but is supposed to have been caused by some one smoking in the barn.

Decree Is Confirmed.

Montgomery, Ala.—The auction sale of all the property in Alabama of the Alabama Cotton Products Company to Brayton Ives as chairman of the American Cotton Reorganization Committee for $30,550, conducted at noon November 24, under the direction of Receivers F. C. Hamill and William C. Lovering, was confirmed in a decree rendered by Judge A. D. Sayre, of the city court in equity.

This sale, it will be remembered, means the re-establishment of round bale business in Alabama. The Cotton Products Company went into the hands of receivers about two years ago.

Child's Close Call.

Florence, Ala.—William Brandon Gullette, the small son of Capt. J. E. Gullette, of the Wheeler Rifles, and namesake of Major-General W. W. Brandon, of Alabama, had a close call when he discovered a bottle of carbolic acid and proceeded to "take some."

The acid which was used as a disinfectant was fortunately diluted, and this saved the child's life. By the quick arrival of physicians and vigorous treatment he was finally pronounced out of danger.

Will Close Deal.

Demopolis, Ala.—It has been learned that Col. F. M. Abbott, of Selma, who is one of the principal promoters of the propesed Demopolis and Linden railroad, will be in Demopolis Tuesday, and he will have full authority and expect to definitely settle this railroad matter with the people of Demopolis either one way or the other as to whether or not the line will be built.

Dr. McMullen Has Returned.

Gadsden, Ala.—Dr. J. R. McMullen has returned from Columbia, S. C., where he attended a meeting of the Southern Immigration and Industrial Association executive committee, of which he is the secretary and treasurer. The meeting was for the purpose of formulating plans for the future work of the association.

Lampley Home Burned.

Greenville, Ala.—The home of Judge H. D. Lampley was burned. It was in the suburbs, beyond the fire limits, and no assistance could be rendered. Those living near gathered quickly and succeeded in saving nearly all the household furniture.

Killed While Hunting.

Athens, Ala.—Earle, the 14-year-old son of Dave Holt, accidently shot and killed while out rabbit hunting.

Offers Reward for Tillman Clark.

Decatur, Ala.—W. C. Clark, father of Tillman Clark, who mysteriously disappeared Monday night, has offered a reward for the return of his son, dead or alive.

Struck Gas.

Huntsville, Ala.—Gas has been struck near the surface in the third well of the New York-Alabama Oil Company.

SHOT BY WOMAN

Senator Brown Probably Fatally Wounded in Washington Apartments.

CLIMAX OF AN OLD STORY.

Mrs. Bradley Follows Her Victim From Utah and Demands That He Do the Right Thing.

Washington, D. C.—Ex-United States Senator Arthur Brown, of Utah, was shot and perhaps fatally wounded in his apartments at the Raleigh Hotel in Washington, and now lies in a very critical condition in the Emergency Hospital. The shots were fired by a woman giving her name as Mrs. Anna M. Bradley, and who said that she was from Salt Lake City, Utah. The woman registered at the hotel as A. B. Brown. She was arrested immediately after committing the crime.

The senator was taken as soon as possible to the hospital and placed upon the operating table, where, after working over him for over two hours, the surgeons were unable to locate the bullet, which had entered the abdomen and lodged in the pelvic cavity, the other shot grazing his hand, two being fired. The surgeons stated that for the present at least they will make no further attempt to locate the bullet, and that while the condition of the senator was critical there was hope of his recovery.

The woman who did the shooting arrived in the city early in the forenoon and went immediately to the hotel, being assigned to a room on the same floor as the apartments of the senator. The shooting had no eye-witnesses, and the first intimation that the management of the hotel had that a tragedy was taking place under their roof was brought to them by a maid who had heard the shots fired, and who upon entering the apartments of the senator found him lying on the floor in a seemingly dying condition and the woman who, it is alleged, did the shooting standing by the dresser. Mrs. Brown said that she came to Washington to demand that Senator Brown marry her. She said their relations were well known in Salt Lake.

"I asked him if he was going to do the right thing by me," she said, maintaining a remarkable composure. "His reply was to put on his overcoat and start to leave the room, and I shot him. I abhor acts of this character, but in this case it was fully justified."

While expressing no sorrow for her act, she declared that she was glad to know that Senator Brown might recover.

"I was pratically penniless when I got here," she said, "having only $1.25, and after paying the cabman all the money I had in the world was $1."

She said she urged Senator Brown to marr yher; that he had been instrumental in the divorce between her husband and herself, and that as his wife was dead he now could do the right thing by her. This, she said, he positively refused to do.

Mrs. Bradley is a brunette, about 38 years old.

Connected by Tunnel.

New York.—Manhattan and Brooklyn boroughs were connected under the East river by the piecing of the last section of earth which separated the ends of the north tube of the tunnel of the Rapid Transit railroad extension, eighty-five feet beneath the surface of the river, and by joining by a ten-inch pipe the two bores of the tunnel.

The East river tunnel extends from the Battery to Poraleman street, Brooklyn. When tracks are laid it will form part of the subway rapid transit system from Kings bridge to Brooklyn.

Electric cars of the Long Island railroad will also run through the tunnel.

Bullion for Egypt.

London.—Bullion amounting to 280,000 pounds has been withdrawn from the Bank of England, of which 210,000 pounds was for shipment to Egypt and 80,000 pounds for shipment to South America.

Serious Charge.

Hazelhurst, Miss.—The Copiah county grand jury has returned indictments against the board of supervisors on the charge of misappropriating public funds, the allegation being that road contractors have been paid out of the county funds for work they did not perform and that $56,000 has been expended on the highways during the past year, while the actual work performed is far short of that figure.

Horses Ran Away With Hearse.

Mobile, Ala.—At Lucedale, Miss., the horses attached to the hearse bearing the remains of the father of Dr. W. B. Brewton became frightened as the funeral procession started for the cemetery and ran away. The driver, Oscar Grimes, aged 23 years, was killed, and the casket was thrown to the ground and the corpse let out and exposed to view. The runaway caused considerable excitement.

Want Place in Congress.

Washington, D. C.—For a number of years there has been more or less of sentiment in congress that the right of suffrage should be conferred upon the people of the District of Columbia, carrying with it representation in the house. The matter has never made any great headway, chiefly because a majority of the influential people at the national capital appeared to care nothing about it.

Now, since Washington aspires to be a great commercial center, more interest is taken in the suffrage question. Men who always have professed themselves as satisfied in their disfranchised state are clamoring for a right to vote, and the bill introduced on Monday by Representative Kline, of Pennsylvania, is receiving considerable attention. Mr. Kline's bill provides that the district shall be entitled to two representatives in congress, with the same right to speak and vote as is possessed by any other members. There isn't any chance of its passing at the present session, but an agitation has been started that is likely to be productive of results next year.

The inhabitants of the District of Columbia have a smaller measure of self-government than any other people under the American flag, probably smaller than any other people in the civilized world. In fact, they have no self-government at all, every office in the district, even that of justice of the peace, being an appointive one.

Believes Death Must Come Soon.

Berlin.—Although the German foreign office does not believe that the Shah of Persia is so near death as reported from Teheran, it is well understood that his passing cannot be long delayed, as his maladies are in their final stages.

Germany is popularly supposed, in Great Britain and France especially, to be pursuing mysterious political objects, with the ultimate design of acquiring territorial advantages in Persia. The German policy, the Associated Press is informed, is simply equal trade privileges in Persia for all nations. The principle of the German policy in Persia has been clearly explained to the foreign offices of Great Britain and Russia, and misunderstandings, such as those which made the Moroccan question serious, are not likely to arise.

Russia is more the rival of Germany for the trade of Persia than is Great Britain, possessing, as she does, a treaty under which the customs duties on overland imports are lower than those imposed on sea-borne imports, and both Great Britain and Germany have a community of interests in obtaining an equalization of the seaport and land frontier duties.

Hester's Statement of Weights.

New Orleans, La.—Secretary Hester has just issued a statement of weights of 4,561,808 bales of cotton handled at outports and across the Mississippi, Ohio and Potomac rivers overland to American manufacturers outside of the cotton belt for the three months from September to November, inclusive, showing an average per bale of 523.73 pounds, against 519.10 for the same period last year.

The details are as follows:

Texas ports, 535.03, against 533.56.

Louisiana ports, 526.61, against 522.16.

Alabama, etc., 529.10, against 530.

Georgia ports, 511.50, against 508.

South Carolina ports, 498, against 500.

North Carolina ports, 509.25, against 501.95.

Virginia ports, 502, against 496.

Tennessee, etc., 518.30, against 523.08.

General Wint Goes to Cuba.

Washington, D. C.—Brigadier-General Wint, who has been assigned to the command of the troops in Cuba, reported at the war department and received his instructions from Secretary Taft. He expects to sail for Cuba Tuesday on the transport Sumner from Newport News and will relieve Gen. J. Franklin Bell at Havana. General Bell will return at once to Washington to resume his duties as chief of staff.

Steamer Aground.

Philadelphia.—The British steamer Menomine, from this port for Antwerp via London, went aground in the Delaware river off New Castle, Del., about thirty miles below this city.

The Shah Near Death.

Teheran, Persia.—The health of the Shah shows that he has made a further slight improvement compared with his former condition, but is still very weak.

Yellow Fever Situation Improved.

Havana.—The yellow fever situation in Havana is satisfactory. There is only one case in the city at present and two cases in the interior.

Bishop Seymour Dead.

Springfield, Ill.—Bishop George F. Seymour, of the Episcopal diocese of Springfield, died Saturday of pneumonia.

Athens Skating Rink.

Athens, Ala.—A building has been converted into a handsome skating rink, which will be thrown open at once.

LONE ROBBER

Raids Kansas Bank, But

Foiled by Burglar Alarm.

ROBBER BATTLES WITH PO

One Man Killed During the Fi That Followed—The Robber Was Captured.

Great Bend, Kas.—After a dar
tempt to rob the J V Brinkman C
pany bank single-handed a man
gave his name as George A Lewis,
Kansas City, was surrounded and
rendered. Bud Westfall a driver
the Well-Fargo Express Company,
killed by a shot fired by one of
pursuers.

Lewis walked into the bank a
minutes after it opened and,
a revolver at A. E. Taylor the
ordered the latter to throw up
hands. An instant later a clerk
into the vault and set off the
alarm. Lewis fled and darted up
alley.

A crowd of men and boys
chase, and seeing himself
hemmed in, the robber darted up
stairs in the Well-Fargo building,
blocks from the bank. On the
floor he locked himself in a room
for an hour defied arrest. Sev
shots were fired into the room
attempt to dislodge the robber.
bullet struck and killed Driver We
fall, who was in the express office
the same floor.

Finally, after parleying for an
with his pursuers, Lewis surrend
and was taken to the county jail.

The room in which the robber
caded himself was occupied by
Anna Tyler as a millinery store. Le
told Mrs. Tyler that he had robbed
bank, that a crowd was after him,
begged her to hide him. Instead
fled in terror, and the man locked
barred the doors.

The robber is 20 years of age, we
160 pounds and is six feet tall
has light hair and blue eyes, and
well dressed. He said he had
contributions to eastern magazines
papers, but his matter had been re
ed, and he had become despon
He cried as he told his story.

Millionaire Dupont Gets Divo

Sioux Falls, S. D.—Alfred I. Du
millionaire powder manufacturer,
formerly resided at Wilmington, D
but who has resided in Sioux F
since taking up his residence in
Dakota in the present fiscal year, h
been granted a divorce in the st
circuit court from Bessie G. Dup
The divorce decree was granted
grounds of extreme cruelty and in
man treatment. The couple have
children, and the matter of their c
tody and the question of alimony
amicably adjusted out of court.
Dupont is a cousin of Senator Du
of Delaware.

Postal Stops Free Messages.

New York.—Clarence H. Mack
president of the Postal Telegraph a
Cable Company, states that the bo
of directors of that company h
passed the following resolution:

"Resolved, That owing to cha
conditions it has been found nece
to stop all free transmission of m
sages, and this company will abso
ly discontinue its free list on and af

Women Make Best Bankers.

s. Veronica F. Church, cashier
the Bank of Joplin, Mo., extolled
virtues of women as bankers in
address before the convention of
National Bankers' Association in
Olympic Theatre, St. Louis. Af
describing woman's honesty, in
try, carefulness and courtesy, she
ferred to woman's intuition as her
test qualification for the business
the banks.

"The first prerequisite for any
official," she said, "is that of
olute honesty, and I believe I am
ified in saying that women, as a
s, possess this qualification in a
y marked degree. Perhaps there
reasons for it, such as their en
nment, but, whatever the cause
be, I feel warranted in saying
fewer women are dishonest than

"Sterling integrity is most certain
another qualification for the bank
cial; and right here again I claim
woman that she possesses this
lification in its highest form.

"Not even flattery or a division of
ils would tempt a woman to be
erwise than sincere and honor
in handling the funds intrusted
her bank."

The Chaperon.

Of course the chaperon question,
it is generally understood, is a
iddle class one, says the London
orld; but Father Vaughan perfect
understood what he was saying
n he alluded to the lack of sur
illance of a properly dignified and
rfectly agreeable kind from which
many girls really suffer nowadays.
is is due partly to the fact that
thers do not seem to be want to
bothered to look after their girls,
partly to the fact that hostesses
to resent much "mothering."
t even allowing for the fact that
e preacher has not spared his col
in order to make his picture suf
ently striking, one knows perfect
well that far too much latitude is
ven to girls not only in country
uses but in town as well. It would
t be at all a bad thing for English
ciety if we could go back to the
ys when people keep almost ab
rdly watchful eyes on the proprie
s. Their vigilance may sometimes
ve been eluded, it is true; it may
metimes have provoked ridicule,
t at least it conveyed the idea that
others set high standard for their
irls, and were at some pains to see
at they came somewhere near it.
was good for men to feel this,
oreover, for it surely made women
em better worth the winning if they
d been jealously guarded under
e experienced eye of a duenna who
ew man and his ways.

Oddly Marked Trunks.

Recently a curious fashion of marking trunks by individual and odd devices has come into practice. It is a trick that helps to identify one's baggage instantly, even at a distance, in a crowded railway station, and thus facilitate travel, especially abroad, where so much red tape entangles baggage transportation.

Some of the devices used are queer, to say the least. A lover of dogs had brindle heads in brown and white painted at intervals on all her trunks and suit cases before sailing for Germany. She felt sure, she said, that she would be able to identify her baggage anywhere by these signs, says the Philadelphia Bulletin.

Another curious design is that of skull and crossbones, done in black, white and red, on top, sides and ends of trunks, and on the bottom of every bag, of one traveler.

Dumbbell designs in red, white and blue identify another lot of luggage. One society woman has her trunks all marked with a design of a pair of gloves, painted red, black and gold, and appearing as if just taken off the hand and carelessly tossed in the trunk.

Family crests in gold and colors are used, and college girls going abroad have curious Chinese dragons, birds, etc., done in Oriental color combinations on their baggage.

Depression.

The occasional mood of depression which overtakes the most light-hearted of us women is as much to be dreaded as an east wind. While it lasts it has the effect of an east wind, chilling us to the marrow and putting into our manner that which chills our children and our friends. Almost as if it were a sentient thing, a living, hostile influence, the demon of depression broods over our hearts, blotting the sun in the noonday and the stars in the midnight sky.

Nothing in our circumstances may be more distressing or more threatening than usual. Our affairs may not be in the shape most desirable, and we may be menaced by some very tangible calamity, but we have weathered such storms before, and, God helping us, we hope to do so again. Perhaps our struggle is with limited means, and our effort to keep up appearances, to educate a son or daughter, to dress in the style of our neighbors, or to indulge some favorite taste, keeps us in debt, and never lets us draw a free breath.

The singular thing, however, is that our moods of depression are not consequent upon actual poverty, or upon real trouble of any kind. Depression is quite as likely to pounce upon its victim when, apparently,

WOMAN'S REALM

Women Make Best Bankers.

Veronica F. Church, cashier Bank of Joplin, Mo., extolled virtues of women as bankers in address before the convention of National Bankers' Association in Olympic Theatre, St. Louis. Af describing woman's honesty, in y, carefulness and courtesy, she red to woman's intuition as her st qualification for the business e banks.

"The first prerequisite for any official," she said, "is that of olute honesty, and I believe I am fied in saying that women, as a , possess this qualification in a marked degree. Perhaps there reasons for it, such as their en nment, but, whatever the cause be, I feel warranted in saying fewer women are dishonest than .

"Sterling integrity is most certain another qualification for the bank ial, and right here again I claim woman that she possesses this alification in its highest form. "Not even flattery or a division of s would tempt a woman to be erwise than sincere and honor e in handling the funds intrusted her bank."

The Chaperon.

Of course the chaperon question, it is generally understood, is a ddle class one, says the London orld; but Father Vaughan perfect understood what he was saying en he alluded to the lack of sur illance of a properly dignified and rfectly agreeable kind from which many girls really suffer nowadays. is is due partly to the fact that others do not seem to be want to bothered to look after their girls, d partly to the fact that hostesses m to resent much "mothering." t even allowing for the fact that preacher has not spared his col in order to make his picture suf iently striking, one knows perfect well that far too much latitude is ven to girls not only in country uses but in town as well. It would t be at all a bad thing for English ciety if we could go back to the ys when people keep almost ab rdly watchful eyes on the proprie . Their vigilance may sometimes ve been eluded, it is true; it may metimes have provoked ridicule, d at least it conveyed the idea that others set high standard for their ls, and were at some pains to see at they came somewhere near it. was good for men to feel this, oreover, for it surely made women m better worth the winning if they d been jealously guarded under experienced eye of a duenna who ew man and his ways.

Oddly Marked Trunks.

Recently a curious fashion of arking trunks by individual and d devices has come into practice. is a trick that helps to identify e's baggage instantly, even at a stance, in a crowded railway station, and thus facilitate travel, espe ially abroad, where so much red pe entangles baggage transportation.

Some of the devices used are queer, say the least. A lover of dogs had brindle heads in brown and white inted at intervals on all her trunks d suit cases before sailing for Ger any. She felt sure, she said, that e would be able to identify her baggage anywhere by these signs, ays the Philadelphia Bulletin.

Another curious design is that of skull and crossbones, done in black, white and red, on top, sides and ends of trunks, and on the bottom of every bag, of one traveler.

Dumbbell designs in red, white and e identify another lot of luggage. One society woman has her trunks all marked with a design of a pair of gloves, painted red, black and gold, and appearing as if just taken off the hand and carelessly tossed in the trunk.

Family crests in gold and colors are used, and college girls going abroad have curious Chinese dragons, birds, etc., done in Oriental color combinations on their baggage.

Depression.

The occasional mood of depression which overtakes the most light-heart ed of us women is as much to be dreaded as an east wind. While it lasts it has the effect of an east wind, chilling us to the marrow and put ting into our manner that which chills our children and our friends. Almost as if it were a sensate thing, a living, hostile influence, the demon of depression broods over our hearts, blotting the sun in the noonday and the stars in the midnight sky.

Nothing in our circumstances may be more distressing or more threatening than usual. Our affairs may not be in the shape most desirable, and we may be menaced by some very tangible calamity, but we have weathered such storms before, and, God helping us, we hope to do so again. Perhaps our struggle is with limited means, and our effort to keep up appearances, to educate a son or daughter, to dress in the style of our neighbors, or to indulge some favorite taste, keeps us in debt, and never lets us draw a free breath.

The singular thing, however, is that our moods of depression are not consequent upon actual poverty, or upon real trouble of any kind. Depression is quite as likely to pounce upon its victim when, apparently, there is no reason for anything except cheerfulness and gayety. Depression does frequently supervene on physical fatigue, a disordered liver, or worn-out nerves. Change of scene, a night's rest, an hour of listening to music, or a nourishing restorative diet, will often banish the evil demon, and brighten the world once more.

What one can do, one should, if menaced by any state of feeling which interferes with the comfort and well being of one's family, to say nothing of one's own mental balance. It is exceedingly selfish, if it can be avoided; to inflict one's mood of depression upon husband, wife, child, sister, comrade or servant. If it can be avoided before it comes, or cured when it appears, or vanquished in its baleful battle, by all means let the Christian rally the forces at hand, and gather strength by prayer, and fare onward cheerfully.

In our wrestle, not with flesh and blood only, but often with principalities and powers, envoys from the unseen spiritual world, which so closely environs us, we need to summon help from above. And we need, also, common sense, as an ally to faith.—Margaret E. Sangster.

The Black Rood.

Should the King grant permission for the restoration of the ruined chapel that stands beside Holyrood Palace—practically all that remains of the splendors of the ancient abbey—Edinburgh will have another show place of no small interest.

There is a legend that explains how Holyrood came by its name. It tells of the rescue of David I. of Scotland from a stag by the miraculous intervention of a black rood, or cross. The King therefore dedicated the abbey, which he founded, to the Black Rood of Scotland, a casket shaped cross of gold which had been brought to Scotland a century earlier, containing what was supposed to be a portion of the true cross set in an ebony figure of the Saviour.

The Black Rood went through many adventures. It was preserved in Edinburgh Castle along with the royal regalia, but was seized by Edward I. and carried into England for the purpose of making more sacred the oaths of allegiance which he exacted from the Scottish nobles. The nobles, however, appear to have regarded their oaths with less scruple than King Edward expected. The last we hear of the Black Rood comes from the shrine of St. Cuthbert, in Durham Cathedral, at the time of the Reformation. Since that shrine destroying era all is silent as to the history of the Black Rood. — London Chronicle.

The Human Thermometer.

We are wont to complain—perspiringly—of ninety degrees in the shade, but in Russia they call it cold at 135 degrees. And when their thermometer marks zero they call it hot—boiling hot, in fact. Let us hasten to add, however, that the peculiarity is with the thermometer, not with the people. For they use the De Lisle instrument on which 135 degrees is the freezing and zero the boiling point. We cannot always trust our feelings to tell us whether a thing is cold or hot. Perhaps, strictly speaking, instead of saying it is cold, or it is hot, we should say, I feel it cold or hot. When the sojourner in the Arctic regions inadvertently touches the cold iron with his lips he cannot, from his feelings, say that the iron was not red hot. Plunge one hand into hot water and another into ice-cold water. After a few minutes put them both into a basin of tepid water. The one hand will telegraph to the brain that it is hot. The human body is a bad thermometer.—London Globe.

First American Zoo.

Long before the present Zoological Gardens on the west bank of the Schuylkill River were dreamed of there existed in Germantown a large collection of wild animals. It was more than 100 years ago that Charles Wilson Peale, the famous American artist and founder of the Academy of the Fine Arts, began to organize his zoo on the extensive grounds surrounding the Peale homestead in Germantown.

From 1779 until 1826, the date of his death, Peale kept adding to his collection, and his interest in wild animals was the real stimulus which led to the establishment of the present "zoo." To-day only the old bear pit and cave remain as a relic of Peale's menageries. The pit is in a splendid state of preservation, the stone arch being as strong as when built a century ago.—Philadelphia Inquirer.

The Welshman in London.

It is said that when the London Welshman is not a draper he is a milkman. This is a travesty of the facts. It is true that the drapery kings of the metropolis are Welshmen, and that most of the successful milk concerns are in the hands of the same race, but that is only a small part of the story. In law and medicine, in the pulpit of the church and the chapel, in the great Government departments, and in many businesses besides drapery and milk, the Welshman is a prominent figure, and even in politics he contrives to make a very respectable show. — Western Mail, Cardiff.

FINLEY IS PRESIDENT OF SOUTHERN RAILWAY.

New York.—The directors of the Southern railway elected W. W. Finley, of Washington, president of the company, to succeed the late Samuel Spencer.

Mr. Finley has been second vice-president of the road since September 15, 1896. He has been active in railway work since 1875.

Prior to entering the Southern's service Mr. Finley was second vice-president of the Great Northern railway; before that he was third vice-president of the Southern railway. For two years he was chairman of the Southeastern Passenger Association at Atlanta.

Mr. Finley was at times associated with James J. Hill.

Weekly Averages.

New York.—The clearing house banks for the two weeks show that the banks hold $86,702,175 less than the legal reserve requirements. This is a decrease of $8,151,300 as compared with last week. The statement shows:

Loans, $1,044,668,800; decrease, $3,883,500.

Deposits, 982,177,500; decrease, $16,457,200.

Circulation, $53,740,900; increase, $416,500.

Legal tenders, $66,877,300; decrease, $2,533,400.

Specie, $171,954,900; decrease, $9,732,200.

Reserve, 231,842,200; decrease, $12,265,600.

Reserve required, $245,544,375; decrease, $$4,114,300.

Deficit, $$6,702,125; decrease, $8,151,300.

Ex-United States deposits (deficit), $3,132,550; decrease, $8,143,300.

The deficit reported in the largest since August 25, 1893, when the reserve was impaired to the amount of $6,767,000. Two weeks prior to that date, however, August 12, 1893, occurred the greatest deficit in the history of the associated banks, amounting to $16,500,000.

To Revise Tariff.

Washington, D. C.—Congressman Butler Ames, of Massachusetts, has begun a propaganda for an immediate movement in the interest of tariff revision. He says he is not undertaking to secure action at the present session of congress, but is urging upon republican members the advisability of a general caucus to "give concrete expression of their determination to immediately revise the inequalities present in our tariff laws, so that all possible notice to the country at large may be given as to the time of revision."

He thinks that the subject should be taken up immediately after the 4th of March, and would have the caucus determine the best method of procedure, and whether the whole tariff laws should be revised or only particular schedules amended.

Internal Revenue Receipts.

Washington, D. C.—The monthly statement of the receipts from internal revenue sources shows that for the month of October, 1906, the total collections were $24,835,283, a gain over October, 1905, of $2,500,994. The receipts from the several sources of revenue are given as follows: Spirits, $15,238,965; increase, $1,736,904. Tobacco, $4,800,517; increase, $558,588. Fermented liquors, $$4,622,035; increase, $206,836. Oleomargarine, $69,498; increase, $28,936. Adulterated butter, $4,000; increase, $1,401. Process or renovated butter, $16,871; increase, $6,853. Miscellaneous, $77,004; decrease, $35,773.

Duffey Loses His Case.

New York.—The appellate division of the supreme court handed down a decision in the case of A. F. Duffey, the sprinter, against President James E. Sullivan, of the Amateur Athletic Union, sustaining the decision of the lower court, which held that Duffey did not show that he had any cause of action against the union to compel it to reinstate his alleged track records. Permission was granted the plaintiff to amend his complaint upon the payment of costs.

Distilleries Visited.

Louisville, Ky.—The members of the pure food commission visited a number of distilleries and rectifying houses. It was announced that the commission will sit in Lexington next Thursday to hear the whisky interests of that district.

Southern Wreck.

Danville, Va.—A wreck in the yards of the Southern railway in this city resulted in the death of two men and the the injuring of a number of others, one of whom will die. The dead are George C. Kinney, of Thomasville, N. C., and an unknown man, probably a tramp.

Florence Schools in Good Shape.

Florence, Ala.—The last monthly report of City Superintendent W. W. Hall, of the Florence schools, shows an excellent state of discipline and a most encouraging condition prevailing generally. The number of pupils enrolled is 744, the percentage of attendance 98 and the percentage of tardiness 1.4. The average monthly cost per pupil is 90 cents, and considering schools the report of Superintendent Hall is a good one.

After Insurance Companies.

Nashville, Tenn.—State Insurance Commissioner Reau E. Folk sent the following telegrams, which are self-explanatory:

"Mutual Life Insurance Company, New York:

"Facts were developed in investigation before me that contracts were made at your Nashville office for salaries and expenses with agents to solicit votes in election of trustees, and that various sums, aggregating several thousand dollars, had been paid these agents, these amounts not appearing on the company's books, but being carried as cash items. Your supervisor of agencies, Mr. W. H. Wooten, stated these expenditures unauthorized and would be replaced. Your manager at Nashville, T. C. Hindman, states expenditures authorized by Wooten. Facts also developed that tickets containing only names of administration candidates were sent to agents with large supply of stamped envelopes, stamps being paid for by company's funds. It is the ruling of this department that these, being diversions of company's funds, the same must be repaid and that within ten days from this date satisfactory evidence must be presented that these amounts and other of similar character, if there be any, have been or will be restored to the company. REAU E. FOLK, "Insurance Commissioner."

"New York Life Insurance Company, New York:

"Vice-President Perkins stated in investigation before me that cost of 800,000 extra ballots, printed by the company and marked by agents for administration ticket, would be refunded to the company. It is ruling of this department that within ten days from this date satisfactory evidence must be furnished that this has been done. REAU E. FOLK, "Insurance Commissioner."

Heaviest Deficit in Thirteen Years.

New York.—The heaviest deficit below legal requirement in the legal reserve of the associated banks of this city was disclosed by Saturday's bank statement. The deficit amounts to $6,702,175, as against a surplus of $1,449,300 one week ago.

While it is not unusual for the bank statement to show that the banks hold less than the law requires them to keep in reserve, it is quite unusual for the deficit to assume such big proportions. The largest deficit ever shown in the history of the associated banks was on August 12, 1893, when the reserves showed $16,500,000 short of the legal requirement. That Wall street is hopeful that some action will be taken by the secretary of the treasury to relieve present conditions in the money market was indicated by a slump of the stock market after the publication of the bank statement.

Instead of a slump in stocks, there was only a slight drop, which was checked in a few minutes.

The scarcity of money is attributed to several causes. There has been a steady drain to the west on account of the crop movements, heavy dividends have been declared this month and unusually heavy speculation in mining stocks has helped to operate to pump the local banks dry.

Hill Lines Next.

Washington, D. C.—An investigation of the operation and management of railroad controlled by James J. Hill and his associates, including the Northern Pacific, the Great Northern and Chicago, Burlington and Quincy, is contemplated by the interstate commerce commission. The matter has been talked over by the commissioners, and after certain preliminaries have been arranged and counsel for the commission selected formal announcement of the proposed investigation will be made. As in the case of proposed investigation of management and control of the Southern Pacific and Union Pacific roads of the Harriman system, the investigation is not the outgrowth of any special complaints of violations of interstate commerce law, but is to be undertaken by virtue of general inquisitorial powers conferred on the commission by congress.

The investigation will be broad and comprehensive, with a view to ascertaining the exact condition of affairs regarding railroads with relation to their compliance with the terms of the interstate commerce act.

Mrs. Myers' Application Denied.

Washington, D. C.—The supreme court of the United States, through Justice Brewer, has denied the application of Mrs. Aggie Myers, of Kansas City, Mo., for a writ of error, which, if it had been allowed, would have had the effect of bringing her case to that court. Mrs. Myers is under sentence of death in Missouri on the charge of murdering her husband in Kansas City a year or more ago. The effect of the decision will be to leave the matter in the hands of the state authorities.

Lampley Home Burned.

Greenville, Ala.—The home of Judge H. D. Lampley was burned. It was in the suburbs, beyond the fire limits, and no assistance could be rendered. Those living near gathered quickly and succeeded in saving nearly all the household furniture.

Killed While Hunting.

Athens, Ala.—Earle, the 14-year-old son of Dave Holt, accidently shot and killed while out rabbit hunting.

Household Matters

Keep House Plants in Pots.

I do not advise turning plants out of their pots and putting them in the ground in summer. My reason is this: Plants treated in that manner will make a great growth of roots, most of which must be sacrificed when the time comes to lift and pot the plant in fall. This leaves the plants in a weak, crippled condition at the very time when they ought to be at their best, in order to stand the trying change of conditions which they have to meet when they are taken indoors. Plants kept in pots escape this ordeal.—Outing Magazine.

Keeping Milk Fresh.

A simple device for keeping milk sweet when ice is not to be had is to scald it. Scalded milk is not so nice for a good many purposes as if it had not been scalded, but it does just as well for cocoa and coffee, and proved a great convenience in a summer cottage where meals were taken at a farmhouse across the way, and there were no facilities for keeping perishable foods in the house. The milk left from the evening cocoa was accordingly scalded for the morning coffee, which was served before any one was ready to run across the street and get fresh milk.—E. M., in the New York Tribune.

How to Make a Photo Frame.

Did you ever see a frame made of peanuts, or "monkey nuts," as perhaps you call them? Well, try making one for yourself, and I am sure you will want to make others for presents for your friends.

Get a plain little wooden frame, the right size for the photograph, a bag of peanuts and a pot of glue. Brush some glue on the frame, and then lay the nuts—in their shells, of course — on it, taking pains to fit them in snugly together. Drop a little glue between the nuts as you place them, so as to hold them firmly.

When the frame is quite covered with the peanuts let it lie on the table till the glue is firm and hard, and then go over it carefully with a brush dipped in varnish, says Home Notes.

If you like you may use acorn cups and little fir cones as well as peanuts, but you would have to wait for the autumn to collect these, wouldn't you?

Care of Stocks and Collars.

Half the battle in always wearing neat, fresh-looking neckwear is to have a place where it may be kept in good order. No matter how beautifully laundered stocks and collars may be they will soon become rumpled and untidy looking unless they are carefully put away.

A box twelve or fourteen inches long and wide enough to hold the ordinary stock will be found most useful for turnover collars and cuffs as well as stocks. It should have a hinged cover that may be easily lifted and that will fall back into place, for only the very careful woman stops to put covers on boxes when she is in a hurry.

For linen collars, which are being worn again this season, the leather collar boxes that may be obtained at any men's furnishing store are most useful. These boxes have soft leather tops that tie up with a draw string. They take up but little room, and collars and even stocks that are kept in them will appear as fresh looking as if just from the laundry.

A dainty case, for the little turnover collars may be made of crepe paper. Cover two oblong pieces of cardboard the desired size, with the colored paper, placing underneath it a layer of scented cotton.

The edges of the paper are pasted or sewn together. A band of ribbon two inches wide passes along the ends of one of the boards, the ribbon ends being crossed on the back of the board and brought forward across the front of the other board to form a hinge and at the same time form straps to keep the collars in place.—New York Mail.

FOR THE EPICURE

Delicious Sorbet—Make a syrup of a pint of water and a pound of sugar. Stir in a can of shredded pineapple, a cupful and a half of orange juice and half a cupful of lemon juice. Cool the mixture, add a bottle of mineral water and freeze to a mush.

Corn Croquettes—To one quart of grated corn add one pint of milk or cream and cook in a double boiler for twenty minutes. Add two tablespoons each of butter and grated cheese, one teaspoonful of salt, one-fourth teaspoonful of pepper and two eggs, well beaten. When cold form into squares one inch thick and two inches across. Roll in egg and cream crumbs and fry in hot fat or bake in the oven until brown.

Cream Cakes—Put two-thirds of butter in a coffee cup and level it with lard, then put the same amount of water to boil, then when boiling turn in your cup of butter and lard. When boiling turn in same amount of flour with a pinch of soda. Mix quickly and well with a spoon or whip. Put to cool, then break in five eggs one at a time, working each one well with your hand. Drop into a pan at intervals, bake in lower oven with a fair fire.

Croustade of Lobster—Cut off the top from a loaf of stale bread, scoop out all of the interior, leaving a half wall, spread a coating of butter on the inside and bake until crisp; place a layer of cooked lobster meat over the bottom, then a layer of boiled thinly sliced tomatoes, adding a white sauce, highly seasoned, between each layer; put fine bread crumbs on top, dot with butter and bake fifteen minutes in a hot oven; garnish with halved stuffed olives, lobster, clams and parsley.

MADAME'S MIRRORS.

It Takes at Least Five to See Her Through.

"I have never been accused of vanity, and yet I could not live without my five mirrors," remarked the girl whose friends say she always looks as though she had just stepped out of a bandbox. "That's why you never see my safety-pins showing under my belt or my petticoat hanging dejectedly below my gown," says a writer in the New York Sun.

"No woman can keep up a trim appearance without a proper mirror equipment. When my friends ask how I manage to keep my clothes neat and unrumpled even to the end of a busy day, my reply is that I take pains to see that they are put on right in the first place, and I couldn't see that if I didn't have my mirrors."

"I find two quite sufficient," said the frowsy girl. "I have one on my dresser and a handglass, and they answer all purposes."

"That's just it," replied the first girl, warming to her subject. "You know nothing about needing any more because you have never found out their value, and, unless I miss my guess, your dresser stands in the darkest part of the room facing the light.

"In that case how can you see the bottom of your skirt all around? You can't. The world sees you from every point of view, while you see yourself from only one.

"First of all have a good light on your mirror. If the light is directly on the glass it will reflect better than if it is on you.

"Then have it full length. It's like taking a narrow-minded view of life to have a mirror that cuts you off at the waist line.

"I have my glass fastened to the door between my bedroom and bath, so that I can swing it at any angle and always find a good light. It's a liberal education to see yourself from top to toe all at once. Then you know exactly how you impress the world.

"In addition to the triple glass you will need the usual small hand mirror to help you see the back of your head under the best light. That makes three separate mirrors in which to study yourself from top to toe each time you dress.

"But these are not all. Two more are needed. One of these is a dentist's glass, a circular magnifying glass about the size of a quarter and mounted on a long pearl or ivory handle. With this you can see how your teeth look, whether they are in good condition or not.

"The fifth mirror in the set is the popular vanity glass. There was a time when high-minded women scorned such feminine weakness as to go about armed with a vanity outfit, but you will find every carefully dressed woman of to-day depending on her vanity case.

"Mark my words. Whenever you see a woman who is scrupulously dressed you may attribute it to one of two facts—either she has a treasure of a maid or she knows the value of having the right assortment of mirrors, and she is the woman who will keep on looking young when her sisters who depend on a dresser mirror over in a dark corner have long since begun to show the wear and tear of time."

Justice's Marrying Fee.

"What's the average fee paid by the people who get a justice of the peace to marry them?" said Squire W. H. Nickerson, the other day. "Well, I should say that it is $2.50. I've married lots of people, and I guess the fees I have received will average just about that.

"I have never received more than $10, and I make it a practice not to accept anything less than $1. If the 'happy bridegroom' offers me less than $1, I tell him just to keep it; that he'll probably need it to get his dinner with.

"Oh, yes, lots of them will offer one fifty cents. If a man asks me how much the bill is, I usually tell him $3. Usually he forks it over, but some people demur and want to pay a dollar less. That is always satisfactory to me, and I figure that I'm lucky to get $2 out of such a fellow. But I suppose that many of them can't afford to part with a larger amount."—Indianapolis News.

Dough in Dots.

It is estimated that in all some 500 wealthy American women have married titled foreigners and that the aggregate amount of their dowries exceeded $200,000,000. The most heavily dowered bride was the Duchess of Roxburghe, with a fortune of $40,000,000. The others include the Duchess of Marlborough, $10,000,000; the late Lady Curzon, $5,000,000; Countess de Castellane, $15,000,000; Mrs. Vivian, $12,000,000; Baroness Halkett, $10,000,000; Lady William Beresford, $3,000,000; Princess Colonna, $2,500,000; Countess Von Larisch, $4,000,000.—Kansas City Journal.

Old Whist Terms.

The following passage is from the Adventurer, No. 35, March 6, 1753:

"On Sunday last a terrible fire broke out at Lady Brag's, occasioned by the following accident: Mrs. Overall, the housekeeper, having lost three rubbers at whist running without holding a swabber (notwithstanding she had changed chairs, furzed the cards and ordered Jemmy, the footboy, to sit cross legged for good luck), grew out of all patience and, taking up the devil's books, as she called them, flung them into the fire, and the flames spread to the steward's room."

Swabbers are the ace of hearts, the knave of clubs and the ace and the deuce of trumps at whist. To furs or fuzz is to shuffle the cards very carefully or to change the pack.—London Notes and Queries.

Be Gentle With Bitter People.

How often we come across people in life so disagreeable and bitter, rejecting all overtures of kindness we make toward them, that we feel quite disheartened. And yet if we only knew their life's history how much we should perhaps find to forgive and pity, so let us keep on with our good work until we have thawed the icicles of their hearts with the warmth of our own.

Bethsalem

The health of our community is very good at present. Cotton picking and gathering generally is about over, and sowing oats is all the go.

We are glad to say that we have a good school at this place, conducted by Prof. Zeb Mims, we also have a flourishing sunday school on the second and fourth Sunday's, also preaching on the second Sunday and Saturday before by Rev. M. J. Parrish.

The young people of this community are conducting a fine debating society here by the assistance of Prof. Mims, a fine young man as well as a school teacher.

There will be a singing convention at this place on the fourth Sunday and Saturday before in January, the books to be used are Christian Harmony and Sacred Harp, everybody invited to come and bring your books and baskets and we will have a good old time singing. Come one, come all.

Now, as I have read so many letters in regard to stock law, I will say to those who are living on uplands, high but dry, poor but rocky, think just before you go to vote for stock law, if this poor, dry but sandy land would produce a pasture without a great cost, now. please think where the water is for that pasture, and the cost of well in drawing. Now, I will say to the voters of Beat six, look before you leap, for fear you land on high ridge where there is no water for your stock to drink, except from the well, and here is another cost. I will come again. Success to the Banner and its many readers.

GUESS WHO.

About Digestion.

It is not the quantity of food taken but the amount digested and assimilated that gives strength and vitality to the system. Chamberlain's Stomach and Liver Tablets invigorate the stomach and liver and enable them to perform their functions. The result is a relish for your food, increased strength and weight, greater endurance and clear head. Price 25 cents, samples free. For sale by Upchurch Drug co., Clanton, A. Horn, Thorsby.

Sardis.

The health of our community is very good at present Our Sunday school has about gone dead, and let us all go out next Sunday and re-organize it; we all know that a Sunday school is the life of a community and the material is here, and why not go to work and have a good Sunday school? I think it would be far better if the older ones would take more interest; though some are very faithful and take interest enough while there is a great number that takes no interest at all, and therefore it makes it hard on the faithful ones. So let us all go next Sunday.

Most of our young people, and some of the older ones too, went out to hear Bro Joe Gibson Sunday and report they heard a good sermon, With best wishes to the Banner and its many readers, I will ring off

Keep the bowels regular with Ayer's Pills and thus hasten recovery.

PROGRAM

Teachers' Institute, to be held at Rockymount School House, Dec. 14-15, 1906.

.0 a.m. Devotional exercises. Prof. R. A. Rasco.

10:15. Welcome address, T. B. Williams. Response, J. H. Anderson.

10:45. How should English grammar be taught to give best results? B. J. Sessions. Miss Lottie Johnson.

11:30. How to become a good reader, J. M. Parrish, Miss Turner Belle Mullins

12 Noon recess.

1 p.m. Value of mental arithmetic. G. L. Speer, Miss Ola Lee Jones.

1:45. Criticism of Alabama's adopted text books, P. G. Maness. Miss Stevonia E. Nash.

2:30 Some methods for improving the conditions of country schools, L. J. Thompson, W. A. Haggard

SATURDAY. 9 a.m. Devotional exercise

9:15. Value of thoroughness in school work, Miree Fuller, Miss Bessie Ellis.

9:45. Necessity of compulsory school attendance. William J. Lamkie.

10:30. What should be the aim of a teacher? R. A. Rasco. Marion J. Mims.

11:15. The evolution and comparative values of our social, moral and educational institutions. H. P. Self,

Committee—J. W. Moore, L. J. Thompson.

Rockymount is located five miles east of Jemison. There will be conveyance for all teachers going on train to Jemison. Those desiring conveyances will write Prof. F. B. Williams, Jemison, Ala. The law requires that all teachers must attend the county Institutes.

J. W. MOORE.

For chapped and cracked hands nothing is quite as good as an application of DeWitt's Witch Hazel Salve. Put it on before going to bed use an old pair of gloves and see what a difference the morning will bring. Sold by Upchurch Drug co.

Happily Married.

At the home of Mr. and Mrs. N. J. Maddox, the 9th inst., Mr. E. G. Mullins and Miss Ean Maddox were united in holy matrimony, Rev. N. A. Dobbs performed the ceremony; many wishes to the happy couple.

DANGER IN ASKING ADVICE.

When you have a cough or cold do not ask some one what is good for it, as there is danger in taking some unknown preparation. Foley's Honey and Tar cures coughs, colds, and prevents pneumonia. The genuine is in a yellow package. Refuse substitutes. Upchurch Drug co.

Maplesville, Dec. 10, 1906

Editor Banner—If you will allow me a small space in your Banner I will say a few words about stock law. As I was raised in a county where there was stock law I think I know something about it, and I will say to the voters of Chilton county they had better keep stock law out of Chilton. While we have peace, love and plenty of every thing to live on we had better let stock law alone. When you get it it's like all other bad things, you can't get rid of it. Stock law is no good to the farming class of people. it will do for the rich man that lives in the cities and owns land in the country. My brother farmers, we had better think what would be to the farmers interest; think of the poor, widows and orphans' that have got a cow or two and three or four head of hogs, and no place to take care of them. Well, I heard a man say the other day, that any body that was not able to take care of his own stock ought not to have any. Dear people, that made my hair rise on my head. When my father lived in stock law he fenced in 40 acres of land for pasture, kept 3 or 4 head of cows, it would do them about one-third of the time. when it would be eat out as clean as your hand then they were going to come out of there, never mind about fence they were going to come out, as for hogs you cant keep them hardly at all. Now, I say again to the voters of Chilton county when you get a bad thing you cant get rid of it, we have plenty out land for our stock yet we don't need stock law, you will find it out if we get it but too late then Success to the Banner and its many readers.

A SUBSCRIBER

A vegetable corrective for the babies and children with the name of each ingredient in plain English on every bottle, that is Cascasweet, the ideal medicine for the little ones. Contains no opiates. STOCK LAW ELECTION NOTICE.

Notice is hereby given that, in pursuance of an order made by the Commissioners' Court of Chilton county, Alabama, on the 13th day of November, 1906, ordering an election to be held in Precinct Six, in said county for the purpose of determining whether or not all live stock shall be prohibited from running at large in said Precinct Six, in said county an election for said purpose will be held on the 15th day of January, 1907, at Kincheon in said Precinct Six in Chilton county, Alabama.

Witness my hand this 13th day of November. 1906.

WALTER POPWELL.

When to go Home.

From the Bluffton, Ind., Banner: "When tired out, go home. When you want consolation, go home. When you want fun, go home. When you want to show others that you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at your best go home and do the act there. When you feel like being extra liberal go home and practice on your wife and children. When you want to shine with extra brilliancy go home and light up the whole household." To which we would add. when you have a bad cold go home and take Chamberlain's Cough Remedy and a quick cure is certain. For sale by Upchurch Drug co.. Clanton A. Horn. Thorsby.

For any ordinary diseases of the skin Chemberlain's Salve is excellent. It not only allays the itching and smarting but effects a cure For sale by Upchurch Drug co, Clanton A. Horn, Thorsby.

Don't neglect your cough.

Statistics show that in New York City alone over 200 people die every week from consumption.

And most of these consumptives might be living now if they had not neglected the warning cough.

You know how quickly *Scott's Emulsion* enables you to throw off a cough or cold.

ALL DRUGGISTS; 50c. AND $1.00.

What's Your Idea of Succe

If your aim in life is to succeed beyond the standards fixed by others, and you are not content to follow the beaten path, then we are eager to invite you to join our student forces, and let us teach you the modern ways of transacting business.

We Will Start You Rig

By placing you in a good paying position as soon as you complete your studies and thoroughly fit yourself for the task which awaits you. Business men show a preference for our graduates—that's because for years and years we have furnished them with bright, quick, capable office help.

MRS. SARAH J. WINDROM

Mrs. Sarah J. Windrom of Chicago, cousin of Zachary Taylor, twelfth president of the United States, and grandniece of Alexander Hamilton, who signed the Declaration of Independence says:

"Vinol is a Godsend to old people. I am 76 years old, but have a hearty appetite, sleep soundly, and feel active and well to day, thanks to Vinol. When I was young cod liver oil was dispensed in a greasy, unpalatable form, and it fairly gagged me to get it down. Vinol is entirely different, very palatable and nourishing to impoverished blood. It is the finest tonic and strength creator I ever used in my life.

Vinol is a real cod liver preparation, from which the useless oil has been eliminated and tonic iron added. Try Vinol on our guarantee. Upchurch Drug co.

We handle Lowney's fine chocolates, best made. Florence Drug Store.

How Diphtheria is Contracted.

One often hears the expression. "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had left the little one particularly susceptible to the wandering diphtheria germ. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diptheria or any other germ disease being contracted. For sale by Upchurch Drug co., Clanton, A. Horn, Thorsby.

TAX NOTICE.

I will be at Clanton the last 10 days in the year, commencing Dec. 20, 1906. All taxes not paid by Jan. 1, 1907, will become delinquent

GUARANTEED REMEDY FOR INDIGESTION,

Interesting Statement by Florence Drug Co.

When a man comes into this store and calls for any particular indigestion remedy, we always give him what he ask for, but in case he leaves it to us we usally recommend Pepsikola tablets.

Here is a preparation we have been selling right over the counter for years, and from actual observation we know it must do good, and really does relieve and cure indigestion and dyspepsia or there would be a steady stream of people coming back for their money, as every 25 cent box is sold with the understanding that you must be decidedly benefited or there is nothing to pay.

You simply try Pepsikola tablets with the understanding that they will steady your nerves, improve your appetite, relieve wind belching, coated tongue, sour stomach, fullness after eating, weakened energy, and other symptoms of indigestion or Florence Drug co., are ready at any time to pay back your money without the least argument.

IF YOUR EYES

THE OLD CLOCK AGAINST THE WALL.

Oh! the old, old clock of the household stock,
Was the brightest thing and neatest;
Its hands, though old, had a touch of gold,
And its chime rang still the sweetest;
'Twas a monitor, too, though its words were few,
Yet they lived through nations altered,
And its voice, still strong, warned old and young,
When the voice of friendship faltered.
"Tick! tick!" it said—"quick, quick to bed,
For ten I've given warning;
Up! up! and go, or else you know,
You'll never rise soon in the morning!"

A friendly voice was that old, old clock,
As it stood in the corner smiling,
And it blessed the time with a merry chime,
The wintry hours beguiling;
But a cross old voice was that tiresome clock,
As it called at daybreak boldly;
When the dawn looked gray o'er the misty way,
And the early air blew coldly.
"Tick! tick!" it said, "quick out of bed,
For 5 I've given warning;
You'll never have health, you'll never have wealth,
Unless you're up soon in the morning!"

Still hourly the sound goes round and round,
With a tone that never ceases;
While tears are shed for bright days fled,
And the old friends lost forever;
Its heart beats on—though hearts are gone,
Yet love still lives the stronger;
Its hands still move—though hands we love
Are clasped on earth no longer!
"Tick! tick!" it said—"to the churchyard bed,
The grave hath given warning;
Up! up! and rise, and look at the skies,
And prepare for a heavenly morning!"
—New England Grocer.

HIS LITTLE JOKE

The girl with the hat that had a huge cabbage rose on it permitted a frown to gather on her brow. "Always," she said, slowly and distinctly, "I have thought that I disliked people who play practical jokes and now I know it is even worse. They arouse a deadly hatred in me!"

"You talk like a cheap melodrama," remarked the girl with the angelic eyes.

"Melodrama nothing!" remarked the girl with the cabbage rose. "It's a tragedy, nothing less! I suppose Bert Randall thought he was justified because I had been boasting that I was too sharp to be taken in by any ordinary sell—and then he never did like the minister anyway! If only I could lay my hands on him a minute to find out——"

"I've often wondered which of the two you liked the better," interrupted the girl with the angelic eyes. "Did the joke help you to find out?"

"Don't be silly!" said the girl with the cabbage rose.

"I was called to the telephone yesterday," she went on, "and a curt voice announced that the speaker was a newspaper reporter who desired to verify a notice his paper had received to the effect that my engagement to the Rev. Mr. Fairman was just announced. I nearly choked in my hurry to assure him there must be a mistake, that it wasn't so at all, and for godness' sake not to print any such dreadful thing. He was very nice and said if the announcement was premature the paper had no desire to print it.

"I broke in to explain that it wasn't premature and then he broke in to inquire in an injured voice why if it was so I objected to the publication. Then I had to explain in detail that it wasn't premature because it wasn't so at all and wasn't going to be so.

"He said that sometimes one could not tell and that he really could not understand why such a notice came in if there wasn't some truth in it. So there we stood and quarreled about it. I was getting madder and madder at the universe in general—at the reporter for his persistence, at the Rev. Mr. Fairman for ever existing on the same earth with me and, most of all, at whoever had sent in such a dreadful announcement!

"Just when I was almost crying there was a break in the even, polite tone at the other end of the wire and like a flash of lightning it burst upon me that no one but Bert Randall had that particular little quaver when he was trying not to laugh.

"You think you're mighty clever, Bert Randall, don't you?" I asked, with hysterical calm. But he wouldn't give in. He said he really couldn't understand me. So I said neither could I understand him. Then I hung up the receiver.

"I wanted to cry and I wanted to laugh—because it was so cleverly done. Don't you think Bert is dreadfully bright?"

"Oh, horribly!" cheerfully agreed the girl with the angelic eyes.

"Well, in a couple of hours the phone rang again and this time the voice announced calmly that the speaker was the Rev. Mr. Fairman and he wished to inquire about something rather odd. I just flared at out at that. I thought Bert was going rather too far. I knew it was Bert because Mr. Fairman never called me up on the phone but once in his life and that time it was about the bazar.

"I determined to give Bert a little excitement, so I answered in a sweet, smooth voice and said I supposed it was in regard to our engagement. I asked if he knew the papers were to print the announcement the next day. Bert played his part to perfection. He seemed politely troubled and murmured that he had not been aware of the fact. I called him dearest and scolded him about his forgetfulness. That confused him so he couldn't say a word. Then I piled it on.

"I called him Chauncey—that's Mr. Fairman's name, you know—and said I had simply been counting the minutes since I saw him last. I asked when he would be up again. I mourned over the publicity when the world found out about our engagement and asked if he thought we'd be just as much to each other as before.

"Then I paused a moment to let it sink in, after which I asked Bert if he had enough and would call it quits. He said he thought it would be lots better to call it quits, but he really did not understand. I told him it was no wonder, because his brain was not constructed to stand so much strain in one day and that after all I thought the joke was on him. He said it certainly seemed to be. Then I got tired and hung up the receiver, for Bert's fun goes about so far and then he gets kind of stupid."

"There certainly wasn't very much point to it," said the girl with the angelic eyes.

* * * * * *

The girl with the cabbage rose regarded her mournfully. "I haven't told you the point yet," she said in a stifled voice. "You see it really was the minister who called me up the second time. At last when I got Bert on the phone to-day to tell him again what I thought of him, he vowed and protested that he had called me up only once yesterday and if the other man said he was Mr. Fairman he was Mr. Fairman, for all he knew to the contrary. And the wretched part of it is that I don't know whether or not to believe him! He may be still joking, you know."

"And then again he may not!" said the girl with the angelic eyes. "I think I'd run whenever I saw the minister coming, if I were you!"—Chicago News.

SUBSTITUTES FOR AIR TIRES.

Efforts to Replace the Pneumatic Tube.

"Inventors may come and inventors may go," says the Motor World, "but the penumatic tire goes on forever, seems to represent in a nutshell the status of the present universally used type of tire and of the horde of inventors who are vainly trying to displace it with something that shall possess all of its advantages, but lack its defects. While the history of great inventions clearly shows that it is never safe to deride a device or its inventor regardless of how bizarre or far-fetched his idea may appear at first sight, there would seem to be little of permanent value in the mass of spring devices that are now appearing so constantly as to run a close second to the non-refillable bottle and the rotary engine in the patent records.

"People, great and small, learned and otherwise, ridiculed the telegraph and the telephone to a far greater extent than is the lot of the airship of to-day, and not alone the average tire user, but the tire maker without exception, regards with amused contempt the thousand and one attempts to utilize wierd and freakish combinations of springs and rubber to obtain the degree of resiliency that experience thus far has demonstrated is only possible with rubber and canvas-confined air. There are two fundamental principles upon which rest the value of the pneumatic tire—the extreme elasticity of compressed air, in which respect it is equalled by no other known substance, and the fact that this indicpensable quality is applied directly at the place where it is most required—the point of shock.

"Many of the devices that have come and gone in the past year or two have had incorporated in their make-up one or the other of these principles. Many have placed the springs about the rim in the attempt to concentrate the desired effect where most wanted; others have employed rubber confined air about the hub and yet others have virtually placed a pneumatic tube beneath a solid rubber tire, only altering the construction of the wheel itself to the extent necessitated by the changed form of rim. With the exception of the last, which it realy a form of pneumatic tire, neither of the most numerous classes have embodied both of these sine qua non, without which the results now afforded by the pneumatic tire are impossible.

"Whether a device that will do so effectively will ever materialize, or whether one of the army of geniuses that is laboring to this end will succeed in discovering some totally new method of achieving this much desired result is a subject upon which it is not easy to predict. One thing is certain, and that is that no great amount of progress has been forthcoming as yet, and that little or none is to be expected from further adherence to the ideas that have been proven to be fallicies time and again. It would doubtless be better for those most interested if the slate could be wiped clean and a new start made."

Real Estate in Korea.

One of the most astonishing regulations has been made regarding the transfer of real estate in Korea. No one is to be allowed to sell or buy real estate except by express permission of the Governor. This is apparently a move on the part of the Japanese to prevent the selling of any land in Korea except to people that they approve, for the Governors are, of course, under the Japanese advisers. It makes no difference that foreigners have as good a right to buy land as the Japanese. The matter will have to be tested in the court before the Powers will allow their citizens to be curtailed in their privileges in the peninsula.—Korea News.

THE PULPIT

A SUNDAY SERMON
BY THE REV. IRA W. HENDERSON, THE FAMOUS DIVINE.

Subject: Jesus Christ.

Brooklyn, N. Y.—Preaching at the Irving Square Presbyterian Church on the theme, "Jesus Christ," the Rev. I. W. Henderson, pastor took as his text John 1:14: "And the word was made flesh and dwelt among us." He said:

The character and career of Jesus Christ are the ground of human hope and the basis of mankind's belief in His power as the Saviour.

His life, as the evidence of the sincerity of His speech, is the source of His success.

The outward action of our Master is the signal and the surety of His inward healthfulness of heart. In His life, precept and practice were at coincidence. With Him thought and deed always were concurrent. His words conveyed His real intentions and His innermost ideals. His language was to lead men unto eternal life and was never used to conceal a wicked thought.

Preaching a gospel of light unto the salvation of the world and proclaiming His personal sufficiency as the Saviour of mankind from sin, Jesus Christ talked truth, walked true, died on Calvary, in devotion to His divine commission, unto the saving of the souls of sinners.

The life of Jesus is remarkable, not only as it reveals His oneness with divinity, but also as it shows to us what qualities of manhood are potent for a real success. Tackling the mightiest problem in the world the Christ exemplifies what are the means that we should use to win success in all our lesser strife. He teaches us a lesson that should count for much in all our daily doings; which should make us forceful factors which shall lead men up to God; which should push us ever nearer to His holiness and grace.

The life and the death, i. e., the career of Jesus Christ, reveal to us four divine qualities of character that every man should possess. In His downright earnestness; in His fiery intenseness; in His clear cut, sharp directness; and in His faithfulness to the truth and to His trust, the Friend of humanity leads every man successward, if he will to go.

The earnestness of Jesus Christ is a secret of His power. Tendering to men a surety of eternal life, He did not fool their time or His own away. Professing a pledge of upliftment from the depth of sin, He held His word in serious regard. The salvation of the world was not mere child's play, but a whole man's, yea, the God-man's, labor. The need was for a man who was dead in earnest. Such a man was the Christ.

Earnestness made Christ a winner. Clearness of vision as to His mission would have been of none effect had the Christ been weak of will. Love for men and loyalty to His Father made strong demand for earnestness. The pluck and the push of the Master secured the consummation of His purpose. Irresolution would have merited defeat, and it would have gained our Lord oblivion. Lack of zeal would have lost the Christ to history. But for His earnestness and determination the story of His virtues never would have reached our ears. Earnestness made Christ push the fight into the country of the enemy; courage and resolution won Him fame and secured Him in His place of glory in the Father's home.

With a fiery intenseness Jesus battled for the souls of men. His was no lukewarm, milk and water, blow hot and blow cold, half-hearted enthusiasm. The Christ was always ardent. His spirit never cooled, but was ever at a rich, white-heat. His was enthusiasm compounded. Believing, as He did, that the happiness of the human heart and the saving of the human soul are the main concerns of human life, our Lord had ever a zeal that was glowing. Trusting in the power of divine aid and knowing the need of the human race to be saved from sin, Jesus Christ was as full of earnestness as He was of grace and truth. Grace is good; truth is a talisman of might, but grace and truth need grit and fire ere they do their greatest work. Iron is a mineral of worth, but for battle give me tempered steel. Men of muscle are goodly to the sight, but for action send me out the man of courage and the souls who want to win.

But with all His earnestness and intenseness the Saviour made unerring aim. Directness was not the least of His commendable traits. The need was for good marksmanship and a sure sight. Sin was at the centre of the world's distress and to hit the middle of the target was the mission of the Christ. Jesus never minced matters when He dealt with sin. Without care for the consequences and with no circumlocution our Lord let loose His flaming wrath upon the works and the workers of iniquity. His was no uncertain, wavering voice. The fear of the outcome of His fierce denunciation of spiritual and moral lawlessness was foreign to His heart. Clear, sharp, with an incisiveness that cut to the very core of the matter, He stated the fundamental propositions of the Kingdom of our God and then made His enemies admit the power of His points. His was no halting, thin-toned statement of eternal virtues. Feeling within the deepest recess of His heart that sin was the cause of man's suffering and knowing that a re-birth was necessary to a full salvation, the Master sent forth those firm, direct and forceful messages that have been the object of the curses of a few and the hope and inspiration of a mighty and unnumbered host who do honor to His name.

To supplement His earnestness and flaming directness Jesus added surpassing faithfulness. Faithfulness is but a simile for steadfastness. To be faithful is to have a cordial certainty that the right must win and also to be ready to stand firm and valiant for the truth until righteousness shall prevail. The Christ was pre-eminently faithful. His was the incorruptible devotion to the demands of duty which should be the ideal of us all. To Him we must turn do we wish to see the ideality of service. From Him must we learn would we get the wisdom that shall gain us our ambition's goal. Sitting at the feet of the Master do we enter into knowledge of a fine fidelity which commands respect.

Earnestness, intenseness, directness, faithfulness—these are the four words that point the lesson for us now. To Christians and to the Christless souls of the universe of God, the Saviour is the interpreter of the salient qualities that are necessary for a life's successes. He it is who illustrates and objectifies for us what our lives should be.

The need for these cardinal virtues was never more evident or well voiced than in this day. In the world of business they are no less needed than in those religious spheres where moral and spiritual verities are uppermost. The necessity for the exercise of these qualities that make for manly might is everywhere apparent. To the man who would attain business predominance and commercial power they are invaluable and indispensable. Deduct the moral criminality which has made possible the success of many of the industrial and financial leaders of our day and the fact that their influence is largely based upon indomitable pluck and energy and dutifulness still outstands all else. Backbone and push have been the reason for the rapidity in advancement of a throng. A clean bull's eye gains applause for the man with the hand and the true sight. Directness brings to a man the confidence of the crowd. Half-heated, poorly-fired, swaying, swerving, irresolute men without sense or sand enough to be true to anything for any considerable length of time never reach the top, never attain, never are lifted to a place of power. The world has small use for moral weaklings or men without spunk and grit, at the front.

These characteristics which we have denominated as among the distinguishing features in the Christ's career are most essential, however, to the man who would reach the highest usefulness and be most a blessing in the world. Needful as these qualities may be to those who would be famed for physical and material achievement they are still more requisite for those who desire spiritual graces. Especially are they compulsory and mandatory for those who have not acknowledged Christ and would wish to call Him Lord. The soul's restoration depends entirely upon the willingness of the sinner to seek salvation earnestly and in faith. Spiritual baptism is the gift of the Father to those only who come straight to the point. Excuses and attempts at palliation of our personal guilt merely delay the crisis. Extenuation and mitigation are of none avail. Decisive and conclusive yielding of the heart to the Master is the one concession that will bring a spiritual surcease from the woe of a wicked life. Earnest endeavor to be faithful to the trust of the Christian Sonship gives growth and greatness in the spiritual life.

These gospels from the life of our Lord have special bearing upon the activities of the church. The church of Christ is not so earnest, not so intense, not so faithful, as she should be in the spreading of the seed of salvation. The church has lessened her directness too much in her attacks upon the strongholds of sin. We have been content with mediocrity while the devil has gained ascendance. The church, to be the agent for godliness that she is called upon to be, must get down to business. Half-heartedness puts the flag of the Christ at half-mast. We must nail our colors at the top and keep them there.

Directness demands clean-cut, unwavering work done with faithfulness, fidelity and with hoping hearts. The church, each of us and all of us together, must cease to be satisfied with poor work or none. The salvation of our own souls and the procuring of temporal and eternal blessings for ourselves is not enough.

Are we to attain success, as an organization, in the spiritual work that counts, we must be all on fire with the desire to save men's souls, and to bring happiness to their hearts and lives while here.

Lack of zeal will condemn us as unworthy. Feeble fire proves remissness. A poor aim lays us open to the enemy's assaults. Unfaithfulness is unworthy of us and will meet the condemnation of our God.

Celestial Investments.

Everyone who is so happy as to get to heaven will have in God's presence "fullness of joy" and at His right hand "pleasures for evermore," but that does not say that they will all have joys and pleasures alike. A pint cup may be full to overflowing. A quart cup may be full to overflowing. But the quart cup holds more. The Bible makes it very plain that there will be differences among the redeemed. Some will be saved "so as by fire." It speaks of "greatest" and "least" in the kingdom of heaven, and of some as having an "abundant entrance," and distinctly tells us to "lay up for ourselves treasures in heaven," thereby assuring us that it is both possible and worth our while to do so.—Rev. G. B. F. Hallock, D. D.

Essential to Christian Character.

Giving is essential to the completeness of Christian character. It is the crowning grace because it is the manifestation of the highest excellence. It is the result of sympathy, unselfishness, of contact with Christ, of drinking in of His Spirit. —Dr. Alexander Maclaren.

THE SUNDAY SCHOOL.

INTERNATIONAL LESSON COMMENTS FOR DECEMBER 16.

Subject: Jesus Risen From the Dead, Matt. xxviii., 1-15—Golden Text, Matt. xxviii., 6—Memory Verses, 5, 6—Commentary.

I. The women at the tomb (v. 1.) 1. "End of the Sabbath." After the Jewish Sabbath was past. "To dawn." The women probably left their homes at different times. "First day of the week." Christ was in the tomb part of Friday, all day Saturday and part of Sunday. The first day of the week—the resurrection day, which was called by John the Lord's day, has always been observed by Christians as the Christian Sabbath. "Mary Magdalene." She was a native of Magdala, a town on the Sea of Galilee, and was foremost among the honorable women. "The other Mary." This was Mary the mother of James the Less and Joses.

II. The opened sepulchre (v. 2). 2. "Earthquake." The earthquake and the resurrection took place previously to the arrival of the women. There was also an earthquake at the time of Christ's death (Matt. 27:51). "Angel of the Lord." Luke says "two men," John says "two angels," while Mark agreeing with Matthew as to the number speaks of him as a "young man." These evangelists evidently speak only of the one who did the speaking. "Rolled back." Not that Jesus could not have burst the barrier; but the ministry of angels was necessary to give form to the transaction to human conception.

III. The angel and his message (vs. 3-7). 3. "Countenance." In the original this word refers not only to the face, but to the general aspect. "Lightning." In vivid and intense brightness. "White." This was heavenly apparel. 4. "The keepers." The Roman guard. "Did shake." The appearance was sudden and unexpected. "As dead men." It is very probable that the splendor of a glorified body is always sufficient to overwhelm the senses and prostrate the strength of a living mortal. See Dan. 8:27; Rev. 1:27. 5. "Said unto the women." The angel who sat upon the stone had entered the tomb as the women drew near.

6. "Not here." Tombs and Roman guards and seals could not hold the Prince of Life. "Is risen." The manner of the reuniting of Christ's soul and body in His resurrection is a mystery, one of the secret things that does not belong to us. "As He said." See Matt. 16:21; 17:23; Luke 9:22, 44, 45; 18:31-33. "See the place." Pointing doubtless to the particular cell in the tomb. 7. "Go quickly." The resurrection did two things: 1. It revived the dead hopes of the disciples. It was a time of gladness and brought (1) joy, (2) victory, (3) faith. Only the fact of the resurrection can account for the marvellous change that came to them, by which they were filled with courage to suffer and die. 2. The resurrection brought hope to humanity: (1) It brought the hope of immortal life. (2) It gives assurance of our own resurrection. (3) Christ is alive and is thus able to make His promises good to us. (4) The risen Lord is the remedy for every trouble. (5) The fear of death and the grave is removed. "Tell His disciples." Instead of anointing Him as dead they may rejoice in His being alive from the dead.

IV. Jesus appears to the women (vs. 8-10). 8. "With fear." Fear at what they had seen, joy at what they had heard. 9. "Jesus met them." This was the second appearance. The first appearance was to Mary Magdalene (Mark 16:9). It seems that when she told Peter and John of the empty tomb they at once ran to the sepulcher to see for themselves (John 20:2-10), and she also returned at once to the tomb. During her absence the other women had received their commission from the angel and had hurriedly left. Peter and John soon left also, and Mary remained alone at the tomb weeping. It was then that Jesus appeared unto her (John 20:11-18). Later in the morning Jesus met the other women who had gone to tell the disciples, who were probably scattered and may have been some distance away. "All hail." Literally, rejoice; the Greek salutation on meeting and parting. "Worshiped Him." By falling on the knees and touching the ground with the forehead.

10. "Shall they see Me." This public appointment was made in order that the whole body of disciples might meet the risen Lord.

V. The Roman guard bribed (vs. 11-15). 11. "The watch." We suppose the quaternion or guard of four soldiers. 12. "Taken counsel." They probably had a hurried, informal meeting to consider the best course to pursue. "Large money." It took a large bribe to induce them to thus criminate themselves. 13. "While we slept." The absurdity of this position is apparent: 1. The disciples could not have stolen Jesus away had they attempted it. 2. The disciples were as much amazed at the news of the resurrection as were the priests. 3. The Roman soldiers set to watch Jesus' tomb would not all be asleep at the same time. 4. The council could not have voted large sums of money merely to have reported a truth. 5. Sleeping soldiers could not know what took place.

14. "Will persuade him." Perhaps by bribes or by threatening to report his evil deeds to the Roman emperor. "Secure you." From the penalty of sleeping on guard, which was death. 15. "Until this day." The story started by the soldiers was reported until the time of the writing of this account by Matthew.

Government Can't Interfere.

Mr. Rayner introduced resolutions declaring that the Senate believed the Federal Government had no right to interfere with the exclusion of Japanese from the San Francisco schools.

Porto Ricans Wish Citizenship.

Governor Winthrop, of Porto Rico, and Senor Larrinaga, Porto Rican delegate to Congress, said that the islanders want United States citizenship and a protective tariff on coffee.

NO MEDICINE

...But Change of Food Gave Final Relief.

Most diseases start in the alimentary canal—stomach and bowels.

A great deal of our stomach and bowel troubles come from eating too much starchy and greasy food.

The stomach does not digest any of the starchy food we eat—white bread, pastry, potatoes, oats, etc.—these things are digested in the small intestines, and if we eat too much, as most of us do, the organs that should digest this kind of food are overcome by excess of work, so that fermentation, indigestion, and a long train of ails result.

Too much fat also is hard to digest and this is changed into acids, sour stomach, belching gas, and a bloated, heavy feeling.

In these conditions a change from indigestible foods to Grape-Nuts will work wonders in not only relieving the distress, but in building up a strong digestion, clear brain and steady nerves. A Wash. woman writes:

"About five years ago I suffered with bad stomach—dyspepsia, indigestion, constipation—caused, I know now, from eating starchy and greasy food.

"I doctored for two years without any benefit. The doctor told me there was no cure for me. I could not eat anything without suffering severe pain in my back and sides, and I became discouraged.

"A friend recommended Grape-Nuts and I began to use it. In less than two weeks I began to feel better and inside of two months I was a well woman and have been ever since.

"I can eat anything I wish with pleasure. We eat Grape-Nuts and cream for breakfast and are very fond of it." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

STUDIED DANCES OF INDIANS.

Gabrielle Spent Years in Effort to Trace Origin of Gyrations.

Gabrielle spent nearly two
among the Indians of America
ing their dances to see if he
discover from their gyrations
e to their origin.

He found among the Pueblos forms
h convince him that their re-
s dances were of Chinese, or at
of Oriental origin, while he firm-
was convinced that the Apaches de-
their war dances, their sun
s and other ceremonial dances
Asiatic forms.

Among the northern Indians he de-
es he found semblance to Ice-
ic—and therefore Norge dances—
traces of old Jewish ceremonial
es, especially in their council
ge dances.

The ancient dance of the Eskimos
a chief feature of their festivals.
natives formed in a group, in
center of which stood the chief
former.

He sang a weird song, beating time
a drum, gesticulating and dancing
a madman.

Sometimes the song was meant
ely for the entertainment of the
pany, who held hands and circled
ound him like children do when they
y "Frog in the Meadow."

But generally the song and dance
a ceremonial, if not religious,
significance. The man in the center
anted a satirical "nith song" against
nother Eskimo, who made signifi-
ant responses.

Perhaps the strangest of dances is
at of the wild Hairy Ainu, the
ountain savages of Japan. In one
their few public semi-religious fes-
als the girls put on long yellow
wns painted with rude splotches
white and red, and with a mottled
e cloth slung over their backs. The
significance of this peculiar garment
as not been revealed to travelers
ho have seen their dances.

Two little children are placed in
e center of a cleared circle, and
e oddly dressed Ainu girls go
ound and around, calling out cer-
n words repeatedly and hopping al-
ys on one foot.

The dance in a slight way is said
resemble the "Sir Roger de Cover-
," and, though it is uncouth and
rbarous to a degree, it is not with-
t a certain wild beauty.—Chicago
Tribune.

Lava, it is said, retains its heat
nger than any other known sub-
tance. It has been known to re-
ain at boiling point a foot below its
urface for fifty-three years.

In the opera of Salambo as many as
1,600 people have appeared on the
stage at one time. This was at the

NO MEDICINE

at Change of Food Gave Final Relief.

Most diseases start in the alimen-
tary canal—stomach and bowels.

A great deal of our stomach and
bowel troubles come from eating too
much starchy and greasy food.

The stomach does not digest any of
the starchy food we eat—white bread,
pastry, potatoes, oats, etc.—these
things are digested in the small in-
testines, and if we eat too much, as
most of us do, the organs that should
digest this kind of food are overcome
by excess of work, so that fermenta-
tion, indigestion, and a long train of
ills result.

Too much fat also is hard to di-
gest and this is changed into acids,
sour stomach, belching gas, and a
bloated, heavy feeling.

In these conditions a change from
indigestible foods to Grape-Nuts will
work wonders in not only relieving
the distress, but in building up a
strong digestion, clear brain and
steady nerves. A Wash. woman
writes:

"About five years ago I suffered
with bad stomach—dyspepsia, indi-
gestion, constipation—caused, I know
now, from eating starchy and greasy
food.

"I doctored for two years without
any benefit. The doctor told me
there was no cure for me. I could
not eat anything without suffering
severe pain in my back and sides, and
I became discouraged.

"A friend recommended Grape-
Nuts and I began to use it. In less
than two weeks I began to feel better
and inside of two months I was a
well woman and have been ever since.

"I can eat anything I wish with
pleasure. We eat Grape-Nuts and
cream for breakfast and are very
fond of it." Name given by Postum
Co., Battle Creek, Mich. Read the
little book, "The Road to Wellville,"
in pkgs. "There's a reason."

Equal to the Emergency.

"So you break our engagement, Gwendolin!" he exclaimed, bitterly. "Then is your promise let me end the life which you have blighted!"

Drawing forth a vial marked "poison," he put it to his lips, and drained it to the last drop. As he sank back unconscious, did the beautiful girl fling herself upon his breast in an agony of remorse and burst forth into frenzied sobs? Scarcely!

Hastily quitting the room, she returned presently, her lovely face tragic, yet composed. Kneeling beside the young man she forced between his lips the following: (1) One cup of turpentine; (2) one pint of milk; (3) a bowl of warm soapsuds; (4) a small bottle of aromatic ammonia; (5) a cup of black coffee; (6) a glass of mustard water; (7) a gill of vinegar; (8) juice of a lemon; (9) the beaten whites of six eggs; (10) one cup of flour and water.

"Algenon," she observed, as he began to revive, "it is evident you did not know that I am a graduate of a correspondence course in first aid to the injured. My one regret is that, since it was impossible for me to ascertain whether the poison you took was an acid or an alkali, I was compelled to administer all the antidotes of which we had learned."—Woman's Home Companion.

What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription."

The answer is that "Golden Medical Discovery" is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous diarrhea), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections, it is often successful in affecting cures.

The "Favorite Prescription" is advised for the cure of one class of diseases—those peculiar weaknesses, derangements and irregularities incident to women only. It is a powerful yet gently acting invigorating tonic and nervine. For weak worn-out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulæ of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.

The words of praise bestowed on the several ingredients entering into Doctor Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof they speak.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native, American medicinal forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines of known composition, any secret nostrum.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

Paper From Cotton Stalks.

The manufacture of paper from the fiber of cotton stalks is one of the latest inventions which are said to have passed the experimental stage. It is asserted that all grades of paper, from the best form of linen to the lowest grade, can be manufactured from cotton stalks. In addition to this, a variety of by products, such of alcohol, nitrogen, material for gun cotton and smokeless powder can also be secured in paying quantities. Mills for the use of cotton stalks in that way may become general in the cotton-growing states. It is estimated that on an area of land producing a bale of cotton, at least one ton of stalks can be gathered. Upon this basis, from 10,000,000 to 12,000,000 tons of raw material could be secured for the production of paper, which would increase the value of the South's cotton crop nearly $10,000,000. A company has been organized under the laws of the State of Maine, with a capital stock of $15,000,000, preferred and common, for the purpose of manufacturing pulp and paper from cotton stalks.

Wicked Johannesburg.

Miss Agnes E. Slack, of London, secretary of the World's Christian Temperance Union, said that Johannesburg is about the wickedest spot on earth. The very air there seemed to her charged with the fever of accumulating wealth from the gold mines, and society from top to bottom is dishearteningly sordid. In the Dutch districts, where the people make their living growing grapes for the wine markets of Europe, she said the negroes are generally paid part of their wages in intoxicants, with the result that they all become beastly drunk several times a week. Ladysmith, she said, with all its monuments and graves on the mountain around, is a gloomy settlement.

The Western provinces of Cape Colony, she said, are exquisitely beautiful, and several of the towns literally blazed with gloriously colored flowers. Purples, reds, pinks and yellows there mingled in brilliant profusion. Ferns that are rare in Western hothouses grow there in abundance.—Baltimore Sun.

So long ago as 1792 Wr. Murdoch possessed a small steam carriage lighted with coal gas.

When making pie crust use little water and fold often.

A pinch of grated nutmeg added to potato croquettes impress them.

Suffer in Silence

Thousands of Women

suffer every month in silence, tortures that would drive a man to the edge of despair. The ailments peculiar to women are not only painful but dangerous and should receive prompt treatment before they grow worse. If you suffer from pain, irregular functions, falling feelings, headache, side ache, dizziness, tired feeling, etc., follow the example of thousands of women who have been relieved or cured, and take Wine of Cardui.

Good Manners.

An ambassador of a well-known European monarch was riding in the streets of Constantinople when one of the Sultan's carriages rolled by. Seeing it was guarded, his curiosity got the better of him, and when the carriage reached him he was daring enough to peep in at the passenger.

He was surprised and pained to receive a blow in the face from an attendant in charge. Mad with rage, he demanded audience of the Sultan.

The Sultan listened attentively, and for a moment appeared lost in thought. At last he spoke: "My dear———, I have gone carefully into the case and see exactly how it stands. You are, of course, a gentleman, therefore you would never have committed such a breach of good manners as you allege to have taken place. Therefore no attendant could possibly have struck you. The whole affair seems to be a product of your fancy. Let us dismiss it."

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle

A German-Made Town.

According to Consul Jones, in Dalny Manchuria, the Germans have done a to be the greatest number of bricks Tsingtau, China, which is in their hands. The authorities have been conducting a department of forestry and the barren hills of a few years ago are now covered with young forests. Millions of young trees have been set out, and the work has been taken up by the Chinese.

Just outside the city the Germans have built a model village for the Chinese, with broad streets and small but well-constructed brick houses. There are regulations which require the city to be kept clean and they are obeyed. The Chinese have plenty of breathing space and there is no crowding.

The health of the city is always good. Strict hygienic methods are enforced. The city is surrounded with beautiful drives and everything bears evidence of the strictest care. Recently the Germans have opened a European school. There is a model abattoir presided over by a competent veterinarian. The abattoir is fitted with all modern appliances. The The most scrupulous cleanliness prevails. A model truck farm and dairy also add to the comfort of the people.

A business done directly with the United States is the exportation of straw braid. This staple has been diverted from other ports in China. Tsingtau has now become the principal market for straw braid.

The Right to Live.

At the age of fourteen Harold's father gave him a ten thousand-dollar motor car.

Harold was delighted.

He ran it about for several months to the exclusion of everything else.

After this Harold wanted another. He got it.

Next year Harold went in for motor boats. In a couple of years more, however, they had worn themselves out.

At twenty Harold was married. Divorced at twenty-two.

To sum up: At thirty there was nothing else for him to do. He had done every pleasure. And there were no new ones being invented.

Suddenly, however, Harold"s parents died and left him fifty millions.

He was about to despair there being no use for the money, when suddenly he realised that the world at large hated and despised him.

"At last," said Harold with a sense of supreme satisfaction, "I am happy once more. I have a new sensation."—Life.

In Manchuria and Mongolia are many dog farms, where dogs are bred simply for their fur.

Steamed puddings are much improved by standing a few days before serving.

The Fiji group of islands, which were annexed in 1874, number 220, all of volcanic origin.

An Old Medicine.

"Ground oyster shells," said the physician, as he squeezed a lemon over his blue points, "were used as a medicine by the mediaeval doctors—a medicine for the rickets and scrofula."

"How absurd!"

"Absurd? Not at all. Oyster shells contain lime, nitrogen, iron, sulphur, magnesia, bromide, phosphoric acid and iodine. Those are all excellent tonics.

"You know how hens eat ground oyster shells and thus produce eggs with good, thick, strong shells? Well, as the oyster-shell powder acts on eggshells so I have no doubt it acted in the middle ages on the bending, crumbling bones of the rickety, putting strength and firmness into them.

"Ground oyster shells, I am convinced, would be good things for frail children today. They would strengthen the frame, increase the appetite and have a splendid effect on the teeth."—Philadelphia Bulletin.

Succession to Austrian Throne.

In connection with the death of Archduke Otto, second nephew of the Emperor Francis Joseph, it is interesting to take note of the curious chain of succession to the throne of Austria. When Archduke Franz Ferdinand, who was heir to the throne after the death of Prince Rudolph, contracted a morganatic marriage with the Countess Choteh, and so lost the right of transmitting the succession Archduke Otto became heir-presumptive. It was soon evident, however, that if ever he came into the order of succession he would be forced to renounce it in favor of his son Archduke Karl, now 19. Thus it comes about that while the present Emperor was the nephew of the Emperor Ferdinand, he will in all probability be succeeded by Archduke Franz Ferdinand, his nephew, and he in turn by his nephew Franz. London Globe.

French horticulturists have apparently been very successful of late in raising dwarf trees, and one of the features of dinner parties among the rich now is to serve the fruit upon the tree.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Take Hall's Family Pills for constipation.

It is now the custom in New York City, with few exceptions, for girls to attend the public schools without wearing hats. On pleasant days there is only one hat to about twenty girls.

Worth Knowing.

That Allcock's Plasters are the highest result of medical science and skill, and in ingredients and method have never been equaled.

That they are the original and genuine porous plasters upon whose reputation imitators trade.

That they never fail to perform their remedial work quickly and effectually.

That for Weak Back, Rheumatism, Colds, Lung Trouble, Strains and all Local Pains they are invaluable.

That when you buy Allcock's Plasters you obtain the best plasters made.

Watching His Coat.

An engineer from Sunderland was spending a few days in London with a friend, and after a busy morning sightseeing the Londoner chose a large restaurant for luncheon, thinking it would be a novel experience for the man from the north. The visitor appeared to enjoy his luncheon, but kept looking in the direction of the door. "What are you watching?" asked his friend, rather annoyed.

"Well," was the quiet reply. "A's keepin' an eye on ma topcoat."

"Oh, don't bother about that," said the other, "you don't see me watching mine."

"No," observed the guileless engineer, "thee has no call to—it's ten minutes sin' thine went."

European river or lake steamers use a horizontal engine and all of them are long, low, rakish craft, much faster than American boats, in addition to being safer.

The Turkish bath was introduced into England about fifty years ago by the eastern traveler, David Urquhart.

FACE ALL BROKEN OUT.

Troubled Almost a Year — Complexion Now Perfect and Skin Soft, White and Velvety.

"I had been troubled with a breaking out on my face and arms for almost a year and had the services of several physicians, but they didn't seem to do any good. Some time ago one of my friends recommended Cuticura to me. I secured some, and after using it several months I was completely cured. I can highly recommend Cuticura Soap as being the very best complexion soap made. It creates a perfect complexion, leaving the skin soft, white, and velvety. I now use Cuticura Soap all the time and recommend its use to my friends. Maud Loggins, R. F. D. No. 1, Sylvia, Tenn., Aug. 1, 1905."

TYNER'S DYSPEPSIA REMEDY.

Many Have Dyspepsia and don't Know It Read Symptoms.

Do you belch up wind? Do you taste your food for an hour or more after eating? Do you see specks or haze before your eyes? Are you pale and haggard? Does your heart flutter? Are you dizzy at times? Do you have pains in side or back? Do you have risings or pimples on the skin? Are you low spirited? Is there a sour taste in your stomach? Is your breath bad? If so you have Dyspepsia, and it is a dangerous condition, don't delay, but take Tyner's Dyspepsia Remedy as directed on label. It is made for just such troubles and symptoms. Tyner's Dyspepsia remedy removes acids from the stomach, strengthens weak stomachs, helps digest your food, stops all achs and pains, stops fluttering of the heart, (sometimes called heart disease.) By making the food digest, new blood is made and all pimples disappear. Tyner's Dyspepsia Remedy, sold by druggists, 50c a bottle. Money refunded if it fails to cure. Sold in Clanton by Florence Drug Store: call or write; remedy sent by express.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says:— "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.

F. O. DUDLEY, Postmaster.

GIVEN UP TO DIE.

B. Spiegel, 1204 N Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Upchurch Drug co

GINNING SEASON 1906-7.

Having engaged Joe and Walter Maddox to run and operate our gins for the coming season, we solicit your patronage.

Respectfully,
Chilton Warehouse & Mfg. Co.

A Home Made Happy by Chamberlain's Cough Remedy.

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bronchitis. We had two doctors but no relief was obtained. Everybody thought she would die. I went to eight different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I try Chamberlain's Cough Remedy. I did so and our baby is alive and well today.—Geo. W. Spence, Holly Springs, N. C. For sale by Upchurch Drug co. Clanton, A. Horn, Thorsby.

PUBLIC SPEAKER INTERRUPTED.

Public speakers are frequently interrupted by people coughing. This would not happen if Foley's Honey and Tar were taken, as it cures coughs and prevents pneumonia and consumption. The genuine contains no opiates and in a yellow package. Upchurch Drug co.

Orino Laxative Fruit Syrup, the new Laxative, stimulates, but does not irritate. It is the best Laxative Guaranteed or your money back. Upchurch Drug co

$125 Reward.

The above reward will be paid on delivery of John Baker, colored, to the Sheriff of Chilton County, Ala., wanted for the shooting of W A. Pool, April 14, 1906. Height 5 f 8 in.; weight about 165 lbs; age 45 years; black skin. J. M. MORGAN, Sheriff Chilton County, Ala

Foley's Honey and Tar cures the most obstinate coughs and expels the cold from the system, as it is mildly laxative. It is guaranteed. Do not risk taking any but the genuine in the yellow package. Upchurch Drug co.

FOLEY'S HONEY AND TAR

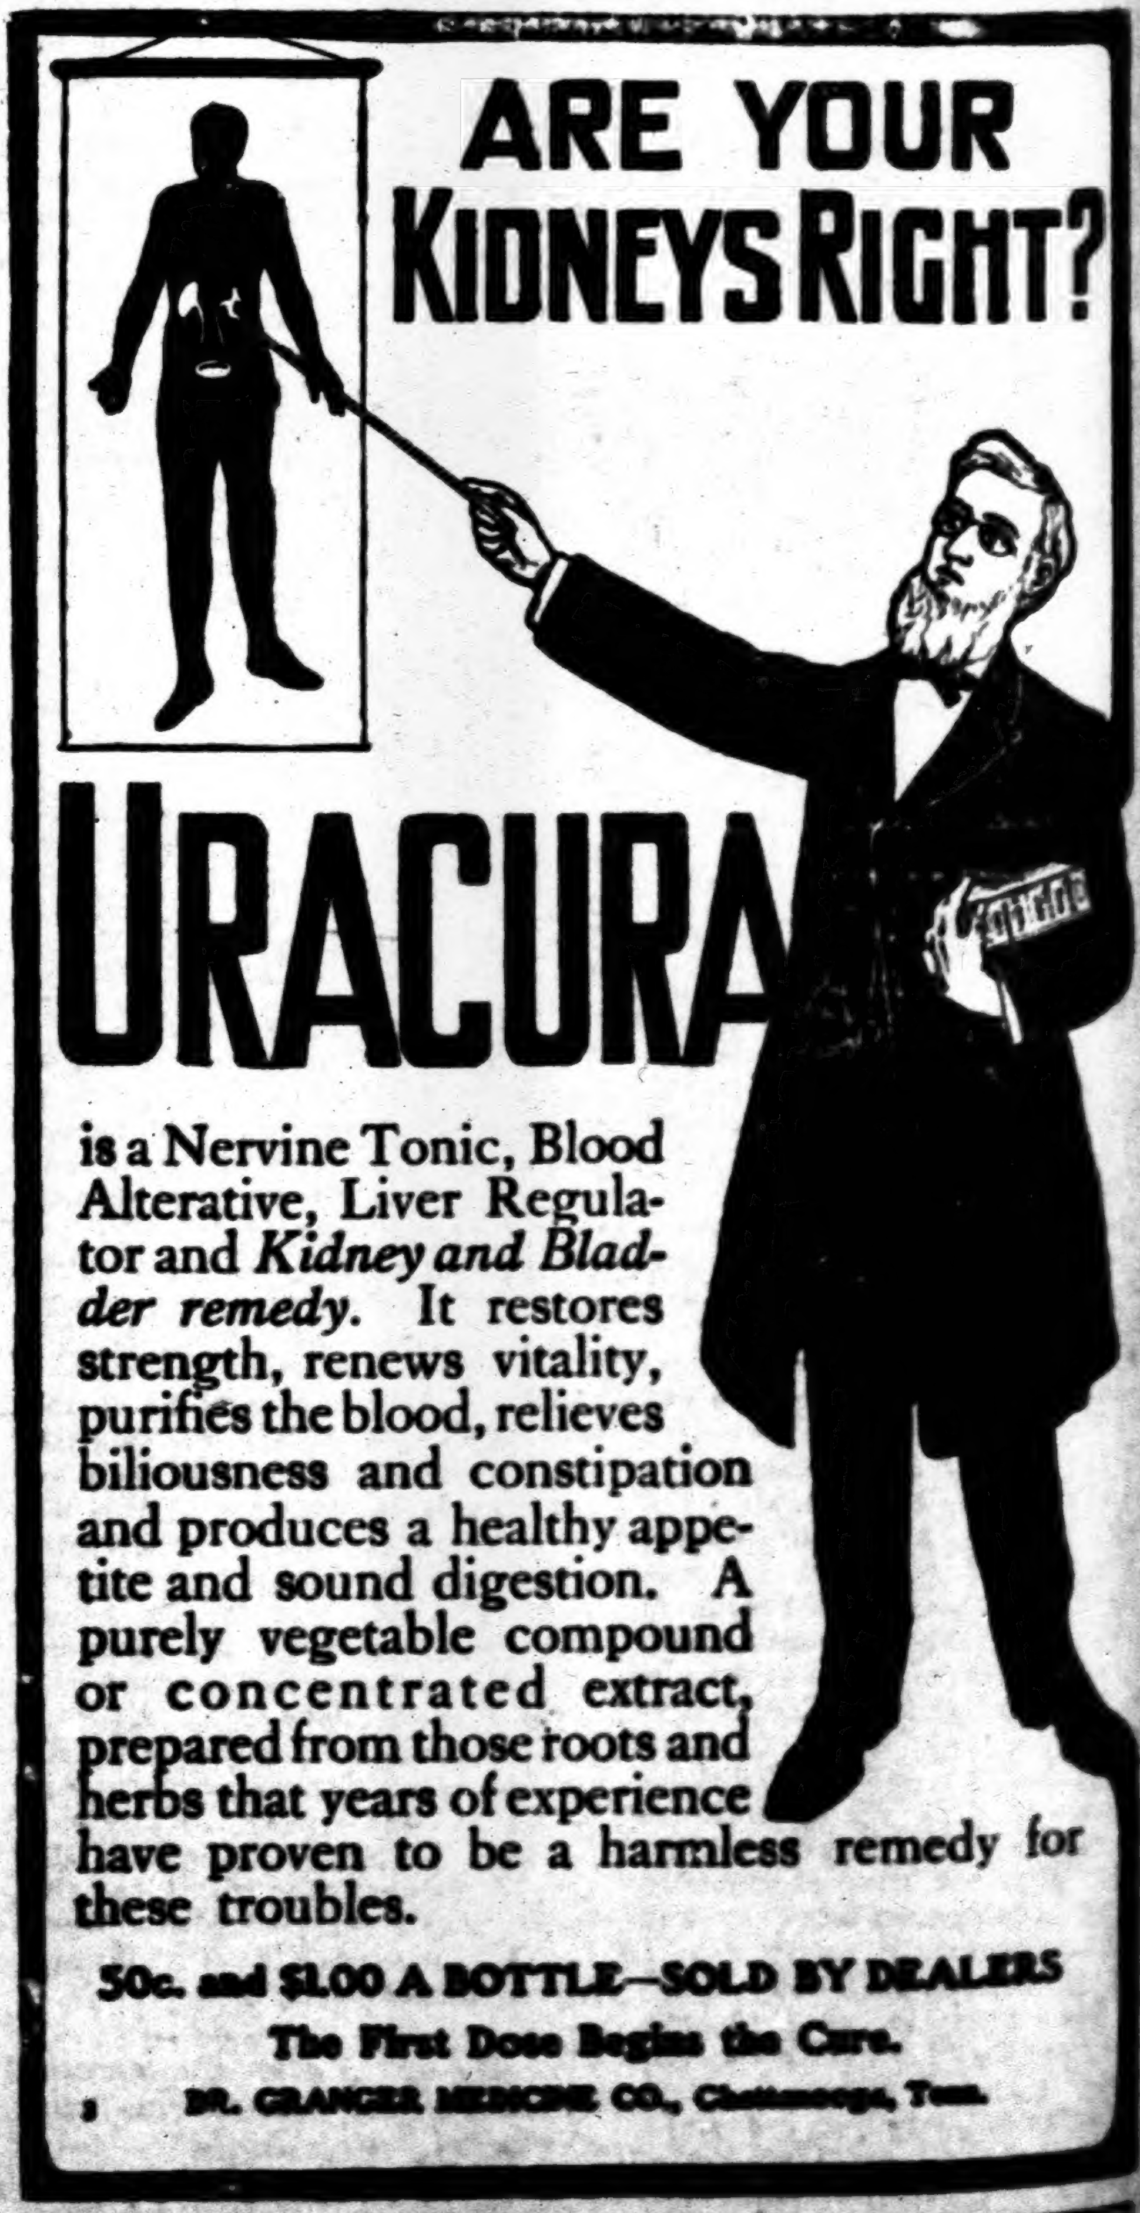
The original LAXATIVE cough remedy.

For coughs, colds, throat and lung troubles. No opiates. Non-alcoholic. Good for everybody. Sold everywhere.

The genuine FOLEY'S HONEY and TAR is in a Yellow package. Refuse substitutes.

Prepared only by Foley & Company, Chicago.

Upchurch Drug Co.



ARE YOUR KIDNEYS RIGHT?

URACURA

is a Nervine Tonic, Blood Alterative, Liver Regulator and *Kidney and Bladder remedy.* It restores strength, renews vitality, purifies the blood, relieves biliousness and constipation and produces a healthy appetite and sound digestion. A purely vegetable compound or concentrated extract, prepared from those roots and herbs that years of experience have proven to be a harmless remedy for these troubles.

There is a number of people who are under an erroneous impression. They think that they never control enough money to start a bank account. In this they are mistaken. We solicit small accounts as well as large. And we handle the business of both with our best care. We believe that you ought to have a bank account, and we ffer you our services.

CORRESPONDENCE.

Floods the body with warm glowing vitality, makes the nerves strong, quickens circulation, restores natural vigor, makes you feel like one born again. Hollister's Rocky Mountain Tea. 35 cents. Upchurch Drug co.

Billingsley, Dec. 17, 1906

Editor Banner—The Bible says "Come and let us reason together." This is our proposition to those who aim to vote for stock law. Does it look reasonable for the few who have plenty of land and can enclose as many cattle as they choose, for them to subject the unfortunate poor and the widows and orphans who have scarcely enough land to make their bread and meat upon? It is not right. Does it look reasonable for them to live without their milk and butter and kid and pig? This class all speak at once and say we cannot with stock law have any of above necessities. As it is our cows and kids furnish us a large amount of the best eating on earth. The cows cost us nothing for eight months in the year, for God, with His abundant goodness, His ability and willingness to be reasonable and to favor the less fortunate, provides a bounty for the cattle upon a thousand hills. Thus the widow and orphans can enjoy along with their neighbors just what God intends them to have. Kind friends, before you vote against your neighbors, go on your knees and ask God just what to do. He is cognizant of justice to all, and will make no mistake. I am writing in the interest of humanity.

MRS. IRA CAMPBELL.

IMPROVE and BEAUTIFY the COMPLEXION.

The principle ingredients in Dainty Laxakola tonic tablets are cascarin and dandelion which is one of the safest complexion beautifiers known. Forty little chocolate coated laxative tablets, 25 cents. Florence Drug co.

Winfield, La., Dec. 18, 1906

Editor Banner—Please allow me space in your valuable paper for a few lines. According to promise, I will write to the Banner The first sight that met my eyes when we got on the train at Lawley was a poor insane lady. Then we traveled up to Calera, a new married couple took the train for a honeymoon trip. My! my! how the rice did fly! We left Lawley Ala., the 12th, and landed at Winfield, La., the 13th; there we took the hack for J. E Conner's; found all well. Winfield is a nice town. I will close with best wishes to the Banner and its many readers.

MARTHA LAWRENCE.

A Western Wonder.

There's a Hill at Bowie. Tex., that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of consumption. I was reduced to 90 pounds, when I began taking Dr. King's New Discovery for consumption, coughs and colds. Now, after taking 12 bottles, I have more than doubled in weight and am completely cured." Only sure cough and cold cure. Guaranteed by Upchurch Drug co. 50c and $1.00. Trial bottle free.

Money talks—but it doesn't always speak when spoken to.

CLANTON ACADEMY

Possesses superior advantages to pupils of all grades, prepares them to enter the best colleges and universities, trains teachers to stand examination for any grade certificate, and qualifies them the better to fill a place in their profession.

L. J. THOMPSON,
Principal.

TO WHOM IT MAY CONCERN:

Notice is hereby given that at the next ensuing session of the Legislature of Alabama a bill will be introduced to provide for an additional Judicial Circuit for the State of Alabama, to be composed of the counties of Autauga, Elmore, Chilton and Montgomery, and for the withdrawal of said counties from their present circuits; to provide for the temporary appointment of a judge and solicitor for said circuit; and for their salaries: to regulate the duties and residence of the solicitor; to provide times of holding court in said circuit; to confer chancery jurisdiction on said Circuit Court as to matters arising in Autauga, Elmore and Chilton counties, and to provide for Registers in Chancery therein; to provide for the removal of the pending causes, and remaining of pending appeals to the new court; to regulate the convening of grand and petit juries in said circuit; to authorize the judge of said circuit to adopt reasonable rules of practice to facilitate the business of the court.

MAKE MONEY.

Here is an interesting study: Make out a list of all the people know, and estimate the amount of money each one earns in a r. Total it up. The amount will be surprisingly large. Now, of those people, only the few who SAVE SOMETHING really MAKE ything at all. Simply earning money isn't making it; what slips ough the earner's fingers is finally "made" by somebody else. Don't get to count yourself in on the list, and if you are not "making" ney, begin now to save with us. One dollar will open your bank count.

MONEY loaned on Personal curity. No mortgage taken. If u want from $100 to $1,000 from e to three years, have two ends who will sign your note, close a self addressed envelope r particulars.

DIXIE LOAN AGENCY,
Bessemer, Ala.

TOCK LAW ELECTION NOTICE.

Notice is hereby given that, in rsuance of an order made by the ommissioner's court of Chilton unty, Alabama, on the 12th day November, 1906, ordering an ection to be held, in Precinct our, in said county, for the purse of determining whether or t all live stock shall be prohibid from running at large in said ecinct Four in said county, an ection for said purpose will be eld on the 15th day of January, 907 at Clanton, Precinct Four in hilton county, Alabama.

Witness my hand this 12th day November. 1906.

JOHN GORE.

E. C. DeWitt's & Co., of Chicago, whose laboratory Kodol is prepared, assure us that this remarkable igestant and corrective for the tomach conforms fully to all provisions of the National Pure Food and Drug law. The Kobol laboratory is very large one, but if all the sufferers from indigestion and stomach troubles could know the virtues of Kodol it would be impossible for he manufacturers to keep up with he demand. Kodol is sold here by Upchurch Drug co.

STOCK LAW ELECTION NOTICE

Notice is hereby given that, in pursuance of an order made by the Commissioner's' Court of Chilton county, Alabama, on the 5th day November, 1906, ordering an election to be held, in Precinct Three, in said county, for the purpose of determining whether or no all live stock shall be prohibited from running at large in said Precinct Three in said county, an election for said purpose will be held on the 15th day of January, 1907, at Jenson and Macedonia in said Precinct Three in Chilton county, Alabama.

Witness my hand this 5th day of November, 1906.

G. E. WRIGHT.

Millions of bottles of Foley's Honey and Tar have been sold without any person ever having experienced anyother than beneficial results from its use for coughs. colds, and lung troubles. This is because the genuine Folley's Honey and Tar in the yellow package contains no opiates or other harmful drugs. Guard your health by refusing any but the genuine. Upchurch Drug co.

Published Weekly

CLANTON, ALA.

Now that the magnetic pole has been located, the Atlanta Constitution presumes there will be frenzied inquires as to whether the extradition laws extend to those latitudes.

The construction of automobiles now runs considerably above the hundred horse power. What would be the speed of an automobile of a hundred Dan Patch power? asks the Boston Transcript

A farmer must not touch a deer, notes the Boston Transcript, no matter how much it may be trampling and devouring his crops. He may, however, drive it out of his fields, if he can do so without hurting its feelings.

Mr. Charles Booth, the great social scientist, in his volume on "Religion in London," is convinced that the clergy are losing ground by becoming servers of tables and organizers of charity instead of spiritual guides to their flocks.

Because of the number of homicides in the United States a statistician concludes that it is dangerous to be alive. However, considering the number of commandments that are broken, thinks the Louisville Courier-Journal, it is equally dangerous to be dead.

The Birmingham Age-Herald surmises that "malaria probably destroys more lives than even 'the white plague,' and no one can contract malaria except by being bitten by an anopheles mosquito. All mosquitoes should be shunned. They should be screened out of all bedrooms. This plan would save doctors' bills and energies, and health and even life."

Professor Boni, the Italian archaeologist, has just completed his greatest undertaking, the restoration of Trajan's Column, this task having consisted in replacing no fewer than fifteen pieces of marble which had fallen out of their places in the column, thus menacing a possible collapse of the entire structure. The grotto beneath the monument has also now been filled in, giving the whole a firmer hold on its foundations, so that no untoward collapse may ever be feared in the future. The loosening of the restored portions had been occasioned by the fall of the bronze statue of the Emperor Trajan which surmounted the column.

The most notable change which has taken place in the relations between the two sections of the country since the war is the increased attention given by the people of the North to the South in all relations, social, industrial and political. The change came in the order named, declares the Courier-Journal, the outgrowth of the friendly relations which existed before the war, the intermarriage of families and the annual visits of tourists from the respective sections. The industrial movement came later as Northern capital was gradually attracted to the South by the opportunity offered in the establishment of cotton mills in closer proximity to the raw material, in the extension of railroads southward and in the attraction of capital by the iron, coal and other mineral resources there.

Speaking of Secretary Root's mission to South America, the New Orleans Times-Democrat says: "For many years, in fact, from the establishment of the Government down to the administration of Mr. Harrison, this Government set its face firmly against this forced collection of foreign debts. Mr. Blaine, when Secretary of State, first took the opposite direction, and used the American navy as a collection agency and enforced the collection at the mouth of the cannon of some questionable debts. It is just that these gamblers in foreign securities should take the risk that attaches to their gambling. If they engage in wildcat speculation they should take the risk of wildcatting abroad as they are required to do at home. It is to be hoped that both the Rio conference and the London parliamentary meeting will take this matter up and reach some conclusion just alike to the weak and struggling governments of the world and to their creditors."

Sunday Slaughtering Stopped

Secretary Wilson orders New York meat packers to stop Sunday slaughtering.

MERRY CHRISTMAS MORN

The Soliloquy of Santa Claus.

Oh, this is the time of the year I like best,
  When the ground is all covered with snow,
When the breezes of winter the naked cheeks test,
And the weathercock points to the cold northwest.
  As the short days come and go

Tho' the forest is dead, and the field is bare,
  My spirits are all astir.
Let the mercury sink—I have never a care,
For the keen-edged wind or the frosty air,
  In my wrappings of warmest fur

My boys have forgotten the barefoot days
  And my girls are all thinking of me.
This time of the year they are mending their ways,
For they know that a decorous conduct pays—
  (In the fruit of the Christmas tree!)

I've been hurrying and hustling the whole year long
  A-stuffing my monstrous pack,
And many a thrill and many a song,
I'll bring to the hearts of the noisy throng
  That waits for my coming back

A very short while, and I am away,
  With a cheer for my girls and boys.
Then hurry the minutes and hasten the day
When I leave the north, and speed me away,
  With my numerous Christmas joys!

CHRISTMAS ON BIG RATTLE

BY THEODORE ROBERTS

Archer sat by the rude hearth of his Big Rattle camp, brooding in a sort of tired contentment over the spitting fagots of var and glowing coals of birch.

It was Christmas eve. He had been out on his snowshoes all that day, and all the day before, springing his traps along the streams and putting his deadfalls out of commission—rather queer work for a trapper to be about.

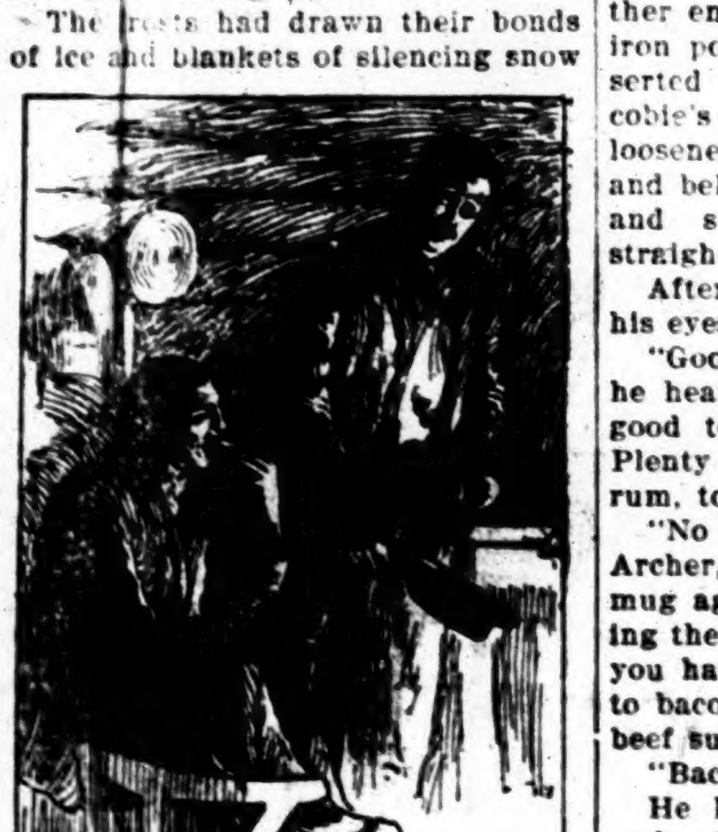
But Archer, despite all his gloomy manner, was really a sentimentalist, who practiced what he felt.

"Christmas is a season of peace on earth," he had told himself, while demolishing the logs of a sinister deadfall with his ax; and now the remembrance of his quixotic deed added a brightness to the fire and to the rough, undecorated walls of the camp.

Outside the wind ran high in the forest, breaking and sweeping tide-like over the reefs of treetops.

The air was bitterly cold. Another voice, almost as fitful as the sough of the wind, sounded across the night. It was the waters of Stone Arrow Falls, above Big Rattle.

The frosts had drawn their bonds of ice and blankets of silencing snow over all the rest of the stream, but the white and black face of the falls still flashed from a window in the great house of crystal, and threw out a voice of desolation.



"Sacobie, You Will Kill Yourself!"

Sacobie Bear, a full-blooded Micmac, uttered a grunt of relief when his ears caught the bellow of Stone Arrow Falls. He stood still, and turned his head from side to side, questioning.

"Good!" he said. "Big Rattle off there. Archer's camp over there. I go there. Good 'nough!"

He hitched his old smooth-bore rifle higher under his arm and continued his journey. Sacobie had tramped many miles—all the way from ice-prisoned Fox Harbor. His papoose was sick. His squaw was hungry. Sacobie's belt was drawn tight.

During all that weary journey his old rifle had not banged once, although few eyes save those of timber-wolf and lynx were sharper in the hunt than Sacobie's. The Indian was reeling with hunger and weakness, but he held bravely on.

A white man, no matter how courageous and sinewy, would have been prone in the snow by that time.

But Sacobie, with his head down and his round snowshoes padding! padding! like the feet of a frightened duck, raced with death toward the haven of Archer's cabin.

Archer was dreaming of a Christmastime in a great, far-away city when he was startled by a rattle on his door, like weak blows from mittened hands. He sprang across the cabin and pulled open the door.

A short, stooping figure shuffled in and reeled against him. A rifle in a woolen case clattered at his feet.

"Mer' Christmas! How-do?" said a weary voice.

"Merry Christmas, brother!" replied Archer. Then, "Bless me, but it's Sacobie Bear! Why, what's the matter, Sacobie?"

"Heap tired! Heap hungry!" replied the Micmac, sinking to the floor.

Archer lifted the Indian and carried him over to the bunk at the farther end of the room. He filled his iron pot-spoon with brandy, and inserted the point of it between Sacobie's unresisting jaws. Then he loosened the Micmac's coat and shirt and belt. He removed his mocassins and stockings and rubbed the straight, thin feet with brandy.

After a while Sacobie Bear opened his eyes and gazed up at Archer.

"Good!" he said. "John Archer, he heap fine man, anyhow. Mighty good to poor Injun Sacobie, too. Plenty tobac, I s'pose. Plenty of rum, too."

"No more rum, my son," replied Archer, tossing what was left in the mug against the log wall, and corking the bottle. "And no smoke until you have a feed. What do you say to bacon and tea? Or would tinned beef suit you better?"

"Bacum," replied Sacobie.

He hoisted himself to his elbow and wistfully sniffed the fumes of brandy that came from the direction of his bare feet. "Heap waste of good rum, me t'ink," he said.

"You ungrateful little beggar!" laughed Archer, as he pulled a frying-pan from under the bunk.

By the time the bacon was fried and the tea steeped, Sacobie was sufficiently revived to leave the bunk and take a seat by the fire.

He ate as all hungry Indians do; and Archer looked on in wonder and whimsical regret, remembering the miles and miles he had tramped with that bacon on his back.

"Sacobie, you will kill yourself!" he protested.

"Sacobie no kill himself now," replied the Micmac, as he bolted a brown slice and a mouthful of hard bread. "Sacobie more like to kill himself when he empty. Want to live when he chock-full. Good fun. T'ank you fer more tea."

Archer filled the extended mug and poured in the molasses—"long sweet'nin" they call it in that region.

"What brings you so far from Fox Harbor this time of year?" inquired Archer.

"Squaw sick. Papoose sick. Bote empty. Want good bacum to eat."

Archer smiled at the fire. "Any luck trapping?" he asked.

His guest shook his head and hid his face behind the upturned mug.

"Not much," he replied, presently. He drew his sleeve across his mouth, and then produced a clay pipe from a pocket in his shirt.

"Tobac?" he inquired.

Archer passed him a dark and heavy plug of tobacco.

"Knife?" queried Sacobie.

"Try your own knife on it," answered Archer, grinning.

With a sigh Sacobie produced his sheathknife.

"You t'ink Sacobie heap big t'ief," he said, accusingly.

"Knives are easily lost—in people's pockets," replied Archer.

The two men talked for hours. Sacobie Bear was a great gossip for one of his race. In fact, he had a Micmac nickname which translated, meant "the man who deafens his friends with much talk." Archer, however, was pleased with his ready chatter and unforced humor.

But at last they both began to nod. The white man made up a bed on the floor for Sacobie with a couple of caribou skins and a heavy blanket. Then he gathered together a few plugs of tobacco, some tea, flour and dried fish.

Sacobie watched him with freshly aroused interest.

"More tobac, please," he said. "Squaw, he smoke, too."

Archer added a couple of sticks of the black leaf to the pile.

"Bacum, too," said the Micmac. "Bacum better nor fish, anyhow."

Archer shook his head.

"You'll have to do with the fish," he replied; "but I'll give you a tin of condensed milk for the papoose."

"Ah! ah! Him good stuff!" exclaimed Sacobie.

Archer considered the provisions for a second or two.

Then, going over to a dunnage bag near his bunk, he pulled its contents about until he found a bright red silk handkerchief and a red flannel shirt. Their color was too gaudy for his taste. "These things are for your squaw," he said.

Sacobie was delighted. Archer tied the articles into a neat pack and stood it in the corner, beside his guest's rifle.

"Now you had better turn in," he said, and blew out the light.

In ten minutes both men slept the sleep of the weary. The fire, a great mass of red coals, faded and flushed like some fabulous jewel. The wind washed over the cabin and fingered the eaves, and brushed furtive hands against the door.

It was dawn when Archer awoke. He sat up in his bunk and looked about the quiet, gray-lighted room. Sacobie Bear was nowhere to be seen.

He glanced at the corner by the door. Rifle and pack were both gone. He looked up at the rafter, where his slab of bacon was always hung. It, too, was gone!

He jumped out of his bunk and ran to the door. Opening it, he looked out. Not a breath of air stirred. In the east, saffron and scarlet, broke the Christmas morning, and blue on the white surface of the world lay the imprints of Sacobie's round snow-shoes.

For a long time the trapper stood in the doorway in silence, looking out at the stillness and beauty.

"Poor Sacobie!" he said, after a while. "Well, he's welcome to the bacon, even if it is all I had."

He turned to light the fire and prepare breakfast. Something at the foot of his bunk caught his eye.

He went over and took it up. It was a cured skin—a beautiful specimen of fox. He turned it over, and on the white hide an uncultured hand had written, with a charred stick, "Archer."

"Well, bless that old redskin!" exclaimed the trapper, huskily. "Bless his puckered eyes! Who'd have thought that I should get a Christmas present?"—Youth's Companion.

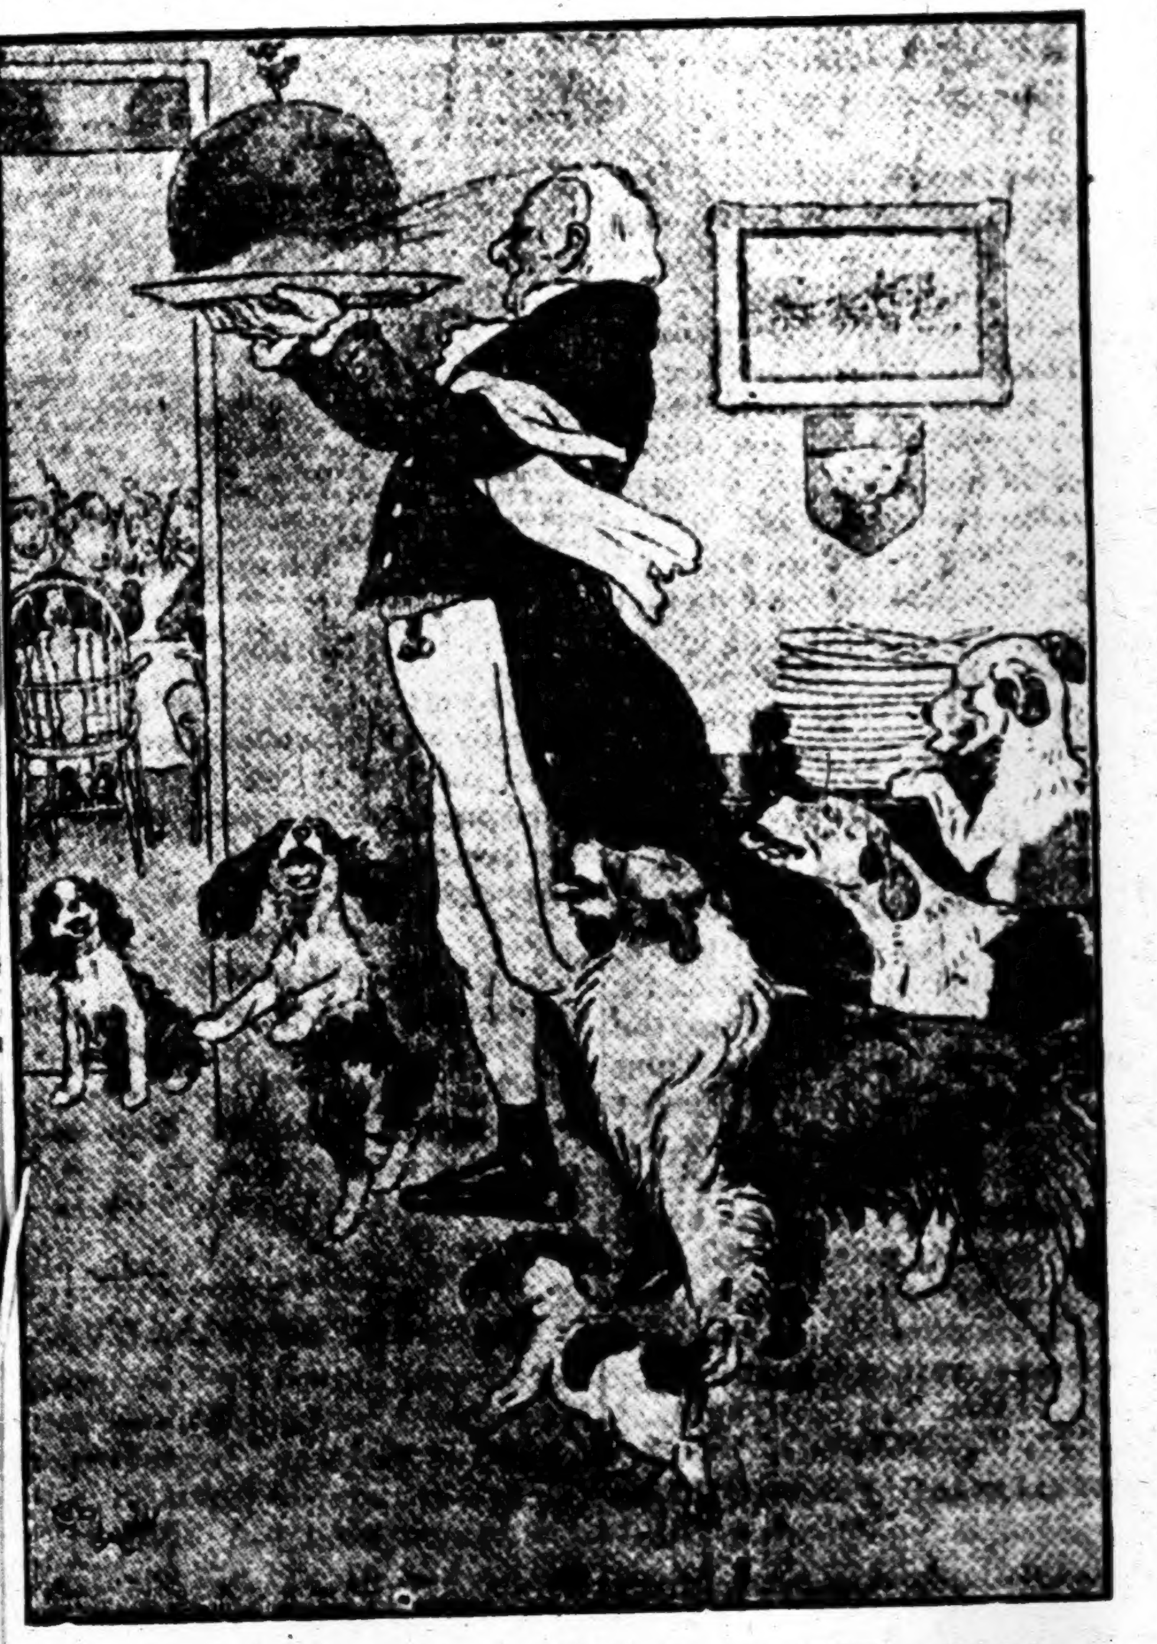
Out of the Hurly-Burly.

Jane—"I never had such a miserable Christmas month in all my life."

Martha—"What's the matter?"

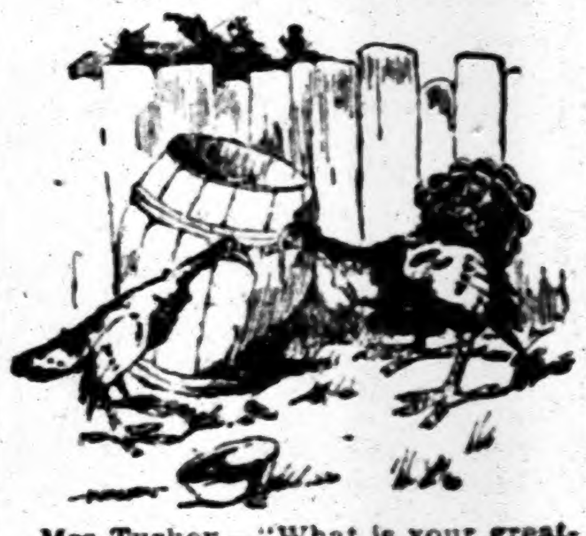
Jane—"Why, I got a silly fit, and did all my Christmas shopping two months ago."

In the Merry Days of Old.



HOW THE CHRISTMAS PUDDING WAS SERVED.—Sketch.

Day Before Christmas.



Mrs. Turkey—"What is your greatest wish?"

Mr. Turkey—"An air-ship."

Two Stockings.

In her little stocking
  Betty Baby found,
First, a tiny golden ring
  Set with rubies round,
Then a lovely dolly,
  Beautiful to see,
Bonbons, cakes and sugar toys,
  Happy Baby she!

In her little stocking
  Polly Baby found,
First, a stick of candy,
  Then an apple round,
Then a pair of mittens,
  Fitting perfectly;
That was all, but none the less,
  Happy Baby she!
—Youth's Companion.

ALABAMA GLEANINGS.

Items of Interest Gathered as They Transpire Over the Entire State.

Cotton Receipts.

Mobile, Ala.—From the amount of cotton brought to Mobile by the boats it is believed that the bulk of the crop has been marketed and little remains at the gins and warehouses along the Alabama. Conditions are different however on the Tombigbee which is three weeks to a month later each year. Officers of the steamers Hard Cash and City of Mobile arriving from Selma and Montgomery respectively stated that the river landings had been cleaned up of cotton, the cargo of each boat amounting to about sixty bales of river cotton as compared with previous years. The movement of cotton seed to Mobile has been very small this season, while the [illegible] amount of cotton [illegible] will be larger than la[illegible]

Join Huntsville and Birmingham.

Huntsville, Ala.—At a meeting of the chamber of commerce Thursday night Prof. L. P. Sherrill, of [illegible], Ala., president of the Huntsville-Birmingham Railway Corporation, presented his plans for the building of an electric railroad from Huntsville to Birmingham. Mr. Sherrill says that the line has already been surveyed from the Tennessee river through Marshall and Blount counties to the Jefferson county line and rights of way secured. The highest grade yet found along the line is only 1 per cent, even in the Sand Mountain country. A proposition was submitted to the business men of Huntsville, but action was deferred until after the holidays.

Serious Damage by Fire.

Selma, Ala.—Fire was discovered in the building on the corner of Alabama and Washington streets Friday morning about 3 o'clock. The building is occupied by the saloon owned by I. L. Rosendorf, the next door as restaurant in conjunction with the saloon, and the third store as a wholesale whisky store. The fire started in the kitchen of the restaurant, but on account of the prompt response of the fire department the flames did not do much dameg, but the second floor of the building was flooded with water. The loss is estimated at $6,000, which is covered by insurance.

Florence's Finances.

Florence, Ala.—The annual report just submitted by Mayor A. E. Walker of the financial condition of Florence for the present year does not show the anticipated deficit, and the administration is being congratulated upon the showing made. The total disbursements are $25,500 and the collections $34,463. There are $1,500 delinquent taxes, which will bring the balance to the right side of the ledger. The teachers' salaries amounted to $4,8[illegible] and the general school school expenses came to $7,046. Fines imposed $1,953, and the special tax collected was $8,316. The $2,000 mortgage on Wildwood Park was renewed, and the city has outstanding bonds to the amount of $140,000.

Farmers' Union Organized.

Colbert county have organized a flourishing Farmers' Union, its membership being large and numbering many of the most successful and prominent planters in the county. Plans are materializing for the erection of a large warehouse at some convenient shipping point in the county for the storing of cotton and other farm products. The farmers are contributing cheerfully to the fund, and when a sufficient amount is raised the enterprise is to be incorporated.

Robbers Attack Woman Cashier.

Chicago, Ill.—Five men made a desperate effort to rob Miss Margaret Gates, the cashier of the Morris Candy Company, while she was returning from the bank to the offices of the company with $1,400, the amount of the weekly pay roll, in her possession, but were foiled by the detectives.

Dies Under Wheels.

Madison, Ga.—While crossing the tracks of the Georgia railroad C. S. Atkinson, one of Madison's pioneer citizens, was struck by a work train and instantly killed. He was 65 years of age, and deafness prevented him from hearing the approach of the engine. Mr. Atkinson was well known and greatly beloved. For the past few years he has been retired, although he formerly ran a pleasure resort known as Silver Lake. He was unmarried.

Washington, D. C.—Postmasters appointed: Alabama Port, Mobile county, Edwin D. Delchamps; Alma, Clarke county, William T. Savage.

Rural route No. 3 ordered established February 16 at Berry, Fayette county, serving 328 people and 62 families.

If you are going to keep Geraniums in the windows, be careful to select only the best varieties.

ARY INCREASE COMES UP.

enate Looked to For a Firm Attitude on the Increase.

akes no Bones About Being in Favor of More Money Since Present Amount is Far Too Slim.

Chicago, Ill.—A special to the Record-Herald from Washington says: There is still hope for the poor congressmen. The senate is turning the matter over in it's mind and a strong disposition to join the increased salary procession exists at that end of the capitol. The senate, less amenable to public sentiment, or rather safer from possible public wrath, is expected to fix things and relieve the representatives from responsibility for originating the legislation.

Senator Cullom, of Illinois, will have charge of the executive, legislative and judicial bill when it reaches the senate, and he makes no bones of being in favor of larger salaries than the government has been paying. The senior Illinois senator during his long career in Washington has felt the pinch of maintaining his position on $5,000 a year. He repeatedly has declared that he has been unable to save any money, and that frequently he has been forced to deny himself some of the real necessities of life because of the condition of his pocketbook.

The plan is to insert a provision in the bill similar to that knocked out in the house when the measure comes before the senate, and it is expected the measure will carry. And when it comes up the two houses will go into conference over the bill and the senate conferees will insist upon the retention of their amendment and the house conferees reluctantly will bow to their insistence in the matter. The record of the house will be all right and bigger salaries simply will be forced on the lawmakers who are elected by popular vote.

Clergymen Summoned.

Paris.—Dispatches received from the provinces show the church situation to be everywhere about the same. Clergymen at all points are being summoned for breaking the law of 1881.

A large number of declarations have been filed. Almost all the bishops' palaces and seminaries have been vacated. Only a few incidents out of the ordinary are reported. For instance, at Les Neven a commissary of police was chased from the church and stoned and finally had to draw his revolver to protect himself. At Bordeaux a single declaration for private worship in the entire diocese has been filed.

Ore Deposits in Tennessee.

Florence.—The investigation of experts in the ore fields of Wayne county, Tennessee, have developed wonderful mineral wealth, ore having been found there which is said to be as rich as the world famous Mesaba ore fields of Lake Superior. A solid lump of iron ore has been obtained weighing sixty tons, the average analysis of which shows 57 per cent of metallic iron, with less than 1 per cent of phosphorous and only a trace of sulphur. These are deposits described in a pamphlet just issued by Thurston H. Allen, of the Mineral Belt Railway Company, entitled "Iron Alabama and Tennessee," as being 115 feet thick and covering a vast area. With this magnificent ore field within forty miles of Florence and the great Muscle Shoals power soon to be developed, the prediction is justified that great things are in store for this section.

A New Cure Announced.

New York.—A cable dispatch from Berne, Switzerland, published here says that Dr. Kolle, bacteriologist at Berne University, thinks he has discovered a serum that cures cerebro-spinal meningitis.

Invalid Pension Bills.

Washington, D. C.—The house passed 350 invalid pension bills in less than an hour. Previous to taking up pension legislation the committee on appropriations reported an urgent deficiency appropriation bill carrying $[illegible] for the various departments of the government, including $150,000 for mileage of assembly officers and $[illegible] to carry out the pure food law.

Snow Storm in Italy.

Rome.—Terrific storms of snow, wind and rain have caused serious damage to all the Italian telegraph lines. Rome was entirely isolated.

Former Alabamian is Dead.

Topeka, Kan.—Eugene Hagan, who was United States district attorney for Kansas under the first administration of President Cleveland, died here, aged 47.

Snow Storm in Italy.

Rome.—Terrific storms of snow, wind and rain have caused serious damage to all the Italian telegraph lines. Rome was entirely isolated.

Former Alabamian is Dead.

Topeka, Kan.—Eugene Hagan, who was United States district attorney for Kansas under two first administrations of President Cleveland, died here aged 47.

Action in Japanese Matter.

Washington, D. C.—No further action will be taken by the department of justice in the test case at San Francisco, brought for the purpose of having the court to decide on the legality of the California law preventing Japanese from attending public schools with American children. The question will be handled by Mr. Bonaparte, who is expected to take up his duties as attorney-general on Monday.

Graduated Tax on Credit Notes.

Washington, D. C.—William B. Ridgeley, comptroller of the currency, advocated before the house committee on banking and currency the proposed credit currency plan. There was, he said, no question regarding the necessity of some measure of relief. He believed a graduated tax should be placed on the credit notes, which would create an ample reserve for their redemption. This, he thought, was a much superior method to the high tax plan with no reserve.

Mr. Ridgeley was strongly in favor of having the government guarantee such credit currency. No risk would be involved in this, as he said the 5 per cent guarantee found would make the government safe against possible loss.

Ten Millions More.

Washington, D. C.—Senator McCumber, chairman of the committee on pensions, is planning to press for early consideration by the senate the house general service pension bill, as amended by the senate committee. The amendments provide that any survivor of the civil war, who has served for ninety days, has been honorably discharged, and who shall have reached the age of 62 years, shall receive a pension of $12 a month, to be increased to $15 a month when he shall have reached the age of 70 years, and to $20 a month after he has reached the age of 75 years. It is estimated that an additional appropriation of $10,714,000 annually would be required to pay the increased rate provided by the bill to the soldiers now on the pension roll.

Situation in America.

Rome.—The Pope is rejoicing that the happenings in France are not so serious as had been feared. He has expressed the hope that the good sense of the French people will end in their finding a way to triumph over the present difficulties.

The pontiff received Cardinal Satolli, who formerly was papal delegate in the United States. The cardinal explained the situation with regard to Catholicism in the United States, where there exists real separation between church and state, stating the benevolent attitude of the state toward religion, resulting in the complete and dignified liberty of the church.

"That," exclaimed the Pope, "is really progress."

Bryan's Suggestions to Oklahoma.

Guthrie, Okla.—A communication from W. J. Bryan, in which he made a number of recommendations, was read before the constitutional convention. One suggestion was the creation of a board of corporations. He also urged the convention to adopt the initiative and referendum and the nomination of all officers by the primary system.

The committee on federal relations reported favorably on the proposal of two amendments to the United States constitution, one for the election of United States senators by a direct vote of the people and one for an income tax.

Lookout Mountain Tunnel Completed.

Chattanooga, Tenn.—The tunnel through Lookout Mountain, driven by the Southern railway, is finished, the working parties meeting Saturday. The work has lasted thirteen months and fifteen days—record time for this class of job. The tunnel is 3,600 feet long and in its course penetrates a cave filled with beautiful stalactites.

Head-On Collision.

Donaldsonville, La.—Two persons were killed and two seriously injured in a head-on collision between a passenger and freight train at a long curve near here on the Texas and Pacific railroad. All the fatalities were among members of the train crews, no passengers being seriously hurt.

Six Blown to Pieces.

Knoxville, Tenn.—Six men met instant death in a dynamite explosion about twenty-four miles from Newport, Tenn., and just across the State line in North Carolina. They were employed in building an extension to the Tennessee and North Carolina railroad. A load of dynamite for a blast exploded while being tamped, tearing six men into shreds and seriously injuding a seventh.

Porto Rico's Governor.

Washington, D. C.—Governor Winthrop, of Porto Rico, had a conference with members of the interstate commerec commission regarding railway affairs on the island. The conditions affecting rates and other features of the system on the island are unsatisfactory, and it is charged there are discriminations which have given trouble to the United States officials on the island.

NO CHANGE IN SITUATION

Cardinal Refuses to Leave Great Crowd Assembled.

POLICE CHASED FROM CHURCH

Venerable Head of Catholicism in France Announces That He Will Leave Palace Monday.

Paris.—Dispatches received show the church situation to be about the same.

Clergymen at all points are being summoned for breaking the law of 1881. A large number of declarations have been filed. Al most all the bishops' palaces and seminaries have been vacated.

Only few incidents out of the ordinary are reported. For instance, at Les Neven a commissary of police was chased from the church and stoned and finally had to draw his revolver to protect himself. At Bordeaux a single declaration for private worship in the entire diocese has been filed.

The cabinet met again and completed the text of the amendments to the church and state separation law of 1901. In order to avoid the appearance of persecution, it has been definitely decided not to press the question of treating recalcitrant priests as subjects of a foreign power until it is clearly demonstrated that the church is systematically resisting the law.

As Cardinal Richard, archbishop of Paris, claims to be ill, it also has been decided to allow him to depart at his own pleasure. Nevertheless, formal notice was served on the archbishop as he was surrounded by his vicars and other clergymen.

After reading the summons the archbishop announced that he would not yield except by force, whereupon the officer who served the summons retired, saying that he would report to his superiors. In the meantime a rumor spread that the archbishop was being expelled from the palace, and about 500 Catholics, including many priests, hurried to the court yard of the palace to defend the prelate.

With the intention of making a big demonstration word was dispatched in all directions and an immense crowd had gathered.

Among those present were several senators and deputies, including M. Denys Cochin and Count Boni de Castellane, several members of the old French nobility, the majority of the Paris clergy and the entire body of theological students.

The "defenders" of the archbishop, who for two hours vainly waited an attack on the part of the police, when, seeing that there was no intention of expelling the venerable prelate by force, they gadually dispersed. Cardinal Richard formally denied that he had authorized parishioners to make applications to hold religious meetings under the law of 1881, and announced that such action was contrary to the oders of the Holy See.

Thus far forty-three residences of prelates and seminaries have been evacuted. Seven new applications to hold religious meetings under the law of 1881 were filed in this city by parishoners.

Elect W. W. Finley.

Macon, Ga.—At a meeting of the board of directors of the Georgia Southern and Florida railway held here W. W. Finley, president of the Southern Railway Company, was elected president of the road to succeed the late Samuel Spencer. Mr. Finley was also chosen director of the company to succeed Mr. Spencer. Suitable resolutions on the death of Mr. Spencer were passed.

King Oscar Much Better.

Stockholm.—King Oscar's condition has taken a decided turn for the better.

No Financial Deal With Russia.

Paris.—At a meeting of the shareholders of the Banque Francaise held here the actual facts regarding the rumor that the bank is negotiating a loan with Russia were denied. An official explanation says the bank was interested in the formation of a syndicate to provide railroad locomotives for the use of countries in need of them on a basis of renting, but that no contract had yet been concluded with any government.

Mann Perjury Trial.

New York.—The trial of Col. William D. Mann, of Town Topics, on the charge of perjury, began Monday in part one of general sessions, Recorder Goff presiding. Colonel Mann is accused of having denied, while a witness in the Hapgood trial, that he wrote "W. D. M., O. K." on a letter written by Count Gerinald Ward, of England.

AMERICAN-JAPANESE RELATIONS.

Extraordinary Interest Shown. Possibilities of a Clash.

FREELY DISCUSSED IN GERMANY.

Known in Berlin That in June the British Admiralty Considered the Likelihood of Such a War.

Berlin.—The relations between the United States and Japan excite extraordinary interest both in government and diplomatic circles here. Emperor William discussed the question with several persons recently, and is thoroughly informed regarding President Roosevelt's personal views on the subject.

It is believed that Russia's more resolute attitude against Japan's request for trade and colonization rights on the Amur river and in Siberia and for fishery privileges on the adjacent Russian coasts is partly due to the discussion of the California school question between the United States and Japan.

The Russian foreign office has been subjected to steady diplomatic pressure on the part of Japan in the effort to obtain these far-reaching rights. The result is that the idea has been created at the Russian foreign office that Japan might might make her ambitions the occasion for a renewal of the war with Russia. This idea pervaded the conversation which the Russian foreign minister, M. Iswolsky, had with the government officials and those whom he met here on the occasion of his visit to Berlin six weeks ago.

Among German military and naval officers the possibility of a conflict between the United States and Japan has been quite freely discussed, and the professional views appear to agree that Japan would take the Philippine Island and place upon the United States the necessity of conducting across the Pacific prolonged sea and land campaigns, which would call forth immense expenditures against great natural obstacles.

It was known here in June that the British admiralty had considered theoretically the possibility of war between Japan and the United States as likely to occur within twenty-five years, and some of the British naval men are reported to have expressed the belief that the contest would occur within five years. In any case it is certain that several European foreign officers are at present making inquiries regarding the temper of the Japanese people and the government of Japan.

Farm Implement Combine.

Chicago, Ill.—Unless plans which are sanctioned by J. Pierpont Morgan and agreed to by the holders of at least $100,000,000 out of $120,000,000 of the stock of the International Harvester Company fall through, February 1, 1907, should see the complete financial reorganization of the great farm implement combination.

Tentative contracts, which have been signed by the chief stockholders, call for the conversion of $120,000,000 of capital stock of one class into a like amount of new stock, divided into $60,000,000 common; the retirement of several interests from active business management of the company and a general change in the staff of officials. The expectation is that the new securities will be listed on the New York exchange, which, if the plans are carried through, will give the stockholders a broad market for their securities and enable them to retire if they desire to do so.

English Unions Make Demands.

London.—The Amalgamated Society of Railway Servants, representatives of all the trade unions in this country has approved the national program and the executive officers propose to present demands simultaneously to all the companies early next year. The chief demands are an eight-hour day, an improvement in wages and recognition of their society.

Thinks Estimate About Right.

Jackson, Miss.—Commenting on the recent decline in the price of cotton, President Clark, of the Mississippi division of the Southern Cotton Association, says the government estimate is "very near the truth." However, conditions warrant higher prices, and it is the duty of every man who can to hold for an advance, which he believes will reach 11 or 12 cents.

Oil Car Explodes.

Fremont, O.—A Standard Oil tank car filled with crude petroleum in the Lake Shore railway yards exploded, shaking the town like an earthquake, breaking many windows and doing other damage. Will Battig, who was pumping oil from the tank, was hurled 300 feet. His clothes were burned from his body and he was fatally injured. It is reported that he dropped a lighted match into the tank.

WASHINGTON[illegible]

Honolulu Report Thinks Troops Are to Hurry to Hall.

Washington, D. C.—It is stated at the war department that no order has been issued for the dispatch of additional troops to the Hawaiian Islands, nor is any such order contemplated. The permanent garrison of Hawaii consists of four companies of regular troops. Two of these were last summer ordered to the mainland for target practice, the facilities for which were lacking in the islands. They have now returned to their posts and no immediate changes in the force, or additions thereto, are contemplated.

San Francisco, Cal.—The Examiner published the following dispatch from Honolulu:

"The officers of the transport Thomas have announced that [illegible] regiments are to be rushed immediately to the island in anticipation of trouble with the Japanese. They absolutely refuse to give out any of the details bearing on the call for troops.

"It is understood that the Mikado is extremely anxious to secure possession of the Island of Lanai, which is private property. This island is fifty miles from Honolulu, and could be used as an excellent naval base against the United States by any foreign power. It has two splendid harbors.

"Last night Attorney Peabody-Goodyear secured an injunction against Governor Carter and Land Commissioner Pratt to prevent their selling the islands to a syndicate."

Favors Ship Subsidy Bill.

Washington, D. C.—That President Roosevelt will send to congress a special message advocating the passage of a ship subsidy measure at the present session was stated by several members of the house. It was said that the president had declared that the recommendation in his annual message was misunderstood. In that message he said if it were found expedient to pass the ship bill a measure should be passed to provide for a new line to South American ports. He did not mean to minimize the importance of any features of the bill, it is said, and now proposes to correct any false impression that may have been gained by the house.

Cruiser Montana Given to Ocean.

Newport News, Va.—The United States armored cruiser Montana was successfully launched at the Newport News ship yard in the presence of a large number of people. The vessel was christened by Miss Minnie Conrad, daughter of W. G. Conrad, of Montana. Governor Toole, of that state, was represented by Martin Maginnis, former territorial delegate to congress. Senator Carter and Representative Dixon also were present. The navy was not officially represented. After the launching the sponsor's party was entertained at breakfast. The Montana is about 58 per cent completed and is a sister ship to the North Carolina. Her contract calls for a speed of twenty-two knots.

Child Addicted to Tobacco.

New York.—A dispatch to the Times from Lowell, Mass., says officers of the Lowell Humane Society found a 3-year-old child who is a confirmed smoker and has used daily a corn-cob pipe since he was 18 monthsold. The child is Andre, the son of Albert Beaulin. When the officers took his pipe away he screamed with anger.

Cuban Episode Cost $2,000,000.

Washington, D. C.—The Cuban financial situation was explained to the house committee on appropriations by Secretary Taft. Through this explanation it was ascertained that American intervention in the island necessitated the expenditure of something more than $2,000,000.

It is the understanding that this claim is not to be pressed immediately but on ascertainment of the condition of the Cuban finances an order may be issued from President Roosevelt to the provisional government of the island to transfer a monthly sum from the Cuban to the American treasury as payment on this claim.

Pension Bills.

Washington, D. C.—The house considered private pension bills, there being 346 such measures on the calendar.

To Advance Wages.

New York.—The Standard Oil Company has announced that it will advance the wages of all of its employes now receiving less than $100 a month by 10 per cent, beginning January 1.

Montgomery, Ala.—R. T. Goodwyn, of Montgomery, has been elected grand master of the Independent Order of Odd Fellows in Alabama by a majority of 331 votes over his only opponent, R. Erswell, of Birmingham.

Charged With Safe Cracking.

Oklahoma City, Okla.—Charged with cracking the safe and robbing the State Bank of Asher, Okla., of $4,800 last Wednesday night, two men giving the names of David McCullough, of Wichita, Kan., and A. W. Frazee, of Higginsville, Mo., were arrested in the Frisco Hotel here. The men had more than $1,200 in their possession, the paper money torn and scorched, the silver blackened as though by an explosion.

MESSAGE ON PANAMA.

Roosevelt Sends Special One to Congress on Canal.

NOTHING BUT ENCOURAGEMENT

Describes His Visit and Speaks of Conditions as He Saw Them.

Washington, D. C.—The president has sent a special message to congress on the Panama canal, describing his his visit to the isthmus and telling of the conditions as he saw them. He said that there was nothing but encouragement in every feature of the work. The canal zone has been made noteworthy because of the expert treatment of the sanitary question. The president also has some caustic comment on the muck-rakers, who are criticising the work, and recommends a one-man supervision.

The following is a synopsis of the message:

The Panama canal will be built.

The work is being done as rapidly as conditions admit.

These conditions are much better than they have been reported. Management of the work should be in the hands of one man, instead of a commission of seven.

This is the burden of the message sent by President Roosevelt to congress. The president reviews his visit to the isthmus and tells of conditions as he saw them. He reports the work progressing well in every department. The digging of the canal is well under way, although much preliminary work has been done.

So expert has been the sanitary supervision of the canal zone that the health of the isthmus compares with the most favorable section of the United States.

Most of the men are satisfied and enthusiastic. Their quarters are in good shape, the food supply wholesome, and the wages high enough to make employment attractive.

The president makes caustic comment on the men who are criticising the work on the canal. He gives it as his firm conviction that the work will be concluded effectively and rapidly, possibly in eight years.

Appended are a number of reports from Chief Sanitary Officer Gorgas and Chief Surgeon Rixey on health conditions. There is also published a speech delivered by President Roosevelt to the canal employes.

Demand Isle of Pines Be Annexed.

Washington.—H. S. Pearcy of the Isle of Pines is in Washington to confer with the state department officials and members of Congress over the status of that island. He has been elected by the American residents of the island as their representative, and will urge that when the Cuban government is resorted to its people that the Isle of Pines be made a part of the United States, which he contends it is. The Americans have half the population and own three-fourths of the property. He says they are becoming restless over the supervision of their affairs by the Cuban government, and in case the present Congress does not officially annex them, they will take matters into their own hands. Mr. Pearcy does not believe the new Cuban government can be made stable.

Spain Refuses Papers.

Rome.—The Spanish government has notified the vatican that it objects to taking charge at present of the archives of the papal munciature at Paris owing to the rupture of diplomatic relations between France and the vatican. Spain certainly would have accepted the ask if requested by the vatican to do so when the papal nunciate at Paris, Monsignor Lorenzell was recalled as France then could not have made any objection. But after the expulsion of Monsignor Montagnini, the secretary of the nunciature and the search of archives, to take charge of the papal interests in France, might be regarded as hostile to the French government, which would be contrary to the policy of the Spanish government.

Burnham Sentenced to Two Years.

New York.—George Burnham, general counsel for the Mutual Reserve Life Insurance Company, recently convicted of larceny, was sentenced to serve two years in the state prison. Sentence was passed by Justice Greenbaum in the supreme court.

With Coach Burning.

Camilla, Ga.—The southbound Atlantic Coast Line passenger train pulled into this place with the negro coach burning. This car was set on fire by the explosion of a lamp several miles from town. The coach for white people was left up the railroad until after the local fire department had extinguished the flames. No one was injured.

The Banner.

Entered and Published every Thursday at Clanton, Chilton County, Ala.

Entered at the postoffice at Clanton, Ala., as second-class mail matter.

"Here shall the press the people's rights maintain,
Unawed by influence and unbribed by gain,
Here patriot truth her glorious precepts draw,
Pledged to religion, liberty and law."

Subscription, yearly : : : $1.00
Invariably in advance.

Address all communications to THE BANNER, Clanton, Ala.

A MERRY Christmas, may you enjoy yourselves to the fullest extent, tempered of course with wisdom and moderation. The Banner will move into our new office next week, which will interfere very considerably with our arrangements, but the paper will be published just the same, we have never missed an issue yet. The new office at rear of the court house has many advantages over previous locations, but come in and see for yourselves, Christmas time or any other time you are heartily welcome.

The Odd Fellows will hold their first meeting in the new hall over The Banner office on Saturday night, Dec. 22.

Teachers' Institute.

The Chilton County Teachers' Institute was held at Rocky Mount school house, Dec. 14-15, 1906., Supt. J. W. Moore of Clanton, presided.

Mr. Northcut of the Local Board gave the teachers a very cordial welcome to the hospitality of the people's homes. Mr. Marion J. Mims responded to the welcome address in behalf of the Institute.

The following were among the teachers present: Misses Janie Roebuck, Ada Rasco, Stevonia Nash, Alma Lefstad, Mattie Fite, Ola Jones, Julia Parrish, Latona Burns, Nelia Johnson, Lottie Johnson, Bessie Ellis, Bessie Bently, Senie Jones Rosalie Moore and Messrs. J. A. Raines, L. J. Thompson, J. J. Mims, C. M. Baker, Ed. W. Miller, J. O. Williams, H. N. F. Mims, J. M. Parrish, R. A. Rasco, I. Z. Mims, W. Z. Dennis, J. L. Strock, J. H. Bently, L. R. Sawyer, J. W. Moore, Wm. J. Lamkie, Miree Fuller, A. R. Jones, H. P. Self.

The program which has been published in this paper, was carried out with only some slight exceptions. One or two specially important features of the occasion which were not published might be mentioned, as for instance, the big dinners served us by the ladies on Friday and Saturday, and the music furnished by a string band, and the address of Miss Latona Burns of Montgomery, secretaty of the State School Improvement Association.

The following resolution of thanks was read and unanimously adopted;

"Whereas, the people of Rocky Monnt school community have opened their doors for the reception and entertainment of the teachers of Chilton county during the Institute, and have shown us a very beautiful and free-handed hospitality, thereby making it possible for us to have a pleasant and helpful meeting "Therefore, be it resolved that our thanks are due and are hereby expressed.'"

"Be it further resolved, that we are under special obligations to Prof. F. B. Williams for his many courtesies and attentions; to the ladies of the community for the good part they have contributed toward the success of the meeting; to the citizens for furnishing conveyance for the teachers to and from the depot, and to the general public for the kind and fraternal attitude it has manifested toward us." The next Institute will be held at Thorsby. H. P. SELF, Secretary.

Death of Mrs. Henry Mahan.

Mrs. H. M. Mahan died at her home at Cane Creek, Tuesday, after an illness of several months. She leaves a husband and five sons. A good woman has gone to her reward. Our sympathies are with the bereaved family.

About Digestion.

It is not the quantity of food taken but the amount digested and assimilated that gives strength and vitality to the system. Chamberlain's Stomach and Liver Tablets invigorate the stomach and liver and enable them to perform their functions. The result is a relish for your food, increased strength and weight, greater endurance and clear head. Price 25 cents, samples free. For sale by Upchurch Drug co., Clanton, A. Horn, Thorsby.

In Memory

of Mr. Johnie Widener who departed this life Sunday December 16, at the home of Miss Martha Dugee after a severe illness. While a stranger here among us, yet many christian hands did all they could to sustain life, yet God knew best. He leaves a widowed mother, sister and brother to mourn his loss, we hope while it is their loss, it is heavens gain. Paul says; be not forgetful to entertain strangers, for thereby some have entertained angels unawares.

The funeral services were conducted by Rev. S. A. Adams, the interment taking place at the Clanton cemetery Sunday afternoon.

A FRIEND.

TRESPASS NOTICE.

All persons are hereby warned that Hunting is forbidden, under penalty of law, on all lands, known as the Brown lands in Beat 3

MRS. F. J. BROWN.
MISS BESSIE BROWN.

For that Dandruff

There is one thing that will cure it—Ayer's Hair Vigor. It is a regular scalp-medicine. It quickly destroys the germs which cause this disease. The unhealthy scalp becomes healthy. The dandruff disappears, had to disappear. A healthy scalp means a great deal to you—healthy hair, no dandruff, no pimples, no eruptions.

The best kind of a testimonial—"Sold for over sixty years."

In Loving Memory.

Death angel visited the home c Mr. Pate Headley, on Dec. 13, an carried away his loving daughte Mrs. Lucynda Blackwell. Sh leaves a loving, devoted husban and three little children to mour the loss of a good wife and kin mother and a host of relatives an a large number of friends to mour the loss of a good cheerful Christian woman. She joined the Methodist church at Pleasant Grov when but a child and has lived consistent member ever since. H remains were interred in Pleasan Grove cemetery, Dec. 14, Bro. E A. Gibson conducting funeral ser vices by reading a part of Fir Corinthians, and after reading, th beautiful hymn "Asleep in Jesu blessed sleep, from which non never wake to weep," was sung Oh, weep not, dear friends, for th loved one departed, for she ha gone on before to meet with th beautiful land where pain and so row never comes, but everlastir joy and happiness. Oh, could w all live the life that this dear o has lived and meet her in th beautiful home with angelic gree ing. Oh, could we hear her swe voice today, I am sure she wou beacon us to come and join h with the angels' crown, that bea tiful white throne of Christ. O deepest sympathy goes with th bereaved ones in their sad hours.

Resolution of Respect.

Whereas it has pleased the Supreme Master of the universe to remove from our midst our esteemed friend and brother, John M. Brantly to the grand assembly above; and whereas we reluctantly give him up yet we must humbly submit to the Mandates of the Supreme Being and Just Ruler who doeth all things well, therefore be it resolved; that in the death of Bro. John M. Brantly his wife has lost a kind and dutiful husband, his children, a loving father, the community a good citizen and Jemison lodge No. 411, A. F. & A. M., a good member.

Resolved; That Jemison lodge No. 411, A. F & A. M., tender their heartfelt sympathy to the bereaved family in their sorrow and ask the blessings of the great Ruler upon them.

Resolved; That a copy of these resolutions be sent to the bereaved family and published in each of our county papers and be placed on the minutes of this lodge.

STOCK LAW ELECTION NOTICE.

Notice is hereby given that, in pursuance of an order made by the Commissioners' Court of Chilton county, Alabama, on the 13th day of November, 1906, ordering an election to be held in Precinct Six, in said county for the purpose of determining whether or not all live stock shall be prohibited from running at large in said Precinct Six, in said county an election for said purpose will be held on the 15th day of January, 1907, at Kincheon in said Precinct Six in Chilton county, Alabama.

Witness my hand this 13th day of November, 1906.

WALTER POPWELL.

When to go Home.

From the Bluffton, Ind., Banner: "When tired out, go home. When you want consolation, go home. When you want fun, go home. When you want to show others that you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at your best go home and do the act there. When you feel like being extra liberal go home and practice on your wife and children. When you want to shine with extra brilliancy go home and light up the whole household." To which we would add, when you have a bad cold go home and take Chamberlain's Cough Remedy and a quick cure is certain. For sale by Upchurch Drug co., Clanton A. Horn, Thorsby.

For any ordinary diseases of the skin Chamberlain's Salve is excellent. It not only allays the itching and smarting but effects a cure. For sale by Upchurch Drug co, Clanton A. Horn, Thorsby,

What's Your Idea of Success?

To Our Friends and Customers:

The year 1906 will soon be in the past, and many events be forgotten by all, but we shall not allow the kindness we have enjoyed from you during this year, go from our memory.

We have much to feel proud for—you have given us a liberal share of your trade—we have tried to give you value received for your money, and the result is satisfactory to us, and we hope it is with you, and that you will not forget us in 1907 when you are in the market for Hardware.

Please accept our thanks for all this, and our sincere wish that you may have a delightful Christmas, a pleasant and successful New Year.

Yours very truly,

Weak Lungs

NEED VINOL

Its cod liver oil elements heal and strengthen the lungs

Many people inherit weak lungs which are likely to be attacked by consumption. So also are lungs weakened by disease or by a stubborn hacking cough

Vinol, which is a real cod liver preparation with all the useless oil eliminated and tonic iron added, strengthens weak lungs and gives one the power to throw off wasting diseases.

We ask every person suffering from weak lungs, stubborn hacking coughs or any wasting disease to try Vinol on our offer to return money if it fails. Upchurch Drug co.

GUARANTEED REMEDY FOR INDIGESTION,

Interesting Statement by Florence Drug Co.

When a man comes into this store and calls for any particular indigestion remedy, we always give him what he ask for, but in case he leaves it to us we usally recommend Pepsikola tablets.

Here is a preparation we have been selling right over the counter for years, and from actual observation we know it must do good, and really does relieve and cure indigestion and dyspepsia or there would be a steady stream of people coming back for their money, as every 25 cent box is sold with the understanding that you must be decidedly benefited or there is nothing to pay.

You simply try Pepsikola tablets with the understanding that they will steady your nerves, improve your appetite, relieve wind belching, coated tongue, sour stomach, fullness after eating, weakened energy, and other symptoms of indigestion or Florence Drug co., are ready at any time to pay back your money without the least argument.

SONG OF SOULS THAT FAILED.

We came from the [illegible] valleys,
Where the strong [illegible] clash in might,
Where the [illegible] our guard rallies
For the [illegible] and [illegible] fight;
From the roaring streets and highways,
Where the mad crowds more-thronged,
We come to the wooded byways,
To cover our grief, and rest.

Not ours the [illegible] the coward,
Not ours is the idler's shame;
If we sink at last, o'erpowered,
Will ye whelm us with scorn or blame?
We have seen the goal and have striven
As they strive who win or die;
We were burdened and harshly driven,
And the swift feet passed us by.

When [illegible] the [illegible] thunder,
And [illegible] to the victor's shout,
We envy them not, nor wonder
At the [illegible] that cast us out;
For we [illegible] but one only,
The [illegible] voice that calls
To the defeated soul and lonely
Who fights to the end and falls.

We come, outworn and weary—
The [illegible] hosts of life;
Long was our search and dreary,
[illegible] long our strife.
Out from the dust and the riot—
From the lost, yet glorious quest,
We come to the vales of quiet,
To cover our grief, and rest.

—Marion Couthouy Smith in McClure's Magazine.

HIS PROMOTION.

By W. R. ROSE

The girl had an impetuous way of emphasizing her remarks. "You are much too young for a guardian," she said to the young man, and voice and foot and head added emphasis to the statement.

The young man smiled.

"My youthfulness is an offense that I cannot immediately correct," he said. "Give me time. I'll try to live it down."

The girl frowned. "You seem to delight in treating the subject flippantly," she said. "Don't you think I'm old enough to choose my own guardian?"

He smiled. He seemed to have an inexhaustible fund of good nature.

"I would prefer not to answer that question," he said. "In the eye of the law you are still an infant."

"An infant!" she echoed. "Well, I fancy I'm a pretty lively infant. I'm the sort of infant that knows enough to claim its rights. It's money I'm clamoring for just now."

"Yes. At the same time I think your allowance is quite large enough. It is the amount fixed by your father, and I do not feel justified in raising it."

The girl pouted.

"Well, I can't make it go round."

"But do you try?"

"Of course I do."

"You mean you think you do." His quick eyes rested on the girl's hat lying on the table. "Here's a little object lesson," he said, as he picked up the hat. "You bought this hat at Mme. Flibert's last Tuesday. You paid $46 for it."

The girl stared at him.

"How do you know?" she cried.

"A guardian must know many things. Very indiscreetly you told who you were as soon as you entered the shop. You are known to be an heiress. This immediately advanced the price of any hat you might select."

"I don't believe it."

"It is quite true. You finally picked out this hat. Madame condescended to let you have it for $46. The real price was $25."

"Impossible! How can you know this?"

"One of the saleswomen in the place is the sister of one of the young men in my office. She told him how the girls laughed over madame's cleverness after you left the shop. The young man thought I would be interested in the story."

"It's a shame!" cried the girl. "I'll never go there again!"

"Certainly not," said the young man. He eyed the hat critically. "Besides, it isn't the style of hat that becomes you. There's too much droop to the brim here. It hides your face too much, and gives you a rakish air."

She stared at him again.

"Are guardians expected to know all that, too?" she asked.

"This guardian is simply trying to do his duty," the young man replied.

There was a little silence.

"I'll have that hat retrimmed," said the girl.

"Good," cried the guardian.

"And you'll let me have $50?"

He laughed and shook his head.

"I don't suppose it would be polite for me to say that you are the stingiest guardian I have ever had," she said.

He smiled at her accusation.

"I can't help it," he answered. "I would rather have your good opinion, of course, but I'm trying to do what your father expected me to do."

She came to him and put out her hand.

"You must forgive me, George," she said in her quick way. "I wouldn't wound your feelings for the world. Will you forgive me?"

"Why, of course, Ethel."

Her face beamed.

"George," she cried, "if you were only twenty years older I would kiss you."

He drew his breath sharply.

"Come, come," he said, "remember that you are no longer a child. How old are you your next birthday?"

"You know that, too. It's next Wednesday."

He nodded. "I may have a little surprise for you," he said. "If you are real good."

"I make no promises," she answered. "Perhaps I'll have a surprise for you, too."

He looked at her sharply. "You haven't been falling in love, have you?" he asked.

She tossed her head airily. "And what if I have?"

"Well, it's a guardian's business to know something about the man. At least, the gaurdian should be consulted."

She tossed her head again.

"Have you ever thought that I might—might want to marry—to marry?"

He started a little.

"Then there is somebody?"

"I—I'm not quite sure."

"Is it Douglass Gaines?"

"Why do you mention him?"

"He has seemed to like your society. Other people have noticed it. His father is my law partner, you know, and he has spoken to me about this attachment, as he calls it. He told me yesterday that it would please him greatly if you favored his son—and he asked me to use any influence I could bring to bear. I do not regard it as any breach of confidence to tell you this."

The girl looked up at him inquiringly.

"And do you approve, George?"

He hesitated a little.

"Douglass comes of an excellent family. I greatly esteem his father. As far as I know the boy has a good reputation. He is a little too boyish for his years, perhaps, but that isn't a serious fault."

"And you would interpose no objection?"

"Not if you loved him."

She was silent a moment. Then she smiled.

"You mustn't forget that Wednesday is my birthday, and you are to take supper with me here. There is to be an exchange of surprises, you know."

"I remember," he said. "I will come. Good-by."

As he went down the front steps the girl called to him.

"George," she cried, "if you see Douglass at the office tell him I'd like to see him, please."

As he walked away the young man's face clouded.

"When John Lamberton urged me to be the guardian of his child he didn't know that he was asking me to play with fire," he muttered. "Every day she grows more charming. Every time I see her my peace of mind is freshly shattered. But Douglass—oh, well, it will have to be all right if she fancies him. There is one thing certain—I must give up this guardianship."

As for the girl, she lingered a moment in the doorway looking after her guardian's departing figure.

"Poor George," she murmured. "But he's too silly to deserve any pity. As if I couldn't see that he loves me so much that he's actually afraid of me. And all that pretense about lecturing me for my extravagance! Why, he's as transparent as glass. Poor George!"

That afternoon Ethel Lamberton had a caller, a chubby-faced youth with clothes of extreme cut and a hat with a parti-colored band. It was young Douglass Gaines, and young Gaines looked a little worried.

"Hullo, Ethel," he said.

"How do you do? Mr. Edgar gave you my message?"

"Yes, I—I was afraid it might be something serious."

"It may prove serious," said the girl.

He looked at her helplessly.

"You haven't seen dad, have you?"

"No."

"Maybe you know what he wants?"

"Maybe I do."

"Then you know he wants me to marry you?"

"I have heard something of the kind."

He looked still more helpless.

"You do not look pleased," said the girl.

There seemed to be a lump in the young man's throat. "Are you pleased?" he stammered.

"That isn't fair," said the girl. "I mustn't show my feeling until—well, until you make yourself more definite. Are you pleased?"

"No," he blurted out. Then he mustered all his courage. "I like you first rate, Ethel. You're a jolly girl all right. B-but I don't like you in the way—well, in the way father wants me to like you."

The girl frowned.

"That isn't flattering, Douglass. Your father—"

He interrupted her.

"You know my father wants you in the family? It's your money he wants."

The young man drew a long breath.

"I wish some I knew had a little money. Enough at least to impress father."

The girl shook her head at him.

"Then I have a hated rival?"

"N-not a rival, Ethel. She is very fond of you. She thinks you're a wonderful girl."

"Then I know her?"

"Yes."

"Is it Emily Robbins?"

"Yes. How did you guess?"

"Never mind. And you prefer Emily Robbins to me?"

"Yes. You don't care very much, do you?"

"And you want to marry Emily?"

"Of course."

"Does Emily know?"

"She knows. It's all right—except for dad."

"Suppose I bring a little influence to bear on your father?"

"Can you—will you?"

"Would it do any good to have George Edgar talk to him?"

"Of course it would. He's the very man. Whatever George Edgar says always goes with dad. There isn't a finer fellow on earth than George. You ought to hear what they say about him in college. He was a great half-back of his year, you know. But he wouldn't speak to dad, would he?"

The girl smiled.

"I am quite sure he will if I ask him."

"Fine. We'd like to be married in June if it's all right."

It was a dainty little birthday dinner to which the girl invited her guardian, and the guardian looked at the arrangement of the table with surprise as well as appreciation.

"Am I the only guest?" he asked.

"The one and only," she answered. "We couldn't expose our little surprises to outsiders, you know."

She had never looked more charming. The womanly side to her character seemed to him suddenly developed. She was no longer a child.

He had never enjoyed a dinner as he enjoyed that one. Yet he knew it must be the last. And when it was ended he felt that he time had come for him to tell her of his resolve, and to take himself out of her life forever. Then—

"That was a mistake about Douglass," she said.

"A mistake?"

"Yes. I sent for him, you know, and when he came he told me he didn't care for me."

"Douglass told you he didn't care for you?"

"Yes. He likes some one else much better. It's Emily Robbins. And you are to speak to Douglass' father about her and use your best influence to help them."

He drew himself up a little stiffly. "I'd rather not," he said.

"I promised you would," murmured the girl.

He drew a quick breath. "Then I will," he said.

"Douglass will be very grateful," said the girl, "and so will Emily—and so will I."

He fumbled in an inner pocket and brought forth a letter.

"Here is my surprise, Ethel," he said. "It's my resignation as your guardian. Your father made this optional with me. If on your twentieth birthday I deemed it wise to give you full possession of your property I could do so. This was the first birthday remembrance I could bring you—your freedom."

The girl slowly smiled.

"I don't notice that this sudden accession of liberty makes any difference in my feelings," she said. "But you mean it well, of course, and I thank you." Her clear eyes regarded him steadily. "George Edgar," she slowly added, "I begin to realize how much I owe to you, how faithful and lovingly you have served me. But you deserve something better than mere thanks." She hesitated a little, then bravely continued. "It seems to me that you deserve promotion."

"A promotion, Ethel? What does that mean?"

She flushed a little.

"You know what promotion means, dear friend. If there is in my service any higher office than that of guardian I think you deserve it."

Then he seemed to dimly comprehend her meaning. He leaned forward. His voice trembled when he spoke.

"Ethel," he slowly said, "what was that surprise you promised to give me to-day?"

She suddenly put out her hand to him.

"Myself," she softly answered.—Cleveland Plain Dealer.

Children's Shoe Trees.

Boot trees are a comparatively recent addition to the requirements of the average American man or woman and are one of the many little signs of the luxury of the times, for the average New Yorker who makes any pretensions to being well groomed has a pair of trees for every pair of boots and shoes. Just to make this luxury a little more insistent, they have taken to making trees for children's shoes now, and the cost to mothers who think it necessary for their children to have such things is just as much for a pair to fit a No. 6 child's size as for a pair to fit a man's No. 10's.—New York World.

Five-Ton Nests.

The largest birds' nests are to be found in Australia. The Australian jungle fowl build for nests great mounds, fifteen feet in height and 125 or 150 feet in circumference. Grass, leaves and other vegetable matter are used in the construction of the nests, which easily weigh a ton.

The Australian brush turkeys, working in colonies, build pyramidal nests even larger. One of these nests, on being removed, filled seven carts, and its total weight was five tons.—Philadelphia Bulletin.

For Safety.

A traveler passing through a small country town noticed a post on which was marked the height to which the river had risen during a recent flood.

"Do you mean to say," he asked a native, "that the river rose as high as that in 19—?"

"Oh, no," replied the native, "but the village children used to rub off the original mark, so the mayor ordered it to be put higher up, so as to be out of their reach."—Tit-Bits.

THE PULPIT

A SUNDAY SERMON BY THE REV. IRA W. HENDERSON, THE FAMOUS DIVINE.

Subject: Vision.

Brooklyn, N. Y.—Speaking at the Irving Square Presbyterian Church on the theme, "Vision," the Rev. I. W. Henderson, pastor, took as his text, Ps. 119:18: "Open Thou mine eyes." He said:

Of all the physical gifts which we have received at the hand and by the grace of a loving Father the natural eyesight is the best. What a blessed bestowal it is. I fancy that most of us, had we to give up any of the senses would relinquish the sense of sight last. Most of us, I believe, would lose all our other faculties before this one. The eyes reveal to us the animate world. They are the windows out of which we look upon the universe of God. With them we study the handiwork of Jehovah in nature and in human kind. Through them we search the wonders of the Heavens and view the brilliant beauties of the paintings of God in sky and cloud, in hill and vale, in woodland, stream, in lake and sea.

The eyes are for use. They grow strong and acute and increase in power of discernment by exercise alone. Visual facility is the result of visual activity. The man who does not, or cannot, use his eyes, sooner or later loses the faculty of vision. The poor prisoner in the donjon keep, with only darkness for companionship and with no consolation save the slow approaching hand of death, after years of dark confinement and of torture hideous and maddening, loses the power to see.

Seeing is not looking. Many people look who never see. They look upon things, but they rarely see into things. Their eyes catch visions, but they rarely pierce beneath the surface. Many people look at things, they cast their eyes upon things, but they do not see.

Seeing is a discipline. Looking is a habit of the lax. To see we must cultivate the power of perception. We must school ourselves to look beyond the superficial to the eternal underlying realities. And because they lack perception, because their eyes have not been opened, because they do not possess, through exercise, the ability to differentiate, to discern, to perceive clearly, many people really do not see. It was not until the clear vision of a Ruskin showed to me the purple haze at sunset that I learned to know and love the darkening beauty of the hills.

Those who have used their eyes are the world's greatest men. "As one of our wisest teachers has said, the greatest thing a human soul ever does in this world, is to see something, and to tell what it saw in a plain way. Hundreds of people can talk, for one who can think. But thousands can think for one who can see; to see clearly is poetry, prophecy and religion, all in one. Therefore, finding the world of literature more or less divided into thinkers and seers, I believe we shall find also, that the seers are wholly the greater race of the two." For, as Dr. Hillis has said, "greatness is vision." I fancy that many a man had bathed in a tub before Archimedes, at his bath, discovered the eternal fact of the displacement of bodies and formulated the truth of displacement into law. Multitudes of men unquestionably gazed upward into the heavenly firmament and studied the movement of the heavenly spheres before Copernicus; but it remained for him, with the seeing eye, to reveal to humanity the underlying principles of the celestial galaxies. Newton was not the first man who had watched an apple fall from a leafy bough; but he was the first one who really saw the apple fall. Other men had seen it and had not been by it impressed. Newton used his eyes and to us was given the law of gravitation. Columbus was not the first man who stood upon the shores of Portugal and watched the ships sail hull first over the horizon's edge, into the unknown bosom of the sea; but in the disappearing vessel Columbus saw the prophecy of the rotundity of the earth. Multitudes of kettles of diverse form had steamed on many a hearth before the days of Watts; but only Watts saw the locomotive in the wasted, superheated vapor. With a kite and a string many a boy and many a man had wiled away the pleasant hours; but it was not until Franklin, with a prevision born of application, sent his frail sky-craft up into the clouds that the wonder of electricity became realized to men. Darwin, Wallace and Agassi, delving into the mysteries as well as the superficialties of natural life, were not the first to gaze upon the animal life that is teeming round about us; but they were the first to understand, with insight and clear vision, the handiwork of God therein. It is said that Henry Ward Beecher could see and reveal more beauty in the top of a head of celery than the average man is able to discern in the full-bloom beauty of the rose. Yes, "greatness is vision."

The world needs discernment. That is to say it needs seeing eyes. It needs to cultivate the habit and the faculty of perception. This is true in the intellectual, in the civic and the spiritual world, not to mention others.

We need vision in the intellectual life. Too great insistency cannot be laid upon the need for clear-cut, definite, incisive thinking. We cannot afford as men or as a society to do less than cultivate our powers of intellectual discernment to the full. If we are to have a theory of knowledge which shall be valid: if we are to have a wise statement of the underlying principles of life, we must have men who, with keen intelligence and with prevision extraordinary, shall be able to analyze their experiences and ours, and give to humanity a philosophy which shall explain, as well as be founded upon, the facts of our human existences. All honor to the men in every school, in every land and in every age, who have given their best years and their ripest wisdom to the task of the investigation, delineation, revelation of the phenomena of which humanity is conscious. They have placed the world in debt. And if we in the coming generations are to continue the meritorious service that the philosophers of the past have achieved for us, it is absolutely requisite that we shall have an intellectual fidelity and power of pre-vision which shall be commensurate with the need, the opportunity and our time.

Not otherwise is it in the civic life. Here, if anywhere, we must have vision. The memories of Washington and Jefferson, of Webster, of Gladstone, of Lincoln, project before our minds the crying necessity for a civic vision. As we stand at the parting of the ways, when to go forward is to accept new opportunities and to be invested with larger responsibilities and obligations unto service, it is imperative that we shall see clearly and far-reachingly into the future of our civic life. Blind men cannot lead us. Only a leadership that sees is fit for the front in the march of progress.

But great as is the call for an exercise of insight and for men of vision in the intellectual and civic affairs of men, still greater is the demand for profound vision in the spiritual life. As Moses and Isaiah saw the truth of God unto spiritual satisfaction, for the men and women of the Israelitish race; as Paul and Luther and Wesley and John Knox and John Calvin and Channing and a myriad of other saints of God laid bare the truth of God to the gaze of the Gentile world; as the Lord Jesus Christ with divine insight revealed the eternal truth of the Father for the benefit of sinning souls; so must we, to-day, as we desire to be leaders in our time, have the vision of the prophets and of a son of God, unto the portrayal of the truth of God to the race. No man is fit to be a leader for the souls of men until first he has had a vision of the Lord. None of us is capable of lifting men to the level of the life of Jesus Christ until he has had himself a clear discernment and preception of the truth of God. The blind cannot lead the blind. The blind do not desire to be led by the blind. The blind should not have the temerity to attempt to lead the blind. Only a man whose spiritual vision is unclouded should have either the courage or the audacity to try to show the beauties of the God-blessed life to other men. That man, alone, is competent to be a guide through the wilderness of life, and to lead men along the road of righteousness to the goal of spiritual victory, who has seen already for himself the truth of which he is the revelation.

The spiritual vision is the best vision. We may not, as did Moses, walk with God. We may not sense His presence with the faculties of the natural man. But we may, in the fineness of our spiritual perception, be and become as intimate with God in a spiritual manner as Moses or Abraham or Enoch or Isaiah ever were. Spiritual vision is the best vision. As the Psalmist pleaded, so should we cry out to God in earnest supplication, "open Thou mine eyes." Not only that we may learn wondrous things out of His law, though we may do that; but that we may also receive such a vision of the heavenly realities; of the eternal verities; of Him who dwelleth in the secret chambers of the Most High; as shall sustain, uplift and inspire our immortal souls.

Oh, that we might have our eyes opened wide by God unto the discernment of the truth of His Kingdom and of the life in-dwelt by Him. Would that Christ might be allowed to lay His hand upon the eyes of those who are spiritually sightless. What joy would be theirs. What contentment would be their portion. What peace would pervade their souls. What a vision of God's infinte and eternal glory would be opened to their gaze.

Yea, Lord, open Thou the eyes of Thy church. Open Thou the eyes of Thine erring children. Grant us a vision of Thy truth. And may we with open eyes, beholding the glory of the Lord, live as ever in His presence until there shall come into our vision the reality of the commonwealth of God, the City of God, the habitation of the saints, the land not made with hands, eternal in the heavens.

Are You Working For Temperance?

The great question, after all, in temperance is not whether all people are working in the same way, but whether they are working in some way for this urgent cause. People will never wholly agree upon methods in temperance any more than they will in church policy. It is useless to try to round up all temperance sympathizers in the fold of one society or under the leadership of one reform or one newspaper. This is not to say that all methods are equally good, for some are better than others and some may do well for one set of circumstances, but not for others. The best methods must be sought, with charity for those who differ from us. And yet, the great, insistent moral question is not "Are you working in any way for temperance?" but "Are you conscientiously and prayerfully and definitely working in some way to reform the drunkard, to abolish the saloon, to educate the children, to oppose the exportation of American rum to American colonies—in a word, to make the world a cleaner, quieter, happier place to live in?—Caleb Jones, M. D., in the Cornerstone.

Priests to Other Souls.

Every humble soul that sees the Father, and lives in that sweet vision, becomes a priest to other souls. A sacramental power goes from the voice, the touch, the look, of every one who is himself loving God.

Dropsy CURED Gives Quick Relief.

Removes all swelling in 8 to 20 days; effects a permanent cure in 30 to 60 days. Trial treatment given free. Nothing can be fairer. Write Dr. H. H. Green's Sons, Specialists, Box B Atlanta, Ga.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

◆ ◆ ◆

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them; and in confirmation of this conviction, he points with pride to the almost marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action. The reason why it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed *free* to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

◆ ◆ ◆

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic drains, painful periods, irregularities, prolapsus and other displacements caused by weakness, ulceration of uterus and kindred affections, often after many other advertised medicines, and physicians had failed.

◆ ◆ ◆

Both the above mentioned medicines are wholly made up from the glyceric extracts of native, medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle-wrapper.

France's Prosperous Dairies.

France alone among European countries is agriculturally properous. The New York Tribune gives this interesting summary of its dairy work:

There are 109 creameries which yearly produce 20,000,000 pounds of butter, worth $5,000,000. The total butter product of France is now worth more than $58,000,000 a year, and the cheese is worth $25,000,000. And all this is over and above the vast quantity of milk consumed by the people. There can be no doubt that the co-operation system of organization and conduct of business is also to be credited with a large share of French prosperity. There are now more than 3,300 co-operative dairies in the republic, and the number is steadily increasing. These combinations enable the peasant with only two or three cows to purchase supplies and to dispose of his products as advantageously as though he had a herd of hundreds.

Raphael's great picture, "The Transfiguration," was carried in his funeral procession.

The Evils of Constipation

are many; in fact, almost every serious illness has its origin in constipation, and some medicines, instead of preventing constipation, add to it. This is true of most cathartics, which, when first used, have a beneficial affect, but the dose has to be continually increased, and before long the remedy ceases to have the slightest effect. There is one preparation, however, that can be relied upon to produce the same results with the same dose, even after fifty years' daily use, and this is Brandreth's Pills, which has a record of over 100 years as the standard remedy for constipation and all troubles arising from an impure state of the blood.

Brandreth's Pills are the same fine laxative tonic pill your grandparents used and can be found in every drug and medicine store, either plain or sugar-coated.

Send Him There.

A senator from a central Western State sought an interview with the President, asking him to appoint to a foreign consulate an applicant to whom the senator was in some way bound, but who was heartily disliked by reason of his offensive persistence in seeking favors.

"Where do you want him sent?" the senator was asked.

At this the senator took a step or two to the center of the room, where stood a large globe. Putting one arm around it as far as he could reach, the senator said:

"I don't know what locality my finger touches, but please send him there!"

If either Peary or Wellman should find the North Pole it would prostrate the Arctic exploration industry, and they must be very careful or they will do themselves out of their job. There is no immediate reason for fearing that they may not make their dashes at the Pole every year.

A BRILLIANT SUBJECT.

America Imports More Diamonds Than Ever Before.

Thirty-five million dollars' worth of diamonds were imported into the United States in the fiscal year 1906, against $27,000,000 in 1905, $19,000,000 in 1904 and $26,000,000 in 1903. These figures, just announced by the Bureau of Statistics of the Department of Commerce and Labor, show that the importation of diamonds in 1906 was of greater value than in any earlier year in the history of our import trade.

No article shows greater fluctuation in the imports than diamonds. In 1906 the total, as indicated, was $35,000,000; in 1904, two years earlier, only 19,000,000; in 1903, $26,000,000; in 1900 but $12,000,000; in 1897 less than $2,000,000, and in 1893 about $15,000,000.

This total of $35,000,000 worth of diamonds imported in 1906 exceeds materially the figures of any earlier period. The largest total prior to 1906 was that of 1905, about $27,000,000, while the total for 1903 fell but slightly below that of 1905.

About $10,500,000 worth of diamonds imported in 1906 were uncut, to be prepared for use by the diamond cutting establishments of the United States, while over $24,000,000 worth were cut but not set. There has been a slow but steady growth in the importation of uncut diamonds, while cut diamonds have shown a greater fluctuation than those not cut. The total value of uncut diamonds imported in 1900 was a little less than $4,000,000, in 1902 a little more than $6,000,000, in 1903 nearly $11,000,000, and since that period has continued at about this figure, while cut diamonds, which in 1900 were a little less than $8,000,000 were over $15,000,000 in 1903 and $24,000,000 in 1906.

Practically all the diamonds imported into the United States, while the product of the African mines, are imported direct from European countries. Of the $10,500,000 worth of uncut diamonds imported in 1906 nearly $7,000,000 came from the United Kingdom and about $2,000,000 from Belgium, while of the $24,250,000 worth of cut diamonds imported in that year $10,000,000 worth were from the Netherlands, the great diamond-cutting country of the world; $5,000,000 worth from France, $4,500,000 worth from Belguim and $4,500,000 worth from the United Kingdom.

In addition to the $35,000,000 worth of diamonds imported in 1906 there were brought into the United States over $5,000,000 worth of other precious stones, cut but not set, including natural pearls, thus making the total value of precious stones brought into the United States in the year just ended over $40,000,000, against about $33,000,000 worth in 1905 and $31,000,000 in 1903.—Harper's Weekly.

Daft, but Canny.

Frederick Ireland, a stenographer of the House of Representatives, at the convention at Atlantic City, of the National Association of Stenographers, said, apropos of a rash course:

"I can't approve of this action, because I am a foe to rashness. In handling the affairs of a great body of men I believe in prudence and carefulness. I am almost as prudent and careful as the weak-minded Scot of Peebles.

"This Scot, a silly look on his face, was skating near the famous iron bridge of Peebles on a winter day.

"Some young ladies wished to skate under the bridge, but they did not know whether the ice was safe or not. So, approaching the Scot, the youngest and prettiest of them said:

" 'Sanders, would you mind just gliding under the bridge and back, so as to test the ice?'

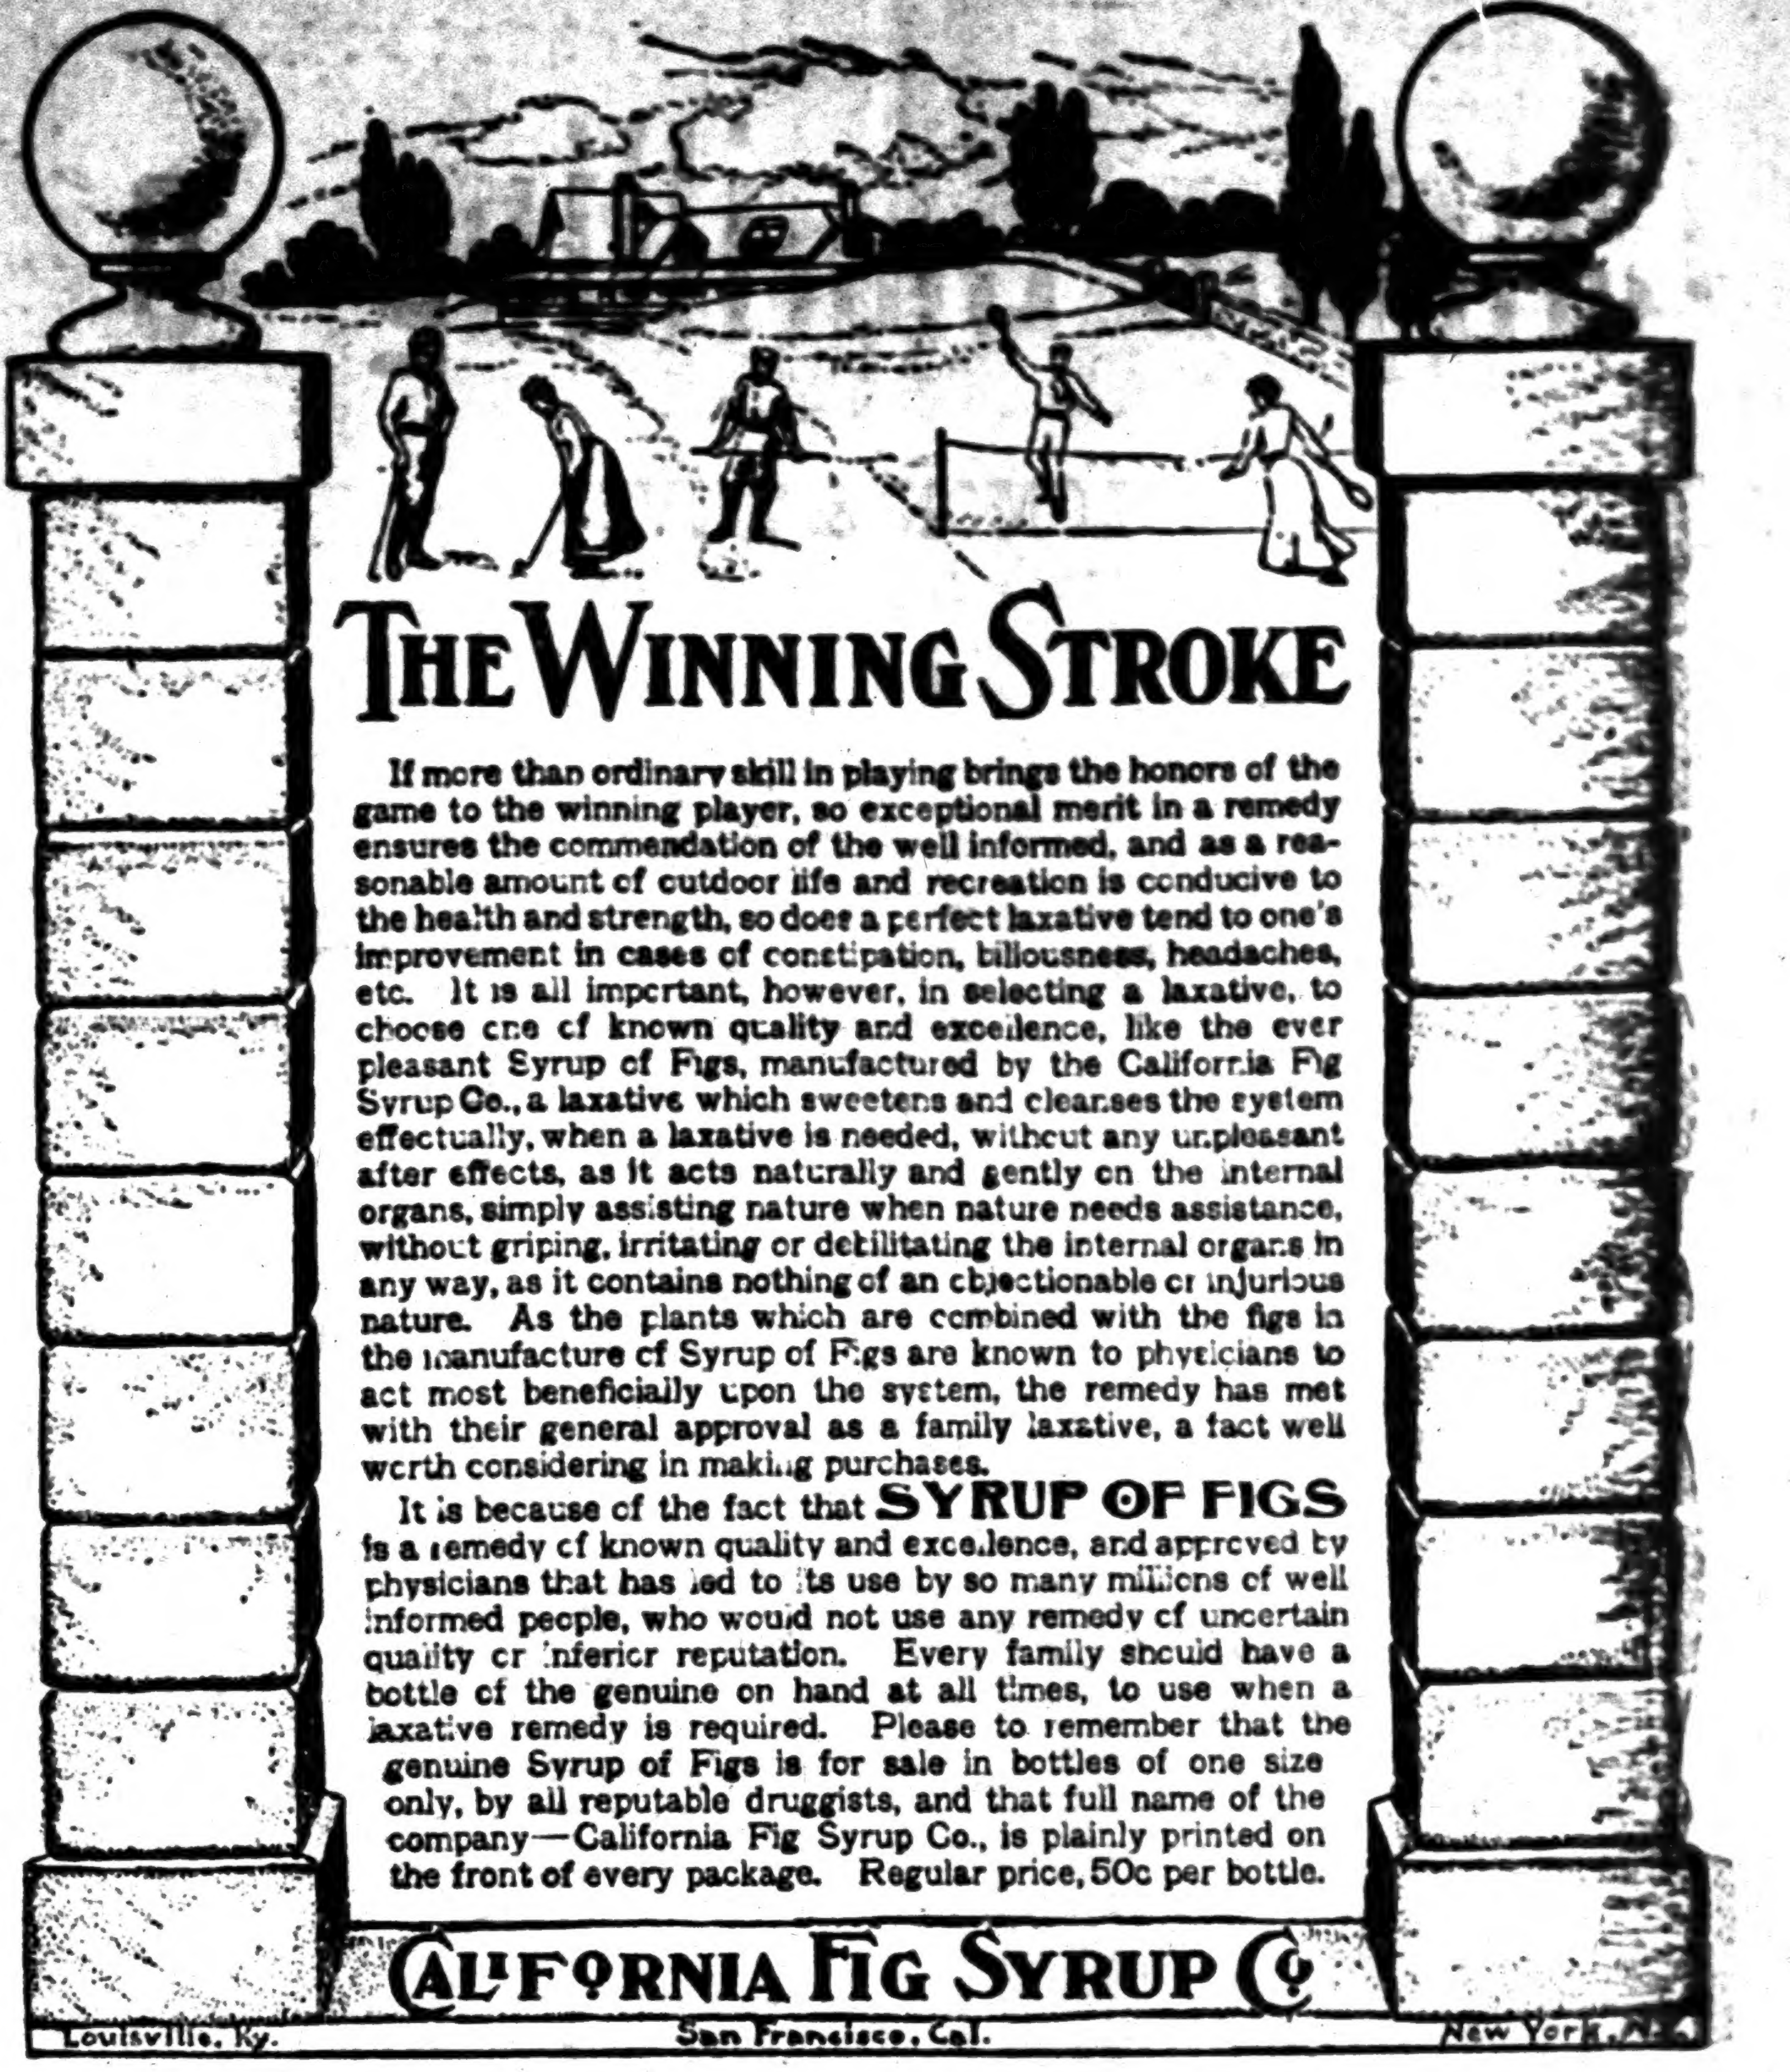
"The half-witted Sanders took off his cap and with a bow and a smile he replied:

" 'Na, na! If I am daft I ken manners. Leddies first.' "—Philadelphia Bulletin.

Certain butterflies have marked odors, some good, some bad. Dr. F. A. Dixey, a British entomologist, mentions a white butterfly of England that has the fragant scent of lemon verbena, and has noted many species in Africa with such odors as those of chocolate, vanilla and various flowers. The agreeable odors belong to males, being a charm to attract females. The offensive odors, shared by both sexes, are protective, repelling enemies.

The only horse that escaped from the massacre by Indians of General Custer's force was pensioned by the United States government.

The average age of persons arrested in New York city is twenty-two and one-half years, and one out of five is a woman.



THE WINNING STROKE

If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectually, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well worth considering in making purchases.

It is because of the fact that **SYRUP OF FIGS** is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists, and that full name of the company—California Fig Syrup Co., is plainly printed on the front of every package. Regular price, 50c per bottle.

Bismark's Lucky Number.

Bismark, writes a correspondent, in reference to our paragraph on superstition, held, with Pythagoras, that not thirteen but three was the great and perfect number. Bismark's associations with three were remarkable. He served three masters. He had three names, Bismark, Schoenhausen and Lauenburg. The arms of his family are a clover leaf and three oak leaves. He was concerned in three wars, and signed three treaties of peace. In the Franco-Prussian war he had three horses killed under him. He brought about the meeting of three emperors, and was responsible for the triple alliance. He had three children; his family motto was In Trinitate Robur (Strength in Trinity); and contemporary caricature pictured him with three hairs on his head. Three was the beginning, the middle and the end of Bismark.—London Chronicle.

DISFIGURING SKIN HUMOR

Impossible to Get Employment, as Face and Body Were Covered With Sores —Cured by Cuticura.

"Since the year 1894 I have been troubled with a very bad case of eczema which I have spent hundreds of dollars trying to cure, and I went to the hospital, but they failed to cure me, and it was getting worse all the time. Five weeks ago my wife bought a box of Cuticura Ointment and one cake of Cuticura Soap, and I am pleased to say that I am now completely cured and well. It was impossible for me to get employment, as my face, head and body were covered with it. The eczema first appeared on the top of my head, and it had worked all the way around down the back of my neck and around to my throat, down my body and around the hips. It itched so I would be obliged to scratch it, and the flesh was raw. I am now all well, and I will be pleased to recommend the Cuticura Remedies to all persons who wish a speedy and permanent cure of skin diseases. Thomas M. Rossiter, 290 Prospect Street, East Orange, N. J. Mar. 30, 1905."

Sir Andrew Noble has reached the highest point of temperature in terrestrial thermometry. He has accomplished this by exploding cordite in closed vessels with a resulting pressure of fifty tons to the square inch, and a temperature of no less than 5200 degrees C. Sir William Crookes saw that one incidental result of this experiment should have been the formation of diamond—that is, if his calculations were correct. On working over the residues of the explosion-chamber he has recently extracted from them small crystals that seem to be veritable diamonds.

A reflector for concentrating the sun's rays with an area of 120 square yards will boil eighty-eight gallons of water in forty minutes.

Green branches of eucalptus are used as disinfectants in Australian hospitals.

Piles Cured in 6 to 14 Days.

HOGLESS LARD

Made under U.S. Government Inspection

The Southern Cotton Oil Company

Am. 51, 1906.

Have You A Cold Room?

In most houses there is a room without proper heating facilities—to say nothing of chilly hallways. Even though the heat of your stoves or furnace should be inadequate to warm the whole house there need not be one cold spot if you have a

PERFECTION Oil Heater

(Equipped with Smokeless Device)

It will heat a room in no time and will *keep* it warm and cozy. Operated as easily as a lamp and perfectly safe. Wick cannot be turned too high or too low. Gives no smoke or smell because fitted with unique smokeless device. Can be carried about, which cannot be done with an ordinary stove. The Perfection Oil Heater is superior to all other oil heaters and is an ornament to any home. Made in two finishes—nickel and japan. Brass oil fount beautifully embossed. Holds four quarts of oil and burns nine hours. Every heater warranted. If not at your dealer's write nearest agency for descriptive circular.

THE **Rayo Lamp** is the safest and best all-round household lamp. Made of brass throughout and nickel-plated. Equipped with latest improved burner. Every lamp warranted. An ornament to any room whether library, dining-room, parlor or bedroom. Write to nearest agency if not at your dealer's.

STANDARD OIL COMPANY, Incorporated.

HOLLISTER'S

Rocky Mountain Tea Nuggets

A Busy Medicine for Busy People.

Brings Golden Health and Renewed Vigor.

A specific for Constipation, Indigestion, Liver and Kidney troubles, Pimples, Eczema, Impure Blood, Bad Breath, Sluggish Bowels, Headache and Backache. Its Rocky Mountain Tea in tablet form, 35 cents a box. Genuine made by HOLLISTER DRUG COMPANY, Madison, Wis.

GOLDEN NUGGETS FOR SALLOW PEOPLE

BEAUTY MORE THAN SKIN DEEP.

Every one who wants a good healthy color, and clear skin free from biliousness, sluggish liver and chronic constipation should get a package of Dainty Laxakola tonic tablets, nature's sweet restorer. Florence Drug co.

TYNER'S DYSPEPSIA REMEDY.

Many Have Dyspepsia and don't Know It Read Symptoms.

Do you belch up wind? Do you taste your food for an hour or more after eating? Do you see specks or haze before your eyes? Are you pale and haggard? Does your heart flutter? Are you dizzy at times? Do you have pains in side or back? Do you have risings or pimples on the skin? Are you low spirited? Is there a sour taste in your stomach? Is your breath bad? If so you have Dyspepsia, and it is a dangerous condition, don't delay, but take Tyner's Dyspepsia Remedy as directed on label. It is made for just such troubles and symptoms. Tyner's Dyspepsia remedy removes acids from the stomach, strengthens weak stomachs, helps digest your food, stops all achs and pains, stops fluttering of the heart, (sometimes called heart disease.) By making the food digest, new blood is made and all pimples disappear. Tyner's Dyspepsia Remedy, sold by druggists, 50 a bottle. Money refunded if it fails to cure. Sold in Clanton by Florence Drug Store: call or write; remedy sent by express.

CHARMING WOMEN.

Nothing lends more to personal charm than a clear rosy skin and nothing is so sure to free the skin from its sallowness and the effects of chronic constipation as the Dainty Laxakola tonic tablets, 25 cents. Florence Drug co.

F. O. DUDLEY, Postmaster.

GIVEN UP TO DIE.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Upchurch Drug co.

GINNING SEASON 1906-7.

Having engaged Joe and Walter Maddox to run and operate our gins for the coming season, we solicit your patronage.

Respectfully,
Chilton Warehouse & Mfg. Co.

A Home Made Happy by Chamberlain's Cough Remedy.

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bronchitis. We had two doctors but no relief was obtained. Everybody thought she would die. I went to eight different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I try Chamberlain's Cough Remedy. I did so and our baby is alive and well today—Geo. W. Spence, Holly Springs, N. C. For sale by Upchurch Drug co., Clanton. A. Hare, Thorsby.

PUBLIC SPEAKER INTERRUPTED.

Public speakers are frequently interrupted by people coughing. This would not happen if Foley's Honey and Tar were taken, as it cures coughs and prevents pneumonia and consumption. The genuine contains no opiates and in a yellow package. Upchurch Drug co.

Married at the court house, Dec. 13. Mr. Willie Jones and Miss Arra Calloway. Best wishes to the happy young couple.

Orino Laxative Fruit Syrup, the new Laxative, stimulates, but does not irritate. It is the best Laxative. Guaranteed or your money back. Upchurch Drug co.

TAX NOTICE.

I will be at Clanton the last 10 days in the year, commencing Dec. 20, 1906. All taxes not paid by Jan. 1, 1907, will become delinquent.

T. J. HUBBARD
Tax Collector

Foley's Honey and Tar cures the most obstinate coughs and expels the cold from the system, as it is mildly laxative. It is guaranteed. Do not risk taking any but the genuine in the yellow package. Upchurch Drug co.

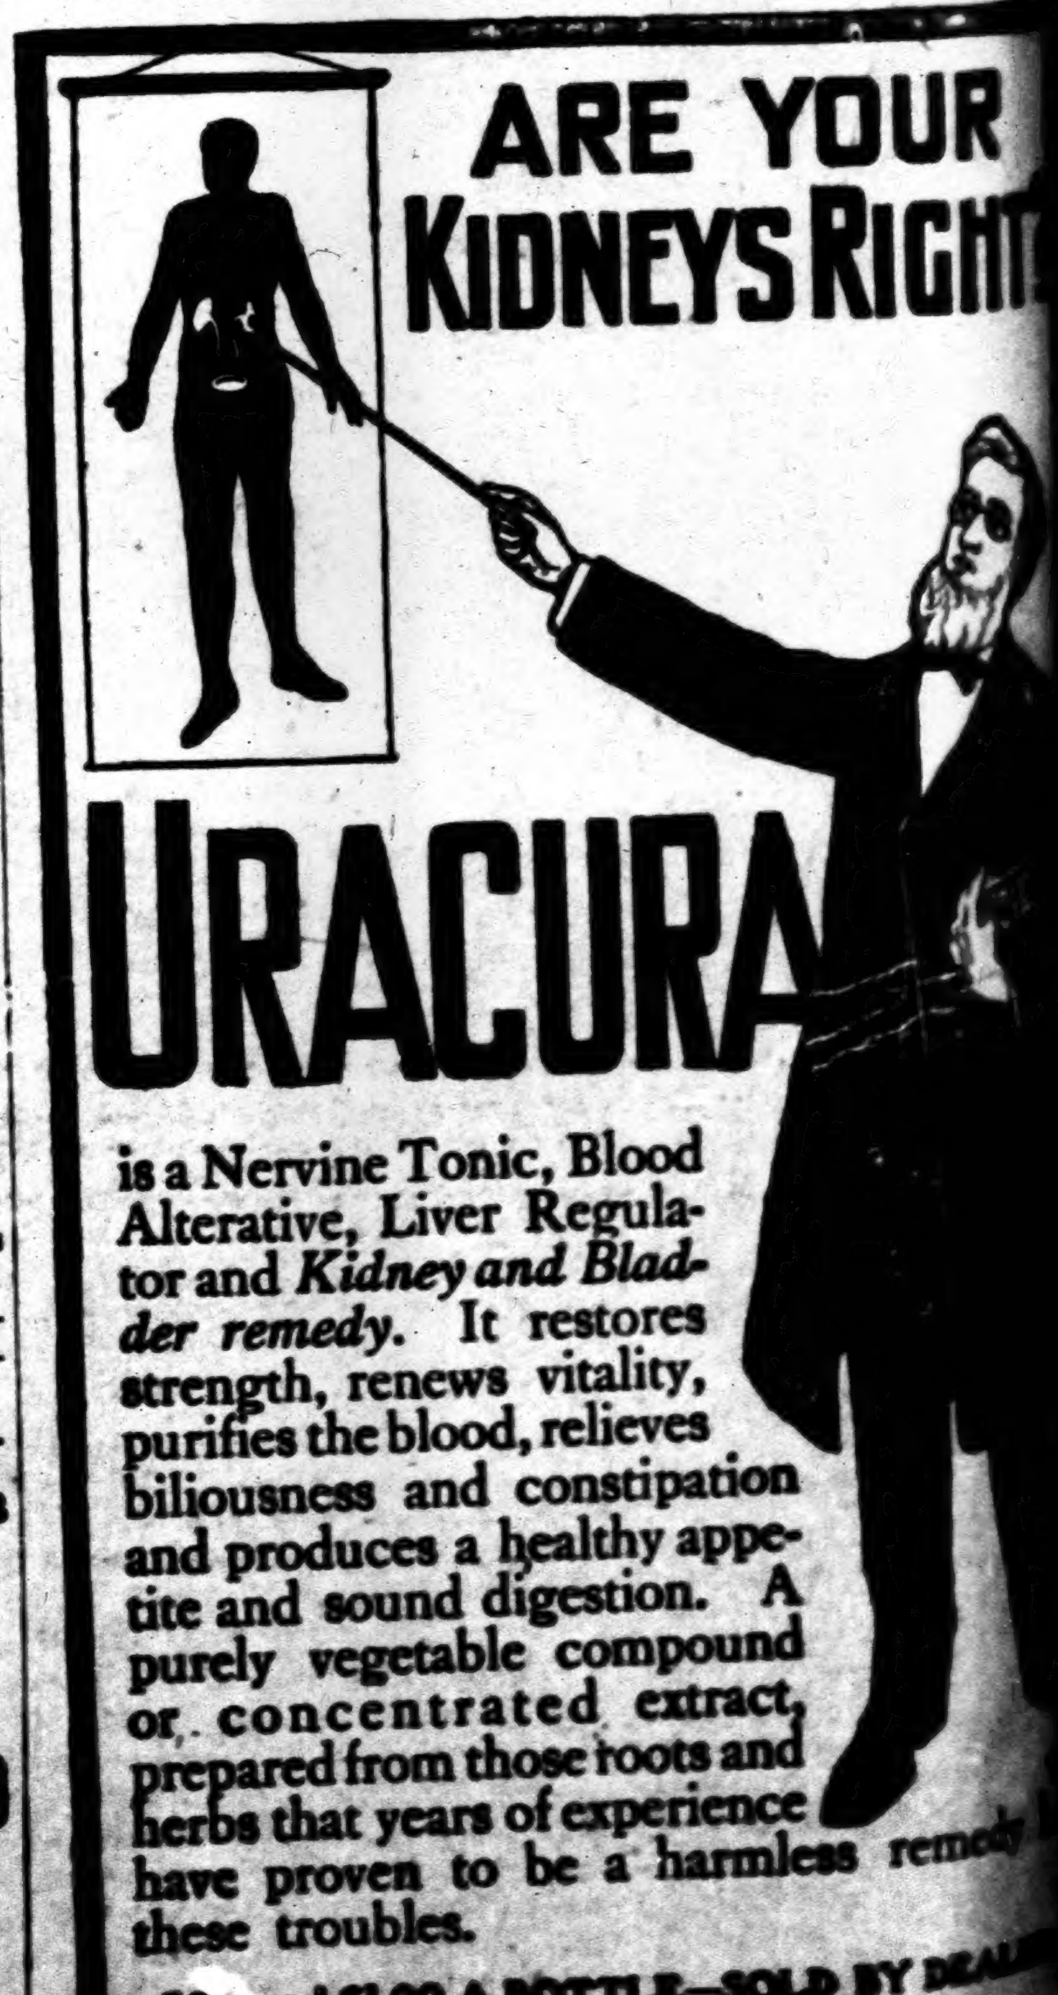
For a clear complexion take

ORINO Laxative Fruit Syrup

Pleasant to take

Orino cleanses the system, and makes sallow blotched complexions smooth and clear. Cures chronic constipation by gently stimulating the stomach, liver and bowels. Refuse substitutes. Price 50c.

Upchurch Drug Co.



ARE YOUR KIDNEYS RIGHT

URACURA

is a Nervine Tonic, Blood Alterative, Liver Regulator and *Kidney and Bladder remedy*. It restores strength, renews vitality, purifies the blood, relieves biliousness and constipation and produces a healthy appetite and sound digestion. A purely vegetable compound or concentrated extract, prepared from those roots and herbs that years of experience have proven to be a harmless remedy these troubles.

MAN ON THE CORNER

of the Sights He Saw, and Some He Saw Not.

The day after Christmas!

The old year is passing away all the joys and griefs, its triumphs and sorrows. The years roll successively; some drop by the wayside and are mourned by their loved ones who hope to meet them the sweet by and by. Those of us are left behind, greet the new year with hope and trust in a benign Providence that it will prove even better than its predecessor—not only in a temporal sense, also in the things that lead to life beyond.

How many of us think as the days pass by of what we have done, what we may yet do, and finally what will become of us. The blessed Christmas time—a time of reunion of families, when the long wanderer returns to the home of his childhood; when presents given and taken in affection— for their monetary value, but tokens of regard and love; the time that marks the passing of the old year and the awakening of the new.

The Probate office has been busy this week—twenty licenses to wed have been issued. May each and every wedded pair enjoy life to its fullest extent and prosperity. Forty souls are embarked in the sea of matrimony—may they all escape the rocks and deeps of life and sail triumphantly over every obstacle.

Calera is moving ahead these days and amongst other things is to have a bank, as soon as the necessary building is located. W E Calloway, President of the Peoples Savings Bank, Clanton, is also president of the new bank at Calera and Judge S. M. Adams will be the cashier. We wish it all the success possible.

The ladies of Clanton are against the proposed dispensary, and what the ladies want they generally get.

The Baptist church has called Rev. F. M. Wood to the pastorate, and he will take charge at once.

Rev. S. U. Turnipseed has been appointed to the Methodist church. Glad to keep a good man.

Greetings to 1907.

NOTICE

The public will take notice that a Bill will be introduced in the Legislature of the State of Alabama, during its next session, to establish a dispensary in and for the Town of Clanton, Chilton County, Alabama, for the sale of spirituous liquors, malt liquors, wines, ciders, and intoxicating liquors.

This the 20th day of December, A. D., 1906.

Cutting Affray at Ocampo

Monday night at Ocampo, Martin badly cut a young man Littlefield, and it is said is small chance of his recovery. Dr. Johnson attended the wounded man.

NOTICE.

Notice is hereby given that application is going to made to the Governor of Alabama for the pardon of Johnson.

W. A. WEAVER.

How Diphtheria is Contracted.

often hears the expression. child caught a severe cold developed into diphtheria," the truth was that the cold had the little one particularly susceptible to the wandering diphtheria germ. When Chamberlain's Cough Remedy is given it quickly the cold and lessens the danger of diphtheria or any other germ being contracted. For sale Upchurch Drug co., Clanton, A. Thorsby.

MAKE MONEY.

Here is an interesting study: Make out a list of all the people you know, and estimate the amount of money each one earns in a year. Total it up. The amount will be surprisingly large. Now, of all those people, only the few who SAVE SOMETHING really MAKE anything at all. Simply earning money isn't making it; what slips through the earner's fingers is finally "made" by somebody else. Don't forget to count yourself in on the list, and if you are not "making" money, begin now to save with us. One dollar will open your bank account.

CORRESPONDENCE.

Floods the body with warm glowing vitality, makes the nerves strong, quickens circulation, restores natural vigor, makes you feel like one born again. Hollister's Rocky Mountain Tea. 35 cents. Upchurch Drug co.

Thorsby.

Our town continues to attract Northern people. Often though coming for the winter, are induced to locate here.

Mrs. Oleson of Chicago is here, much to the enjoyment of Thorsby relatives.

Dr. Nix returned for a few days and finds a warm welcome.

Mr Woodrow is visiting at the Wheelock home.

Mrs. G W Phalin, much to the regret of her Thorsby friends, went to Chicago Saturday to spend Christmas with her husband.

Miss N. O. Shivers is spending a portion of her holiday vacation at the P. C. Smith home, much to the delight of her Thorsby friends.

One of the prominent events of last week was the public school entertainment to a larger audience than the hall could accommodate. The instructors merit the praise received. Mrs. G W. Phalin and Mrs. Dr. Stabler were as usual delightful in recitation and song Miss Nelia Johnson's primary pupils were very interesting in "Hoop and Doll Drill." Miss Alma Lefstead's intermediate class gave "The Crying Family" and was vociferously applauded, also. Miss Eva Nash, the principal, provided a great treat in the picturesque pantomime by ten girls and boys, in the "Indian Bow and Arrow Drill." closing with beautiful tableau and lights. Also an entertaining dialogue: "For Christmas Sake." Will not omit to say the welcome address was given by a little man of six or seven years, which won hearty appreciation.

Citizen.

IMPROVE and BEAUTIFY the COMPLEXION.

The principle ingredients in Dainty Laxakola tonic tablets are cascarin and dandelion which is one of the safest complexion beautifiers known. Forty little chocolate coated laxative tablets, 25 cents. Florence Drug co.

TEACHERS EXAMINATION.

The next State Teachers' examination will be held at the court house in Clanton, beginning on the first Monday in January, 1907. The examination will open at 10 o'clock a m and no applicant will be admitted after the examination begins.

J. W. Moore,
Co Supt,

A Western Wonder.

There's a Hill at Bowie. Tex., that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of consumption. I was reduced to 90 pounds, when I began taking Dr. King's New Discovery for consumption, coughs and colds. Now, after taking 12 bottles, I have more than doubled in weight and am completely cured." Only sure cough and cold cure. Guaranteed by Upchurch Drug co. 50c and $1.00. Trial bottle free.

A crank is a man who has a different hobby than your own.

CLANTON ACADEMY

Possesses superior advantages to pupils of all grades, prepares them to enter the best colleges and universities, trains teachers to stand examination for any grade certificate, and qualifies them the better to fill a place in their profession.

L. J. Thompson,
Principal.

TO WHOM IT MAY CONCERN:

Notice is hereby given, that at the next ensuing session of the Legislature of Alabama, a bill will be introduced to provide for the establishment of a Board of Revenue for Chilton county, Alabama, and to prescribe the powers and duties of said Board of Revenue.

W. W. Rutland.

Open the bowels and get the cold out of your system. Kennedy's Laxative Cough Syrup opens the bowels and at the same time allays the inflamation of the mucuos membranes. Contains Honey and Tar. Drives out the cold and stops the cough. Absolutely free from opiates. Conforms to the National Pure Food and Drug law. Pleasant to take. Sold by Upchurch Drug co.

Happily Married.

On the afternoon of Dec. 23, at 3 o'clock, at the residence of the brides parents, Mr. and Mrs. H. A. J Harris, the marriage rite was solemnized between Miss Elsie Harris and Mr. John Parrish, Rev. W Parrish officiating. The home was beautifully decorated for the occasion and a host of relatives and friends were present to witness the ceremony, and to wish health and happiness to the young couple. Promptly at the appointed hour the bride and groom, with their attendance, came forward and under the bridal arch of smilax and beautiful feathery ferns, the ceremony was performed. The bride was charmingly gowned in white albetros, trimmed in beauty lace, Miss Iris Harris who served as bridesmaid, was dressed in pink, Mr. Glaucus Durbin was the groom's best man.

Mrs. Parrish is a lovely, generous girl and a devoted christian, Mr. Parrish is a promising young man. May they be happy and useful wherever their lot may be cast.

THE BANNER.

Published Weekly

CLANTON, ALA.

Indeed, in a millennium of free clothes of the latest fashion we shall all be archangels.

It is a hopeful sign, and one that should give heart to the friends of peace, observes the Rochester Union, that within a week from the outbreak of hostilities three waring nations should have agreed to an armistice for the purpose of arranging to settle their differences by arbitration.

The Rochester Democrat and Chronicle observes that: Some day, perhaps, popular culture and taste will have been so far developed that the exhibition of pictures and signs or bill and advertising boards which offend the artistic sense will not be tolerated; but at present the best that can be expected is the suppression of all exhibits that tend to pervert the minds and hearts of those who can be affected by such displays.

One can now for two cents send a letter into Canada on the north or into Mexico on the south. Why not establish a two cent rate with all territory in America down to Patagonia? asks the New York Herald. Uniform and low postal service would stimulate business and be the entering wedge for cheaper cable and steamship charges. Sentimental exchange of professions of friendship is all very good, but the tangible and commercial ties are those that bind.

Preacher in Logical Tangle.

The manner in which questions of "Higher Criticism' are to be settled has been announced by the Rev. John Roach Straton, of Chicago, who told the 200 ministers that wonman's belief in the inspiration of the Bible was a sufficient refutation of the rationalist's conclusions. "You never saw a destructive critic," said Mr. Straton, "in feminine form, for a woman gets her knowledge by intuition—by direct inspiration. Man with his logic gets all tangled up, but the average woman knows." If Mr. Straton, with his logic, is also "tangled up," he has got himself into the scrape of Epimenides, the Cretan, who said that "all Cretans are liars."—New York Evening Post.

The Penalty of Sarcasm.

Senator Ingalls, during his early life, was unable to restrain his propensity to indulge in sarcasm. This habit eventually lost him his place and his popularity. On one occasion an intimate friend wrote to him urging the appointment of another friend to a position under the Government. To this letter the Senator returned a very sarcastic answer, and received the following reply: "My Dear Senator: I think it would be well for you to reserve your sarcasm for the rapidly increasing number of your enemies, instead of offering it to the decreasing number of your friends, of whom I am one." It is said Mr. Ingalls never forgot the rebuke, but it was too late.—Chicago Evening Post.

Then He Ate the Blankets.

The man of this story is a very light sleeper, one who is easily wakened and who is a long time getting to sleep. In a Leeds hotel he had at last got sound asleep when a loud rap, repeated, awoke him.

"What's wanted?"

"Package downstairs for you."

"Well, it can wait till morning, I suppose?"

The boy departed, and after a long time the man was sound asleep again, when there came another resounding knock at the door.

"Well, what is it now?" he inquired.

"'Tain't for you, that package!"—London Tit-Bits.

Stranger Than Fiction.

"That man Plunkett seems to bear a charmed life."

"Why, I've never heard that he was mixed up in a railroad wreck and escaped unhurt while the people all around him were killed and injured. He has never, as far as I know, had a miraculous escape from a disaster at sea, and I don't believe he ever was in a battle, was he?"

"No, b... he's gone down to Maine regularly during the past six years to hunt and come away every time without a scratch."—Chicago Record-Herald.

His Claim For Help.

Dr. Lawrence, Bishop of Massachusetts, says that he received a letter from a man in prison who asked him for help in getting out of it. "You ought to come," the culprit wrote, "for I did a great favor for you last winter. When your portrait was being painted, the artist hired me as a lay figure, and I stood in your robes for hours together. It was the hardest job I ever did.' "I agreed with him," the Bishop says. "There is no harder job, but I could not get him out on that plea."—The Quiver.

WHEAT ON GROUND FOR WANT OF CARS

Western Farmers Are Unable to Market Their Grain.

USING OUTBUILDINGS FOR FUEL

Lack of Material and Labor Impedes Manufacture of New Rolling Stock—President Roosevelt Interested.

Minneapolis, Minn.—The second day of the Interstate Commerce Commission inquiry into Northwest transportation conditions brought out facts of first importance relative to the effects upon the country of the grain blockade. The commission had given over the first day largely to the fuel inquiry, with the idea of relieving distress, and to this end had sent out telegrams of inquiry to many points asking as to the coal supply and how long it would last.

Telegrams began to pour in and when representatives were in from over twenty towns it was clear that the commission had acted none too quickly in securing the promise of co-operation on the part of the coal companies and the railroads in relieving distress, for in some localities farmers have been burning their fences and outbuildings, and in other towns piles of valuable lumber were cut up into fuel to keep people from freezing.

The farmers got into the inquiry later. They came in numbers from North Dakota and told the commission the story of the effect of the blockade upon the price of wheat. They said prices have been depressed abnormally because elevators were full; that wheat lay on the ground at many points; that there was no open market and the farmers had either to sacrifice in price or haul the wheat back home again after having offered it, in some cases two or three times.

E. J. Weiser, vice-president of the First National Bank, of Fargo; A. E. Swenson, president of the Security State Bank, of Barlow, and other North Dakota bankers and farmers, gave testimony to show that failure to move the crops put the country commercially in straitened conditions. Farmers who had ample means to meet all obligations if they had been able to turn the product into cash could not market their grain, and so the effect was felt all along the line.

The commission gave much attention to car service and competing and non-competitive points, also to further testimony respecting time in transit on shipments. Many more instances of cars in transit for a month or more, over a short haul, were offered.

The commission expressed itself as startled at some of the reports sent to it, upon inquiry, from localities bare of fuel, and said that the inquiry had opened up much new information and has so far shown a situation more serious in every respect than they had expected to find when they decided to begin the investigation.

The President Determined.

Washington, D. C.—That President Roosevelt has taken a determined interest with a view to finding legislative remedy for the car shortage in the Northwest, which now threatens the people with freezing and starvation because the railroads are unable to transport fuel and food to them, was indicated by a conference at the White House. The President sent for Senator Hansbrough and asked him whether the actual danger is as great as has been reported by press dispatches and telegrams from individuals.

The North Dakota Senator reported that from dispatches he has received the statement of conditions in his State, Minnesota and South Dakota has not been exaggerated. The President promised to give the question his personal attention with a view to alleviating any immediate suffering, and said he desired Senator Hansbrough to devote time and thought to some remedy to avoid a recurrence of present conditions.

SUICIDE FOR LOSING SHIP.

Skipper of Wrecked Liner Blows Out His Brains.

Kingston, Jamaica.—Shortly after his vessel, the Hamburg-American liner Prinzessin Victoria Luise went ashore off Port Royal, Captain Bruinswig, who was in charge, went to his cabin and blew out his brains.

The vessel, which was engaged in tourist voyaging, sailed from New York on December 12, and was on her way back to New York when she struck on a rocky ledge. All her passengers were landed safely.

In accounting for the stranding of the steamer it is explained that she was without a pilot, and the captain in charge. He followed a wrong course and piled her up on the rocks just under the lighthouse. Two hours later the captain locked himself in his cabin and blew out his brains.

Forced to Candles and Wood.

A famine of fuel oil prevails at Phoenix, Ariz., and the gas and electric light companies have shut down. The people must resort to wood for heat and use candles.

Former Actress Dead.

Sylvia Gerrish died alone in the Hilton mansion, on Morris Heights, New York City, recalling the infatuation of Judge Hilton's son for the actress.

Justice Brewer's Warning.

Justice Brewer, of the United States Supreme Court, speaking at New Rochelle, N. Y., said the nation everywhere is running heavily into debt.

BAD BANK FAILURE ALARMS

State May Lose by Collapse of Waynesburg (Pa.) Institution.

Pennsylvania's Deposit of $75,000 is in Danger—Depositors Not Alarmed—Many Wealthy Men Liable.

Pittsburg, Pa.—Benjamin F. Mcasey, cashier for State Treasurer William F. Berry, reached Waynesburg, having been hurriedly sent there by the State Treasurer to try to ascertain whether the bondsmen of the defunct Farmers and Drovers' National Bank will make good the $75,000 of State funds on deposit there.

Much alarm is felt for the safety of the deposit, and the indications are that the State will have to take chances with the other depositors. In that case, criminal action will be begun at once against the bank officials by the State.

It was found that the minute book of the bank, containing the names of the bondsmen, had disappeared. The bond on file at Harrisburg contains the names of fourteen men: M. Sayers, George W. Gordon, Samuel Harvey, G. H. Moredock, George N. Rinehart, J. B. F. Rinehart, Daniel S. Walton, Samuel M. Smith, C. H. Bowlby, A. B. Reese, W. A. Hook, J. B. Donley, S. W. Scott and John I. Worley. How many of these are still on the bond can only be told by the missing minute book. Of the fourteen men J. B. F. Rinehart is the cashier under arrest. Daniel S. Walton is the president of the bank, and John I. Worley is dead. The State Treasurer's cashier will try to learn who the present bondsmen are.

It became known that there were rumors of crookedness in the affairs of the Waynesburg Bank more than a year ago, when the fight for State Treasurer was on and when many banks were being attacked from the stump. At that time its affairs were in such serious shape that it might have been forced to the wall, and it was not brought publicly into the controversy.

Six months ago the Government was cognizant of the affairs of the bank, it was said. Previous to June 1 the Controller of the Currency demanded the resignation of Rinehart as cashier. The resignation was handed in, and Harry George, assistant to National Bank Examiner Cunningham, was placed in the bank with the title of assistant cashier, the position of cashier being held open. Rinehart continued as vice-president, and the public never knew that he had ceased to be cashier.

The people of Waynesburg are not alarmed over the failure, as prominent and wealthy men are behind the institution. The shopkeepers are cashing checks on the closed bank in the belief the paper will be redeemed.

DISCHARGED, HE ENDS LIFE.

Joseph Sherwood Laid Off Because of Failing Eyesight and Hearing.

Waterbury, Conn.—Joseph Sherwood, who at sixty was strong and hearty, but whose hearing and eyesight had failed a little, was discharged by the Menden Manufacturing Company on the score of age.

"You have been with us for a long while, Joe, and you have done your share,' said the superintendent; "you'd better lie off for the rest of your days. You ought to have saved enough to live on."

Joe packed up his kit and went home.

"I'm too old to be any good," he told his wife; 'they've fired me. I guess I'm not worth having around anywhere any longer."

Next day they found Joe hanging dead from his doorsill. He had made a rope of his suspenders.

FORTUNE GIVEN TO CHARITY.

Decisions in Yerkes and Shipman Cases Liberate $10,000,000.

Chicago.—The decision of Judge Walter H. Sanborn, of the United States Circuit Court, in the Charles T. Yerkes case and the will of Daniel B. Shipman, throws about $10,000,000 of the estate of wealthy Chicagoans into the scales of charity.

In the Yerkes case Judge Sanborn held that the $5,000,000 in bonds of the Chicago Consolidation Traction Company, which is said to constitute half of the Yerkes estate, was not the property of the underlying companies. This decision leaves the executors of the Yerkes estate in a position to proceed at once with the erection of the hospital and art gallery at New York, and enables Mrs. Yerkes-Mizner to begin the construction of a hospital at Chicago.

BURNHAM GIVEN TWO YEARS.

Insurance Officer Sentenced to Prison For Robbing Company.

New York City.—George Burnham, Jr., general counsel for the Mutual Reserve Life Insurance Company, who was convicted of larceny, was sentenced to serve two years in State Prison.

Supreme Court Justice Greenbaum, after passing sentence on Burnham, granted a motion for stay of execution pending an appeal.

Frederick A. Burnham, president of the Mutual Reserve, and George D. Eldridge, a vice-president of the company, are at liberty under bonds of $20,000 and $15,000, respectively, charged with the same crime for which George Burnham was sentenced.

LEAVES $1,000,000 FOR POPE.

Mgr. Adami, One of Rome's Wealthiest Prelates, Passes Away.

Rome, Italy.—The death was announced of Mgr. Adami, one of the wealthiest Roman prelates.

Mgr. Adami made very valuable presents to both Pope Leo XIII. and Pius X. ... to the latter he ... a gold ... set with brilliants. In ... he left $1,000,000 to the Pope.

PATRICK'S SENTENCE COMMUTED TO LIFE

Governor Spares Lawyer Convicted of Slaying Millionaire Rice.

END OF SIX YEARS' FIGHT

Memorandum Filed Giving Reasons For Setting Aside the Death Penalty—Interferes Because of Division in Court of Appeals.

Albany, N. Y.—Governor Higgins commuted to imprisonment for life the sentence of death under which Albert T. Patrick has remained nearly five years, since his conviction of the murder of William Marsh Rice, the aged and eccentric millionaire of New York City.

In announcing the commutation, Governor Higgins issued the following memorandum:

"Albert T. Patrick has been convicted of the murder of William M. Rice, and the judgment of conviction has been affirmed by a divided court. It is not claimed that Patrick committed the murder in person, but that he procured the act to be done.

"He has been convicted principally upon the testimony of Charles F. Jones, who confessed that he murdered his master while he lay asleep, instigated thereto by Patrick, and Jones, by this testimony, has purchased his own immunity from trial or punishment.

"Neither this fact alone, or the review of any facts already passed upon by the courts at some stage of these proceedings would seem to me to warrant interfering with the judgment of death pronounced against the defendant; but three of the seven judges of the Court of Appeals were so strongly of the opinion that errors were committed at the trial which were substantially prejudicial to the rights of Patrick that I feel that the death penalty ought not, under all the circumstances, to be inflicted.

"In view of these facts and the grave doubts expressed by these judges, I am satisfied that I ought to relieve the defendant from the extreme penalty of the law and commute his sentence to imprisonment for life."

History of a Remarkable Case.

William Marsh Rice, an aged and eccentric millionaire, had been under the care of a physician for some time prior to the Sunday evening, September 23, 1900, when he was found dead in the apartment at No. 500 Madison avenue, where he lived with a secretary-valet, Charles F. Jones. Accordingly, when this physician, Dr. Walker Curry, was summoned, he did not hesitate to give a certificate assigning old age and extreme weakness of the heart as the principal causes of death.

Next day, Albert T. Patrick, an attorney, who had once appeared as counsel for litigants opposed to Rice, took up his quarters at the dead man's house and assumed control of the situation, asserting that he was attorney and friend of Mr. Rice. He produced a letter bearing what appeared to be Rice's signature, directing that, in case of death, his body be cremated.

Within twenty-four hours Patrick presented at the Fifth Avenue Trust Company and at the banking house of Swenson & Sons, checks aggregating $250,000, signed apparently by Rice. Because he had dropped a letter in spelling his own name as endorser, so that it did not agree with the name on the front of the paper, the bankers thought it advisable to call up Mr. Rice on the telephone. Then, for the first time, they learned of their customer's death.

The coroner was notified, and Rice's funeral was stopped. An autopsy was ordered. Patrick and Jones were arrested, charged with having forged the checks which Patrick had presented, and also a will which made the lawyer the residuary legatee of almost the entire Rice estate, estimated at $7,000,000 or $8,000,000.

Jones, the valet, broke down and confessed, not only that Rice had not signed the documents presented by Patrick, but that the old man had been murdered. First, he asserted that the killing had been done by Patrick who, he said, had chloroformed the millionaire while the latter slept. Later, however, while recovering from wounds inflicted with the intention of suicide, Jones said that he had done the actual killing, but that he had been instigated by Patrick, who had planned the whole affair.

It has been estimated that the cost of the Patrick case to the State and to himself is in the neighborhood of $500,000.

In the years that he has been in the death house at Sing Sing, nearly five in all, Patrick has seen seventeen murderers enter the death house to leave it only to go to the chair.

Samuel Sartain Dead.

Samuel Sartain, one of the best known steel engravers in the United States, died suddenly at his home in Philadelphia. He was a son of John Sartain, the first to use mezzotint engraving.

Move Against Ice Trust.

It was announced at Albany that Attorney-General Mayer had begun action to dissolve the Ice Trust.

Fleeing Cashier Caught.

W. C. Anderson, an absconding assistant paying teller of the First National Bank of Kansas City, was captured in Austin, Texas, with an automobile which he had bought with part of the funds.

Henry McCrory Dead.

Henry McCrory, brother-in-law of President Corey, of the United States Steel Corporation, and one of the "junior partners" of Andrew Carnegie, died at Wilkinsburg, Pa.

15,000,000 CHINESE STARVING

The Famine in North Kianzsu Worse Than Reported.

State Department Receives Appeal For Aid From the Stricken Country—30 Miles Under Water.

Washington, D. C.—The State Department has received urgent appeals for aid for the 15,000,000 who are starving in China.

According to official advices from the Prefect of Hainanfu the famine in North Kianzsu is much worse than first reported. The crops are almost a total failure in Taoyuen, and early in 1907 this meagre supply will be exhausted. The conditions in Autong and Funing are still worse.

The country is under water for fifty miles, and people wade through water from knee deep to waist deep, and in some places up to their necks.

Just west of Tsingo what formerly was a fertile plain covered with good crops and prosperous hamlets, is now a lake twenty miles wide at the narrowest point and stretching for more than forty miles to the southwest.

"Here and there," the Prefect says, "are groups of cottages which rise above the sheet of water, and can only be reached by boats. The people are in a state of absolute destitution, not only their crops, but also their reeds, which constitute the fuel, being destroyed by the floods."

The famine-stricken refugees from the Yangtsekiang districts are collecting in large numbers outside the cities. About 30,000 are camped near Narking, and 300,000 near Yangchow, forty miles northeast. Both these towns are in the Kianzsu Province.

Plenty of Cars, Says Hill.

"There is no scarcity of cars," James J. Hill, president of the Great Northern Railroad, testified before the Interstate Commerce Commission at St. Paul, Minn., "we have plenty of them. The storms of the last month have blocked traffic on the branch lines. The coal dealers did not order early enough. There has been no discrimination in grain shipments. One man's money is as good as another's. We are as anxious as the shippers and consumers to supply the needed transportation, and are doing all in our power to relieve the situation in North Dakota."

INDIAN TIDE HAS TURNED.

Numbers Increasing and Rapidly Taking on Civilization.

Washington, D. C.—That the time is at hand to revise old ideas about the Indian, among them that he is gradually dying out, was shown by Representative Sherman, of New York, Chairman of the Indian Affairs Committee, in explaining the Indian Appropriation bill in the House, where its consideration began. It carries $8,203,000.

Mr. Sherman numbered the total Indian population at 284,079, including the augmentation of 316 births over deaths last year. They are rapidly assuming citizens' dress. Ten years ago there were 81,000 Indians who wore citizens' dress, while last year the number was 116,000. Ten years ago 33,000 Indians read English, while last year the number had increased to 63,000, and those who speak the language number 70,000. Of the total Indian population, 38,000 are members of regularly established churches.

The Indian has to-day in United States funds amounting to $35,385,000, upon which an annual interest is paid of $1,725,000. The Government pays to the Indians annually under treaty obligations more than $750,000. The lands owned by the Indians outside of the "Territories amount to 51,478,000 acres, or an average for every man, woman and child of 271 acres.

"COUNT" BONI WEPT.

Castellane Must Pay His Own Debts—Much Depressed at Decision.

Paris.—Count Boni de Castellane wept scalding tears when he heard the decision of the court that Mme. Anna Gould was not responsible for his debts. The tears trickled down his cheeks and splashed on the floor, and then he turned and hastened from the court room.

Some of the creditors wept aloud, and one woman, Mme. Michael Roger, became hysterical. The verdict meant the ruin of her husband, because it wipes out his capital. This was only one of the pathetic incidents of Count Boni's extravagance.

The former Countess came out of the contest with flying colors, being only ordered to pay a few insignificant debts, while Count Boni is personally saddled with the responsibility of paying the large sums.

HITCHCOCK DEFIES THE SENATE

Declares Order Withdrawing Land Will Stand.

Washington, D. C.—Secretary of the Interior Hitchcock, who was called before the Senate Committee on Indian Affairs, declared that his order withdrawing 4,000,000 acres of land belonging to the five civilized tribes will stand, and the land will not be restored unless the investigation as to the legality of his act, now in progress, develops that he exceeded his authority.

Famous Florentine Palace Sold.

The Strozzi Palace, of Florence, Italy, one of the most perfect examples extant of the palatial style of Florence architecture, has been sold to a wealthy manufacturer for $1,200,000. This palace was begun in 1489.

The Pulpit

A SERMON BY THE REV. IRA W. HENDERSON

CHRISTMAS DISCOURSE.

Theme: The Significance of the Birth of Christ.

Brooklyn, N. Y.—Preaching at the Irving Square Presbyterian Church on the theme, "The Significance of the Birth of Christ," the Rev. Ira Wemmell Henderson, pastor, took as his text Luke 2:11: "For unto you is born this day in the city of David a Saviour, which is Christ the Lord." He said:

The coming of the Christ is the axis of Western chronology and the inspiration of unnumbered souls. When, on that starry night amid the fertile fields of Judea the angel of the Lord stood beside the watching shepherds and the multitude of the heavenly host sang hosanna to the living God, the sweetest, most entrancing soul among the sons of men began His earthly history. The wise men from afar, who laid at the feet of the manger babe the royal, costly gifts, were but the precursors of a glad, rejoicing host who in every epoch and every clime have rendered homage to the Christ. The sudden light that bathed the quiet plain that peaceful Christmas eve beams to-day with undimmed radiance into multitudes of hearts. The voices that sang from heaven to earth still sing to listening ears. The angel of the Lord still speaks. The babe whom Mary loved is with us. The Son of God is here.

The birth of Christ is historic. The presence of Christ yesterday and to-day is a fact. Nothing is more certain than that Christ once lived. The Gospels attest it. Contemporaneous records recognize it. The Christian world around us is a consequential evidence of His reality and His influence. Men may dispute concerning the exact day and month and year of His coming into the affairs of men; they may speculate concerning the exact place of His birth, they may argue, as they will, over the manner of His coming; but they cannot, they have not and they will not deny His actuality. Jesus is a fact, the most momentous fact of history.

Let us consider the significance of the birth of Jesus in the light of the ages.

The birth of Jesus is significant as we consider it to be the fulfillment of Hebrew prophecy; as we understand it to be the culmination of a divine self revelation; as we study its effect on humanity.

The birth of Jesus was the fulfillment of prophecy. Except we glance down the long record of the prophetic hopes of Israel we cannot understand the Christ. Christ, apart from Jewish history, is inexplicable. Jesus is not an isolated, but, rather, a resultant fact. The Saviour is the fulfillment of a nation's hope, though so largely unaccepted. He is the consummation of the efforts of a nation's saintly men to lead their people near to God. The messages of Isaiah are the adumbrations of the Christ. The visions of the prophets are the fore-gleams of the gentle Galilean. Israel looked with expectancy and with hope unquenchable for Immanuel—the presence of Jehovah in the midst of His people. Having been led out of physical and carking bondage they looked forward with eagerness at a later day to a Jesus, a Saviour, who, clothed with divine power and enriched with a divine commission, should lead the sin-sick people of God out of the thralldom of spiritual slavery into the freedom and the blessedness of an eternal and sufficient salvation from their sins. Jesus was the fulfillment of that hope and prophecy. What the fathers had declared, He was. The chosen people of God yearned for an earthly king, a Messiah anointed of God, set apart to a holy leadership, divinely dedicated to the consummation of a national existence in righteousness and truth. And in Jesus was this other hope fulfilled, and with a nobler purpose and with a larger scope. Within the spiritual kingdom that He came to institute lay the secret of a kingdom which should rule the world. Far grander than any prophecy and hope of Israel was the plan that, in Jesus Christ, God unfolded to His chosen people. What a pity it is that nineteen centuries ago Israel did not see the beauty of the plan of God, that she did not recognize that broader and that grander mission of a world-wide ministration and universal dominion to which God, in Jesus, called her. And how sad it is to-day that the race to whom the principles of Jesus are most easily understandable is so opposed to the system of religious truth that in our times is termed distinctively Christian. The appropriation by the Jew of those principles of pure and central Christianity that are the glory of the truth as it has been revealed of God in Jesus Christ would be the exceeding glory of the coming ages and the fairest possession of the chosen people of the Lord.

The birth of Jesus was the culmination of divine self-revelation. In the personality and the message of the Christ God gave the fullness of the divine self-explication. Jesus is the objectifying of the Godhead before the very eyes of humanity. In Him Jehovah unfolds the personality of divinity. In His message is proclaimed the mind of God for the welfare and sanctifying of the world. Jesus is the declaration of the divinity, the humanity, the fatherhood of God. And in the person of the Christ is completed the long endeavor of a loving and patient Father to impress Himself upon the minds, the hearts, the lives of His wayward, errant children. Throughout all the ages and in the lives of all His people God had been revealing God to man. Here and there, as Israel heard the voice of Jehovah, there arose men of prevision, men of insight, men of intense spiritual discernment to declare to the duller and less spiritually acute multitude the meaning and the import of God's self-revealment. Throughout all the history of the

CHRISTMAS DISCOURSE.

Theme: The Significance of the Birth of Christ.

Brooklyn, N. Y.—Preaching at the Irving Square Presbyterian Church on the theme, "The Significance of the Birth of Christ," the Rev. Ira Wemmell Henderson, pastor, took as his text Luke 2:11: "For unto you is born this day in the city of David, a Saviour, which is Christ the Lord." He said:

The coming of the Christ is the hub of Western chronology and the inspiration of uncounted souls. When, on that starry night amid the fertile fields of Judea, the angel of the Lord stood beside the watching shepherds and the multitude of the heavenly host sang hosanna to the living God, the sweetest, most entrancing soul among the sons of men began His earthly history. The wise men from afar, who laid at the feet of the manger babe the royal, costly gifts, were but the precursors of a glad, rejoicing host who, in every epoch and every clime, have rendered homage to the Christ. The sudden light that bathed the quiet plain that peaceful Christmas eve beams to-day with undimmed radiance into multitudes of hearts. The voices that sang from heaven to earth still sing to listening ears. The angel of the Lord still speaks. The babe whom Mary loved is with us. The Son of God is here.

The birth of Christ is historic. The presence of Christ yesterday and to-day is a fact. Nothing is more certain than that Christ once lived. The Gospels attest it. Contemporaneous records recognize it. The Christian world around us is a consequential evidence of His reality and His influence. Men may dispute concerning the exact day and month and year of His coming into the affairs of men; they may speculate concerning the exact place of His birth; they may argue, as they will, over the manner of His coming; but they cannot, they have not and they will not deny His actuality. Jesus is a fact; the most momentous fact of history.

Let us consider the significance of the birth of Jesus in the light of the ages.

The birth of Jesus is significant as we consider it to be the fulfillment of Hebrew prophecy; as we understand it to be the culmination of a divine self revelation; as we study its effect on humanity.

The birth of Jesus was the fulfillment of prophecy. Except we glance down the long record of the prophetic hopes of Israel we cannot understand the Christ. Christ, apart from Jewish history, is inexplicable. Jesus is not an isolated, but, rather, a resultant fact. The Saviour is the fulfillment of a nation's hope, though so largely unaccepted. He is the consummation of the efforts of a nation's saintly men to lead their people near to God. The messages of Isaiah are the adumbrations of the Christ. The visions of the prophets are the fore-gleams of the gentle Galilean. Israel looked with expectancy and with hope unquenchable for Immanuel—the presence of Jehovah in the midst of His people. Having been led out of physical and carking bondage they looked forward with eagerness at a later day to a Jesus, a Saviour, who, clothed with divine power and enriched with a divine commission, should lead the sin-sick people of God out of the thralldom of spiritual slavery into the freedom and the blessedness of an eternal and sufficient salvation from their sins. Jesus was the fulfillment of that hope and prophecy. What the fathers had declared, He was. The chosen people of God yearned for an earthly king, a Messiah anointed of God, set apart to a holy leadership, divinely dedicated to the consummation of a national existence in righteousness and truth. And in Jesus was this other hope fulfilled, and with a nobler purpose and with a larger scope. Within the spiritual kingdom that He came to institute lay the secret of a kingdom which should rule the world. Far grander than any prophecy and hope of Israel was the plan that, in Jesus Christ, God unfolded to His chosen people. What a pity it is that nineteen centuries ago Israel did not see the beauty of the plan of God, that she did not recognize that broader and that grander mission of a world-wide ministration and universal dominion to which God, in Jesus, called her. And how sad it is to-day that the race to whom the principles of Jesus are most easily understandable is so opposed to the system of religious truth that in our times is termed distinctively Christian. The appropriation by the Jew of those principles of pure and central Christianity that are the glory of the truth as it has been revealed of God in Jesus Christ would be the exceeding story of the coming ages and the fairest possession of the chosen people of the Lord.

The birth of Jesus was the culmination of divine self-revelation. In the personality and the message of the Christ God gave the fullness of the divine self-explication. Jesus is the objectifying of the Godhead before the very eyes of humanity. In Him Jehovah unfolds the personality of divinity. In His message is proclaimed the mind of God for the welfare and sanctifying of the world. Jesus is the declaration of the divinity, the humanity, the fatherhood of God. And in the person of the Christ is completed the long endeavor of a loving and patient Father to impress Himself upon the minds, the hearts, the lives of His wayward, errant children. Throughout all the ages and in the lives of all His people God had been revealing God to man. Here and there, as Israel heard the voice of Jehovah, there arose men of prevision, men of insight, men of intense spiritual discernment to declare to the duller and less spiritually acute multitude the meaning and the import of God's self-revealment. Throughout all the history of the chosen people of God Divinity strove in diverse and incessant fashion to impart to the consciousness of mankind a true understanding of Himself. And as man, from time to time, has understood the truth that God has delivered to him by His Spirit and through the prophets, we have had varied interpretations of the character and of the personality of God. The changeless God has constantly revealed the truth concerning Himself. His plans, His purposes, to men. Men have oftentimes been heedless of the divine instruction, they have oftentimes been ignorant of the full import of the self-revelations of Jehovah, they have oftentimes misinterpreted the messages that God has delivered to their lives. But whether or no men have been heedless, ignorant or dull, God has always revealed the truth concerning Himself. His has been a constant and cumulative effort to lead men to a satisfying and correct vision of Himself.

Jesus is the finality of the divine self-revelation. The work of the Spirit before the days of Christ was preparative, in order to human comprehension of the Christ. And the struggle of the Spirit since the ascension of our Lord has been to lead men to hear, to heed, to understand and to accept the truth which, so richly, Christ communicates from God. Jesus is the consummation of the effort of the Spirit of the old dispensation: He is the inspiration of the labors of the Holy Spirit of the later covenant between God and men. The photograph of God that Jesus livingly imparts to men is the ripest product of divine self-impartation. He is the culmination of divine self-revelation.

But it is in its effect on humanity that the birth of Christ is most significant and of widest and most robust influence. The birthday of Jesus is the birthday of the larger liberty of man. The coming of Jesus is the beginning of man's nobler age. The nativity of Jesus is the nativity of the transcendant inspiration of the human soul. Mary's child is the hope of all the children of men.

The birth of Christ is effectual for humanity individually, socially, ethically, religiously.

The birth of Christ marks the dawn of the most glorious epoch in the history of the human unit. In the face of a faith and of a civilization that too strongly emphasized the social aspect of human society Jesus declared the dignity, the integrity, the incalculable importance of the individual. He placed the common man on the plane upon which God in His providence intended him to move.

But while the Lord dignified the individual and proclaimed the eternal worth of the human unit apart from the mass, He in no wise lowered the high position of the social system in the scheme of God for the ordering of this world's affairs. Rather did He ennoble society as a whole. Emphasizing the importance of the individual, He insisted on the value of that individual only as, representing an integer in the sum of the social life, he remained true to the finest principles of the kingdom of God and labored unremittingly for the advancement and purifying of society as a whole. Jesus taught the eternal preciousness of the separate personality, with the one desire to indicate to the individual man his personal responsibility to God and society in the face of the limitless and unnumbered opportunities that a loving Father placed within his reach. Profound philosopher as He was, Jesus perceived with unerring vision, that the secret of a redeemed society lay in redeemed individuals. And, although He had a lively interest in the single man, He was concerned with him in greatest measure because of his fundamental necessity to and central importance in a redeemed and sanctified society. Jesus crowned individuality as none other before Him had dared to do; but He invested individuality with a peculiar and novel dignity in order that with the realization of its surpassing consequence individuality should strive hardest to be counted worthy of a place in a social order regenerated and redeemed of God.

The birth of Jesus was effective to the betterment of the ethics—that is to say—the laws of conduct—of humanity. Preaching no Gospel of precise and detailed rules and regulations, our Lord yet, with such insistency, taught the larger principles upon which all sound morals and social conduct are based that with two sentences He laid the emphasis where eternally it had belonged in the mind of God and from which it had, by casuistry and the insincerity of moral jugglers, been displaced. Jesus rejuvenated and invigorated the ethical judgments of His day and age. And He not only bettered the moral standards of His own time but He augmented the appeal and the scope of moral law for all time.

The birth of Jesus marks the dawn of a new and surpassing era in the religious career of humanity. Jesus released religion from the bondage of sheer legalism and infused it with a new purpose. He found religion, very largely, a matter of ecclesiasticism and of legal regulation and of formality and cant. He left it with the inspiration of an enlarged mission and of an increased opportunity. He found a system. He left a life. Before His coming religion was largely mint, cummin, anise, tithes, phylacteries, burnt offerings, prayer in the market place. After Jesus religion was humility, righteousness, purity, sacrifice—it was a life; a life indwelt, inspired, sanctified of God.

Unsatisfied, But Contented.

Contentment is a Christian duty; satisfaction is not. Being contented is accepting one's present assigned place of toil and influence as in the ordering of God's providence. Being satisfied is taking it for granted that God has nothing better in store for one in the opening future. It is proper to be contented for the moment, but not to be satisfied for all time to come. As Robertson says, "Man's destiny is not to be dissatisfied, but forever unsatisfied." Let us, therefore, be ever unsatisfied while ever contented.—Henry C. Trumbull.

Moments That Stand Out.

You will find as you look back upon your life that the moments that stand out are the moments when you have done things in the spirit of love.—Henry Drummond.

New England Superstitions.

The Dowser's Collection of Signs and Portents

From New England Magazine.

After a little chat Gramp mentioned that the spring which supplied his barn had gone dry. "We got plenty of water in the house," he continued, "so that ain't got nothin' to do with my bein' here to get a drink of cider; but carrying water to the critters don't agree with me, and I'm goin' to try to locate another spring that won't fail in a dry spell."

This he proposed to do with a witch hazel crotch, which he had already secured, and I accompanied him to see the process. We went together to a hillside pasture, and Gramp wound the end of one branch of the witch hazel crotch around his right hand and the other end about his left hand, and grasped these ends very firmly. The crotch stood up vertically in the air.

"Now I'm goin' to walk around here in such places as seem at all likely," said Gramp; "and when I come over water the crotch'll tip away from me downward. The harder it pulls down, the more water. There ain't every one can find water this way. They ain't got the electricity or somethin' in 'em. With me, it's as easy as falling off a log. I can't stop that crotch goin' down when it's over water if I try, and sometimes it pulls down so hard the bark will be twisted off in my hands."

Gramp wandered here and there through the pasture hollows and sometimes the crotch remained upright and sometimes it tipped downward. But at length a spot was found where the pull was so satisfactorily felt that my companion drove a stake there to remember the exact place.

I found him digging a few days later; but after excavating a great dry hole he abandoned the job. In explanation of the failure of the mystic crotch he pointed to some yellow stains in the dirt and said there was iron ore in the soil. "That's what raised the mischief with me," he declared; "iron ore'll attract witch hazel as powerful as water will."

His belief in the hazel crotch was as strong as ever, and I discovered that he was a veritable mine of ancient superstitions. Of course he did not pin his faith to all of them; yet there was a surprising number in which he had implicit confidence. They are reported in his language, just as he told them to me at various times when I chanced to meet him about his home, in the fields, or by the river, where he was fond of fishing.

Crow on the fence,
Rain will go hence.
Crow on the ground,
Rain will come down.

"Storms clear off at 9 o'clock in the morning, at noon, at 3 o'clock in the afternoon, at sunset, at midnight or at sunrise."

Gramp added that he knew we were going to have a dull day; for he had heard it raining in the night about 1 o'clock; "and," said he, "I couldn't help thinkin' o' that old saying:

Between twelve and two,
You can tell what the day will do.

"It may cloud up or clear off later in the night; but the day will be what it was between 12 and 2.

"If our dog comes into the house and puts his head under the mat I'm certain sure there's going to be a cold snap, and it comes every time.

"When the wind dies down at sunset it will blow again the next day.

"A thunderstorm ain't good for eggs that are under a hen hatching. The chickens are apt to be crazy.

March winds and May sun,
Make dun cloth white, and fair maids dun.

"When you're peelin' onions, hold a pin between your teeth and it'll prevent you're cryin'.

Dream of picking fruit out of season,
And you'll quarrel without reason.

"If you want to get rid of the rats in your house, ketch one and tar and feather it and then turn it loose. All the rats will leave in a hurry.

"When I was a boy I'd sometimes play so hard I'd have a pain in my side. To cure it I'd lift up a stone, spit under it and put the stone back in its place. I would n't have any more trouble from the pain after that.

"If you begin to tell something and forget what you were saying, that is a sign it was true.

Mend your clothes upon your back,
Poverty you'll never lack.

"When the world was new the devil spent a lot of time sowing it with stones. He carried the stones in his apron, and where you see spots that they are very thick, you can know his apron strings broke there.

"To stop the hiccoughs see how near you can hold your little fingers together without their touching.

"If you don't want to have the toothache, cut a little bit from each toe nail and finger nail. Then wrap the cuttings in a white paper or birch bark and put 'em in a hole bored in a pine tree. Close the hole by plugging and you won't have any trouble with aching teeth as long as you live, though this won't prevent your losing your teeth by decay.

"You can cure rheumatism by putting mustard in your shoes.

If you have the stomach ache,
Eat a piece of burnt cake.

"You can stop the nosebleed by putting a piece of paper under your tongue. You can stop it, too, by placing a key on the back of your neck.

"It's a good plan to fill a bottle with water at a spring on Easter morning before sunrise. There ain't any medicine advertised in the papers that can equal such water, because it'll cure more things and is sure every time. Drink a little of it if anything is the matter inside of you; and if you have a sore rub it on outside. You'll be surprised to see what it does for you, no matter what disease you got.

"When you're out drivin in the winter and your feet get cold, take off your hat. That'll warm 'em even if they're like ice. You see, the cold air drives the blood from the head, and your feet can't help but get warm.

"Don't cut a twig to string your fish on until you ketch your first fish. If you do you won't ketch any.

"When you see the first robin in the spring notice whether it flies up or down. If it flies up you will go up—that is, you will have good luck during the year; but if it flies down you will have bad luck.

"Never carry a cat across running water if you want to have good luck. It will ruin your life. You might just as well take a dose of deadly poison and be done with it.

"If a spider drops down before you it is a sign you are goin' to have company.

"Spit for luck on your friend's new shoes and he will never wear them to a place where he will be unhappy.

"What a baby weighs at birth is just one-twentieth of what it will weigh as a full grown person.

"A baby should be carried upstairs before it is carried down, even if you have to take it into the garret. To carry it downstairs first would make it lowminded, and it would never rise in the world.

"If you find a cluster of bubbles on your coffee that means money is coming.

"You may know that a man has money to lend if he wears his hat pushed back on his head.

"If you shiver on a warm day you may know it is because some one is walking over the spot that is to be your grave.

"Something bad is bound to happen to you if you go to a funeral ridin' after a white horse.

"To upset your teacup is a sign that a stranger is coming to call.

Sneeze before seven,
Have company before eleven.

"If you see the new moon through the branches of a tree you will see sorrows.

"Sleep in a bean field and it will make you crazy. Same way with sleepin' in the full moonlight.

"What you are doing when you hear the first whip-poor-will, that you will do most of the year."

A Narrow Escape.

"Uncle Mose" is famed for several counties round as the best banjo-player in Georgia, says a writer in the Philadelphia Public Ledger. Naturally, therefore, when a lady in his town wished to show some Northern visitors just what a genuine old darky can do with a banjo, she called at Uncle Mose's little cabin and stated her wishes to his wife.

"'Deed, chile, dat ole nigger ain't playin' dat banjo no mo'," Aunt Sal said, pointing to where the instrument hung, covered with cobwebs, on the wall. "He des' puts in all his time fishin' now."

"Why, what caused him to give it up? Has he been converted?" the visitor asked.

"'Deed, dat wufless nigger neber will git conberted, honey. No, he des' got skeered."

"Scared? Of what?"

"Dat minstrel show done done it, Miss Mary," Aunt Sal explained. "De boss o' dat show he hearn mah ole man playing, an' he offered him a steady job doin' hit. Yassum, an' hit skeered him so bad he quit playing dat banjo right dar!"

California rejoices in a law making the circulation of fraudulent reports regarding the value of the stock of a corporation formed in the State a felony punishable by two years' imprisonment or $5000 fine or both.

The Rain in the Woods.

The lamentable effects of the general destruction of forests are now sufficiently recognized in all civilized countries. Such destruction invites devastating floods in mountain streams and causes the surrounding land to dry up. Forests act like vast condensing screens. They preserve a moist atmosphere about them, attenuate the force of torrential downfalls, promote a more gradual melting of the snow in early spring, and protect the soil against too rapid evaporation. And yet the manner in which the forests act their beneficent part is not exactly such as might be supposed. They prevent a large part of the rain that falls from reaching the soil at all. It is estimated that in European climates the forests evaporate directly, or transpire physiologically, four-fifths of the rain that falls upon them. Thus the forest atmosphere is no less important than the forest soil in equalizing the climatic conditions of a country.

Impossible Feat.

"There must be some fake about that new trick of Sandow-Sampson's," said Tete de Veau.

"What trick is that?" L'Oignon asked.

"Why, the strong man closes and locks, unassisted and within five minutes, a Saratoga trunk packed by a woman for a week's trip to the seashore."—New York Press.

NEWS AND NOTES FOR WOMEN

WOMEN IN QUOTATIONS.

Consideration of the "man" in quotes reminds me that "woman" has got into them also. The women who put themselves in the cart, in Hyde park, and elsewhere, and talk about "woman," adumbrate a sort of woman that one has not hitherto quite known. Woman, uncertain, coy and hard to please, or ministering angel, is classed. Likewise, the Rev. Edward Bull's notion of woman—that God made her for the use of man, and for the good and increase of the world—is tolerably familiar. And the woman that the lovelorn prince—he was still a bit off his head, perhaps—so prettily assured the "advanced" princess, should set herself to a man, like perfect music unto noble words—there is no occasion to put her into quotes, either. Theoretically, at any rate, she is comprehensible. The "woman" of the "advanced" women now is another matter. She is not to set herself to man; she is to oust him. The music she is for having him face will be of no flattering character. The increase of the world is to be no concern of hers, and the Rev. Edward would have a bad time with her. Ministering angel, quotha! "Woman's" notion is to be prime minister—prime minister in capitals, who knows? Let her get upon voting equality with man and into what of place or power will she not be prepared to vote herself? Well, of "woman" in quotes it is well that a mere man should not be too predicatory, because after all, you cannot put all women into quotes, and "woman" is not going to take the eternal comedy of sex off the bill altogether, yet awhile. "Woman" might come by her ends, but there would, I take it, always be women enough to enable man to regard even such a catastrophe with composure.—Pall-Mall Gazette.

QUEER SALAD DRESSING.

An uptown hostess who is famous for her salads recently invited some people to dinner. On the day of the event she provided herself with a large apron and descended into the kitchen to prepare the dressing for the salad. Putting in mustard, salt, oil, Hungarian pepper and other necessary ingredients, she placed the dressing in a large bowl to remain there until needed. The guests came and everything went off beautifully until the salad course was reached. For some reason or other the salad was partaken of very sparingly and the hostess noticed that the dressing had a queer, but familiar taste. Seizing the first opportunity, she slipped into the kitchen to find out the trouble. To her amazement she found that the bowl containing the dressing had disappeared. Upon closer investigation she discovered another bowl, the exact duplicate of the one containing the dressing, and in it was a mixture of mustard, pepper, molasses, etc., which was about the same color as the salad dressing. The mystery was solved. Her mother who was visiting her, had remarked that "the baby ought to have something for that cold of his" and had made him some old fashioned cough mixture. The guests ate the cough mixture, while the baby took the salad dressing for his cold.—Philadelphia Record.

LADY-LIKE APPEARANCE.

The plain girl must not be ill-tempered. If she has plain features she need not have an ugly disposition. She must be so sunny in her expression that she makes those who look at her forget how plain she is.

The unattractive girl can always have attractive hands. She can take great care of her nails, and can polish them until they are as pink as rose leaves, and as glossy as marble. She can put soothing and beautifying creams upon them to make them white, and massage them until they are plump.

The plain girl can learn to walk well. There is no reason why she should not hold her shoulders erect and walk gracefully. She can also have a good figure, and she can dress well. The ugly girl can speak prettily, and in this way add charm to her personality. She can be graceful, too. The fact that Nature did not give her a naturally pretty face need not keep her from being graceful.

The ugly girl should have virtues of heart, says Woman's Life. She should cultivate a kind heart. A good heart shines through the eyes. You can tell it the minute you look at a person, and how one loves a person with a kind heart instinctively and with a gush of tender gratitude.

THE STAR AND PUBLIC.

Of course, materially, the star is extremely well off. She can, if she has any business instinct whatever, easily become a rich woman. She earns, we will say, $500 a week and a percentage of the box office receipts. At that rate she need not be miserly to accumulate a tidy fortune in the course of a few successful years.

A few successful years! Oh, there's the rub! The public is dear, kind, sympathetic, flattering—and fickle. Its regard is immediate and perhaps ephemeral. It adores you this year, flocks to see you, bursts its gloves applauding you, warms the cockles of your heart with its ready smiles, its ready sighs, tosses you flowers, sends you notes, makes you walk upon air with gladness. And next year it doesn't care for your play, or there is some one new, some one bewitching, enthralling. Your personal popularity has evaporated. And you see yourself going the inevitable way—the way that greater actresses and greater favorites than you have gone before you, to their neglected, half-contemptuously pitied old age—to the drummed-up benefits and the condescending bestowed charity. — Ethel Barrymore, in Harper's Bazar.

FOR A RAINY NIGHT.

Few women know how to dress as well for a rainy night as a dark-eyed woman who came into the theatre the other rainy evening.

She wore a costume of rich wine-colored cloth, made very short, fully four inches from the pavement. The skirt was plaited and ran up into a high close-fitting princess effect, seeming of one piece with the bodice, the upper part of which was cut out in design and filled in with wine-colored net, bordered with velvet. The short puff sleeves were of the net, edged with velvet, and were met by long sleeves.

Over this trim yet elegant one-piece, short-skirted garment she wore a short bolero of the wine cloth, and the effect was crowned by a small and very smart turban of wine felt, with velvet and a bird.

A most luminous contrast she presented to the women who came in long, bedraggled light gowns, or those who, more careful, had made themselves unbeautiful in their oldest, shabbiest clothes.—New Haven Register.

NEW HAIR ORNAMENTS.

Not even by the most vivid stretch of the imagination can one say honestly that some of the hair ornaments seen in theatres this season are things of grace. Flowers and feathers are arranged at such angles that it is hardly possible for those in seats behind to see the stage, except in peek-a-boo glimpses. One woman in a playhouse last night wore two jeweled ornaments that were as angular in design as a pair of Third avenue elbows on "bargain Monday" and had little except their oddity to recommend them. There are conceits in the way of butterflies and birds, too, and, though a real bird would be ashamed to appear in public if he were built in such a way, the imitations are harmless.—New York Press.

WOMAN TO DRIVE A CAB.

Paris has two women lawyers and is behind New York in that respect. Paris is threatened next week, however, with a woman cab driver. She is Mme. Benozech, the wife of a lawyer, who has applied to the prefect of police for a license, saying she was raised on a farm and knows horses and can drive a cab as well in the streets as other women drive traps on the Bois de Boulogne. She wants to wear an overcoat with gilt buttons, a white glazed hat in summer and a black one in winter.—Paris Cable to the New York Sun.

FASHION NOTES.

The furriers call this a mink season.

Among elaborate evening coats lace and embroidered net are among the most prevalent ones.

Newest among the linens are the inside borders that copy Italian filet lace.

The vogue for metallic effects in embroidery and spangles and beads, lends great brilliancy even to the decoration of garments.

Many of the most successful of the semi-dress frocks are developed in the light weight wool fabrics that are worn nowadays at all seasons.

When we see soutache upon stylish gowns of crepe de chine, we realise the immense popularity of this dainty braid.

The line of fancy braid along the inside edge of handsome long coat is quite the newest note in ornamentation.

The lace bodice strapped with bands of the skirt fabric still holds its unbounded popularity as accompaniment to the princess skirt.

The long chiffon veil enshrouding the unsuitable hat is a sensible French fashion.

A very pretty effect is obtained on a plaid dress for common wear by laying both skirt and waist in plaits.

White corded silk is utilized for collar and cuffs for the dark velvet dress coat of a small girl.

Bands of jeweled net trim evening gowns effectively.

A little puff of chiffon, no more than three inches wide at its widest point and edged with three semi-circular motifs of heavy lace forms the tiny sleeve of a lovely ball gown. The semi-circular edges of the motifs rest against the arm forming the lower outline of the sleeve.

Foreign Schools in China.

The Board of Education has issued new regulations by which when a school is established by a foreigner in the interior of China, it will not be allowed to be registered and there will also be no encouragement given the school.—The Shanghai Times.

A Happy New Year!

Don't forget—write it 1907.

1906 has been a good year; may 1907 be a better one.

They Scorned Doctors.

The learned ladies in olden times took great comfort and pride in their skill in medicine. With true professional scorn they looked down upon the regular doctors as upon quacks. "For God's sake beware what medicines ye take of any fyssissyans of London. I shall never trust to them because of your father and my uncle, whose souls God assoil." So wrote a lady in conscious pride. She knew she could have saved the lives of her unfortunate relatives if she had only had a chance to dose them with some of her wonderful concoctions or to have put upon them some such plasters as those for which Dame Margery Paston was famous. Her husband sent for one of her plasters for the king's attorney, James Hobarst, who was suffering with an ache in his knee, and to whom Sir John Paston felt himself sentimentally indebted. "He is the man who brought you and me together," he wrote to Margery, "and I had leaver than £40 that ye could with your plaster part him and his pain."

Grease In Wool Fabrics.

Few persons realise when they put on woolen garments what a large amount of animal fats wool contains, for to the touch woolens are not greasy. In the big clothing shops where men's garments are cut, however, the floors around the tables where electric knives clip out the odd shaped pieces soon become as slippery as though they were waxed for a dance.

"Why do you wax the floors—to keep the fabrics clean?" is a common query from visitors.

But the clothing cutters explain that this accumulation of grease comes from the friction of wool cloth over the wood. The wood's pores soon become so charged with it that they feel greasy to the touch, and even the harder woods in the cutting tables absorb from the woolen fibers so much of the animal fat that to all appearances they might be in steady use in the rendering department of an abattoir.—New York Press.

Are Ministers' Sons Bad?

A bishop marked the names of those whom he deemed worthy of remembrance for some service performed in religion or politics or literature or science or art or commerce or philanthropy or warefare, or some other aspects of the various life of the nation. Of such names he found 1,270 who were the children of clergymen or ministers, taking no account of those who were grandchildren of clergymen or more remote descendants. Of the children of lawyers, there were 510, and of doctors 350. The sons of clergymen who became themselves clergymen were 350. He further asserts that the superiority which the clergy enjoy in respect to their children to the other professions lies beyond dispute. The superiority has been not of numbers only, but of degree. From clerical homes have sprung more distinguished sons than from the homes of any secular profession.—Leslie's Weekly.

His Wig In His Pocket.

Benjamin Franklin once wore his wig in his pocket at the court of Versailles. When he was about to present himself at the court for the first time he was informed that a wig was essential. Franklin's head was so large that no ordinary wig would begin to fit it. However, one was found sufficiently large to pass him through the antechambers, after which he was permitted to remove the ridiculous conventional appendage and place it in his ample pocket.

Hard to Please.

Mr. Snaggs was accosted on the street the other day by a beggar who was covered with a very remarkable mass of patched and ragged garments and who said:

"Mister, haven't you some old clothes you could give a fellow?"

Snaggs surveyed the beggar from head to foot and then asked:

"Are not the clothes you have on old enough for you?"

About Digestion.

It is not the quantity of food taken but the amount digested and assimilated that gives strength and vitality to the system. Chamberlain's Stomach and Liver Tablets invigorate the stomach and liver and enable them to perform their functions The result is a relish for your food, increased strength and weight, greater endurance and clear head Price 25 cents, samples free. The Irish Bull In Journalism.

Of a well known reporter of a past generation many curiosities of style are still repeated with zest by Dublin journalists. It was this man who explained, describing a case of drowning off Dalkey, "The body was washed ashore by a receding wave." Of a fugitive from justice he wrote: "The burglar was surrounded on all sides by the police. Escape was impossible. Suddenly he made his way down a cul-de-sac and disappeared through a side street." The most popular story of this impressionist writer, however, relates to Mr. Gladstone. On the Grand Old Man's one and only visit to Dublin he was interviewed by the eccentric press man. Mr. Gladstone, at the conclusion of a somewhat amusing array of questions, very courteously expressed his pleasure at meeting the interviewer. The latter, in a high state of delight, said with enthusiasm, "The pleasure is mutual, Mr. Gladstone, but is all on my side."—London Tribune.

Big Benefits at London Theaters.

Betterton, in 1709, when his salary was £4 a week, had a benefit and received £76 as his share of the receipts and £450 in the shape of donations. The biggest benefit performances of modern times have taken place at Drury Lane. That for Ben Webster, held in March, 1874, realized £2,000; the profit on the Buckstone celebration, in June, 1876, was £1,200; for the Nellie Farren benefit performance, in March, 1898, there was obtained £7,260, though half of this amount was secured from private donations, which flowed in when it was known that the Messrs. Rothschild had volunteered to invest what sum was realized, give the popular comedienne an annuity and, on her death, grant the theatrical charities half of the capital.—London Chronicle.

Why Refer to Doctors

Because we make medicines for them. We tell them all about Ayer's Cherry Pectoral, and they prescribe it for coughs, colds, bronchitis, consumption. They trust it. Then you can afford to trust it. Ask your own doctor.

The best kind of a testimonial—"Sold for over sixty years."

Made by J. C. Ayer Co., Lowell, Mass.
Also manufacturers of
Ayer's SARSAPARILLA. PILLS. HAIR VIGOR.
We have no secrets! We publish the formulas of all our medicines.

Ayer's Pills greatly aid the Cherry Pectoral in breaking up a cold

An Incident of Life In New York.

The street beggar with pockets lined with money is a fairly familiar figure of city life, but one of the free dispensaries reports an instance of an attempt to get free medicine on the plea of poverty that deserves a place in the catalogue of good stories of graft. A middle aged woman appeared the other day and got a prescription, after which she took her place in the line of persons waiting to have their medicine made up by the apothecary. This particular woman, it should be said, had given satisfactory answers to all the questions put to her designed to show whether she was a proper subject for charity. Suddenly there was a cry: "I'm robbed! I'm robbed!" The victim was this woman, who so far forgot her previous professions as to assert that her pocket had been picked and that the thief had got away with $90. Then she lost the opportunity to get free medicine, thus adding, in her view, insult to injury.—New York Post.

How to Handle Your Horse.

Decision should never in handling horses be confounded with unwise determination to have things your way. In this application it means the faculty of doing the right thing at the right instant and may be cultivated by frequent practice with all sorts of horses, and of course no hands were ever developed by handling any one animal or any one kind of a horse. It is decision that gives the hand the moment the horse yields; that uses the roughest methods at a pinch, for hands are by no means always delicate of touch; that frustrates the most determined attempts of kicker, rearer or bolter; that picks the best road; that makes the animal carry himself to the best advantage for the purpose of the moment. Decision is very close to intuition in effect. Decision dominates the situation at many critical moments, and the horse is quick to discern and to presume upon its absence. There is no such thing as a safe partnership with a horse. You must be the master or he will be, to your certain future discomfiture.—F. M. Ware in Outing Magazine.

For chapped and cracked hands nothing is quite as good as an application of DeWitt's Witch Hazel Salve. Put it on before going to bed use an old pair of gloves and see what a difference the morning will bring. Sold by Upchurch Drug co

To Our Friends and Customers:

The year 1906 will soon be in the past, and many events be forgotten by all, but we shall not allow the kindness we have enjoyed from you during this year, go from our memory.

We have much to feel proud for—you have given us a liberal share of your trade—we have tried to give you value received for your money, and the result is satisfactory to us, and we hope it is with you, and that you will not forget us in 1907 when you are in the market for Hardware.

Please accept our thanks for all this, and our sincere wish that you may have a delightful Christmas, a pleasant and successful New Year.

Yours very truly,

SPIGENER & JONES,

TRAINED NURSE
Writes a Letter to the People.

"In Warren st. May ... as a trained nurse of nine years experience in hospitals and private cases, ... for the benefit of the people of Clanton I wish you would publish my experience with the cod liver preparation called Vinol.

"I was completely prostrated from overwork. I had no appetite, could not sleep, my kidneys, liver and bowels became inactive and as I grew weaker I could not retain either medicine or food on my stomach, and raised blood. The doctors said my condition was critical and I would probably die.

"As I had seen Vinol prescribed for my patients with such remarkable results, I decided to try it myself. After the first bottle I began to improve. I continued its use, and soon began to sleep and eat well; every organ in my body was strengthened and became normal, until it seemed good to be alive and I was restored to perfect health and strength.

"I believe Vinol is the most potent and delicious cod liver oil preparation and tonic rebuilder in the world; and it is such a blessing to be able to take into the system all the body building and medicinal elements of cod liver oil without the nauseating, greasy oil itself.

"I advise all my patients who need strength, rich, red blood, and flesh to take Vinol, as it is so far superior to old fashioned cod liver oil, emulsions or other tonics." Elizabeth M. Cremond, Trained nurse, Boston, Mass.

In Clanton we sell Vinol on a positive guarantee to return money if it fails. Upchurch Drug co

"HIS BROTHER'S KEEPER."

A SKETCH FROM LIFE

By W. W.

I remember so well the very first time I saw Mike Lonnegan. It was outside a wayside Irish station, where he had drawn up a pair of ill matched, bony hunters (driven during the summer in a wagonette) with a great flourish—indeed, in reckless style, for the bony hunters resented this unusual flippancy on Mike's part, and pranced on and off the pathway with indignant hoofs.

My friends whispered to me that Mike had intended to impress my English mind. He did; but not exactly in the way he intended, poor old fellow! It was his head. I never saw such a head! All the parts that ought to have stuck out went in, and vice versa. Then the marvellous manner in which he had balanced the shabby cockaded hat on the contrary bumps was in itself a work of art; no, rather an "outward and visible sign" of an "inward and spiritual" originality worth cultivating.

They begged me not to laugh at Mike or his appearance, saying, with a sigh: "He is so sensitive, poor dear; and really I don't know what we should do without him." Ah, what indeed!

I had the pleasure of staying many months in this genial Irish house, and my respect—nay, awe—for Mike increased daily.

He was coachman, gardener, butler and valet—this, in itself, was to me sufficiently astonishing; but I had only been a week in the house when I discovered that Mike ruled it with an iron rod, gently wielded, maybe, and with a padded tip; nevertheless, from my host, who loved him, to Brian Boru (the setter, which had reason to remember Mike's strength of arm), no one seemed to question his right to rule them.

"Tell me," I asked, "why do you all bow down to Mike, and do you like it?"

"My dear," I was told, "Mike has been fifty years at Ballyknockshannon; he came to my father as a boy to help in the garden. Times are bad for us Irish landlords, and Mike has gradually drifted into the proud post of general factotum, because we have no money and because he loves us." My pretty friend's pretty eyes filled with tears, and she went on: "You don't know how good Mike is and what he does for us. He is nearly seventy years old, and it is still against his principles to sit down during the day, and only after supper will he rest; so, of course, we must put up with his dictatorial fits, and, worse still, of contrariety. Watch him at dinner to-night when I refer to the table decoration. It will amuse you."

I watched. I had already observed silent battles over the immense aggressive bowl of flowers that ornamented the centre of the dinner table at Ballyknockshannon. Enter the company, who take their seats. Enter Mike, with the air of carrying in boar's head and truffles, instead of vegetable soup; enter Brian Bord, stealthily, making for the soft mat under the table, with a wary eye on Mike withal.

"Dear me, Janet!" cries my wicked little friend; "I can't see a wink of you; this bowl obstructs the view. Mike, I've told you that we don't like that thing, but the little silver vases, why don't you use those?"

Mike fixed the bowl with a regretful but determined eye, and murmured, deprecatingly, "Sure 'tis a foine beautiful thing, yer ladyship's honor, and fitting it is to you and his honor; as to the other things—bad luck to 'em, they——"

"That will do, Mike," replies her ladyship's honor, "take away the bowl."

Mike looked at her with anguish, then clutching it with feverish fingers, muttering withal, he moved it with more force than was necessary to the side of the table; and then withdrew hurriedly, as if he had forgotten something.

"Now, you watch," whispered my delighted host, "he will never remove that bowl."

Mike came staggering in with the fish.

"The bowl off the table, Mike," whispered the wicked one, sternly. Mike expostulated in an undertone. "And is it not the fish sauce he was getting; would her honor wish the fish without sauce, and an ilegant English lady there," etc. And so on through dinner.

"Mike, the bowl," reproachfully.

"I will, I will," returns he, soothingly; "just wait until he brings in the foine figure of a duck," and so on, ad lib. Dear, funny old Mike! He stuck firmly to his point; the bowl had been used ever since he could remember, therefore it should be used now and for all time.

The old order changeth,
Yielding place to new,

was incomprehensible heresy to Mike.

Three or four days after the "Battle of the Bowl" (as we styled it) I was sitting under the beautiful trees of Ballyknockshannon reading.

It was a gorgeous, golden afternoon in September, and a harvest was being gathered in; the voices of the workmen and the gurgling of a little stream that ran at the bottom of the garden floated to me across fields of waving gold. I had been reading "The Idylls of the King," and their beauty had sunk deep into my heart, making a sweet content.

I watched Mike mowing the lawn pityingly.

"Poor Mike," thought I, "with no idylls to comfort him, no poetry to delight his fancy, no beautiful books to stimulate his intellect—a mere machine!" Oh, wise woman! "Mike," I called, as the old man's methodical mowing began to irritate what I imagined to be my poetic appreciation of nature, "Mike, can you read, and would you like me to lend you some books?

Mike put down the mowing machine with great care and precision, and came over to me. I remember the sun set full on his quiet old face, with its deep set childish eyes, and on the lines of care so deeply marked on the prominent forehead.

"And what books may they be, yer ladyship?" (We are all 'ladyships' to Mike, and he had begun, during the last few days, to think that some good might come out of England.) "His honor has given me a grand library, and the new ones they are," severely, "the divil, begging your pardon, my lady."

"What do you read, Mike?" I asked, patronizingly.

"Ah, well, my lady, I have all Mr. Carlyle's works, and the grand Scotch gentleman's—Sir Walter Scott; then her honor last Christmas gave me William Shakespeare in a foine ilegant cover of green and gold. And I have Tennyson and Moore and Robbie Burns and Longfellow and Wordsworth and Shelley and Cowper and——"

"Good gracious, Mike," I exclaimed, sitting up and putting my hat straight, "do you mean you have read all these—Carlyle, I mean, and Shakespeare?"

"I have, my lady," said Mike, simply. Then he went on to tell me that Colonel O'Callaghan, a neighbor, had a valuable library and had given Mike permission to use it whenever he wished.

I discovered that there was no standard work of any note that Mike had not read.

It was one of the mysteries of Ballyknockshannon as to when Mike did read, and how and when he had acquired the extraordinary all around knowledge he undoubtedly possessed, for he was thoroughly employed during the day; in the evening we often heard him playing the violin, and out of his sixty-five odd years he had hardly spent one out of Ballyknockshannon.

It was borne in upon me gradually that Mike was in himself (1) a philosopher, (2) a literary critic, (3) a poet, (4) a musician, (5) a horticulturist, (6) an amateur jockey, (7) a local time table, (8) a calendar, (9) a Whitaker's Almanack, (10) an army list, (11) a complete peerage!

My brain reels when I think of Mike's practical knowledge, and, whenever I wished for useful advice or an unbiassed opinion of a horse, a book, a flower, I went to Mike.

On one of these occasions I remember I hurt the old man in his most sensitive part, namely, his pride. He had given up a considerable portion of his time to constructing a wooden stand for my bicycle (I forgot to say he was a carpenter in addition to his other accomplishments), and I made the egregious mistake of slipping a sovereign into his hand.

Up to that moment I must confess that the expression "filthy lucre" had seemed to me a mere facon de parler, but I felt the force of it then. Mike gave me one look of indignant scorn, put the money down (with the air of dropping a black beetle), and turned on his heel and left me standing there very much ashamed of myself, with eyes askance.

The mistress of Ballyknockshannon followed me to my room that evening. "My dear Janet," she began, mournfully, "what have you been saying to Mike? He is in a right royal rage; I know the mood, and I feel"—working me up to the awful climax—"I feel we shall have the Battle of the Bowl at dinner."

I confessed my sin, of course, and was implored never to offer Mike money again.

"Not when I go away?" I cried, incredulous.

"No, for Heaven's sake, don't. Why, do you know, I have known Mike make a point of hiding himself if he thinks any departing guest is going to 'tip' him."

I gasped, remembering sundry English country houses and their demands on my slender purse.

One morning, just before my departure, my hostess came into the study with a harassed expression on her face and an open letter in her hand.

"Oh, Janet," she explained, "such an awful thing——"

"What?" (With visions of boycotting and dining with pistols on the sideboard.)

"Mike's brother has come back."

"Never knew he had a brother," I answered, with great interest.

"Yes; this is the only one. He's a ne'er-do-well, and comes from America. He has no money, and is very idle and dishonest and fascinating, and——"

"How typical," I murmured dreamily.

"What of?"

"Oh, nothing, dear. Please tell me more about him."

It appeared that Mike's brother was nearly twenty years younger than he, and had distinguished himself by robbing the surrounding families when at home, and, when shipped off to America at great expense to his family, had proceeded to drain their feeble resources by begging letters, full of—Irish imagination!

"Mike's brother?" I cried, amazed.

"Yes, Mike is his guardian angel, and I believe"—with great mystery—"I believe that Mike sends him money still."

Mike came into the room just then, and our conversation stopped, but I noticed he looked very much disturbed the next few days, his simple eyes clouded, his ruddy face paler.

I left Ballyknockshannon a week afterward, and I always carry in my mind the remembrance of old Mike as he opened the gate for the dogcart that was to take me to the station—the November sun on his white head, a bunch of his best ruddy chrysanthemums held up for me to take as we sped along, his left clutching Brian Boru (whose coat matched the chrysanthemums), and a wistful, far away eagerness in his earnest eyes as they followed the cart down the leaf strewn road.

I wondered—did Mike look more careworn? Was my sight, misty with tears, deceiving me? Or was it the influence (always keenly felt by me) of the romantic melancholy of the half-neglected acres around me, with their fateful autumn stillness?

Life, however, with its incessant bustle and stir, claimed me, and in its feverish stress perhaps the memory of Ballyknockshannon and my old friend Mike faded a little until chance took me to Ireland again—to "dear, dirthy Dublin" on this occasion.

It was during the late spring, and the season there was nearly over. I remember I had promised to do a commission for a friend in a remote and somewhat "slummy" part of the town, and as I was amusing myself with watching the "types" around me my eye suddenly fell on a little old man who came hurriedly out of a pawnbroker's shop and walked in front of me a few steps, then turned to cross the road. I caught his profile, then full face—it was Mike! The same "bumpy" head (and the hat at the same angle), the same childlike, deepset eyes, yet I thought he looked broken, older, shabbier.

"Mike," I cried, "you remember me?"

He dropped his eyes nervously and flushed with embarrassment.

"'Tis Miss Janet," he said, with an obvious effort at being pleased to see me. "Sure, an' how could I be forgettin' the lovely face of yer?"

"Oh! Mike, just the same," I laughed. "How are they all at Ballyknockshannon?"

"Yer ladyship," the old man's voice sank and his earnest eyes solicited mine, "'tis a grand favor you'll be doing me not to tell her honor that you met me here. I was just"—he hesitated—"buying an ilegant present for me cousin Biddy, who is to marry young Larry Murphy at"—he began to cough, and I didn't like to hear him, also I distrusted his coming to Dublin to buy a present.

"Doesn't the mistress know you're in Dublin, Mike?" I asked, gravely.

"She does, yer ladyship, but this street"—he indicated it with a fine air of patrician scorn—"'tis not of the quality, and her honor might be thinking I'd be afther taking some sickness down," he stammered, painfully.

"Of course, Mike," I answered gently, "I shall not say anything."

In vain I tried to persuade the old man to let me give him some tea, he looked so ill and worn out. He protested with an air of great mystery that he had business, an appointment, etc.; so I let him go, as he was obviously eager to do so, and watched him down the street. How shabby his coat looked, and it was turned up around the neck as if he feared the wind; and Mike, who had faced all weather in all seasons, and this was a balmy spring afternoon. I went home wondering.

A few weeks later I received the following letter:

"Dear Janet—I have been intending to write to you for some weeks, but we have been in such trouble about poor old Mike. He has been ailing for some time, but last Monday he died from a severe attack of pneumonia—our faithful old friend. But oh, Janet, the sadness of it all! Do you know that for months the old man has been sending all his savings and wages to that insatiable brute of a brother of his; when he had nothing left he was obliged to pawn many of his clothes. We have found out since that he got rid of them one by one, and must have gone about with nothing next to him but his coat. Oh! my dear, he never told us or asked for help, poor, proud old fellow, and I feel I must ever reproach myself for not looking after him more; here he was, dying under our very roof. If ever a man deserved a martyr's crown, Mike did. I know you admired and loved him, so you will sympathize with us in our loss. Your affectionate,

"AMY."

—The Ladies' Field.

THE EMERGENCY WOMAN.

SHE HELPS OUT HUMANITY IN VARIOUS WAYS.

Sweet Things for Bachelors—Her Smattering of Talents This Fair One Has Carefully and Industriously Fitted Into the Pattern of Life.

The untalented woman when she faces the problem of bread winning is perhaps the most deserving of sympathy of any of her sex.

One who found a field calls herself "emergency woman," and gives it as her experience that there is plenty of opportunity for other women to follow in her footsteps. She admits, however, that the preliminary years of drumming up custom were not so easy that one cares to dwell upon them.

The emergency woman fills in any gap in the domestic fabric at a moment's notice. While she has no one great talent she has a smattering of many, and it is by making a patchwork of them, which has been carefully fitted to the pattern of life, that she has been able to manufacture a cover for the very coldest weather.

She is called upon to do all sorts and kinds of work, and has discovered that every sort and kind of information that she has ever gained can be put to practical use. The trouble with the woman who is obliged to become a wage-earner is that she is discouraged at the outset because she cannot do one thing so well that she is in instant demand.

The emergency woman when the New York Sun reporter saw her was putting up fruit cake and plum puddings for a long list of customers.

"I used to do this in my married days as a joke; now I find that I can turn a pretty penny by it. Of course, I could not depend on this for my support, but it is a fraction, and it doesn't take so many fractions to make a unite, if they are only important enough to begin with.

"Housewives know the value of the cake and pudding that are prepared in the fall for the Christmas table. There is as much difference as there is in the vintage of a wine that is recently bottled and one that has the bouquet of age."

In her spare moments the emergency woman has perfected herself in the triple need of modern days, manicuring, facial massage and shampooing. She does not care to make her money in this way if better opportunities offer, but she can fill in unemployed hours.

In the neighborhood of private schools she can often be seen, a trim little figure, leading one or two children to their daily tasks, and when school is over she returns to escort them home. Many women are unable to spare a servant or to go themselves while the child cannot be trusted to go alone.

Her care of children extends to a wider field. She takes them to the dentist, to the matinees, to any and all kinds of amusements. Often at children's parties she attends, to help out in amusing them, and on her child list are the names of two little ones whom she takes once every week to visit their grandparents, from whom the parents are estranged.

While you might think that trade would lag in the hot weather, the contrary has been the case, and she has been kept hard at work. Her mail is a large one, consisting of requests from out-of-town folk to send some forgotten article left in the flurry of departure, to do some shopping, to purchase bridge whist prizes to take advantage of some bargain noted in the Sunday papers.

"Just to give you an example," she says between hurried steps from pantry to visitor, "one of my ladies telegraphed me to get her some arrack punch for a 5 o'clock tea she was going to have, and the very same mail I get a hurry call to meet a pet dog and have it taken to a veterinary."

She is called upon often to open and air apartments before the homecoming, to find maids and have them ready—the most herculean labor of all—and in lieu of that to do such work in the apartment as may render it habitable.

Another of her interesting duties is the entertainment of guests who want to shop or to go to places of interest of which their hosts are tired. By filling in a day of this kind she relieves the situation and brings the guests back at night tired and happy, to find the woman of the house delighted to welcome them, having had her own day free.

"My scale of wages, of course, fluctuates with circumstances. Sometimes I am paid by piece work, whatever that may be; again, with a great many of my customers I receive a monthly sum for all services rendered. I keep an account of what I have done during the stated period, and the items of time and services have their separate values; so far no one has ever disputed them."

SHOULD WE SLEEP LONGER?

Women Need Less Repose Than Men —Beerbohm Tree's Rest for a First Night.

"Women, I say without hesitation, need less sleep than men, and I say that after observation of many hundreds of them."

Dr. Josiah Oldfield, the well-known specialist, cannot account for the fact, but yesterday he told a Daily Mail representative that, whether they are of the working classes or of higher stations in the women need, and their nature is satisfied with less sleep than their husbands or other male relatives demand.

Meantime man differs as to what he needs. The following are experiences or advice as to the duration of sleep sent to the Daily Mail by distinguished men:

The Bishop of Ripon: When young, take as much sleep as you need; when old, as much as you can get.

Sir Frederick Treves: The average amount of sleep for myself is seven to eight hours.

Sir George Lewis, the well-known solicitor: I think eight hours sufficient. I sleep nine hours.

Mr. Vincent Hill, general manager of the South-Eastern Railway: I think it is well that people should sleep as long as they can, and that is my practice.

Mr. Beerbohm Tree: I should say in my case eight hours' sleep is better than seven, and nine hours better than eight. I take nine hours whenever I can, and invariably sleep for that period when on a holiday, and as near to it as possible at all times. Further, I consider sleep before any effort, with the power to go to sleep at any time, most valuable. I have cultivated that power, and invariably recuperate by its aid before the exhausting strain of a "first night" or before playing a new part.

Sir Edward Ward, Permanent Under-Secretary for War: I find six and a half hours enough. I daresay I could manage nine or ten hours with an occasional wake up; but I should call that "slacking."

Dr. Josiah Oldfield: It is certain that every man must have a certain minimum of sleep per twenty-four hours. Most find that minimum eight hours, but an enormous number are satisfied with five and a half hours. I always sleep eight hours and regard that as, on the whole, the proper minimum for a man. Certainly five and a half hours is not enough.

Sir Robert Ball: Don't expect an astronomer to confess how many hours of the precious night he wastes by staying in bed.

The Earl of Aberdeen, Lord Lieutenant of Ireland: I find that much can be accomplished in either direction by training and habit. But as to the saying that one cannot burn the candle at both ends I have heard the suggestion that it is one of the ways of making both ends meet.

During the six months which Mr. Charles Frohman, the theatre manager, spent in London recently his hours of sleep averaged not more than five. He rose at 7:30 a. m., and rarely got to bed before 2 a. m., sometimes later.

At the Bank of England a high official said he liked twelve hours whenever he could get it—that is, between Saturday and Sunday. "Other days I don't get enough."

The principal of a leading firm of stock brokers said: "Members of my profession sleep well because we have easy consciences. I myself find nine to ten hours sufficient."—London Mail.

The Circus.

"The circus must have taken $15,000 or $20,000 away from Charlotte," said a calculating business man.

"They more than earned it," declared a man who understands. "If 1,000 children saw the circus and the animals, I don't grudge the money the show got."

Where the return? Certainly the mere two hours' of pleasure under the tent would not be worth so much money to a few children. But it does not end there. What immense treasures for a child's imagination! How vivid will be his memories of some of the sights, and how he will see live forms in every-day objects. How much longer his imagination may live, and when that dies a great part of the beauty and sweetness has gone out of life!

Yes, let the circus come, if it takes away twice $20,000.—Charlotte Observer.

Captured Chinese Flag.

The recruiting office in this city has flung on its walls a Chinese flag which was captured from the Chinese forces by the Ninth Infantry of the United States in command of Col. Liscum.

The flag is twelve feet long and is shaped as an uneven triangle. The base, which was fastened to the pole, is six feet wide. A many colored dragon four feet long, with fiery tongue is striving to reach a bloody moon just out of his reach. The dragon is in this position on the flag to show the Chinese belief that the empire would pull down that moon could it but reach it. Several bullet holes decorate the yellow portion which surrounds the moon and the dragon.

The finest of workmanship is displayed on the flag. The toes, eyes and the fiery moon are carefully inlaid against the sombre background. The Chinese flagmakers consider a well make flag an estimate of their love for the Emperor.

The crimson moon and the fiery tongue do not attract the attention of the observer as does the blood which is spattered in many places on the flag. The blood is sure to remind that war is not of the gentlest occupation.—Wichita Eagle.

Joseph Phillips, originator of the famous Phillips cling peach, the finest canning variety ever produced and the enricher of many orchardists, died in a hospital, at Yuba, Cal., a pauper.

Almost 15,000 women work about the mines in the German empire.

"... Mine has a ...," cried big Sister ... "and Bessie's has the larger. ... shall you call them?"

"... going to call mine Popocata...," said Philip, who was studying ... geography.

"...?" laughed mamma and ... together.

"... want to call Popotoppykettle," ... cried Bessie.

"... might name them both Popo...," cried Edith, still laughing, "... call one by the first end, Popo, ... other by the last, Petl."

"And Pop and Pet for short," added mamma.

It was when the Popocatapetls had grown to be of a good size that Philip and Bessie came in one day with a jet black kitten, very glossy, very small, and very pretty.

"Children!"

"He was all lost, mamma!" cried Bessie, breathless with excitement.

"And he followed us all the way home from school!" added Philip.

"Is he to be a Popocatapetl, too?" asked Edith, mischievously. "You can call him by the middle of the name, you know, and make it Cata."

"May we, mamma?"

Mamma was doubtful, but when papa came home he was positive.

"This is too much, children," he said. "You cannot have three cats, you must give one of them away."

"Oh, papa, course we can't spare Pop or Pet, and Cata is so cunning! Oh! look at him now, swinging on the chair!"

"Isn't he just the cutest"——

"You hear what I say?" interrupted papa. "You may keep whichever two you choose, but the third you must give away in the morning."

Philip and Bessie retreated to the broad window seat in the hall. Their mournful voices now and then reached the sitting-room, where the older ones sat reading, although all seemed uncomfortable because the little ones were unhappy.

Suddenly Edith put down her book and left the room. A few minutes later a peal of childish laughter rang out.

"What a way Edith has with the children!" said Mr. Dale, looking relieved as the laugh rang out again.

"She is a dear girl," said Mrs. Dale.

"I wonder what they are laughing at."

Now, it so happened that the next day was Mr. Dale's birthday, and when he came down in the morning he found upon his chair a covered basket. To its handle was tied a card: "For dear papa. With love from Philip and Bessie. Many happy returns!"

"Mew!" came faintly from within the basket. Then the cover stirred, and up poked Cata's little black face!

Papa sat Cata on his shoulder, and laughed till the tears came.

"Come here, my little rogues!" he called to the children, peeping in at the door. "A man can't refuse his own birthday present."

So the three Popocatapetls stayed with the Dales and were happy ever after.

WHAT HE REALLY MEANT.

Little Harold had been directed by the teacher to write the word "folly."

"I can't," said Harold, "cause my pencil busted."

"Why, Harold, what did you say was wrong with your pencil?"

"It's busted."

"Dear me! Children, can any of you tell what Harold means? I'm sure he hasn't used the right word."

Up went the hand of little Marjorie.

"Ah, Marporie, dear, I thought you would know. What does Harold mean?"

"He meanth that hith penthil ith buthticated." — American Home Monthly.

THE WRONG ILLUSTRATION.

Ten o'clock and the small boy refused to become sleepy.

Father—"Willie, you must go to bed."

Mother—"Yes, Willie, you must go. Just think how long ago the little chickens went to sleep."

Willie (who is an observer)—"But didn't the old hen and the rooster go with them, ma?"

Willie stayed up till eleven.—Lippincott's Magazine.

The Origin of Pearls.

Three principal hypotheses have been offered to account for the origin of pearls. According to one, they arise from secretions caused by the presence of some foreign object, such as a grain of sand, within the shell of the oyster. But it has been shown that fine pearls are not thus produced, but only pearly concretions. Another theory is that pearls are the result of disease in the oyster. The third hypothesis, sustained by M. Seurat, of the Oceangraphic Museum of Monaca, is that the origin of pearls is to be ascribed to the presence of a parasite. The species of parasite differs with the species of oyster, but this mode of origin, M. Seurat believes, is general with all fine pearls. To restore the lustre of a "dead" pearl the outer tarnished envelopes may be removed with acids. Thus the effect produced upon a tarnished pearl by causing a fowl to swallow it is accounted for by the dissolvent action of the gastric juice. —Youth's Companion.

He Would Be a Farmer.

United States Senator E. W. Pettus, of Alabama, who is eighty-six years of age, when asked what vocation he would choose if he were again beginning active life replied: "The high calling of a farmer. I would purchase a nicely located farm and settle down to farming as my lifework, thus guaranteeing to my loved ones and myself the highest and happiest of hours, with a full crib, a full smokehouse and a full measure of usefulness."

FITS, St. Vitus' Dance, Nervous Diseases permanently cured by Dr. Kline's Great Nerve Restorer. $2 trial bottle and treatise free. Dr. H. R. Kline, Ld., 931 Arch St., Phila., Pa.

"Pique-Nique."

The new volume of the Oxford English Dictionary determines authoritatively the English of the word "picnic," so far as English is concerned. Toward the close of the eighteenth century the French used the word pique-nique (of obscure derivation) for a social entertainment of which each guest contributed a share. Early in the next century the English appeared to discover that this form of social co-operation was well adapted for excursions and open air repasts, so that about the middle of the century the word was dissociated from suppers and private theatricals, and so long as an entertainment was in the open air it was a picnic, whether its materials were jointly contributed or not.—The Sketch.

To Cure a Cold in One Day
Take Laxative Bromo Quinine Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25c.

South Africa has a new and profitable industry—the manufacturing of hemp from olive and banana fibers. It realizes from $100 to $167 a ton in London.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle

For the first time in the history of the port of London, a cargo of tea has been discharged by electricity, the Huntsman, of the Harrison line, having discharged such a cargo by a system of continuous rollers worked by electricity in the London docks.

Itch cured in 30 minutes by Woolford's Sanitary Lotion; never fails. Sold by Druggists. Mail orders promptly filled by Dr. Detchon, Crawfordsville, Ind. $1

About 1,750,000 acres grow the world's tobacco.

QUAINT AND CURIOUS.

In Colombia rice is served twice a at the tables of the rich as well as the poor.

Sicily produces about 500,000 tons of sulphur annually, or 80 per cent. of the entire production of the world.

Cincinnati was long conspicuous for pork packing and its trade in hog products before the industry moved farther west and found its center in Chicago. There was a time when Cincinnati might also have been called Porkopolis because of the number of swine in its streets and their exceeding confidence in their right to the sidewalks.

Beneath the soil of the South American republic of Colombia there have just been brought to light some remarkable buried treasures in the line of curious animal-shaped pottery, each incised and made of black clay. These specimens are perhaps the only vestiges left of the vanished empire of the Chibchas, which flourished in this region in pre-Spanish times.

Asbestos can fairly lay claim to the title of being the most useful of all minerals. It has been called a mineralogical vegetable. It is both fibrous and crystalline, elastic, yet brittle, a floating stone, which can be readily carded, spun and woven into tissue. In Germany it is known as stein-flachs (stone flax), and the miners of Quebec give it quite as expressive a name —pierre coton (cotton stone).

Twenty-six letters of the alphabet and nine numerals neatly engraved on an ordinary pinhead. This apparently impossible feat of infinitesimal etching has been accomplished by Eugene Wrenger, an expert steel and copperplate engraver. Every letter and figure can be seen plainly through the microscope or without a glass if one has good eyes. It has been placed on exhibition in a public museum in Philadelphia.

One of the manias of the King of the Belgians is building. King Leopold, who spends almost as much time out of this country as he does in it, has several residences which he seldom or never visits, yet he is constantly adding to them. He has a fine palace in Brussels, but when within his own domains he prefers to spend his time in the country. He is also the richest monarch in Europe so far as real estate is concerned.

Ploughing is done by steam on practically every one of the largest ranch farms. Instead of ploughing just one furrow, as in the olden days, a number of ploughs are attached to the engine and every trip across the field leaves a stretch of newly turned earth ten to twenty feet wide. Twenty-five acres in twelve hours. Three horses work for one engine, although many farmers make the machines do forty acres in twelve hours. Three horses and one man to each plough turn over three acres in one day. The engineer is the principal power in the newer way.

One state of the United States, namely, Texas, is more than eight times as large as Ireland. Its population is only 3,000,000.

The Detroit river tunnel will require 1,000,000 barrels of sand.

PEARLS OF THOUGHT.

Slander is the coward's sword.

Silent goodness speaks loudest.

Our load lifts us up to strength.

Things unreal are foes to righteousness.

Little sins open the doors to large ones.

Activity is the best amen to any prayer.

Nothing sublime is open to the self-indulgent.

The currency of kindness is cash in any country.

Suspicion is the substitute of the slothful for vigilance.

When the heart is lifted up the head often is bowed down.

The spirit of the father never works separation in the family.

A big reputation can be built out of a mighty small character.

There is no virture in the innocence that only fears the wrong.

Only a destitute age counts being rich as the greatest virtue.

People who are far-sighted for faults are nearsighted for virtues.

The best training for the golden streets is clearing earth's alleys.

From the grind of drudgery comes at last the glorious divine spark.

The proof of a faith is not in its prestige, but in its present power.

That day best fulfills its purpose which is a preparation for the next.

He gets little good out of his own faith who sees no good in any other.

You cannot conquer the world for good by whining over its wickedness.

Only the infant thinks of his life as the whole curriculum of the universe.

The last man to improve the world is the one who is satisfied with himself.

The practice of righteousness will cure your propensity to regulate others.

You always will find the poorest player wears the most professional clothes.

The tears that accompany a choking up progress are not always those of repentance.

There is no virtue in the Sunday that makes children say, "I wish it was Monday."

One of the best prayers for peace within is the restraint that waits until the apples are ripe.

Half the problem of keeping in the right road is solved if you will keep within your revenues.

Trouble is the only thing that comes in answer to the prayer for something to turn up.

No man is called to the glory of dragon slaying until he has learned to do little kindly deeds.

If you can keep sweet in a world where selfishness is turning men sour, you are doing more towards its enrichment than all the silver mines of all ages.—Sentence sermons from the Chicago Tribune.

A Great Outside Remedy.
Most pains are of local origin—a "crick" in the back, a twinge of rheumatism, a soreness all over arising from a cold—are all cured by outside applications. The quickest, safest and most certain method is Allcock's Plaster, known the world over as a universal remedy for pain. They never fail, they act promptly, they are clean and cheap. You can go right ahead with your work while the healing process goes on. Sixty years' use has given them a great reputation.

In a cold winter fully 400,000 pairs of skates are sold in the United Kingdom.

Piles Cured in 6 to 14 Days.
Paso Ointment is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

About 2,000,000,000 cigars are smoked yearly in Great Britain.

"Dunnage" means mats and planking for storage of cargo.

TORTURED WITH ECZEMA.

Tremendous Itching Over Whole Body —Scratched Until Bled—Wonderful Cure by Cuticura.

"Last year I suffered with a tremendous itching on my back, which grew worse and worse until it spread over the whole body, and only my face and hands were free. For four months or so I suffered torments, and I had to scratch, scratch, scratch until I bled. At night when I went to bed things got worse, and I had at times to get up and scratch my body all over until I was as sore as could be, and until I suffered excruciating pain. They told me that I was suffering from eczema. Then I made up my mind that I would use the Cuticura Remedies. I used them according to instructions, and very soon indeed I was greatly relieved. I continued until well, and now I am ready to recommend the Cuticura Remedies to any one. Mrs. Mary Metzger, Sweetwater, Okla., June 28, 190[illegible]."

The Kaiser as a Matchmaker.

A curious instance of the active part the Kaiser takes in arranging the marriage of relatives and friends is recorded. A personal aide-de-camp of His Majesty was very much depressed by the lady of his choice giving him a refusal. The same afternoon the Kaiser drove to the house of the young lady, the daughter of a wealthy Berlin banker, and pleaded the cause of his aide-de-camp with such eloquence that the marriage took place a month later.—Reynolds' Newspaper.

A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merits, and made them Remedies of Known Composition.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver or biliousness and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native, medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Weed." Our knowledge of the uses of not a few of our most valuable native, medicinal plants was gained from the Indians.

As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

German, which is spoken by upward of 75,000,000 people, ranks third in number among the four leading languages of Europe, the first being English, the second Russian and the fourth French.

$100 Reward, $100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address

Cookery Scholarships.

Next month the London County Council will award eighteen free scholarships in cookery for domestic servants to be held at the National Training School of Cookery. Candidates must not be less than 17 or more than 25 years of age on July 31, 1907. The course will extend over a period of 12 weeks and those who win scholarships will be provided with dinner and tea on the days on which they attend school. Each will also receive a grant of £5 toward travelling and other expenses.—Daily Graphic.

A Busy Medicine for Busy People.
Brings Golden Health and Renewed Vigor.

A specific for Constipation, Indigestion, Liver and Kidney troubles, Pimples, Eczema, Impure Blood, Bad Breath, Sluggish Bowels, Headache and Backache. Its Rocky Mountain Tea in tablet form, 35 cents a box. Genuine made by HOLLISTER DRUG COMPANY, Madison, Wis.

GOLDEN NUGGETS FOR SALLOW PEOPLE

Foley's Honey and Tar cures the most obstinate coughs and expels the cold from the system, as it is mildly laxative. It is guaranteed. Do not risk taking any but the genuine in the yellow package. Upchurch Drug co.

TYNER'S DYSPEPSIA REMEDY.

Many Have Dyspepsia and don't Know It Read Symptoms.

Do you belch up wind? Do you taste your food for an hour or more after eating? Do you see specks or haze before your eyes? Are you pale and haggard? Does your heart flutter? Are you dizzy at times? Do you have pains in side or back? Do you have risings or pimples on the skin? Are you low spirited? Is there a sour taste in your stomach? Is your breath bad? If so you have dyspepsia, and it is a dangerous condition, don't delay, but take Tyner's Dyspepsia Remedy as directed on label. It is made to just such troubles and symptoms. Tyner's Dyspepsia remedy removes acids from the stomach, strengthens weak stomachs, helps digest your food, stop aches and pains, stop fluttering of the heart, (sometimes called heart disease.) By making the food digest, new blood is made and all pimples disappear. Tyner's Dyspepsia Remedy, sold by druggists, 50c a bottle. Money refunded if it fails to cure. Sold in Clanton by Florence Drug Store; call or write; remedy sent by express

CHARMING WOMEN.

Nothing lends more to persons charm than a clear rosy skin and nothing is so sure to free the skin from moth-spots, sallowness and the effects of chronic constipation as the Dainty Laxakola tonic tablets. 25 cents Florence Drug co

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says:—"I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.

Bottles only. $1.00 Size holding 2½ times the trial size, which sells for 50 cents.

GIVEN UP TO DIE.

B. Spiegel, 1204 N Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Upchurch Drug co.

A Home Made Happy by Chamberlain's Cough Remedy.

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bronchitis. We had two doctors but no relief was obtained. Everybody thought she would die. I went to eight different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I try Chamberlain's Cough Remedy. I did so and our baby is alive and well today.—GEO. W. SPENCE, Holly Springs, N. C. For sale by Upchurch Drug co., Clanton [illegible] Horn, Thorsby.

GUARANTEED REMEDY FOR INDIGESTION.

[illegible] Statement by Florence Drug Co.

When a man comes into this store and calls for any particular indigestion remedy, we always give him what he asks for, but in case he leaves it to us we usually recommend Pepsikola tablets.

Here is a preparation we have been selling right over the counter for years and from actual observation we know it must do good, and really does relieve and cure indigestion and dyspepsia or there would be a steady stream of people coming back for their money, as every 25 cent box is sold with the understanding that you must be decidedly benefited or there is nothing to pay.

You simply try Pepsikola tablets with the understanding that they will steady your nerves, improve your appetite, relieve wind belching, coated tongue, sour stomach, fullness after eating, weakened energy, and other symptoms of indigestion or Florence Drug co., are ready at any time to pay back your money without the least argument.

How Plate Glass Is Made.

The cast plate glass of which mirrors, shop windows and such things are made is prepared from the whitest sand, broken plate glass, soda, a small amount of manganese and cobalt oxides. The glass when perfectly melted is poured upon an iron table of the size required, and the thickness is regulated by a strip of iron placed down each of the four sides of the table. Immediately after it is poured out the molten substance is flattened down by an iron roller, which lowers the glass to the thickness of the strips at the sides. It is then annealed or tempered for several days, after which it is ground perfectly level and polished to transparent brilliancy. The first plate glass was made in 1688 at St. Picardy, France, where the process was found out by an accident, as so many other important methods in manufacture have been discovered, where there were eyes to see the accidents and minds to apply them or the lessons they taught to the advance of art or industry.

A Special Case.

"If Mr. Winslow calls tonight, mamma, what shall I say?"

"Say whatever your heart tells you to say, my dear."

"But this isn't one of those cases, mamma. There is nothing to Mr. Winslow except his money."—Cleveland Plain Dealer.

BEAUTY MORE THAN SKIN DEEP.

Every one who wants a good healthy color, and clear skin free from biliousness, sluggish liver and chronic constipation should get a package of Dainty Laxakola tonic tablets, nature's sweet restorer. Florence Drug co.

PUBLIC SPEAKER INTERRUPTED.

Public speakers are frequently interrupted by people coughing. This would not happen if Foley's Honey and Tar were taken, as it cures coughs and prevents pneumonia and consumption. The genuine contains no opiates and is in a yellow package. Upchurch Drug co.

Orino Laxative Fruit Syrup, the new Laxative, stimulates, but does not irritate. It is the best Laxative. Guaranteed or your money back. Upchurch Drug co

The Oldest Sense of Humor.

The oldest idea of humor is surprise. This the child exhibits (for that which is oldest we shall find in the youngest) when it hides and cries "Boo!" both surprising and frightening its senior, be this senior father, mother, brother, sister or friend. One may find this primal sense of humor distributed through the modern short story. Frequently the turn in the plot, if not in its development, hinges upon this child humor of surprise. Even some grownup folk will pull a chair from under one, thus showing themselves still children in their sense of fun. The verbal conceit found in much of the verse in the pages of modern comic papers is of this same class of humor and furnishes conclusive evidence that a number of men and women are at child's play in literature. Poems which end contrary to their foreshadowings are of this sort.—New York Herald.

FOLEY'S HONEY AND TAR
The original LAXATIVE cough remedy.

For coughs, colds, throat and lung troubles. No opiates. Non-alcoholic. Good for everybody. Sold everywhere.

The genuine FOLEY'S HONEY and TAR is in a Yellow package. Refuse substitutes.

Prepared only by Foley & Company, Chicago.

TYNER'S DYSPEPSIA REMEDY.

Many Have Dyspepsia and don't Know It Read Symptoms.

Do you belch up wind? Do you taste your food for an hour or more after eating? Do you see specks or haze before your eyes? Are you pale and haggard? Does your heart flutter? Are you dizzy at times? Do you have pains in side or back? Do you have risings or pimples on the skin? Are you low spirited? Is there a sour taste in your stomach? Is your breath bad? If so you have dyspepsia, and it is a dangerous condition, don't delay, but take Tyner's Dyspepsia Remedy as directed on label. It is made to just such trouble and symptoms. Tyner's Dyspepsia remedy removes acids from the stomach, strengthens weak stomachs, helps digest your food, stops aches and pains, stops fluttering of the heart, (sometimes called heart disease.) By making the food digest, new blood is made and all pimples disappear. Tyner's Dyspepsia Remedy, sold by druggists, 50c a bottle. Money refunded if it fails to cure. Sold in Clanton by Florence Drug Store; call or write; remedy sent by express

CHARMING WOMEN.

Nothing lends more to personal charm than a clear rosy skin and nothing is so sure to free the skin from moth-spots, sallowness and the effects of chronic constipation as the Dainty Laxakola tonic tablets. 25 cents Florence Drug co

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says:— "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.

Bottles only. $1.00 Size holding 2½ times the trial size, which sells for 50 cents.

GIVEN UP TO DIE.

B. Spiegel, 1204 N Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Upchurch Drug co.

The Ga.-Ala. Business College, Macon, Ga.

A Home Made Happy by Chamberlain's Cough Remedy.

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bronchitis. We had two doctors but no relief was obtained. Everybody thought she would die. I went to eight different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I try Chamberlain's Cough Remedy. I did so and our baby is alive and well today—GEO. W. SPENCE, Holly Springs, N. C. For sale by Upchurch Drug co., Clanton and Thorsby.

GUARANTEED REMEDY FOR INDIGESTION.

Assuring Statement by Florence Drug Co.

When a man comes into this store and calls for any particular indigestion remedy, we always give him what he asks for, but in case he leaves it to us we usually recommend Pepsikola tablets

Here is a preparation we have been selling right over the counter for years and from actual observation we know it must do good, and really does relieve and cure indigestion and dyspepsia or there would be a steady stream of people coming back for their money, as every 25 cent box is sold with the understanding that you must be decidedly benefited or there is nothing to pay.

You simply try Pepsikola tablets with the understanding that they will steady your nerves, improve your appetite, relieve wind belching, coated tongue, sour stomach, fullness after eating, weakened energy, and other symptoms of indigestion or Florence Drug co., are ready at any time to pay back your money without the least argument.

How Plate Glass Is Made.

The cast plate glass of which mirrors, shop windows and such things are made is prepared from the whitest sand, broken plate glass, soda, a small amount of manganese and cobalt oxides. The glass when perfectly melted is poured upon an iron table of the size required, and the thickness is regulated by a strip of iron placed down each of the four sides of the table. Immediately after it is poured out the molten substance is flattened down by an iron roller, which lowers the glass to the thickness of the strips at the sides. It is then annealed or tempered for several days, after which it is ground perfectly level and polished to transparent brilliancy. The first plate glass was made in 1688 at St. Picardy, France, where the process was found out by an accident, as so many other important methods in manufacture have been discovered, where there were eyes to see the accidents and minds to apply them or the lessons they taught to the advance of art or industry.

A Special Case.

"If Mr. Winslow calls tonight, mamma, what shall I say?"

"Say whatever your heart tells you to say, my dear."

"But this isn't one of those cases, mamma. There is nothing to Mr. Winslow except his money."—Cleveland Plain Dealer.

BEAUTY MORE THAN SKIN DEEP.

Every one who wants a good healthy color, and clear skin free from biliousness, sluggish liver and chronic constipation should get a package of Dainty Laxakola tonic tablets, nature's sweet restorer. Florence Drug co.

PUBLIC SPEAKER INTERRUPTED.

Public speakers are frequently interrupted by people coughing. This would not happen if Foley's Honey and Tar were taken, as it cures coughs and prevents pneumonia and consumption. The genuine contains no opiates and in a yellow package. Upchurch Drug co.

Orino Laxative Fruit Syrup, the new Laxative, stimulates, but does not irritate. It is the best Laxative. Guaranteed or your money back. Upchurch Drug co

The Oldest Sense of Humor.

The oldest idea of humor is surprise. This the child exhibits (for that which is oldest we shall find in the youngest) when it hides and cries "Boo!" both surprising and frightening its senior, be this senior father, mother, brother, sister or friend. One may find this primal sense of humor distributed through the modern short story. Frequently the turn in the plot, if not in its development, hinges upon this child humor of surprise. Even some grownup folk will pull a chair from under one, thus showing themselves still children in their sense of fun. The verbal conceit found in much of the verse in the pages of modern comic papers is of this same class of humor and furnishes conclusive evidence that a number of men and women are at child's play in literature. Poems which end contrary to their foreshadowings are of this sort. —New York Herald.
